GENE MAYFIELD, head football coach and athletic director at West Texas State University and main speaker at the All Sports banquet Tuesday night, delivered a humorous and inspiring address aimed at the young athletes in attendance. Voting residency requirements told

The 1974-75 edition of the Texas Election Code does not reflect the latest order of the Federal Court issued in the case of Whatley V. Clark, which enjoins the enforcement of durational residency requirements in excess of 30 days.

This means that persons who have resided in the state and locality for 30 days and have been registered for 30 days prior to the election in which they wish to vote are

eligible to vote in state and local elections. Persons entering the state may register to vote immediately upon their arrival.

The cutoff deadline for registration for those who wish to vote in the May 4 Primary Election is the close of business on April 3.

Persons who have any "change of residency" question concerning moving within the precinct, from precinct to precinct, or from county to county, should contact personnel in the county tax assessor-collector's or county clerk's offices.

Teacher contracts extended

Renewal of teacher contracts was the main order of business as the Morton Independent School District Board of Education met in session last Monday. The board interviewed the school principals and in all cases on the recommendations made by the board with additional recommendations by Supt. Bob Davis. All teacher contracts were extended with the exception of four which will be reviewed and considered at a meeting of the board.

Three letters of resignation were received and accepted. Mrs. Bess Wilcox is resigning at the end of the school year to join her

husband in Vernon where he has been transferred by the U.S. Soil Conservation Service.

division. Karen Bilbrey of Bledsoe in snacks and in the division, and Trejo from Morton in and desserts division.

Girls earned the right to compete at the district level and they took top honors in the county classes in the County 4-H Food Show March 9, 1974 in Bula.

The show was held Saturday with scoring based on appearance, nutrition, meal preparation, food buying and meal presentation as well as the ability to prepare food. The public was held at 2 p.m. and the program was held

with leaders assisting and participating in the awards ceremony from Cochran County and neighboring Bridges who

Governor OK's justice grant

Governor Dolph Briscoe this week awarded two criminal-justice action grants totaling \$70,365 to Hale and Cochran Counties for improving county probation services.

The larger of the two grants, \$54,636, goes to Hale County for continuation and expansion of the staff of the Hale County Probation Department.

Cochran County will receive a grant of \$15,729 for second-year funding of a county adult and juvenile probation project.

Money for the projects will come from the Governor's Office, Criminal Justice Division. CJD administers the state's block grant from the Law Enforcement Assistance Administration under the Crime Control Act of 1973.

These awards were among 56 grants for a total of \$2,309,493 approved by Governor Briscoe.

THE LIONS CLUB BASKETBALL SQUAD looked anything but fierce as they lined up for formal portrait prior to the tipoff against the Chamber of Commerce last Tuesday night. The cheerleaders were especially fetching with

their stunning coiffures and long lashing tails. Those tails were observed to be firmly tucked in as they left the gym, however, following the Lions second straight loss to the Chamber in the young series.

MHS netters cop top honors

Morton High School tennis teams continued to take awards last week, winning two first place trophies at the Seminole tournament.

David Berrera and Ralph Mason won first place in the boy's doubles and Pracilla Minor and Sherita Flutt took the girl's first place trophy.

April 3, they will travel to Olton for the District meets.

Participating will be Julie Brown I singles; Terri Dobson II singles and Pracilla and Sherita in the I doubles and Joann Whithead and Kathy Mason II doubles.

In the boy's division Leo Rice will compete in I singles, Randy Coleman in II singles and David Berrera and Ralph Mason in the I doubles and Joe Bryant and David Ramby in the II doubles. Coach Johnson is the tennis coach at MHS.

FOR PEOPLE WHO THINK

Christians who assemble at Taylor and SW 2nd.

