Mrs. JOSIE FORD, 100 South Washington Ave.,

"It has been some ten years since I used Dr.
Pierce's Favorite Prescription, but I can't say
too much in favor of what it did for me and
have spoken highly of it many times as I am
a nurse and have used it in many cases myself.
Hope this may be a help to some one who
needs relief."

THE WORD HELL.

**A Little Book That Contains Some
Startling Information.**
A little book selling at only five cents,
postpaid, is having a very wide circula-
tion—running up into the millions. It con-
tains some very startling information re-
specting the meaning of the word Hell. It
claims to demonstrate, both from the He-
brew and the Greek of our Bible, that
Hell is not a place of eternal torment,
but merely another name for the Tomb,
the Grave, the State of Death. It affects
to show that man was not redeemed from
a far-off place of eternal torture, but
quotes the Scriptures proving that he was
redeemed from the Grave at the cost of
his Redeemer's Life and that the Scrip-
tural Hope, both for the Church and the
World, is a resurrection hope based upon
the death and resurrection of Jesus. The
book is certainly worth the reading. The
information it furnishes is certainly val-
uable, far beyond its trifling cost. Order
it at once from the Bible and Tract So-
ciety, 17 Hicks Street, Brooklyn, N. Y.

NOT FOR THE CONSULATE. The schoolmaster wanted to know whether the boys had an understanding of the functions of a consulate.

"Supposing," he began, framing his question in the likeliest way to arouse the interest of his hearers, "supposing some one took you up in an aeroplane and after a long, exciting flight dropped you down thousands of miles from home, in a country quite foreign, what place would you seek out first of all?"

An eager hand was instantly uplifted. "Well, Willie, what do you say?" "Please, sir, the hospital."—Pittsburg Dispatch.

SCHOOLS CONTEST AUSTIN, MAY 7-8

University Station, Tex., April 3.—Director E. D. Shurter announces that preparations are under way for the fifth annual state meeting of the University Interscholastic League, which will be held at the University of Texas May 7 and 8.

On this occasion hundreds of students, together with a large number of their parents and teachers, from different parts of the state, will meet for the annual contests in debate, declamation, tennis and track. In order to compete in the state contests in debate, declamation or tennis a boy must have won the honors in his district contest, there being sixteen districts in the state. As preliminaries to the district contests, meetings of the league are now being held in various counties. The champion debating team, tennis team, senior and junior declaimers for boys and senior declaimer in the contest for girls from each county in a given district will compete for the district championship some time between April 15 and 25.

In some districts a track meet is also held in connection with the other events. A track team is not required to compete in a county or district meet in order to enter the final meet at the university; but to be entitled to a share of the rebate of railroad fare a track contestant must qualify in his county meeting, there being a specified number of such track representatives apportioned to each county, according to membership fees, number of schools represented and number of competitors in the county meet. Emphasis is thus placed upon the county contests.

In many counties, sub-county contests are held as preliminaries to the final. "It is conservatively estimated," said Prof. Shurter today, "that at least 100 counties in the state will hold the annual contests this year. Considering the number of local, public trout contests at each school for the purposes of selecting representatives in the different events and considering, also, the sub-county, county, district and final state contests, at least 5,442 speeches will be made this year by 3,750 boys and girls in declamation contests of the University Interscholastic League and 2,096 debates on the subject of immigration, before at least 99,100 people."

There are at present 179 schools enrolled in the league, which is a decided increase over the enrollment of 502 for last year. It is expected that next year the membership will reach 1,000 schools. Many university men have recently attended meetings of the league in various counties of the state and a number of requests for similar visits have been received for the contests during the next two weeks. Last week some of the more notable county contests were those held in Gansales, Atascosa, Shelby, Franklin, Bowie, McLennan and Johnson counties.

The Johnson county contests at Grandview were attended by 4,000 people, according to the report of Superintendent N. O. Robbins. On April 2 and 3 State Chairman E. D. Shurter attended what probably proved to be the largest county meeting to be held in the state, this being the Collin county meeting at Plano. Superintendent Black

man, in charge of this meet, had entries for about two hundred track contestants, about thirty-five contestants in declamation, six debating teams and five tennis teams. Collin county is the banner county in the point of membership having enrolled forty-four schools.

