

Morton 1975-76 School Calendar Announced

Morton Independent School District Superintendent Bob E. Travis has released the official school calendar for the 1975-76 school year. The calendar reads as follows:

August 18-22, Teacher In-Service.
August 25, First Day of

Instruction (Buses will run; lunch will be served) Begin first Quarter.
October 2, End 1st Six Weeks (29 day reporting period).
October 3, Teacher In-Service (Student Holiday).
October 24, Teacher In-Service.
November 18, End First

Quarter, End Second Six Weeks (31 day reporting period).
November 19, Begin Second Quarter.
November 22, Teacher In-Service.
November 26, Classes Dismiss at 3:00 p.m. for Thanksgiving Holidays.
December 1, Classes resume

after Thanksgiving Holidays.
December 23, Classes dismiss at 3:00 p.m. for Christmas Holidays.
January 5, Classes resume after Christmas Holidays.
January 13, End Third Six Weeks (30 day reporting period).
February 24, End Second

Quarter, End fourth six weeks (30 day reporting period).
February 25, Begin Third Quarter.
February 27, Teacher In-Service.
April 6, End Fifth Six Weeks (30 day reporting period).
April 13, School Dismiss at

3:00 p.m. for Spring Holidays.
April 21, Classes resume after Spring Holidays.
May 25 or 26, Commencement for Seniors 7:30 p.m. in County Auditorium.
May 26, Last day of School — End Sixth Six Weeks (30 day reporting period).
May 27, Teacher In-Service.

Phil Enloe

CW Singer Tells Christian Story

"That really says it," Phil Enloe told a hillside audience in Rockford, Ill. as he finished his portion of an all-day "Fellowship Under the Son" concert. The young singer, who has bookings in Mexico, Hawaii, the Holy Land and Africa will be at the First Assembly of God Church in Morton today at 7:30 p.m.

The Rev. G. Frank Estes, pastor, stated that they were fortunate to have Enloe in their church and issued a special invitation to all the young people in the area to come and meet the young singer.

From East Alton, Illinois, Enloe has been singing and recording such favorites as "Pitch In" and "I Thought I Had Plenty of Time" for several years. He tells the Christian story in country music, traditional hymns, jazz or any one

Crowds Expected At Tractor Pull Here Saturday

Have you ever seen a nine hundred horsepower farm tractor? If not, and you would like to, come to the Morton Jaycee Tractor Pull Saturday at the Morton Rodeo Arena.

Tractors from all over Texas and Eastern New Mexico will be competing for more than \$2,000 in cash prizes.

Sweetening the "pot" for those attending will be \$1500 in door prizes, donated by Morton merchants, ranging from a 3-point "Quick-Hitch" for tractor, category 2, to a set of Duralash eyelashes applied!

The pull is sanctioned by the Texas Tractor Puller's Association, which is affiliated with the National Tractor Puller's Association and is sponsored by the Morton Jaycees.

Gates will open at 1 p.m. with the contest beginning at 5 p.m. The event is expected to last until 11 p.m.

The United States Air Force will be on hand with a display model of the T-38 jet trainer that is used at Reese Air Force Base and automobile dealers, implement and tractor dealers will also have displays.

Among the tractors entered in the pull will be Super Stock tractors, Out-of-the field tractors, and those outlandish contraptions they call Modified

See CROWDS Page 4

One Less School Than Last Year

Preparations are in their final stages, the teachers are tuning up this week and all will be in readiness as the Morton schools swing wide their doors at 8:30 a.m., Monday, August 25.

Three of the schools in the Morton trade area have the same starting dates on August 25, with Three Way the lone dissenter with an August 20 starting date. All four schools have varied teacher in-service periods prior to their starting dates.

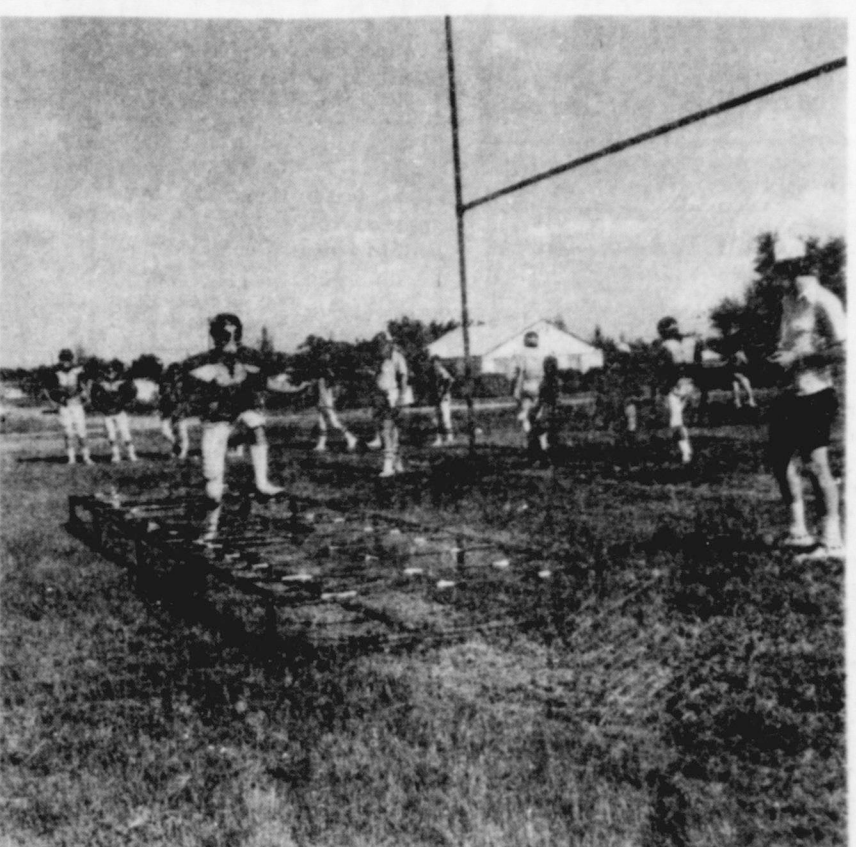

Morton is the only one of the four that is projecting a reduced enrollment for this year, with the other three forecasting substantial rises. Morton's predicted enrollment, according to superintendent Bob Travis, is down only 10 students from the 980 that originally enrolled for 1974-75.

Three Way is expected to have the largest surge in population as the Bula school district was deactivated at the end of last year and was merged with Three Way beginning this fall. This will swell the enrollment to approximately 200 students, according to superintendent J.H. Jackson.

Morton High School will be under the administration of a new principal, Mr. Marlin Dodds, who replaced Mr. Kenneth Baker who resigned at the end of the 1974-75 school year.

Otherwise, the administrative, supervisory and head coaching positions are the same as last year in the MISD. Under Supt. Travis are high school principal Jim Middleton; elementary principal Harold Drennan; Curriculum

See YOUTH Page 4

IT'S AGONY TIME AGAIN--And agony it is under the blazing hot sun with the blazing hot gaze of the head coach watching your every move in the torture chamber of two-a-days that get you ready for the upcoming grid season at Morton High School. A lot of spirit and hustle was evident throughout the squad as this photo was snapped early this week.

Bubonic Plague Infiltrates Muleshoe Wildlife Refuge

Bubonic Plague, which has cropped up in New Mexico this summer appears to have spread into the border area of West Texas. This was revealed early this week when federal wildlife officials reported a large number of prairie dogs have died from the dread disease, known in the Middle Ages as the "Black Death" when it wiped out whole populations.

Both health and wildlife officials were quick to add, however, that while still a very dangerous disease, it can be coped with much more successfully by modern methods than when it ravaged mankind in those days.

Officials are using chemicals in the prairie dog burrows to kill the plague-carrying fleas that are infecting the rodents at the refuge.

Bert Blair Jr., manager of the federal preserve said Tuesday he found indications of the disease

July 21 among the prairie dog population.

"When animals start dying you naturally think of the worst but you don't say anything until it is confirmed," Blair said. "It has been confirmed and the areas involved have been closed to the public. Signs are up and chemicals have been placed in the prairie dog holes."

See PLAGUE Page 4

Mexican Border Aircraft Crossing Procedures Changed

All private aircraft crossing the U. S.- Mexican border will have to follow new guidelines announced today by the U. S. Customs Service.

Customs Commissioner Vernon D. Arce said the new guidelines are made necessary by a "soaring" increase in air smuggling of narcotics and other contraband.

In the fiscal year ending June 30, 1975, Customs' Air Support Units accounted for 188 arrests, seizures of 46 aircraft, 70 vehicles, 114,443 pounds of marijuana, and more than 8,500 rounds of ammunition as well as scores of weapons.

