

LITTLE LEAGUE SEASON GETS UNDERWAY HERE MONDAY

"Tuggie" of KFDD-TV fame has Monday, April 24 circled off his calendar--and Mayor D. E. Hackley is secretly warming up his pitching arm!

The occasion will be the opening of the Spearman Little League season.

Monday's agenda calls for a picnic, "Tuggie", the toss-out pitch by Mayor Hackley, and two exciting ball games--kicking off the Little League baseball season.

The picnic, sponsored by the LL Women's Auxiliary, will be held at the LL Park Monday April 24 from 5:00 to 6:45 p. m. On the menu will be Sloppy Joes, desserts and drinks. Boys selling tickets have a chance to win a new baseball glove. Each boy will have his name on the back of tickets he sells. Area TB Tests

The Top of Texas TB and Respiratory Disease Association announced today that preliminary plans have been completed to do TB skin testing in four Panhandle counties. Purpose of the tests is to identify those infected with tuberculosis germs, so that they may be medically supervised for either preventive or curative measures.

The schedule includes many counties throughout the Panhandle.

The general public is urged to remember the dates when Hansford County residents will be tested.

Tests will be conducted in Gruver on May 2 from 12 p. m. to 4:30 p. m. at the Gruver Clinic. Those citizens will go back on May 4 for the results of these tests.

In Spearman tests will be given at the Home Demonstration Clubroom on May 3 from 11 a. m. to 7 p. m. Tests will be read on May 5.

The nursing staff of the State Health department, assisted by volunteers, will administer and read the tests.

It is hoped that EVERYONE in Hansford county will be tested for TB on these dates.

Farmers Not To Blame

Agricultural producers should be praised--not blamed--in the current national controversy over food prices, President Richard M. Nixon said.

Mr. Nixon said that cattle prices are now about what they were 20 years ago, and that farm prices in general have risen only about seven percent in that period. He pointed out that money paid to wage earners has increased 340 percent and that business and professional income is up 200 percent over that same period.

"The American farmer has been the best hedge against inflation the American consumer has," the farm leader asserted.

He pointed out that only by increasing both his investment and his efficiency has the farmer been able to stay in business.

District Backing Lawson for State office

"Let's Elect Lawson" is the slogan of over 1700 area women who are members of 74 federated women's clubs in 20 counties in the top of Texas, now dedicated to promoting the candidacy of Mrs. Kermit Lawson, Pampa, for the office of secretary of the Texas Federation of Women's Clubs.

Recognizing an outstanding leader in Josephine Lane Lawson, a longtime resident of this area who has been in federated clubwork for over 25 years, women in the Top of

Texas District are solidly behind her candidacy.

They have observed Mrs. Lawson during the past two years, when she served as district president, and came to know her as a remarkable woman, one able to streamline tiresome procedures in order to emphasize the responsibility of today's clubwoman to dedicate herself toward seeking a better environment. They have lauded Mrs. Lawson for making clubwork relevant to the important things of life, and for changing the image of a clubwoman from the ridiculous, Helen Hokinson type, to that of a concerned citizen ready and willing to do her part for human betterment, beginning in her own home and community, and extending herself throughout district, state and nation.

Clubwomen in this area, who sparked such projects as public libraries, student scholarships, activities to benefit children and youth, and other long-lasting community betterment, are appreciative of Mrs. Lawson's knowledge and understanding of what women have done, and are willing to follow her motivation toward greater goals.

Mrs. Frank C. McDaniel, DaBart, and Mrs. Harold Shoulders, Dumas, are managing Mrs. Lawson's campaign. Also working to promote her election, as a representative of the Texas Panhandle on the board of the Texas Federation

of Women's Clubs are Mrs. Don Max Vans, Canyon, recently-elected president of the Top of Texas District, TFWC; and Meses, Melvin Mitts and Bill Reed, both of Stratford.

Mrs. Emmett Osborne, Pampa, has arranged for a chartered bus to take delegates and electioneers to the TFWC convention May 8-10, in Dallas. She is encouraging all area clubwomen to attend, to support the first candidate from this area for a state office since 1960.

Mrs. G.M. Sherman, Amarillo, is accepting reservations for the bus trip, at \$15.50 each. Reservations must be made with her by April 25, at 1510 W. 15th, Amarillo, Texas 79102.

Endorsing Mrs. Lawson for the position of secretary of the Texas Federation of Women's Clubs are past presidents of the Top of Texas District, including Mrs. B.M. Sims, Wellington; Mrs. Guy Crawford and Mrs. R.R. Lindsey, Borger; Mrs. Wes Izzard, Amarillo; Mrs. Jack Allen, Perryton; Mrs. Robert T. Lindsey, Canyon; Mrs. H.P. Mundy, Shamrock.

Other women of the area, not members of federated clubs, are also interested in Mrs. Lawson's election to a state office, for they are aware of the benefits brought to them through the TFWC, and they endorse Mrs. Kermit Lawson of Pampa as an outstanding leader from this area.