Desire to learn and follow the ways the first disciples were taught by the apostles of Jesus Christ to us we must remember that these were people who obeyed the command to repent (Acts 17:30). Repentance means "a change of mind, a change of thinking about" we therefore know that these were accomplished in their own lives. Without REPENTANCE in their hearts and lives none of them had been baptized, or become true disciples (Acts 11:26). True repentance involves change. All responsible people make up their minds to the life they want to live—the things they want to do, etc.—and then they determine to be that way. "Commit" (to speak or act in such a manner consistent to a certain line of conduct—Webb's) is to it. This is "their life." Jesus taught that we live by ourselves and follow Him—losing our own life to gain true life—read Luke 9:23-25. Repentance, involves changing our minds about the life we want to live and then determining (committing) to the life that is commanded of God, and then to DO GOD'S WAY.

Christians had no book to study to learn HOW to live God's way. Christ had given the law to the apostles and then the Holy Spirit came and was given them so that they remembered it (the apostles) were guided into ALL truth—read John 14:14; 14:26; 15:26; 16:7-13. The apostles were sent to teach Christians WHAT to observe—read Matthew 23:20—and Christ promised to be with them to the end of the world. "No one can come to the Father without suffering the will of the Father of God—read Galatians 1:7-9. No where else is found authorized of God except in the commandment. To "go beyond," or "think of men about God" is written "is to violate God's command—read John 4:6; 2 John 8-11. In this teaching and practice of the will of God for us to practice—in the record of HOW the early disciples did being approved by the apostles.

Follow. Please remember your welcome to assemblies at Taylor and SW 2nd. Sts. C.R. MANSFIELD, Evangelist, CHURCH OF CHRIST.

Berliners Hang Art for Free

Most Berliners can beautify their homes with all the art they fancy, without investing a penny, simply by visiting their city's Art Lending Library and walking through the print, drawing, lithograph, etching, woodcut, and sculpture galleries. Everyone over 16 may borrow any item for up to two months, without charge or deposit, even framing and crating are free. Insurance against loss or damage is optional at 35¢, but there is no charge against a late-return penalty of 18¢ per day! Now tenfold since its start with 150 items four years ago, the Berlin Graphothek now offers some 1,500 original works by nearly 380 graphic artists, some of considerable fame. Most of the art is donated (often by the artists themselves), and the rest paid for by the borough of Westend. About two-thirds of the works are out on loan at any given time; and although none is for sale, the Graphothek refers the many prospective buyers to the artists or galleries concerned.

The library also has an Artothek which lends sculptures, oils, paintings, and a separate Videothek for 16mm films, 8mm Ampex tapes, or half-inch videotapes that may be viewed right there or borrowed for home screening. All facilities are sponsored by the Berlin Art Association, an integral part of the city's free public library system.

Emphasis on markets for High Plains cotton, "especially for use on new textile processing systems such as open-end spinning," will be continued and intensified by Plains Cotton Growers, Inc. under its newly elected President, Don Marble of South Plains.

Marble, a Floyd County Director to PCG since 1965 and Secretary-Treasurer for the past two years, was chosen by the PCG Board at a meeting in Lubbock March 19. Following the election he said "PCG is in the midst of a program of spinning research, and promotion based on that research, that promises real benefits to High Plains cotton producers, and I want to do all I can to further those efforts."

Marble succeeds Ray Joe Riley of Hart who this year completed the maximum two-year term permissible under PCG By-laws and automatically becomes Chairman of the PCG Board. W.B. Criswell of Dalou was elected Vice President, succeeding Paul Bennett of Littlefield, and the Secretary-Treasurer position held by Marble was filled by Lloyd Cline of Lamesa. Criswell is a member of the PCG Executive Committee and has been a PCG Director from

Lubbock County since 1970. Cline has been a Dawson County Director since 1966, is a member of the Executive Committee and also serves as Chairman of the Finance Committee.

The Board meeting at which officers were elected followed the PCG annual membership meeting at which two speakers spoke in glowing terms of the potential for High Plains cotton in open-end spinning mills and of the possibility that many of those mills will be located in the High Plains area.

James Parker, Director of the Textile Research Center at Texas Tech University, told the group that in his opinion "There has not been any development in the textile industry for almost 100 years and could compare with the potential of open-end spinning." Someone has estimated that 20 percent of all yarn produced in the world will come from open-end spinning frames by 1980, he said, adding "We have no facts on the future, of course, but it does appear that as far as High Plains cotton is concerned, this type of yarn manufacturing will be fantastic."

