Tight vote turnout seen

County polling places will remain same

Local election officials are expecting a light turnout of voters for the November 6 election, which deals with nine state constitutional amendments only.

Only two persons had cast absentee ballots by late Wednesday, as the period for absentee voting was nearing its end, according to information released by the county clerk's office.

There have been no applications for absentee ballots by mail, the officials stated.

The absentee balloting period began October 17 and will end at 5 p.m. Friday, November 2. The absentee polling place is the county clerk's office where voting may take place from 8 a.m. to 5 p.m. Ballots by mail may be received until 1 p.m. November 6, the day of the election.

With the constitutional revision commission making public its final recommendation for a whole new constitution on November 1, a good many citizens are confused over what they will be voting on.

Since the proposed new constitution is receiving so much more attention than the nine upcoming amendments, voters should find out in advance what is on the November 6 ballot.

Constitutional proposals due

The Texas Constitutional Revision Commission will present its proposed new Constitution for Texas to the presiding officers of the state

Legislature in ceremonies at 2:30 p.m. Thursday, November 1, (today), in the State Capitol.

The presentation fulfills the charge given to the Commission to study the present state Constitution and report its recommendations to the Legislature.

Lieutenant Governor Bill Hobby and Speaker of the House Price Daniel, Jr. will receive the document from Judge Robert W. Calvert and Mrs. Malcolm Milburn, chairman and vice-chairman of the Commission.

During the ceremony, the Commission's proposal will be presented to Governor Dolph Briscoe and members of the committee of high state officials who appointed the Commission. These include Governor Briscoe; Lieutenant Governor Hobby; Speaker Daniel; Attorney General John Hill; Joe Greenhill, Chief Justice of the Supreme Court; and John Onion, Presiding Judge of the Court of Criminal Appeals.

The presentation to the Legislature fulfills a part of the task set out for the Commission by the constitutional amendment and by Senate Concurrent Resolution 1, which implemented that amendment.

The amendment, which was approved by a majority of

Texas cotton crop almost in the bag

The 1973 cotton crop is almost in the bag for High Plains producers. The expected bumper crop, due to expanded acreage, uniform earliness of planting and favorable weather conditions, may bring an additional bonus, says a research scientist with the Texas Agricultural Experiment Station in Lubbock.

COCHRAN COUNTY JOINS the State-wide observance of Food and Fiber Week in Texas as Mayor Judge Glenn W. Thompson signs a proclamation designating the month of November as food and fiber month in the county. Looking on during the ceremony is Gene Benham, president of First State Bank; Morton Mayor Marshall J. Leitzell who co-signed for the city and County Agent Roy McClung.

Food, fibre month proclaimed

Dolph Briscoe has daily proclaimed November as "Food and Fiber Month" in Texas, and various activities are being planned in the state's 254 counties.

Sea cotton classing prices in full swing

Harvest activities are increasing daily and the early harvested cotton has been excellent, according to Paul R. Dickson, manager of the U.S.D.A. Classing Office in Lubbock. The great increase in cotton classing activities, the U.S.D.A. office at Lubbock has opened for business Thursday and the field and Levelland began operations on Friday. This brought the total for the season to 1,000 bales from only 1,000 bales in 1972 crop had been

event saluting agriculture's contributions.

Briscoe, in the official proclamation, noted that Texas—long a giant in the production of agricultural products—is third in the nation in total farm and ranch output, yet currently leads the 50 states in annual production of beef cattle, sheep, goats, grain sorghum, cotton, rice,

onions and wool.

Texas also harvests substantial amounts of peanuts, vegetables, citrus, fruits, honey, cereal grains, soybeans, turkeys and dairy products, the governor noted.

"The unparalleled efficiency of Texas agricultural producers and associated agri-business has helped provide food and fiber that allows Texas consumers to purchase more milk, bread, steak, butter, eggs and other food and fiber products for fewer minutes of work than ever before in recorded history," Briscoe said.

Today, only one-half as much work time is required to purchase as much food and fiber products as in the "good old days," the governor added.

"Even with a declining farm population, each farmer produces enough food and fiber for himself and more than 50 others. Therefore, it is fitting that November be observed to recognize contributions of Texas agriculture and to encourage renewed appreciation for agriculture