MORAN AUTO BODY

MORAN BODY SHOP
Top quality automotive body repair requires a great deal more than hammers, wedges, abrasive tools and paint. Work of this nature requires experience and lots of it. Jack Moran, owner of Moran Auto Body, has that experience. Jack has spent more years than just a few engaged in the direct practice of repairing and painting auto and truck bodies. There are certain skills involved in the ability to refinish a wrecked car to the point where even an expert can't spot the damage points. Moran doesn't believe in patchwork jobs that attempt to cover up or hide damaged areas. Every job is a challenge to erase every dent and scar. Matching new paint to old is an art in itself and, this again, is something achieved through years of actual practice. Most wrecked or damaged vehicles require glass work in one area or another. More often than not, a new windshield is required to complete the job. Here again is an operation that takes a little more skill than needed to frame a picture. The windshield must fit to the point where there are no leaks even in the hardest down pour. Every time a workman in Moran's Shop works on a job, he is under the direct supervision of Jack Moran who always makes the final inspection on all repair jobs. The next time you have a cracked windshield, a fender dent or a smashed up car, don't settle for just a patch up. Settle for the very best. Take it to Jack-The man with the knack. Moran's Body Shop is conveniently located at 106 W. Kenneth in Spearman.

Seven Signs
Cancer has seven warning signals: Change in bowel or bladder habits; a sore that does not heal; unusual bleeding or discharge; thickening or lump in breast or elsewhere; indigestion or difficulty in swallowing; obvious change in wart or mole; nagging cough or hoarseness. If you have a signal, see your doctor right away, the American Cancer Society says.

Hard Job
Pick a day to quit smoking cigarettes. It's not always easy to quit, the American Cancer Society admits, but it could save your life from lung cancer. When you open wide at the dentist's office remember to ask for a complete mouth check. It's one of the ways to detect oral cancer early, according to your American Cancer Society.

After 40 remember
your doctor for a proctology of your annual health check. It's a lifesaver, says the American Cancer Society.
A Stitch In Time
More than 90 percent of breast cancer patients die from the tumors themselves, the American Cancer Society says. Every woman to check with a physician if she notices a lump or thickening.

TAX MAN COMMENDS TAXPAYERS

Ellis Campbell, Jr., District Director for the 143 county North Texas IRS District, retired Friday, April 14. Mr. Campbell had served 38 years, 8 months, and 5 days as a tax man, including 22 years as a tax chief in his District.

Mr. Campbell said, "There is one thing I want to do and that is to thank the 2,750,000 taxpayers in this district for their cooperation. During the 22 years that I have been collector and District Director, taxpayers in this area have paid more than \$35 billion in taxes. 97% of this has been voluntary. I have always found an overwhelming majority of our taxpayers to be cooperative and to always want to do what is right. As I have said many times before, I would like to have an opportunity to be a tax man for another 38 years. I heartily disagree with the "gloom and doom" experts who feel that our Nation is on the downgrade. My experience shows me beyond any doubt that the American people will do the right thing and certainly we have the capability of solving our problems. I am confident that our Nation will continue to be the greatest nation on the earth within the foreseeable future."

Wheat Producers Eye Declining Harvest

N.F. Renner Reports On Quarterly Meet

Concern over declining wheat harvest prospects coupled with almost record low prices for existing supplies was voiced by the nine-man TEXAS WHEAT Producers Board at their quarterly meeting Thursday, April 13, in the State Capitol in Austin. Mr. Ken Kendrick of Stratford, farmer elected chairman of the group said "We must do more about the wheat income situation than just talk." He was unanimously supported in this attitude by the entire Board as they drafted research, market development and insect control projects that when implemented during the coming year will exceed \$125,000, in an effort to raise the price of wheat and bolster farm income.

Projects drafted by the Board include export expansion, insect control demonstrations, wheat food nutrition education, feed wheat nutrition research and education, and transportation services.

"Since 80% of Texas' wheat is normally exported," Kendrick said, "the biggest downward pressure on local prices is from losses this year in the export market from the dock strikes and competition from other wheat exporting countries." In an effort to regain these markets and strengthen prices the Board will request membership in Great Plains Wheat, Inc., which will give Texas producers access to professional market development staff in several foreign wheat purchasing countries in Asia, Europe, South America and the Caribbean. GPW is a market development organization supported by producer wheat commissions in the Great Plains wheat belt and is headquartered in Washington, D.C. Under the GPW program a team of government and wheat buyer officials from Peru will be in Texas April 30-May 1 to study wheat export facilities at the Gulf ports and to learn more about types, grades and quality of hard red winter wheat available at the gulf.

A wheat feeding nutrition and service program designed to increase the levels of wheat utilized in local feed lots was authorized by the Board. Kendrick pointed out that "The aim of every wheat grower, including every member of this Board, is to work toward prices so high relative to other grains that none will ever be fed. In spite of these lofty and worthwhile aims, 218 million bushels of wheat was fed to livestock in the United States this past marketing year--40% of the total used in this country--and the amount of wheat used for livestock feed is trending upward". The Board will engage a professional animal nutritionist on a staff consultant basis to implement the new wheat feed nutrition program.