Paul Cook who is President of Feather Fabrics, Inc., a joint open-end spinning

venture by local investors and Nijverdal-Ten Cate, the largest textile firm in the Netherlands, stated that the High Plains could well become a new center of textile activity for the U.S. He pointed out that because of the open-end system's ability to efficiently utilize low micronaire cotton, and the huge supply of such cotton normally available on the Plains, that textile mills in this area will enjoy at least a 10 percent profit advantage over open-end mills located in the Southeastern states. FFI, he said, is installing a \$3,500,000 open-end plant in Lubbock which, along with Southwest Textiles at Abilene and the Daiwa plant to be built by the Japanese in Levelland, should clearly demonstrate this advantage.

Another highlight of the producer organization's annual gathering was an address by Nick Hahn, Director of Sales and Marketing for Cotton Incorporated of New York and Raleigh, North Carolina. Hahn presented a detailed outline of the research and market development being carried on by CI to make cotton the "optimum fiber for the textile world of the future."

Thoughts

From The Living Bible

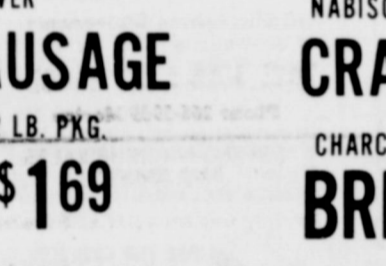

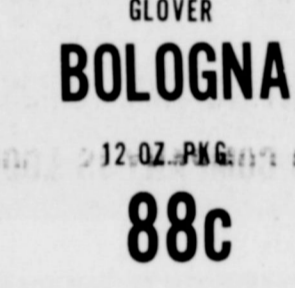

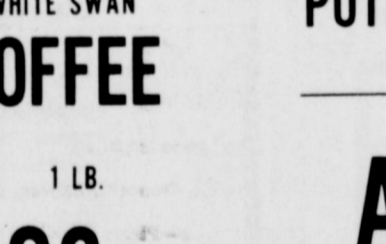

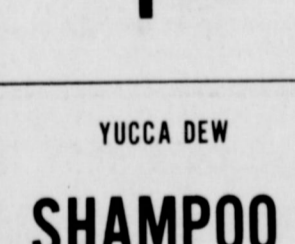

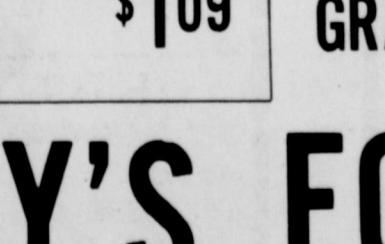

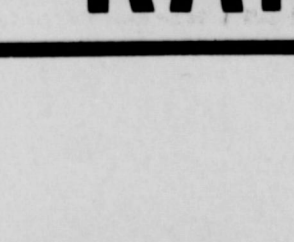

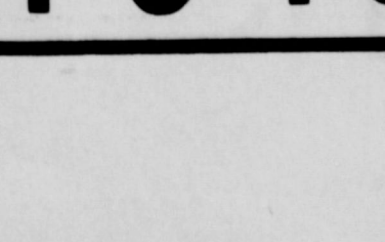

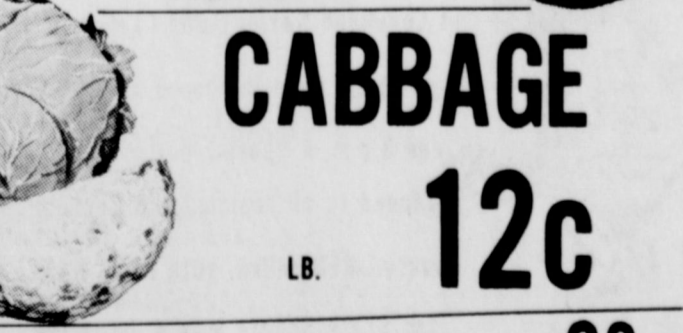

"In solemn truth I tell you, anyone believing in me shall do the same miracles I have done, and even greater ones, because I am going to be with the Father. You can ask him for anything, using my name, and I will do it, for this will bring praise to the Father because of what I, the Son, will do for you. Yes, ask anything, using my name, and I will do it! If you love me, obey me; and I will ask the Father and he will give you another Comforter, and he will never leave you. He is the Holy Spirit, the Spirit who leads into all truth."

