MULE

FROM PAGE ONE

It was good to tie it up and a Johnson field goal with 45 seconds left sent the Tribe into overtime with a 10-7 lead. Their lead faded fast, however, as the fired-up Mules came back to tie the game at the 11:00 mark. Disaster overtook the Mules in the form of three quick touchdowns by the Mules at the 11:00, 11:45 and the 3:50 minute marks of the third period. The "catch-up" Indians outplayed the Mules in the fourth period and racked up seven more points with 7:48 remaining, but the game by that time was out of reach and thus ended 28-17 in favor of Muleshoe. The Mules came out on the long end of the total offense stats with 29 yards rushing and 65 passing for a total of 264 yards. Morton completed 114 on the ground and 62 for a total of 176. The Mules made a total of 17 first downs to 13 for the Tribe. Morton completed four of nine pass attempts for 62 yards and the Mules were good on three of eight for 65 yards. Morton had one pass intercepted to zero for Muleshoe and each team lost one fumble. The Tribe's brightest spot was taking, with four punts for an average of 38.2 yards to Muleshoe's three for a 31.3 average. Morton lost 30 yards in penalties to 45 by the Mules. Sabala again led in rushing for the Tribe with 8 carries for 48 and a 6 yard average. Moore carried nine times for 3 yards and a 3.8 average and Jimmy Green carried 4 times for 3 yards and a 3 yard average. Cited for their outstanding performances this week by Coach Winters were Allan Steed, who was on offense; Jimmy Green, outstanding on defense and Ricky Carter, top specialist. Morton will open district play at home Friday night when they meet the Olton Mustangs, the pre-

season pick for the district championship.

METHODIST

FROM PAGE ONE

Since 1969 Armstrong has served as Conference Missionary for church extension and community development in Siantar, Sumatra. His duties include assisting unordained local pastors all over North Sumatra, as well as helping to dig wells, build churches and solve agricultural problems. He serves on General Conference and Annual Conference Boards, and helped in the writing of the Indonesia Methodist Discipline which was accepted at the General Conference in 1973. Mrs. Armstrong works in villages in the areas of health and hygiene, and other social work. During their ministry in Indonesia and the U.S., the Armstrongs have been foster parents to twenty-four children. They have three grown children of their own. The Rev. Royce Womack, host pastor, extends a cordial invitation to all area residents to attend both the dinner and services.

less than half the citizens of voting age cast ballots in the 1972 Presidential election and where the illiteracy rate is more than

4.6 percent.

The special assistance, specified by the Justice Department, includes furnishing bi-lingual election materials and special monitors at polling places.

In Cochran County, according to the latest Census Bureau statistics, 2.1 percent of the population is foreign-born.

This compares with 4.9 percent in the United States as a whole and with 2.8 percent in the State of Texas.

Conversely, the great bulk of the local population, 90.4 percent of it, consists of native-born Americans with a history that goes back three generations or more in this country.

The Census Bureau and the Justice Department have released the names, to date, of localities in several states where the special help to minorities and illiterates will have to be supplied. Determinations are being made as to the remaining states. They will be announced later.

The figures show that the illiteracy rate in the local area, defined as the percentage of the adult population with less than five years of schooling, is relatively low. Some 13.2 percent fall within that classification.

land, judged the fourteen contestants.

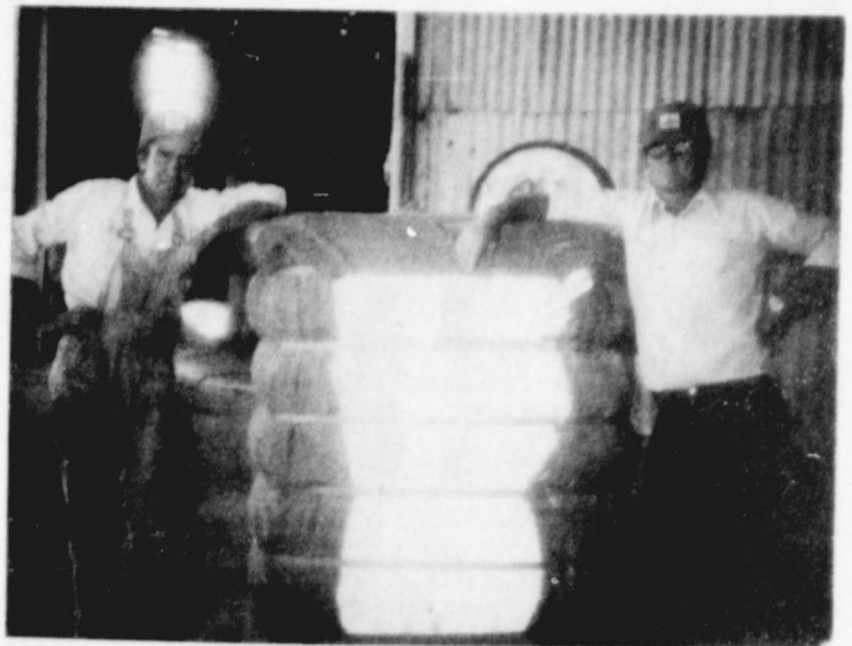

Winners and their divisions

were: Lollipop, 1st place Sis-ty Driscoll; Teen Time, 1st place Mary Smith and 2nd place Jenna Key; Guys and Dolls, 1st place Eldonna McCormack.

School Time winners were Radonna Gilliam 1st place; Shanna Blackstone, 2nd place and Jacque Price 3rd place. Sports, 1st place Jay Lynn Ware, 2nd place, Bonnie Blackstone and tieing for 3rd place were Twylla Blackstock and Brenda Gardner.

Kayla Gardner won first in Sleepy Time and Radonna Gilliam won second place.

Winners in each division will represent Cochran County in the District contest October 25 at Lubbock Christian College. The Last Frontier Cotton Council are sponsors of the county contest.

COCHRAN COUNTY'S FIRST BALE--The first bale of the 1975 cotton crop in Cochran county was turned out Saturday by Thomas (Skinny) Gage, left above, at County Line Gin. Malory Simmacher, right, is the producer. The 541 lb. bale of Stripper 31 cotton was produced from 2,000 lbs. of cotton that was hand-pulled from approximately 2 1/2 acres of ground. Purchaser was Davis Brothers of Plainview who paid 75c per pound and the bale was ginned free of charge.

Agriculture Carrying Load for US Balance Of Trade

Agriculture continues to carry the load as far as the United States' balance of trade is concerned. In fact, it's the only trade area operating "in black." While the U.S. agricultural trade balance had a surplus of \$1.7 billion in 1974, the agricultural trade balance showed a deficit of \$14.7 billion, notes Dr. Russell McDonald, marketing specialist for the Texas Agricultural Extension Service. The U.S. exported \$22 billion worth of agricultural goods last year and imported just over \$10 billion. The increase in exports is due mainly to higher commodity prices, notes McDonald. Agricultural exports for fiscal 1975 were valued at \$21.6 billion. "Agriculture has enjoyed a surplus in the trade balance every year since 1971," says the specialist with the Texas A&M University System. "Except for a \$2 billion surplus in 1973, the agricultural trade balance has had a deficit over the past four years."

Trade balance is the difference between the value of exports and imports in one year of trading.

In 1974 nonagricultural imports were worth \$90 billion while exports were worth \$75 billion, says McDonald. This created a deficit of almost \$15 billion compared to a deficit of only \$8 billion in 1973. Over half this increase in the trade deficit was due to higher oil prices. The import value of petroleum and petroleum products jumped from \$7.6 billion in 1973 to \$24.2 billion in 1974.

Where do the agricultural exports come from?

In 1974 the U.S. exported 58 percent of its wheat crop, 56 percent of the rice crop, more than half the soybean crop and about a third of the tobacco and cotton crops, to name a few, points out McDonald.

