## YOU SEEN A STRAY TURTLE?

Last Sunday night a large turtle, of the soft shell species made its escape from the yard of Jim Prewit, and is now at large, a menace to the neighborhood, and a terror to the youngsters who now play with their shoes on for fear the reptile lurking in a nearby bush, may annex a toe or two, or, what is worse, catch hold and hang on until it thunders.

Jim had visions of a bountiful dinner, for it is said that this particular kind of fish makes a delightful soup; fits for the gods, but his stake rope was too small for the job. Hence the escape, and a dinner, minus.

So if you happen to see a stray turtle ambling down the street, just head him off and notify Jim.

We forgot to state that the turtle originally belonged to a party unknown, and broke loose from its original moorings Saturday night, and wandered on Jim's premises, causing the original owner a great deal of worry, no doubt. It might be that they are like hens, hard to break in to a new roost, and might have wandered back to its first owner. We know they lay eggs.

In the meantime, the old game goes merrily on: "Turele, turtle, who got the soup."

## FAIR NOTES AND JOTS

EVERYTHING WORKING NICE FOR THE FAIR.

The catalog will be ready to go to press Monday. People of Pecos, Fort Worth, Dallas and El Paso have contributed nicely, which means that we will have a nice list of premiums for all classes of exhibits.

If you have anything to show at the fair write E. G. Doty, secretary, and he will gladly furnish any information you wish, as it will be three weeks before the catalog will be issued.

E. G. Doty, secretary of the Fair Association reports that he has had letters from horsemen from El Paso San Angelo, Sweetwater, Barstow, and Big Springs, asking for the racing program of the Reeves County Fair.

Get your ponies ready, boys, and keep some of the money at home. More horsemen are going to attend this year than ever before.

Come to the Reeves County Fair. Elaborate Exhibits. Rivalry Racing.

### REEVES COUNTY FAIR.

A good, Live Fair in a live town. Sight for the serious and fun for the frivolous.

Miss Hallie Weyer has accepted a position with the City Pharmacy as bookkeeper.

## SCHOOL TRUSTEES MEET

The school trustees recently elected for the Pecos Independent School District met Tuesday at their first regular session and duly organized by electing Judge Jas. Ross chairman, and J. G. Love, as secretary.

At this meeting the following were elected to have charge of the school for the coming year:

Prof. F. F. Mace, re-elected Superintendent.

A. P. Cummins, Principal. Teachers—Miss Donnelly, Latin; Miss Germany, History; R. D. Jackson, Seventh; Miss Zimmer, Sixth; Miss McCarver, Fifth; Mrs. Wylie Cole, Fourth; Mrs. R. D. Jackson, Third; Miss Collings, Second; Miss Lagle, First.

The Mathematics teachers have not been elected yet.

The date set for the opening of the term was September 6, 1915.

## OFF TO EASTERN AND NORTHERN MARKETS.

H. W. Hinkle left Monday for the Chicago and New York markets to select the Pecos Mercantile Company's fall and winter stock of rdy goods, clothing, notions and other lines. He expects to be gone three or four weeks.

Mrs. Hinkle accompanied him as far as Dallas where she will visit with her mother, Mrs. W. M. Milligan and other relatives and friends while Mr. Hinkle is away and will return with him.

## MOVED LAW OFFICE TO SYNDICATE BUILDING.

Last week attorney Clay Cooke moved his office from the rooms over the Pecos Valley State Bank to Suite No. 4 in the Syndicate Building.

He has recently purchased his partner's interest in the law firm of Hefner & Cooke, also Judge Hefner's law books, which gives him one of the largest and best libraries in West Texas. Success to him.

Mr. and Mrs. W. A. Collins and baby left last Friday for Hugo, Oklahoma, where Mr. Collins will take charge of the management of the Hugo Furniture Company which is owned by the Rodgers-Wade Furniture Company—wholesalers—of Paris, Texas. We are sorry that Mr. and Mrs. Collins have left Pecos, but they were looking out for their best interests and he was offered a much larger salary there than he was receiving here. The Times joins with their hosts of Pecos friends in heartily wishing them the success in their new home that they are so deserving of. The Times will make them weekly visits so as to keep them posted on the happenings in this part of the Great Southwest.

Mr. and Mrs. Brawley Oates and family left yesterday after a short visit with the family of her daughter, Mrs. Ora Beauchamp and numerous other friends. Mr. Oates reports that they recently had a fine rain in his part of the country. And that his stock are looking fine.

## Camp Meeting

The Camp Meeting at Skillman Grove began on the night of Wednesday, July 21st, 1915.

Please tell all the folks that they are invited to attend

W. B. BLOYS  
July 22, '15 Ft. Davis, Texas

## A NEW MANAGER FARMER CHRIS RITZ

NEW MAN IN THE FURNITURE DEPARTMENT.

Mr. J. E. Wells is the new manager of the Furniture Department of the Pecos Mercantile Company, and assumed his duties Monday morning. Mr. Wells has had many years experience in the furniture and undertaking business and is well qualified to carry on the work in this line.

He comes from Hillsboro and arrived in Pecos Sunday. His family will be here the first of next week. The Times joins with the people of Pecos and vicinity in extending to these good people a most hearty welcome among us and trust that they may never have cause to regret casting their lives among us.

## WELL PLEASED WITH HER PRIZE.

The following letter is self-explanatory. It is written in connection with the drawing which the Southern Land Development Company had last week.

Honey Grove, Texas, July 19, 1915. Southern Land Development Company, Pecos, Texas.