A. J. Robinson, athletic director, attended the Hays county meeting at San Marcos on April 2, in which every school of importance in Hays county participated. Prof. H. J. Ettlinger and N. H. Moore represented the university at the Bell county contests held at Belton, April 3. Other counties holding contests this week are Montague, Coleman, Liberty, Wichita, Mitchell, Kleberg, Fannin, Ellis, Hunt, Wharton, Comanche, Young, Pannaola, Clay, Jefferson, Victoria, Trinity, Wilbarger, Parker, Hardeman and Williamson.

TEST KEROSENE SHOWS ONE QUALITY, TWO PRICES

University Station, March 31.—Nine samples of kerosene bought here and there in Austin, were taken to the Bureau of Economic Geology for testing. Some of the samples were from stock retailing at 13 cents per gallon, other samples were from stock retailing at 15 cents per gallon. The 15-cent kerosene is supposed, of course, to be of better quality. Not so. The tests made show the price to be the only difference. For all practical purposes the 15-cent oil and the 13-cent oil are one and the same. The buyers of the 15-cent oil, samples of which were tested, are simply getting stung for two cents a gallon. Some say the cheaper oil gives out a smokier flame. "Depends upon the lamp or device burning it," says the tester at the laboratory.

The three tests made of these oils determined (1), the flash point, that is, the degree fahrenheit at which the oil will "flash" in the device constructed for making this test; (2), the burning point, that is, the degree fahrenheit at which the same sample which has been "flashed" will catch fire in this same contrivance; and, (3), the specific gravity, which, of course, is determined in the ordinary way. From these three tests the commercial quality of oil is determined. If it is customary over the state to sell the same oil at two prices, it is the advice of the Bureau of Economic Geology that consumers have samples of the oil they buy tested.

"ARE WE ATHEISTS AND INFIDELS?"

Under the above caption, the editor of the University Daily Texan, the first college daily in the South, editorializes in a recent issue as follows:

"Are we atheists and infidels? The question is absurd. You might as well ask if the population of Texas was composed of atheists and infidels? Some of us are; most of us are not. We come from Texas homes of all types and we represent all types of belief that one would find in Texas homes; if we did not, we would not be fulfilling our duty as a state institution which was built for all the people, and for the support of which all the people are taxed.

"Some people seem to think that coming to this institution transforms a man completely, changing the religious views to which he has held for eighteen or twenty years. Such an opinion is false. This is no monastery, either of atheism or Christianity. As a corporation with a definite religious policy, the

University of Texas would compare favorably with the corporations of Victoria, Midland or Sherman. We are a heterogeneous mass of people, largely unacquainted with each other, studying all sorts of subjects under all sorts of instructors and thinking all sorts of ways. The student body of the University of Texas is just about as rich, just about as poor, just about as pious, and just about as sinful as is the population of Texas. In other words, we are a true university, truly representing the people of Texas.

"Are we atheists and infidels? Does the Austin fire whistle blow harder than a West Texas nother? Do you prefer Swiss, American or green moon cheese with your sandwich? Say, what are you talking about? We are not atheists and infidels, we are young men and women of Texas."

SCHOOL APPORTIONMENT LARGEST OF THE YEAR

Austin, Tex., April 1.—Apportionment of the available school fund for the month of April was announced today by state superintendent W. F. Doughty.

The amount apportionment is \$2 which is the largest yet made this year, this being based on 1,100,000 scholastics in Texas.

This makes a total of \$6 so far apportioned this scholastic year, and leaves \$2 yet to be apportioned, the total annual apportionment being \$8.

CABINET HEARS BUSINESS IS STEADILY IMPROVING

Washington, April 2.—Business conditions throughout the country show a steady improvement, according to reports made by Secretary of Commerce Redfield at today's cabinet meeting. The secretary presented extracts from various representatives reflecting better conditions in many lines.

SUN SPOT NOW VISIBLE

Washington, April 3.—A large sun spot has been discovered by the Naval Observatory. It showed on a photograph taken at noon, Mar. 29, and probably will be visible until April 10. It may be observed by using one side of an ordinary opera glass with a piece of smoked glass.