"Crops produced on three of every ten acres in this country were shipped abroad last year. As far as Texas is concerned, the production of an estimated one of every four acres goes to markets overseas," notes the economist.

Tips on Wood Finishing

HOW TO TREAT THIRSTY WOOD PANELING

Prefinished wood paneling is one of the easiest wall coverings to maintain. With a minimum of care, you can keep it looking like new for many years.

Just keep in mind that heat is the greatest enemy of wood paneling. Like any wood surface, climate and the drying effect of artificial heat can make paneling look dull, dry and lifeless.

Fortunately, "thirsty" wood paneling is easily remedied with a coating of penetrating resin oil such as Antique Oil Finish by Minwax. Oil application is simple and mistake proof. With a clean lint-free cloth, wipe on a liberal wet coat. Wait until the oil film is tacky and then buff lightly. A single coat will perk up any lackluster prefinished wood. And while you enhance the beauty of your paneling, a penetrating resin oil also provides a hard protective finish that will guard against heat damage in the future.

More handy advice on wood care and finishing is contained in a 16-page booklet, "Tips on Wood Finishing." For a free copy write, Minwax Company, Inc., Dept. PR3, 72 Oak Street, Clifton, N.J. 07014.

About Local Folks

By Dutch Gipson

Visiting with their parents, Mr. and Mrs. E.R. Fincher over the weekend were Faye of Dallas, Mr. and Mrs. Bill Deaver from Lubbock and Mr. and Mrs. Floyd Nesbitt, Kim and Glenn of Levelland.

Guests in the Leonard Coleman home for the weekend were their son, Richard, who is a student at Texas Tech A&M, and three of his friends from College Station.

Miss Rita Kay Bedwell, daughter of Mr. and Mrs. Herman Bedwell of Lubbock, and granddaughter of the late Mrs. W.E. Childs of Morton, underwent major surgery at Highland Hospital in Lubbock Monday. She is reported to have had a successful surgery and will be in intensive care unit for several days and will be hospitalized for some time to three weeks.

Mrs. Lanita Woolam and daughter, returned Wednesday after spending several days with her sister and family, Mr. and Mrs. Mike McCasland, in Dimmitt.

Mrs. Jean Davis is in St. Mary's Hospital in Lubbock. She underwent surgery Wednesday morning.

Mr. and Mrs. Clifford Moore, worthy Patron and Worthy Matron of Morton Chapter #841, returned to Dallas over the weekend after attending General Grand Chapter.

Mrs. Winnie Jordan, former Garza County resident, asked the phone to relay to her many friends her daughter, Norene, with whom she lives, has recently undergone open heart surgery and is doing well.

Guests in the Bill Sayers' home over the weekend were their niece and nephew, Nancy and David Burleson and Jim Cunningham, all students at Texas A&M and Bill's sister, Howard Sayers, from Seattle, Washington.

Mr. and Mrs. Orville Tilger have returned home from a vacation.

October 9, girls and counselors of St. Missionary Baptist Church left Groves to attend the State M.A. Houseparty at Val Verde State Church. State Miss G.M.A.

and Jr. Miss G.M.A. were chosen. Some 800 attended. Attending from Morton were: Mary Jo Hudson, Renee McMaster, Mrs. Phil Knott and Beverley Criswell. The group was joined with eight from Bryan St. Church, Lamesa, for the trip. They returned home Sunday night.

Carlsbad Parks

Assume Winter Visiting Hours

Two Carlsbad area parks have begun fall and winter visitor hours, which will be in effect until next Memorial Day.

At Carlsbad Caverns National Park, the visitor center opens at 8 a.m. and trips into the main cavern are offered continuously from 8 a.m. to 3:15 p.m. daily.

Although Big Room trips which enter the cavern by elevator are being offered until 3:15 p.m. daily, visitors desiring to make the complete three-mile walk-in trip must be at the cavern's natural entrance no later than 2 p.m. in order to have time to complete the trip.

The Living Desert State Park at Carlsbad also is observing the fall-winter schedule with current hours of 9 a.m. to 4:10 p.m. The park is open

Jaclyn Claye

has her say.....

JACLYN CLAYE HAS HER SAY

DEAR JACLYN CLAYE: Many of the letters appearing in your column are really hilarious; this one isn't. For the past three years my husband has been wanting a fibre hull sailboat and this summer we decided to forego the new car that we really needed and buy this boat, instead. Soon, my husband and our three young sons got into the spirit of the thing and they started using nautical terms around the house and everywhere else, for that matter. At first I thought it was pretty cute but now it has slowly driven me crazy. For example: No one goes to the bathroom in our house anymore; now its called the "head". The front porch is the "forward deck" and the backyard is now the "stern". My kitchen has now become the "galley" and my beautiful, expensively decorated front hall is constantly being referred to as the "companionway". My husband joins in on this nonsense, too. We no longer go to bed at night but we rather, "bunk down". The straw that broke the camel's back occurred last week when we had "bunked down" for the night and the captain became more than a little amorous and then "sought permission to come aboard, Sir." Jaclyn, we've been married for almost ten years now and I never believed that I would become the victim of a husband's hobby, but here it is. ENOUGH IS ENOUGH! Signed, WATER WIDOW.

wrong; I'm not condemning discipline, but I hope these so-called "parents" will at least think before hitting a child and remember to hit the right end. Signed, A CHILD ABUSE OBSERVER.

DEAR OBSERVER: The problem is far more complex than it would appear on the surface. There have been some really interesting studies done on why parents beat their children and not always does it stem from plain, primitive savagery. First, most parents who behave in this manner, were themselves beaten as a child and in many cases, its a learned, conditioned response to frustration. As a matter of fact, in some cities there are organized groups of these parents called "Parents Anonymous" and the sole purpose of the organization is to retrain the attitudes of its members, toward child discipline. These are really very intelligent parents who have begun to understand that they have a genuine problem and are trying to correct it. And much of it is psychoneurosis. Each of us, who have had children, have felt the tremendous weight too, but perhaps telescoped far beyond reality to the point where brute force seems to be the only answer. If you are a reader of this column and if you feel that you often physically abuse your child, be certain that he or she will probably abuse your grandchildren in the years to come. And that should be enough to make anybody stop. There are literally dozens of ways to discipline your youngster; beating is the least effective.

DEAR W.W.: The next time the captain "seeks permission to come aboard, Sir", why don't you grab him "amidships", trip him over the "cockpit coaming", brace yourself against the "bow cleat" and push him over the "forward pulpit". You see, one of the problems of being almost forty years of age and married for almost half of that time, is that I've been through it all, before. At our house, daddy sails.

DEAR JACLYN CLAYE: Within the past couple of months I have observed many so-called "parents", in public places, beating their children about the head. Don't these people know that this form of discipline can cause brain damage and loss of hearing? Child abuse has increased over the years, even though there are less children being born every year. I believe something should be done to help these abused children. But what can be done? Also, how many of these "parents" would enjoy being beaten on the head by someone who is 3 or 4 times their size? Is this what they need to make them stop? Don't get me

"Bum Steer"

With mounting impatience, Walters drove for 15 minutes behind a slow-moving truck on a winding road. Finally the truck driver waved him a go-ahead signal.

But as Walters swung out to pass, a car loomed up from the opposite direction. A collision followed, and Walters landed in the hospital with assorted injuries.

In due course, he filed a lawsuit against the trucking firm.

"Their driver gave me a 'bum steer' when he waved me on," Walters charged in a court hearing.

"But it was an innocent mistake," countered the company. "He was just trying to be helpful. Besides, Walters still had the final responsibility for his own driving."

However, the court granted Walters' claim. The court said that the truck driver, having once undertaken to give directions, had to do so with caution.

