A cluster of 12 pecans the largest number Frank Van Horn, Christoval publisher, ever saw, was presented him last week. The cluster came off a native tree on the Grove Hotel lot at Christoval. The pecans were small. — Sam Ashburn in "From the Top of the Windmill" column in San Angelo Times.

Frank ain't seen a good cluster of pecans — San Saba County can show a cluster of pecans containing 56 large sized nuts that were grown in the Harkeyville community. Twelve pecans on a limb is just a good average around here. — "Bunk House News" in San Saba Star.

### Free Trips to Texas Centennial Made Available Here.

Motivated by a desire to publicize the Texas Centennial Celebration in 1936 and to enable these magnificent pageants absolutely free, a patriotic group of organizations have banded together for this purpose.

Through the medium of "Centennial Thrift Stamps," which will soon be issued in every cross-road and city of the State every Texan will be enabled to enable to defray transportation cost to any Centennial center, pay hotel and restaurant expenses, admission charges and even to purchase gas and oil for the family "Lizzie."

Co-operating in this gigantic Texan plan are such famous names as the Greyhound Bus Lines, Bowen Air Lines, Western Union, — some 250 hotels and restaurants and the Uniformed Bodies of the Shrine.

Details of the plan may be secured from any of the organizations mentioned in the preceding paragraphs and from all business houses in Christoval. Securing these Texas Centennial Thrift Stamps entails no "selling" or "chance taking" on the part of the individual. The Stamps are given out with all purchases and in such quantities that they accumulate rapidly. Numerous families have already saved sufficient amount to pay ALL of their expenses to San Antonio, Houston, Galveston, Goliad, Dallas, Huntsville, Washington, and other Centennial celebrations in 1936.

Commenting on this wonderful co-operative Texas plan, an official prominent in the recent Chicago Exposition said: "Had we had such public spirited individuals and corporations in the North, we would have been able to extend the fair for at least another year. Texans and its citizens are to be congratulated in having the Centennial Thrift Stamp Plan."

## What is the yardstick for a cigarette...

Take mildness for one thing—how does it measure up for mildness?

Chesterfields are *milder*—not flat or insipid, of course, but with a pleasing flavor.

Then take taste for another thing—does it have *plenty* of taste?

Chesterfields taste *better*—not strong but just right.

In other words, They Satisfy—  
*that's my yardstick for a cigarette.*

### General Pope's Menagerie.

(A paper read by Mrs. Henry West at the celebration of President Davis's anniversary in Baltimore, 1923:)

In the spring of 1862, when General Pope's big army, 100,000 strong, was camped around Warrenton, Va., Mosby and his dare-devil rangers were engaged in a hazardous game of chess with the Yankees which abounded in remarkable moves on the part of the wary "guerrilla's."

All the men and boys as young as 15 had gone the the war, leaving literally "the butcher, the baker, and the candlestick maker" to protect and to provide for the women and children of Warrenton. General Pope finally became angry and suspicious and issued orders for all suspects to be arrested, and the provost marshal formally convened his court.

The first citizen of Fauquier to be arrested was a man by the name of Wolf, who resided in the upper part of the county. The next prisoner called to the bar responded to the name of John Fox, who was a shopkeeper in Warrenton. The judge remarked with a smile: "This is a coincidence to capture a fox and a wolf in the same trap."

The guard then produced a quiet, inoffensive looking citizen, who called himself Rabbitt, where upon the judge frowned and demanded his right name. "I speak the truth," replied Rabbitt; "that's my name. I'm a shoemaker by trade, and live in this town." The next was a comical looking little man, with a moonlike face and a waggish gray eye. He chewed tobacco as if it was candy, and had a voice like a cross-cut saw. When asked for his pedigree, he struck a pose and, in theatrical tones, spouted as follows for the benefit of the soldiers: "My name's Bob Cocc. I'm the auctioneer of this town, and can prove it by reputable citizens." An uproar of laughter followed this sally, and the judge tried to look angry. "You

fellows are assuming false names and ridiculing my authority. We will see who laughs last in this matter."

Upon establishing his identity, and as there was any doubt as to his name, residence, and avocation, the court again became placid and dignified. "What is your name?" was asked the next man, a harmless Hebrew, who gave his name as Bear, and his occupation as that of a merchant. The judge was non-plussed, but, appreciating the humor of the situation, remarked with a smile: "Have you gotten in a den of wild animals? But the climax was reached when the last witness went on the stand. He was a local character and the popular Boniface of Warrenton. When he swore that his name was Louis Lion, and, moreover, that he was the proprietor of "The Lion House" there was such an outburst of hilarity that the judge lost his dignity, proclaimed that he was not in the army for the purpose of opening a menagerie, and adjourned the court sine die.