ADVERTISING BILL IS VETOED BY GOVERNOR

Austin, April 2.—Governor Ferguson yesterday vetoed the house bill requiring that every advertisement contain the name of the person who caused it to be inserted and the name of the person paying for it. The governor classed it as a useless restriction on the freedom of the press.

This world is full of freaks and freak actions of bodies of men. The above is one of the freak bills which was passed by the last Texas legislature, and we are glad to see that our governor had the nerve and sense to veto it.

TOLD THAT THERE WAS NO CURE FOR HIM.

"After suffering for over twenty years with indigestion and having some of the best doctors here tell me there was no cure for me, think it only right to tell you for the sake of other sufferers as well as your own satisfaction that a 25c bottle of Chamberlain's Tablets not only relieved me but cured me within two months although I am a man of 65 years," writes Jul. Grobier, Houston, Texas, Obtainable everywhere. Sold by all dealers. (Advt.)

True charity consists of opening the purse and keeping the face closed.

It's the high spots that knock out the rolling stones.

It's easier for a young man to raise a row than a mustache.

A genius is a man who knows when to keep his face closed.

The man who is unable to bear misfortune is truly unfortunate.

An old bachelor is a man whom no widow has made a strenuous effort to marry.

Self-conceit is a good thing not to let run loose.

Every married woman is selfish in one respect at least. She won't allow others to share in the pleasure of abusing her husband.

And sometimes a man is misunderstood because there is nothing in him worth investigating.

A woman believes that it is her husband's honesty that keeps them poor.

Many a first class kitchen mechanic is made over into a tenth-class actress.

REMINGTON UMC

AUTOLOADING SHOTGUNS

ANY way you look at it, the Autoloader is the highest development in modern shotgun design. It puts five loads at your disposal by merely pressing the trigger. It puts the recoil to useful work—to eject the empty and slip in the fresh shell. It saves the gunner's shoulder—rids his sport of annoyances—increases his shooting average.

Your danger is that in your enthusiasm over the autoloading principle, you may forget to insist on getting the finest embodiment of that principle—the Remington-UMC Autoloading Shotgun.

The peculiar advantages of the Remington-UMC are too many to detail here. What you want to do is to get one of the Remington-UMC dealers in this section to demonstrate them to you on the gun itself.

REEVES COUNTY A GOOD CABBAGE COUNTRY.

Mr. Chris Ritz has proven beyond
a question of a doubt that this is a
splendid place to raise cabbage, by
showing what can be done.

He brought in and delivered to
O. J. Green's grocery one hundred
pounds of as fine, if not finer, cab-
bage as has ever been seen in Pe-
cos. They ranged in weight from 9
to 11 1-2 pounds each, were of nice
color and perfect flavor.

Mr. Ritz lives on his farm-ranch
several miles southeast of Pecos
and raises a great deal of garden
truck for himself and also some for
sale, but is not making that a busi-
ness.

Now Mr. Ritz does not claim to
be an expert gardner nor farmer,
but uses common sense and muscle
and gains results. What he does on
a small scale could be done on a
greater and also more profitable
scale, for you can grow a large crop
of vegetables and such things at a
cheaper rate than you can a small
amount.

TAKE CARE OF THE CHIL- DREN.

A lingering cold, distressing
cough, sleepless nights, a raw, in-
flamed throat lead to a run-down
condition in which the child is not
able to resist contagious diseases.
Foley's Honey and Tar is truly
healing and prompt in action. It
relieves coughs, colds, croup and
whooping cough. Contains no opi-
ates. Sold by Pecos Drug Com-

GLORIOUS INAUGURATION OF WORLD'S GREATEST INTERNATIONAL CELEBRATION ASSURES CONTINUED SUCCESS

With an attendance for the first week greater than the combined attendance for the same period of the world's expositions at Chicago and St. Louis, the Panama-Pacific International exposition at San Francisco has started on a career that the most conservative judgments predict will break all records of exposition success.

The exposition opened on February 20, 190 per cent complete structurally, and opened an attendance of one quarter of a million people. From every state of the United States and from the nations of the world came critical visitors to pass on the merits of the celebration that had been so widely heralded. They found nothing to criticize. Every claim made by San Francisco and the exposition was fulfilled. It is safe to say that not a single visitor went away disappointed. The result has been that the advertisement by word of mouth, and by letters home and to friends--the most powerful form of advertisement--has been given the exposition. In consequence the transportation companies report a constantly increasing booking for travel to San Francisco both by land and water.