Since then, the units seized three aircrafts, three vehicles, more than 3.5 tons of marijuana and arrested 9 persons.

Methodist Musical

The Oakwood United Methodist Church Youth Choir of Lubbock will present a concert at the First United Methodist Church in Morton Sunday evening at 7 p.m. "Folk with Faith" written and arranged by Don Blackley of Lubbock will include both singing, dramaturgy and a presentation of the Gospel. The public is invited to attend.

ART N. WALL OF MORTON, left and Charles W. Miller, right, are all smiles as they receive digital clocks from the Amoco Oil Company in appreciation for their work in the company's public relations program. Presenting the awards in Levelland is V.E. (Ed) Staley, Amoco area superintendent. The two men's efforts to explain the oil companies' viewpoint to the public during the energy crisis was on a strictly voluntary basis.

We get a big kick out of the broadcast media — both in our area and further afield — tooting their own horn continuously. Recent examples are two Lubbock TV stations both claiming constantly that more people watch their newscasts than the two other stations combined. If the truth were known, that third station is probably making more money than those two braggarts combined.

++ +

Pursuing that third station a little further, We received a very welcome communication from it recently, which was followed up this week by an appropriate

See MORTON Page 4

Football & Ice Cream

The Morton Booster Club will host an Ice Cream Social following the football scrimmage Friday night at the school cafeteria.

The club will elect officers for the coming year. The scrimmage will start at 8 p.m. and thirty minutes prior to the action parents may bring their cameras and take pictures of the team.

As Full Scale War Loomed, Tory Loyalists Came Under Increasing Attack

Two hundred years ago as the possibility of full-scale war became more a reality, American thought began to divide more distinctly between those who supported resistance and those who remained loyal to Great Britain. Of course, there was always a large number — possibly as many as one-third according to John Adams — who never took sides in the conflict. The belief that not many people supported the British is another

myth that still lives. In fact, probably another third of the population was Loyalist or Tory. These were the ones who took much abuse from the radicals.

As more people moved toward independence they became more abusive of the Tories. We often read and hear of Tories being tarred and feathered. On the surface, this appears to be a rather innocent type prank. However, on closer examination, we find that it was a humiliating and possibly dangerous activity.

The victim was usually stripped of his clothes and covered with hot tar or oil which

could result in serious burns if it were too hot. Then the victim was covered with feathers. Possibly, he was then ridden out of town on a rail.

One can easily understand how a person could become very bitter if treated in this manner. The Tories also came under verbal and written attack. Mrs. Mercy Warren of Boston used her pen very effectively to write plays that satirized the Tory cause. Although she did not limit her satire to Tories alone, they came under the most severe

question. For example, her play, "The Adulateurs," dealt with the Boston Massacre.

Unquestionably, by August 1775, it was becoming more risky to be a Loyalist.

It was even more dangerous to be a suspected French agent in the Spanish Southwest. As mentioned last week, John Peyton and eight other captives were marched from the mouth of the Rio Grande to Santa Fe.

Marching across Texas was quite an ordeal. Since the march was very strenuous the captives

were given liberal amounts of jerked beef and corn meal from which they baked bread. Even so, after three weeks of marching, two others in the party died from fever, dysentery, and general fatigue. Fearing that all might die this way, the Spanish guards hired seven pack horses for ten days. They then marched even faster with very little rest time allowed.

In this fashion the group marched out of Texas and into New Mexico having no idea what fate might await them.

Farm-facts

A Weekly Report Of Agri Business News

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Texas farmers this year doing what they like to do best in agriculture—produce, produce, produce.

The Texas Crop and Livestock Reporting Service shows moderate to major increases for production of major crops this year; rice is the one exception with a slight decline. Here are the projections for this year:

Cotton: Production is expected to be 26 per cent higher than last year with 3,100,000 bales anticipated which would be an average of 372 pounds per acre. Acreage this year for harvest is set at 4,000,000, down 400,000 from 1974. The 1974 cotton production for Texas was 2,462,000 bales.

Sorghum: Production is expected to be 26 per cent higher this year with an increase in acreage of 800,000. A total of 394,400,000 bushels of sorghum is forecast for 1975 in Texas. This compares with 312,000,000 bushels produced in 1974. Expected yield is 58 bushels per acre compared with 52 bushels last year.

Corn: A 57 per cent increase in corn production is expected this year compared with 1974 for the state. A total of 115,500,000 bushels from 1,100,000 acres is anticipated. This would give Texas a 105-bushel per acre average. Last year, a total of 73,600,000 bushels was produced in the state from 800,000 acres.

Winter wheat: Final estimate is 131,100,000 bushels, a 248 per cent increase over last year. Average this year is set at 23 bushels per acre from 5,700,000 acres. Last year, only 52,800,000 bushels were produced from

3,300,000 acres.
Oats: Production this year will be more than double a year ago. A total of 17,500,000 bushels is anticipated for 1975 compared with 8,100,000 bushels in 1974. Acreage for harvest this year is set at 650,000 compared with 374,000 acres a year ago.

CROP HARVEST CONTINUES at a good pace throughout the state. Cotton harvest percentage-wise is about on schedule with the past three-year average. About five per cent of the crop has been gathered thus far, and Blackland area harvest is just beginning. Prospects on the High Plains continue good despite some insect problems. Cotton root rot is also a problem in Central Texas.

Sorghum harvest for the state is about half finished. A number of areas in Central Texas are turning out yields considerably lower than expected. Rains have slowed harvest in some southern sections, and insect problems are prevalent on the Plains.

Rice harvest is at the 50 per cent completion mark. Harvest is making satisfactory progress along the Upper Gulf Coast and in South Central Texas.

Peanut harvest is about five per cent complete and is about on schedule with last year.

Soybeans are making good to excellent progress across the state. Sunflower harvest is fast approaching on the High Plains; harvest of this new crop is finished in Central Texas and the Brazos bottoms. Yields generally were not up to expectations, but observers still believe that sunflowers offer a good potential as an alternate crop.

A weekly public service feature from
Texas Department of Health Resources

Accent on Health

J.E. PEAVY, M.D., Director

There's a lot going for the individuals who can their own food. They save money, use up the bountiful produce from their home gardens and have tasty, nutritious food the year round.

But, says the State Health Department, home canning can be dangerous—even lethal—unless proven canning techniques and recipes are followed to the letter.

With an upswing in the amount of home canning and freezing done in Texas, State Health Department officials are concerned about the possibility of food contamination, especially botulism.

Botulism is caused by a deadly poison—a toxin—produced by a germ found abundantly in the soil. This germ is one of the spore-forming bacteria and is very resistant to normal heat and cold. It can grow without air, which makes it a sinister threat in home canning.

While the germ itself doesn't cause illness, the toxin it produces can be fatal to man. These bacteria are found nearly everywhere, and it's probable that nearly everyone has eaten them many times in their safe, inactive form on fresh food.

But, if these bacteria remain alive through the canning process and continue to live in an oxygen-free state—in a sealed airtight jar or can—they will manufacture the botulism toxin as a product of their metabolism.

That's why is canning it is so important to properly process food so that the food is cooked long enough and at a temperature high enough to kill the bacteria.

Three conditions are necessary for the botulism bacteria to grow. It must have an anaerobic environment (oxygen-free), have lots of moisture and have low acid. It's easy to see how a sealed jar could provide such an atmosphere.

Luckily, despite all the home canning done in Texas and the United States, the number of reported botulism cases are few in number. How many people are made ill by improperly

processed foods due to other germs is anybody's guess.

Twenty outbreaks of foodborne botulism, involving 30 cases, were reported to the federal Center for Disease Control during 1974. There were seven deaths. In addition, five cases of wound botulism—caused by the bacteria getting into a wound—were reported.

Texas had only one of those 24 food cases—caused by home-canned chow-chow. And, it had one case of wound botulism.

Of the 24 cases of food botulism, the contaminated product was known in 16 cases. Of these, 15 were due to home canned products and one to a commercially canned beef stew.

The 1974 data, reports the Center for Disease Control, represents the largest number of foodborne botulism outbreaks reported by state health departments since 1935. This increase, says the CDC, probably reflects an increase in home canning and emphasizes the need for educating home canners in proper home canning methods.

Such information, says J. M. Doughty Jr., director of the State Health Department's Food and Drug Division, is readily available. It can be obtained from the United States Department of Agriculture, from Home Demonstration agents, from reliable cookbooks, and handbooks provided by manufacturers of canning equipment and following recipes to the letter is extremely important. Sometimes it may be the proportions of sugar, vinegar or lemon juice which provide protection against the growth of harmful bacteria. Use jars and sealing rings designed for home canning, and follow the manufacturer's instructions on sealing the jars.

