## Teacher contracts eyed

THERE WAS NO MANPOWER SHORTAGE when state forestry and Morton Schools personnel began planting several hundred Red Cedar trees for future windbreaks around the school grounds. The above scene took place Tuesday as some elementary classes

were dismissed so the students would help with the planting. If these trees show good progress, plans have been made to add a second line of Cypress trees to increase the quality of the windbreak.

Review and renewal of teaching contracts and the resignation of four teachers was the main order of business at the March meeting of the Morton Independent School District Board of Education Monday night. The serious business of contract consideration kept the marathon meeting in session from 8 p.m. Monday until 1:30 a.m. Tuesday.

Due to the length of the meeting and the large volume of material involved, the preparation of the minutes were not complete by press time Wednesday and a comprehensive report of the teacher status cannot be published until next week. The Tribune has been notified that four teacher contracts were not renewed. Further investigation will be made and a full list of all contract renewals will be published next week.

Letters of resignation by four teachers were read and accepted at the meeting. Those resigning include Mrs. Barbara Gibson, Mrs. Lenora Jackson, Eddie Allsup and Mrs. Alice Stockdale.

Mrs. Stockdale's resignation was submitted in line with the MISD policy on mandatory retirement age. The policy includes a provision whereby the person retiring for age may be invited by the board to continue to teach on a provisional basis if the members feel that their services are especially valuable to the school system.

The board unanimously voted such an invitation to Mrs. Stockdale and will await her response at a later date.

Harold Drennan, James Middleton and Kenneth Baker, principals of Elementary, Junior High and High Schools, respectively, met with the board to furnish advice and information concerning the performance of the teachers under their jurisdictions.

In other business, the board approved and adopted the list of textbooks for use in the coming school year that had been evaluated and recommended by the textbook committee of teachers and other supervisory personnel.

Schools superintendent Bob E. Travis submitted to the board for consideration a cost study for the integration of a girls' basketball program into the school system. Estimated cost of the program for one school year was \$13,301.25; and with the addition of one-half of a coaching unit, which would probably be necessary the cost would rise to \$17,001.25. No

STANDING TALL IN STATE BASKETBALL circles as well as in this photo is Morton High School head basketball coach Ted Whillock who displays above the plaque he received from appreciative fans Tuesday night at a Morton Athletic Booster Club meeting called for the purpose of honoring the team and coaches for another outstanding season. Whillock has coached his squad to the state tournament three out of the past four years while compiling an outstanding won-loss record. Following the honoring ceremonies, films of 1972 and 1973 state and regional games were shown.

## Cotton harvest approaches two million bale mark

The South Plains cotton harvest is approaching the two million bale mark according to W.K. Palmer, in charge of the Lubbock Cotton Classing Office of the U.S.D.A.

Samples from 1,947,000 bales had been received at area U.S.D.A. Cotton Classing Offices through Friday, March 23rd. Some cotton remains in fields but most of the remaining cotton to be ginned is stored in ricks.

Samples from 30,000 bales were tested and classed at the Lubbock office during the week ending Friday, March 23rd. This brought the total classed for the season to 1,918,000 bales.

Grades of cotton were about the same as the previous week. Low Middling Light Spotted (52) was the predominant grade, making up 24 percent of all cotton classed. Strict Low Middling Light Spotted (42) made up 16 percent, Strict Low Middling Spotted (43) 10 percent and Low Middling Spotted (53) 15 percent.

Average staple length also was about the same as the previous week. Staples were predominantly 30 to 32. Thirty-

five percent had a staple length of 30, 29 percent stapled 31 and 17 percent was

## Williamson rites held Wednesday

Services for Tye Kern Williamson of Morton were held at 3 p.m. Wednesday in the First Baptist Church here. The Rev. Paul McClung, pastor, officiated.

Burial was in Morton Memorial Cemetery under the direction of Singleton Funeral Home.

Williamson, 50, died at 11:30 p.m. Monday in Methodist Hospital in Lubbock. He was born in Kirkland and moved to Morton in 1941. He and his father, the late Bill Williamson, established and operated the First State Bank of Morton. He had been active in the retail business and farming prior to his death.

Survivors include his wife, Odessa; one son, Warren of Morton; his mother, Mrs. Maude Williamson of Childress; and two sisters, Mrs. Billye Winder of Morton and Mrs. Marie Walker of Corpus Christi.

Pallbearers were: Neal Hefner, W.L. Foust, Guy Sanders, Button Silvers, Don Smart and E.L. Polvado.

Honorary pallbearers were: Jim Milam, Alvie Harris, Joe Nicewarner, Kenny McMaster, M.C. Ledbetter, B.H. Tucker, Don Allsup and Glenn Thompson.