Insects have done about as much damage to dryland wheat--especially in the Rolling Plains area--the last two years as has the drought", according to W.R. Moore, Jr., TEXAS WHEAT Board member from Munday. In an effort to step up use of improved and efficient insect control methods, plans were developed to establish insect control demonstrations in principal damage area counties in the Rolling Plains for the 1972 fall seeded wheat crop. Practices in keeping with new consideration for ecological, environmental, and air pollution guidelines which farmers are increasingly facing will be used and demonstrated.

"One of the major cost factors influencing net returns to the wheat producer is the cost of transporting his grain from the farm gate to the terminal market place", N.F. Renner, TEXAS WHEAT Producer Board member from Spearman told the group. The cost of transporting High Plains wheat to export points has risen 25% since 1967--while the price of wheat paid to the farmer has decreased about that percentage, according to the National Association of Wheat Growers recent newsletter. Since increases in freight rates and/or service charges are reflected in lower prices to the producer, TEXAS WHEAT must place high priority on constant surveillance of developments concerning transportation and implement programs to reverse present trends of income eroding practices. Approval was voiced for establishing a transportation program which will include monitoring of transportation developments, liaison with regulatory agencies, carriers and other transportation divisions in govern-

ment, bureaus and organizations.

The TEXAS WHEAT Producers Board, an agency of the State of Texas, usually holds its quarterly meetings within the 34-county membership area where producers support the research, market development and service program through a five-mill per bushel assessment on their wheat production. This meeting was held in Austin--along with similar Boards for grain sorghum, peanuts, soybeans and turkeys--at the request of Commissioner of Agriculture John C. White, who supervises such programs. While in session in the Capitol, the Boards were briefed by officials of the State Auditors Office, the Office of the Attorney General and the Texas Department of Agriculture, on pertinent matters relative to the operation of the Boards affairs.

Besides Kendrick, Moore and Renner, other members of the TEXAS WHEAT Producers Board are: Dwight Hamilton, Olney; John Cogdell, Crowell; Leo Witkowski, Hereford; Otis Harman, Tulia; and Delbert Timmons, Perryton & C. L. Edwards, Panhandle. Members of the Board are elected by producers and serve without pay in directing the Board affairs. Executive Vice President of TEXAS WHEAT is Bill Nelson who administers the organizations programs from the state headquarters in Suite 600, Bank of the Southwest in Amarillo.

TEXAS HAWKS HAVE FULL PROTECTION

AUSTIN--All species of hawks in Texas have full protection of the law, says the Texas Parks and Wildlife Department.

During spring months many hunters are in the field and woods for squirrel, javelina and cottontail rabbits, and the temptation to shoot the so-called "chicken hawk" may be great, but the game management officers say no.

Hawks more than pay their way with the large number of rats, mice, rabbits, snakes and lizards they include in their diet.

Hawks in the state during the spring are either on their way back north on migration flights, or else are nesting.

Mr. and Mrs. R.E. Lee were in Tow, Texas last week visiting friends. While there Eck fished at Lake Buchanan. They also visited relatives in Dallas before returning home.

"Vaccinate now for VEE" is the theme of a new campaign urging vaccination of horses for the sleeping sickness disease, Venezuelan Equine Encephalomyelitis (VEE).

The 1972 campaign calls for vaccination of all equines (horses, mules, donkeys, etc.) not vaccinated in 1971, in Texas, the Gulf Coast States and States adjoining Mexico. These States are designated "high risk" States for the disease.

There are four categories of horses that should be vaccinated now. They are: (1) unvaccinated horses that have recently moved into the area, (2) foals born since last year's vaccination drive.

Texas has a horse population of about 625,000 animals. With nearly 800 veterinarians participating about 575,000 horses, or 92 per cent of the total population, were vaccinated in Texas last year.

However, the State of Texas remains under Federal quarantine for VEE. This means that horses must be vaccinated for VEE at least 14 days before being allowed to leave the State for other areas. Horses for interstate shipment must be accompanied by a vaccination certificate with individual animals identified by tag, tattoo, or other means.

The current program for vaccination at horse owners' expense. Federal emergency funds were used for that purpose last year.

VEE vaccine will provide immunity for over one year and possibly longer. The commercial product now available can safely be administered to horses previously vaccinated with Government-furnished vaccine. If it is uncertain that a horse has been vaccinated, it is better to vaccinate again.

Vaccine must be administered by a veterinarian. VEE vaccine was used on more than 2.8 million horses in 19 states and the District of Columbia last year. Studies on the vaccine are continuing, to check safety and to determine duration of immunity.

Each troop presented a skit or gave some information about a country of their choosing. Troop 190 chose France and Troop 155 chose Mexico. Following the entertainment a covered dish luncheon featuring foreign foods was enjoyed.

Leaders from Spearman attending were Barbara McClellan, Barbara Moran and Doris Perkins. Others going were Mrs. R.L. Henry, Marilyn Plain and Gloria Youngblood.