The sequel to the farce was the release of the prisoners and a big laugh on General Pope throughout the rank and file of both armies.

Gulf No. 193 Mellroy which reached an ultimate depth of 12,730 feet—the greatest depth to which any hole had ever been drilled for any purpose in the world. Production was not secured and it has been plugged back to be tested for oil.

The radio station, KIUN, at Pecos, was opened there Sept. 21st. This station, the newest one in the United States, was erected at considerable expense by Barney Hubbs and Jack Hawkins, publishers of the Pecos Enterprise. The station on a test was heard 2000 miles.

In a special election at Menton on Saturday Sept. 21, the Loving County \$25,000 courthouse bond issue carried by a vote of 43 to 23.

### On Texas Farms.

For the third year Victor Kunkel of Olney, Young county, has filled his trench silo. Three other farmers are following his example and putting in trench silos this year.

A trench silo with cemented sides has been constructed in sandy soil on a ranch in Stonewall county. The filling of it will be made the attraction for a meeting of neighbors to observe the process.

Interest in trench silos in the South Plains section of the State that a demonstration on filling such a silo given in Fisher county recently was attended by farmers and ranchmen from nearby counties. The big feed crop this year and the recurring droughts have combined to arouse this interest.

Swapping eight acres of red cane for 16 acres of the same sounds like a poor bargain for somebody. But it isn't if the exchange is made by the increase in feed value between the feed stacks dry and that put up in trench silos. Mr. Horace Bryant of the Martin ranch in King county accomplished the "swap" in August by filling a trench silo.

All King county is in earnest about conserving feed in trench silos. A bargain followed the demonstration silo filling on the Martin ranch and after that a farm to farm canvass of the county was planned to sell the idea.

### Wooden Flywheel.

After an accident to the flywheel in a large European electric station the superintendent designed and had constructed a flywheel of wood which has a diameter of 65 feet and a rim width of ten feet. The thickness of the rim is about 12 inches and it is made up of 44 thicknesses of beech planks with staggered joints. The boards were glued together and then bolted. The inside consists of a double wheel, the 24 spokes of which are fastened to two hubs. Spokes and hubs are operated at 75 revolutions a minute, which corresponds to a peripheral speed of the rim of 125 feet a second.

### Major Bowes Tells About Texas Centennial Exposition.

Millions of North American radio listeners heard facts and figures on the State of Texas, the City of Dallas, and the Texas Centennial Exposition on Sunday evening, September 22, during the broadcast of Major Edward Bowes' Amateur Hour from the New York studios of the National Broadcasting Company.

An index of the interest in the broadcast featuring Dallas as the Centennial City is the fact that within an hour after Bowes program more than 10,500 telephone calls were received from Southwestern listeners by WFAA, Dallas unit of the NBC system. More than 50 telephone girls were employed to receive the calls.

From New York comes the word that "truckload" of telegrams and letters were received.

In recognition of his services, Major Bowes was presented with an honorary captaincy in the Texas Rangers by Governor James V. Allred. He was also given a gold-lettered scroll signed by Exposition officials designating him as "Texas Centennial Ranger" and a ten-gallon Texas cowboy hat.

Telegrams of appreciation from the school children of Dallas, assembled in a beautiful leather-bound book, were also given Major Bowes.

### When You're Dead.

It beats the deuce how the folks will weep as you lie in your coffin to fast asleep, and sing of your goodness in countless ways while the parson preaches and talks and prays. 'Tis queer how the public will eulogize and laud you up to the vaulted skies, when the undertaker has called your bluff and acquitted you full of embalming stuff. But when you walked on the earth, I swear, you were nothing more than a plodder there, and you'd have fainted or dropped down dead at any praise that the public said. It's only when you're a lifeless stiff that the hearseless public will note to the *Los Angeles Herald*

## Under OUR Constitution

By RAYMOND PITCAIRN  
National Chairman  
Sentinels of the Republic

This is Constitution Week. Throughout our nation thousands of men and women who love America are paying grateful tribute to the Charter which is at once the soul and the substance of our freedom. In many communities great meetings are being held to observe with impressive exercises the anniversary of its signing.

This observance is more than a formal ceremony. It is a nationwide tribute to the tremendous contribution which our Constitution has made to the rights and the happiness of humanity. And it is a tribute well earned. For —

**Under Our Constitution:**  
The persecuted have found Refuge... the despairing, Faith... the oppressed, Liberty... the courageous, Opportunity.

