New faces join council, board

OFFICIALS FOR THE CITY were on the job as an average voters turned out Saturday to make faces known in the balloting for the Mayor and City Councilmen. Left to right are, Mrs. J.W. McDermott, Burl McCasland, election judge; Susan Rowden, Mrs. Mac Fred, Mrs. Gage Knox and Mrs. Hume Russell, all of whom assisted in the election.

Narrow margin returns Leitzell to Mayor post

An average turnout of approximately 250 trooped to the polls in Morton Saturday to make their choices known for the office of Mayor, two city councilmen and three school board members.

Incumbent Mayor Marshall J. Leitzell was returned to his seat in a narrow margin victory over his only opponent, Neal H. Rose. Leitzell received 121 votes while Rose was polling 104 for a 17 vote margin.

Roy L. Brown was the victor for the Place I city council seat by a wide margin over C.D. Ray. Brown captured 150 votes to 66 garnered by Ray.

Jerry Iley was seated in the Place II city council seat. He was unopposed and polled 202 votes.

In the Morton Independent School District Board of Trustees election, incumbents Dexter Nebhut and Bob Polvado were returned for another term and Robbie Key was elected for the first time. There were five candidates for the three seats, which were all for three year terms.

Mrs. Jean Sayers was the fourth place vote getter, with 94 and Hub Cadenhead finished fifth with 80. There being no places or precincts in the school board election, the three highest vote getters win the seats.

KENT HANCE, left, candidate for state Senator from the 28th District, is pictured at a reception given for him in the Community Room of the Levelland Savings and Loan building last Wednesday. Hance briefed local voters on his views of the issues and conducted a question and answer period. With him are his wife, Caroline and Randy Thomas, his campaign coordinator for Cochran county.

Kent Hance talks to Morton voters

Kent Hance, candidate for State Senator from the 28th Legislative district, was in Morton last Wednesday for the purpose of meeting the voters of Cochran county and clarifying his stand on the issues at stake.

Hance and his wife, Caroline, were accorded a reception in the Community Room of the Levelland Savings and Loan building. He spoke briefly on his views of the issues and held a question and answer period for the purpose of probing him on his views.

A portion of the views he expressed included: He favors capital punishment for certain crimes and feels that the recently enacted law in Texas is too limited to be effective.

He is strongly for water importation to West Texas and, if elected, will spend time

an effort to pursue importation. He is the youngest member on the water advisory board at the present time. He has also been a member of Water Incorporated since his law school days.

He has a dry land farm near

Clayton requests oil for farmers

State Rep. Bill Clayton, (D-Springlake) recently called on the Federal Energy Office to adopt new priorities for lubricating oil for agricultural usage. In his appeal to the FEO, Clayton warned of a critical situation facing the consuming public if sufficient lubricants are not made available.

Clayton urged the Energy Office to enact new guidelines proposed on March 29, which would give lubricating oil a 100 percent top allocation priority when used in agricultural pursuits. Clayton pointed out

Candidates visit

Doc Blanchard, candidate for re-election as Senator from the 28th Legislative District and Bill Clayton, candidate for re-election as State Representative from the 76th District are coming to Morton next week.

They will hold a meeting in the Community Room of the Levelland Savings and Loan building for the purpose of meeting the voters of Cochran county and expressing their views on current issues.

The meeting will begin at 1:30 p.m. and last as long as necessary.

They will brief the public on the constitutional convention and answer all questions.

All interested persons are invited to attend.

County citizen longevity rises

The average Cochran resident, the chances to a ripe old age are as they have ever

to the dramatic that has been made of medicine and health in recent years, life is at an all-time

result, the average today in the local

area has a life expectancy of 71.1 years.

If the same child has been born in 1850, he could have expected to live only to age 40. At the turn of the century his life expectancy would have been 47 years.

The great expansion in the span of life since that time is attributed by the Health Insurance Institute to general improvements in living conditions and to the development of antibiotics and vaccines.

The biggest progress, by far, has been among the very young due to the strides made

in curbing childhood diseases.

