## Following arraignment here Monday

Trial date was set for nine persons arraigned in 121st Judge M.C. Ledbetter's court here Monday.

Trial of the nine, on a wide variety of charges, will be in turn during the criminal court session beginning October 13.

In addition to these, two more were scheduled for arraignment Friday, with their trials expected to be set on the same date. ## Local clubbers prepare for National 4-H Week

4-H youth and their volunteer adult leaders throughout Texas and the nation are "getting it all together" as they observe National 4-H Week, October 7-13.

"Traditionally, since 1927, National 4-H Week has been a time for 4-H'ers, their leaders and friends to take stock of the year's accomplishments and achievements," says Dr. Don Stormer, state 4-H and youth leader for the Texas Agricultural Extension Service. "4-H Week has been a time to look to the future of 4-H in each community, the state and nation."

"4-H Gets It All Together" is the theme of this year's observance and in countless ways, 4-H has "gotten it together" by involving more young people between the ages of 9 and 19 than ever before. Latest available figures show some 5.5 million young people across the nation participate in 4-H annually. About 146,000 of these are in Texas, notes Stormer.

4-H groups exist in nearly every U.S. county and in about 85 countries around the world.

## Cotton market remains strong

Market activity remained at about the same level as last week in Western cotton markets, according to the Agricultural Marketing Service, USDA.

Demand was strong. The limited volume of grower offerings was readily absorbed into marketing channels at most locations. The bulk of current ginnings was being delivered against contracts made earlier in the year.

Small mixed lots brought 50.00 to 80.00 cents per pound in Central and South Texas with better quality lots bringing the higher prices. In South Texas, offering prices for below grade qualities ranged from 25.00 to 40.00 cents per pound. Growers

## Field goals tomahawk Indians

adds up to one thing — the Indians dropped their first game of the season last week to the visiting Frenship Tigers by a score of 9-7. Possibly, all of these factors entered into the final result and the Indians absorbed their first dribbling of the young season.

Just an hour before time for the game, a real bona fide "norther" blew into town changing what had promised to be pleasant weather for the

evening into something entirely different. Temperatures dropped and gusty winds prevailed throughout the game. The less-than-expected crowd suffered through the cold windy game, the home town rooters bitterly disappointed at what was happening to their Indians on the field.

It all started when the Tigers kicked off to the Indians to begin the game. As they kicked from the north end of the field, they had that bodacious wind to their backs as Rogans rode the kick deep to Kenneth Standmire at the goal line. In fielding the ball, Ken dropped to one knee, the ball was downed at that spot, and the Indians were in instant trouble deep in their end of the field.

Trying to work out to a less dangerous field position, the Indians were only partially successful and had to kick the ball away still deep in their end of the field. Against that howling north wind the kick was good in that it traveled as far as it did. It staked the Tigers to fine field position as they switched from defensive to offensive football.

It soon became apparent that that offense wasn't going

## Man charged in farm theft

Only one arrest rippled the otherwise placid surface of law enforcement activity in Cochran county over the past week.

Israel Chavez was jailed by sheriff's deputies Friday night and charged with theft of over \$50. Chavez is alleged to have taken gasoline and other items with a combined value of over \$50 from a combine and truck at Bledsoe. The truck and combine are the property of Edward Burns of Bledsoe.

Chavez was still in custody late Wednesday in lieu of bond which was set at \$1,500.

H.L. (HUB) KING, Texas Farm Bureau State Director congratulates G.O. Cooper and Weidon Wynn, Cochran County Farm Bureau president and membership chairman on being the first county in District 2 to exceed their membership goal. Velvet vests were awarded each for outstanding service to members.

## Babe Ruth auction

Auction for the benefit of the Frontiers Babe Ruth League will be held Monday at 7:30 p.m., in the county activities building. All money received will be used to pay off debts the league has accrued and to provide funds for next year's activities.

All who are able are urged to contribute to the auction of cash. All auction items should be taken to the time of the auction.

## School program given for Junior Study Club

The Emilea Smith Junior Study Club met September 27 at 7 p.m. at the Morton Public School for an educational program.

Mrs. W.C. Benham, remedial reading teacher, conducted a tour of classrooms and explained the remedial reading program for students. She stated that the course consists of a funded program for children approximately two years behind their grade level in reading. The children are taught to listen, speak, think, read and write in that order. Memorized sheets on ways parents can help their children with reading were passed out.

