County scores tax rate decrease

MEMBERS FROM COCHRAN AND HOCKLEY DISTRICTS attended a Future Homemakers of America district meeting at the Levelland High School last Wednesday. While the chapter leaders were meeting elsewhere in the building, the girls above were playing a game which helped them to get acquainted with each other.

Commissioners reverse state, national trend

In this time of rising costs, prices and tax rates, Cochran county citizens are recipients of the unique experience of a county tax cut.

The cut in taxes, small though it may seem, is the first cut in assessment since the county began taxing its citizens. The tax cut was announced recently by Judge Glenn Thompson, president of the Cochran County Commissioners Court, following action by the court to relieve, in as much as possible, the tax burden born by Cochran countians.

The personal and real tax rate in the county was dropped by five cents per one hundred dollar evaluation, bringing the rate down from 80 cents to 75 cents per one hundred dollars. The new rate plus the special ad valorem tax currently in force brings the total county tax rate to \$1.05 per \$100 down from \$1.10 for the past many years.

When the combined total of 87 cents in school, hospital district and state taxes are added to the \$1.05 assessment, the total tax paid by county residents comes to \$1.92 per \$100 dollar valuation.

Simultaneously with the tax cut announcement, the commissioners court announced a 7 percent cost of living salary increase for all county employees across the board. The raise became effective as of September one and will be reflected on the monthly pay checks received by all employees at the end of

Coats for Boys

A drive is underway to purchase 32 coats for 32 boys at Great Plains Boys Ranch to get them ready for winter. The help of everyone in the community is needed for this project.

Those wishing to donate to this worthy cause may call or drop by Griffith Equipment with their contribution. Call 266-5555 or bring it by. Any and all contributions will be highly appreciated - the need is strong.

A LONG-TIME MORTON EYESORE since it burned several years ago will soon do a disappearing act as the old Byron Willis Auto Parts building is being torn down to make way for a modern Dairy Queen franchise

restaurant. The new installation, which is tentatively slated to include a large dining room as well as its drive-in facilities, will reportedly spread over three lots, from South Main Avenue to the west.

SOMETHING NEW HAS BEEN ADDED - Winston Jerden, left and G.F. Cooper, Jr., right, stand by the ultra-modern vehicles recently received for their use in delivering mail on City Route 1 and Cit Route 2 respectively. The two right-hand-drive vehicles are specially designed for their job and are expected to increase efficiency and lower delivery time on the mail routes. Each vehicle cost approximately \$5,000, according to postal officials.

Pirates keel-haul Tribe

The Morton Indians went down to the sea Friday night and soon found themselves

engaged in a death struggle with as fierce a band of Pirates as they could ever have asked for.

August rural accidents light

The Texas Highway Patrol investigated ten accidents on rural highways in Cochran County during the month of August, 1974, according to Sergeant H.E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and two persons injured.

One of the most serious of the casualties to the Tribe was the loss for an indefinite time of their big, bruising fullback Tony Soliz, who went down early in the game with a serious injury.

The contest was fought on fairly even terms for the first

County home repairs running above average

Home improvement is the order of the day in Cochran County.

Because of the high cost of new housing, the scarcity of mortgage money and economic

conditions in general, many local families who had been thinking about buying new homes have apparently given up the idea for the present and are turning, instead, to sprucing up their present ones.

As a result, they have been putting a record amount of money into alterations, additions and repairs.

The figures indicate that their expenditures for such purposes came to a total of \$418,000 in the past year. This is distinct from their normal month-to-month operating expenses.

The estimate is based upon sampling surveys that were conducted in all parts of the county by the Department of Commerce and upon data from industry sources.

The finding is that the average amount spent by home-owners in Cochran County's regional area during the year for upkeep and improvement was approximately \$278 per dwelling unit, as against \$366 nationally. In 1970, by way of comparison, only \$222 was so spent locally. Part of the increase was due to inflation.

For some homeowners - those who went in for major repairs and improvements - the outlay ran much higher than average. Others who may have done considerable overhauling a year or two earlier did little this time.

Nationally, the Department of Commerce reports, no less than \$18.9 billion was expended in the past year for the upkeep

named 'history's best'

1973 was 'bumper crop' year

Cochran County for 1973 was the most successful year they have had in a long time, according to the

final tabulations, just released.

For many of them it was the most prosperous year they

ever had. It compared favorably with farm and ranch results in many sections of the country.