Gentlemen:—I wish to say I have just received the deed to the land and city lot, and I cannot tell you how delighted, as well as surprised I was to find that I had been so lucky as to draw the capital prize. When I received the answer to my telegram Saturday telling me of the location of the land I didn't know enough about land to know whether you were describing the city lot or the five acres that I expected to draw, but when the deed came I compared it with your telegram I realized that 1-2 a section was more than a city lot, or five acres either. To say the least I am delighted and thank you very much I hope some time to visit Pecos, I take. The Times and judge from it that it is a good country and town as well.

Very truly,  
MRS. C. M. SCHREIBER.

L. J. Shephard of Waco, who represents Dr. Price's flavorings and extracts, was in Pecos yesterday looking after his company's interests, and one of our reporters had the pleasure of making his acquaintance, who learned that Mr. Shephard was a great friend of "Our Henry" Stubblefield, and says that Henry is as happy as a lark, and does not let work worry him, and is as much of a baseball fiend as ever, and never misses a game if he can help it.

Messrs J. W. B. Williams and Rudolph Koefs came up from Saragosa yesterday afternoon on a business trip and returned home this morning on the Pecos Valley Southern train.

T. B. Pruett, the ever-at-it manager of the Pruett Lumber Company's string of yards, went out to the Valley over the "Davis Mountain Route" this morning to see how everything was getting along at their yards at Balmorhea and Saragosa.

HAS A FINE CROP OF RED TOP CANE.

Mr. and Mrs. Chris Ritz were up Saturday and Sunday from their ranch-farm southeast of Pecos for a visit with relatives and friends. They have one of the nicest places in that part of the country and are rightly proud of it, for Mr. Ritz has been unsparing in labor and expense in putting it in shape.

He reports that he has about 3 acres in red top cane that cannot be beaten by anyone in anybody's country. It stands over six feet in height, it is very thick on the ground—it was sown broadcast—and you can hardly find a stalk that is larger than a lead pencil.

## GAVE A SPLENDID LECTURE.

Prof. Wilson, who is connected with the Elkins Case School of Applied Science at Cleveland, Ohio, entertained quite a number of interested listeners at the lecture he gave at the Methodist Church last week, Thursday evening.

On account of the short notice given, the attendance was far from what it would and should have been. Prof. Wilson is one of the instructors in the school and gave a most interesting lecture.

He is a brother of our S. E. Wilson and lectured here some three or four years ago.

## HAS RETURNED HOME—HAD A BIG TIME.

Tom Harrison, Reeves County's popular, hustling sheriff has returned home. Mr. Harrison reports that they had a pleasant, entertaining and profitable time at the meeting of the State Sheriffs' Annual Convention which was in session at Waco last week.

## REV. FRED LITTLE GIVEN MONTH'S REST.

Rev. Fred Little, Pastor of the Methodist Church, has been given a month's lay-off for recuperation purposes. He has not been real well for some time and it is hoped that this rest will enable him to fully recover his usual strength and good health.

Mrs. B. N. Couch and son, J. E. took train No. 34 yesterday evening going east to visit her father and mother, who are living at Point, Texas. She was accompanied by Miss Jo Farnum, who will stop at Quinlan to visit with Mrs. Durean, a relative, after which she will continue her journey to market at St. Louis, to buy her fall and winter stock of millinery, before returning home. All persons wishing to visit her millinery department will find Miss Lizzie Montgomery there to wait on them.

E. R. Cox, the popular agent for the Pecos Valley Southern road at Saragosa came up Wednesday afternoon and returned home yesterday morning.

## COUNTY COURT IS IN SESSION

Ed Walker vs. E. D. Balcolm; judgment by default for \$336.25, with interest at 6 per cent, and cost of suit.

Mrs. Essie and J. D. Ramsey vs. R. E. Miller et al, continued for defendants to make additional parties to suit.

Probate Court:—J. N. Newell will admitted to probate; H. T. Newell appointed as executor for the estate; J. W. Moore, J. B. Davis, and R. C. Warn appointed as appraisers.

Dr. Wilhelmina Wieland will filed and admitted to probate; T. H. Beauchamp appointed as one of the executors; J. F. Caroline, C. C. Kountz and Ora Beauchamp appointed as appraisers, and they reported that the estate was valued at \$2,000.00.

### NEW BARBER SHOP.

Another tonsorial parlor has opened in Pecos. In fact, it has been doing business for the past week.

Strolling in that locality the other day, we were startled by the inquiry: "Something?" and on the turn about we discovered a neat, two-chair barber shop in full blast. Everything new, spick and span, with the usual array of tools, lotions, etc., that is to be found in a shop that's up-to-now.

"Nothing today," quoted we. "How's business?"

"Finest kind. This town lacks some of being as dead as you read about."

Earnest Lee is the owner of the new shop, and the position of head chair surgeon is being held down by Lee Roddy, whose skill with the knife and shears are too well known to elaborate upon.

Success to the new enterprise, for they show by the fact of opening up here that they have faith in the country.

### MORE CATTLE SHIPPED IN.

Wednesday morning a Texas & Pacific train brought in a car of cows and heifers and they were transferred to the Pecos Valley Southern train which carried them out to Saragosa.

C. L. Harbert, who had them in charge, had been to the Fort Worth market and bought them for himself and Dee Davis. They were a fine bunch and were two-year-olds and up.

R. D. Jackson, of Gail, Texas, was here the first of the week and placed his and his wife's application before the school trustees and both were selected as teachers for the coming term.

Col. Joe Seay autoed down from Toyah this morning with Messrs. Ab Tinnin and Collins. They were heartily greeted by their many Pecos friends. Mr. Seay returned to his home on No. 5.