If you're in doubt about any foodstuffs which you've just opened, don't be foolhardy enough to taste it. With botulism, there may be no odd taste or odor. But tasting the product—or even taking a long whiff of it—could be your downfall if botulism is concerned. "If in doubt, throw it out!" is the recommendation of the State Health Department.

There's another strong point in favor of the home canner, says Doughty. Boiling the food for a sufficient length of time before eating will kill the toxin. "The toxin is easily destroyed by boiling," he said.

Jaclyn Claye

has her say

DEAR JACLYN CLAYE: I think the English language is absolutely stupid. Mostly, it's spelling. I have always done well in most subjects in school, except spelling. Also, the inability to spell is not from a lack of intelligence but, I believe, if one has an extremely logical mind, one cannot spell because spelling, at least in the English language is completely illogical. Those persons who can spell are simply people who have a talent to grasp intangible concepts. I mean, I'm a very logical thinker and I think that's really the reason why I cannot spell. But the formatted use of letters in a very locked-in process, is just stupid. It wouldn't bother me at all except that one day I would like to be a columnist, just like you. Please sign me, ALPHA ME.

DEAR ALPHA YOU: Lissen, I'm a writer and I've been trying to spell right all my life and I have always had the same kind of trouble. Sure, you are absolutely right in saying that the ability to spell is a special talent, and that's it. But if you wish to be a writer may I encourage you by saying that your interest in life around you and your ability to put your observations down on paper will be far more important than your ability to spell the words you choose to record those observations. And besides, for every writer there is usually a very good editor who will quickly correct those words you have incorrectly spelled. I spell badly. More correctly, I spell bad.

DEAR JACLYN CLAYE: I don't know if this is dangerous or not. At my maiden aunt who has over taken a drink in her life that I know of, has taken up a new hobby. She makes wine. She buys those concentrates and turns out

gallons of the stuff in her basement. In the last few months I don't think she has drawn a sober breath. I mean, she always seems to be into the stuff. I wouldn't be concerned but she's a fine old lady and I would hope that she doesn't become an alcoholic. Are there any laws against making wine? Signed, NEEDS TO KNOW

DEAR NEEDS TO KNOW: Yes, in most areas there are regulations to the making of wine for home consumption. But that's not the problem. If Auntie wants to tittle I suppose she is of legal age. But it might be better for you to spend a little time around Auntie's house and if it appears that she is enjoying rather than abusing, there should be no harm done. If it's more than that, you will have to seek help locally. But, check it out.

DEAR JACLYN CLAYE: A few months ago, my husband died and my children advised me to immediately put my home up for sale, and because I don't drive they suggested that I take an apartment closer in town for the sake of convenience. Well, I did just that and now I'm going crazy living in here with a bunch of swingers. I'm not an old fogey but there are certain standards that I think are important and that does not include being bothered by wolves who are half my age. And the noise and the commotion that goes on around here is not welcomed, either. Because there are many women who become widowed every week, please tell your readers to think twice about selling their homes should the same sad thing happen to them. I would buy my old home back for twice the price, if I could. Signed, EXPERIENCED.

DEAR EXPERIENCED: Yours is not the first letter I have

About Local Folks

by Dutch Gipson

Mr. and Mrs. Hume Russell were hosts to an open house for Mrs. A.L. Latta and Mrs. David Casey and children, Gretchen and Gregory, of San Diego, Calif. Monday and Tuesday. Mrs. Latta and Mrs. Casey arrived in Lubbock Monday afternoon for a visit with Mrs. Casey's grandmother, Mrs. H.G. Ramby, before coming to Morton. The group left Wednesday for Albuquerque, N.M. for a short visit with Mrs. Latta's sister before returning home. Barbara also visited briefly with her father, P.B. Ramby, while here.

Mrs. Jo Willeby of Lubbock visited Saturday with her grandmother, Mrs. Dutch

received saying just about the same thing. So, listen ladies. And unless there are economic reasons, think twice before dumping the old homestead.

Gipson, and attended the Souder-Kuehler wedding.

Visiting last week with Mrs. Lillian Williamson were Mrs. Helen Parker of Quanah and Mrs. Williamson's niece, Mrs. Richard Herring and son, Eric, of Abernathy.

Guests with Rev. and Mrs. Phil Knott, pastor of First Missionary Baptist Church, the first of the week were her parents, Rev. and Mrs. Wayne Page of Odessa.

Mr. and Mrs. John Howton of Houston have been guests of her parents, Mr. and Mrs. C.F. Winder, the past week. They returned to their home Monday. Johnny, who has been a guest of his uncle and aunt, Mr. and Mrs. Leonard Gandy, during the summer, returned home with them.

Mrs. Rob Richards and her

mother, Mrs. McMillan of Levelland, left the first of the week for a few days of vacation in Houston with relatives and friends.

Mrs. W.W. Smith is enjoying her children, Mr. and Mrs. Fred Byars and children of Woodbury, N.J. and the Rev. and Mrs. Wayne Smith and daughter, Cherry, of Austin, this week. Cherry is a student at McMurry College and the Byars' son, Ray, is here to enroll as a freshman at Texas Tech University.

Mr. and Mrs. Carlton Luper are leaving today for Houston to visit with their children, Mr. and Mrs. Jerry Luper and family.

Mr. and Mrs. Jerry Cribbs and family have returned from a two weeks vacation in Sterling City, Calif. They visited with Mary's parents and other relatives and friends.

Mr. and Mrs. Neal Baird from Truth or Consequences, N.M. visited with his aunt and uncle, Mr. and Mrs. C.A. Baird, last week. Other guests in the Baird home were their daughter, Mr. and Mrs. Paul Cornwell from Okla. City, Okla.

ATTENTION NOW!

THEN. In 1825, when John Quincy Adams was U.S. president, America's oldest continuous textile printing company, the Cranston Print Works, first went into operation.

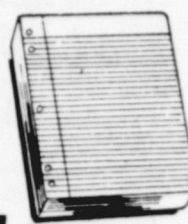

NOW. This Rhode Island based firm today—150 years later—is considered a mainstay in printed textiles by leading fashion designers and manufacturers. Each year the company handles more than 160 million yards of fabric! The 100% cotton Batik geometric above is typical of its creative Crantex division.

tractors, such as a F-30 Farmall equipped with a Chrysler Hemi engine, a Massey 44 equipped with not one but two 427 cubic-inch Chevrolet engines. "When the announcer calls the Modified class to the line, expect to see something that does bear some resemblance to a tractor. All in all, we feel it is one of the best events yet held here in the way of color, excitement, and all-around fun for the whole family", Roy Oxford, Jaycees president, states. A list of door prizes can be found on an inside page of today's Tribune.

PLAGUE

FROM PAGE ONE

Blair said tests by the U.S. Public Health Service in Fort Collins, Colo., confirmed the plague infections. Blair, who lives with his family on the refuge, said coyotes or badgers were the suspected carriers of plague-infected fleas which caused prairie dogs to die. "I suspect the carriers were from New Mexico but we have no way of knowing," he said. Blair said the prairie dogs die in their burrows and said the prairie dog deaths are not easily detected because their carcasses can't be seen. "When they die, the fleas are down in the ground and the flea ain't going to come out of the hole as hot as it is." The refuge covers 5,800 acres and hosts about 12,000 visitors a year, according to Blair. A spokesman for the New Mexico Environmental

Improvement Agency said rodents trapped along the eastern border of his state during the past three weeks had no signs of plague organism. "We had heard rumors of a prairie dog die off in the Muleshoe area and decided to set up a surveillance along the border," Neil Weber, chief of insect and rodent control for the EIA, said. "None of the animals we have trapped to date have proven to be positive for plague." A 3-year-old Navajo girl died of the disease in New Mexico this summer and a total of seven cases have been confirmed in humans this year in New Mexico.

YOUTH

coordinator Dorothy Rose; Councilor Lenave Freeland; Head basketball coach Ted Whillock; Head football coach Roy Winters; Tennis coach Bill Johnson and Girls basketball coach Darrel Haley. School principal under Supt. Jackson at Three Way is James Sinclair, formerly of Bula and Pat Risinger, also formerly of Bula, who will coach both the boys and the girls basketball teams.

Under Supt. Richard M. Souter at Whiteface schools there is only one new face among supervisory personnel in the person of Elementary Principal David Cavitt, who replaces L.S. Salser who retired after many years in the teaching profession.

Others in staff and head coaching positions include Secondary Principal L.A. Noles; head football coach James (Waco) Reynolds; Boys basketball coach Bill Craddock and girls basketball coach Tommy Hays.

Whiteface is expecting 300 students this year, up from 281 enrollment last year.

