The car owners of Tom Green County can aid tremendously in furnishing official information to the State-Federal Highway Planning Survey for use in working out a logical plan on which future roads and street construction will be based. Mr. R. M. Hanks, the Assessor and Collector of Taxes, has been given number of post cards which ask for fundamental information that is needed in outlining his future road program. These cards, to be distributed to car owners as they pay their 1937 registration fees, require no postage and are self-addressed. The number of cards which have been furnished Mr. Hanks was judged according to the number of vehicles which were registered in the county during 1936. The number of cards allotted to Tom Green County is as follows: 9300 for passenger automobiles, 2210 for trucks, 380 for trailers and motorcycles, and 20 for owners of five or more vehicles.

The business of constructing and maintaining highways, streets and roads has become a tremendous task within recent years, and it now affects the well being of every citizen. Obviously, every effort should be made to plan our public road system so that it will serve all car owners in an equitable manner and so that the tax burden for roads will be distributed justly. The information sought on these cards is vital to the establishment of an equitable, well-rounded program. In order to work out such a program, the Texas Highway Department and the United States Bureau of Public Roads are conducting a State-wide Highway Planning Survey, and it is to the advantage of each County to participate to the greatest extent possible.

Household Questions

Never fasten suspenders below the reinforced hems of stockings. Wash stockings with lukewarm lather and squeeze out gently—they'll ladder if they are wrung.

A pinch of alum added to the water when washing blue or green articles of clothing will prevent the colors from running.

Two or three slices of bacon placed on top of a liver loaf during baking adds to the flavor.

Press woollens the right side up with a woolen pressing cloth. Apply moisture to muslin cloth on top of wool and press with hot iron.

Don't use any kind of artificial heat for drying stockings. Hang by the toes in an airy place to dry and don't fold away damp.

When You Want to Alkalize Stomach Fast

Try This Amazing Fast Way—The "Phillips" Way Millions Are Adopting

On every side today people are being urged to alkalize their stomach. And thus ease symptoms of "acid indigestion," nausea and stomach upsets.

To gain quick alkalization, just do this: Take two teaspoons of PHILLIPS' MILK OF MAGNESIA 30 minutes after eating. OR—take two Phillips' Milk of Magnesia Tablets.

Relief comes almost at once—usually in a few minutes. Nausea, "gas"—fullness after eating and "acid indigestion" pains leave. You feel like a new person.

Try this way. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Each one equals a teaspoon of the liquid. Only 25¢ a box at all drug stores.

ALSO IN TABLET FORM: Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

Barbecue Chicken

Broil the chickens in the usual way and when they are dished pour over them this sauce:

Melt two tablespoonfuls of butter in a saucepan, add the same quantity of vinegar, a teaspoonful of made mustard, a strong dash of tobacco, a teaspoonful of Worcestershire sauce, a teaspoonful of sugar, a saltspoonful of salt and half as much pepper. Blend all together, heat to a boil and pour over chickens. Serves in 5 minutes. ©—WNU Service.

Tragedy of Marriage

"Emotion tests of both sexes show that men have more egotistical emotion and less love in their personality make-up than women," says William Moulton Marston, psychologist, discussing marriage in Good Housekeeping.

"Loss of a career may mean little to the average woman if her love nature is satisfactorily adjusted," he goes on, "but rarely will love take the place of success in a man's life even though the winning of a woman's praise may be the purpose underlying his search for fame. It is one of the tragedies of this artificial division of sexes that men waste their time seeking triumphs to please women, while women care far more for the men themselves than for their triumphs."

IF COLD is in YOUR CHEST do this now

Before you go to bed rub Penetro on your chest and throat, then apply hot cloth. Relief quickly follows because Penetro is stronger, contains 113% to 217% more medication than any other nationally sold cold salve.

And because Penetro has a base of mutton suet, it conserves and concentrates body heat to enable this stronger medication to help nature break up congestion. The aromatic vapors of Penetro also help to relieve stuffiness and soothe the inflamed area.

Senate Committee Studies Supreme Court Scheme

CHAIRMAN HENRY F. ASHURST of Arizona gathered together the members of his judiciary committee and began formal consideration of President

Roosevelt's proposition for federal judiciary reform, including the packing of the Supreme court. It was understood the committee would arrange for public hearings at which opponents and proponents of the plan would be heard.

Sen. Ashurst privileged to speak their minds. Not long before, Mr. Ashurst and several other senators were called to the White House to discuss the strategy of the fight the administration faces. The Arizona senator and Majority Leader Joe Robinson of Arkansas, who was among the conferees, only recently were vociferous in declaring a constitutional amendment was the only proper way to accomplish the President's purpose. But now they are obediently supporting the administration measure.