Although the gains among the older segment of the population have not been as striking, they have been substantial. As a consequence, the odds in favor of a local couple living to celebrate their silver anniversary are much greater than they were in former years.

According to the overall statistics, a very high proportion, well over 80 percent, of the recently married couples in Cochran County may look forward to

High screwworm count expected

Livestock owners of the southwestern United States should re-double their efforts this spring to find, treat and prevent screwworm cases, since the livestock parasite is expected to reach record numbers due to the unusually mild winter just ended.

This warning comes from Dr. M.E. "Cotton" Meadows, Jr., director of the Mission-based screwworm eradication program of the U.S. Department of Agriculture.

Meadows also cautioned producers to refrain from livestock surgery or other manmade wounds to prevent screwworm infestations.

"Thirty per cent of all laboratory confirmed cases so far in 1974 have been collected from manmade wounds (dehorning, branding, docking and the like), and every effort

If you can't get PIONEER Brand 8311

here are some excellent alternative hybrids for High Plains farmers.

Pioneer Brand 8311, the "Golden Bronze Yield Leader," has been our most popular hybrid this year — so popular, in fact, that it may be in short supply in some areas. One reason is that the demand has been so great downstate where 8311's disease tolerance is so important. Fortunately, there are several other Pioneer Brand hybrids that are proven top performers on the High Plains. If you can't get 8311, ask your dealer about these.

PIONEER Brand 8417

This versatile yellow endosperm sorghum is a champion yielder in the medium-late maturity class, for irrigated or non-irrigated land. It has large open heads, uniform head height, strong stalks for easy threshing, good tolerance to smut and anthracnose.

PIONEER Brand 820

This top-notch full-season hybrid, is a consistently high yielder. Excellent drought resistance and standability plus good roots and stalks make it a good choice for irrigated or non-irrigated farming on the plains.

PIONEER Brand 828

One of the highest yielding sorghums you can plant, this full-season hybrid responds well to good management on good land with plenty of water. Plains growers like it because it holds its quality and threshes well even after an early freeze. It produces sturdy stalks with semi-compact heads of dark red grain.

PIONEER Brand 846

Famous for its versatility and adaptability, this medium maturity hybrid yields along with the full-season varieties. Resistant to smut, rust and MDM, its outstanding hybrid vigor and excellent drought resistance help it turn in consistently high yields even under stress.

SANCAP. BECAUSE YOU HAVE ENOUGH SOIL PROBLEMS ALREADY.

If the soil in West Texas was the same as the soil everywhere else maybe the herbicides they use would be good enough for you.

But you've got different soil. Sandy soil. And different problems.

You need an herbicide specifically made for sand, loamy sands and fine sandy loam soils. You need Sancap®.

If you used it when we introduced it last season, you know what it can do.

STOP CARELESSWEED AND RUSSIAN THISTLE COLD.

Without hurting your cotton.

With just ordinary rainfall or irrigation.

And all you have to do is broadcast Sancap over your field at planting or within two days after.

No incorporation, either.

Sancap. The only herbicide made for sandy soil. We made it especially for your soil and problems.

About Local Folks

By Dutch Gipson

Doyle Townsend of Spooner, Wisc. arrives last Wednesday for a visit with his daughter and family, Mr. and Mrs. Donnie Simpson.

Mr. and Mrs. Glenn Bell of Canon City, Colo. have been visiting in Morton with their son and family Mr. and Mrs. Jim Bell.

Mr. and Mrs. Charles Palmer had as their guests over the weekend Mr. and Mrs. Kenny Palmer of Lubbock.

Mrs. Joe Gipson is attending the Texas Justice of the Peace training center which is convening in El Paso this week. The school is a requirement to hold the office of Justice of Peace.

Recently the Gene Evans of Olney, former residents of Cochran County, spent some time visiting with friends in Morton. While here they were house guests of the Hume Russells.

Mr. and Mrs. Paul Cornwell of Oklahoma City spent from Thursday until Sunday with her parents the C.A. Bairds.