RAMSEY'S FOOD STORE

MRS. DORIS FRANKS of the Griffith Equipment Company was presented a special Honor Certificate last week by the Dealer Development Department of John Deere Company in Dallas. Mrs. Franks was presented the award in recognition of her 1973 Outstanding Performance in the proficient handling of the John Deere Accounting and Business Management Programs. She is one of five bookkeepers to receive this award for the fourth consecutive year out of approximately 200 John Deere Dealers in Texas, New Mexico, Arizona and Southern California.

Home life program presented to club

Members of the Emla Smith Junior Study Club met March 14 in the home of Mrs. Keith Price with Mesdames Kim Hanlin and Bill Welch serving as co-hostesses.

The program was opened with a prayer by Mrs. Ken Williams. Mrs. Bill Foust, Home-Life chairman, introduced the guest speaker, Mrs. Richard Houston, who presented a program focusing on the blow-comb techniques of hair styling.

It was pointed out by Mrs. Houston, a local beauty salon owner, that there were two "musts" in having one's hair in this style: (1) keeping a good hair cut and (2) having hair in excellent condition. She also stated that in keeping with today's fashion trends to achieve a "total" look more tailored clothing was appropriate for this hair style and therefore additional curl would dress up the hair style to go with more formal attire.

When wearing this boyish cut, more emphasis should be placed on other features such as eyes, nails, lips, etc. Using Mrs. Donnie Dewbre as her model, Mrs. Houston then demonstrated the technique she uses in cutting, drying and styling hair in this manner. The importance of hair conditioners was stressed as well as the method of cutting this carefree hair-do. Scissors should be used instead of a razor to cut hair as the latter will leave the ends of the hair too thin. As the demonstration ended, Mrs. Houston added a few finishing touches to transform the day-time style into a curlier style for night-time occasions.

During the business meeting, plans were discussed for Caprock District Convention to be held March 29-30. It was pointed out that the Conservation Resource Band (otherwise known as the "Thumpin' Band from Hillybilly Land") would perform at the noon luncheon on Saturday March 30 at the convention. Members of the band are Mesdames Dvain Hester, Ray Luper, Ken Williams, Jimmy Roddy, Donnie Dewbre, Earl Polivado and Jimmy St. Clair. All members were urged to attend.

To conclude the evening Mrs. Ray O'Brien club president, presented a questionnaire to club members entitled "See Yourself as Others See You." This questionnaire provided an insight into the image one presents to others.

Present for the meeting were Mesdames O'Brien, Glen Price, Ronnie Wallace, Mary Ann Asbill, Welch, Hanlin, St. Clair, Williams, Hester, Foust, K. Price, Luper, J.W. Tyson, Dewbre and Glen

Lowe. Guests for the evening were Mesdames Jimmy Harris and Richard Houston.

The next meeting will be held March 28 in the Levelland Savings and Loan Building. Mrs. Dvain Hester will present a program entitled "Happiness Is." Club members are urged to bring a home-made item to display. Mrs. Ray Luper, Americanism Chairman and Mesdames Keith Price and Glen Lowe International Affairs co-chairman will also present short informative programs pertaining to their departments.

Butz requests railroad cars to move fertilizer

Secretary of Agriculture Earl L. Butz requested March 12 the Interstate Commerce Commission (ICC) to direct railroads to make available, on a preferred basis, additional rail cars to assure the essential and timely delivery of fertilizer to the nation's farmers.

Secretary Butz requested, in a letter to ICC Chairman George M. Stafford, that the ICC use its emergency authority to direct railroads to make 3,000 more covered hopper cars and 1,000 more boxcars available from now until May 1 for the transportation of fertilizer and fertilizer components from manufacturers to dealers in time to meet current planting needs. Need for priority on additional rail transportation, Secretary Butz, pointed out, is temporary and should have minimum impact upon other shippers.