Senators Frazier of North Dakota, Bone of Washington and Nye of North Dakota also were summoned to the White House, but what they heard there did not change their stand against the President's plan. Mr. Nye, indeed, soon after delivered a radio address against it. He did not especially defend the Supreme court, but said he thought there are better ways of attaining the objective in conformity to the Constitution than the way of packing the court proposed by Mr. Roosevelt. He could not see "wherein an 8-7 decision is any more desirable than a 4-5 decision, which has served to agitate us against the alleged course of permitting the Supreme court to declare acts of congress unconstitutional.

"However foreign to the President the thought of dictatorship may be, in connection with his present request it is good warning to look out—not for him necessarily, but for those who would in other days have opportunity to use the power which he would have us now extend."

Ex-President Herbert Hoover in an address before the Union League club of Chicago uttered solemn warning that the President's plan was a serious threat against the ultimate safeguard of liberty, and condemned any such "quick and revolutionary change in the Constitution."

At this writing 32 senators have declared publicly against the bill; 30 are on record for it, and 34 have not committed themselves. The administration leaders expected to pick up at least 12 from the non-committal group, and claimed more.

Winant Quits as Head of Social Security Board

JOHN G. WINANT, who as chairman of the social security board had a lot of trouble with certain senators over patronage and whose reappointment to membership on the board had not been confirmed by the senate, sent his resignation to the President. Mr. Roosevelt said Mr. Winant was retiring to attend to pressing private business and would be back in the federal service before very long. The former governor of New Hampshire has been considered a logical candidate for the post of secretary of social welfare if that department is created by congress.

Arthur J. Altmeyer

Succeeding Mr. Winant as chairman is Arthur J. Altmeyer, already a member of the board. To fill the vacancy in the membership the President nominated Murray W. Latimer of New York, who has been chairman of the railroad retirement board.

Sit-Down Strike Worries Governor of Illinois

GOV. HENRY HORNER of Illinois and Martin Durkin, his state director of labor, were making earnest efforts to bring about a peaceful settlement of a sit-down strike in the plants of the Fansteel Metallurgical corporation at North Chicago. Their problem was much like that faced by Governor Murphy of Michigan in the General Motors strike. The sheriff of Lake county, armed with contempt citations, had tried to evict the strikers but he and his force of deputies were repulsed and it was reported he would not take the sole responsibility of clearing out the plants by force.

The corporation had refused to treat with outsiders who sought to represent the employees who belong to a union allied with the C. I. O. The heat had been turned off in the plants, but when the weather turned

cold President Aitchison of the company ordered it turned on again, believing a majority of the men in the buildings were held there against their will.

Governor Hoffman of New Jersey is one executive who has taken a firm stand against the sit-down strike. He announced that he would use all the resources of the state to prevent such seizures of property. The C. I. O. organizers denounced him as an enemy and "the strike-breakers' candidate for President," and went ahead with their unionization activities in the steel, wire and rubber companies of New Jersey. Their field director said:

"When C. I. O. workers decide to use sit-down strikes, they will use them. We pay no attention to Governor Hoffman. We know our legal rights."
John L. Lewis' threat, during the General Motors strike, that "Ford and Chrysler are next," is being carried out. The United Automobile Workers union sent to Walter P. Chrysler demands that the U. A. W. be recognized by his corporation as the sole collective bargaining agency.

Union Labor Takes Hand in Navy Steel Affair

BOTH the American Federation of Labor and the Committee for Industrial Organization accuse steel manufacturers of collusion in refraining from bidding on navy steel contracts and have instructed their chiefs to ask the Department of Justice to investigate the reasons for a shortage of armor plate needed by the navy. President William Green of the A. F. of L. said he believed the absence of bids was caused by desire on the part of steel makers to avoid labor restrictions of the Walsh-Healy act.

Wm. Green

"The federation council took a very definite position," Green said. "We could not sponsor or favor any modification of the Walsh-Healy act that applies to those steel corporations refraining from bidding."

"The American Federation of Labor sponsored that bill and it is a reasonable and fair measure providing work standards that are responsible and fair. We gain the impression that there is collusion on the part of the steel corporations because no single steel company has submitted a bid."

Death of Congressman James P. Buchanan

CONGRESS lost one of its really useful members when James P. Buchanan of Texas died of heart disease at the age of seventy-three. He was chairman of the powerful house appropriations committee and personally was an advocate of rigid economy. The chairmanship now goes to Representative E. T. Taylor of Colorado.

Nanking Offers Peace to Chinese Communists

OFFERING to make peace with the Chinese communists against whom it has waged war for ten years, the National government at Nanking announced the terms on which those Reds would be allowed participation in national affairs. The Kuomintang's demands are: Abolition of the communist army and its incorporation in the National government forces; dissolution of the Chinese communist state and its unification with the central government; cessation of red propaganda opposed to Kuomintang principles, and stoppage of the class struggle which divides society into antagonistic classes and invites mutual destruction.

