## Stock show highly successful

A highly successful 1972 Cochran County Junior Livestock Show terminated last Tuesday night with in excess of \$13,500 in the till from the equally successful sale.

The sale total of \$13,502.80 did not quite equal the \$14,692.80 receipts of the 1971 sale, but with less entries and higher quality animals, was considered somewhat superior to last year's show.

Top winner this year was Susan Polvado, 11-year-old daughter of Mr. and Mrs. Bob Polvado of Morton, who is a member of the Cochran County 4-H Club, who showed her heavyweight Hereford to the Grand Championship in the show. Her 1,036 lb. calf was purchased by Mike Dorr of Doss Thriftway Supermarket for \$1 per pound.

Other top winners were Donnie Kuehler who showed his 208 lb. Hampshire barrow to the grand championship in the swine division and LeAnn Dunlap, who showed the grand champion in the lamb division, an 80 lb. Southdown.

Other grand champions included: Brad Akin, GC Finewool; Deborah Young, GC Crossbreed lamb and Coy Merritt, GC Medium wool lamb.

While the sales receipts for this year's sale were slightly under that for 1971, they compare very favorably with the \$9,000 plus received in 1970 and \$8,020.68 totalled in 1969.

In the reserve championship category, the field consisted of Debbie Polvado, sister of Susan, showing her lightweight Hereford to the second place; Ralph Mason, RC Duroc barrow; Joann Whitehead, RC Finewool lamb; Marlon Zuber, RC Crossbreed lamb, Jim Whitehead, RC Medium wool lamb and Trey McClung, RC Southdown lamb.

Prior to the start of the sale Tuesday night, the special awards were presented, including:

Showmanship awards:  
Beef division—Barry Zuber.  
Lamb division—Trey McClung.  
Swine division—Barry Zuber.

Herdsmen awards:  
Steer division — Cochran County 4-H Club.  
Swine division — Pep FFA chapter.  
Lamb division — Cochran County 4-H Club.

Floor prices set before the sale began were: Beef \$32.50; Hogs, \$25 and Lambs \$28.50.

Packer buyers for the lambs and hogs were Lamesa Hog Company.

Prices paid for the grand champions in each division and class included:

Susan Polvado's grand champion steer, \$1,060.  
Donnie Kuehler's grand champion barrow, \$166.40.  
LeAnn Dunlap's grand champion lamb, \$120.00.  
Brad Akin's Finewool lamb, \$166.65.  
Deborah Young's Cross Breed lamb, \$74.20.

Coy Merritt's Medium Wool lamb, \$198.

Several of the youngsters who competed in this show entered the Levelland show last weekend, with a Morton girl and a Whiteface boy taking the Grand Championship and the Reserve Grand Championships in the steer division. Rusti Cole-

THAT'S HOW WE DO IT . . .

SEVENTH GRADE STUDENT WICKIE MARQUEZ of Morton Junior High School indicates points of interest in a display in her room to her father and brothers who toured the school during open house held by Morton schools last week in observance of Public Schools Week in Texas. The open

house afforded a good chance for the parents to visit with their children's teachers and to view the many displays prepared by the students in various school activities. Hundreds of parents turned out for the event which is held annually.

## Chamber going into 'show biz'

The Morton Area Chamber of Commerce is "taking to the air." To the air via the radio waves of radio station KRAN, that is.

A new half-hour radio show to begin at 11 a.m. each Saturday will kick off its inaugural performance at 11 a.m., Saturday, March 18, chamber president Wayne Willcox announced. Purpose of the show is to acquaint the general public, and especially the general membership of the chamber, with the day to day activities of the chamber, to inform the public of its functions and accomplishments and to help its members to find out ways in

which the organization can be of service to them.

The show will have a public participation and question and answer format, with its success depending largely on how well the people of the Morton trade area participate. All area residents are invited and urged to write or telephone questions to the radio station which will be answered on the air by members of the chamber board of directors who will be present on the show.

Hipockets Duncan, KRAN manager, will act as master of ceremonies for each show with at least two other members of the board rotating on the show each week.

Mainly, the sessions will deal with subjects and activities dealing directly with the chamber, but Duncan indicates that there will be sufficient leeway given so that just about any subject of importance to the community can be discussed.

"This type of show can only be as successful as the community will make it," Duncan stated in urging the local populace to write or phone their questions in to the radio station.

"Get it off your chest and give us a chance to chew on your bones of contention. If we don't know the direct answer, maybe we can talk it out until we all understand it better," he concluded.