September rural accidents kill one, hurt two

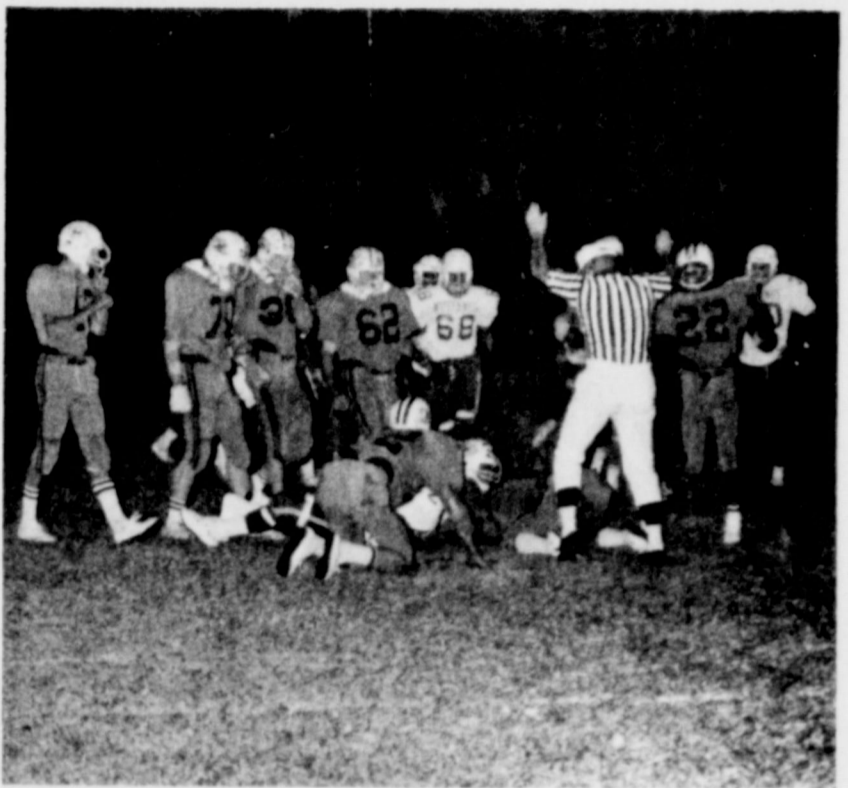

The Texas Highway Patrol investigated four accidents on rural highways in Cochran County during the month of September, according to Sergeant H.E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in one person killed and two persons injured.

The rural traffic accident summary for this county during the first nine months of 1973 shows a total of 30 accidents resulting in one person killed and 13 persons injured.

H Banquet

The annual Cochran 4-H achievement banquet will be held in the Morton schools cafeteria Monday, November 5 beginning at 7 p.m. All 4-H members, parents and interested persons are invited to attend.

THE REFEREE'S HANDS GO UP in a signal of "Touchdowns" as Larry Thompson, beneath the pileup on the ground, goes in for the second of two scores he made in the Indians' 13-0 win over the Olton Mustangs Friday night. This was the Tribe's first conference game, giving them a loop record of 1-0 and a season record of 5-2-1. They face the highly regarded Littlefield Wildcats tomorrow night in what could be the decisive game for the conference title.

Tribe downs Mustangs for initial loop win

After years of coming up on the losing end of the score, the Morton Indians finally beat the Olton Mustangs in a football game last Friday night by a score of 13-0. Victory was especially sweet as this was the first district game of the year for the Tribe.

Scoring in the first and fourth quarters of the game, the Indians spent the rest of the game keeping the Mustangs under control by alert defensive football. In district play winning is a must, so the Indians got off to a good start by tucking away this first win. Last year's great team lost this game and wound up second in district in the final accounting.

The Indians kicked off to the Mustangs to start the game. As predicted, the Mustangs came out throwing on the first play and Morton almost scored. The pass was almost directly to a surprised Mark Fluitt

GOODIES GALORE! Several hungry customers are shown as they loaded their plates at a recent salad supper served in the schools cafeteria prior to the Frenship football game. A large crowd showed up for the event and were highly complimentary of the large variety of salads, which were prepared by women boosters of the Morton Indians.

Camp Fire Fete

A Camp Fire Ceremonial will be held Monday, November 5 in the County Activity Building Banquet Room.

The 10th grade Horizon Club, sponsored by Mrs. Earl Evans, will be in charge of the ceremonial. All parents and friends of Camp Fire are invited to attend.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Secretary of Agriculture Earl Butz strongly reiterated his stand on export controls on cotton or other agricultural commodities and expressed his belief that his position is gaining support among the sometimes contending powers of Washington.

Secretary's statements were made at a Washington conference with 10 cotton producers from across the cotton belt and representatives of the Texas Department of Agriculture.

Butz, Executive Vice President of Plains Cotton Growers, who is chairman of the producer group, said he is away feeling somewhat better about prospects for continuing export sales to our foreign markets, which is extremely important to the cotton industry and to our area in general.

Butz said the possibility of exports being limited, as proposed by the domestic industry and some consumer groups, has been and continues to be a threat to the current boom in cotton and to further development of the markets. The session with Butz was requested by the producer organizations to express their gratitude and continued support for his effective opposition to export controls.

In this instance as in others the cotton producer has been one of the cotton industry's very best friends," Johnson said he is deserving of the highest praise for having withstood the pressures that have been exerted on him and his industry from a number of directions.

actions with regard to forward contracting of cotton in Texas is effective, equitable, practical and compatible, according to Cotton Fanning, Executive Assistant at Lubbock-based Plains Cotton Growers, Inc.