## Registration deadline near

For all practical purposes, Saturday (March 31) will be the last day to register motor vehicles for 1973, Robert W. Townsley, director of the Motor Vehicle Division of the Texas Highway Department, said today.

Townsley noted that the law set the final registration date as April 1, which this year falls on Sunday when county tax offices are closed.

The 1973 license plates must be displayed on vehicles registered in Texas as starting Monday, April 2. So they must be acquired not later than Saturday, March 31, to avoid penalty.

Townsley said many county tax officers had expressed concern that the pace of registration this year has slowed markedly. "It looks as if a great many vehicle owners are putting registration off to the last minute," he said.

Even though the easy, computerized registration system has speeded the registration process in the last few years, if too many owners wait until the last minute, long waits in long lines at county tax offices and substations seem inevitable.

## Annual cancer crusade kicks off here Wednesday

The Cochran County Unit of the American Cancer Society kicked off their annual crusade Wednesday with a coffee hour at the home of Mrs. James St. Clair, chairman.

Books and literature to be used in the crusade were given to the volunteers who will be soliciting funds. Mrs. Leon Groves, treasurer, will accept donations at the First State Bank from anyone who is not contacted by a volunteer.

Community chairman for Bledsoe is Alvie Harris. Whiteface chairman is Dan Keith. Enoch chairman is Bob Newton and Mrs. Homer Anderson is the Maple chairman.

School chairmen in the four areas are: Morton-Mrs. Kenneth R. Three Way-Mrs. T.D. Davis and Tommy Terrel; Whiteface-Mrs. Elam; Bledsoe-Mrs. Dwight Go-

her and Bula-Mrs. Bob Newton. Mrs. J.C. Reynolds, Mrs. Hardy

Rhyn, Mrs. James St. Clair, Jr.,

## City police clear up bomb explosion mystery

The mystery of the two heavy explosions that rocked the city of Morton and thoroughly frightened its citizens last Saturday and Sunday nights was cleared up here by city police early this week.

Four Morton youths were apprehended and charged with the manufacture, transporting and possession of a bomb shortly after the final blast Sunday night.

The youths were picked up for questioning by the police at 9 p.m. Sunday, shortly after the blast took place at 8:20 p.m. All four admitted to making and setting off the bombs and were arraigned in Joe Gipson's Justice of the Peace court where bond for each was set at \$500. The three who are classified as adults have posted bond and are free, while the fourth, a juvenile, is free in the custody of his parents, sheriff's deputies advised the Tribune.

Sheriff C.G. Richards advised that one of the bombs was made of a three foot length of pipe which was plugged on the ends and a hole drilled into the middle through which homemade powder was poured. The other bomb was built much the same way utilizing a length of exhaust pipe.

The exact ingredients of the powder charge was not divulged but is thought to consist in large part of sodium chloride.

## Little League:

A meeting for all parents, coaches, sponsors and friends of Little League will be held Thursday night, March 29, 8 p.m. in the Tic Toc Restaurant.

Everyone interested in Little League is urged to attend and help organize the teams for the spring season.

## Senior Citizens

The newly organized Senior Citizens group will meet today at 2:30 p.m. in the county activity building.

Anyone in need of transportation in the Morton area may call Mrs. Lovell Jackson at 266-5725; Mrs. C.C. Reynolds 266-8620 or Mrs. H.B. Barker 266-5484.

Whiteface residents may call Mrs. Larry Baldwin at 525-3971 and those in the Bledsoe area needing transportation may call Mrs. Darrell Davis-525-4485; Mrs. Joe Sutton 525-4462; Mrs. Hugh Smith 525-4322 or Mrs. Winfred Scott at 525-4380.

LEADING THE CHEERS for the Lion's Club Chamber of Commerce basketball game last Thursday night are: Mmes Deryl Bennett, Orville Tilger, Truman Doss, J.C. Reynolds and Bobby Travis. Their inspiration fell a bit short, however, as their team of ferocious Lions fell in defeat to the Morton Chamber of Commerce 44-42 score. Their claim that those nifty black satin bloomers are the same ones they wore in high school fell on incredulous ears.

## February accidents in county light

The Texas Highway Patrol investigated two accidents on rural highways in Cochran County during the month of February, according to Sergeant H.E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and no persons injured.

The rural traffic accident summary for this county during the first two months of 1973 shows a total of six accidents resulting in no persons killed and no persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region 5 for February 1973 shows a total of 380 accidents, resulting in ten persons killed and 173 persons injured, as compared to February 1972 with 478 accidents, resulting in 15 persons killed and 233 persons injured. This was 98 less accidents, five less fatalities and 60 less injuries in 1973 at the same period of time.