**Under Our Constitution:**  
All men have attained the highest human aspiration—the right to be free, in body and in spirit. All children are assured the richest heritage possible—the right to be educated. All citizens are guaranteed the greatest power known—the right to govern themselves.

**Under Our Constitution:**  
The People rule. No man is King; no man a subject. Despotism is outlawed. The Will of the People is the Law of the Land.

**Under Our Constitution:**  
The United States has achieved a growth in territory, in population, in resources and in influence unrivaled among nations.

The Constitution of the United States was made for us, the people. All power to change it or to weaken its safeguards rests finally in our hands. Today certain forces, greedy for power, threaten to wrest that control away. Don't let them succeed. Don't let Bureaucracy usurp the authority which, under the Constitution, is ours alone. Don't let the politicians destroy those rights which our fathers won and we must preserve.

### The Fox Who Had Lost His Tail.

A fox caught in a trap escaped with the loss of his brush. Thereafter feeling his life a burden through the ridicule to which he was exposed, he schemed to bring all other foxes into like condition with himself, that in the common loss he might better conceal his own deprivations. He assembled a good many foxes and publicly advised them to cut off their tails, saying they would not only look much better without them, but would get rid of the weight of the brush, which was a very great inconvenience. But one of them interrupting him said: "If you had not yourself lost your tail, my friend, you would not thus counsel us." — Aesop's Fables.

League of Nations Council, Still Hoping for Peace, Moves to Curb Italy—American Legion Condemns All Un-American Isms.

By EDWARD W. PICKARD

© Western Newspaper Union.

ITALY having rejected the peace plan proposed by the League of Nations committee of five, and Ethiopia having accepted it, the committee reported to the league council that its efforts to solve the problem were futile.

The council thereupon held a public meeting and adopted unanimously the recommendation of its president, Enrique Ruiz Guinazu of Argentina, that it proceed under article 15 of the covenant, drafting a report and recommendations for settlement of the Italo-Ethiopian imbroglio.

As they did once before, the Italian delegates walked out of the meeting, and a spokesman explained that this was because they "would not sit at the same table with Ethiopia."

In a secret session the council drafted its report and framed its recommendations; but it also asked the committee of five to reconstitute itself so it would be ready to take advantage of any opportunity for mediation that offered in the near future.

A feature of the council's session was an address by Capt. Anthony Eden, British minister for league affairs. Conversations in Rome between British Ambassador Sir Eric Drummond and Premier Mussolini had led some to think Great Britain was weakening, but Eden announced his government was "steadfastly determined to abide by its policy" as previously declared.

"In addressing my colleagues at the council on September 4 I expressed the view that it was our duty to lay to rest the machinery of the league that lay to our hands.

"Such is still my view. I therefore support without qualification the proposal of the president of the council, since we are now working under article XV, that the council should draw up a report of the recommendations provided for in paragraph IV of that article.

"So long as the council is engaged in drawing up a report of the recommendation the work of conciliation can continue and it is clear that no opportunity for such conciliation within the terms of the covenant should be missed."

Eden's attitude was supported by Peter Munch of Denmark and Maxim Litvinov of Russia.

On the whole, prospects for settlement of the African affair were very dim. It was reported that Mussolini had said to Count Charles de Chambrin, French ambassador to Rome: "I will invade Ethiopia on the date I fixed a month ago."

Great Britain informed Italy that her tremendous naval concentration in the Mediterranean was not ordered with any aggressive motive, but because of the violent anti-English campaign carried on by the Fascist press of Italy.

One result of the supposedly improved relations between England and Italy was the cancellation of the sailing of 10,000 more Italian troops to Libya, which colony borders on Egypt.

PREPARING for the imminent probability of war between Italy and Ethiopia, Secretary of State Cordell Hull established an office of arms and munitions control to carry out the provisions of the neutrality act and direct federal control of the munitions traffic.

The office is under the direction of R. Walton Moore, assistant secretary of state. Joseph C. Green is chief of the office and has as his assistant Charles W. Yost.

On recommendation of the board President Roosevelt proclaimed that heretofore manufacturers, importers and exporters of six categories of war implements must obtain licenses for exports and imports. The articles named comprise only weapons and other articles used in actual combat such as guns, war vessels, military aircraft and poison gas.

Secretary Roper told reporters that the munitions control board is studying the question of whether certain raw materials should also be classed with munitions.

