An Evidence That Advertising Pays Good Dividends

Grapeland, Texas, July 24, 1917 Mr. Albert H. Luker, Editor the Messenger, Grapeland, Texas, Dear Sir and Friend:-

We are very much gratified at the splendid results obtained from our ROUT 'EM OUT shoe sale advertisement in last week's issue of the GRAPELAND MES-SENGER. Before all of your subscribers had received their copy of the paper, numbers of them had taken advantage of the splendid values we are offering in all summer low shoes.

We believe in telling the people about our goods in a truthful way and find that the MESSEN-GER is the best medium in Houston County to accomplish the best results.

Trusting that you will enjoy added prosperity during the coming season, I beg to remain,

Yours very truly, GEORGE E. DARSEY.

J. W. JONES & SON, Proprietors

To The People of Texas:

The railroads of Texas were built and are maintained and operated for your benefit. They are necessary for your welfare and happiness, else they would not have been authorized or con-

Legally, it is the duty of the railroads to furnish you with reasonably adequate and expeditious transportation service.

You are required to pay, in the way of freight and passenger rates and fares, enough to pay all of the necessary expenses of operating and maintaining the railroads and in addition thereto, enough to yield to the owners a reasonably fair return upon the value of the property devoted to your use and benefit.

The amount that you are required to pay is controlled by your public officers, acting under oath, and appointed by your President or elected by you. The amount that the public officials require you to pay is determined mainly by what it costs to operate the railroads. As you will see further on, neither the Interstate Commerce Commission or the Texas Railroad Commission have authorized the charging of more than is necessary.

The records of the railroads are kept in accordance with rules and regulations prescribed by the Interstate Commerce Commission. Those rules require the operating expenses of the railroads to be kept separate from all other expenses.

Each month there is given out from Austin for publication a statement of the gross revenues of the railroads and their operating expenses.

These statements are correct as far as they go, but they do not tell all the truth, for the reason that they do not show the other expenses of the railroads, such as taxes, etc. These other expenses, taxes, hire and rent of equipment, rents of joint facilities, rents accrued for lease of roads and miscallaneous rents will, for the year ending June 30, 1917, amount to about seventeen million five hundred thousand dollars. Taxes alone will amount to over five million dollars. These expenses are just as legitimate and necessary as the expense of running the trains.

When these other necessary expenses are deducted, it will be seen that the railroads of Texas have earned during the year ending June 30 not over 6 per cent upon the value of their properties that are used exclusively for transportation purposes for your benefit.

For the eight preceding years the railroads of Texas had been operated at a net loss of over twenty million dollars.

While other legitimate business is paying dividends of from ten to fifty per cent per annum, surely no just man will object to the railroads occasionally earning such a small return on the value of their property. Surely they ought to be permitted to earn 6 per cent once in nine years without being complained at, or abused.

Out of the aforesaid return, the railroads must pay the interest on their bonds and other indebtedness and make betterments, etc.

Unfortunately, the inability of the railroads to earn anything like adequate returns makes railroad investments very unattractive and accounts for the almost complete cessation of railroad construction.

More and better railroads are needed, but until the business and earnings of the railroads improve so as to favorably compare with other business, men with money will not invest in railroads, there being so many other avenues of investment where the returns are much larger and much more certain. Whenever the operation of railroads becomes reasonably profitable, money will be readily obtainable for building additional lines.

An analysis and understanding of the conditions of the railroads, physical and financial, will convince any fair-minded man that they cannot stand a reduction in either their freight or passenger rates, and give to the people anything like adequate service. If passenger rates were reduced, freight rates would necessarily have to be increased. Everyone who buys anything, shipped by rail, has to contribute to pay freight rates. Only those who travel extensively would want passenger rates reduced and freight rates increased. These few are more able to pay the present reasonable passenger fares than the masses of the people to pay greater freight rates.

To you who pay the expenses and are entitled to know the facts, this simple statement of the condition of these public service utilities is submitted and we most respectfully and earnestly ask your fair and intelliget consideration.

Respectfully submitted,

General Managers Texas Railroads Austin, Texas

"THE NEED OF THE HOUR"

Our country entered this war to fight for personal liberty of every down trodden nation, as well as to preserve our own freedom, and our success depends, not alone on our army, but upon every phase of our industrial life to sustain our army and just now the shortage of skilled office workers is very serious and will grow worse unless the young ladies and the young men who are too young or physically unable or otherwise exempt from war duty realize that it is their duty to acquire a business training immediately to come to the rescue of both the government and commercial organizations. Read the following announcement which speaks for itself. Washington, July 19. - The United States government needs, and needs badly, a great number of stenographers and typewriters, both men and women, for service in the departments at Washington, D. C, and the situation in federal offices outside of Washis scarcely less urgent. The supply of qualified persons on the commission's list for this class of work is not equal to the demand, and the commission urges, as a patriotic duty, that citizens with this special knowledge apply for examination for the government service. present all who pass the examination for the departmental service are certified for appointment, he had been to attend the Farmexamination papers are rated ers' State Institute. Local Happenings in the Lone Star Community

July 30 .- Our protracted meeting came to a close Saturday at 11 o'clock at the water, there being one baptized.

Our Sunday school is still gaining. On with the good work! But there are some like the preacher said, have got nothing but "summer religion;" they don't want to be anything and try to hinder the cause of Christ.

It was our good fortune to attend the meeting at San Pedro bridge Sunday. The meeting is just in its infancy, but with help of the good people we feel sure much good can be accomplished by Bro. J. F Lively, who is conducting it. -

We lacked to have forgotten it, but you remember we whispered dinner on the fourth Sunday, and my, what a dinner it was! There was plenty for all and more besides, unless the enitor and H. A. Tyer had been present. The good ladies should be thanked for they had all a hungry man could ask for.

John R. Owens, who has been with The Messenger almost continuously for ten years, has resigned and accepted a position with McLean & Raill as office man and bookkeeper. He entered upon his new duties Monday morning.