Mrs. W.G. Freeland, counselor, explained and tested members on vocational interests. She said that this was now being incorporated into the school system, not by one specific course but throughout all classes. Employers speak to students and actually take job applications and personal interviews to acquaint them with the steps to acquire a job. Mrs. Freeland also said the students talk about their abilities, interests, strong points, weak points and think in terms of what they like.

Following the program at the school the club's business meeting was held at the home of Mrs. Lessye Silvers.

Each member adopted a senior citizen to help and get better acquainted during the coming year. The multiple sclerosis drive was discussed and Sandy Wallace was appointed chair for the drive which will be held November 12.

The resignation of Mrs. Kay Hester was accepted with regrets.

The meeting closed with the singing "My Country 'Tis of Thee".

Members attending were: Mmes. Foust, Low Kern, Jane Claunch, St. Clair, Bob Lawdermilk, Ray LaSandy Asbill, Sandy Wallace, J.W. The Glenn Price, Kim Hanlin, Keith Kenneth Williams, Jimmy Roddy, G. Lowe, Brenda Rush, Mike LaDeWayne Hester, Ray O'Brien, Polvado and one guest, Mrs. Sue Little.

## Historic ranch scene range field day

One of Texas' historic and latest research findings on brush control will highlight the Brush Control and Range Management Field Day at Vernon on Oct. 4.

A major brush control work at the 100-acre W. T. Waggoner Ranch at Vernon will be one phase of the event.

The Texas Agricultural Experiment Station conducted various brush re-projects at Waggoner Ranch since 1890 and we are delighted that this ranch is opening its doors for the field day," said Charles E. Fisher, Texas Agricultural Experiment Station general field day chairman.

The field day, held on a rotating basis, is the state's vast rangeland area, as a report to ranchmen on the brush and weed control recom- regulations and a research- press report, Fisher explained.

Waggoner Ranch tour by air con- will depart from Wilbar- Auditorium in Vernon at 9:30 a.m. (Short lunch said.)

A Dutch treat luncheon, devel- a brush control research will

be covered in a 1:30 to 3:30 p.m. confab at the auditorium, including a ranchman's panel.

Dr. L.S. Pope, associate dean of agriculture at Texas A&M University, will serve as master of ceremonies.

"Waggoner Ranch's brush control work includes spraying 25,000 to 35,000 acres with herbicides annually, plus root plowing, chaining and grass reseeding," said Dick Yeager, farm manager.

The ranch was put together between 1890 and 1900 and operates today as a family-owned trust estate. John Biggs of Vernon is trustee and general manager.

Businessmen of the Vernon-Wichita Falls area are underwriting the Waggoner Ranch tour which is being planned for an expected 600 West Texas ranchers and their wives. There will be no charge for the 50-mile tour.

The field day is being sponsored by the Texas Agricultural Experiment Station in cooperation with a large number of other agencies and commercial firms.

The ranch is not generally open to the public, and field day participants will have a rare opportunity indeed to view effective brush control on a truly grand scale, added Fisher.

MRS. JAMES BELL, president of the YM Study Club, was honored with a dinner Thursday night in the home of Mrs. Max Clark. Officers serving with her are: Mrs. Dexter Nebhut, Mrs. Ralph Ware, Mrs. Truman Murdock, Mrs. Eugene Vanstony, and Mrs. Donald Masten.

today brings together both rural and urban boys and girls of all racial, economic and social backgrounds," points out the Texas A&M University System 4-H leader.

The 4-H program is designed to appeal to young people whether they live on a farm, in the suburbs or in the city. And through individual and group efforts they learn about the world around them, other people, customs and lifestyles—like and different from their own.

"And that's what the theme '4-H Gets It All Together' is all about. It's about young people of different backgrounds getting to know each other and interacting and working together to solve mutual problems, such as energy, fuel and electric conservation; improving health habits and standards; protecting our natural resources; and better agricultural efficiency," says Stormer.

The Texas Agricultural Extension Service, the parent organization of 4-H, through its county Extension agents, works closely with the youth of the state in providing an exciting and challenging 4-H program, notes the 4-H leader. And dedicated volunteer adult leaders, almost 14,000 in number, give of their time and efforts to "make the best better" in 4-H.