Mrs. Jean Lively of Lubbock visited last week with her mother, Mrs. Hessie B. Spotts.

Mr. and Mrs. Mayland Abbe and son Mark, of Lubbock were weekend guests of their parents, the M.L. Abbes and Lois St. Clair.

Mr. and Mrs. C.B. Jones have been spending a few days with their son W.A. who broke his ankle last week.

Mike McCasland is home from Thailand on an unexpected but welcome

furlough. He surprised his wife, Renee and his family with a call he was in Lubbock.

Mr. and Mrs. W.J. Collier and Kirk spent the weekend in Dumas visiting with their daughter and family Mr. and Mrs. Barry McCutchan and other relatives and friends.

Last week Mr. and Mrs. Louis Kuehler went to Brownfield and picked up Mr. and Mrs. C.A. Kuehler and traveled on to Humble for a visit with their son, Mr. and Mrs. Glenn Kuehler. While there they went fishing and reported the fishing and the weather good.

Vanlandingham services held

Services for Johnnie Bob Vanlandingham, 83, of Enochs were held Wednesday at 3 p.m. in the First Baptist Church of Enochs. The Rev. Charlie Shaw, pastor, officiated, assisted by the Rev. Preston Harrison, former pastor and the Rev. Jim Green, pastor of Emanuel Baptist Church in Portales, N.M.

Burial was in Enochs Cemetery under the direction of Singleton Funeral Home of Morton. Vanlandingham died at 12:20 p.m. Monday in Lubbock's Methodist Hospital.

He was a retired farmer and lived in Enochs for 29 years.

Survivors are: his wife, Josie; four sons, Charles of Raton, N.M., Woodrow and Arthur, both of Albuquerque, N.M. and Theo of Los Angeles, Calif.; a daughter, Mrs. Orene Hall of Anaheim, Calif.; four sisters, Mrs. Minnie Gibson of Mulleshoe, Mrs. Rose Cruckshank of Wichita Falls, Mrs. Thelma Phillips of Mangum, Okla., and Mrs. Ruby Beason of Calif.; two brothers, Halbert and Jessie, both of California; 16 grandchildren and 18 great-grandchildren.

In 1919, Parisians carried dolls about with them to ward off influenza!

MR. AND MRS. CURTIS ALBUS

Albus-Coker exchange double ring vows

Landra Coker became the bride of Curtis Albus March 30 at 7:30 p.m. in a double ring ceremony in the First Baptist Church. The Rev. Paul McClung officiated under the archway covered with greenery and white carnations accented with blue bows, flanked by candelabras.

Parents of the couple are Mr. and Mrs. C.G. Coker of Morton and Mr. and Mrs. Paul Albus of Pep.

Given in marriage by her father, the bride wore a formal gown of silk peau de soie fashioned with an empire waistline and a high neckline. The full bishop sleeves were gathered into petal point cuffs and the front of the gown was accented with lace and pearls. A Juliet headpiece held her long veil of three tiers of illusion.

Donna Arnold served as maid of honor and Jeanie Coker, sister of the bride, was bridesmaid. They wore formal gowns of blue knit styled with fitted waistlines and softly gathered skirts. The raglan sleeves were of matching voile gathered into cuffs. Each carried a long stemmed blue carnation.

Don Gerik of Pep served as best man and Mark Flitt was groomsman.

Guests were seated by Joe Coker, brother of the bride, and Darwin and Mark Albus, brothers of the groom. John Jackson and Gary Butler served as candlelighters.

The bride's mother wore a street length dress of teal blue knit fashioned with an A-line skirt, belted at the waist and long gathered sleeves and an Iris corsage.

The groom's mother was attired in a light blue knit dress with a fitted waist, gored skirt and long sleeves. She wore an Iris corsage.

Providing traditional wedding music was Miss Debra Williams, pianist, and soloist Miss Donna Sanders who sang "We've Only Just Begun."

Tona Coker, sister of the bride, registered the guests.

