## Know Your Neighbor

With Rankin being a great Texas town, we all know our neighbors and people almost daily. Right? Without sneaking a look, you can figure out who the dressed person is. The pictures were taken in Rotan and are printed, as were all the pictures of that time, in the card.

The Rankin (Texas) News —  
Thursday, July 11, 1974

fans, brings to an  
vacation. This time  
is commonly called  
vacation." Now as  
now, when someone  
that they had a work-  
on, that means only  
they didn't have e-  
ey to get out of

A couple of people called to say  
that their last issue of the News  
had four misspelled words in it  
and I had to assure them that  
they probably got hold of our  
proof copies by error and that  
the big majority of the papers  
that went out were all correct.

case, that's not exact-  
had enough money in  
out of town. Getting  
l, that would have  
her problem. Besides,  
hard for me to leave  
my services are so  
ired here at the  
in other capacities.

Actually, all big papers do  
that. They will crank up their  
presses and start running and  
proof reading, stop the presses  
and make corrections, then run  
off "clean" copies. These are  
usually mailed out to the home  
town subscribers and advertis-  
ers while the proof run is sent  
as far away as possible. And

that's the truth.

Then there's other reasons for  
my not being able to get too far  
away from home. About twice  
a week I have to tell Skinny  
Taylor what day of the week it  
is, and if I leave, some of the  
golf sharks out at the club  
are short on pocket money for  
a while and I don't want it to  
be said that I've contributed to  
any poverty problems. But it's  
nice to know you're needed so  
it's back to work.

### FIRE ONE —

I noticed where over in Dallas  
they thought that someone may  
have taken a shot of Vice Pre-  
sident Ford the other day. As  
it turned out, no shot was ap-  
parently fired, still, it may all  
work out to our advantage.

If enough politicians from  
Washington get the feeling that  
it's not safe to visit Texas, we  
might have a bit less of the  
"benefits" these folk are noted  
for spreading about — like tak-  
ing home a sack full of money  
from first one contributor and  
then another.

In fact, it might work out  
pretty well if we in Texas could  
get some sort of agreement  
out of Washington to the effect  
that if they won't, come down to  
Texas, we won't go to Washing-  
ton. It's worth a try.

### THE WIRE TRICK —

We're all familiar with the  
old wives tale that holds that if  
you will wear something made  
of copper—a ring, a bracelet or  
just a piece of wire—your arthri-  
tis will quit acting up. There  
are people who swear by this  
and who will tell you that they  
have been "cured" by this me-  
thod. I heard of one woman who  
bought her a copper bracelet in  
Acuna and before she got back  
as far as Sonora, her arthritis  
was better.

Now I'm not going to say that  
it happened this way in her par-  
ticular case but I've been over  
in Acuna too and the stuff I  
bought made me feel better —  
at least for a little while. I'll  
say this, that stuff they give  
you over there that looks like  
water is sure hot but if you get  
enough of it down you, you  
wouldn't feel it even if you had  
a broken leg.

decided to try the copper bit.  
There are several reasons for  
this; one being that I'm told  
that if you believe it will work  
then it will. Another reason is  
that it's cheap and if I can talk  
myself into believing that it's  
working, well fine. If it doesn't,  
I can always bring home a gal-  
lon of that Acuna water.

One excuse is as good as a  
nother.  
To get on with the story, I

## REDDY'S VACATION TIPS

### Clip and save this vacation checklist.

- REFRIGERATOR OR FREEZER:** Change thermostat control to slightly warmer (or "Vacation") setting according to the manufacturer's recommendations.
- DISHWASHER:** Make sure it's empty. Shut the door, but do not latch.
- DISPOSER:** Run and flush with cold water.
- ELECTRIC RANGE:** Make sure all switches are in the "Off" position.
- WASHERS:** Turn off water supply at faucets.
- WATER HEATER (ELECTRIC):** Turn off at circuit breaker panel. When you return, run a small amount of water from a hot water faucet to make sure there is water in the tank before you turn the circuit on.
- TRASH COMPACTOR:** Remove any accumulated trash.
- TELEVISION SETS:** Unplug from electric outlet and disconnect the antenna lead-in cable.
- CLOCK RADIOS, ETC.:** Check these and all other items with automatic "On-Off" controls. Disconnect the ones that won't be needed.
- LIGHTING:** Be sure that all lights are off except those needed for security, such as: 1) yard light and/or other exterior lighting with automatic controls — on at dusk, off at dawn; 2) portable lamp in living area with automatic control; 3) hall or bathroom light.
- AIR CONDITIONING:** Normally, air conditioning should be turned off completely while on summer vacation. However, if there is anything in your home that might suffer heat damage, the thermostat setting could be raised 5 to 10 degrees above normal operation and the unit left on. For comfort, you might have a friend or neighbor turn on the unit the day of your return.