Roy McDermott was up Wednesday from his ranch shaking hands with his many Pecos friends.

Mrs. Yarbrough, Miss Meryl Yarbrough and Miss Stamper were visitors in Pecos Wednesday.

## BUSY WORKING FOR THE FAIR

Messrs. M. W. Collie, President, and E. G. Doty, Secretary of the Reeves County Fair Association are two of the busiest men in these parts nowadays. They are working up advertisements for their premium list, special exhibits, stock and race entries, and numerous other things which will make this the "Best Ever" this year.

Mr. Doty went to El Paso last week and out to the Toyah Creek country Monday and Mr. Collie went out to the Toyah Valley section Tuesday. They report that they have had splendid success all along he line, and feel sure that this year's fair will far surpass any yet held in every respect.

### EL PASO STORE'S CLEARANCE SALE A HUMMER.

The El Paso Store started out last week, Saturday, with their big July Clearance Sale, and she is a hummer. As soon as the doors were thrown open the store was filled with eager buyers who were looking after their needs and were supplying them with the numerous bargains offered.

Mr. Farber the proprietor reports that he is well pleased with the attendance upon the sale so far.

## ADVANCE AGENT HERE YESTERDAY

Local baseball fans and music-lovers will be interested to know that L. J. Shephard of Waco, Texas, advance agent for Henry Stubblefield, was in Pecos Thursday, looking over the situation with a view of booking Mr. Stubblefield at Pecos for the remainder of the season.

Henry needs no introduction to the Pecos public, his versatile accomplishments having endeared him to the hearts of all, and it is confidentially hoped that his genial advance agent will have found a promising field for this talent while here. Members of the N. W. U. will also be rejoiced to hear of his return.

### FIRE DEPARTMENT CALLED OUT AGAIN.

This morning at about 10:25 the fire alarm was blown and called out the Fire Department in full force, as well as a large representation of other citizens.

The cause was the "acting up" of a gasoline stove in L. W. Anderson's kitchen, but the fire was put out before the boys arrived, altho, as in the past, they were "Johnny on the Spot," made a very quick run.

The Fire Department will soon be better equipped than ever before, as the city has purchased another auto which has been remodeled into a Chemical Engine and will carry both—50 gallons each—of the chemical barrels, thus giving a better apparatus than if it was a single one hundred gallon engine. It is now being painted.

Fred Snyder left on No. 34 Wednesday evening for a trip to Fort Worth.

## REEVES COUNTY FAIR

SEPTEMBER 15, 16, 17, 18, 1915

Every man in Reeves County is expected to render some assistance to make this the Greatest Fair we've ever had

# RAILROAD MEETING WILL ATTRACT CROWD

Important Matters Will be Discussed—Expert on the Program.

College Station, July 17.—Lieutenant Governor Will Hobby will represent the state of Texas in the discussion of state highway legislation, which will be a feature of the meeting of the Texas Goods Roads Association at the A. & M. College August 5, 6 and 7. Lieutenant Governor Hobby will open the afternoon session Friday, August 6.

Some of the leaders in highway legislation in the United States will be on the program. The County Commissioners and County Judges Association of Texas will meet with the Good Roads Association and R. L. Morrison, Professor of highway engineering, George D. Marshall of the Federal office of public roads, located at A. & M., and B. K. Coghlan of the A. & M. department in charge of the arrangements are expecting an attendance of more than 1,500.

The program follows: Thursday, August 5.—Registration and stud of exhibits of road building material and machinery; 2 p. m. D. W. Spence, dean of the school of engineering at A. & M., presiding. Address of welcome on behalf of the college, by President Rizell; address of welcome from Brazos County, County Judge J. T. Maloney; response on behalf of County Judges and Commissioners' Association, Judge George N. Denton of Waco, President; response on behalf of Good Roads Association, John W. Warren of San Antonio, president; announcement of committees; inspection of the college on adjournment. 8 p. m. illustrated lectures and moving pictures showing the different methods of road construction.

Friday, August 6.—9 a. m.: Judge Denton presiding. "Should a highway engineer or county road superintendent be employed by wealthier counties when only the road an dbridge fund is to be expended on roads?" Judge J. R. Davis of San Antonio, followed by a general discussion by the judges and commissioners. "Are Special Road Laws Advisable?" Judge J. P. Poole of Victoria; "Should a Commissioner Be Supreme in the Expenditure of Money in His Own Precinct?" James Miller of Dallas, followed by general discussion. "County Convict Labor;" (a) "How Do You Handle Convicts;" (b) "Are They Satisfactory in Handling the Road Graders?" (c) "Do You Use the Bat?" (d) "Should Chains be Used Indiscriminately?" Judge W. M. Idwell of Waxahachie; general discussion. 2 p. m.: President Warren presiding. Address, Lieutenant Governor Will P. Hobby; "Highway Legislation—State and County;" A. N. Johnson, Bureau of Municipal Research, New York City; discussion by L. E. Boykin, U. S. office of public roads; Senator H. L. Darwin of Cooper, Judge Eyles of El Paso and R. J. Potts of Waco, former highway engineer at the A. & M. college. 8 p. m.: Informal dinner and smoker.

Saturday, August 7.—9 a. m.: "Maintenance of Improved Roads," Dr. L. I. Hewes, U. S. office of public roads; discussion by A. N. Johnson of New York City; Lamar Cobb state highway engineer of Arizona; John B. Hawley, president of Texas Association Members of the American Society of Civil Engineers. Road school or question box; general discussion.

Automobile tours are being organized by the road boosters from various sections of the state and these tours will materially increase the attendance at the meeting. Low rates of 1 cent per mile each way have been authorized by the railroads. The meetings will be made as practicable as possible and only questions having a bearing on road building problems or problems of county judges and commissioners will be given consideration.