Following as it did upon a relatively good 1972, it enabled the farm community to recover somewhat from a number of lean years. With their operations well in the black, they were able to reduce their debt load and to purchase some needed new equipment.

Although gross receipts reached a record level, so did operating expenses as inflation sent farm costs soaring. However, the gap was sufficient to produce a new high in net income.

The findings are based upon a national survey released by the Standard Rate and Data Service and upon reports from the Department of Agriculture

Thunderbirds will highlight Reese anniversary fete

Colonel Schuyler Bissell, 64th Flying Training Wing Commander at Reese Air Force Base has announced that the base will sponsor a public open house on Sunday, October 6 between the hours of 1:00 and 5:30 p.m. in honor of the 25th Anniversary of Reese's continuous active service as an Air Force Base.

Featured attraction of the day's activities will be the first local appearance of "The Thunderbirds," the U.S. Air Force's Aerial Demonstration Team flying the T-38 Falcon, the same aircraft flown by student pilots at Reese in the later stages of their year-long Undergraduate Pilot Training Program.

High performance Air Force aircraft will be on display along the flightline. The Confederate Air Force Wing at Hobbs, N.M., and a private collector have been invited to participate. They have been asked to provide training aircraft such as used at Reese during the past 25 years.

The modern aircraft will be flown to Reese from other Air Force Bases throughout the country for the static display. The Lubbock Christian College and the South Plains College marching bands will provide musical entertainment during the afternoon and the Lubbock Radio Controlled Model Airplane Club will demonstrate their version of the Thunderbird's maneuvers.

Many base facilities will be open to visitors during the day.

Lubbock Army Air Field (later to become known as Reese AFB) came into

Nosy Nurse

Agatha, a registered nurse, believed in taking lots of initiative in her work. Among other things she meddled in the private affairs of patients, overruled medical instructions from doctors, and denounced doctors and patients to each other with fine abandon. Finally, on the basis of repeated complaints, a state board revoked Agatha's license. She carried a protest into court, but the board's action was upheld.

Nursing, like the other healing arts, is usually subject to supervision by a state board set up to safeguard the public. Although regulations vary, they generally impose a high standard of conduct in keeping with a nurse's responsibilities. But the courts also recognize that revocation of a nurse's license is a drastic punishment, not to be imposed lightly. Thus: The night nurse in an obstetrics case, asked by the patient to call a doctor, decided it wasn't necessary. Was this adequate grounds, as alleged afterward, for revoking her license? A court said no, pointing out that the patient 1) had gotten good care from the nurse, and 2)

had not really needed the doctor after all. The complaint was too minor, said the court, to justify such a penalty on the nurse. Of course nurses, like doctors, may be held liable for malpractice—such as carelessly giving a patient the wrong medicine. But there is no malpractice if there is no negligence. In another case, a woman patient who had fallen out of her hospital bed sued the nurse for failing to put up bed rails. However, there had been no instructions from the doctor about bed rails, nor any advance indications that they were needed. Finding no malpractice, the court said a nurse could not be held liable merely because something happened to go wrong. Crop Prices Down... 1973 Was Good Year... Rain Slows Harvest... Many Honored Families

TEXAS FARMERS and ranchers don't have to be told that 1973 was a good year, but this year is another matter. The 1973 prices just haven't held up. Texas Crop and Livestock Reporting Service says that all farm products price index on August 15 was 13 per cent below last year, although three per cent above the same time the previous month. Prices on livestock and livestock products were 35 per cent below last year and seven per cent above the previous month. That means that a beef animal that brought 34.90 cents a pound in August would have brought 34.20 at the same time in 1973. Hogs that brought \$36.20 a hundred (up 3.80 over July 15 prices) would have brought \$56.80 on August 15, 1973. On the other hand, the price index on all field crops was 21 per cent higher than a year ago.

Sorghum at \$5.03 a hundred was \$1.50 higher than a year ago. Upland cotton that brought 44.2 cents a pound was 9.2 cents above last year. But wheat was 19 cents a bushel — at \$4.05 — below last year; and \$9.80 rice was \$1.20 below last year. Corn that brought \$2.75 a bushel on August 15, 1973 brought \$3.16 on August 15 this year. Corn was only \$2.74 a bushel a month earlier.