The veteran officer reminds you that Texas has over seven million licensed drivers. As the population increases, so does the congestion upon our highways.

## Clayton set for partisan politics

The true liberal-conservative split probably surface in the House of Representatives this week, State Representative Bill Clayton stated today.

Representative Clayton said that bills likely be up for debate which will be the "philosophical indication", or difference in the way the two elements of the House think about certain

so-called "reform" bills have different differences of opinion, Clayton added that some legislators committed to reform regardless of whether or not they were workable or in the best interest of the citizenry.

Water Institute in Lubbock and Texas and Southwest Cattle Raisers Association in San Antonio last week, that the legislative calendar was being filled with controversial issues being brought to surface this week. Clayton's bill to provide Texas with both in lending" section to the credit act is due to be debated in the House this week, along with a resolution requesting the Commissioner of Agriculture to make a study of present branding laws and those in neighboring states.

## Which Way for Rural Texas?...Cattle On Feed...Citrus Production Increases...Milk Production Declines.

Plans to improve job opportunities, community services, and the social and physical environment in rural Texas have been detailed by the Texas Rural Development Commission. The commission is a joint effort of the governor's office and the Texas Department of Agriculture.

The five-point program to revive rural Texas as outlined by the commission is as follows:

1. Give people a choice of where they live by providing attractive employment opportunities, adequate community facilities and services (including health, housing, transportation, and public protection), and a more attractive living environment in rural areas which will create a better balance in the distribution of population.

2. Attract new industries and develop existing industries in rural areas.

3. Provide relevant educational opportunities for rural residents.

4. Provide for the orderly development and protection of the natural environment in rural areas.

5. Maintain a profitable agricultural industry as a major element of the rural economy.

The commission also recommended the establishment of a committee on rural development in each house of the Texas Legislature.

About 20 percent of the state's population now lives in rural Texas. This is more than 2,500,000 people. Texas' rural population is more than the combined populations of five states—Alaska, Delaware, Nevada, Vermont, and Wyoming.

## Outdoors in Texas

BY VERN SANFORD  
Rules of the water are as important as rules of the road. You think not?

Well, the water regulations are ignored lots of people must think that way too. But it's a matter of lack of information—we hope.

Very few people who venture out into the water, with about any kind, size or shape (from little canoes to big runabouts), really know waterway regulations.

This is hardly true of those who helm the large cruisers on our mammoth impoundments, and certainly not true of those who man the great seagoing rigs on our Gulf waters...for the latter are checked and double-checked periodically by the Coast Guard.

But the little fellows who steer the fishing boats and the small pleasure craft are neglected. That is, we don't have the critical overseers to make us learn the rules and adhere to them. And it's typically true that what you're made to do, you do—and what you aren't forced to do, you don't.

This is not a criticism of law officials, or to urge a clamp down on the negligent. It's just a gentle reminder to you and to me to ship up and to brush up on our jargon, our knowledge of boating, and our ability to "put to sea" safely and to operate our boats courteously.

When the State of Texas chose its "DRIVE FRIENDLY" slogan (thanks to former newspaperman Weldon Hart), it selected a simple but potent motto that grows on you. Really, it's surprising how many accidents can be attributed to anger. But they are not limited to cars and roadways, or to airplanes and airways, but also to boats and waterways.

To me driving friendly on the water is more important to living than driving friendly on the highway. It's bad enough to have a collision on the highway but it doubly dangerous on water, for there you may survive the crash but you still face the serious danger of drowning.

That's double jeopardy. Only a mid-air plane collision could be worse.

The commission is composed of civic leaders from throughout the state notes that 85 percent of the state's growth between 1960 and 1970 occurred in the Dallas, Fort Worth, Houston, and San Antonio areas.

The rapid growth in metropolitan areas and the decline in rural areas has created an imbalance in the distribution of population and the quality of life.

TEXAS, naturally, retains leadership as the nation's top beef feeding state. There are 2,184,000 head of cattle and calves on feed for slaughter in Texas as of March 1. This is 18 percent above a year ago, but one percent below a month ago.

Placements into Texas feedlots during February totaled 341,000 head, which is 3.3 percent above February of last year, but four percent below marketings in January. Nationwide, in the seven major cattle feeding states—Texas, Arizona, California, Colorado, Iowa, Nebraska, Kansas—there were 9,698,000 head of feed, a four percent decrease from a month ago, but eight percent more a year ago. Iowa is closing in on Texas, has 2,018,000 head of cattle and calves on feed.