Courts generally agree. It is worth noting, however, that Walters had no real chance to see the danger ahead. If he had and took a chance anyhow, he might well have been found negligent himself, regardless of the misleading signal from the truck driver.

City Council Votes \$45 Utilities Deposit

★★★ ————— ★★★

ALL FOR THE QUEEN--The senior class girls of Morton High School held a combination garage-sale-rummage sale Saturday on the First State Bank parking lot to raise funds for promotion of

their Halloween Carnival Queen candidate. Business was brisk when this photo was snapped late in the afternoon.

It will be somewhat more painful for renters in Morton to run out on their utility bills from now on. And they will be hit where it hurts the most--right in the pocketbook.

At the regular meeting of the city council Monday night, it was voted unanimously to require a \$45 deposit on the water and gas at the time these utilities are turned on for a renters use. The deposit will be returned, minus any money due the city, at the time the renter moves out.

The action was deemed necessary, according to a city spokesman, in order to stop the growing number who remain here long enough to run up a substantial utilities bill and then leave town without paying.

"With the price of goods and services as they are now, the city is just barely covering its expenses, and we have had to raise the price of our utilities to make ends meet. We just had to take steps to protect our accounts receivable because if we don't collect all that is due, there will come a time soon enough when we will face further increases in rates," City Secretary Elra Oden stated.

A good example of the inflation we are facing is in the \$12,414 in workmens compensation and liability insurance premiums that we approved for payment

County Must Give Minority Voters Assistance At Polls

Absentee Voting

Absentee voting for the November 4 election on the state constitutional amendments began Wednesday and will continue until 5 p.m. Friday, October 31.

All absentee voting will be at the Cochran county clerk's office in the courthouse and absentee ballots for voting by mail may be obtained by writing the county clerk. Mailed-in ballots may be received up until 1 p.m. on election day.

How will Cochran County be affected, if at all, by the 1975 amendment to the Voting Rights Act, requiring communities to adjust their election procedures, under certain circumstances, to provide special assistance to minority voters?

To what extent have the changes in the immigration law, made in 1965, brought this situation to the fore?

The revisions, which eliminated the existing immigration quotas, led to a record inflow of foreign-born into this country. Although most of the newcomers have become

sufficiently familiar with the English language to vote intelligently, some have not.

They are to be assisted under the new regulations, which come into play where more than five percent of the voting age population are members of a single language minority, where

Coffman placed third out of some 380 entries at this year's West Texas Fair. The bank purchased the picture and it is now on display in the Bank's lobby. Coffman sold two other prize winning pictures which he had entered in the fair.

COMMUNITY SERVICE--Bill Smith, left, president of the Cochran County Civil Defense and Weather Watch unit, presents one of two radios purchased by the unit for use in the Morton Fire Department trucks. The radios were purchased in Morton with funds raised in the Bingo concession at the Cochran County Fair. Rex Crawford, Morton Fire Chief, accepted the radios from Smith. In addition to the radios, the unit donated a portion of the funds to each of Morton's Boy Scout troops.

Farm Bureau Meet Slated October 23

The Cochran County Farm Bureau will hold its annual meeting Thursday, October 23, at 8 p.m. in the banquet room of the County Activity Building. Don Newman, Director of Farm Services, will be the guest speaker.

Three County Directors will be elected to replace retiring directors E.C. Hale, Weldon Wynn and Arnold Lamb. There will also be an election of voting delegates to attend the State Convention November 30, December 1, 2, 3 in San Antonio.

Refreshments will be served and door prizes will be given away.

Many Have Had Their Doubts That The United States Would Survive 200 Years of Turmoil

It might be appropriate to take a moment to reflect upon the nature of the American Revolution Bicentennial.

This is to be a several-year celebration of the creation of the American nation two hundred years ago. The approval of the Declaration of Independence on July 4, 1776, is a very good symbolic birthday for this country.

The fact that the Bicentennial comes at a very crucial time today is fitting. As planning for the event began in the 1960's there were a number of

pessimists who believed that we would not survive until the 200th birthday. After all, the turmoil and upheaval of the sixties were so great that many of our social and political institutions were tested to their fullest.

Then, once those events were past we were plunged into domestic corruption, economic uncertainty, and the possibility of environmental destruction and energy scarcity. Again, in the midst of all this many questioned how we could celebrate a national birthday.

Even though most of us would

have preferred not to have lived through those trying times, they may well have shown that a birthday celebration was in order.

When planning for the Bicentennial began, most people assumed that there would be a national extravaganza, probably in Philadelphia, of a world's fair type. However, so many problems surfaced, mostly financial in nature, that nothing developed.

The result was the development of state and local celebrations of America's past.

Since this past summer we have begun to see the results of such planning. The Bicentennial celebrations of a state and local nature offer much promise.

However, we should keep in the forefront of all such celebrations the goal of examining the foundations and ideals of America with the objectives of revering those of value and making more meaningful those that we have not fully implemented.

If the Bicentennial becomes little more than self-glorification and the celebration of relics and artifacts, then we will have missed a golden opportunity to glorify the American dream by making it more meaningful to all Americans.

Texas, in its traditional

fashion, has responded to the Bicentennial in a very positive way. Because the state is so large, it is difficult to get a statewide picture of Bicentennial activities. Much creative thinking is in evidence when one finds that even very small communities, as well as the larger cities, have been designated as Bicentennial communities.

One can hope sincerely that the interest in the American past and ideals will not wane after July 4, 1976. Donald W. Whisenand, history professor-Eastern New Mexico University.

MULE

FROM PAGE ONE

It was good to tie it up and a
son field goal with 45
ons left sent the Tribe into
mission with a 10-7 lead.
Their lead faded fast, however,
the fired-up Mules came back
in a 21-point effort in the third
period to put the game out of
reach. Disaster overtook the
Mules in the form of three quick
 touchdowns by the Mules at the
 19, the 5:45 and the 3:50 minute
 marks of the third period.
The "catch-up" Indians out-
played the Mules in the fourth
period and racked up seven more
 touchdowns with 7:48 remaining, but
 the game by that time was out of
 reach and thus ended 28-17 in
 favor of Muleshoe.
The Mules came out on the long
 end of the total offense stats with
 62 yards rushing and 65 passing
 for a total of 264 yards. Morton
 completed 114 on the ground and 62
 air for a total of 176.
Morton completed four of nine
 pass attempts for 62 yards and
 the Mules were good on three of
 eight for 65 yards.
Morton had one pass
 intercepted to zero for Muleshoe
 and each team lost one fumble.
The Tribe's brightest spot was
 kicking, with four punts for an
 average of 38.2 yards to
 Muleshoe's three for a 31.3
 average.
Morton lost 30 yards in
 penalties to 45 by the Mules.
Sabala again led in rushing for
 the Tribe with 8 carries for 48
 and a 6 yard average.
Moore carried nine times for
 32 yards and a 3.8 average and
 Jimmy Green carried 4 times for
 12 yards and a 3 yard average.
Cited for their outstanding
 performances this week by Coach
 Winters were Allan Steed,
 on offense; Jimmy Green,
 standing on defense and Ricky
 Carter, top specialist.
Morton will open district play
 at home Friday night when they
 meet the Olton Mustangs, the pre-

season pick for the district
championship.

METHODIST

FROM PAGE ONE

Since 1969 Armstrong has
served as Conference Mis-
sionary for church extension
and community development in
Siantar, Sumatra. His duties
include assisting unordained
local pastors all over North
Sumatra, as well as helping
to dig wells, build churches
and solve agricultural prob-
lems. He serves on General
Conference and Annual Con-
ference Boards, and helped
in the writing of the Indonesia
Methodist Discipline which
was accepted at the General
Conference in 1973.
Mrs. Armstrong works in
villages in the areas of health
and hygiene, and other social
work. During their ministry
in Indonesia and the U.S.,
the Armstrongs have been fos-
ter parents to twenty-four
children. They have three
grown children of their own.
The Rev. Royce Womack,
host pastor, extends a cordial
invitation to all area
residents to attend both the
dinner and services.