## Interest high, booking low in cotton crop contracting

South Plains cotton producers showed a great deal of interest in contracting their

1971 crop at the 28 cent level, according to W. K. Palmer, Officer-In-Charge of the Cotton Division's Lubbock Office.

### Salvation Army begins annual drive Wednesday

The Salvation Army fund drive got under way Wednesday morning with all captains and workers beginning their solicitations, according to Bob Travis, Chairman of the Salvation Army Service Unit Committee.

Mrs. Neal Rose is serving as drive chairman for the annual fund raising drive in Morton. She has announced the goal this year is \$750. The drive will end Friday, March 24.

The Salvation Army helps many thousands of people each year in the state of Texas. It furnishes food, clothing, shelter, medicine and any other type of need that come to people throughout the nation.

"If you are not contacted soon and you would like to be a part of our Salvation Army drive here in Morton, you may bring or send your donation to me at the school office or my home or we will be happy to pick your contribution up if you will just contact us," Mrs. Rose stated.

However, only a small amount of the South Plains crop had been booked by early February.

Contract prices ranged from 26.50 cents for all cotton regardless of quality to 30 cents for the Acala varieties. Some contracts specified 28 cents for all cotton with premium micronaire (3.5 - 4.9) with discounts for all cotton with micronaire outside the premium range. Most contracts specified prices of 23 to 25 cents for below grade cotton.

The combined estimates from Cotton Division field personnel in all cotton classing offices in Texas showed about eleven percent of the state's crop was under some kind of sales agreement by early February. Most active contracting was in the Corpus Christi and Harlingen territories where 65 to 70 percent of the crop was booked.

Statewide prices ranged from 32.00 to 34.00 cents per pound for medium staple qualities down to 26.50 to 28.00 cents for short staple cotton. These prices generally

NUMBER ONE BARROW . . .

DONNIE KUEHLER'S Hampshire barrow took the grand championship of the swine division at the junior livestock show last week. He was later rewarded for his long hard days of work with the hog when it brought \$166.40 at the show sale. Donnie is the son of Mr. and Mrs. Ben Kuehler of Morton.

## Mayor, city council plotting 'really effective' cleanup drive

A Morton cleanup week that will really show some visible results was plotted by Mayor Donnie Simpson and the city council at the regular meeting Monday night.

Official cleanup week was tentatively set at the meeting for the week of March 13 to April 1. Those dates were to be confirmed up and a proclamation by the Mayor was to be issued later in the week. City councilman Jerry Scheaffer was appointed by the Mayor to coordinate the planning for the cleanup drive.

"We have had cleanup drives all during the six years that I have been in the city government, but I have never seen one that was really successful. The nearest I ever came was in 1970 when the women's clubs led us in the 'Join Us For Progress' drive, and it was as good as any I was only because the ladies got into it," Simpson said.

The entire resources of the city sanitation department will be put at the disposal of the public during the entire week and to haul away any type of trash or waste that the citizens direct them to.

Much more planning and preparation will go into this campaign than has been expended in the past and city personnel and Scheaffer invites any ideas that anyone may have to make the drive more successful.

The Morton Tribune and Radio Station KRAN have pledged their full cooperation

in publicizing the cleanup and also invite ideas from the public.

Scheaffer said that all clubs and organizations in the Morton area will be contacted this week and asked to participate and help plan the week.

"This will be my last official act as Mayor, and I sure do want it to be a successful one," the Mayor concluded.

## City, school elections open absentee voting

Absentee voting in the city, school and hospital district elections to be held April 1 in the county got underway Monday, March 13 and will end at 5 p.m. Tuesday, March 28.

Absentee ballots for the Morton and Whiteface city elections may be cast at the respective city halls between the hours of 8 a.m. and 5 p.m. The school election absentee ballots may be cast during the same hours at the office of the respective school tax assessor-collector's office. The Cochran Memorial Hospital District election ballots may be cast at the same place as the school ballots.

Election officials have urged all those who expect to be out of the county on election day, to cast their absentee ballot during this period.

## Interest on national debt big tax drag on countians

What is it that Cochran County residents pay three times as much for, via their Federal taxes, than aid to education?

What is it that takes a bigger piece out of their U. S. tax dollar than Federal spending for pollution control, aid to housing, price support for agriculture, manpower training and the space program, all combined?

Interest on the national debt, that's what.

Because the ceiling on the national debt, \$430 billion, is about to be reached, the Nixon administration, faced with a massive deficit in the next fiscal year, has requested a multi-billion boost in the legal debt limit.