"Much of our effort to increase the supply of grains for both domestic and foreign consumption," the Secretary stated, "will be futile if farmers are unable to receive the quantity of fertilizer needed during the planting season."

Secretary Butz cited supply reports from farmers and dealers for the week ending March 8 indicating: Nitrogen is short of expanded demand in 41 states, tight in 5; mixed fertilizer is short in 26 states, tight in 17; Phosphate is short in 30 states, tight in 13; and potash is short in 27 states and tight in 11.

Inventories of fertilizers in marketing channels are below normal, although production of these fertilizers is greater than that of a year ago—nitrogen by 8 percent, phosphates by about the same amount, and potash by 22 percent. Demand is greater with more acreage in production, but indications are

that enough fertilizer is available to meet much of the

increased demand. The major problem, currently, is that of getting the fertilizer to the farmers.

Make a Stand! Terraclor Super-X soil fungicide saves cotton from seedling disease

Control Rhizoctonia, Pythium and Fusarium fungi—from the time your seed germinates until you make a stand. Terraclor Super-X protects your seed and seedlings from seed rot, seedling root rot and pre- and post-emergence damping off.

Use Terraclor Super-X soil fungicide in-furrow or in hopper box. It's available in liquid, dust or granular form—granular with systemic insecticide. See your chemical supplier, or write Agricultural Division Olin, P.O. Box 991, Little Rock, Arkansas 72202.

The rare bird in the business

A Message to the High School and College Age Students of Morton . . . (and those who love them) From the President of West Texas State University

You are standing on the threshold . . . perhaps the threshold of greatness, but at least on the threshold of what can be a rewarding career. West Texas State University is also on the threshold . . . we think it is the threshold of greatness.

There is a new excitement on our campus. Everyone associated with the University tells me they feel it, students, faculty, alumni and our many boosters throughout the Panhandle.

The excitement started ten years ago when we achieved University status. We began getting many new facilities including a new library, science building, research center, classroom and administration buildings and a new Student Activities Center which is second to none in the United States. We have new programs of a dozen different kinds . . . even one for horsemanship.

Much of the money for these programs and facilities has come from individual citizens, companies and foundations. These benefactors say, in effect, that our area should be the site of a significant university . . . a university with facilities and programs which attract outstanding faculty and students from all over the nation, even the world.

WTSU is growing but it is not so big but that our teachers can take a personal interest in each student and relate to him as the individual he is. Though we have a higher percentage of Ph.D.'s on our faculty than most universities, (over 50% of our classes average fewer students than most, under 20).

Our students are very much a part of making things happen at WTSU. They are interested, involved and excited. Their learning experience is bigger than the classroom . . . it is as big as life itself.

Tell us which of these areas of study interests you and we will tell you more about that program at WTSU. Clip this coupon and mail it to me personally. I'll see that you get the whole exciting story without obligating you in any way.

Western cotton market activity slow this week

Activity in Far Western Cotton markets was slow this week, according to the Agricultural Marketing Service, USDA. Trading was limited, for the most part, to small, end of season lots, and to trading between merchants.

Growers with only a limited volume of cotton on hand, appeared in no hurry to sell at prevailing price levels. Some inter-merchant trading continued as shippers and other buyers attempted to fill sales made earlier in the year. Many merchants and shippers devoted the bulk of their time to shipping activities. They continued to report difficulties in getting cotton out of warehouses and in finding transportation for overseas shipments.

Contracting of the 1974 crop was at a virtual standstill, although a very limited volume of San Joaquin Valley, California growth was reportedly contracted at 58.00 to 62.00 cents per pound, basis grade 31, staple 35, 3.5 to 4.9 mike. Most growers and buyers were not able to agree on price. In most locations, buyers were not actively seeking to contract.

Vehicle registration deadline looms near

Monday, April 1st, is the last day for registering Texas motor vehicles, according to R.W. Townsley, Director of the Motor Vehicle Division of the Texas Highway Department.

Townsley noted that owners of motor vehicles must display 1974 license plates by 12:01 a.m. Tuesday, April 2 to avoid penalty.