AMERICAN Legionnaires in convention in St. Louis adopted with shouts of approval a resolution for active opposition to "nazism, fascism, communism and other isms contrary to the principles enunciated in the Constitution." Still cheering, the delegates followed that up by asking the withdrawal of United States recognition

of soviet Russia. The veterans commended recent legislation for national defense and called for a larger army, continuation of the officers' training camps, the C. M. T. C. and R. O. T. C. in schools, and for a navy equal to any in the world.

Cleveland, Ohio, was awarded the 1939 annual convention after four ballots. The national American Legion band championship was won by the Chicago Board of Trade post musicians.

At their final session the veterans elected J. Ray Murphy of Ida Grove, Iowa, national commander, and passed a resolution demanding immediate cash payment of the soldiers' bonus. Vice commanders chosen were: Raymond A. Gales of Virginia, W. E. Whitlock of South Carolina, Whitney Godwin of Florida, Oscar Worthington of Idaho, Lou Probst of Wyoming.

Mrs. Melville Muckelstone of Chicago was elected president of the American Legion auxiliary.

SOFT coal miners were victorious in the negotiations for a new wage agreement, and resumption of work in the mines was promised for October 1. The men were out on strike for eight days. Operators yielded to the union demands when they learned that relief officials would aid the strikers.

AUBREY WILLIAMS, first assistant to Relief Administrator Harry Hopkins, said in an interview that the unemployment problem will not be solved by a business pick-up unless industry "shares increased business with the workers."

Aubrey Williams

Williams said there had been a drop in the number of people on relief, but he attributed this largely to a "hard-boiled" policy under which the rolls were combed of ineligible.

"As fast as they go from relief to jobs, we get as many new ones on relief who have exhausted their savings," he asserted. "We have become pretty darned hard-boiled on relief."

"Even the National Industrial Conference board says there is more unemployment now than a year ago," he continued. "Business absorbs new business without increasing employment. They get a dividend out of it, but no new jobs are given. We are not feeling any benefit as far as most of our clients are concerned."

By executive order the President added \$800,000,000 to the sum which Harry Hopkins has to spend as PWA administrator, making the total at his command \$1,275,000,000.

REPUBLICAN national committee-men met in Washington and began the serious preparation of the Presidential campaign. It was decided unanimously that the party efforts in the western states should be most vigorous and should begin immediately. Headquarters will soon be opened in Chicago with National Committeeman Harrison Spangler of Iowa in charge, and funds were allocated for its expenses.

The committee did not discuss candidates or the selection of a convention city. The latter will not be chosen until the winter meeting. At present Chicago, St. Louis and Kansas City are the leading contenders, with the last named in good position because of its new air conditioned convention hall.

Rumors that the Republicans would attempt to hold their convention after the Democratic convention next summer were discounted for the reason that the Democratic gathering will be merely a ratification meeting for the renomination of President Roosevelt, which can be held any time next summer or fall, whereas the Republicans wish to get their campaign under way early next summer.

By VIRGINIA VALE

THE Helen Vinson-Fred Perry marriage didn't surprise anyone, of course; it had been launched with rumors and denials for too long. But, as always happens when people marry, friends are saying, "Why did she marry him?" and "Do you think it will last?"

Meanwhile Helen is looking more beautiful than ever (she has a beauty secret that would be a boom to all girls if she'd let it be made public) and it's reported that her bridegroom will act in pictures.

Bing Crosby's pretty home has grown too small for himself, his wife, and his three boys. So he's sold it to Al Johnson, who presented it to his mother-in-law, and now Bing's planning to build a bigger and better one.

It is really the duty of Major Bowes to make a tour of the country; the thousands of people who listen to his amateur hour each Sunday evening ought to have the pleasure of meeting him, for he is one of the most delightful people on the air.

He is one of those charming, gentlemanly men who never push themselves forward—so you can imagine how he stood out when he was involved in the motion picture industry. For years he presided over the destinies of the huge Capitol theater, in New York, and all newspaper people there who had anything to do with the movies knew him.

Michael Bartlett gave a party after his recent broadcast, a party that will go down in the annals of radio and movie folk as one of the nicest ever held.

Of course you remember Michael Bartlett; he's the chap who was so good in Grace Moore's "Love Me Forever" that the picture had to be cut and cut so that he wouldn't steal it. Not that he wanted to steal it; he just couldn't help himself. He'll be making more pictures soon.

In the usual course of events his party would have been a mad scramble of Broadwayites and newspaper men, many of whom would drink too much, few of whom would know who was giving the party, or care.