COUNTY

less than half the citizens of
voting age cast ballots in the 1972
Presidential election and where
the illiteracy rate is more than

4.6 percent.

The special assistance,
specified by the Justice
Department, includes furnishing
bi-lingual election materials and
special monitors at polling
places.

In Cochran County, according
to the latest Census Bureau
statistics, 2.1 percent of the
population is foreign-born.

This compares with 4.9
percent in the United States as a
whole and with 2.8 percent in the
State of Texas.

Conversely, the great bulk of
the local population, 90.4 percent
of it, consists of native-born
Americans with a history that
goes back three generations or
more in this country.

The Census Bureau and the
Justice Department have
released the names, to date, of
localities in several states where
the special help to minorities and
illiterates will have to be
supplied. Determinations are
being made as to the remaining
states. They will be announced
later.

The figures show that the
illiteracy rate in the local area,
defined as the percentage of the
adult population with less than
five years of schooling, is
relatively low. Some 13.2 percent
fall within that classification.

COCHRAN COUNTY'S FIRST BALE--The first bale of the 1975 cotton
crop in Cochran county was turned out Saturday by Thomas (Skinny)
Gage, left above, at County Line Gin. Malory Simnacher, right, is the
producer. The 541 lb. bale of Stripper 31 cotton was produced from
2,000 lbs. of cotton that was hand-pulled from approximately 2 1/2 acres
of ground. Purchaser was Davis Brothers of Plainview who paid 75c
per pound and the bale was ginned free of charge.

**Agriculture Carrying Load
for US Balance Of Trade**

Agriculture continues to
try the load as far as the
United States' balance of trade
concerned. In fact, it's the
trade area operating "in
black."
While the U.S. agricultural
trade balance had a surplus of
\$1.7 billion in 1974, the
agricultural trade balance
showed a deficit of \$14.7 billion,
notes Dr. Russell McDonald,
marketing specialist for the
Texas Agricultural Extension
service.
The U.S. exported \$22 billion
worth of agricultural goods last
year and imported just over \$10
billion. The increase in exports
is due mainly to higher
commodity prices, notes
McDonald.
Agricultural exports for fiscal
1975 were valued at \$21.6 billion.
"Agriculture has enjoyed a
surplus in the trade balance
every year since 1971," says the
specialist with the Texas A&M
University System. "Except for a
\$2 billion surplus in 1973, the
agricultural trade balance
has had a deficit over the past
four years."

Trade balance is the difference
between the value of exports and
imports in one year of trading.
In 1974 nonagricultural
imports were worth \$90 billion
while exports were worth \$75
billion, says McDonald. This
created a deficit of almost \$15
billion compared to a deficit of
only \$8 billion in 1973. Over half
this increase in the trade deficit
was due to higher oil prices. The
import value of petroleum and
petroleum products jumped from
\$7.6 billion in 1973 to \$24.2
billion in 1974.
Where do the agricultural
exports come from?
In 1974 the U.S. exported 58 per
cent of its wheat crop, 56 per cent
of the rice crop, more than half
the soybean crop and about a third
of the tobacco and cotton crops,
to name a few, points out McDonald.
"Crops produced on three of
every ten acres in this country
were shipped abroad last year.
As far as Texas is concerned,
the production of an estimated one
of every four acres goes to mar-
kets overseas," notes the econ-
omist.

Tips on Wood Finishing

HOW TO TREAT THIRSTY WOOD PANELING
Prefinished wood paneling is one of the easiest wall-
coverings to maintain. With a minimum of care, you can
keep it looking like new for many years.
Just keep in mind that heat is the greatest enemy of
wood paneling. Like any wood surface, climate and the
drying effect of artificial heat can make paneling look
dull, dry and lifeless.
Fortunately, "thirsty" wood paneling is easily remedied
with a coating of penetrating resin oil such as Antique
Oil Finish by Minwax. Oil application is simple and mis-
take proof. With a clean lint-free cloth, wipe on a liberal
wet coat. Wait until the oil film is tacky and then buff
lightly. A single coat will perk up any lackluster pre-
finished wood. And while you enhance the beauty of your
paneling, a penetrating resin oil also provides a hard pro-
tective finish that will guard against heat damage in the
future.
More handy advice on wood care and finishing is con-
tained in a 16-page booklet, "Tips on Wood Finishing."

About Local Folks

By Dutch Gipson

Visiting with their parents, Mr. and Mrs. E.R. Fincher over the weekend were Faye of Dallas, Mr. and Mrs. Bill Deaver from Lubbock and Mr. and Mrs. Floyd Nesbitt, Kim and Glenn of Levelland.

Guests in the Leonard Coleman home for the weekend was their son, Richard, who is a student at Texas Tech A&M, and three of his friends from College Station.

Miss Rita Kay Bedwell, daughter of Mr. and Mrs. Herman Bedwell of Lubbock and granddaughter of the late Mrs. W.E. Childs of Lubbock, underwent major surgery at Highland Hospital in Lubbock Monday. She is reported to have had a good recovery and will be in intensive care unit for several days and will be hospitalized for some time to three weeks.

Mrs. Lanita Woolam and daughter, Heather, returned Wednesday after spending several days with her sister and family, Mr. and Mrs. Mike Casland, in Dimmitt.

Mrs. Jean Davis is in St. Mary's Hospital in Lubbock. She underwent surgery Wednesday morning.

Mr. and Mrs. Clifford Moore, Parish Patron and Worthy Matron of the Morton Chapter #841, returned from Dallas over the weekend after attending General Grand Chapter.

Mrs. Winnie Jordon, former Sherman County resident, asked the county to relay to her many friends that her daughter, Norene, with whom she lives, has recently undergone open heart surgery and is doing well.

Guests in the Bill Sayers' home over the weekend were their niece Josephine, Nancy and David Burleson and Jim Cunningham, all students at Texas A&M and Bill's brother, Howard Sayers, from Seattle, Washington.

Mr. and Mrs. Orville Tilger have returned home from a vacation.

October 9, girls and counselors of the Missionary Baptist Church left for Groves to attend the State A.A. Houseparty at Val Verde Baptist Church. State Miss G.M.A.

and Jr. Miss G.M.A. were chosen. Some 800 attended. Attending from Morton were: Mary Jo Hudson, Renee McMaster, Mrs. Phil Knott and Beverley Criswell. The group was joined with eight from Bryan St. Church, Lamesa, for the trip. They returned home Sunday night.

Morton School Menu

TUESDAY: Pizza Squares, tossed green salad, buttered green beans, cream cherry with topping, and milk.

WEDNESDAY: Hamburger on Bun, lettuce and tomatoes, french fries, apricot cobbler, relish, and milk.

THURSDAY: Chicken Pot Pie, whipped potatoes, waldorf salad, apple sauce cake, rolls, and milk.

FRIDAY: Beef Tacos, baked beans, tomato salad, sliced peaches, cornbread, and milk.

Carlsbad Parks

Assume Winter

Visiting Hours

Two Carlsbad area parks have begun fall and winter visitor hours, which will be in effect until next Memorial Day.

At Carlsbad Caverns National Park, the visitor center opens at 8 a.m. and trips into the main cavern are offered continuously from 8 a.m. to 3:15 p.m. daily.

Although Big Room trips which enter the cavern by elevator are being offered until 3:15 p.m. daily, visitors desiring to make the complete three-mile walk-in trip must be at the cavern's natural entrance no later than 2 p.m. in order to have time to complete the trip.