COMMISSIONER JOHN C. WHITE earlier released figures showing that Texas cash receipts for all crops and livestock in 1973 totaled \$6,467,923,000 (that's billions), which has to be a record. Production was better than in 1972, except in rice, pecans and fruits, and possibly a few other minor crops. Livestock cash receipts in 1973 in this State amounted to half of the total, \$3,673,825,000, which was an increase of a billion over 1972. Texas, as usual, was first of all the states in the production of cotton, grain sorghum, wool, mohair, watermelon,

cabbage, spinach.

MORE RAIN over the State delayed harvesting, and Hurricane Carmen threw a scare into Texans and accounted for a part of the rain. Cotton harvest was judged 16 per cent completed, much farther along than the four per cent harvested at the same time in 1973. Fall plowing of cotton land is well along in the Valley and Gulf Coast. Rain across the Northern High Plains delayed wheat planting, but Texas Crop and Livestock Reporting Service estimated that four per cent of the planting was complete. Oat planting was not that far along. More than half the grain sorghum has been combined in the State, and peanut harvest is about a quarter complete and also delayed by rain. Most of the first 1973 rice crop has gone to market. The first oranges and grapefruit from the 1974-75 crop in the Valley have gone to market. Yield is expected to be below the 1973-74 crop.

BEFORE AUGUST 31, the deadline for entering farms and ranches in Texas Department of Agriculture's Family Land Heritage Program, over 1,200 inquiries had been received. As

checking of the mass of mail and applications continues, more than 500 Texas farms and ranches have qualified. Those families who have owned and used their farms and ranches 100 years or longer are qualified for the honor.

Poster contest slated by club

The Emlea Smith Junior Study Club is sponsoring a Fire Prevention Poster contest. It is in conjunction with the Federation Day program sponsored by Area Federation of Women's Clubs.

The Morton Volunteer Fire Department will present the program on fire prevention at the annual join clubs meeting.

All ages are eligible for prizes and any size poster is acceptable, however, posters must be on fire prevention.

All posters must be given to Mrs. Mike Liner by noon Wednesday, October 2. For further information call Mrs. Liner at 266-5007.

month. This raise, which follows a similar cost of living raise of 10 percent received by all employees effective March 1, 1974, ranges from the minimum raise of \$29.05 for the lowest salaried county employee to \$52.74 for the county tax assessor-collector. This is the highest salaried employee in the county. This brings the lowest salary up from \$415.00 to \$444.05 and the highest from \$3,380 to \$3,806.12. County tax assessor-collector Glen McDaniel reported that the total county budget for 1974 is \$457,319. This is up near \$1 million from the total budget for 1973. McDaniel stated that the increase is due to an increase in the valuation of properties in the county. The total county collectable taxes come to \$887,235.00, McDaniel said, but reminded there is almost never a percent collection in any county. He stated that Cochran County has a history of approximately 96-97 percent collection. Considering all presently available figures, it appears Cochran County is in a favorable financial position and that the present administrative policies are leading to the advantage of those who are supporting it their taxes.

AUGUST

ary for this county during the first eight months of 1974 shows a total of 32 deaths resulting in no persons killed and 11 persons injured. The rural traffic accident tally for the 60 counties in the Lubbock Department of the Safety Region for August, 1974, shows a total of 30 deaths resulting in 30 persons killed and 314 persons injured as compared to August, 1973, with 586 deaths resulting in 24 persons killed and 328 persons injured. This was 44 accidents, six more than in 1973, and 14 less injured in the same period of

and improvement of residential properties. This was \$1.4 billion more than in the prior year. As for property owners in Cochran County, how did they spend their \$418,000 portion of this total? In general, a breakdown of the overall figures shows, about 57 percent of the expenditures was for additions, alterations and major replacements. The other 43 percent was for maintenance and repairs. By far, the biggest item in this category was house painting, interior and exterior. It was followed by plumbing, roofing, heating and air conditioning.

existence on June 23, 1941. The field was officially opened on January 22, 1942 and remained active throughout World War II until it was closed down on December 31, 1945. The base was reactivated by the Air Force on October 5, 1949 and officially named Reese AFB on November 5, 1949 in memory of First Lieutenant Augustus F. Reese, a Shallowater, Texas native killed in combat in 1943. Reese has remained continuously active since 1949 and to date has graduated more than 20,000 pilots from its training program.

