WOODWORK

I KNFW IT WOULD happen someday. Pakistan reports that a "super bomb" has been developed from that country's natural resources. Few details were added to this ominous report, but any day now I expect the little country to threaten to blow up Russia, Red China, all of Vietnam and the United States unless we all shape up.

If the threat would succeed, it might not be such a bad deal.

THE APRIL 2 issue of Grit, a family newspaper which has been published more or less forever, includes a long article on Girlstown, U.S.A., and the good work they are doing there. The statement which amused me, but which surely must have incensed the residents of Whiteface, was the caption which described Girlstown as a colony of one-story buildings on flat farmland nine miles "south of the village of Whiteface, Tex."

They surely won't appreciate being called a village, although there's not a lot there. It's kind of like the two fellows who were fighting on the street corner who were hauled up before the judge. The judge asked one of them what they were fighting about.

"Well, judge, he called me a dirty liar."

So the judge asked him, "Are you?" and the man replied, "Yeah, I guess so, but I got a right to resent it, ain't I?"

THE PLAGUE which killed so many persons during the Middle Ages again is spreading, according to reports from the World Health Organization.

Responsible for the deaths of one-fourth of Europe's population in the 14th century, the plague's fatality rate had been reduced to 4,628 cases around 1950. But around 1960 a rise in the incidence of the dread disease was noted. Three persons died of the disease in the United States during 1966.

The name of this plague is the "Black Death." However, it likely will be changed to something less suggestive when the civil rights crowd gets around to noticing it.

PIONEERS OF YESTERYEAR

By EVALYN PARROTT SCOTT

PIONEERS OF YESTERYEAR - Shown above are Mr. and Mrs. W.N. Humphreys and children who came to the Sudan area in 1924. From left to right are Mrs. Humphreys, John, Dorothy, Jim, Arlis, Mr. Humphreys. Other children born after the couple moved here were Ruby, Raymond, Carl Don.

William Northrup (Bill) Humphreys was born in 1887 in Taylor County, Texas. His parents were Mr. and Mrs. William Humphreys and the family moved to Rumsels County before Bill entered school. He attended and graduated from the Wingate Public School and attended the Draughn's Business College in Fort Worth. After graduating in 1917 Bill returned to the ranch and his favorite pastime "breakin broncs".

In the meantime, he met the future Mrs. Humphreys, who was Mary Magdalene Taylor, daughter of Mr. and Mrs. I.D. Taylor. She was born in 1898 in Bell County near Bartlett Texas.

Lena attended Bartlett Public Schools until she was forced to withdraw to help take care of six younger brothers.

W.N. Humphreys and Lena Taylor were married April 14, 1917 at Cleburne, Texas. They lived in the Bartlett vicinity and farmed. After hearing of the new frontier in farm land that was opening up on the great Plains of Texas, Bill and his brother came out to have a look-see, and Humphreys bought land and built a two room dwelling and a barn.

Upon completing the build-

ings Bill returned to gather up the family and belongings and started the journey to the plains in a Model T Ford. The family arrived Christmas Eve Day, 1924 and as they approached their place they saw clouds of smoke in the sky. And, just as they feared, it was coming from their place. When they drew near they saw five men fighting a grass fire trying to save their house and barn. The group was successful and helping with the fire fighting was W. T. (Tobe) Vereen, a member of another area pioneer family.

The Vereen farm (where the Jack Fishers reside now) and the James Brothers Ranch House were the only houses within miles of the Humphreys. Within the next few years, however several families had moved into the area.

The Humphreys brought to the Plains four children including Arlis who married Bula B. Thompson and resides near Amherst. They have four children and 9 grandchildren. Dorothy Humphreys, who married Loyd Franklin and lives in Clovis where they are theatre owners. The Franklins have three children and three grandchildren. John married Edith Nicholson, farms near Sudan, and has three

sons. Jim Humphreys, the youngest when the family moved here, married Viola Quillet and farms near Amherst. They have two children.

In 1925 the Humphreys built the "big house" and moved into it. Later the Humphreys were blessed with three more children born after their move to Lamb County.

They are Ruby Loe, who lives in Lubbock and has four children; Raymond married Artie Jewel Wilson, farms near Amherst and operates the Amherst Variety, and they have one son; Carl Don, the youngest of the children, married Anna Wilson, and is assistant Coach and teacher in the Lorenzo schools.

Living closer to Amherst than Sudan in the early days, the family traded in Amherst as there were no roads, just trails and the route to Sudan was so winding then that it added up to several more miles than the present route of 10 1/2 miles.

The Humphreys remember their first trip to Sudan and seeing the old General Store, the Hotel and the Railroad depot.

The two older children Arlis and Dorothy started school at Amherst, but after one year a group of farmers built roads and the two then rode buses and attended Sudan schools. The Humphreys resided in the Sudan school district and since the enrollment of these two in 1925 there has always been an Humphreys child enrolled at the school. This year the son of John is attending; and next year a great-grandchild will move into line and attend the schools. He is the oldest son of John Allen Humphreys and wife, Sandra (Haragan) Humphreys.

The "Big House" built by Mr. and Mrs. Humphreys in 1925 was considered a "mansion" in those days having six rooms and the Humphreys still reside in the house, modernizing it from time to time. The two helped organize the Church of Christ in Amherst where the family attends church and plans are being made for a reception for the couple to be held in the church April 16 on the occasion of their fiftieth wedding anniversary.

CARD OF THANKS

It was rumored around the show board meeting that Sudan merchants wouldn't be able or wouldn't buy the Sudan Club animals at a premium price. These rumors

even went so far as to say that Littlefield, Spade and Amherst would wind up buying a lot of Sudan animals.

But, due to a lot of hard work and cooperating merchants our animals topped the show in prizes as well as money.

It was exactly the opposite of the rumor, as Sudan animals sold for much higher average than those of any other town. You might say that Sudan set the pace for the sale.

Due to your efforts, we can raise much better animals next year. Thanks for getting behind us. It's the little something extra that counts.