The Living Desert State Park at Carlsbad also is observing the fall-winter schedule with current hours of 9 a.m. to 4:10 p.m. The park is open

Jaclyn Claye

has her say

JACLYN CLAYE HAS HER SAY

DEAR JACLYN CLAYE: Many of the letters appearing in your column are really hilarious; this one isn't. For the past three years my husband has been wanting a fibre hull sailboat and this summer we decided to forego the new car that we really needed and buy this boat, instead. Soon, my husband and our three young sons got into the spirit of the thing and they started using nautical terms around the house and everywhere else, for that matter. At first I thought it was pretty cute but now it has slowly driven me crazy. For example: No one goes to the bathroom in our house anymore; now it's called the "head". The front porch is the "forward deck" and the backyard is now the "stern". My kitchen has now become the "galley" and my beautiful, expensively decorated front hall is constantly being referred to as the "companionway". My husband joins in on this nonsense, too. We no longer go to bed at night but we rather, "bunk down". The straw that broke the camel's back occurred last week when we had "bunked down" for the night and the captain became more than a little amorous and then "sought permission to come aboard, Sir." Jaclyn, we've been married for almost ten years now and I never believed that I would become the victim of a husband's hobby, but here it is. ENOUGH is ENOUGH! Signed, WATER WIDOW.

seven days a week.

The park offers visitors an opportunity to see one of the most complete cacti and desert plant exhibits in the world and to view a large collection of animals and reptiles native to the desert and mountain southwest.

Carlsbad Caverns National Park also is offering primitive lantern tours of New Cave in the Slaughter Canyon area this winter. They will be held at 9:30 a.m. and 1:30 p.m. on Saturdays and Sundays only until spring. For New Cave trip reservations, visitors should telephone (505) 785-2233.

wrong; I'm not condemning discipline, but I hope these so-called "parents" will at least think before hitting a child and remember to hit the right end. Signed, A CHILD ABUSE OBSERVER.

DEAR OBSERVER: The problem is far more complex than it would appear on the surface. There have been some really interesting studies done on why parents beat their children and not always does it stem from plain, primitive savagery. First, most parents who behave in this manner, were themselves beaten as a child and in many cases, it's a learned, conditioned response to frustration. As a matter of fact, in some cities there are organized groups of these parents called "Parents Anonymous" and the sole purpose of the organization is to retrain the attitudes of its members, toward child discipline. These are really very intelligent parents who have begun to understand that they have a genuine problem and are trying to correct it. And much of it is psychoneurosis. Each of us, who have had children, have felt the tremendous weight too, but perhaps telescoped far beyond reality to the point where brute force seems to be the only answer. If you are a reader of this column and if you feel that you often physically abuse your child, be certain that he or she will probably abuse your grandchildren in the years to come. And that should be enough to make anybody stop. There are literally dozens of ways to discipline your youngster; beating is the least effective.

DEAR W.W.: The next time the captain "seeks permission to come aboard, Sir", why don't you grab him "amidships", trip him over the "cockpit coaming", brace yourself against the "bow cleat" and push him over the "forward pulpit". You see, one of the problems of being almost forty years of age and married for almost half of that time, is that I've been through it all, before. At our house, daddy sails.

DEAR JACLYN CLAYE: Within the past couple of months I have observed many so-called "parents", in public places, beating their children about the head. Don't these people know that this form of discipline can cause brain damage and loss of hearing? Child abuse has increased over the years, even though there are less children being born every year. I believe something should be done to help these abused children. But what can be done? Also, how many of these "parents" would enjoy being beaten on the head by someone who is 3 or 4 times their size? Is this what they need to make them stop? Don't get me

"Bum Steer"

With mounting impatience, Walters drove for 15 minutes behind a slow-moving truck on a winding road. Finally the truck driver waved him a go-ahead signal. But as Walters swung out to pass, a car loomed up from the opposite direction. A collision followed, and Walters landed in the hospital with assorted injuries.

In due course, he filed a lawsuit against the trucking firm.

"Their driver gave me a 'bum steer' when he waved me on," Walters charged in a court hearing.

"But it was an innocent mistake," countered the company. "He was just trying to be helpful. Besides, Walters still had the final responsibility for his own driving."

However, the court granted Walters' claim. The court said that the truck driver, having once undertaken to give directions, had to do so with caution.

Courts generally agree. It is worth noting, however, that Walters had no real chance to see the danger ahead. If he had and took a chance anyhow, he might well have been found negligent himself, regardless of the misleading signal from the truck driver.

Beef Short Course Slated At Three Way High School

A beef production short course for adult farmers will be held October 20-23 under the sponsorship of the Three Way High School Vocational Agriculture Department according to J.H. Jackson, Superintendent, and Jerry Lee, Teacher of Vocational Agriculture.

Dr. Elmer V. Krehbiel, Beef Production Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Animal Science at Texas A&M University, will be the instructor for the course. He is headquartered at Texas A&M University.

Dr. Krehbiel is a native of Oklahoma. As a farm boy and FFA member, he had shown livestock and won many awards, including championships at the Southwestern Livestock Exposition in Ft. Worth and at the American Royal Livestock Show in Kansas City.

He has a strong background in animal production and genetics. He received a B.S. degree from Oklahoma State University in 1950, and a Ph.D. degree from Virginia Polytechnic Institute in 1966. His graduate studies were based on selection for type and reproductive performance of cow herds.

Between periods of formal training, Dr. Krehbiel worked with the beef

cattle industry as artificial insemination technician, beef cattle herdsman and ranch manager in Oklahoma. He also served as beef cattle research assistant in Arkansas, and animal geneticist for the USDA at Miles City, Montana. For the past two years prior to joining the Agricultural Education Specialist Program, he served as Area Livestock Extension Agent in Ohio.

The short course at Three Way is scheduled to begin October 20 at 7:30 p.m. in the Vocational Agriculture Building. Other meetings in the series of four will be held Oct. 21, 22, and 23. During the dates the short course is in progress, Dr. Krehbiel will be available to assist cattlemen with individual problems and to provide on-the-farm instruction, according to Lee.

Cattlemen interested in attending the short course should write or call the superintendent of schools, Mr. Jackson, or the teacher of vocational agriculture, Mr. Lee. An entry fee of \$30.00 will be charged.

Beef Production Short Course certificates will be presented to each cattlemen who attends all the training sessions.

Dr. Krehbiel states that the field of beef cattle production must take a close look at efficiency of production

in the future. With land prices, feed, and taxes rising, the producer is meeting more and more competition for the consumer's dollar at the meat counter. From the economic view of the beef cattle business, there is every indication that in comparing the producer of yesterday and the producer of tomorrow, beef must be produced more efficiently in order to be a profit-making business. Dr. Krehbiel indicates that the beef production short course will deal with

methods of producing beef at a lower cost and the ways of producing the kind of beef that the homemaker wants to buy. He also states that the course will include such important topics as cattle reproduction and pregnancy diagnosis, selecting bulls and replacement heifers, calf crop percentages, and supplemental winter feeding. The course can be changed to meet the wishes and interests of the farmers and ranchers enrolled.

Soil Testing Recommended By County Agent

Fertilizer supplies are increasing so that farmers should have a better selection of fertilizer materials to use this fall. But it's still all important to have a guide for applying fertilizer, and such a guide comes only from a soil test, emphasizes Roy Jones, county agent for the Texas Agricultural Extension Service.

The agent suggests that now is an excellent time to collect soil samples and to submit them for testing. Containers and instructions for submitting soil samples are available at the

county Extension office. Based on a soil test, a sound fertilization program can be developed for the coming crop year.

