### How It Looks From Here

By RAY FREEDMAN

"We've come a long way Baby" We sure have men. Are you aware that in less than 500 years, the men of this country have managed to all but eliminate possibly the only place in the world that could have been named as a paradise?

When the first white man landed on the shores of the coast of this country, they were greeted by the red man, who for all intents and purposes, had the "World by the tail". He lived in a country that had virtually no taxes, no national debt, no draft (voluntary or otherwise), very little disease and almost no hunger. He didn't worry about problems. No one else's war even entered his mind. He lived in a society where the women did most of the work, and left him to do nothing but hunt and fish for pleasure. Perhaps if we let this ERA go on long enough, the pendulum will swing back and return us to that panacea.

We have heard several comments lately about the rude and indeed illegal attitudes of some drivers. When the school bus is stopping to load or unload our children, some drivers are ignoring the law and passing the bus, endangering the lives of the children. Perhaps they do not realize they are breaking the law, but they surely must know the danger they are causing. If some of the bus drivers would take it upon themselves, as part of their job to protect the children, to report the license numbers of these violators, perhaps the children would be in a safer situation when leaving the bus.

Money can not buy Love, Health, no Happiness. Matter of fact, it can't even buy what it did last year.

Most have wondered at some time or other, why it is that the more taxes you owe, the harder it is for the government to collect same.

We ran across this item in the pages of Publishers Auxiliary, a weekly newspaper for the publishing trade.

The United States Postal service, which already is suffering from financial problems, has now run into problems with the Internal Revenue.

According to published reports, the IRS has been trying, without success, to collect some \$10 million in delinquent taxes.

The root of the problem lies in the fact that one government agency can not institute a lawsuit against another government agency.

Perhaps we could all be listed as government agencies, since some 50% of our monies travels in that direction.

## Christmas Greetings

### From The Hursts

The Christmas season is upon us. The hustle and bustle of trying to get all the gifts bought and wrapped surrounds us. Materialism is at it's height. Many will forget or neglect the birth of our Savior, Jesus Christ! Christmas is the season to commemorate the coming of Jesus. We celebrate the fact that God's only Son came as a human being to redeem us, change us, and show us how to live. Not only was His coming a historical fact, but for many of us it is an experiential reality. Jesus still comes and lives within persons who receive Him.

Last week I saw the real meaning of Christmas displayed. Five persons (two adults and three children), passing through our community, were stranded and needed help. Because of the Sudan Community Fund received at the Community Thanksgiving service, we were able to help. These people received food, lodging, and car repairs. Even greater than this was the effective witness they received from Sudan people. All involved in this went beyond the "call of duty". This reminded me of the time Jesus spoke about feeding the hungry, giving water to the thirsty, welcoming the stranger, clothing the naked, and visiting those in prison. He said, "Truly, I say to you, as you did it to one of the least of these my brethren, you did it to me." When we give of ourselves to others, we are really giving ourselves to the Lord.

This Christmas, remember it's true meaning. The greatest gift you can give this Christmas is to give yourself to God.

Merry Christmas,  
Kerry, Kim, and Kurt Hurst