Since \$430 billion is a sum too colossal to grasp, it is broken down for better understanding.

If it had to be paid off at this time and if everyone in Cochran County and in the rest of the country had to chip in an equal share to liquidate it, it would require \$2,160 from every man, woman and child, or more than \$8,000 per family.

Since there is, of course, no plan to pay off the debt, it presents no immediate problem.

What is of concern, however, is the huge amount of interest that must be paid on it annually.

It will total no less than \$21.2 billion during the next fiscal year, second only to the cost of national defense, the new budget shows.

Residents of Cochran County will be paying approximately \$488,000 toward these interest charges, in line with their normal share of the overall tax load. Per local family it amounts to some \$350.

Since 1941, when Congress moved to put a limit on Federal spending, during Franklin Roosevelt's presidency, by placing a ceiling on the national debt, there have been many changes in the ceiling.

Congress has raised the legal limit 23 times in the subsequent years, as Federal spending continued to mount. As a result, the ceiling is now many times as large as it was initially.

The annual interest charges have grown proportionately. Since 1960 alone, they have climbed from \$9.2 billion a year to the current rate of \$21.2 billion.

### LEADERSHIP LAB

The 1972 State 4-H Leadership Lab will be held July 31 to August 5 at Lake Brownwood, according to George McArthur, 4-H and youth specialist. Purpose of the annual event is to provide learning experiences in leadership and human relations dealing with the way people live and work together in real-life situations. Any 4-H'er 14 years of age or older may apply at the local county extension office. Adult 4-H leaders and county extension agents may also apply.

## Emlea Smith Club tours museum and state school

Members of the Emlea Smith Junior Study Club toured the West Texas Museum and the Lubbock State School March 11. Mrs. Slayback, volunteer, guided the club through the museum and pointed out

displays and relics of special interest. She started the tour in the Hall of Man with the first evidence left by the remains of the Elephant Hunters up to the settlement of Lubbock and the South Plains by pioneers. She told about the hardships the settlers endured but added with the railroads completion, families were able to obtain "finery" from the East. Mrs. Slayback concluded the tour by telling the members some of the future plans for the museum which include a ranch headquarters in the authentic recreation of dug-outs, ranch houses and items pertaining to the early South Plains. Completion is expected by 1976, the bi-centennial of the United States.

Following lunch, members met at the Lubbock State School for the second tour. The group was lead through one non-ambulatory dormitory and several ambulatory dormitories. Other areas pointed out were the school's fully equipped infirmary, complete with dental facilities, emergency room, laboratory and pharmacy. The campus also maintains a large gymnasium, school canteen and recreational facilities.

## Future Homemakers choose Profiles of Youth as theme

Profiles of Youth is the theme of National Future Homemakers of America Week, March 19 through 25. More than half-a-million members in 11,000 FHA and HERO-FHA chapters throughout the United States and its territories will carry out special activities and observances to point up the profiles of the youth who are members of this national organization for home economics students in the secondary schools.

National President, Marsha Bowen, a high school senior at Spanish Fork, Utah, refers to National FHA Week as "an opportunity to make the Future Homemakers of America organization a familiar profile of leadership among our schools, communities and nation."

As an integral part of the home economics education program in the secondary schools, FHA provides opportunities for the development of creative individual and group leadership in home, school and community activities and for working cooperatively to promote democratic principles.

FHA chapters for students in consumer and homemaking education and HERO-FHA chapters for students in home economics related occupations courses, encourage the continuous growth of individual members in terms of their increasing ability to make constructive decisions. FHA offers experiences which help prepare these young men and women members for adult roles in society.

Through individual and group activities, Future Homemakers of America builds character, develops poise, helps members adjust to social situations, encourages community participation, promotes friendliness and teamwork, teaches leadership, responsibility, and preparation for a vocation.

Activities at all levels, national, state and local are youth directed. Twelve national officers elected annually help develop and promote the National Program of Work and plan and preside over the annual National Meetings. The FHA members themselves decide on their goals and purposes and plan their activities and projects.

National headquarters are located in Washington, D. C.

The Texas Association of Future Homemakers of America has over 75,000 members in 1600 chapters. These chapters are participating in FHA Week activities to develop the national theme of Profiles of Youth.

The annual state meeting of the Texas Association will be April 21-22, 1972, Con-

vention Center, Fort Worth. More than 5,000 members and advisors are expected to attend.