**CITROLAX**  
CITROLAX  
CITROLAX  
Best thing for constipation, sour stomach, lazy liver and sluggish bowels. Stops a sick headache almost at once. Gives a most thorough and satisfactory flushing, no pain, no nausea. Keeps your system cleansed, sweet and wholesome. Ask for Citrolax. Sold by Pecos Drug Co. (Advt.)

## TERRELL NOT AFTER SODA POP STANDS.

Austin, Texas, July 17.—When requested for information as to the steps to be taken by his department in enforcing the Sunday closing law, applying to confectioneries, soft drink stands, etc., Comptroller Terrell, who returned today from Waso, denied any plans. Terrell was quoted in Waco as having said that the Sunday closing law applying to soda fountains and the soft drink stands should be enforced as stringently as against the saloons and was alleged to have called upon the sheriffs to come to his department for assistance.

"It is not within the power of the comptroller to enforce such a law" said Terrell. "I have been misquoted as asking sheriffs to come to my department for assistance. I did suggest to the sheriffs in wet territories who were having trouble in enforcing the 9:30 and other closing laws because of public sentiment that the comptroller would be glad to do everything in his power to see that the laws were obeyed."

## X-RAYS MAY KILL OR INCREASE CANCER GROWTH.

Chicago, Ill.—The National Society of Physical Therapeutics convened today for its 23rd annual session in joint meeting with the American Institute of Homeopathy. President L. P. Mills of Ogden, Utah, in his address reviewed various mechanical and physical measures in the treatment of the disease dwelling upon the value of sunlight X-rays and radium. In part Dr. Mills said:

"An exposure to the X-ray of a cancerous growth may either destroy it and induce fibrosis—nature's method of cure—or stimulate it to renewed growth. The technique deciding what the effect is going to be. The hands of almost any of the earlier workers with the X-ray bear witness of the dangerous effects of this powerful agent. If they did not possess the power to do harm, they could not have the power to do good.

"Sunlight is one of the great gifts of nature. It is the greatest disinfectant in the whole list and is necessary for the healthy development of all forms of life. Deprived of it, either vegetable of animal form of life do not reach their normal growth.

"As to radium, its effect on the nervous system, if applied for a short period, is stimulative, if applied for a number of hours it produces paralysis.

"Radium has rewritten physics and has opened new avenues for human thought, which may lead to the solution of the mystery of life itself."

## THEY WRITE EVERY DAY.

Every day Foley & Co. receive letters from grateful men and women telling how Foley's Kidney Pills cured them of backache, sore muscles, stiff joints and other kidney and bladder troubles. Is very quick to relieve lumbago and rheumatism due to kidney trouble. No other remedy has a longer record for cures. For sale by Pecos Drug Co.—Adv.

**Invigorating to the Pale and Sickly**  
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

## A Berry with Three Different Flavors

In Jamaica grows a berry that tastes like cinnamon, cloves and nutmeg. When the natives of that island discovered this berry, being unable to decide on which spice it tasted most like, they compromised the matter by calling it "all-spice." That is where all-spice got its name.

All-spice is grown in other places, but the island where it was first discovered and which named it, still produces the best all-spice—for that reason all White Swan All-spice is Jamaica All-spice.

Now inasmuch as it is a certain oil in the berry which gives it its flavor, or rather its three flavors, the drying and grinding and packing of the berry must be very, very carefully handled so as not to let that oil be lost by evaporation. In the matter of White Swan All-spice the greatest care is taken to retain every drop of oilness—the grinding is done by our own process which preserves all the original rich flavor. Finally it is packed in air-tight tins which keep all the good in. Your grocer sells White Swan All-spice—ask for it.

## GARRISON OF 6000 STAYS IN CAPITAL

Carranza Seizes the Railroad East of Apizaco for Military Purposes.

Washington, D. C., July 19.—An official dispatch to the state department from Mexico City late today said Gen. Gonzalaz and the Carranza army had left the city to take Pachuca. Earlier private reports said Gen. Villa's Southern column was approaching the capital.

Pachuca is about 60 miles north-east of Mexico City and is connected with the capital by rail. It has between 30,000 and 40,000 inhabitants and is the center of a rich mining center.

The garrison of 6000 men left in the capital is considered sufficient to hold the city against any attacks possible to be made by the Zapata forces, and to maintain order in the city.

Although the railroad from Mexico City to Vera Cruz has been restored, Gen. Carranza has seized the line east of Apizaco for military purposes and has closed it to passenger and freight traffic until further notice. Apizaco is at a junction with the branch line to Puebla which is on the other line from Mexico City and Vera Cruz. The line is working through to Panama.

Famine conditions in Mexico City are described in a Red Cross report received today. It says that more than 100,000 women Sunday applied to the international committee for food tickets. Only 40,000 were available.

"Where formerly 200 people a day went to the slaughter house to get the blood that is saved and given away," the report says, "there are now 20,000 daily besieging the gates. Near there the other day 20 people were seen struggling to get the pieces of a dead horse."

The report continues: "Infants in arms are given food entirely unsuited for them and the rate of infant mortality is very high. The adulteration of flour and other foods and the limitation of the coarser and poorer foods is causing much stomach troubles.

"The vastness of the misery already manifest makes the task of relief almost hopeless. From interviews with those who have been working at the problem for weeks past, all of the relief they can give is but a touch of what needs to be given.