"Unfortunately, many owners choose to wait until the last minute when the lines are longer," said Townsley. "When, in fact, county tax offices and substations have been open for registration since Feb. 1."

Townsley encouraged vehicle owners already possessing new plates to put them on. "It's the best advertising we can get in reminding owners that the registration deadline is fast approaching."

For those not yet registered, nothing is changed in the registration procedure from last year. The renewal form and payment are all the vehicle owner must present at the time of registration.

If the registration form has been misplaced, the owner will be required to bring his certificate of title and last year's license receipt.

Townsley reminded that beginning in 1975, Texas will change over to the 5-year license plate. "We're already manufacturing the '75 plates. That's how much leadtime we have to give ourselves."

In 1976, instead of buying a new license plate, motorists will purchase a 1-by-2-inch adhesive-type sticker that will be placed on the upper left corner of the plate," said Townsley. "In 1977, the

year, on May 27 and 28. This will leave the projected spring vacation intact, Travis advised the board members.

YOU SHALL LOVE THE LORD THY GOD WITH ALL THY HEART, AND WITH ALL THY STRENGTH, AND WITH ALL THY MIND, AND THY NEIGHBOR AS THYSELF. Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose... and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without His grace in the love of God, no government or society on earth will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, every man is a selfish person of none, one should support the Church for the sake of the welfare of himself and his family beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will let him free to live as a child of God.

Bledsoe News

"Superb," "Enjoyed," "Great" were a few of the comments heard following the Goodard High School Band Concert last Friday evening in the Bledsoe gymnasium. The well-rounded program presented by 65 talented young students had music for everyone. Mr. Len Cheney, president of the Goodard Band Boosters, presented Mrs. Jennie B. Denny and Mrs. Faye Ainsworth with honorary band membership certificates in appreciation for the help and support these ladies have given the Goodard Band. Approximately 150 people attended the concert performance, including out-of-town guests: Mrs. E.C. Hale, Mrs. Ray Griffith, Mrs. Alvin Gladden, and Judge Glenn Thompson of Morton; and Mr. and Mrs. Ed Osborne and Mr. and Mrs. Len Cheney of Roswell.

Bledsoe's Little Dribblers girls team lost by one point to the Blue Angels in Saturday's game. Patti Hall scored 9 points in that game which ended with a 14 to 13 score.

The Bledsoe boys stopped the Golden Bullets 28 to 24 in their game Saturday. Chip Bilbrey scored 10 points, Stacy Dunn and Hilbert Sepulveda scored 8 points each, and Tommy Perez scored 2 points. Ernie Trull coached the boys team.

Two of the 4-H'ers who represented Cochran County at the District 4-H Food show in Lubbock on March 23 are from the Bledsoe 4-H club. Karen Bilbrey won a red ribbon in the Snacks and Beverages Category, and Leesa Bilbrey won a red ribbon in the Main Dish category. Mrs. Filmore Bilbrey accompanied the girls to Lubbock.

Bledsoe hosted a junior high and high school track meet with Whitarral, Pep, and Three Way as guests Saturday March 23.

Bonnie Ellison came out with third place ribbons in the junior high girls broad jump, high jump and shot put.

In high school girls competition the 440-yard relay team made up by June Burns, Gayla Trull, Henrietta Davis, and Shirley Shelton placed first. June Burns also placed second in the high jump and the broad jump and Gayla Trull first in the high jump and third in the broad jump.

Jay Rhynes leaped to second place in the high school boys broad jump, while Terry Rawls, placed third in shot put.

"Will-o-the-Wisp" this year's entry in the One-Act play contest was presented for the public Monday March 25, in the school auditorium. The play was entered in competition Tuesday March 26 on the Muleshoe High School stage. Members of the cast for the drama were: Henrietta Davis, June Burns, Shirley Shelton, and Giorietta Davis. Mr. Derrel Hale directed the play.

RALEIGH REWARDED

On March 25, 1964, Sir Walter Raleigh was granted a patent by Queen Elizabeth for discovery and colonization of northwestern America.

