This week by request we publish the Preamble and Constitution of Society of Texas.

Now that this new party is organizing and have made a call for a meeting of a Central Committee in this county to take action in regard to putting a choice of candidates in the field, &c., and as many inquiries have and are being made in regard to the plans, etc., of the organization and what they will do, and the Preamble and Constitution only declares purposes and objects, not giving the plans fully by which the objects are to be attained, and ferent constructions put on the constitution, we think it due the people, in a government like ours, that they be informed all about what they are asked to support with their votes at the ballot box. Therefore we deem it not out of place to ask a few questions, and hope they will be answered by the Central Computs on its own constitution, and Mr. Editor, will the citizens of Jack