CITRUS production for 1972-73 in Texas is now estimated at 18,000 boxes, which is 3,000,000 boxes more than last season's crop. It is also an increase of 900,000 boxes from the February estimate.

Harvest of the crop is expected to improve as weather conditions return to normal. Citrus trees are in excellent condition and fruit continues to swell with the rains.

MILK production in Texas during February was down five percent from 1972 and 10 percent below the previous month's production. Nationwide, production also showed a decline of five percent compared to a year ago.

Milk production per cow in Texas during February was 705 pounds which is 40 pounds below a year ago and 75 pounds under a month

action on the program was taken by the board at this meeting. The demand for home economics courses recently has shown a heavy increase and raised the need for an additional teacher. Supt. Travis advised the board. His request for an additional teacher was approved by the board and will be forwarded to the state board of education for approval.

Travis advised the board that the tennis program is growing rapidly and costs are presently exceeding program funding which puts future tournament trips in jeopardy. The board approved the funding of tournament trip to Amarillo for 1973. This weekend and will consider additional means of financing. Travis stated that girls are in the majority in the tennis program and their numbers are growing faster than the boys.

A weekly public service feature from the Texas State Department of Health

## Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

The "hush-hush" disease has come out into the open.

For decades, venereal disease was spoken of in whispers or not spoken of at all because VD was not one of the "socially accepted" diseases. Despite its social unacceptance, VD occurred—and in great numbers, so great that vast programs were mounted to control and hopefully seek to eliminate the disease as a public health problem in Texas and the nation.

VD had become an epidemic, as literally millions of Americans and thousands of Texans contracted the disease. Health authorities, who had been quietly attacking this public health problem for years, began to focus some of their energies on public awareness—education and information. They hoped to bring the disease out into the open so it could be treated for what it is—a serious communicable disease now occurring in epidemic proportions.

of the county. The time and place will be announced later.

Until recently, VD patients were treated by society as social outcasts. The social stigma attached to these diseases prevented people from seeking education about the prevention or treatment of VD. Thus, the chain of transmission was almost impossible to break, for many individuals were unaware of the symptoms and dangers of VD. For every case brought to the attention of health authorities, four more cases were occurring but not brought to treatment.

Now, the tide may have begun to turn. The Texas State Department of Health reported a 27 percent decrease in the occurrence of infectious syphilis statewide in 1972. Gonorrhea showed a 14 percent increase. To combat this continued increase, a massive new gonorrhea screening program was launched by the State Health Department just last year. Still, gonorrhea is striking four new victims in Texas every minute.

As part of their efforts to bring the untreated, previously undiagnosed, or asymptomatic cases of syphilis and gonorrhea to treatment, state health authorities have launched a "VD

Awareness Campaign" aimed at reaching the target population and educating the general public. Hopefully, such an effort will motivate individuals who think they may have been exposed to VD to contact their private physician or local Public Health Department clinic for early diagnosis and treatment. The educational aspects of the campaign will try to bring the disease "out of the woods" and into the realm of present day reality. It will also apprise the public of the seriousness of the disease as a health problem, that there are ways to prevent VD, and of the need to seek immediate treatment upon suspected contact.

April, 1973, has been set aside as "VD Awareness Month" in Texas in an effort to focus public attention on the syphilis and gonorrhea problem in the State. The Texas Medical Association, Texas Pharmaceutical Association, and Texas State Department of Health have joined hands in coordinating several "awareness" events during April.

The campaign will include the use of posters inside buses of municipal transit systems, billboards along major highways and in metropolitan areas, "Symptom" stickers for use in public restrooms, TV and radio public service spot announcements, a series of 12 full-page newspaper public service "awareness" ads that the State Health Department is trying to get the cooperation of local newspapers throughout the state to run, a series of posters for use in schools and in public

locations, and detailed information made available to local mass media for development of their own news stories and programming.

Governor Dolph Briscoe has thrown his support to the effort by designating the month of April, 1973, as "VD Awareness Month." Mayors and county commissioners are being urged to join in the effort at least to the point of adopting local proclamations and calling attention to local efforts.

Texas certainly does have a VD problem, along with the other 49 states in the nation. In 1972, the total number of cases of gonorrhea officially reported in the state climbed to 57,247 cases. Syphilis showed a slight drop but still totaled 5,510 cases. But these figures tell only part of the story. Experience shows that only about one in five cases is actually reported to health officials.

In 1972, in the United States the number of reported gonorrhea cases exceeded 755,615, according to the U.S. Public Health Service. Some 95,997 cases of syphilis were recorded.

In this country it is estimated that there are a half-million people with syphilis whom you don't even know they have it. Health authorities say from two to six million cases of gonorrhea actually occurred last year. Of these, it is estimated that some 250,000 occurred in the State of Texas.