in Lubbock. Jones had served as Vice President and Executive Vice President since Briercroft opened for business in 1963, and has seen the firm grow to present assets of over 73 million. Jones graduated from Texas Tech with a BBA in Accounting in 1957. He served for five years as Examiner for the Federal Home Loan Bank Board before joining Briercroft Savings and Loan. Living at present in Morton are the new President's mother, Mrs. Katie Jones, a sister, Dorothy, and two

brothers, Ted and Elmer Jones. Derrell Jones attended Three Way grade school for one year, and graduated from junior and senior high schools in Morton. He and his wife, Charlsie, and son, Ivan, now reside in Lubbock.

half, but the big and physical Pirates slowly gained the upper hand and held the Indian attack well in check during the latter stages. The Tribe gave a good account of itself, though and showed up well in the statistics department. Ray Dean Thompson's 12 carries for 65 yards enabled him to hold on to his fourth place in individual rushing in District 3-AA with 48 attempts for 233 yards. Soliz remains at 19 carries for 80 yards. Selected by Coach Winters for the Gold Arrowhead awards for outstanding play were Monty Smith on offense and Ken Standmire on defense. This was the Tribe's second loss against one win for the young season, having beaten Plains in the opener and then

fallen to The Tulia Hornets and the Cooper Pirates in their next two.

Friday night they play their third successive road game when they travel to Wolforth to take on the Frenship Tigers. Preparations at Indian stadium this week has centered around preparations for stopping the highly regarded Tiger attack and for cracking their well-regarded defense.

Game time at Frenship will be 8 p.m.

and others. In Cochran County, SRDS reports, farm receipts amounted to \$15,043,000. The figure represents gross receipts, before any allowances for taxes, supplies, labor costs, equipment and other operating expenses. Included are the overall receipts from the sale of farm products, together with government payments and the value of the home-grown foods consumed on the farm. Of the total amount received locally from the sale of farm

products, approximately 67 percent came from crops and 33 percent from marketings of livestock, poultry and dairy items, according to the latest figures from the Department of Agriculture.

The year's upswing is attributed to a combination of favorable circumstances. One of them was the good weather

conditions that prevailed throughout most of the year, in contrast to what has been happening this year. That was a prime factor in the bumper crops that were obtained.

Another was the big surge in farm exports, stemming from the worldwide shortage, which led to significant boost in prices.

The Consumer Alert

by John L. Hill
Attorney General

ATSTIN - Some people looking for another alternative to buying a home or renting an apartment are finding one in condominium ownership. What is it? Basically, it's something like purchasing a unit in an apartment complex and becoming part-owner of the central facilities of the complex - the pools, tennis courts, lawns and trees, land, and buildings.

Condominium owners become members of an owners association that manages the development and usually is responsible for general maintenance. For this, owners pay a prorated amount per month in addition to their payment on the unit itself.

Condominiums offer the tax and equity advantages of home ownership and sometimes the recreational facilities and social opportunities of apartment complexes.

But consumers considering the purchase of a condominium should investigate closely. Buying a condominium means buying certain responsibilities. And it could mean buying a headache, if you haven't checked on certain things in advance. The Attorney General's Consumer Protection Division has received reports from other states about problems faced by some condominium purchasers.

Sometimes developers may build more units than the central facilities can accommodate. Make sure you find out in advance how many units will be built, and that there will be enough recreational and maintenance facilities to prevent overcrowding.

Complaints that appliances, carpeting, draperies, building materials, and workmanship don't resemble the promotional brochures have been reported. The way to avoid such problems is to go see the condominium before buying. Look not only at your unit, but at the communal facilities, since you will be part-owner of them too. A good rule of thumb is never to buy property you haven't seen.

Remember to read all literature carefully - but realize that what's in the

promotional brochure isn't necessarily what you will get. The Department of Housing and Urban Development advises purchasers to delay signing any kind of agreement until all documents pertaining to the condominium have been received and studied. According to HUD, the developer should supply prospective buyers with a "declaration" or book, describing in detail the entire condominium project. HUD officials specializing in condominiums also say it's vital to get copies of the association by-laws, the project's operating budget, and the management agreement.

Our Consumer Protection attorneys say it's important to find out how the condominium complex will be managed, too. The usual procedure is for the developer to set up a management arrangement that the owners association takes over gradually as the units are sold. Be wary of developers who don't specify a time limit for turning over management.