Bledsoe schools expect 110 enrollment this year, up a few over 1974-75. A new Superintendent takes over the reigns this year in the person of Charles Larrison who replaces Don Weaver. The school principal and boys basketball coach will be the same as last year with Bill Rodden and Gary Breakbill holding those

respective positions. A new coach, Winnie Tatum, will take over the girls basketball program. The Morton school calendar for 1975-76 is published at the top of today's Tribune. Calendars of the other three schools will be published as received.

BORDER

FROM PAGE ONE

Effective September 8, 1975, Acree continued, non-commercial pilots must report to Customs or the Federal Aviation Administration at least 15 minutes prior to entering the U.S. air space along the border the following information:

Their point and time of penetration. The airfield adjacent to the border where they will land to undergo Customs inspection and their approximate time of arrival there.

Calxico International Airport, Calxico, California; Del Rio International Airport, Del Rio, Texas; Bisbee-Douglas International Airport, Douglas, Arizona; Eagle Pass Airport, Eagle Pass, Texas; El Paso International Airport, El Paso, Texas; Laredo International Airport, Laredo, Texas; Miller International Airport, McAllen, Texas; Nogales International Airport, Nogales, Arizona; Brown Field, San Diego, California; San Diego International Airport, (Lindbergh Field) San Diego, California; Tucson International Airport, Tucson, Arizona; and Yuma International Airport, Yuma, Arizona.

For additional information, call Alan Bernstein at (202) 964-5286.

border where they will land to undergo Customs inspection and their approximate time of arrival there.

The commander's full name and the registration number of the craft.

The number of U.S. citizens and aliens on board.

The aircraft's point of departure.

Multiple entry exemptions — requests for several overflights — may be obtained by applying to U.S. Customs 30 days in advance. Fifteen days notice is required when applying for a single entry exemption. The exemptions are good for a one-year period. A record of all exemptions, approved or denied, will be maintained.

Special permission to overfly designated border airfields will also be granted when weather conditions do not permit landings; when an aircraft

develops engine trouble or has navigational problems; when a particular airfield is congested, or when the size of the airfield prevents a craft from landing safely.

Failure to notify Customs or failure to arrive at an airfield within a stated time will result in follow-up investigative action.

Violation of the aircraft reporting requirements will also subject plane commanders to a \$500 civil penalty and possible seizure and forfeiture of their craft.

Customs inspections will be carried out at the following designated facilities:

Brownsville International Airport, Brownsville, Texas;

MORTON

check. You will know what the check was for when we quote the letter in its entirety as follows:

"Editor, Tribune, Morton Texas, Dear Editor: I shall appreciate your sending me a one year subscription to your paper and billing KMCC for same. We are eager to know the happenings in your community and frankly I have found the best source of information is the local newspaper. If I can be of any service to you please let me know, signed: R.B. McAlister, Television 28, KMCC.

We hope you will forgive us for getting a certain amount of shear glee out of that — after years of plodding along, trying to give quality over quantity while we are being bombarded daily by the airwaves on what a great service they are performing — we just have to rejoice when one of their own admits where the real local news source lies.

And then there was the mixed up student in Laos who is demanding that the U.S. of A pay them war reparations on the basis that since we lost the war and they won it, then we must pay damages. Boy, is that kid mixed up — doesn't he know that we only pay and rehabilitate countries that we defeat, ie, Germany, Japan, etc? Someone ought to tell him that we ain't never lost a war yet — except to the Sioux Indians, and we haven't got them all back from Canada yet for a pow wow so that we can set a precedent.

Then, there is this guy who is in charge of the law enforcement course which our policemen attend at South Plains College from time to time — What is his name, George Lawless, of

County Agent News

By ROY N. JONES

Early planted sunflower crops in Cochran County have completed the bloom stage and are now in a period of grain filling, says Roy Jones, Cochran county extension agent. Since this is the period in which oil content and seed weight are being determined, farmers need to be careful not to stop plant growth too quickly with harvest-aid chemicals. Early killing could have drastic effect on final yields.

The agent says that with the excellent moisture conditions prevailing on the High Plains, it could take four to six weeks after completion of the bloom stage for seed to reach full maturity.

By that time, he points out, the back of the head and stalk should be lemon yellow in color and most of the leaves will be dead or appear to be dying. The triangular shaped bracts on the outer edge of the head will be brown and brittle. The seed in the center of the head will be as dark in color and as firm as the seed on the outer edge.

When these characteristics are noted, the seed is mature but the fleshy head base (which when cut open with a knife looks somewhat like a sponge) will not be sufficiently dry for combining. To avoid adding this high-moisture foreign matter to the seed during the combining operation, the head base must be dry, Jones cautions.

Several weeks could be required for the head base to dry naturally. During this period seed will begin to shatter and

course!

Not to end on a somber note we cite the boy from southern Kentucky who was 19 when he got his first pair of shoes. He was just so proud that he was backing up, admiring the shoes, when he happened to back into Tennessee, whereupon he was hired immediately as a school teacher.

TIPS ON BETTER RELOADING: To aid reloaders in reloading of shotgun shell for trap and skeet shooting. Remington has announced the availability of a new, updated version of this free booklet. Write: Remington Arms Co., Inc., Dept. F, Bridgeport, Ct. 06602.

some yield will be lost. The best alternative is rush the final drying process with the use of a harvest-aid chemical.

Recently, Paraquat was cleared for use as a sunflower desiccant in Texas. The chemical may be applied at a rate of 1 to 2 pints per acre when sunflower seeds are mature, Jones says. Five gallons of spray mix (Paraquat plus water) should be used when treating by air and 20 to 40 gallons with ground equipment. For best results, a surfactant such as Ortho x-77 should be added at a rate of 1 quart per 100 gallons of water.

READ ALL LABEL DIRECTIONS CAREFULLY BEFORE USING PARAQUAT, Jones emphasizes. Once a harvest-aid chemical is applied, the crop will be ready to harvest in 7 to 10 days. A combine equipped with a sunflower header attachment should be immediately available, because delays could be costly in terms of seed loss due to shattering and bird feeding.

"Keep in mind, Paraquat is a non-selective desiccant. That means it will kill any plant tissue it contacts, including cotton, sorghum and other crops in adjacent fields.

"Chemical drift is a potentially serious problem," Jones says. "Since desiccation will, in most cases, be done with aircraft, producers should insist that the aerial applicator pick a calm day for the spraying with the new types of drift reducing nozzles such as "Raindrop" or by using drift reducing agents such as Target of Nalco-Trol. These equipment changes and additives will probably increase the costs of spraying operations. In the long run, however, this could be money well spent if there is danger of damaging adjacent crops, Jones believes.

LOSE UGLY FAT

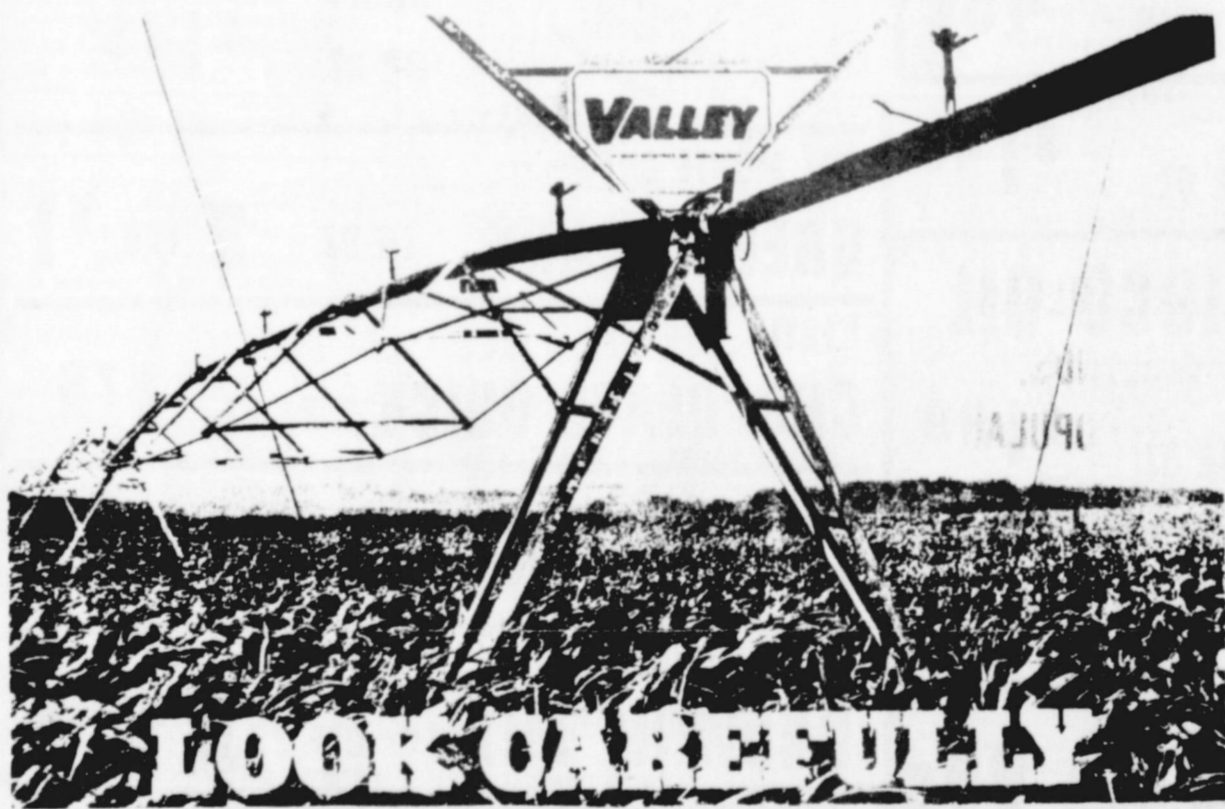

Start losing weight today or money back. MONADEX is a tiny tablet and easy to take. MONADEX will help curb your desire for excess food. Eat less — weigh less. Enochs-Bula News