In its public awareness campaign, the State Health Department is striving to make the extent of the problem clear to everyone, along with the knowledge that VD can happen to anyone.

## Highlights and Sidelights from your State Capitol

By—Bill Boykin  
Texas Press Association  
AUSTIN, TEX.—A widely-publicized ruling of the U.S. Supreme Court relaxed pressure on the Texas Legislature to overhaul school finance laws and the property tax system this year.

Predictions are the major revisions will be undertaken in special session — if they are undertaken at all before the 1975 regular legislative meeting.

The High Court, reversing a San Antonio three-judge federal court ruling of December, 1971, upheld property tax financing of local schools and concluded education is not a right assured by the Constitution. The lower court had invalidated the Texas system of financing schools on grounds it varied quality of education from district to district rather than fixing it on the basis of state wealth.

Gov. Dolph Briscoe and Atty. Gen. John Hill emphasized that inequities must still be abolished in public school finance. House Speaker Price Daniel Jr. and others agreed the heat on the Legislature to "act now" has been turned down several degrees.

Bills are pending in both Houses backed by Texas Board of Education and Texas State Teachers Association to revamp finance formulas.

The bills are slated for House Education Committee hearing April 4 at 6 p.m.

Under the Board of Education bill, the state would assume virtually all basic education program cost over a five-year period.

TSTA's proposal calls for local districts to pay 30 per cent (instead of the present 20 per cent) of program costs and would require the local school districts to meet state standards for assessing property and setting tax rates.

With the heat off, legislators aren't expected to rush into anything so far-reaching and controversial as school finance.

**ALTERED PRESS BILLS ADVANCE**—Weakened versions of open meetings and newsmen's privilege (called the "free flow of information bill") measures moved forward last week.

HB 3—the open meetings bill — advanced to the Senate calendar with Jurisprudence Committee approval in a form criticized by the Texas Joint Media Committee and Common Cause.

Amendments to the measure are being prepared to tighten the sections on real estate transactions and attorney-public body meetings. These amendments should make the bill more acceptable to the Senate, media groups, House sponsors and other supporters of public access to information.

The "free flow of information" bill, HB 10, to protect sources of information from forced disclosure was due for Jurisprudence Committee consideration after winning sub-committee approval.

Critics noted that an amendment to the open meetings bill permitting closed deliberations on "negotiated contracts" and real estate sales covers a lot of territory never contemplated in the original House bill.

The shield law as it cleared sub-committee on a 4-1 vote would permit the State Supreme Court to order source and information disclosure if it can be

# TIPS FOR OUTDOORSMEN

by Vern Sanford

## Timely Fishing Time

Many black bass have been caught with a plastic worm but not many anglers have caught a black bass with a plastic worm already in its mouth.

Never in our experience had we ever seen this happen—until the trip from whence we've just returned.

It occurred on Lake Livingston when L. A. Wilke and I went out for a few action pictures during the recent tourney held solely for women anglers.

When Fishing Guide Phillip Rowe, who works out of Galloway's Marina, learned that we were seeking action shots of fish in the process of being caught, he said he could catch all the blacks we wanted "and right away too." Said he knew "exactly where to find them" and furthermore he would have us there as soon as the present storm clouds blew over. A more confident angler you've never seen.

In less than 30 minutes we were on the water and within fifteen minutes we were at his favorite "hot spot."

Well, as luck would have it, Phil's line broke on the very first cast. It just flat parted.

Phil rigged up again with hook, line, sliding sinker and his favorite red plastic worm in short order. He made twelve casts and brought up six black bass in the two-pound range. I may not have believed it had I merely heard it—but seeing is believing.

Kidglingly Wilke and I accused him of having the hole bailed out; of planting a skindiver down there to hook the fish on the line; or staking out a nylon stringer full of fish, with one end of the line open.

Phil laughingly said, "I get 'em here all the time, day in and day out. It's my secret spot. I haven't told anyone where it is and I don't intend to. When you fellows return you won't even be able to find it yourselves because of its location among the jungle-like mass of little thorny trees of which there are thousands around here."

It really was a fantastic exhibition of fast fishing, no doubt about that.

But that wasn't all that happened that cloudy afternoon. On Phil's seventh cast and catch, we shot action pictures of the bass jumping out of the water, diving deep, turning, tugging and twisting. Then we asked Phil to hold the bass up by its lower lip for a still shot.

It was then that our angler discovered a second worm in the bass' mouth. This worm was identical in size and color to the one he was using—just 5" long and light red in color.