Folks School were guests of Dutch Gipson Friday night. She entertained them at the Tic Toc Restaurant with hamburgers and all the trimmings. Later they accompanied Mrs. Gipson to her home for a full evening of fun. The boys, Eric Pruitt, Joey Thomas and Jeff Waltrip spent the night in the Gipson home. At a later date the girls will spend the night.

The school day began on the usual note of regularity last Tuesday morning, at least for everyone except the 5th grade class. What was so different for them? Nothing except a day in school, without the school. The classroom was the Muleshoe Wildlife Refuge.

Departure time was at 9 a.m., when Miss Choat, Mrs. Murdoch and Mr. Dendy's 5th grade classes scampered gleefully out of their classrooms and onto two waiting busses. The schedule of "classroom" subjects for the day began with a two-by-two "getaway" in which the students scattered out over a large area of the refuge, found a place to sit themselves, and quietly watched, listened, and noted as many different types of plants, animals, and birds as they could discover. After twenty minutes of observing and investigating, all students converged around the busses and compared what they had discovered.

At 11:30 and time for the next subject — eating a-la-picnic, in which there were no problems of encouraging whole-hearted participation. For the afternoon class, each of the three 5th grade rooms took a particular assignment. Class 5-A scoured the ridges for fossils and bones, 5-B scouted the hills for plants and unusual rocks, and 5-C nosed around the lake beds for Indian artifacts and arrowheads.

Well, all school days must come to an end, and at 3:30 all returned to "normal" school just in time to play a vigorous softball game between the boys and girls before class was dismissed.

Patients admitted to Cochran Memorial Hospital from March 19, through March 26 were: Harvey Thompson, Ofelia Sepulveda, Yolanda Avita, Julia Dewbre, Margie Zapata, Katie Hall, Ernest Trull, Novella Loveless, Ramon Sanchez, Ola Elliott, Ray Griffith, Ernestine Evans, Bessie Ivey, Elsie Young, C.A. Williams, Marie Jackson, Alice Neely, C.C. Benham and Joe Coker.

Look Who's New

Tribe prospects good at 3-AA track meet

Morton High School is expected to be a strong entry in the District 3-AA Track Meet Saturday in Olton. Quality performers and their top competition are: 440 Relay, Johnny Rozelle, John Green, Billy Joyce and Larry Thompson who will be battling a swift Dimmitt team anchored by Robert Mayberry. "If our hand offs are smooth it should be a very interesting race," according to MHS Coach "Hoot" Jones. Randy Kuehler's 2:05.9 seasonal best will have his stiffest competition by McClellan of Friona and Rivera of Olton in the 880 yard dash. Larry Thompson will do battle in the 100 yard dash and try to upset one of the top AA sprinters in the state, Robert Mayberry. Riece Standmire will be trying to defeat four of the top hurdlers in the area in the

330 I.H. Thompson and Mayberry will be battling for the top spot in the Broad Jump. The "projected" team champion at the District Meet is Friona, as they have a combination of quality and quantity. Dimmitt, Morton, Olton and Littlefield have only a limited number of quality individuals but if the points are spread out in a fashion that Friona is denied points in certain areas then any one of the teams will have a chance to win the team trophy. The Morton team is at full strength except for Green and Pete Soliz who are nursing knee injuries.

EXPECTED TO MAKE A STRONG SHOWING in the 440 yard relay District 3-AA track meet in Olton Saturday is the quartet of the swifties include from left, Larry Thompson, Billy John Green and Johnny Rozelle. Their strongest competition is expected to be a highly regarded Dimmitt team.

SANCAP. BECAUSE YOU HAVE ENOUGH SOIL PROBLEMS ALREADY.

If the soil in West Texas was the same as the soil everywhere else maybe the herbicides they use would be good enough for you.

But you've got different soil. Sandy soil. And different problems.

You need an herbicide specifically made for sand, loamy sands and fine sandy loam soils. You need Sancap®.

If you used it when we introduced it last season, you know what it can do.

STOP CARELESSWEED AND RUSSIAN THISTLE COLD.

Without hurting your cotton.

With just ordinary rainfall or irrigation.