Fanning made this statement at a hearing conducted October 26 in Lubbock by Representative E.L. Short of Tahoka, Chairman of the Food and Fibers Marketing Subcommittee of the Texas House Agriculture Committee.

Noting that the major problem with forward contracting is in the area of contract performance, he said much discussion in Texas and across the Cotton Belt has to date failed to arrive at the "perfect solution" and that PCG was therefore unable to make specific recommendations to the Subcommittee.

"I can say, however," he continued, "that whatever action the Committee takes or considers taking should meet four criteria:

"It should be effective as a means to make forward contracting a better marketing tool;

"It should be equitable in that it will not unfairly jeopardize the interests of either party to a contract;

"It should be practical in that it will not cause either party to incur prohibitive costs or unnecessary inconvenience, and

"It should be compatible with procedures used elsewhere in the Cotton Belt, to the end that Texas producers will not be placed at a competitive disadvantage."

He concluded by saying "To meet all these requirements will not be an easy thing, but if any useful purpose is served, they must all be met."

HERE'S TO YOUR HEALTH

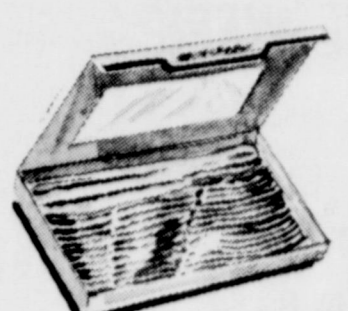

Many people try to save money on medical bills by not seeing the doctor until they are seriously ill. This defeats the purpose of "preventive medicine" (the only sound way to preserve your health) and it is more expensive in the long run. When a disease process is started, it often lasts longer and costs more to cure. A regular medical checkup is not only a good investment, but the resulting peace of mind also promotes good health.

“Thou wilt show me the path of life, in thy presence is fulness of joy...”
PSALM 16:11

HERE IS THE PATH

Luk 10:27

The Kingdom of God is not great and greatest commandment is love. God gave man the freedom to choose... and therefore will not force His love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving His neighbor. Without this grounding in the love of God, no government or society or way of life will long endure and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Skit presented at club meeting

The Town and Country Study Club met Wednesday, October 24, in the home of Mrs. Wayne Wilcox. A program on Care in the form of a skit expressed the concept of helping those who help themselves.

The idea of self-help in the countries where the Care project is being used was portrayed in an informative skit by Mrs. A.E. Sanders, Mrs. Kermit Ward, Mrs. S.P. Hamilton and Mrs. Ray Griffith. Members present were: Mmes. Willard Henry, Griffith, Hamilton, Ward, Sanders, Ross Shaw, Cherylone Inglis, Connie Gray, W.L. Foust and the hostess.

FOR PEOPLE WHO THINK

It would seem altogether unnecessary to call attention to things that are obviously, emphatically, true—but, at times, we do need to be reminded—so that we DO understand and retain the meaning of what we read or hear. To say a certain thing IS TRUE cannot mean it IS NOT TRUE. To say a thing SHALL come to pass does not mean that it SHALL NOT come to pass. The same is true of WILL and WILL NOT, and many other expressions requiring the same action.

In view of this the reader is asked to read Genesis 2:17. Here God said to Adam and Eve that they ate of a certain fruit from a tree that they would die. (Thou shalt surely die). But Satan said that if they DID eat that they SHALL NOT surely die. There is no degree of agreement between these two statements—one by God, the other by Satan. Of course God's statement is truth, and Satan's statement is falsehood—a lie. Notice that the two statements directly and irreconcilably, and for all time, CONTRADICT—God contradicting Satan and Satan contradicting God. Now, did God really MEAN what He said? Read further in Genesis three and the answer is exceedingly clear. Kind reader—this is not one example in all the Bible of God not meaning exactly what He said. Therefore, we cannot hope in the slightest that the word of God does not "mean" exactly what it says to us today.

When Jesus said "...except ye repent, ye shall all likewise perish"—Luke 13:3—it means exactly that—ye SHALL perish; it can't mean ye SHALL NOT perish. The latter is a direct contradiction of Christ and God's word. God's word IS truth. We do not depend upon anything else.

Matt. 10:32,33—Jesus stated that unless we confess him before men that he would not confess us before the Father in heaven. This, too, means exactly what it says. Paul, in Romans 10, said "...and with the mouth confession is made unto salvation." Here—IS MADE cannot ever allow IS NOT made—unto salvation. Hence, salvation does involve mouth confession. Would it be so bold as to CONTRADICT the Holy Spirit and say "confession" is not essential to salvation? member—you ARE welcome to attend the assemblies at 2001 S.W. 2nd. Sts.