On removing his hook and worm from the fish's mouth Phil learned that not only was there a second worm inside the bass but also a hook and two split shots on about a foot of six pound nylon line. The line showed wear, the lead weights were as bright as if polished, the hook was without rust except for a tiny bit in the eye, and the worm looked like new.

Someone had been using too light a line and too limber a rod for fishing in brush for black bass. Undoubtedly this fish, after attacking the bait, had gone down some 15 feet into a mass of brush and either severed the line or entwined it so tightly in the underwater timber that the angler broke the line—thus freeing the fish.

Phil picked up another rod and reel, added the newly acquired worm to the hook—and promptly caught another fish.

Incidentally, all the bass that were caught were gently released to serve as a challenge to other fishermen.

How's that for an hour's outing and 15 minutes of fast fishing?

## Record enrollment set for adult education classes

The largest number ever to register for adult education classes at Morton High School began classes Monday night.

Seventy area adults are participating in the classes now being conducted.

Classes are being held in bookkeeping, typing, upholstery, auto mechanics for women and G.E.D. preparation.

Mrs. W.G. Freeland is in charge of the adult education program at the school.

## Texas history reviewed for 1936 Club meeting

Hume Russell reviewed the history of Texas during the Civil War reconstruction period for members of the 1936 Study Club March 21 at the home of Mrs. B.H. Tucker. The speaker spoke of the early settlers being the first to settle in the Mississippi valley and the German settlements, and that the state became an ideal Confederate state during the war. She continued by saying that the first battle of the war was fought at Palmetto Ranch near Brownsville after the surrender of the South before word reached the Texas

frontier. "June 19th was long celebrated in Texas as Emancipation Day though it was not the date on which the proclamation was signed," Mrs. Russell stated.

Texas Highway Department films of the Texas forest and tropical trails was shown by Mrs. Neal Rose.

Attending the meeting were: Mmes. M.C. Ledbetter, Lessye Silvers, John Crowder, Joe Gipson, Gage Knox, Iva Williams, Russell, J.B. Nicewarner, James S. Clair, Glenn Thompson, Rose and the hostess.

THE FIRST SHEET OF 1973 EASTER SEALS has been presented to Governor Dolph Briscoe by Mark Roberts of Big Spring, 1973 Texas Easter Seal Chairman, in behalf of the Easter Seal Society for Crippled Children and Adults of Texas and its affiliates. Mark and Roger, pictured with Governor Briscoe, presented the seals to officially open the annual Easter Seal Appeal in Texas on behalf of the 18,802 handicapped adults and children who were served in 1972 by the statewide network of Easter Seal affiliates.

## Thompson requests further Easter Seal Drive support

A further request for support of the Easter Seal Society for Crippled Children and Adults and its program of services to the handicapped, was issued today by Glenn W. Thompson who is the Easter Seal Representative in Cochran County.

The Easter Seal Society provided treatment and services for 16,572 physically handicapped children and adults in Texas last year. Thompson said, and this program needs to be expanded. Many people are going without services. The program would increase the productivity of their lives and make them happier. With increased growth of the Easter Seal Society, more and more of these people will be reached, he added.

The Society is carrying out a continuing program to seek out the disabled who are doing without services and see that they receive the help they need. As Easter Seal Society Representative, Thompson is the person to contact for services from the Easter Seal Society.

The Easter Seal Society of Texas helps support 18 treatment facilities in Texas where crippled children and adults who are not eligible for help from any other source are treated, regardless of their ability to pay. Physical, occupational and speech therapy are offered to help the handicapped overcome their disabilities. A complete referral program to ensure equal rehabilitation services to every person in Texas is included in Easter Seal Society services.

The Easter Seal Appeal continues through Easter, Sunday, April 22, and full support should be given the Easter Seal Society by every citizen of Cochran County, he added.

## Bledsoe News

By Mrs. Larry Luchanan

Thursday, March 22, the Little Dribblers played at Whiteface. The girls defeated the Whiteface Gold-Trotters 24 to 6. Kerri Adams, Karen Bilibrey, Leesa Bilibrey, Betty Chaddick, Velinda Davis, Sharilyn Fipps, Donna Funk, Nancy Griffiths, Sharj Hale, Patti Hall, Irene Sepulveda and Cynthia Sutton play on the Bledsoe team.

The boys met the Whiteface Golden Hornets for a final score of 38 to 13 in favor of Bledsoe.

The following evening found the girls outscoring Whiteface's Blue Angels 18 to 5, and the boys team coming out 4 points ahead of the Pettit Boy's Ranch team in the Bledsoe gym.