Some developers retain ownership of the central facilities such as pools, tennis courts, and parking lots and lease them to the owners association. An owner then must pay a portion of the monthly lease fee, in addition to his monthly payment and owners association charges, even if he doesn't use the facilities. Some states report that when such payment isn't made, a lien can be placed against the unit and foreclosure begun.

SEE OLDSMOBILE '75

Introducing Starfire—the little Olds you didn't expect. It's a sporty little four-seater that's smaller than a compact... easy on gas... but a bonafide Supercoupe in looks, features and spirit on the road!

Meet Omega Salon—our luxurious compact for drivers who like the looks and comforts of imported touring cars. It's got the touches you like—but at an Olds price. Choice of three models.

Cutlass Supreme—now our "little limousine" is big on luxuries, yet it offers improved operating economy. One of eleven mid-sized Cutlass models—including wagons—that are right for the times.

Delta 88—our full-size family car never looked better—but it's more than just another pretty car. It's really built for the long miles. 7 models, including a convertible, with room and comfort for a growing family.

Toronado—America's first contemporary personal luxury car with front wheel drive. It pulls you around turns and along straightaways with outstanding traction. Toronado and Toronado Brougham models.

98 Regency (below)—The most comfortable, most thoroughly luxurious Oldsmobile ever built. Magnificent "loose-cushion" look interiors, and a distinctive new look in both six-window sedan and coupe models.

IT'S A GOOD FEELING TO HAVE AN OLDS AROUND YOU.

We raised the gas mileage in every 1975 Olds model.

Every '75 Olds has a new Maximum Mileage System that helps make it a better car in several ways: Our best mileage in years. Smooth-running engines. Fewer tune-ups and less routine maintenance.

And—better exhaust emission control. The System represents the most advanced engineering and technology we can build into a '75 Olds. It includes a new catalytic converter (see below)—and a lot more.

There's a new high-energy ignition, for a hotter spark and improved ignition performance. Also, Olds engineers adjusted shift points in transmissions. Installed low-ratio economy axles. And made GM-spec steel-belted radial tires standard.

As you can see, we've done a lot to improve the gas mileage capability of every 1975 Oldsmobile.

New Catalytic Converter—designed for long life.

This "pod" full of platinum-palladium coated beads provides a new way to reduce most emissions—after combustion, in the exhaust. It does a more effective job—and it eliminates some of the gas-robbing, combustion-stage controls of the past. Best of all, it allowed Olds engineers to re-tune the engines to run smoother and give better MPG than last year.

GET THAT GOOD FEELING AT YOUR OLDS DEALER'S NOW.

Thou wilt show me the path of life, in thy presence is fulness of joy. PSALM 16:11

HERE IS THE PATH

Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself. Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The Horse Show: A Berlin Bargain

No horse-lover should miss West Berlin's International Riding & Jumping Tournaments, contested by the world's top riders each January and May; particularly since these competitions go back 65 years and are different from comparable events elsewhere.

How? What's to see after the champions have mastered the jumps with consummate skill, speed and accuracy and the elegant dressage riders too have demonstrated their expert horsemanship? Well, the answer is, that's when Berlin's horse shows stand out by offering not one but two added attractions, each a real show stealer.

For openers, you are treated to the traditional and nostalgic parade of huge brewery wagons, some drawn by as many as ten powerful, broad-chested Clydesdale stallions; and then comes a "show" to help you unwind after the excitement of the equestrian contests. These treats have included spectacular demonstrations by the Vienna Riding Academy, the Royal Horse Guards from London, the Belgian Gendarmerie from Brussels, the Garde Republicaine from Paris, and so on. Last time, this bonus portion of the program re-created a rural wedding in Poland, with appropriate merriment and folk dancing, plus of course lots of beautiful horses and fine riding.

So, if in Berlin at Horse Show time, where else can two bucks get you so much fun?

Cochran County's first bale of cotton for the 1948 season, will be auctioned off to the highest bidder on the northwest corner of the square, Saturday afternoon at 2 p.m. The 550 pound bale belongs to Thurman T. Smith.

Those queer tricks that figures sometimes play gave the key to the Cochran County Sheriff's race last Saturday when a lopsided, 92 vote margin in the Neely Ward Precinct gave H.D. (Herman) Crockett every one of his winning votes over W.V. (Son) McKay.

After several unsuccessful attempts to consolidate with another school district, Lehman voters finally found the necessary solution Tuesday when they voted 47 to 37 to consolidate their school district with Whiteface.