That the Nanking government is steadily growing stronger is made evident in the more conciliatory attitude adopted lately by Japan. A spokesman for Hayashi's new cabinet in Tokio indicated Japan was willing to abate its demands for simultaneous settlement of all pending Sino-Japanese incidents and negotiate separate settlements for each.

Viceroy's Life Attempted by Ethiopian Bombers

THAT Italy's conquest of Ethiopia does not yet embrace all Ethiopians was demonstrated when a shower of hand grenades was hurled at Viceroy Rodolfo Graziani in Addis Ababa by natives. The viceroy was only slightly injured but several in his suite, including Air Gen. Aurelio Liotta and the Abuna Cyril, Coptic bishop of Ethiopia, were severely wounded. The attack took place just before the close of celebrations for the birth of a son to the crown prince of Italy.

The assassins escaped in the confusion, but the army and police started on a relentless manhunt and soon had more than 2,000 natives under arrest.

First Stirrings of Spring

THE chic young miss above, camera, says, "I make my own clothes. I learned sewing from Mother first, got a touch of it in school, and a real exposure in 4-H activities. I choose this dress for Spring because it looks like Spring, and because it takes the minimum of time and money. Puff sleeves and princess lines give a formal note if I wish to impress the folks (which I often do) and the peplum jacket is added for frivolous reasons—when I want to feel a bit sophisticated, and it makes a sweet all-occasion dress."

A Practical Choice.
The Lady on the Left says, "I'm practical. I choose patterns that I can cut twice; then I have a gingham gown to set me off in my kitchen and an afternoon dress in which to entertain the Maggie-Jiggs club. The all-of-a-piece yoke and sleeves make me look years younger, the shirred pockets give the decorative note every dress needs, and I can run it up in an afternoon."

Three-Purpose Pattern.
The Girl in the Oval has a far-away look in her eyes. She says it's because she wears glamorous blouses like this one. She cuts her pattern three times—no less—and evolves a blouse in eggshell for her velvet skirt; one in velveteen for her tweeds, and the third in metallic cloth for after-five activities. "The skirt with its simple well directed lines is equally well suited to tweeds for sport, velvet for dress and wool for business," says Madam.

The Patterns.
Pattern 1832 (above left) comes in sizes 32 to 44. Size 34 requires 4 3/8 yards of 39 inch material.
Pattern 1263 (above center) is designed in sizes 12 to 20 (30 to 40 bust). Size 14 requires 4 3/8 yards of 39 inch material for the dress and 2 1/4 yards for the jacket—to line it requires 2 1/4 yards of 35 inch material.
Pattern 1958 (above right) is available in sizes 14 to 20 (32 to 46 bust). Size 16 requires 2 3/4 yards for the blouse in 39 inch material and 2 yards of 54 inch material for the skirt.

STAR DUST Movie Radio

OVER at the Paramount studio you are just a wallflower if you don't know your American history.

To the great success of "The Plainsman" goes the credit—or the blame—for all this pride in the past.

Actors are apt to be a pretty gloomy and pessimistic lot when you know them well. They are always worrying because the career of an actor is apt to be short, always pointing out men in the extra ranks who only a few years ago were stars.

For weeks Clark Gable has been completely mystified by receiving high offers for the decrepit old Ford Carole Lombard sent him as a valentine last year.

Instead of raving about Henry Fonda and Sylvia Sidney in the gripping tragic "You Only Live Once," Hollywoodians come out of the theater making up silly couplets.

Susan Fleming thought that she had retired from the screen when she married Harpo Marx, but she made the mistake of stopping in at the studio to have luncheon with her husband, and first thing she knew the director called out, "That girl over there—she's just what I've been looking for."

Ginger Rogers is not only the most popular girl in Hollywood these days; she is the most surprising. Night after night she is out dancing with one of her many beaux—Jimmy Stewart, or Cary Grant, or the visiting socialite, Alfred Vanderbilt—but all that gayety hasn't stopped her from breaking into a new career.

Myrna Loy isn't complaining, but she does think wistfully nowadays of W. S. Van Dyke, and the way he can direct a marvelous picture like "The Thin Man" or its sequel in eighteen or twenty days.

ODDS AND ENDS: No love scenes have been filmed in any of the studios for the past week and more because of the flu epidemic...

HOW ARE YOU TODAY DR. JAMES W. BARTON Talks About

Chronic Arthritis. WHEN we see so many individuals crippled with rheumatism we may wonder what chance they have of living for any length of time.

Dr. Barton

where the arthritic or rheumatic symptoms had existed for less than five years were not included in this study. The duration of the rheumatic symptoms ranged from five to twenty years.

In any group of so-called arthritic patients 68 per cent (about 7 in 10) can be assured of improvement. The remaining 32 per cent or 3 in 10 are the ones which Dr. Nissen states physicians should carefully study.