"In some cities, like Tampico, and Vera Cruz, where there is still some business or favorable conditions exists wages for hand labor have increased so considerably that the rise in the cost of food and depreciation in currency have not had such a disastrous effect as they have in Mexico City, and in most parts of the country.

"One man, vouched for as reputable and trustworthy, who has just returned from the United States by way of El Paso, Torreon and other points to the North, reports that a remarkable change for the worse in the regions he passed thru in the last three weeks. He mentioned Aguascalientes as being in great distress.

"The acreage planted in corn, and other grains this year in the great grain producing states is limited, he said, estimates of this vary from 10 to 50 per cent of the normal; an average the most common being from 25 per cent. My own observation of fields between here and Vera Cruz is that not over half of the normal is planted. Even if all this matures, it is going to be far from adequate for the future needs."

## SUMMER ACHES AND PAINS

A backache that cannot be explained by having "sat in a draft," is more than likely the result of disordered kidneys. Foley's Kidney Pills promptly relieve backache sore or stiff muscles and joints, rheumatism and sleep disturbing bladder ailments. They put the kidneys in sound, healthy condition. For sale by Pecos Drug Co.—Adv.

## A NEW LIGHT RAY FOUND.

Dr. Claude H. Lauinder of the United States Public Health Service, stationed at Ellis Island, has been directed by Byron B. Newton, Assistant Secretary of the Treasury, to make a careful examination of the workings of an electrical machine invented by Charles H. Stanley, which, it is asserted, produces a new ray that is said to be more penetrating than the X-ray.

It is said that surgeons will be able to operate directly on the so-called "Stanley ray" without the preliminary photograph and with no harm to themselves. This will make it possible, it is said to put the apparatus under an operating table at an army base at the front so that when a wounded man is laid upon it, the location of a bullet or piece of shrapnel in the body will be at once revealed.

The use of the X-ray is attended now with difficulties and the dangers of burns. All this difficulty and danger it is asserted will be obviated with the use of the Stanley ray.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

## THE EUROPEAN WAR IN BIBLE PROPHECY.

Undreamed of passions have burst forth, devouring the lands that patient hands have beautified and made fertile, and centuries have stocked with art treasures. To the entire world the war has come as a complete surprise because they have not read our book (600 pages—cloth) telling that just such conditions would exist only to be followed by the still greater devastation of anarchy. The first edition came from the press in 1870.

Of vaster interest and importance is its promise of better things in store for this earth, when the wrath of nations has run its course. Send thirty-four cents in stamps (with this coupon) to cover postage to The Temple, No. 3 W. 53rd St., New York City, and receive a copy promptly.

## SHERIFF'S SALE

The State of Texas, County of Reeves.

Notice is hereby given that by virtue of a certain Order of sale issued out of the Honorable District Court of Reeves County, of the 9th day of June, 1915, by the Clerk of said Court, for the sum of Forty Five Hundred and Fifty (\$4500.00) Dollars and costs of suit, under a Judgment in favor of Daniel P. Sanford, in a certain cause in said Court, No. 709, and styled Ira M. Cobe vs. Daniel P. Sanford, placed in my hands for service, I, Tom Harrison, as Sheriff of Reeves County, Texas, did on the 9th day of June, 1915, levy on certain Real Estate located in Reeves County, Texas, described as follows, to-wit:

Sub-block 8 in Swenson Land Company's sub-division of lands in Survey No. 47, Block 13, H. & G. N. Co. survey, in Reeves County, Texas, and containing 60.22 acres of land, more or less.

Also, sub-block 14, in Swenson Land Company's sub-division of lands, in survey No. 48, Block 13, H. & G. N. Co. survey in Reeves County, Texas, and containing 39.22 acres of land, more or less, and levied upon as the property of Ira M. Cobe, and that on the first Tuesday in August, 1915, the same being the 3rd day of said month, at the Court House door of Reeves County, in the City of Pecos, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Ira M. Cobe.

And in compliance with law, I give notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in the Pecos Times, a newspaper published in Reeves County.

Witness my hand, this 9th day of June, 1915.

TOM HARRISON,  
Sheriff, Reeves County, Texas.

9-July-28-3.

### H. & G. N. LANDS

IN REEVES COUNTY

Surveys Nos. 47, 55, W. half of 61, and 63, in Block 4, Nos. 43, 45, 47, and W. half of 37, in Block 5.

The surveys in these blocks are situated from 5 to 8 miles from Pecos City, in the artesian belt of the Pecos River country and will be sold as a whole or in quarter sections.

Also surveys Nos. 13 and 49, in Block 6, and Survey Nos. 5, 13, and 15, in Block 7.

Also surveys Nos. 31, 33, 35 and 37 (fronting on the Pecos River and 39 in Block 1, and No. 11, 15 and 18, adjacent thereto, in Block 2, in the vicinity of Riverton, on the Pecos River Railroad.

Also Surveys Nos. 1, 3, 5, and 19, fronting on the Pecos River, in Block 8, in the extreme northern portion of Pecos County, and partly in Reeves County.

Also 16 surveys in Block 10; 16 surveys in Block 11, and 3 surveys in Block 12; none of these river lands.

No local agents for these lands, which are handled direct by the Agent and Attorney in Fact for the owner, Thomas R. White, Jr., of New Jersey.

# NEW TRANS-CONTINENTAL GUIDE BOOKS

United States Geographical Survey Issues Illustrated Books Of Information on Varied Subjects.