Members of the boys team are: Larry Banning, Waymon Bilibrey, Stacy Dunn, Robert Langrill, Tommy Perez, Matt Rogers, Arthur, Joe, Hilbert and Lupe Sepulveda and Perry Trull.

The men's basketball team lost to Sudan in the Whiteface outsiders' tournament Friday night.

There was a good turnout for the community fish fry Saturday, March 24, in the County Barn. The fish was supplied by the families who spent their break from school on the Texas coast. Those families are: the Harlie Adams, Douglas Dunns, V.H. Funks, Leon Langrills, Harral Rawls, Ernest Trulls and Edsel Youngs.

Leesa and Karen Bilibrey, Mrs. Filmore Bilibrey and Mrs. Tom Box attended the District 4-H Food Show in Lubbock last Saturday. Leesa exhibited "Pow-Wows" in the Junior Division Main Dish category and won a red ribbon.

Mrs. Eldon McCormack and Mrs. Filmore Bilibrey took members of the 4-H dog care project to Clovis, New Mexico to view a dog show Sunday. 4-H'ers going on the trip were: Karen and Leesa Bilibrey, Will Box, Velinda Davis, and Cynthia Sutton. Eldonna McCormack also made the trip.

After winning the singles in the District tennis games at Cotton Center last Monday, Terri Adams and Darlye Weaver are eligible for the junior high play-offs at Plainview April 4.

High school tennis matches were at Cotton Center Wednesday. Students participating were: Glorietta and Henrietta Davis and Sherri Adams and Kay Row in girls' doubles; June Burns, Mary Helen Perez and Rosa Tarango in girls' singles; and Terry Dale Davis in boys' singles.

Darrel Hale directed Sherri Adams, Mary Bridges, June Burns, Rodney Coffman, Rita Fipps, Mary Helen Perez, Kay Row and Shirley Shelton in "Much Ado About John's Other Wife" for the U.L.L. One Act Play contest in Muleshoe Tuesday. "Much Ado" is a satirical comedy with Shakespearean overtones by F.H. Morris. Rita Fipps made the All-Star supporting cast.

Nancy Griffiths, James Vanhebbler and Darlye Weaver spelled for Bledsoe in the Avalanche-Journal sponsored spelling bee at Morton Wednesday.

MR. AND MRS. FRANK J. SILHAN have announced the engagement of their daughter, Debra, to Haskell Lamar, son of Mr. and Mrs. Don C. Lamar.

The couple plans to be married June 1 at 7:30 p.m. in the First Missionary Baptist Church. Friends and relatives are invited to attend.

## C.S. Stahl rites held Wednesday

Graveside services for Charlie Sylvester Stahl, 72, were held at 2 p.m. Wednesday in Morton Memorial Cemetery. The Rev. Royce Standifer, pastor of the First Missionary Baptist Church officiated.

Stahl died about 9:40 a.m. Monday in Cochran Memorial Hospital. He had been resident of Cochran County since 1945.

Arrangements were handled by Singleton Funeral Home.

## Mr. Farmer:

take a look at this great team of Weather-Master all-yellow hybrids

WEATHER MASTER HYBRIDS HAVE CONSISTENTLY.....

SCORED HIGH YIELDS AND OUTSTANDING PERFORMANCE IN TESTS AT THE HIGH PLAINS RESEARCH STATION AT HALFWAY AND AT THE LUBBOCK EXPERIMENT STATION. IN 1972 WEATHER MASTER HAD THREE OF THE TOP FOUR IN TESTS AT LUBBOCK.

A COMPLETE SELECTION OF ALL HYBRIDS .SORGHUMS . CORNS . FORAGES

THESE THREE YELLOW ENDOSPERM SELECTIONS HAVE PROVEN TO BE BEST FOR FLOYD COUNTY.

GS 66Y MEDIUM EARLY  
All the valuable characteristics of GS 45 plus large yellow grain. Heads are compact and fast drying. Wide adaptation both for irrigation and dry land production. Excellent for silage. Very excellent in thin soils. Very excellent for quality. Ideal for medium to planting dates in the sorghum

Bred for the farmers who like the high yields of GS 76Y and the standability of 61Y. Medium in plant height - rich full yellow berries, highly palatable, sweet forage for grazing or baling. Very responsive to high fertility levels and water supply. A money maker for the good farmer in the medium maturity range. A fast starter in cold soil.

An outstanding yellow endosperm hybrid - developed from GS 60 blood lines. Very good standability, medium height, large fast drying heads frequently outyields much later maturing hybrids. Successful on both dryland or under irrigation, produces large plump seed. Classed as a medium maturing hybrid.