The Morton School Band won second place Saturday September 4, in the band contest at Sudan. This contest was one of the features of the Sudan Fall Festival.

The Commissioners Court met Monday for the purpose of receiving bids on remodeling the courthouse.

The Club Cafe, located on the north side of the square, has reopened under new ownership, Mr. and Mrs. Bob Benefield.

Morton's first bale of cotton for the 1948 season was ginned Monday, August 30. It was raised by T.T. Smith on non-irrigated land, 3 miles northeast of town.

Tye Williamson took championship honors in class B division of the Trap Tournament conducted by the Enochs Gun Club in a full day affair Labor Day.

Morton's American Legion Post rolled out the welcome mat last Thursday at the Legion VFW Hall here to greet 100 persons with a variety program preceding annual officer installation. Major address of the evening was made by Cong. Mahon of Colorado City and Washington, D.C.

C.W. Yeary, aviation chief electronics technician, USN, of Morton, is serving with the Attack Squadron Five Able which has just been awarded the Battle Efficiency Pennant and "E" for its general excellence throughout the fiscal year July 1, 1947 to July 1, 1948.

15 YEARS AGO

A vicious hail storm which raked a path of crop destruction 10 to 12 miles long and three to four miles wide in eastern Cochran County and western Hockley County, cut sharply into the estimated cotton crop, Sunday night.

With some 92 persons looking on, including all the members of his family, and a dozen other Mortonites, M.C. Ledbetter took the oath of office and officially became Judge of the 121st Judicial District Monday night.

At a called meeting Monday night the Cochran County Hospital Board of Managers voted to have a complete physical inventory made of hospital equipment, drugs, surgical supplies, office supplies, and anything else owned by the hospital.

Goodpasture Grain and Milling Co., Inc., of Brownfield officially announced this week the appointment of Don Ketchum as manager of the company's elevators at Lehman.

Roy Akin was elected Commander of the Jesse E. Bond American Legion post at a regular meeting of the post recently.

Roy Smith of Smith Furniture and Appliance announced this week the association of Steve Bracken of Morton in the sales and service department of the firm.

The Cochran County Commissioners' Court, Monday, after holding the annual budget hearing, approved a budget of \$419,820 for the year 1960.

Grover D. Edgar, Morton attorney at law who was recently named to the post of county attorney, will take the official oath of office Tuesday morning, Sept. 1, it was announced this week.

Sam Tidwell of Sudan has purchased an interest in Willingham Farm and Ranch and in the Willingham Chicken Farm, it was announced this week by E.O. (Red) Willingham.

Three Cochran County citizens, Mr. Don Valentine, Mr. T.K. Williamson, and Mr. Glenn Thompson, will serve as a county farm labor committee and meet with Alonzo Kelly, Manager of Texas Employment Commission office, to review the total seasonal employment needs developed by the TEC.

More and more cotton producers on the High Plains are discussing and even making plans for the possibility of holding at least a part of the 1974 crop, hopefully to be sold later at prices higher than now appear to be in the offing.

In the early harvesting sections of the Cotton Belt, the "holding action" is already on. For example, except for cotton contracted for sale earlier in the year, very little of the cotton ginned in the lower Rio Grande Valley of Texas has moved to market. With market prices hovering near the cost of production, growers simply are refusing to sell.

There is evidence at this time to indicate that cotton producers might profit by holding the 1974 crop, says Donald A. Johnson, Executive Vice President of Lubbock-

based Plains Cotton Growers, Inc., but he adds, "the many unknowns in the cotton marketing picture make toolproof advice an impossibility." The supply-demand picture, assuming that current estimates of production and consumption are accurate, is

in delicate balance. The carry-over of cotton as of August 1 this year is estimated to have been 3.3 million bales. The 1974 crop is now guessed at 12.8 million, giving a supply for the year of 16.1 million. This compares with a projected total offtake of 12.5 million, which would leave a U.S. carry-over on August 1, 1975, of 3.6 million bales, a level not excessive by any standards.

Foreign production for 1973-74 earlier estimated at 47 million bales, now looks more like 46 million and the 1974-75 crop may be up only slightly from that figure, according to an analysis made by Cotton Incorporated's

Economic Research Division analysis concludes by "World carry-over therefore less thought..."

Addressing directly to the question "holding action" by the Cotton Incorporated writer points out producers collective loan as the crop is ginned cotton "pipeline" was to a level of one million by November of this year. "Loading of ships was as dockside inventories up, and some mills were forced to close."