by Mrs. J.D. Bayless

Mr. and Mrs. J. W. Layton returned home last Monday from the Bearden reunion at Lake Murray.

Mr. and Mrs. Lawrence Hall and two grand daughters from Anaheim, California arrived Monday for a visit with his father, Carl Hall, and her mother, Mrs. Josie Vanlandingham.

Mr. and Mrs. J. D. Bayless left Tuesday and returned home Monday from a fishing trip to Lake Thomas. They visited with her sister, Rev. and Mrs. Ray Cunningham, and had supper with her brother, Mr. and Mrs. Chester, Thursday night at Big Springs. They attended church services Sunday at the Vincent Baptist Church where Rev. Cunningham is pastor.

Mr. and Mrs. C. C. Snitker, Mr. and Mrs. Snitker, James and John did some fishing at Colorado City Monday afternoon till Friday. The Snitkers went to

Roswell last Saturday and visited his sister, Mr. and Mrs. Dewie Johnson, who took them into the mountains in Mexico.

Mr. and Mrs. J. E. Layton and sons went to Colorado and Red River, New Mexico on their vacation last week.

Mr. and Mrs. L. G. Fred and Mr. and Mrs. Bob Newton did some fishing at Colorado City the past week.

Rev. and Mrs. Charlie Shaw had all of their children home during the weekend: Mrs. James Crocker and family from Tucumcari, N. M., Mrs. Ralph Jarros and family of Las Vegas, N. M. and Mr. and Mrs. Danny Shaw of Post.

Mr. and Mrs. Harold Layton and son, Mr. and Mrs. Dale Nichols, Paula, and Donnie and Orlia Davila, Mr. and Mrs. Johnny Cox, and Mr. and Mrs.

Donald Joe Cox returned home Monday after a weeks vacation at Red River, N. M.

Mr. and Mrs. Tommy Kirk and children have returned home after a few days fishing trip at Anita, Colorado.

Mr. and Mrs. L. H. Medlin and grand daughter, Shelly, left Tuesday morning for a short visit with Mr. and Mrs. Dennis Medlin and will visit relatives in Oklahoma.

Mr. and Mrs. Tom Bogard spent Thursday till Saturday with his sisters, Mrs. Lena Pettit and Mrs. Eva Peabody, in McClain and Mr. and Mrs. Roy Blackman and Mrs. Blanche Smith at Clarendon.

Supper guests of Mr. and Mrs. J. C. Withrow last Wednesday were his cousin, Mrs. Elmo Ward, and son, Jimmy, of Holdenville, Okla. and Mr. and Mrs. Bob Wheeler of Okla.

Visiting the Nolan Harlins were Mr. and Mrs. Joe Shepard. She is a sister of Mrs. Harlin. They came by Amherst and picked up Mrs. Lula Harlin and spent a day and night with them.

Mr. and Mrs. John McCormick

Three Way News

By Mrs. H. W. Garvin

Mr. and Mrs. J.P. Meek and children from Wheeler were dinner guests in the home of her parents, Mr. and Mrs. F. L. Fort, and Bonnie Long Monday.

Mrs. Kenneth Fox and children took her parents, Mr. and Mrs. H.W. Garvin, to Lake Brownwood

and children visited the John Blackmans Saturday. They were moving to Three Way from Lawton, Okla. Mr. McCormick will be on the Three Way School faculty.

Guests in the home of Mr. and Mrs. John Blackman Sunday were old friends, The Penn Reddens, of Lubbock and Mr. and Mrs. Thomas Reddens of Florida.

Mrs. V. C. Weaver and Mrs. John Blackman attended the funeral of Mrs. Pauline Pierce at the Muleshoe Church of Christ Monday evening.

for the weekend to attend the Tyson family reunion.

Mr. and Mrs. George Tyson and Mr. and Mrs. Caton Tyson and girls attended the Tyson reunion at Lake Brownwood over the weekend.

Mrs. Minnie Thompson from Kennewick, Washington, Mr. and Mrs. Jay Music from Red Bluff, California and Mrs. Johnnie Wheeler from Comanche visited the Joe Wheeler family Friday night.

Jimmy Gillentine and Sue White from Lubbock visited the H. W. Garvins Wednesday.

Mr. and Mrs. D. S. Fowler visited the Roy Greers Sunday evening.

Mrs. T. F. Davis from Stamford spent the past week visiting her son, Mr. and Mrs. T. D. Davis.

Mr. and Mrs. Jack Reeves and children and Debbie Furguson spent the weekend at the lake fishing.

Mr. and Mrs. Homer Key from California and Mrs. Oleta Off of Amarillo visited the past week with the S. G. Longs.

Look who's new

Charles Bryan, son of Mr. and Mrs. Don Matthys of Pasadena, arrived August 7 and weighed 7 pounds 8 1/2 ounces.

Charles' grandmother is Mrs. Evelyn Seagler and his great-grandmother is Mrs. Orle Ellington both of Azle.

BOOKMOBILE SCHEDULE

The High Plains Bookmobile will be in your area on the following dates.

Tuesday, August 26 - Morton, 9:30-11:45.

Wednesday, August 27 - Circleback, 8:45-9:45; Bula No. 1, 10:15-11:45.

It is a wise father that knows his own child.

Mr. and Mrs. Jack Hodnett and children attended the Little Britches Rodeo at Lamesa Saturday night where Bill Hodnett and Shonna received ribbons for their performances.

IS THE CHURCH PART OF YOUR LIFE?

THINK SAFETY... Think Sunday

We can't miss them — these signs along the intersections of our streets. They protect our school children from physical harm. We see the sign — and slow down.

Most of us are deeply concerned about the safety of our youngsters, and these signs can be a reminder of a further obligation our society has to its youth. There are dangers in life for which only religious training and faith can prepare us.

Boys and girls approaching maturity deserve the spiritual protection which Christian education provides.

Whenever you approach a school crossing, slow down! But, just don't think safety — think SUNDAY!

Whiteface News

Mr. and Mrs. Roy Tilley and daughter, Sybil Stock, and three children left Friday for a week's vacation. They visited with their parents in Lubbock and later to the Tall Texan Steak House for a midnight breakfast. Sunday the group met in the home of Rae Hood in Levelland for lunch and an evening of old stories, looking at old pictures and getting reacquainted.

Those attending were: Mr. and Mrs. Bill Selby from Ballinger, who were class sponsors of the graduating class, Mr. and Mrs. Hubert Lindsey, former band director, from Lubbock, L. S. Salser, former high school coach, Mr. and Mrs. Oscar Powers, Mr. and Mrs. Buttons Williams, Mr. and Mrs. Rich Swinny all of Lubbock. Graduates and their husbands and wives attending were: Mr. and Mrs. Wade Taylor, Mr. and Mrs. S. J. Bills and Mary Lou Bowden Martin all of Whiteface, Mr. and Mrs. Billy Burl Dane and Russ Sinclair of Lubbock, Mrs. Marilyn Parrish and daughter, Debbie, of Houston, Mr. Roe Hood, Mr. and Mrs. Leon Smith of Levelland, Mr. and Mrs. Milford Prichard of Abilene and Mr. and Mrs. Carton Bizzell from Odessa. The entire graduating class attended except Jennette Duttan from Hobbs, N. M., Mrs. Wilma Jean Gillespie from Clovis and Mrs. Frankie Ann Whiteside from Austin. Sterling Smith is the only graduate who is deceased. The group had a wonderful time and plan to meet again in two years instead of waiting another 29 years.