"Thou wilt shew me the path of life, in thy presence is fulness of joy." PSALM 16:11

# HERE IS THE PATH

shall love the Lord thy God with all thy heart, and with all thy strength, and with all thy mind, and thy neighbor as thyself. Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, none from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

# Three Way News

By Mrs. H.W. Garvin

Mr. and Mrs. Fred Kelley are medical patients in Cochran Memorial Hospital.

Mrs. Beadie Powell spent the weekend in Amarillo visiting a niece.

## Pennsylvania rites held for Giles

Services for William S. Giles, son-in-law of Mr. and Mrs. Tom Stevens, were held Thursday, March 22, in Charles A. Morrison Funeral Home in Oil City, Penn. The Rev. Harold Kelley, pastor of Second Presbyterian Church in Oil City officiated.

Mr. and Mrs. D.S. Fowler visited their son and family the James Fowlers in Lubbock Sunday and also friends Mr. and Mrs. Green in the hospital.

Mr. and Mrs. H.W. Garvin were supper guests in the Johnnie Wheeler home Sunday evening.

Mr. and Mrs. R.L. Reeves from Post attended the weekend with their son, the Jack Reeves family.

The Three Was Seniors and their sponsors Mr. and Mrs. Vaughn and Mr. and Mrs. Joe Sowers spent the weekend at a dude ranch near San Antonio.

Mr. and Mrs. W.E. Latimer spent the weekend in Oklahoma visiting his mother.

Several people from the community attended the rodeo in Lubbock over the weekend.

Lanita Powell from Maple and her friend Susie Davis both students at South Plains College, of Levelland, left Saturday for a visit with Susie's family in Missouri.

ANG AND CHEERING LINES for the Morton Lions Club in the great basketball last week consisted of the somewhat unsightly crew above. Their talents to be on a par with their appearance, as they bowed to the smooth-working team 42-44. The Lions and Lionesses from left are: Gary Willingham, Clair, Mrs. John Hall, James Walker, Judge Glenn Thompson, Mrs. Gary Bennett, Daryl Bennett, John Hall, Mrs. James Walker, Mike Doss, Donald Hodge and Drennan.

THE INTREPID WARRIORS of the Chamber of Commerce team appeared to sense the coming victory and were all smiles as they posed for this formal team portrait prior to last week's shoot-out with the Morton Lions Club. Their confidence was rewarded with a 44-42 victory. Almost immediately following the game, the Chamber purchased a sympathy card which was to be presented to the Lions at the regular meeting Wednesday. The happy warriors from left are: Jackie Watts, Ray Luper, Arthur Mason, Mike Linder, coach Jerry Schaeffer, Carol Shelton and coach Hi Duncan. Not pictured was Jerry Steed.

## Looking back 25 years ago

Tribune, March 28, 1946  
Corporal Winston O. Jerdon, whose parents live in Morton, has been reassigned from Brigadier General Robert B. McBrides 32nd (Red Arrow) Infantry Division which is scheduled to deactivate soon. Formerly stationed in the city of Oita on Kynshu Island, he is now a member of the 753rd Anti-Aircraft Battalion in Yokohama.

Mr. and Mrs. Alton Lamb and family are new residents of our community, moving here from Floydada.

Mrs. Gale Pugh and Mrs. T.L. Thomas of Enochs were Sunday guests of Mrs. L.O. Pugh.

Miss Mabel Ann Manley met with the County Line Home Demonstration Club at the County Line Baptist Church Tuesday to landscape the grounds and set trees.

Used to be that when a fellow bought a tire he'd roll it out to the car. Nowadays he picks it up and carries it, to save the rubber.

In scheduled fights in the Levelland High School Gym, Buddy Hanna of Morton came in the third round to get the decision. Morton's Odell Baker edged out Hal Pugh in the third round. Gene Ferrell in a slugging duel with Jack Taylor of Morton got credit for losing his contest in the final round. Jimmy Winder was given the decision over Bob Johnson in a slugfest in the final round. Jimmy is the son of Mr. and Mrs. C.F. Winder, pioneer Morton residents. Bill Deaver of Morton took the three-round decision from Benny Fry. In a middleweight fight between Robert Carter and Bill McAllister the latter received the decision after fighting on even terms in the first two rounds.

Tribune, April 3, 1958  
Showing two Poland China barrows at the annual 4-H and FFA Fat Stock Show was Lester Dupler. He won the Showmanship award. Lester is energetic, attentive and will be hard to beat in the future showing of fat stock. Congratulations, Lester, for a good job well done. He will receive a nice trophy.

The opening of Modern Motor Service here was announced this week by Jack Jones and John Duke, owners.

An additional \$250,000,000 for 1958 Acreage Reserve has been approved by Congress.