Such a program will be increasingly important in the months ahead. Under present economic conditions, low yields are not profitable, and fertilization, at least with nitrogen is generally necessary for profitable yields. Yet, the need for each plant nutrient and its potential profitability should be closely evaluated.

IS THE CHURCH PART OF YOUR LIFE?

Many of us grew up with pictures of caravans crossing the sands of the Sahara. Those in the West know that the desert has many faces. One of our common mistakes in life is to assume that trees make a forest, flowers a garden, clothes a man that appearances promise reality. One of the invaluable influences of Christianity upon society has been its distinction between the facade and the truth. Christ taught that men must be known by their faith. Lack of spiritual concern is the surest way to make the world a desert of trees—a society of people without a sense of responsibility. Westlands cry out for reclamation. The Church Christ founded is reclaiming our society for Him. You need His Message.

Looking Back

25 Years Ago

Wednesday was "I" Day for three more Cochran County youths as Edward Neagle, Joe Brock and Weldon Merritt reported to the Muleshoe Draft Board for induction into the armed forces.

Cochran County's first bale of cotton of this crop was ginned by Morton Coop Gin last Friday as Syl Greener became the possessor of a 500 lb. bale.

H.S. Hawkins, owner, operator of Hawkins grain elevator at Lehman for the past eight years, announced the sale of the elevator this week. New owners are Charles Bucy and Ralph Burt of Whiteface.

Cochran County's first bale of cotton will be auctioned to the highest bidder here on the Court House square, Saturday afternoon at 4 p.m. according to the Chamber of Commerce Directors.

Mrs. J.A. Gowdy, her daughter, Mrs. M.C. Ledbetter and two daughters, Mary Lee and Vivian Ann, spent last Saturday in Lubbock. The two little girls had fun riding the "moving steps" (escalators) in Hemphill-Wells new store.

A fifteen year old Morton High School junior, Miss Joyce Ramsey, has been selected as Cochran County's Gold Star 4-H Club girl.

FHA members under direction of Mrs. Murray Crone and Miss Essie Denney, had a fine idea last Saturday when they donned work clothes and solicited jobs at 50 cents an hour. We understand the various members made quite a bit of money, which will be used in buying equipment for

the Homemaking department. **15 Years Ago**
Sterling Bros. Circus of Alamos came to Morton October 5 under the sponsorship of the Morton Lions Club.

Frontier Bowling Lanes, Inc., opened its doors to bowlers this past weekend, and before the lanes were a week old, members of four leagues had already bowled games in practice sessions.

An early morning hail storm east of Morton, Thursday, cost several farmers hundreds of acres of cotton and damaged grain and blackeyed pea crops.

Jesse Jackson, who has been with the SCS here since January 1959 as a soil conservationist, has been promoted to work unit conservationist at Plainview.

Who said tobacco wouldn't grow in Cochran County? The M.L. Doyles have proven tobacco grows in Cochran County, right in the back yard. They have leaves that are 24 inches in length and 14 inches in width.

The new 1961 Chevrolet automobiles will go on display Friday at Allsup-Reynolds Chevrolet Co. In connection with the showing of the new styles, Don Allsup and J.C. Reynolds will observe "grand opening" Friday and Saturday.

Arlan Haralson, son of Mr. and Mrs. J.W. Haralson, placed 7th in the district competition in Lubbock last Saturday. Arlan had a pig competing in the District 4-H Sears Gilt Show.

Sam Cervantez laid low what

most folks would term a huge rattlesnake Thursday afternoon on the Granville Lasiter farm just west of the game preserve. The snake had 11 rattlers.

Couple Celebrates 50th Anniversary

Mr. and Mrs. Olin B. Coats were honored Sunday, October 12 on their fiftieth wedding anniversary in the Community Activity building in Morton. The former Margie Spivey and Olin Coats were married on October 10, 1925 in Tolbert. They moved to their present home from Chillicothe in 1932.

Host for the reception were the couple's children, Mr. and Mrs. Jim Coats of Lubbock, Mr. and Mrs. Alfred Coats of Gause and Mr. and Mrs. Charlie Money of Odessa. The couple's eight grandchildren and six great grandchildren also assisted.

The reception area was decorated with Tyler Roses and greenery, accented by a floral archway. The registration table was covered with a beige crocheted lace table cloth made and given to Mrs. Coats by her mother in 1935. Fifty gold organdy roses in a family heirloom vase, dating back to the early 1800's, graced the reception table. On display was a painting given to the couple by their children.

Coats is engaged in farming north of Morton and Mrs. Coats owns and operates Modern Beauty Shop.

Over one hundred family members, friends and neighbors attended the reception.

Sportsmen Will Need Sandhill Crane Permit

Sandhill crane hunting has been popular in West Texas since the first season in 1961, but this year sportsmen will need a permit to hunt the elusive cranes.

A federal crane permit will be required of anyone taking or attempting to take sandhill crane. This free permit can be obtained by sending a written request to the Texas Parks & Wildlife Department, John H. Reagan Bldg., Austin, Texas 78701.

Texas along with eight other states and two Canadian provinces have a sandhill crane season this fall. Much information about the population of cranes, the numbers bagged each season and survival rates are still being collected by both state and federal waterfowl biologists. The required crane permit will provide a mailing list for a post-season survey to furnish additional information on the number of hunters and birds they bag during the 1975-76 season and help biologists set seasons and bag limits next year.

The sandhill crane season will open October 25, 1975 in Zone A, an area west of a line from Del Rio north along U.S. 277 to San Angelo and then along U.S. 87 north to Amarillo and north along U.S. 287 to the Oklahoma state line. The season in Zone A will close January 25, 1976.

Zone B crane season will open November 29, 1975 and close January 25, 1976. This area is east of Zone A and west of a line from San Angelo north along U.S. 277 to Albany and north along U.S. 283 to Vernon and north to the Oklahoma state line.

Daily bag limits for both Zones will be three birds and a possession limit of six.

Shooting hours for crane are one-half hour before sunrise to sunset daily. Check these exact times in your local newspaper.

Sandhill crane hunters are not required a federal migratory waterfowl stamp but many sportsmen combine crane hunting with duck or goose hunting and this stamp will be required of all duck and goose hunters.

Firearms legal for ducks or geese are legal for crane and

Elizabeth Greer Circle Meeting

Mrs. Don Richardson hosted the Elizabeth Greer Circle meeting Tuesday afternoon.

Mrs. Floyd Rowland was named circle chairman and Mrs. Owen Egger will be assistant chairman for the coming year.

Mrs. Bobby Adams continued the study of Southeast Asia by giving a report on the Loation people. Mrs. Rowland sang scriptures from the Bible which she had set to music and Mrs. Loy Kern shared some scriptures.

Attending were: Mmes. Egger, Bill Laller, J.N. Burnett, Rowland, Nath Crockett, James Whitehead, Kern, Allie Reeves, Adams and Richardson.

The next meeting will be held October 28 at 2:30 p.m. in the home of Mrs. Whitehead.

Mrs. McClure Hosts Meeting

The Y.M. Study Club met in the home of Mrs. Bill McClure October 9. Mrs. Dexter Nebhut presented the program on "Circuit Riders and Saddlebag Preachers."

Mrs. Nebhut stated that these pioneer personalities contributed much to early Texas history and added that they performed many deeds other than preaching the Word of God. She concluded by saying, "The circuit rider was often selected because of his enthusiasm and his ability to "exhort" rather than for his religious training."

Mrs. Ralph Ware presided over the business meeting. Roll call was answered with "Show and Tell", with each member showing and explaining a household antique.

The Federation Report was given by Mrs. Nebhut.

Others attending the meeting were: Mmes. Max Clark, Truman Murdock, Dalton Redman, and Robbie Key.

include shotguns smaller than 10 gauge plugged to a three-shell capacity including the chamber and magazine.