Mr. and Mrs. C. A. Kitchens were in Jal, New Mexico Sunday to visit their daughter, Mr. and Mrs. Ray Dow, Miller, Stacy and Charlotte. Stacy and Charlotte are leaving this next week to attend college in Waxahachie.

Mr. C. O. Brown has been visiting in the Dallas area with his wife, Dorothy Adams, for the past two weeks.

Mr. and Mrs. C. A. Kitchens were in Jal, New Mexico Sunday to visit their daughter, Mr. and Mrs. Ray Dow, Miller, Stacy and Charlotte. Stacy and Charlotte are leaving this next week to attend college in Waxahachie.

Mr. and Nancy Williams of Houston were weekend visitors of Mr. and Mrs. Johnny Clure.

Mr. and Mrs. Frank Davidson were in Dallas on vacation. They plan to visit some sight seeing and go to Nashville, Tennessee to attend the Grand Ole Opry.

Mr. and Mrs. E. C. White have returned from Grapevine where they visited with relatives for a week.

Mr. D. Martin returned Sunday on a trip with Ameri-Tour.

Mr. and Mrs. E. C. White have returned from Grapevine where they visited with relatives for a week.

The Whiteface High School graduating class of 1946 had a reunion Saturday and Sunday. They met at the Whiteface Community Center

Saturday for a "coffee and tea" get-together. Saturday night they all went to the Hayloft Dinner Theater in Lubbock and later to the Tall Texan Steak House for a midnight breakfast. Sunday the group met in the home of Rae Hood in Levelland for lunch and an evening of old stories, looking at old pictures and getting reacquainted.

Those attending were: Mr. and Mrs. Bill Selby from Ballinger, who were class sponsors of the graduating class, Mr. and Mrs. Hubert Lindsey, former band director, from Lubbock, L. S. Salser, former high school coach, Mr. and Mrs. Oscar Powers, Mr. and Mrs. Buttons Williams, Mr. and Mrs. Rich Swinny all of Lubbock. Graduates and their husbands and wives attending were: Mr. and Mrs. Wade Taylor, Mr. and Mrs. S. J. Bills and Mary Lou Bowden Martin all of Whiteface, Mr. and Mrs. Billy Burl Dane and Russ Sinclair of Lubbock, Mrs. Marilyn Parrish and daughter, Debbie, of Houston, Mr. Roe Hood, Mr. and Mrs. Leon Smith of Levelland, Mr. and Mrs. Milford Prichard of Abilene and Mr. and Mrs. Carton Bizzell from Odessa. The entire graduating class attended except Jennette Duttan from Hobbs, N. M., Mrs. Wilma Jean Gillespie from Clovis and Mrs. Frankie Ann Whiteside from Austin. Sterling Smith is the only graduate who is deceased. The group had a wonderful time and plan to meet again in two years instead of waiting another 29 years.

Cookout Tuesday

The Morton Jaycees and their wives met Tuesday at 8 p.m. for a cookout at the County Park. Plans were finalized for the upcoming Tractor Pull to be held Saturday at the Rodeo Arena. Fifteen members and their wives attended the affair.

Hospital Notes

Patients admitted to Cochran Memorial Hospital from August 12 through August 18 were: Sophia Young, Harold Reynolds, Tony Perez, Hubert Braddock and Joy Braddock.

Looking Back

25 Years Ago

The final total in Morton for the month of July according to figures released by the U. S. Dept. of Agriculture Office was 8.22 inches which farmers agree was more than enough.

Morton's building boom continues full blast with the announcement that building permits for the month of July have skyrocketed toward the \$100,000 mark.

Dr. and Mrs. Norman Monk left Tuesday for their new home at Temple. He will be associated there with the Temple Medical Clinic.

Mrs. Glenn Thompson took home a quilt last Saturday, the award in the Famuliner Homemaker's Club drawing.

Mr. and Mrs. L. A. Cochran and Mr. and Mrs. Bill Weatherly have returned home after attending the Frontier Rodeo in Cheyenne, Wyoming.

Grocery Specials for August 1950: Bacon 1 lb. pkgs. 49c, Wheaties Large pkg. 15c, Jell-o 3 pkgs. for 25c, Crackers Grahams 1b. 25c, Oleo lb. 27c, Lettuce 12c lb., Salad Dressing pint 19c, Perch lb. 39c, Bologna lb. 55c, Tea 1/4 lb. 31c, Asparagus No. 1 can 21c, Sardines tall can 14c, Oranges pound 10c, Bell Peppers lb. 16c, Okra 10 oz. 21c.

15 Years Ago

Morton's newest cafe, the Chat and Chew, will observe its formal opening Friday from 6 a.m. until midnight.

A total of 12 Sheriff Poses have already sent word that they will compete in the riding competition at the 10th Annual "Texas Last Frontier" Rodeo.

The first invitational Shooting Matches, hosted by the Pioneer Rifle Club of this county will be held August 7 at the caliche pit one mile north and one mile west of Morton.

Vaughn Killian was recently hired as part time member of the Morton Police Force, it was revealed in the minutes of a previous City Commission meeting.

Jeter Hardware and Grocery this week sold out its stock of groceries.

Appointment of O. B. Huckabee as a member of the Farmers Home Administration county committee was announced by Marvin E. Elliot.

In a double ring ceremony performed at the First Methodist Church of Enochs by Rev. C. C. Dorn, Miss Linda Karen Welch and Thomas Edwin Wall were united in marriage, Thursday, July 28.

'Backgrounds-Perennials' Subject At Club Meeting

The home of Mrs. J. L. Schooler was the meeting place of the August 4 meeting of the Whiteface Garden Club. Mrs. Schooler displayed a number of "Bases and Backgrounds" and explained the uses of both.

She stated that "since every arrangement has a background, even if it is the wall of the room or a piece of furniture or even a curtain, the effect on the beauty of the arrangement of flowers should be considered". On a frame behind a French styled dry arrangement, many colored cloths were draped, one at a time, to show the effect of the various hues on the colors in the arrangement.

The effects of various bases on other arrangements was shown, as well as many varieties of bases, from simple colored cloths to tall carved ornamental ones.

Mrs. D.F. Burris talked about "Perennials" and ways of increasing the supply. The best time of year for each method of propagating was listed.

This year's Flower Show will be September 20 in the Community Building. Accredited judges from Hereford have been invited.

The next meeting is slated Aug. 18 in the home of Mrs. Rube Abney, with Mrs. S.J. Bills, co-hostess. The subject will be "Period and Contemporary Arrangements".

Present: Mmes. Robert Evans, Jerry Marks, Elmer Orr, S.J. Bills, L.E. McDonald, Rube Abney, D.F. Burris, J.J. Stocks, Ronnie Davis, Tommy Hayes, Dan Ward, R.D. Hensley, Tim Schooler, Van Schooler, G.C. Keith, W.E. Bentley and the hostess, Mrs. Schooler.

MR. AND MRS. BILL DRISCOLL and daughter, Sisty, have moved to Morton where he will be preaching at Eastside Church of Christ. Driscoll completed his studies at the Sunset School of Preaching in Lubbock in January and the School of Missions at Sunset in June. They are making their home at 708 East Taylor. A cordial invitation is extended to everyone to visit and worship at the church and get acquainted with them.

Cystic Fibrosis

Fund Drive Will Begin August 24

Mothers who participate in "Kiss Your Baby Week" beginning Sunday, August 24, may be giving their children the kiss of life.

One of the signs of cystic fibrosis - the most serious lung-damaging disease - is a salty taste of the skin. That's why the Cystic Fibrosis Foundation is asking mothers to "Kiss Your Baby" with very special attention.

If a mother does taste salt on her baby, she should see the doctor and make sure the baby has a test for CF. Early diagnosis and immediate treatment are vital to the child's life.

Additional signs of cystic fibrosis -- and other lung-damaging diseases are: recurrent wheezing; persistent coughing with excessive mucus; pneumonia more than once; excessive appetite but poor weight gain; clubbing (enlargement of fingertips), persistent bulky diarrhea and nasal polyps.

One out of every 1,500 babies has cystic fibrosis and many people don't realize that it is the number one genetic killer of children. For children who are diagnosed early, the outlook is very hopeful. Children with a chronic cough and wheeze sometimes are confused with allergy patients. They should have a sweat chloride test for cystic fibrosis.

Local chapters of the Cystic Fibrosis Foundation may be contacted for further information.

Contracts have been let and aerial insecticide applicators are expected to take the air about August 25 in the twelfth year of the High Plains Boll Weevil Control Program.

Mass spraying of weevile infested cotton along the eastern edge of the High Plains to protect the vast cotton fields to the west has been carried out annually since 1964. The program, initiated and coordinated by Lubbock-based Plains Cotton Growers, Inc., has been widely cited as one of the most successful of all large-scale insect control efforts.