Growers around Harlingen, Texas contracted a limited volume of 1974-crop cotton at 64.00 to 65.00 cents per pound. Contracting activities for 1973 crop were moderate on the Texas Plains where prices ended the week around 38.00 cents per pound above loan rates for better quality, premium mike cotton.

In Southeastern New Mexico, growers were offered 80.00 to 85.00 cents per pound for their 1973, Acala 1517 crop and 60.00 to 65.00 cents for their 1974 crop, basis grade 31, staple 37.

The Central and South Texas harvest was delayed by rain during the week. It was expected that harvesting could not resume for up to two weeks in some locations.

Prices quoted for selected qualities, 3.5 to 4.9 mike, in the six Western Region spot markets are as follows:

- Dallas, 64.25 this week; 69.25 last week; Middling Light Spotted (32) Staple 32.
- Houston, 79.00 this week; 79.00 last week; Strict Low Middling (41) Staple 34.
- Lubbock, 58.95 this week; 61.95 last week; Strict Low Middling Light Spotted (42) Staple 32.
- El Paso, 84.50 this week, 94.00 last week; Middling (31) Staple 37.
- Fresno, 84.50 this week; 94.00 last week; Middling (31) Staple 35.
- Phoenix, 81.00 this week; 88.70 last week; Middling (31) Staple 34.

## Americans liked British pottery

Two tons of broken pottery discovered in England prove that a flourishing trade existed between America and Britain almost 300 years ago, archeologist say.

The pottery is the remains of Devonshire dishes and jugs apparently intended to be traded to the colonies for tobacco. — CNS

## OIL IMPORTS

The United States imports six million barrels of oil a day, just under 30 per cent of its total needs. About 14 per cent of the imported oil comes from Arab countries. — CNS

## COUNTY

FROM PAGE ONE

Census of Governments. They show that, in Cochran County, where the property tax is the principal source of revenue for local government needs, the assessed value of property subject to such tax amounted to \$33,719,000. This compares with the total reported five years ago, \$27,775,000.

It was an increase of 21 per cent. Elsewhere in the United States assessments were up 43 per cent, on average, and in the State of Texas, 46 per cent.

Assessed valuations are not to be taken as true market values, it is noted, since property is assessed in most communities for tax purposes at something less than actual value.

The tax rate that is applied to the assessed value is the other factor in determining how big the tax bills are.

In terms of population, the new tax base in Cochran County was equivalent last year to \$6,881 in taxable property per local resident.

Throughout the United States, the average was \$3,061 per person and, in the Southern states, \$2,772.

Property assessments, as well as tax rates have been increased in most parts of the country in the last few years as local communities, confronted with bigger operating costs, were forced to seek additional revenue.

Nationally, the assessed valuation of locally-taxable property has jumped from its 1967 figure of \$442 billion to a total of \$641 billion.

As a result, property taxes collected by local communities in the past year amounted to \$36.7 billion, a 46 per cent increase over the \$25.2 billion collected five years ago.

HERE'S TO YOUR HEALTH

A quick way to "old age" is thru boredom--the way to remain young and vigorous in old age is to keep active and enthusiastic about living. At age 65, we can look forward to another 15 years or more of life. If we let ourselves go to seed, life can become a burden. There is so much of beauty and stimulation all around us, so many skills and crafts we can experiment with, that life can and should remain active and satisfying.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

### FOR PEOPLE WHO THINK

From the people who assemble at Taylor and S. 2nd. Sts.—Greetings: In all that has been said and all that can be said—some things stand out as emphatically—eternally—true. We cannot believe in Jesus Christ unless we believe the Bible. Without the Bible we would not have even heard of Jesus. No one can believe in anything or anybody without provable testimony. If the testimony will not stand the test necessary to rational conclusion it must not be believed. All who sincerely believe the testimony of the Bible believe in the God of the Bible. These alone can believe in Jesus Christ—God's Holy Spirit, etc. Without the Bible there is no acceptable testimony.