Should two-thirds crop be withheld from market, according to incorporated, disruptions would November as the level fell to well below million bales."

But here, Johnson's spectral threat of raw cotton imports appearance. The Commission, over its objections from the segment of the industry, has recommended that the President recommend import quotas, the President followed recommendation, and holding movement supply tighter in this than abroad, cotton imported from producing countries the effects of holding U.S. cotton market.

High Plains growers fortunate in that they were forced at this time to "hold or sell" of

Sewing club opens year

The Busy Fingers Sewing Club met in the home of Mrs. Jack Baker September 5.

This being the first meeting of the new club year, Mrs. F.G. Kennedy, president, presided over a short business meeting. New Club Year Books were distributed. Minutes from the past year meetings was read by Mrs. J.B. Carter. Closing prayer was given by Mrs. W.E. Childs.

Those attending were: Mmes. A.R. Lindsey, Fannie Mae Huffine, G.F. Cooper, Clayton Stokes, J.S. Boydston, C.C. Benham, J.B. Carter, W.E. Childs, Nath Crockett, F.L. Fred, Mark Kennedy, G.G. Nesbitt, E.C. Nieman, Ethel Stracner, F.G. Kennedy and hostess, Mrs. Baker.

Sun can dry out any type of skin, and make facial lines more noticeable. If your skin is naturally dry, you probably need extra moisturizers at this time. Wear a light lotion-type moisturizer all day, under makeup or in place of foundation if you prefer. For a thorough skin-conditioning treatment, apply a heavier moisturizing cream to the face and neck every day before soaking in a steamy hot bathtub. After the bath, blot excess

Adding Flair to Ready-to-Wear

Fall fashions were never more relaxed than they are this year. You might think this means they're easy to wear, and from the standpoint of comfort they certainly are. But from a fashionable point of view, the new clothes demand more than ever from the wearer. These are "background" clothes, designed to force the individual to shine through. Shine you must!

Don't expect the new blouses and wrap-up skirts to conceal any figure flaws, such as those extra calories you consumed last Summer. To wear these soft and flowing fashions properly, getting rid of unwanted bulges fast with Slender diet food from Carnation. One packet mixed with 6 oz. nonfat milk has 164

cream with a tissue. Use a body-type moisturizer all over. Oily skin types can benefit from a facial mask once or twice a week. This helps clarify the situation generally, and tends to speed you through that unbecoming period of the fading, yellowing suntan.

If your hair feels like straw, a conditioner for scalp and hair is indicated. Ask your hairdresser to recommend one when you go in for a professional hair shaping. Now's the perfect time to analyze your hairstyle too, and to be sure it does the most for you. Is one of the feathery soft and fancy-free cuts for you? Whatever your style, make sure hair is elaborately teased and sprayed hairstyles are definitely out!

Check your complexion. As your complexion pales, you'll need a whole new palette of shades in eye makeup, rouge and lipstick. Perhaps the bronzed shadows and golden tone sticks of Summer should be replaced with cooler and deeper shades for Fall. Try a teal blue or green eyeliner, a pinker blush and a redder lipstick. This is just one of the pretty ways you can embellish the new ready-to-wear with your own special flair. That's the real fashion message for Fall.

CHEVROLET FOR 1975. CARS THAT MAKE SENSE FOR TODAY

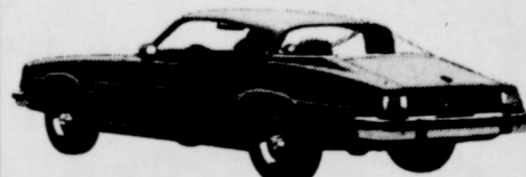

Nova LN Sedan

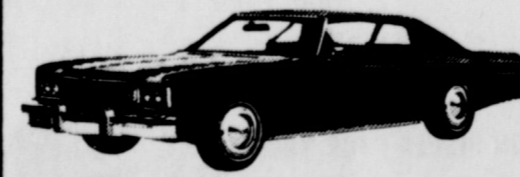

Monza 2+2

MONZA 2+2 The small car of tomorrow will probably be a little more powerful, handy and comfortable than ever. The 1975 Monza 2+2, shown above, offers this today. It has advances like rectangular headlights set in a soft front end, fold-down rear seat, and a new 4.3-liter V8 engine available.