The United States Geographical Survey has just issued a guide book describing the Overland route from the Missouri River to the Pacific Coast, and every traveler may now enjoy the luxury of being "personally conducted" without any other expense than the dollar he must spend to the Superintendent of the Documents at Washington, D. C., to secure a copy. It is secretary Lane's desire that the transcontinental journey, by whatever route, shall afford the traveler an intimate acquaintance with the country that he passes through and this volume therefore, is the first of four that will appear in rapid succession. The next to come, that covering the Northern Pacific Route, so closely identified with the Clarke-Lewis expedition of 1803-1806, will be published in a few days; and those describing the Santa Fe Route and the Shasta and Coast Routes will follow soon.

The value of these guides to the travelers interested in their country cannot be measured. The route is followed from station to station and the country along the way is described and explained from many points of view. Human history, geological history, agricultural and mining values—everything in short that can make a car window landscape vital and interesting—es succinctly and rapidly sketched. In the long stretches of prairie country and endless miles of desert, so dreary to uninformed eye, both are made to teem with human interest and scientific information. One region may afford a livelihood for only a pastoral people; another may be capable of extensive agriculture; still another may contain hidden sources of mineral wealth which may attract large industrial development; and taken together, these varied resources afford the promise of continued prosperity for this or that state.

The guide books are full of items of general interest that will answer such questions as the average intelligent traveler is continually in the habit of asking. In a broad way the story of the West is a unit, and the aim of this description of the western United States is to meet the needs of the American citizen who desires to understand what he sees.

In the preparation of the book on the Overland route (Bulletin 612) much information already in the possession of the Geological Survey has been utilized but to supplement this material three geologists last year made a field examination of the entire route and special topographical maps were made by the Survey engineers. The route is covered by a series of 29 complete and accurate maps, which are so arranged that the reader can unfold them one by one, and keep each map in view while he is reading the text relating to the portion of the route it represents.

The book is also freely illustrated with half-tones of some of the most striking views and objects to be seen on the journey, and with pictures of prehistoric animals that inhabited the West in ages past, when Nebraska and Colorado, for instance were huge swamps infested by strange beasts whose fossils remains are now found in the rocks formed from the sand and mud of the ancient swamps, which have since elevated thousands of feet. The book of 244 pages is on the whole, distinctly popular in character.

In ordering the Overland Route guidebook from the Superintendent of Documents ask for Bulletin 612 and inclose \$1.

### TRAVELING MAN'S EXPERIENCE.

"In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to 6 p. m. without giving me any relief and then told me they did not expect me to live. That I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's colic cholera and Diarrhea remedy, and take no substitute. I took a double dose according to the directions and went to sleep after the second dose. At 5 o'clock next morning I was called by my order and took a train for my next stopping point, a well man but feeling rather shaky from the severity of the attack." writes H. W. Ireland, Louisville, Ky. Obtainable everywhere at all dealers.—Adv.

### KEEPING FLOWERS IN THE HOME.

Adding Salt to Water and Clipping Stems Preserve Freshness

For roses put half a teaspoonful of salt in the water and each morning cut off the ends of the stems a little—about a quarter of an inch.

Remember always that faded foliage of any sort gives a faded air to the flowers. Hence all drooping foliage should be immediately cast away. If there are faded leaves clip them off with sharp scissors. If there is a drooping bud on the flower head cut it off and throw it away. Often a fresh appearance can be given to a whole vase full of flowers by this simple method of eliminating the faded flowers or foliage.

A few flowers can go a long way always remember, if they are skillfully arranged. Fern and other greenery can be used with any flowers to increase their bulk to very good advantage.

### DIARRHEA QUICKLY CURED

"About two years ago I had a severe attack of diarrhea which lasted for over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhea Remedy. The first dose relieved me and within two days I was as well as ever." Obtainable everywhere at all Dealers. adv

### WHEN GREAT MEN'S GENIUS FLASHED.

At the age of 18 David is said to have written his first psalm; Shelley wrote "Queen Mab" and Mendelssohn composed his music for "A Midsummer Night's Dream"

At 19 Bryant wrote "Thanatopsis."

At 21 Disraeli wrote "Vivian Grey."

At 22 Alexander Dumas wrote plays. Voltaire's first tragedy was brought out, and Keats wrote "Endymion."

At 23 Horace is said to have written his first odes. Heine published his first songs and Schiller's "The Robbers" had made him famous.

At 24 Shakespeare wrote his first play.

At 26 Sheridan wrote "The School for Scandal."

At 28 Racine wrote "Andromache" and Hannah More wrote "The Search After Happiness."

A 29 Addison's first essays appeared; Owen Meredith published "Lucile."

At 30 Confucius began his religious works.

At 31 Pliny finished his "German War."

At 34 Luther wrote his 95 theses; Baxter wrote "Saints Everlasting Rest" and Thomas a Kempis wrote "Imitation of Christ."

At 35 Mohammed began the Koran, and Poe wrote "The Raven."

At 36 Thackeray's "Vanity Fair" first had appeared.

At 50 Bunyan finished "A Pilgrim's Progress."

At 51 Dante finished his "Divina Commedia."

At 60 Homer is said to have completed the Iliad.

### FOR HAY FEVER OR ASTHMA.

Many persons dread July on account of hay fever. Foley's Honey and Tar Compound is recognized as the ideal remedy for hay fever and asthma. It heals and soothes the raw, rasping throat and eases the choking sensation. It allays inflammation and irritation and brings an easy natural breathing. For sale by Pecos Drug Co.—Adv.

### THE COST OF THE WAR.

Not until the war of Europe has come to an end will it be possible to figure the staggering cost in human lives, dollars and property. It is known, of course, that one year of the war has cost Great Britain \$5,000,000,000 in cash, not counting the loss of ships and other property. The total loss of life will not be figured until the estimates of rival nations are boiled down to the true proportions.