Entomologists at Texas A&M calculate that the program has saved control costs, yield and quality losses over the 11-year span amounting to at least \$400 million. Cost of the program for the 11 years has been less than \$12 million, giving a benefit-cost ratio of well over 300 to 1.

Infested acreage is sprayed from one to seven times each year, as determined necessary by extensive insect surveys, with ultra low volume Malathion. The base "control zone" in 1975 is expected to encompass some 250,000 acres, with the aggregate acreage requiring treatment projected at 680,000.

Cost of the program is borne jointly by the High Plains cotton producers who benefit from it, the U.S. and Texas Departments of Agriculture. USDA matches dollar for dollar the contributions of producers and the TDA. Producer contributions, collected on a voluntary, per bale basis as a part of compress receiving charges, have ranged from 50 cents per bale in 1964 down to 25 cents per bale set for 1975.

Total cost of the program in 1975 should come to about \$1.65 per acre treated, according to PCG Field Service Director Ed Dean, "meaning we'll probably spend between \$1.2 and \$1.3 million this year, about half of which will come from producer funds and half from Federal funds."

In 1974 it was possible to

complete insect surveys, trap cropping, spraying and other phases of the operation for about \$1.38 per acre, Dean notes, "but the cost of Malathion in 1975 is up from \$5.84 per gallon to \$9.02, and other costs have increased along with general inflation, including application costs this year of \$3.04 per gallon as compared to \$2.08 per gallon last year."

Extreme care will be taken in 1975, Dean notes, to conduct weevil spraying activity on a schedule that will not aggravate this year's unusually high incidence of boll worm infestations.

"There is a danger that early spraying for weevils in some instances would kill off boll worm predators and open the door to more economic damage from worms than would be expected from weevils," he said, "so in fields where data gathered by survey teams indicate that this is a probability, spraying for weevils will be delayed until that possibility no longer exists."

Low-bid contracts for spraying were awarded August 12 by PCG and USDA to D&D Aero, Inc. of Rantoul, Kansas; Euding Flying Service of Vincennes, Indiana; and Kimmel Aviation, Inc. of Houston, Mississippi.

Season Tickets

All Morton Indian football fans who desire season reserve seat tickets are urged to purchase them now. Season tickets are now on sale at the school business office in the Elementary building.

Prices for the reserve seats and game tickets are the same as in the past—\$5 for the reserved seat and \$2 for adults and \$1 for student tickets.

The same season tickets will be reserved for last year holders until 5 p.m. Friday, August 29 and will be released to the public after that date.

Early Registration Conference Announced For TTU Freshmen

Texas Tech University has announced a seventh early registration conference for entering freshmen for the fall semester Tuesday, August 26, one day prior to the regular registration period which begins Wednesday, August 27.

"This special conference," said Dr. Sam E. Curl, associate vice president for Academic Affairs, "has been planned to accommodate the needs of entering freshmen who were unable to attend any of the regular conferences conducted during late July and the first half of August."

This extra one-day registration period for freshmen will give them an opportunity to register before the regular period.

The special conference will begin at 8 a.m. on Aug. 26 in the Municipal Coliseum with general orientation scheduled for 8:30 to 9:30 a.m. Counseling and registration will begin at the conclusion of the general orientation, Dr. Curl said. Registration materials will be

available from the east door of the Coliseum.

D.N. Peterson, registrar, said parents of the entering students are invited to attend the one-day conference. However, dorm reservations or food service will not be available for parents. Freshmen who have made dorm reservations for the fall will be permitted to move into their rooms on Monday, August 25. Food service for students will not begin until breakfast on the morning of August 27.

Regular registration for the fall semester for the entire university is scheduled for August 27 through noon August 30. The first three days will be in the Coliseum and the last half-day Saturday, August 30, from 8 a.m. until noon, in the Registrar's office in West Hall and in the departmental offices.

Peterson said indications are that Texas Tech's total enrollment for the fall semester likely will be up slightly over the approximately 22,000 students for last year.

Agricultural Loans Continue Increase On Yearly Basis

A recent survey of agricultural credit conditions in Texas shows that the average size of agricultural loans has increased again this year, interest rates are lower, and more than half the banks are seeking new farm and ranch loans.

The survey was conducted by Dr. Wayne A. Hayenga, economist.

"Sixty-four per cent of some 100 lenders responding to the survey reported increased loan size but noted that the funds are going to about the same number of farmers and ranchers as in the past. Only 12 per cent of the lenders indicated that the average loan volume had decreased, and 24 per cent said it

had remained stable," noted Hayenga.

"Increased loan volume may have stemmed from lower loan repayments reported by 49 per cent of the lending agencies," pointed out the Texas A&M University System specialist. "Higher than normal repayment were recorded by nine per cent of the lenders."

The greatest increase came in operating loans, followed by machinery and crop storage borrowing which were more in demand this year than in the past. Feeder cattle loans were down markedly this year while dairy loans only saw a slight decrease.

Interest rates also decreased, but lenders had expectations for them to stabilize. Over the last six months, feeder cattle loans declined from 9.84 to 9.32 per cent; real estate loans from 8.93 to 8.63 per cent; and operating loans from 9.57 to 9.13 per cent.

"If short term interest rates do move," Hayenga said, "more lenders expect them to increase than decrease. But over the next six months 50 per cent of the survey respondents expected long term real estate rates to remain about the same."

The survey showed that lenders are favoring borrowers who contract some of their crops, with the majority preferring that the average borrower contract one-half of the crop prior to harvest. The number of lenders requiring low equity borrowers to contract crops was up slightly to 18 per cent compared to 15 per cent last fall.

Other topics covered by the survey — refinancing, expected loan demand and the Texas bank condition — reported positive answers from the majority of lenders, according to the economist.

More than half said short term loan demand will increase because of higher spending by customers. Also, the majority indicated that current demand for refinancing was higher, with an expectation for it to continue

County Has No Rural Accidents During July

The Texas Highway Patrol investigated no accidents on rural highways in Cochran County during the month of July, 1975, according to Sergeant H. E. Pirtle, Highway Patrol supervisor of this area.

Three crashes resulted in no persons killed and no persons injured.

The rural traffic accident summary for this county during the first seven months of 1975, shows a total of 24 accidents resulting in three persons killed and eight persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for July, 1975, shows a total of 568 accidents resulting in 22 persons killed and 398 persons injured as compared to July, 1974, with 485 accidents resulting in 18 persons killed and 280 persons injured. This was 83 more accidents, four more killed, and 118 more injured in 1975 at the same period of time.

Morton Monthly Sales Tax Rebate Includes Delinquents

Comptroller Bob Bullock issued city sales tax rebates Friday worth \$19.9 million and announced a new plan to give cities their proportionate share of any partial collections from delinquents.

The Morton rebate amounted to \$3,626.44. In the past, money from delinquents was applied first to the state's claim and only after that was totally paid off did the city get its money.

"It was wrong for the cities to be playing second fiddle," Bullock said. "In more than 800 cities the five per cent sales tax is a four-and-one split, so that's exactly how we are going to rebate it."

Bullock said he doesn't look for the new plan to bring significantly more money to cities but "it will get them their share a lot faster than when they had to bring up the read."

The City of Austin is one example of an immediate

beneficiary of the new plan, Bullock said.

An Austin tire company shut down by Bullock last week owed \$37.102 in state taxes and \$9,556 in Austin's city sales taxes. The business was allowed to reopen after paying \$12,000 cash toward the delinquency and agreeing to pay \$2,000 a month on the balance plus keeping future taxes current.

The City of Austin's \$2,400 share of that initial \$12,000 payment will be included in Austin's rebate next month and its \$400 share of the \$2,000 monthly payment will be paid every month until the full city liability is paid off.

This month's \$19.9 million in rebates to the cities is significantly higher than the \$11.4 million rebated last month. August is the second month of the three month rebate cycle which includes two months of relatively small rebates followed by a large "clean up" in the third month.

Hunting, Fishing License For 1975-76 Is Now Available

Now is the time to purchase your new 1975-76 combination hunting and fishing license at the same bargain price you paid for it last year.

The combination license provides a savings of seventy-five cents over the cost of purchasing separately a resident hunting license at \$5.25 and a fishing license at \$4.25.

The new license, valid Sept. 1, 1975, through Aug. 31, 1976, are available at all P&WD enforcement offices and bonded license sales deputies such as

above normal levels.

"And to add a strong financial foundation for borrowers, 94 per cent of the state's lending institutions responding to the survey indicated no current or expected problems in obtaining funds to support loan requests," noted Hayenga. "In fact, more than half are actively searching for new farm and ranch loans."

major sporting goods stores throughout the Panhandle and South Plains.