A reception honored the couple following the ceremony. The table was

covered with a white cloth edged in lace. The four tiered wedding cake was decorated with blue roses topped with wedding bells. Crystal appointments, an arrangement of blue flowers and silver candlesticks with blue candles completed the table setting. Mrs. David Merrick, Miss Beverly Albus and Miss Tona Coker served.

The bride is a 1973 graduate of Morton High School. Albus is a 1972 graduate of Pep High School and attended South Plains College. He is employed by Ray Gerik of Pep.

Following a wedding trip to Carlisbad, N.M., the couple will make their home at 706 S.W. 6th Street in Morton.

One act play in Dimmitt

Other members of the cast were: Debra Williams, Debbie Adams, Lynda Adams, Marie Wilcox, Bobby Hall and Roy Melody Crone and Steve McClintock, stage crew members.

Baby Week: 1974

Even though "times are a' changin'" one thing never does: the love and attention devoted to a brand-new baby. Yet with the fast-paced life abounding in America, more and more active mothers are seeking new ways to save precious time.

April 20 to May 4 is Baby Week, a good time to consider the ultra-convenient aspects of modern baby products.

Preparing a baby's meal used to be a tedious task. Now Gerber offers more than 150 prepared foods—cereals, juices, strained and junior foods and Toddler Meals—to simplify the job of feeding your baby in a tasty and nutritious way.

Nursing your baby is a warm and love-giving experience that mustn't be time-clocked. If you feed your baby with a bottle, there are handy new Gerber nurse bags that eliminate troublesome sterilizing and cleanup procedures.

Disposable diapers, too, have become a great boon for busy mothers. As a safety check, it's a good idea to put vinyl pants over them for maximum protection. When it comes to clothing, the attractive Babygro® stretch-wear coveralls are easy to care for...yet soft and comfortable for baby.

Although the emphasis of many energetic mothers is on "how easy" something is, there's no relaxing of quality. In many ways, including toiletries, equipment and even insurance, Gerber helps to surround your baby with love.

REDDY'S CONSUMER TIPS ON... AIR CONDITIONERS

Take the heat off your budget this summer with Reddy's checklist for good air conditioner performance. Give Reddy good working conditions and give yourself a cool house at less cost!

- 1 Have your air conditioning equipment inspected and serviced at the beginning of the season. You could prevent an expensive repair bill later.
- 2 Outdoor sections of cooling equipment need space so Reddy can keep up a good air flow. Keep plants, walls or other obstructions away from them.
- 3 Leave space enough around air grills inside the house. Air should be able to flow freely, or the compressor could be damaged.
- 4 Weatherstrip windows and doors, especially large glass ones. Keep them closed as much as possible.
- 5 Uninsulated ceilings can let up to four times more heat than insulated ones do. The cost of insulation is usually recovered by lower cooling (and heating) costs.
- 6 Does your thermostat setting have to be as low as it is? 78 degrees is usually recommended - the ideal temperature for comfort and cost.
- 7 Once you decide on a setting, leave it there. If the entire family is away all day, however, you could raise the setting five degrees.
- 8 Reddy has to work extra hard to combat heat from direct sunlight. Awnings over windows provide the best protection from sun's rays. Drapes or venetian blinds also help. Keep them drawn during the sunniest part of the day.
- 9 Clean filters or replace filters at least once a month.
- 10 Use bathroom and kitchen exhaust fans to get rid of excess heat and moisture. Clothes dryers should also have outside vents.