NOVA In the background above, our new Nova LN Sedan. A luxurious Nova with thick carpeting and wide-back reclining front seats. For 1975, all Novas have been emphatically refined along the lines of elegant European sedans. Nova's always been good. Now it's beautiful.

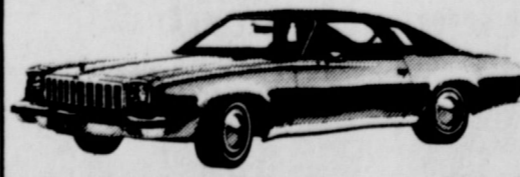

CAMARO Our sensibly sporty compact. It looks like a million and drives like it looks.

IMPALA America's favorite car continues to provide the room many families need plus plenty of quiet and comfort. Still the great American value.

WAGONS Big ones, small ones, in-between ones. Practical wagons that make sense for America. And you.

CHEVELLE Mid-size, easy to drive, room for six, mid-priced, strong reputation for value. America's most popular intermediate.

MONTE CARLO Its special ability: making you feel good. About the way it looks and drives. About your own taste and judgment.

CHEVROLET'S NEW EFFICIENCY SYSTEM FOR 1975

It's the key part of a program aimed at helping our new cars run leaner (more economically), run cleaner—and save you money every mile.

The Efficiency System is standard on all 1975 Chevrolets with V8 or 6-cylinder engines. It's a series of significant engineering improvements working together for the very first time. Components include High Energy Ignition, catalytic converter, Early Fuel Evaporation, and steel-belted radial ply tires. In sum, the System is designed to heighten the pleasure and lower the cost of driving a 1975 Chevrolet—to bring you a better running car in many ways, along with improved fuel economy, more miles between recommended maintenance and an engine that stays cleaner internally because of no-lead fuel.

Your Chevrolet dealer will gladly give you the details and answer your questions. See him and the sensible 1975 Chevrolets starting September 27.

Mr. and Mrs. Jimmy Wayne Burrows

Couple say vows home ceremony

Theresa Kay Fine and Jimmy Wayne Burrows were married Thursday, September 19, at 7 p.m. in the home of Mrs. Frankie Fine of Lubbock. The Rev. Preston Harrison of Lubbock officiated the double ring ceremony.

The bride wore a gown of white bridal lace and Alenca lace and embroidery on the bodice and cuffs of her sleeves. The gown was carried by the bride and her bridesmaids in cascade and baby's-breath satin streamers.

Glenda Ann Fine, the bride, served as

maid of honor. Bridesmaids were Lea Jean Burrows of Littlefield, sister of the groom, and Kathy Wyatt of Lubbock. They wore formal gowns of red net with empire design and carried long stemmed carnations.

Alan Fine, brother of the bride, was candle lighter.

Joe Wyatt of Lubbock served as best man and groomsmen were Bryan McClean of Levelland and Johnny Boyce, cousin of the bride.

For a wedding trip to points in New Mexico, the bride chose a dress of red and white net.

Mrs. Burrows is a graduate of Three Way High School and attended South Plains College. Burrows is a graduate of Littlefield High School and is attending Lubbock Barber College in Lubbock where the couple will make their home.

Special guests attending the wedding and reception were: Mrs. Geo. Fine, grandmother of the bride, Mr. and Mrs. Truman Burrows, parents of the groom, from Littlefield, Mr. and Mrs. Gary Freeman and Don of Muleshoe, Mr. and Mrs. M.L. Fine of Goodland, Mr. and Mrs. E.B. Julian, Mr. and Mrs. Jay Boyce and Johnny of Maple, Mr. and Mrs. Joe Wyatt of Lubbock, Mrs. Preston Harrison and boys of Lubbock, Bryan McClean of Levelland and the Rev. Diwitt of Three Way.

Shower honors Miss Martin

Miss Rietta Martin, bride-elect of Dennis Avery, was honored with a miscellaneous bridal shower Friday, September 6, in the home of Mrs. George Hayes in Lubbock. Mrs. Lewis Stump was co-hostess.

Special guests were the bride-elect's mother, Mrs. Jessie Martin, and her aunt, Mrs. J.W. Lightfoot of Tyler. Mrs. Weldon Avery, mother of the bridegroom and Mrs. Neal Smith, grandmother, were also present.

Hostess gift was a china painted plate and Corning ware.

The couple plans to marry September 28 in Ford Memorial Chapel of the First Baptist Church in Lubbock.