Non-resident hunting license are \$37.50.

Fishing licenses purchased separately at anytime of the year are valid for one year from the date of purchase.

Three turkey tags and four deer tags are on the new hunting licenses and must be used according to regulations.

New licenses are printed on a special paper which is resistant to tears and water — something which should prove useful to both outdoorsmen and game wardens trying to decipher licenses dunked in water and otherwise roughly handled.

Both deer and turkey tags are easily separated from the rest of the license by perforations and there is also a perforation on the edge of each tag where a string or wire can be inserted for attachment to the harvested game.

Aerial Servey Indicates Antelope Herds Growing

Antelope surveys in the Panhandle and Permian Basin have been completed by Texas Parks & Wildlife biologists and a sizable increase of both adult and fawn animals were observed.

Fawn survival is the key factor of any antelope herd and a 95 percent survival rate in the Permian Basin and a 32 percent survival rate in the Panhandle should put the northwest Texas antelope herds back on the road to recovery in 1975.

"Adult antelope showed a ten percent increase on 331 sections in the northern part of the Permian Basin," Jack Parsons, P & W regional wildlife director, said, "and the Panhandle survey showed a 37 percent increase from 1974 to 1975."

These good reports from the field and continuing excellent

range conditions should prompt the P&W department to issue the normal number of permits to the landowners for the Permian Basin antelope season Oct. 4-12 and the Panhandle antelope season Oct. 4-7, 1975.

Hunter success since 1960 has been high with 91 percent of the antelope hunters bagging their animal. The wide open country that the antelope inhabit make it easier for the hunter to see and bag his buck.

"Most of the antelope herds consisted of six or seven does and a buck in the Panhandle region survey," David Dvorak, project wildlife biologist at Canyon, said. "However, we spotted one large herd of 23 animals on one ranch."

Antelope permits are normally issued to the landowners the latter part of August. Sportsmen are reminded to contact the prospective landowner now and arrange the antelope hunt while the permits are being issued.

The antelope season in Texas has become very popular and the permits go fast. This is also a good time to get your rifle in shape for the hunt with a few hours on the target range developing that long range antelope load.

New Law Adds Penalties To Uninsured Car Drivers

Uninsured motorists involved in traffic accidents resulting in death, personal injury or property damage in excess of \$250 may be subject to suspension of their driving privileges and vehicle registrations under a revision to the Texas Safety Responsibility Law.

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said the new law, which was enacted during the recent Legislative session, requires DPS to evaluate traffic accidents (meeting the above criteria of seriousness) to determine if there is a "reasonable probability of

judgement" against one or more of the drivers. If such a finding is made, and if the driver or owner has no liability insurance meeting the state's minimum requirement of \$10,000-\$20,000-\$50,000, then the DPS must require the uninsured motorist believed at fault to satisfy the security provisions of the law. This may be done in one of the following ways:

--By submitting a written release signed by the other damaged parties.

--By filing an installment agreement made with the other damaged parties involved.

--By depositing security in a sufficient amount to take care of damages sustained by others and maintain proof of financial responsibility for a period of five years from the date of the accident.

--By filing copies of civil damage judgement obtained against other parties involved in the accident, or a judgement of non-liability.

When the security provisions of the law are not satisfied by the uninsured owners and operators, and the DPS determines there is "a reasonable probability of judgement" against such persons, the following provisions of the law become applicable:

--A written notice of future driver license and motor vehicle registration suspension must be forwarded to such persons by certified mail. Such a notice will advise that a hearing will be granted upon request.

--Upon receipt of a request for hearing, the DPS will notify the persons requesting same to appear before the traffic court judge in their precinct of residence, and it will become the responsibility of the traffic court judge to determine whether or not there is "a reasonable probability of judgement" and, if so, the amount of security to be deposited with DPS by the uninsured persons.

--Any suspension invoked by the DPS in motor vehicle accident cases of this type will be stayed by a request for hearing until such time as the matter is finally resolved through administrative hearing or the courts.

Speir said the new law was enacted to enable Texas to comply with a U. S. Supreme Court decision. The decision had invalidated portions of the previous Texas Safety Responsibility Law because of a lack of "due process" provisions in the old law.

Speir said the new law was signed by the Governor on June 20, and uninsured motorists involved in accidents since June 21 can be affected by its provisions.

Mrs. Mason Rites Held In Lamesa

Services for Mrs. Alice Alma Mason, mother of Mrs. Earl Brownlow of Morton, were held at 3 p.m. Tuesday, August 12, at 3 p.m. in the Sunset Baptist Church in Lamesa. The Rev. R.W. Blackman of Athens officiated.

Burial was in Lamesa Memorial Park under the direction of Branon Funwe.

Burial was in Lamesa Memorial Park under the direction of Branon Funeral Home.

Mrs. Mason, 81, died at 7:45 a.m. Monday, August 11, at a convalescent home following a lengthy illness. She was a native of Coryell County and a Lamesa resident since 1922. She was a Baptist.

Survivors other than her daughter are two sisters, Mrs. Ellen Ballow of Winters and Mrs. L.H. Clark of Lamesa; a brother, Hollis Ensor of Bronte; three grandchildren; eight great-grandchildren; six great-great-grandchildren and a host of nieces and nephews.

HOW'S YOUR SAVVY ON SYMBOLS?

Can you name this one? It's the sign of the people who work with the pretty, practical plant pictured, which is in the same botanical family as hollyhocks and okra and can be used for salad oil, cattle feed, furniture and some of the most fashionable apparel anywhere.

 Cotton Incorporated, the very first to make up cottons producing the cotton symbol.

Answer: It's cotton!

Mrs. Terry Glenn Sowder (Joan Marie Kuehler)

Couple Exchange Vows

Afternoon Ceremony

Joan Marie Kuehler and Terry Glenn Sowder pledged their troth Saturday at 4 p.m. in the St. Ann's Catholic Church. Nicholas Schneiders, officiated under an archway of greenery, apricot roses and Lily of the Valley. Baskets of white gladioli and apricot carnations and candelabras with apricot candles completed the setting.

Parents of the couple are Mr. and Mrs. Louis Kuehler of Morton and Mr. and Mrs. Bill Sowder of Bula.

Given in marriage by her father, the bride wore a formal gown of fashion organza in an empire design, with a full length chapel train and sheer sleeves. Her veil of bridal illusion was edged with chantilly lace.

Following tradition, something old she carried a prayer book belonging to her mother, something new was her gown, something borrowed was a blue rosary belonging to her sister and something blue was her garter.

Mrs. Debbie Rice served her sister as matron of honor. Mrs. G. W. Lyon, sister of the bride, and Mrs. Pat Risinger, sister of the groom, were brides matrons.

Julie and Lisa Lyons were candlelighters. The attendants wore formal gowns of apricot dotted swiss and carried nosegays of white and apricot carnations.

Jerry Sowder, brother of the groom, was best man. Pat Risinger, Donnie Kuehler and Nick Rice were groomsmen.

A reception of Parish Hall honored the couple following the ceremony. Mrs. Wayne Kuehler and Mrs. Glen Kuehler, sisters-in-law of the bride, served at the bride's table and Miss Donna Lynskey of Lubbock served at the groom's table.

The bride is a 1971 graduate of Morton High School and a 1973 graduate of South Plains College. She is employed by Cochran County.

Sowder is a graduate of Bula High School, South Plains College and is engaged in farming.

Following the wedding trip, the couple will make their home five miles northwest of Enochs.

TRACTOR PULL DOOR PRIZES

A partial listing of the prizes donated to the Jaycees by merchants and businessmen to be used as door prizes for the tractor pull at the Morton Rodeo Arena Saturday, August 23.

- Manufacturing & Jones Welding---3-point "Quick-Hitch" tractor, Category 2
- Auto Supply---23 channel C B radio
- Radio & TV Sales & Service---23 channel C B radio
- Gun Shop---22 Calibre Automatic rifle
- Radio Shack---Portable "Weather Bulletin" radio
- Garage---Front wheel alignment & tire balance
- & Son Furniture---21 quart pressure cooker
- Menagerie---Hand painted "TALL TEXAN" statue
- Tire & Supply---1 case (6 gal.) anti-freeze
- Franklin---Pocket-type electronic calculator
- By-Products---50 lbs. frozen dog food
- Auto & Appliance---Fondue Cookware set
- Mini-Mart---Table-model AM radio
- Beauty Nook---"Uniperm" permanent
- Farm Equipment---2 gallons anti-freeze
- Automotive---Pack & balance front wheels, install new wheel seals
- Ice Restaurant---Steak dinner for 2
- Pharmacy---Fully stocked first aid kit