Food Stamp Fraud

WASHINGTON—Scandalously loose federal regulations are taking food from the mouths of the needy and giving it, at taxpayers' expense, to the undeserving.

The federal food stamp program has degenerated into a gigantic boondoggle. What began 10 years ago as a modest federal project funded at \$40 million has mushroomed into a fiscal monster that will devour \$5 billion of the taxpayers' money this year.

Use of food stamps has increased from one of every 439 Americans in 1965 to one of every 13 Americans today, and the growth of the program is likely to be even more astronomical in the future. Under present regulations, one of every four Americans is eligible for food stamps, and that could easily grow to one of every three Americans.

Under present regulations: —Some able-bodied persons who do not want to work can get food stamps;

—Owners of jewelry, furs and luxury appliances can get food stamps;

—Minor children can get food stamps without parental consent or control.

Enough is enough. It is time to put a halt to the flagrant abuses of the food stamp program.

I have joined with Sen. James Buckley (R-N.Y.) and nearly 70 other members of the Senate and House in sponsoring the National Food Stamp Reform Act. Our bill would save taxpayers at least \$2 billion each year, while at the same time increasing benefits to genuinely needy food stamp recipients by as much as 29 percent.

The National Food Stamp Reform Act contains 41 separate provisions to reduce the overall cost of the program by eliminating fraud and abuse and by redefining eligibility requirements.

Administration of the food stamp program would be transferred from the Department of Agriculture to the Department of Health, Education and Welfare in order to eliminate costly administrative duplication in the welfare system.

Among the reforms the bill would make are:

—Use of federal government indices to set cut-off points for food stamp eligibility;

—Elimination of the present complicated system of income deductions which makes it possible for families making as much as \$20,000 a year to be eligible for food stamps;

—Denial of food stamp eligibility to able bodied persons without small children who are not willing to work, and

—Establishment of accurate monthly reviews to determine whether a food stamp recipient should retain his eligibility.

At the same time, the National Food Stamp Reform Act would significantly expand nutritional assistance. Millions of poor people would benefit directly. The food stamp allotment of each recipient would be immediately increased by 29 percent, and the elderly, who are least able to defend their pocketbooks from the ravages of inflation, would be given special consideration.

Award Winners Announced In Flower Design

Awards for the flower show Design Division at the Cochran County Fair were announced this week.

Blue ribbon awards went to Mrs. Helen Crone for her "Spirit of '76" design; Mrs. Vanita Scoggins "Mexican Fiesta"; "Southern Hospitality" by Mrs. Allene Samford and "Barn Dance" by Rita Thomas.

Mrs. Yvonne Egger's "The French Connection" won a red award and white awards went to Mrs. Joyce Simmacher's "The First American" and Mrs. Hattie Darland's "Nature's Gifts".

Only Garden Club members participated in the Design Division. They were judged by National Flower Show standards and judges.

Texas Ethnic Cultures Program For Jr. Club

"Of all the ethnic groups that have had a part in Texas' growth, the most dominant is the Mexican. The Mexican people, derived from the Spanish marrying the Indians in Mexico, carried over the Spanish language and religion," stated Mrs. J.W. Tyson at the Emlea Smith Junior Study Club meeting held in the home of Mrs. Edward Pruitt, on October 9.

Mrs. Tyson also stated other groups having a great effect on Texas culture were the Spanish, German, French, Belgian, Jewish, Irish, and Italian immigrants. She also reminded members that the Indians were responsible for some of the customs, but were given very little credit. Mrs. Gene Cox introduced the program.

Mrs. Jimmy Roddy led the members in the Club Collect and Mrs. Ray Luper gave the Treasurer's Report.

Mrs. Randy Thomas saluted Mrs. Gene Cox as a good member and the club members showed their appreciation.

Mrs. Luper gave the Bicentennial Reflection, a report on Columbus Day.

Mrs. Day O'Brien gave a department report on The Arts. She explained that there were many different parts, one of these being crafts. She demonstrated how to make a decorative vase out of a plastic container and presented it to Mrs. Cox as a door prize.

Mrs. Thomas gave a department report on Home Life. She stressed being a good consumer and homemaker.

Mrs. Roy Jones and Mrs. Glenn Thomason were accepted into the club as new members.

The next meeting will be held in the home of Mrs. O'Brien on October 23. The program will be "The Big Hunt" presented by Mrs. Jenny B. Denny. Members present were:

Mmes. Brad Johnson, Thomas, Steve Crockett, Loy Kern, Roddy, Charles Marina, Pruitt, Luper, Willie Cheek, Tyson, O'Brien, James St. Clair, and Jones.

Guests attending were Mrs. Leslie Mac Dendy, Mrs. Billy Smart, and Mrs. Dale Harrington.

Fair Association Elects Officers

The Cochran County Fair Association met Friday at 8 p.m. in the Fair Building for an election of officers.

Larry Starnes was elected president. Serving with him will be Maurice Lewallen, vice president and Alta Studdard, secretary-treasurer.

Mrs. Kitty Lewallen, Mrs. Studdard and Mrs. Larry Starnes will serve on the concession stand committee. Larry Starnes, J.W. Duncan and Maurice Lewallen will serve on the building rental committee.

Fair Association directors are: Starnes, Mr. and Mrs. Lewallen, Mrs. Studdard, Mr. and Mrs. Paul Lawlis, Mr. and Mrs. Eddie Silhan, Mrs. Gall Gladden, Rex Crawford, Mrs. Chris Bell, Don Bales, Mrs. Jimmy St. Clair, Mr. and Mrs. Duncan and Judge Glenn Thompson.

Anyone wishing to rent the Fair Building may contact any member of the Building Committee.

Couple Exchanges Vows In Levelland Ceremony

Miss Theresa Trull became the bride of Ricky McMaster in a double ring ceremony at 7:30 p.m. October 10 in the home of the bride's parents in Levelland. The Rev. Jerry Allen officiated.

Mr. and Mrs. Dale Trull of Levelland are the parents of the bride and Mrs. Jolene McMaster of Levelland and Kenneth McMaster of Morton are parents of the groom.

The bride wore a formal gown of blue and white chiffon and carried out tradition with something old, borrowed and blue. She wore pennies, minted in the year of the couple's birth, in her shoe.

Mrs. Donna Johnson of Morton served as matron of honor and Jack Benham of Morton served as best man.

A reception was held following the ceremony. The serving table held a Unity Candle which the couple lit after cutting a three-tiered wedding cake, topped with a miniature bride and groom.

Miss Donna Trull and Mrs. Ricky Kent, sisters of the bride,

registered guests and served at both the bride and groom's tables.

Mr. and Mrs. McMaster are both graduates of South Plains College in Levelland. They are making their home at the Morocco Apartments in Lubbock where he is employed by McMaster Furniture Company and Mrs. McMaster is a student at Texas Tech University and employed by Penny's in South Plains Mall.

Honored guests at the wedding were: Mrs. Clara Hearn of Levelland, grandmother of the bride, Mrs. Laverne McMaster of Morton and Mr. and Mrs. Merle Hardy of Burleson, grandparents of the groom.

Other guests were: Mrs. Earl Allen, Robert Allen, Mrs. Marlene Henricks, Mike, David and Phillip of Lubbock, Mr. and Mrs. Dale Trull and Donna, Mr. and Mrs. Rickey Kent, Mrs. Jolene McMaster and Steve, Miss Linda Allen and Mr. and Mrs. C.D. Trull of Levelland, Mr. and Mrs. Kenneth McMaster, Mickey and Donald of Morton.

PARENTS GET INVOLVED WITH THE SCHOOL PROGRAM as they volunteer to prepare a snack of sopapillas for kindergarten and the 4 year old migrant program. Mrs. Rachael Morales is pictured following the preparation of sopapilla dough with the help of teacher, Charlene Houk and students. Parents are always welcome to share cultures and children are happy when their mothers become the "teachers".