Even now, however, it is possible to figure accurately the loss in ships. A total of 511 vessels has been destroyed by war in a period of ten months. Approximately 2 per cent of the world's tonnage, or 915,497 tons, has been wiped out. England alone has lost 327 ships, with a gross tonnage of 609,934.

When the war began last August the world's merchant tonnage of all classes was approximately 48,000,000 gross tons. Germany had in all parts of the world a gross ship tonnage of 5,082,061 tons. England had 2,112,813 tons with an aggregate gross tonnage of 20,431,534 tons.

Before any product leaves our hands it must toe the mark. In this way we have built up a reputation which keeps our refineries busy supplying Texaco products all over the world.

In Africa, Australia, India, Europe, South America, the success of Texaco petroleum products has been evidenced by the constantly increasing volume of business.

Research, experiment and study keep us ahead of the times. No matter what the conditions, we have a

**"The Shell With a Nickname"**

WE'RE proud of the fact that gunners have nick-named our black powder loads. To go around the country and hear them talk about "The Old Reliable Yellow Shells" feels as good as a cheery greeting and a slap on the back.

New Club Shells are really the premier black powder shells of this country—Standard for over 50 years.

The No. 2 Primer gives a snappy ignition—sure and quicker than you usually find in black powder shells.

For results in your shooting, rifle or shotgun—get Remington-UMC ammunition—with the Red Ball Mark on every box. Ask the best dealer in the community. He carries them.

Remington-Union Metallic Cartridge Co.  
299 Broadway 14 New York

Without taking into account the number of tonnage of enemy vessels held or captured by the respective belligerents, England's gross tonnage in the first ten months of the war has been reduced 609,394 tons, the greatest loss ever suffered by any nation in one year of war.

### NEW MEXICO-TEXAS BOUNDARY HEARING.

Santa Fe, N. M., July 29.—The hearings in the New Mexico-Texas boundary suit is to be resumed toward the end of September. Attorney W. R. Reber, of Las Cruces, has returned from St. Louis where testimony was taken from Washington where he looked after matters pertaining to the boundary dispute.

At St. Louis evidence was taken as to the memoirs of Lieut. Warren, which has been introduced in evidence by Texas.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

**Worn Out?**

No doubt you are, if you suffer from any of the numerous ailments to which all women are subject. Headache, back-ache, sideache, nervousness, weak, tired feeling, are some of the symptoms, and you must rid yourself of them in order to feel well. Thousands of women, who have been benefited by this remedy, urge you to

Mrs. Sylvania Woods, of Clifton Mills, Ky., says: "Before taking Cardui, I was, at times, so weak I could hardly walk, and the pain in my back and head nearly killed me. After taking three bottles of Cardui, the pains disappeared. I feel as well as ever. Every suffering woman should try Cardui." Get a bottle today. E-68

### THE MONEY COST OF PREVENTABLE DISEASE

(Prepared for the Pecos Times by Dr. A. C. Ellis, director, Extension Department of the University of Texas.)

I hesitate to give the true figure; with regard to the cost of needless disease lest you should think that my imagination has run away with me or that I am aspiring to a position among those superlative liars known as statisticians. Seriously these losses are so stupendous that one finds it difficult to take them in.

There are three million people sick in the United States every day in the year. As the productive capacity of these three million people is temporarily destroyed and as the energy of many others is consumed in doctoring and nursing the sick we can see what an enormous cost this sickness is accountable for. Irving Fisher conservatively estimates the annual losses in the United States from preventable disease alone at over one billion, five hundred million dollars. If Texas has her proportionate share of this sickness then the expense to the state of preventable disease is sixty million dollars per year. Omitting any consideration of the human suffering and sorrow, needless disease causes each year a financial waste of over twenty times the cost of all the State's higher education institutions, it is over four times the cost of the entire State government; it swallows up practically a third of a four million bale cotton crop valued at ten cents per pound.

(This is the first of a series of short installments prepared by Dr. Ellis. Other numbers will follow dealing with the many specific preventable diseases.—Editor.)

MARTIAL DIPLOMACY  
Plunger—I felt awfully sorry for a poor guy down at the exchange today. He lost \$5000 on cotton, and all the guys were giving him. As he started off home they taunted him with the prediction that his wife would land on him roughshod. The poor chap acted as though he felt pretty bad about it.

Mrs. Plunger (sympathetically)—Poor fellow, no doubt he used his best judgment and if his wife turns on him because of his reverses she is not worthy to be called a wife. But who was the man?

Plunger—Why-er-it was me.—Woman's Home Companion.

### The Voice of Now

It is the present, the today, the NOW in which we are interested. Shakespeare wisely says:

"Tomorrow never yet  
On any living mortal rose or set."

It is the printed page which deals most intimately and with the greatest detail in the movements of the present. It is THE VOICE OF NOW proclaiming to the world the things that are happening today. The Government of the United States is NOW gravely concerned in certain aspects of the war in Europe and has had trust on it several serious international problems which are NOW in process of solution. The American farmer is NOW interested in this titanic struggle, for his interests are being affected by it today and will be tomorrow, and he wants to keep in close touch with it NOW.

EVERYBODY is interested in the cotton crop from the time of its planting to the days of its harvesting and marketing. They want to know "the NOW" in all that pertains to the great Southern staple; they want to know "the NOW" of all other agricultural markets, the latest in modern farming, the facts of the warehousing problem, and all else that pertains to the progress of the times in every theater of life.

The tens of thousands of men and women who know the Semi-Weekly Farm News know it is "THE VOICE OF NOW," telling in direct and positive tones of what is going on at home and abroad.