Strange as it may seem—Many today "say" they believe the Bible but they then try to deny that Christ arose bodily from the dead. Now—Jesus said He "was" to do that—Matthew 16:21. Jesus said that He DID—and that it fulfilled prophecies concerning Him—Luke 24:45-48. Sincere—thinking—readers will turn and read the records of Jesus. Such people actually—whether they realize it or not—DO NOT believe Jesus—for they deny exactly that which Jesus stated as truth—or else they deny that they believe the Bible—the only source of the testimony of Christ.

Is there any way to believe in Christ and yet not believe WHAT JESUS SAID?? Every sincere, thinking, person definitely answers with a resounding NO. Is there any way to believe in Jesus and yet say that Jesus did not mean what he said? Again, NO. All rational believers in Christ believe that everything Jesus said was, and is, TRUE. Yet many who say that they believe Jesus arose bodily from the dead and then turn around and refuse to obey some things Jesus commanded. Does this appear to you, kind reader, to be consistent. Does it reflect true sincerity? You will, of course, answer No. However—will we all remember that and order our lives as the Bible authorizes? That remains to be seen. This writer certainly prays that we shall—and stands ready to carry that determination out regardless of whatever and wherever it may be. I certainly expect that we all will do so IF we sincerely believe in God. More to follow.  
C.R. MANSFIELD, Evangelist,  
CHURCH OF CHRIST.

"Thou wilt show me the path of life, in thy presence is fulness of joy..."  
PSALM 16:11

# HERE IS THE PATH

Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself.  
Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose... and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

MRS. TERRY LYNN FUNK

## Couple exchange vows in candlelight ceremony

Miss Rita Carol Fipps and Terry Lynn Funk exchanged double ring vows in a candlelight ceremony September 22 at 7:30 p.m. in the Bledsoe Baptist Church. The Rev. Joe Jones of Levelland performed the ceremony under an archway of white candles flanked by twin candlesticks, greenery and lilies of the valley, trimmed with pink and lilac bows.

Given in marriage by her step-father, the bride wore a formal gown of white silk organza over tafetta. Her neckline was accented by rows of embroidered lace roses. The same pattern accented the waistline, skirt, and long Bishop sleeves. Her mantilla veil was attached to embroidered lace medallions and she carried a cascade of white carnations and pink rosebuds. For something old, she carried a handkerchief belonging to her step-grandmother, Mrs. A.K. Gilliam. Something new was her dress and something borrowed was a pair of pearl earrings belonging to Mrs. Grace Funk, grandmother of the groom. She wore the traditional blue garter and carried a penny in her bouquet.

John Taylor of Levelland served as best man. Groomsmen were Thomas Fipps, brother of the bride, and Larry Langrill of Bledsoe. Guests were seated by Velton and Johnny Funk, brothers of the groom. Bill Funk presented guests with rice bags and pink scrolls and Miss Henrietta Davis registered guests.

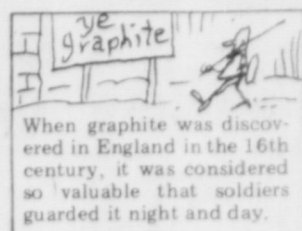

Lois Funk, sister of the groom, was maid of honor and Kay Row of Bledsoe was bridesmaid. They wore identical gowns of lilac chiffon with floral print and lilac organza picture hats. Each carried a pink long stemmed rose.

Candles were lit by Debbie Paul of Brownfield and Cynthia Sutton of Bledsoe. Karen and John Gilliam of Plains were ring bearers. Sharilyn Fipps, sister of the bride and Radonna Funk, sister of the groom were flower girls. Their gowns were styled from pink crystalline and they wore headpieces and bracelets of pink rosebuds. Each carried a basket of pink roses and lilies of the valley.

Mrs. Elree Gandy of Bledsoe, pianist, and Mrs. Lewis Mowery, soloist, presented wedding music. A special benediction followed the ceremony as the couple lit the Candle of Life and the congregation repeated the "Lord's Prayer" in unison.

A reception in Fellowship Hall honored the couple. Mrs. Leon Langrill, Mrs. B.E. Sutton and Mrs. Harrah Rawls served.

The bride is a graduate of Bledsoe High School and the groom attended South Plains College and West Texas University. He is employed by Pioneer Natural Gas Company in Lubbock, where the couple will make their home.

When graphite was discovered in England in the 16th century, it was considered so valuable that soldiers guarded it night and day.