Bartlett asked his family and his friends from his home town in Massachusetts. Telegrams of congratulation poured in in huge batches, of course—the ones he read aloud were not from headlines, but from home town folks whom his favorite guests would know.

The lights went out, and a big cake, lighted with candles was brought in—and it developed that the day was his sister's wedding anniversary, and that she, not he, was the guest of honor.

They expect big things of Michael Bartlett in Hollywood and on the air—and don't you think that he deserves them?

Incidentally, some one asked Bartlett if he found Grace Moore impossible hard to work with. According to rumor, she's extremely temperamental.

"Not at all," he replied. "No one could have been nicer."

Remember a picture made years ago, called "Four Devils"? It was about four young acrobats, and Janet Gaynor was the star.

ODDS AND ENDS . . . Myrna Loy's going to make "Wife vs. Secretary" and then "After the Thin Man" . . . Wallace Beery's back from Europe. His daughter, Carol Ann, brought seven dolls, one from each country they visited . . . Clark Gable's love of tricky clothes may yet turn him into a haberdasher, if he's not careful . . . Shirley Temple could have received \$10,000 for one broadcast, but the Fox executives wouldn't let her go on the air!

WHALE YIELDS NEW PRODUCT

What may prove to be as valuable to Norway as whale oil itself, is a new kind of meat extract made from whales. Experiments described as highly successful have been carried on in the Antarctic aboard Norwegian whalers. The greater part of the world's supply of whale oil is delivered in Norway. Although the value of whale meat as food has long been recognized only the oil of the whale has been utilized, owing to the difficulty of transporting the meat from the Antarctic. Now, however, the meat is being made into a sort of meat flour aboard the whalers. The flour is taken back to Norway, where a meat extract of a very satisfactory character is being produced.

**Hobo, Tramp, Bum— They Are Different**

**Very Distinct Class Lines Drawn Among These Groups.**

To the average man the words hobo, tramp and bum are synonymous terms, used to designate a type of foot-loose, homeless specimen of the genus hobo. They are terms of derogation and opprobrium. Not so! Before calling a hobo a tramp, or either man a bum, be sure you say it with a smile. For there are very distinct class lines drawn among these groups of unskilled and itinerant workers.

A hobo is a hard worker of the migratory type. He is possessed of a keen sense of his own importance and value to the world that would suffer without his services. The wheat fields of the Southwest, the timberlands in the Northwest, the fruit lands in various parts of the country could not show a profit without the presence of the hobo at strategic moments. To displace him in the economic scheme of things would be to keep on hand well fed and employed the whole year around, thousands of men whose services are only required a few weeks or months a year. Another distinction: The hobo travels on wheels although the ticket office is not always a part of his traveling experience.

The tramp, on the other hand, migrates according to whim or chance. And he walks, always having nowhere in mind to get, he gets there at his leisure. If he works, as he does now and then, it is because of necessity and not through any sense of personal responsibility to society at large. In the mind of the self-respecting hobo, the tramp is distinctly an inferior.

The bum is looked down upon and despised, both by the hobo and tramp. The bum travels nowhere, does nothing and is nobody. He is a parasite of the city, begging, borrowing, stealing, loafing.

Clip this out and paste it in your book of etiquette. You may need it sometimes to save yourself from one of those embarrassing moments, warns the Knickerbocker Press.

**Indian Summer**

Indian summer usually begins some time in October, but it may not begin until November. According to the United States weather bureau it is not a definite period occurring regularly each autumn, and is not based on accurate meteorological data. Indian summer varies greatly in duration. It may occur once or several times during the fall and early winter, or it may not occur at all, and if it does it may last a day or two or several weeks. And in some years there are more than one of these periods of hazy, tranquil days.

From Your Doctor, if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains—and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

**ISAIAH PORTRAYING THE SUFFERING SERVANT**

**LESSON TEXT**—Isaiah 53:1-12.  
**GOLDEN TEXT**—But he was wounded for our transgressions; he was bruised for our iniquities; the chastisement of our peace was upon him; and with his stripes we are healed, Isaiah 53:5.

**PRIMARY TOPIC**—God's Best Promise.

**JUNIOR TOPIC**—Isaiah Foretells Jesus' Coming.

**INTERMEDIATE AND SENIOR TOPIC**—What Our Salvation Cost.

**YOUNG PEOPLE AND ADULT TOPIC**—The Suffering Savior.

The prophecy of Isaiah is the grand center of the Old Testament. It pictures the Servant of Jehovah with great wisdom gloriously executing the divine purpose of redemption at the cost of great suffering.