And all you have to do is broadcast Sancap over your field at planting or within two days after.

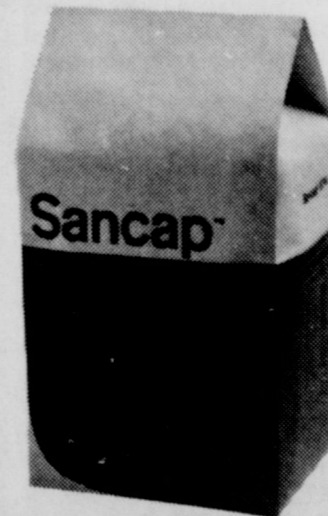

No incorporation, either.

Sancap. The only herbicide made for sandy soil. We made it especially for your soil and problems.

And not anybody else's.

THE COMMISSIONERS COURT in Bailey, Parmer, Cochran and Lamb Counties have purchased a new Bookmobile for their rural families. The Bookmobile was delivered to Muleshoe Thursday, February 28, 1974. All books and equipment have been transferred to it and it is now making the scheduled stops in four

counties. The librarians, Lorene Sooter and Ruby Henderson hope everyone will come to see the interior of the bookmobile. It has more room and is very pretty. The Bookmobile makes its schedule stops every 3 weeks and has books for adults and children.

Cattle feeding industry trends toward bigness

The trend toward bigness in the cattle feeding industry continued in Texas during 1973, reports Dr. Ed Uvacek, livestock marketing specialist for the Texas Agricultural Extension Service. "Cattle feeding has become even more concentrated in the larger feedlots lately. Of the 1,533 feeders in the state last year, only 233 and a one-time capacity of 1,000 head or more, and these accounted for 98 per cent of all the cattle fed in Texas," the specialist points out. According to Uvacek, only those feedlots with one-time capacities of 8,000 to 16,000 head and those that could handle more than 32,000 head increased in

numbers from a year ago. Six feedlots were added to the first group while seven joined the ranks of the 32,000 head or better group. "The super-large feedlots, those with a capacity of 16,000 head or more, totaled 66 in 1973 and accounted for 76 per cent of all the cattle fed in the state. This also represents 13 per cent of all the cattle fed in the nation," adds the Texas A&M University System specialist. With the continued trend toward large feedlots, Texas should have little difficulty holding on to its top-ranking position among cattle feeding states.

Child, disabled expenses can become benefits

Area taxpayers may reduce their taxes through liberalized federal income tax deductions for the care of children and disabled spouse or dependents, John J. Sloan, Administrative Officer for the Lubbock area, said today. Taxpayers with adjusted gross incomes of \$18,000 or less may be able to deduct as much as \$400 a month for household and dependent care expenses. Those who earn more than \$18,000 a year must reduce the deduction 50 cents for each dollar over \$18,000 Sloan said. To qualify for this deduction, according to Sloan, taxpayers must be employed, must provide more than half the cost of maintaining a household for a dependent under 15 or a disabled spouse or dependent of any age, and must make the payments to persons other than relatives or dependents.

Sloan pointed out that this deduction may include household expenses paid for the usual services of a housekeeper, maid or cook. Additionally, he said, expenses performed outside the home for nursery school or day care for dependents under 15 may be included as part of the deduction if they are necessary to enable the taxpayer to work. However, he added, these expenses are limited to \$200 a month for one dependent, \$300 for two dependents and \$400 for three or more. According to the law, such expenses cannot include educational costs for a child in the first or higher grades. Mr. Sloan also said that deductions for care of disabled dependents over 15 years of age must be reduced by the amount that the dependent's adjusted gross income and any nontaxable disability payments

exceed \$750. The expenses paid for care of a disabled husband or wife, Sloan said, must be reduced by nontaxable disability payments. Typically, the payments come from disability insurance policies and employee sick pay plans. Mr. Sloan cautioned Lubbock taxpayers that, to take advantage of child and disabled care provisions, they must itemize all deductions on Form 1040. Form 2441 may be used to compute the deduction. "And, as with all such items on the return, it's necessary to keep records to prove expenses," he said.