Exceptionally low rates have been given by the transportation companies from all points within the United States to San Francisco, offering many people an opportunity that could not otherwise be taken, of combining a pleasure journey to the exposition with a sightseeing tour through California and the West.

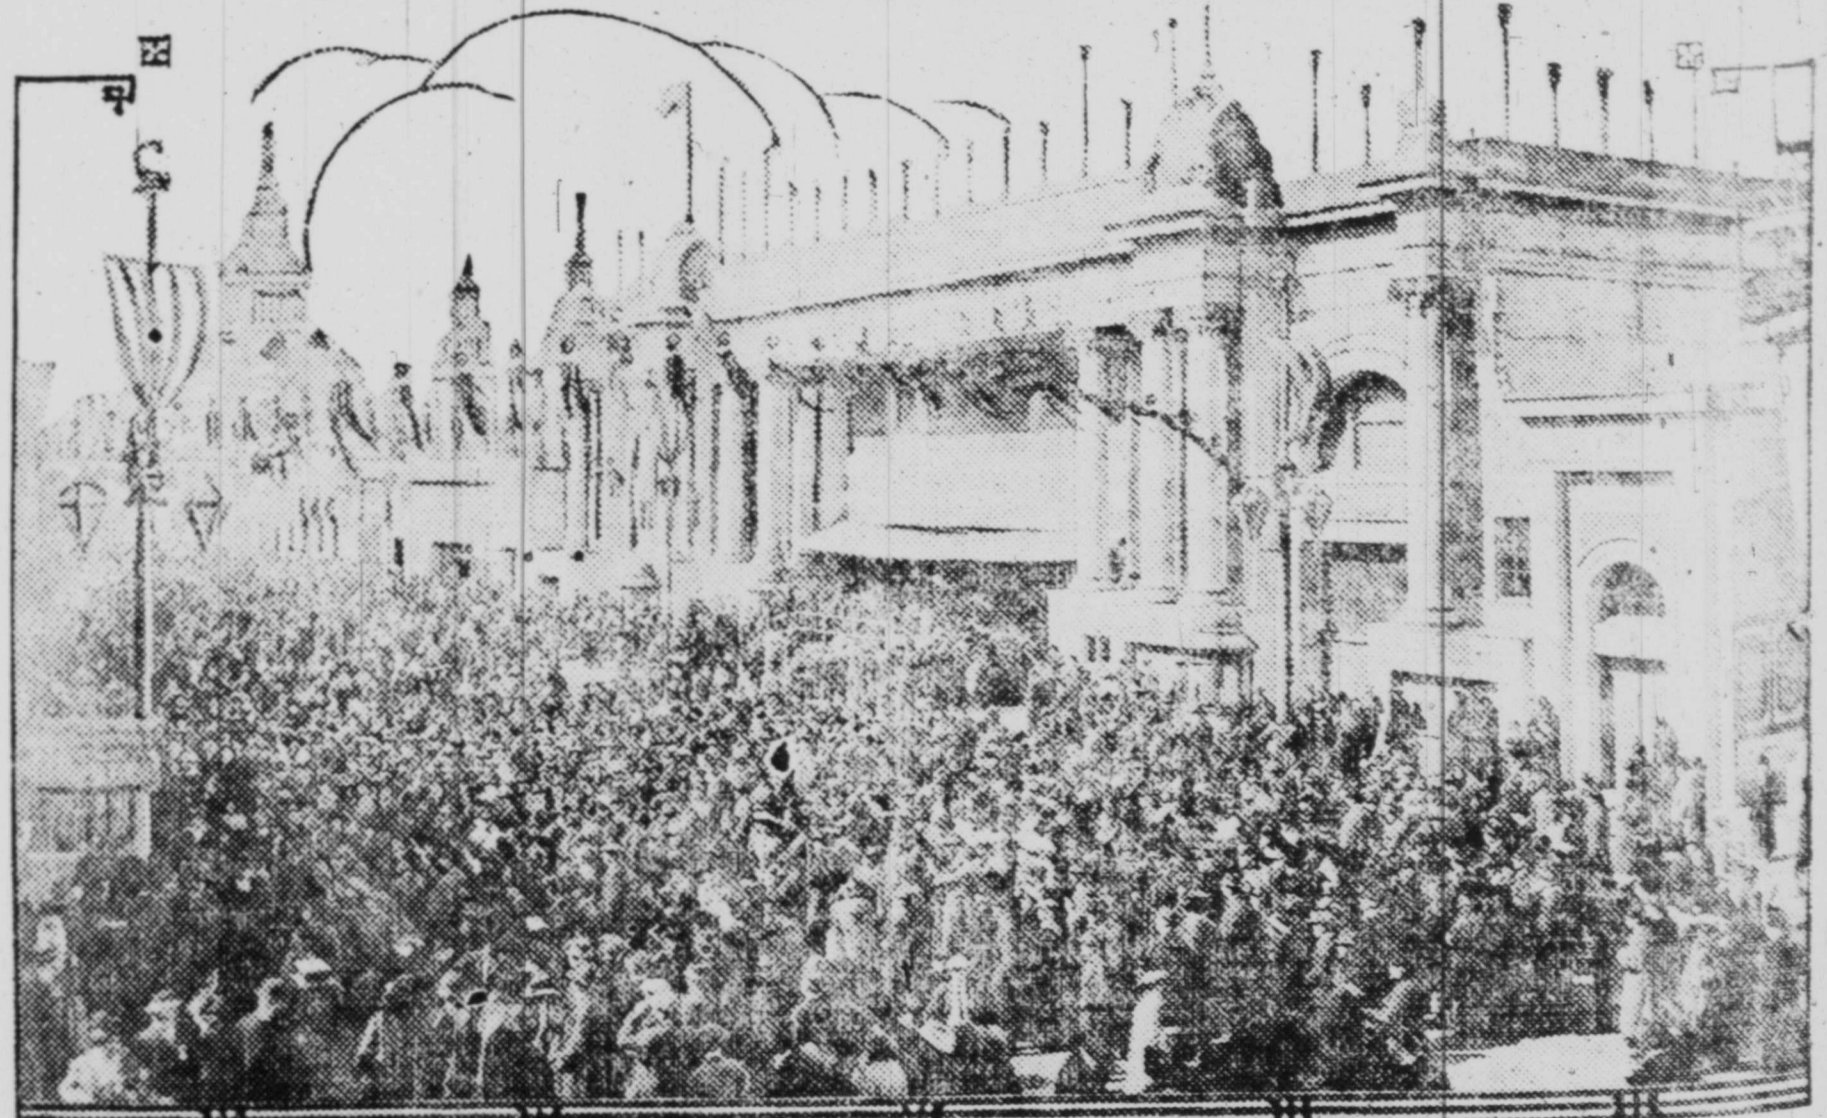

A feature of the exposition that has called for universal comment is the "action" that marks exhibits, ever exhibit capable of operation by steam or electricity being shown in motion.

A flood of inquiries concerning rates and hotel accommodations has been received by the information bureau of the exposition since the news of its successful opening was flashed around the world, all such inquiries being given prompt attention. San Francisco and California are fulfilling their host duties and living up to the reputation the West has always had for hospitable treatment for the stranger.

HANDSOME SIXTY-PAGE BOOK ON THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION SENT FREE OF CHARGE TO ANY ADDRESS.

Those who are interested in this great exposition may obtain free of charge a handsomely illustrated book of sixty pages, reproducing the exhibit palaces in their natural colors and giving essential data about the exposition, San Francisco, California and the Panama canal. THE "ZONE," THE PLAYGROUND OF THE PEOPLE OF THE WORLD AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION

Through the center of the Zone, the amusement section at the Panama-Pacific International exposition at San Francisco, runs a broad avenue three thousand feet in length. It is not unusual for this entire avenue to be jammed with entertainment seekers who are busy patronizing the one hundred concessions on the Zone. An exact reproduction of the Panama canal is one of the popular and instructive features, there being a constant line both day and night of people eager to see the workings of the miniature canal. The premier showmen of America have assembled here their finest offerings of amusement, edification and instruction.