1. The Servant's Triumph (Is. 52: 13-15). The Servant here means the coming Messiah (42:1).

1. His wisdom (v. 13). He will deal prudently, for his name is Counselor (9:6). He was filled with the spirit of wisdom and understanding (11:2).

2. He shall be exalted and extolled (v. 13). Being the mighty God, even Immanuel, Jehovah has highly exalted him (Phil. 2:9).

3. The appearance of the Servant (v. 14). Because of his marred visage, the Jews, who looked for outward signs of royalty and worldly splendor, were not attracted to him.

4. The issue of his ministry (v. 15). In his sprinkling of many nations he is revealed as the great High Priest, sprinkling the nations with his blood and cleansing them from their sins.

1. The Servant Despised and Rejected (53:1-3).

1. The unbelief of the Jews (v. 1). They despised the words of the prophet and failed to recognize the hand of the Lord in the miracles he wrought.

2. The origin of the Servant (v. 2). He sprang out of a stamp of Judah. The sad condition of the people at that time is expressed by "dry corn." He came among his own and they apprehended him not.

3. A man of sorrows (v. 3). As the Sin-bearer of the world he suffered untold sorrows. The primary cause of his grief was their contemptuous rejection of him.

11. The Vicarious Suffering of the Servant (53:4-6).

1. His griefs and sorrows were ours. Though innocent, he was loaded down with disease and pain; not his, but ours. This awful suffering was looked upon by the world as occasioned by sin.

2. He was beaten for us (v. 5). That which was our due was meted out to him. Notice the four significant words: "wounded," "bruised," "despised," "stripes." The word "our" shows that his sufferings were vicarious. The full meaning of the cross is comprehended in these words.

3. The reason (v. 6). All humanity, Jews and Gentiles, had gone astray. God had laid on him the iniquity of us all.

IV. The Death of the Servant (53: 7-9).

1. His strange silence (v. 7). He went as a lamb to the slaughter. How unlike men who, when wrongfully condemned, make a great ado.

2. Unconcern of contemporaries (v. 8). Though dying instead of the wicked people, they failed to discern that his suffering was in their stead.

3. Buried with the wicked and the rich. This was fulfilled in the crucifixion between two thieves, and burial in Joseph's tomb.

V. The Servant's Ultimate Victory (vv. 10-12).

1. His suffering expressed the divine will (v. 10). The Lord himself laid this burden upon Christ. He was delivered according to the determined counsel and foreknowledge of God.

2. A spiritual progeny resulted from his death (v. 10). Christ declared, "Except a corn of wheat fall into the ground and die, it abideth alone." The fundamental law of the universe, which is life out of death, found supreme expression in Christ's death on the cross.

3. Through death shall come the realization of his fondest hope (v. 11). "He shall see the travail of his soul and shall be satisfied."

4. The divine reward (v. 12). The divine Conqueror shall share the spoils of victory which by a strong arm were secured. Though he took the place of a sinner, it was for the purpose of bearing the sins of many and making intercession for the transgressor.

VI. The Servant's Suffering Historically Fulfilled (John 19:17-37).

When Jesus of Nazareth went forth bearing his cross to Golgotha, where they crucified him, the prediction of Isaiah was historically realized.

**Thought**

In the end, thought rules the world. There are times when impulses and passions are more powerful, but they soon expend themselves; while mind, acting constantly, is ever ready to drive them back and work when their energy is exhausted.

**Influence**

**Find Shortage in World Wheat**

Production Less by 240,000,000 Bushels Than in 1934-35 Period.

World wheat supplies outside Russia and China this season are likely to be about 240,000,000 bushels less than in 1934-35, says the bureau of agricultural economies, in its current report on world wheat prospects.

World production, excluding Russia and China, is estimated at about 3,520,000,000 bushels, or about 90,000,000 bushels more than last year; but world carry-over at the beginning of this crop year was about 800,000,000 bushels, or 300,000,000 bushels less than a year ago.

Russia is reported to be harvesting a good wheat crop with fairly good yields in regions which commonly supply wheat for export. Russia may export as much as 20,000,000 bushels, but this may be offset to some extent by increased imports into China where the wheat crop is reported smaller than in 1934.

The bureau says the short supplies of wheat in the United States may result in prices being maintained close to an import basis for all classes of wheat at markets east of the Rockies. The United States carry-over into the current season is estimated at 152,000,000 bushels, and production on the basis of August 1 conditions at 698,000,000 bushels. The total, 850,000,000 bushels, is only 135,000,000 bushels more than normal utilization of 625,000,000 bushels.