Lubbock postmaster announces postique

Ernest J. Reed, Jr., Lubbock postmaster, has announced that Postique, a Postal Store, will open in the lobby of the Post Office, 1515 Avenue D, 10:00 P.M., April 12. Regional and District Postal officials will participate in a special ribbon cutting ceremonies at the opening. On April 12, 1974 is the 65th birthday of the City of Lubbock, a city charter having been adopted on that date in 1909. Postique is located in a carpeted area of the Post Office lobby. It is a replica of the old Singer's Mercantile Store—the first known business establishment in the area which has become Lubbock. "Old Man Singer's Store," established prior to 1881, was the first area post office and gathering place for the trader, Indian, drifter, cowboy and cattleman. The store, on Lake Punta de Yellico Canyon, is located at the intersection of military roads, between Griffin, Fort Sumner, Stockton and Fort Elliott. The site was actually marked on Spanish Land Maps 300 years before the Anglo found it. Postmaster Reed quotes a black old timer, Rollie Meadows, on his first sighting of the store: "I rounded a canyon and saw a store, diminutive and old, nestling on the east side of Lake Punta Yellico. I rode up, a dozen or more horses were tied to the rack out front. In and out the store was a motley crew of cowboys, a few men and a half-dozen Indians. I mailed my letter and bought a drink of beer and some candy, stood a while and then started home. Specially postmarked and cancelled envelope will be available to collectors to commemorate the occasion. The cachet features a drawing of Singer's store, the City of Lubbock official seal and the Postique service cachet envelope will be cancelled with the new ZIP Code stamp.

unique Postique cancellation which has the word "Postique" in stylized script in the killer bars. Requests for cachets should be sent to "Postique, Postmaster, United States Post Office, Lubbock, Tex., 79408." The cacheted envelopes, stamped and cancelled April 12, 1974, are 35 cents each or three for \$1. A Number 10, self-addressed, stamped envelope should be included for return of the cacheted envelopes. Orders will be filled as long as the supply of cancelled cacheted envelopes permits.

Dalhart and knows the problems involved in farming and the need for water. If elected, he will form an advisory committee of 30 persons in his district—Cochran county included—who will meet at least four times a year to keep him abreast of the views of citizens residing here. He will use three meetings to brief his constituents on the goings-on in Austin. He is against centralization in government and wishes to keep it in the hands of the people. He promises no conflicts between his law practice and his duties as a Senator. Hance's opponent is incumbent Senator Doc Blanchard, of Lubbock, who will make a like appearance in Morton on April 17.

SCREW WORM

should be made to prevent wounding animals during the screw worm season," Meadows said. The USDA veterinarian emphasized that the Texas and Southwestern Cattle Raisers Association also solicits the cooperation of all livestock owners in an all-out effort to eliminate the screw worm fly. In a special resolution approved by the industry organization at its recent annual meeting in Dallas, all livestock owners of the southwest were urged to support the eradication effort by:

1. Inspecting their animals

frequently.
2. Treating all wounds with an approved product.
3. Collecting and submitting worm specimens to the Screwworm Laboratory at Mission, Texas, for identification. Positive cases then can be given sterile fly treatment, officials reminded. Screwworm cases are off to a fast start this spring, with 23 new Texas cases confirmed last week from counties as far north as Brown and Haskell. Others reporting first '74 cases last week were Atascosa, Brooks, Frio, Jim Hogg, Willacy and Zavala. Total case tally for Texas thus far in 1974 is 78, while only 59 were recorded through the end of March a year ago. The U.S. total for 1974 now stands at 90, with California reporting 8 and Arizona, 4.

that happy event, assuming that divorce does not intervene. In fact, for a local couple who marry in their early 20's, where the man is two or three years older than his bride, the chances are now better than 3 out of 10 that they will survive to their golden anniversary, 50 years hence. The increase in longevity is evidenced by the growing number of older people. In Cochran County, some 8.5 percent of the population is over 65. The latest breakdown shows that there are 210 men and 250 women in that age bracket locally. Many of them have chosen not to retire and are continuing to work. According to the figures, 42.3 percent of the local men over 65 are still in the labor force. Elsewhere in the United States, 24.8 percent are in the labor force and, in the State of Texas, 29.6 percent.

CLAYTON

that under the present guidelines set out January 15, lube oil receives only a general priority classification which forced many oil producers and distributors to sell oil needed for agriculture to non-agricultural users. Illustrating the emergency situation faced by the farmer, Clayton pointed out that not only is general farm equipment, such as tractors, trucks and combines, working overtime this year to produce the bumper crop of food Americans will require, but essentials like irrigation pumps for the irrigated farmlands all across Texas are needing large amounts of lubricants because of the extremely dry year Texas is undergoing. Without the requisite lubricants, Clayton warned, not only will machinery be stopped in the fields, but water will not even reach the crops. Clayton said that he is also urging the Texas Railroad Commission and his fellow legislators to join with him in the effort to get the priority established.