Sixteen textile leaders representing nine Far Eastern countries which in 1973-74 bought 2.9 million bales of U.S. cotton, will be in Lubbock October 15 and 16 to study High Plains cotton production, processing, merchandising and research facilities.

Officials of Plains Cotton Growers, Inc., Lubbock-based cotton producer organization, point out that the nine countries accounted for over one half of all U.S. cotton exports in 1973-74, and that an estimated 1.9 million bales of their purchases were of cotton stapling one inch or under, largely from the High and Rolling Plains of Texas.

PCG is coordinating the foreigner's activities in the Lubbock area, furnishing transportation for tours and hosting luncheon meetings on October 15 and 16. Members of the Lubbock Cotton Exchange, an organization of cotton merchants, is issuing individual dinner invitations to the visitors on the evening of October 15 and LCE will sponsor a breakfast on October 16.

Countries represented by one or more key textile people include Bangladesh, Hong Kong, India, Indonesia, Japan, Malaysia, Philippines, Thailand and Taiwan.

The two-day Lubbock call is part of the 1975 Cotton

Orientation Program sponsored by the National Cotton Council, Cotton Council International and the Foreign Agriculture Service of the U.S. Department of Agriculture. The group will also stop in El Paso and Dallas in Texas after visiting in California, Arizona and Las Vegas, Nevada. From Lubbock, the tour goes to Louisiana, Mississippi and Tennessee.

In Lubbock the foreign delegation will see the Textile Research Center at Texas Tech University, the instrument classing line and merchandising facilities of Plains Cotton Cooperative Association, Plains Cooperative Oil Mill, and the Texas A&M Research and Extension Center.

Far Eastern and European spinners who came to Lubbock on the cotton orientation tours of 1973 and 1974 showed special interest in open-end spinning research being done at the Textile Research Center to improve and broaden the advantages of High Plains cotton on this rapidly expanding spinning system.

"Open-end spinning is being installed in textile mills around the world as fast as machinery becomes available," stated PCG Executive Vice President Donald Johnson, "and again this year we will make our open-end spinning research a featured part of the orientation program itinerary."

Hunters Urged To Plan Field Trips Carefully

With the approach of fall hunting seasons, Texas sportsmen should begin making preparations for their trips afield.

"This not only means marking hunting dates on a calendar and contacting landowners about hunting leases but getting field gear and 'desk chair physiques' ready for the hunting adventures ahead," says a wildlife specialist for the Texas Agricultural Extension Service.

Firearms which have been stored since the last hunting season should be cleaned and checked. In fact, stored guns should be checked every month or so for signs of rust or dust accumulation, particularly if they are kept where temperature and humidity conditions are variable. Special attention should be given to cleaning the bore and making sure the action works smoothly, emphasizes Dr. Milo Shult, who is located at the Texas A&M Agricultural Research and Extension Center at Uvalde.

He also advocates carefully sighting in rifles and handguns. "Even if the hunter feels sure that a gun has not been bumped or jarred since the last firing, it is a good policy to double check. This will not only prevent disappointment over a missed shot but will also get the shooter used to the 'feel' of his weapon again."

Center-fire rifles should be sighted in using the bullet weights and powder charges which the hunter expects to use in the field. Sighting distances are determined by the type of game to be hunted and the terrain where the hunt takes place. As a rule of thumb, shot groupings from 50, 100 and 200 yards will prepare the hunter for most situations, notes Shult.

"The good hunter does not fire one or two rounds and decide that he and his rifle are ready to go. The expense of firing a box or two of ammunition while sighting a rifle in is easily justified by the confidence the hunter will gain in his weapon and his shooting ability."

Handgun buffs should also spend some time "burning powder" on the range before taking to the field. Generally speaking, handguns should be sighted in for distances up to 60 yards. It takes dedicated pistol shot to be consistently accurate at greater distances. Remember, range safety is of critical importance with all firearms but especially so with handguns, cautions the specialist.

For shotgun enthusiasts, Shult advises a little trap or skeet shooting and "patterning" the shotgun. This is easily accomplished by firing at large sheets of paper or cardboard at distances of 15, 25 and 50 yards. The grouping of pellet holes on the paper lets the hunter know how his weapon performs at those distances with whatever load he is using.

Another good plan with double barrel, slide-action and semi-automatic shotguns is to fire more than one round to get used to getting off a second or even third shot, Shult points out.

Archers should be getting ready to hunt by carefully checking their equipment, sharpening broadheads and practicing with silhouette field targets. These targets, especially those which are life size, get the archer accustomed to firing at "vital spots" rather than just "at the deer."

"Most hunters carry some type of a cutting tool for dressing game. These knives, hand axes or bone saws should be examined carefully and sharpened. A dull knife in the field is not only frustrating but also is more dangerous than a properly honed one," notes the wildlife specialist.

Checking wearing apparel well in advance of the day it is needed will also add to the comfort of the hunt.

Clothing with snags or tears from last season needs repair. Footwear is especially important as a painful blister can ruin an otherwise enjoyable hunting experience. Boot stitching should be checked, and the leather should be oiled or treated for comfort and protection. Break in new boots around the house before starting out on a long day's hunt.

"In addition to checking his gear, the smart hunter prepares himself physically for the field. Many of us work at jobs which don't allow us to stay in shape for our once-a-year hunting trips. Perhaps the best solution is to start early with sensible exercise. This may mean just walking every day or it may include jogging and dieting off a few pounds for the hunter who will pursue game which requires strenuous effort."

"Remember, more hunters die from heart attacks brought on by over-exertion than from firearm mishaps," says Shult.

"The sportsman who begins preparing his gear and his body now will have a much more rewarding experience in the outdoors this hunting season," contends the specialist.

AND MRS. LINDEL BATES announce the engagement and teaching marriage of their daughter, Beverly Gay, to James C. Snitker, son of Carolyn Snitker, of Old Glory and J.C. Snitker, of Old Glory. The couple plans a November 7 wedding at 7 p.m. in the sanctuary of God Church in Morton. Friends and relatives are invited to attend.

Pueblo Dish Updated With Tuna

Until the advent of the white man, the only meat in the Indian's diet came from game animals and fowl. But there was fish and seafood aplenty to provide high protein. Even tuna—such a basic food today—was a main dish staple in Peru, at the time of the Incas.

To the Indians, harvest time was very special and called for important "thanksgiving" celebration dishes. The enjoyment they derived from their wholesome dishes can be experienced in this colorful, authentic Pueblo recipe, Indian Harvest Bake. It has alternate layers of vegetables, western-type cheese and, to turn it into a main dish, canned tuna in vegetable oil. It's a zesty casserole with character for all to enjoy.

INDIAN HARVEST BAKE

2 cans (6½ ounces each) tuna in vegetable oil
 ½ cup chopped onion
 1 teaspoon chili powder
 1 teaspoon dried leaf oregano
 ½ teaspoon salt
 ¼ teaspoon cumin seed
 2 tomatoes, sliced

2 medium zucchini or summer squash, sliced
 1 green pepper, cut into strips
 1 package (10 ounces) frozen whole kernel corn, thawed
 2 cups grated longhorn or mild Cheddar cheese

Drain 1 tablespoon oil from tuna into a flameproof 2-quart casserole; add onion and cook until golden. Mix together chili powder, oregano, salt and cumin seed. Layer 1/3 of each vegetable, 1/3 of tuna and 2/3 cup cheese over onion in casserole, sprinkling each layer with a small amount of seasoning mixture. Repeat layers 2 more times. Cover and bake in 350°F. oven for 1½ hours. YIELD: 6 servings.