These figures suggest, it is stated, that unless there should be a considerable volume of imports during the year, the carry-over into the 1936-37 season will be smaller than that in the current season. The volume of imports will be influenced largely by the quantity of the domestic crop which proves unfit for milling.

The bureau says that durum wheat in the 1935-36 season probably will not command a premium over hard red spring, as was the case last season; but that supplies of good quality hard red spring appear so short there will be substantial premiums for hard red spring over hard red winter.

OH, MOTHER... I'VE BEEN CHOSEN FOR THE LEADING PART IN OUR CLASS PLAY!

WELL, YOU CAN'T BE IN THE PLAY... AND THAT'S THAT!

WHAT ARE THEY TRYING TO DO... GIVE HER AN EDUCATION OR MAKE A CHORUS GIRL OUT OF HER!

WHY CAN'T EDITH BE IN THE PLAY? I THINK IT WOULD BE GOOD FOR HER.

IT'S TOO MUCH TROUBLE TO MAKE HER COSTUMES—WHEN I'M HAVING SUCH HEADACHES AND INDIGESTION.

WHAT DOES HE CARE HOW HARD YOU WORK AS LONG AS THE KID HAS A GOOD TIME?

YOU'VE BEEN FEELING BADLY FOR MONTHS, DEAR! LET'S GO AND SEE THE DOCTOR! COME ON—LET'S GO RIGHT NOW!

WELL... I SUPPOSE IF I DON'T GO, I'LL NEVER HEAR THE END OF IT!

YOU'RE MAKING A BIG MISTAKE! DON'T LET HIM BULLY YOU!

MRS. BARCLAY, I BELIEVE THAT COFFEE-NERVES IS CAUSING YOUR TROUBLE. I SUGGEST YOU GIVE UP COFFEE FOR 30 DAYS AND DRINK POSTUM INSTEAD!

CURSES! IF SHE'S SWITCHING TO POSTUM I'LL HAVE TO SCRAM!

THERE'S BEEN A REMARKABLE CHANGE IN YOU, DEAR... YOU'RE GETTING MORE FUN OUT OF THIS PLAY THAN EDITH IS!

THAT'S BECAUSE I FEEL LIKE MY OLD SELF AGAIN... SINCE I SWITCHED TO POSTUM!

"IT SEEMS strange that I coffee could hurt me! I thought it was bad only for children!"  
"Oh, no! Many adults, too, find that the caffeine in coffee can upset nerves, cause indigestion or prevent sound sleep!"

If you suspect that coffee disagrees with you... try Postum for 30 days. Postum contains no caffeine. It is simply whole wheat and bran, roasted and slightly sweetened. It's easy to make... and costs less than half a cent a cup. It's delicious, too... and may prove a real help. A product of General Foods.

Big Circus will be in San Angelo Monday, Oct. 7.

The great Hagenback-Wallace and Forepaugh-Sells Bros. Combined Circus will present afternoon and night performances in San Angelo on Monday October 7, and circus enthusiasts of this vicinity will be on hand to participate in the gala event.

To commemorate the combination of the famous old Forepaugh-Sells Bros. show with the largest trained animal circus in the world, many starting new features have been added for the 1936 program. These include Maria Rasputin, sensational European wild animal trainer and daughter of the famous Russian monk, Grigori Rasputin who ruled the Romanoffs with the power of his hypnotic eyes prior to his demise in 1916; Bert Nelson, youngest of the wild animal subjugators with more than a score of fighting, jungle-bred lions and tigers John Helliot, renowned German trainer of savage beasts; Maxine the comedian of the slack wire; the famed Christiani troupe of bareback riders in semisauit from horse to horse; the Flying Codonas, the Hills and a great group of aerialists; Rudynoff, noted equestrian and his educated horses; the Merckels, who walk upside down on lofty mirrors in the dome of the big tent; "Cheerful" Gardiner and twenty performing elephants; scores of clowns led by Earl Shipley, Paul Jerome and the Paul Jung Clown Acrobatic Trio; dozens of pretty equestriennes, a huge oriental spectacle and a big contingent of Indians, Cowboys and Cowgirls from the Pawnee Bill ranch at Oil Town, Oklahoma.

Performances will be presented at 2 and 8 p. m. with doors open one hour earlier in each instance to permit leisurely inspection of the world's largest and finest traveling wild animal menagerie which boasts among other zoological marvels a baby giraffe.

The Hagenback-Wallace and Forepaugh-Sells Bros. Combined Circus is a railroad show, moving on two trains of double-length steel cars.