THE FAMILY LAWYER

Receiving Stolen Property

Myrtle bought a transistor radio from the "nice young man" who came knocking at her door. He said he was the salesman for a local distributor. But in truth, he was a thief who had stolen a dozen radios from a warehouse the night before. On these facts, could Myrtle be found guilty of "receiving stolen property"? Hardly. One key element of guilt is missing: some reason for

her to believe the radio was stolen. Generally speaking, it is no crime to buy stolen merchandise with an innocent mind.

However, a buyer's protestations of innocence may not always be convincing. Consider the case of a farmer who bought 24 chickens from a teenager who called at his farmhouse.

In this case, the youth approached the farmhouse furtively by way of a back road. The price he asked was less than one-third of what the farmer was used to paying. And the hour was shortly past midnight.

Although the farmer insisted afterward that he was "totally surprised" to learn the chickens had been stolen, a court chose not to believe him. Result: he was found guilty of receiving stolen property. The court observed that the sale was made "at an hour unusual for honest transactions."

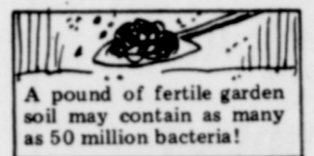

Of course, the major problem in this area is not the occasional purchaser but the professional "fence" who, by providing a regular outlet for stolen merchandise, encourages the thievery in the first place.

Accordingly, most states impose an extra responsibility on businessmen who regularly buy and sell merchandise to watch out for certain suspicious circumstances. Thus a junk dealer, when offered an unusual bargain, may be required to ask more questions about the merchandise than a one-time buyer.

"The duty of diligent inquiry before purchasing," said one court, "protects the junk dealers who buy in good faith and provides punishment for those who do not."

Thoughts

From The Living Bible
This song of David was written at a time when the Lord had delivered him from his many enemies, including Saul. Lord, how I love you! For you have done such tremendous things for me. The Lord is my fort where I can enter and be safe; no one can follow me in and slay me. He is a rugged mountain where I hide; he is my Saviour, a rock where none can reach me, and a tower of safety. He is my shield. He is like the strong horn of a mighty fighting bull. All I need to do is cry to him—oh, praise the Lord—and I am saved from all my enemies!
Psalms 18:1-3

Who owns the nation's forests?

Fully 59 per cent of the nation's 500 million acres of commercial forest land belongs to 4.5 million small, non-industrial private owners—most in woodlots of less than 100 acres. Federal and state governments are the next largest ownership category with 28 per cent. The remaining 13 per cent is owned and managed by the forest products industry. — CNS

TIPS FOR OUTDOORSMEN

SPORTSMAN'S WEATHER GUIDE

When readying for an outing, whether a hunting, fishing or boating expedition, sportsmen become concerned about the weather.

After all, weather has much to do with the success of every outing, as well as the comfort of the sportsman.

Weather predictions aren't always correct, even by the weatherman, for conditions do suddenly change. That's why outdoorsmen often check age-old weather signs before submitting themselves to the elements.

Rain Indicators

These rain indicators are easy to recognize and usually are reliable:

1. A halo around the sun or moon means that rain is approaching.
2. So does smoke when it curls downward.
3. When clouds are low and accumulate in a web-like formation, rain is near.
4. When cumulus clouds acquire tufts, giving them the appearance of shell bursts, rain is indicated.
5. Beware if lightning is to the West or Northwest. A storm is probably coming your way.

Fair Weather Signs

1. When smoke curls upward and vanishes, fair weather is ahead.

2. When clouds are high and the air is dry, chances of rain are slim.

3. If it's storming to the East or South, and you can see lightning, the storm will probably pass you by.

SHARPENING THE KNIFE

Ever discover your knife was dull when you needed it most? Be it a pocket knife or a hunting knife, there is one quick way to sharpen the blade. Simply remove your leather belt and use it as a strop.