Knowledge Worth the Effort. This may mean patience and effort but the knowledge gained will be worth the effort expended if it proves to show the degree of arthritic disturbance, and what the future holds out in the way of encouragement for the patient.

It is only by this long patient effort that the physician can really know whether his care of the case has been good, bad or indifferent.

There is no question but the above advice is sound because when an ailment is an old or chronic one such as arthritis, the patient, and the physician also, are apt to try various treatments for short periods of time in an endeavor to get or give quick relief.

The Building-Up Foods. In the early days of the automobile many of the women of the country and the villages cast covetous eyes on the sleek, well-fed well rounded women of the city who went by in the open automobiles of those days.

And today, we find that our women of the country and village, and even of the city itself are not at all anxious to look sleek, well fed and plump.

Naturally then for one who wishes to increase weight the main thought is rest, light exercise to induce appetite and prevent constipation, and a little extra food, rich in food value.

However, despite the fact that a tendency to thinness or leanness seems to run in some families, many individuals are underweight because of some infected teeth or tonsils, chronic sinus infection or tuberculosis—that is, some underlying slow or low infection.

The idea of a rich or high caloric diet is to make sure that the food contains all the materials needed for the various tissues of the body, and to this is added a further amount of food to build extra tissue or to replace tissue that has been lost.

As mentioned before, starch and fat foods are the great energy givers, and proteins—meats, eggs, fish, cereals—are the great builders or rebuilders.

Dwelling on Grievances— Power of Trouble Is Increased And Distributed by Talking of It

THERE is a curious and very much mistaken idea that by talking of our grievances and our troubles, we decrease their power over us to make us miserable.

Making Misery. If the person to whom we speak is near and dear to us, our troubles weigh on them almost as their own.

Sympathy Versus Help. We have only to consider the effect on ourselves of listening to others talk of their worries, misfortunes, and hard luck, to realize the depressing power of such conversation.

When we are awakened to the fact that talking of our woes adds to those of the listener without lessening ours, that we are implanting troubles in the minds of others, we surely will try to be more careful about giving vent to the misfortunes by talking about them.

Winning Out. If, instead of dwelling on our grievances, we discuss pleasant topics, we are not only giving pleasure to others, but we are actually doing ourselves a kindness as well.

Catholicity of Taste. Our purity of taste is best tested by its universality, for if we can only admire this thing or that, we may be sure that our cause for liking is of a finite and false nature.—Ruskin.

When we are awakened to the fact that talking of our woes adds to those of the listener without lessening ours, that we are implanting troubles in the minds of others, we surely will try to be more careful about giving vent to the misfortunes by talking about them.

Travel to Egypt Began

About the Year 900 B. C.

Commercially inspired tributes to Egypt indited by travel writers seem fulsome and weak when compared with the comments of Herodotus, who traveled through that land some 2,800 years ago, according to an authority. His plain statements were more forceful than any subtle use of adjectives.

"Of Egypt I shall make my report at length," his discourse begins, "because it has wonders more in number than any other land, and works too it has to show as much as any land, which are beyond expression great." Eminent a man of the world, the most widely traveled of his age, Herodotus nevertheless could not contain his astonishment at many of the sights in Egypt.

He called the Nile "unlike any other river." He evinced great respect for the mental attainments of the Egyptians—"the most learned in the history by far of all those of whom I have had experience." But it was on the subject of Egypt's enovned climate that the Greek philosopher-historian showed himself at his best. "The Egyptians," he wrote, "are the most healthy of all men next after the Libyans, in my opinion on account of the seasons, because the seasons do not change." That single sentence contains the gist of many dissertations on the healthfulness of Egypt's un-failing sunshine.

What a fight has been going on over the Drugstore boy's ring!

It seems as if Elizabeth is down and out since last Sunday.

Sea Lions Use Sense of Smell by Touching Noses

Sea lions, like dogs, use their sense of smell by touching noses to identify one another at close range, but fail to react to distant odors. They are adept at spotting moving objects from considerable distance. Except when off on fishing excursions, they are gregarious by nature, collecting in large groups on favorite rocks or rookeries and generally making a big fuss and noise over nothing. About the only time they ever become hostile is when their pet place in the sunshine is challenged.

The cows have only one pup a year. If anything happens to the mother, the pup will die, because no other mother would adopt it. They are not like dogs or cats or other animals in this respect, says a writer in the Los Angeles Times. A peculiar habit of the cows approaching pupping time is to form "rafts" by lying bellyside up in the water, with their flippers protruding above the surface. From a distance a string of eight or ten cows floating end to end this way resembles the charred remains of a boat that has burned to the water's edge, with only stubs of the ribs left showing. This is probably a means of absorbing beneficial rays from the sun.