President Taking Interest In Centennial Stamp.

No lesser individual than the President of the United States is supervising the designing of a special stamp to be issued by the U. S. Postoffice Department in commemoration of the Texas Centennial Stamp. President Roosevelt suggested it bear the portraits of Stephen F. Austin and Sam Houston with picture replicas of the Alamo and the battlefield of San Jacinto in the background.

In compliance with the President's suggestion, a design embodying these historic Texas figures and scenes was prepared by Anna Toomey, Dallas artist, and delivered to the White House. Publication of a Texas Centennial commemorative stamp now awaits upon approval of the final design by President Roosevelt and Postmaster General Farley.

Chesterfield Radio Programs Twice Weekly.

The Chesterfield radio program will be heard over KRFD, Dallas and other CBS stations Wednesdays and Saturdays, starting Wednesday, October 2.

The Wednesday program will be heard from 8:00 to 8:30, CST, and features Lily Pons, Andre Kostelanetz, orchestra and chorus.

The Saturday program, coming over the same stations at the same hour, features Nino Martini, Andre Kostelanetz, orchestra, and chorus.

The Liggett & Myers Tobacco Co., makers of Chesterfield cigarettes, have just issued a booklet that explains briefly the processes by which the broadcast is transmitted to the home radio.

The program is performed in a sound-proof studio or broadcasting theatre. The sound waves enter "mikes," come out as electric waves, and go by wire to the studio control room, where they are blended for volume—made softer or louder. Then to the Master control room, where they are routed out on schedule through a maze of wires, to stations all across the country.

Each broadcasting station changes electrical waves to radio waves and broadcasts them out into space. Your home aerial picks up the waves and your radio set changes them back into sound waves, which you hear as the voice of the performers.

All of this happens so fast that 3000 miles away you're hearing the program before it reaches the rear seats of the theatre.

The power of the waves received from control rooms is greatly magnified (10 million times) changed through huge vacuum tube radio energy and sent out through the air by the antenna or mast. And now the program is truly "on the air."

### The Supreme Court—Our National Empire

By RAYMOND PITCAIRN

National Chairman

Secretary of the Republic

Picture a seed-leaf diamond on the shoulders of any American... The home team is at bat—and going ahead. An exciting play occurs. In an effort to stretch a three-bagger into a home run, a player runs wide of the line. "You're out," cries the umpire. There is a moment of stunned silence. Then the home-team players break into loud reprobation. "Throw out the umpire," they shout. But the spectators—a typical American crowd—lean the disgruntled players down. Out of the clamor arises a clear voice. "The umpire," it announces, "is here to see that the game is played according to the rules that have made it success. If he didn't perform that duty, the game couldn't last. If he interpreted the rules to treat every player's whim, baseball would no longer be the orderly American game that we love. It would degenerate into a disorganized and un-American free-for-all. So let's keep the umpire and play the game according to the rules that have demonstrated their value and utility."

Broaden that picture a bit, and you get a rough analogy to something that's happening in the American political scene today.

Certain lawmakers and their followers are annoyed because the Supreme Court has pointed out that some of their legislative measures violate the body of rules under which our government operates—the United States Constitution. They fear that still other measures will suffer the same fate. So they want to weaken the authority of the Court as our official interpreter of the rules.

They are shouting, "Throw out the umpire!" Will they succeed? That's up to the people. No change so drastic in effect could be consummated without the consent of the voters. Fortunately, a nationwide reaction has shown the popular attitude.

The people are determined to retain a National Umpire who will hold lawmakers to the rules which make up a great, successful nation offering liberty and opportunity to all.

### JUDGED BY THEIR CATS

Miss Mott's Unique Way of Estimating Employers' Character.

"No, ma'am," said an Irish maid of much experience as she returned to a New York intelligence office the other day. "I didn't engage with that family. I don't like the looks of their cat." "Not their cat!" repeated the owner of the office in amazement. "Why, Katie, I'm sure they wouldn't keep a cat that was in any way dangerous." "Not dangerous, no, ma'am, but a restless, unhappy looking creature that didn't speak well for the family," replied the girl. "I always judge a family by their cat. A sleek, comfortable easy cat comes up and rubs against you means a quiet, good-natured family, and one that's not worrying about ways and means; but a nervous, unfriendly looking cat reflects a household which is on the verge of nervous prostration or financial ruin or some other horrible trouble. I've been living with families and studying their cats for 25 years and I've never known the sign to fail. A family that can't make its cat happy is one to make any servant miserable."