If you have nothing to attach the buckle to, so you can use it like the barber does his strop, then stand on the buckle and pull up on the strop with one hand while you strop away with the other hand.

HANDY WORKSHOP STROP

A handy strop for your work shop, to sharpen steel knives, can be made by gluing an unfinished piece of leather to a piece of wood.

Length of the wood would be determined by the length of the leather. If a foot or more is available, glue the leather down tight, then bore a hole in the wood, about an inch from one end and hang the "sharpen" in a convenient spot by the work bench.

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Venereal disease isn't the silent epidemic it once was, but it still is an epidemic—particularly among the state's young people.

More is being heard about VD in Texas, but more—much more—needs to be said about the causes and the cures for syphilis and gonorrhea, says the Texas State Department of Health.

Last year in Texas, 64,210 cases of gonorrhea and 5,354 cases of syphilis were reported.

Gonorrhea increased by about 12 to 15 per cent, but in the 10 through 14-year-old age group the increase was a startling 26 per cent. And, the age group from 15 through 29 reported 85 per cent of all VD cases in the state.

Nationwide, gonorrhea has become the number one reported communicable disease, and syphilis—once thought to be under control—is continuing to present a serious problem.

Public health officials estimate that more than two million Americans were affected last year by venereal disease—more than half of the victims under 25 years of age.

The Texas State Department of Health and local health departments are using a four-pronged attack against VD. Emphasis is being placed on: epidemiology (or case tracing); gonorrhea screening by various health agencies; closer cooperation with laboratories and private physicians; and education, or public awareness.

April is being observed as "VD Awareness Month," and education ranks high among priorities in combatting venereal disease. Everyone needs to understand how VD is spread, what the symptoms are and what can be done about it.

Even today, despite the advances being made in bringing out the true facts on VD, there still is a "hush-hush" attitude about venereal disease.

Syphilis and gonorrhea are serious health problems. Syphilis can attack any part of the body, including the heart and brain. If a victim remains untreated, syphilis can cause insanity, crippling, blindness, heart damage and death. A pregnant woman with syphilis can pass it on to her unborn baby, causing it to be born sick, deformed or dead. Gonorrhea can cause sterility, heart damage, arthritis and blindness.

Health authorities emphasize that gonorrhea and syphilis are spread by germs passed from one person to another during intimate contact. Knowing the signs of VD—and reacting to them by seeking treatment—is very important.

The first sign of syphilis—a sore called a chancre—usually appears where the germ enters the body, usually from 10 to 90 days after contact. The painless sore may go away, but the disease doesn't. A rash, sore throat or falling hair may appear from two to six weeks after the sore disappears. Again, if the disease isn't treated, the symptoms may disappear and the disease will lie hidden, striking some vital organ such as the heart, brain or spinal cord in later years.

While gonorrhea isn't considered as lethal as syphilis, it is more widespread and harder to control. The incubation stage is shorter, and first signs of infection usually appear within three to five days. Infected persons may experience a burning sensation while urinating, have a discharge from the sex

organ or have abdominal pain. Males normally are acutely aware of these symptoms, but in women the symptoms may not appear or be ignored.

The national Center for Disease Control estimates that in the United States there are 800,000 women who have gonorrhea and don't know it. Those who have VD and don't know it are called asymptomatic carriers.

An important thing about VD is that it is contagious, serious—and curable, says Dr. M.S. Dickerson, chief, Bureau of Communicable Disease Services for the State Health Department.

Dr. Dickerson says any person with symptoms of VD should visit a doctor or public health center immediately and request an examination. In Texas, all VD cases are handled confidentially. Minors may be examined and treated without notifying their parents.

The venereal disease message is being spread throughout the state during VD Awareness Month but, says Dr. Dickerson, the battle against this health threat is a continuous one 12 months out of the year.