Highlights of the meeting include talks by Don Williams, Pepperdine University, Los Angeles, California, and Kathryn Cawley, Home Economist with Lone Star Gas Company, Abilene; and a special presentation on HERO-FHA chapters.

## Texas Heritage program given for YM Study Club

The YM Study club met Thursday, March 9, in the home of Mrs. Jerry Winder for a program on Texas heritage. Introduced by Mrs. Maxine Yeary, Mrs. Margaret Masten presented the program.

Introduced by Mrs. Maxine Yeary, Mrs. Masten reviewed the impact of barbed wire on the Texas plains. She told the members that the XIT Ranch in the panhandle fenced over three million acres, more than any single spread in Texas. She continued by saying that fencing and a drought led to the Fence-Cutter's War in 1883. Finally, Governor John Ireland and a special legislature pronounced fence-cutting a felony. She displayed a 1888 Texas history book which belonged to her grandmother. Several extremely

biased passages were read to the need for objectivity in history.

In the business meeting the officers were elected for the 1972 year: president, Mrs. Frances H. vice president, Mrs. Betty Wynn, secretary, Mrs. Pat Clark; treasurer, Mrs. Vivian Nebbutt; auditor, Mrs. Murdock; parliamentarian, Mrs. and historian, Mrs. Nancy Key.

Mrs. Phyllis Redman, president announced that the club had received notice of achievement for community service for 1970-72 from Sears, Roebuck and Company. She also urged members to attend the District convention in March 17-18.

Mrs. Flora Bryant, Morton educator, will be an official, voting delegate at the convention.

She is among the 1,390 TSTA local association members who have been certified as representatives to the 1972 House of Delegates, which will meet twice at the convention to discuss and act on proposed amendments to the TSTA Constitution and other business.

The official delegates are elected from the 459 TSTA local associations throughout the state. They are certified by districts on the basis of one delegate per 100 members or fraction of 100. Every local association is entitled to at least one official delegate.

TSTA, with a record 147,330 members, is the largest professional association in Texas. Its membership includes teachers, principals, superintendents, supervisors, school nurses, secretaries, and other school personnel.

Supt. Archie A. Roberts of Beeville, the state TSTA president, has set the association's theme for 1971-72 and for the San Antonio convention. That theme is "Professionalism: Commitment."

Featured speakers at the convention will be Max Lerner, professor at Brandeis University and syndicated newspaper columnist; and Glenn Olds, president of Kent State University and former United Nations delegate.

The 36 education-related state organizations affiliated with TSTA will hold their own special meetings during the convention.

## Easter Seal Society seeking handicapped

"Do you know a handicapped person who needs help and isn't getting it," is the question being asked by Mr. Glen Thompson, who is Cochran County's Easter Seal Representative, and the person to contact for services from the Easter Seal Society for Crippled Children and Adults of Texas.

The Easter Seal Society offers rehabilitation services to help disabled persons and their families to find and make the most effective use of resources which will be helpful to them in developing their abilities and living more purposeful lives, he said.

This is accomplished through direct treatments, services, education, research, and cooperative efforts with all other health agencies, private, state and federal. The Easter Seal Society does not duplicate services, but strives to fill all unmet needs of the disabled, he added.

The Easter Seal Society is carrying out its forty-second annual Easter Seal Appeal from February 28 — April 2, to finance a program of rehabilitation services for crippled children and adults. The Texas Easter Seal Society helps support 19 treatment facilities where children and adults are treated regardless of ability to pay. Physical therapy and speech and hearing programs are offered to help the disabled make their lives fuller, despite their handicaps.

Mr. Thompson urged persons in Cochran County to increase their support of the Texas Easter Seal Society and its programs of services to the crippled children and adults of Texas.

Son McKay has been a patient in Cook Memorial Hospital in Levelland, and Loyd Wall has been in St. Mary's Hospital in Lubbock for tests.

Following the election of officers, Mrs. Gage Knox reviewed the life of Mrs. Miriam A. Ferguson, only woman governor of Texas. Though disqualified from holding office himself, he was the real power and influence during her two terms of office, 1925-27 and 1932-34.

Mrs. Glenn Thompson gave a biography of Oveta Culp Hobby, the daughter of a Texas states man, who became an efficient lawyer, publisher, editor and vice president of the Houston Post newspaper, organizer and head of the Women's Army Corp and first secretary of the Department of Health, Education and Welfare of the federal government. "She is a small dark, well dressed woman at age 67, highly revered today in the city of Houston," Mrs. Thompson stated.