### SUBSCRIPTION PRICE

One Year .....\$1.00  
Six Months ..... .75

Advertising rates made known on inquiry.

This paper is represented in New York City for foreign advertising by American Press Association, 225 West 39th St., New York City.

Entered as second class matter Dec 3, 1912, at the Postoffice in Pecos, Texas, under Act of March, 1879.

It is plain evidence of a girl's steady nerves when she can sit still and smile while the honey bees extract the honey from her lips.

We have had such extremely hot weather the last two months, but the heavy rain last Friday night has softened the atmosphere so much that the people can hardly express their appreciation of the change.

By request, and with pleasure, we publish the constitutional amendment for a Students' Loan Fund.

Nevertheless, when Governor Ferguson sent out over the state inquiries to prominent men about the editors who voted for him, and to those who did vote for him he would give him the right to publish the proposed amendment, and if they failed to vote for him they would not get a chance at this item.

A gentleman came to me and he said "Mr. Strickland, did you vote for Ferguson? If you did he will give you the right to publish the constitutional amendment."

I answered that I did not vote for Mr. Ferguson this time, nor would I the next time he offered for the office. It is understood that when a man is elected governor he becomes the governor for all the people, and not for the few who cast their vote for him.

If this is not an offer to buy the votes of the people, I cannot understand what constitutes such an offer. Should my answer have been yes when asked if I voted for him, by a deliberate falsehood I could have gotten the job, and what little money went with it. But I could not afford to lie for either the job or the money it would bring.

### NOT DEAD—THOUGHT THAT HE CANNOT LIVE.

Last Sunday night, just after the lights were put out in the Georgia prison farm hospital, a fellow prisoner pulled out a long knife from his clothing and made a dash among the prisoners and made an attack upon Leo Frank as he lay in his bunk, cutting in front of the jugular vein, severing it, but did not cut the windpipe nor the spinal cord but Frank almost ble to death before physicians could stop the flow.

Late reports are that although he is not out of danger, the attending physicians are of the opinion that he will recover.

Green's only excuse is "That he thought he was doing what ought to be done."

### NOTICE

Are You Behind With Your Subscription to The Times?

It is our intention to revise our subscription list during the present month, and we are going to drop all who are in arrears for a year. We are very thankful to our subscribers for the patronage extended and it will be with genuine regret that we drop anyone from the list. The date of expiration is marked after your name on the paper. If you are behind please call and settle. If in your estimation the date is wrong, call and apprise us of the fact and we will gladly make the correction.

We will extend the time to the first day of July in order to give all ample notice.

B. J. STRICKLAND,  
Publisher.

### WILL BE HERE WITH JACKS.

E. O. Olds, of Angeles, Texas, was a business visitor in Pecos last Tuesday. Mr. Olds reports that he has thirteen young jacks at his place, and that he is going to have some of them at the fair, the dates of which will be September 15-18 inclusive, 1915.

Let everybody participate in the fair. The only way to build up and improve is for he citizens to take an interest in building up the County Fair. Bring a long, overgrown rattlesnake if you have nothing else.

### STUDENTS' LOAN FUND.

Constitutional Amendment For Those in Need.—An Address to the People.

Recommending the adoption by the people at the election on July 24th, this year of the house joint resolution No. 9 by Metcalfe, amending the Constitution so as to allow counties the local option right to hold elections and determine whether a Students' Loan Fund shall be established or not.

The necessary and beneficent purpose of this amendment is to aid those of our young people who need financial help to acquire an education.

When adopted the effects of this amendment will be:

1. To allow citizens of any county the local self-governing privilege to establish a perpetual public students' Loan Fund. It is purely a local option measure, the citizens of each county will decide for themselves at a county election as to whether or not the fund shall be established in that county.

2. Deserving students who need financial assistance to acquire an education will borrow and repay the funds; thus using and making permanent this public benefaction for those most in need.

3. Thousands of young people now without means to become educators men and women will fill the schools with paying students, whom knowledge will bless and develop into valuable citizens.

4. This benefaction will go to the needy ones who deserve assistance but are so constantly neglected and forgotten.

Here follows signatures of the members of the Senate and House of Representatives who recommend the passage of the measure, nearly 150 in number.

Chas. B. Metcalfe, who introduced the amendment, has the following to say:

"It is necessary the people shall understand the principles involved in this wise restoration and re-grant of local self-governing power back to them, so they may originate and perpetuate a fund to be used by those who are in need of financial aid to educate themselves; it will simply allow the legislature to pass a law directing how the commissioners' court shall select the neediest students; what interest charges shall be made, what security, if any shall be required, and all details of administration to make it apply properly to those whom it is intended to benefit and for its repayment and perpetual use by other students and to guard against misapplication or loss by improper use or neglect. The fund san of course be only established in any county after an election has been held and a majority of taxpaying voters decide in favor of so doing. The state election to be held the fourth Saturday in July, this year, merely incorporates in the Constitution the fight for the Legislatures to pass a law as above, and this power carries the right for repeal at any time of a statute that might contain imperfect or improper provisions. The Brown Fund in Georgia is a most notable benefaction of this character, given by governor Brown as a memorial to his son; while it is not derived from a public source it is similar in all other respects to what the Texas Students' Loan Fund will be, and serves to show how the original sums will compound and augment even with a low rate of interest, as the Brown fund has grown from \$50,000.00 to \$180,000.00 at 4 percent interest; while growing it has assisted a thousand students to become educated men; being a loan and not a charity, it can have no deleterious effect on its beneficiaries, but it strengthens their characters while furnishing a way for them to become trained and useful men and women.

CHARLES B. METCALFE,  
San Angelo, Tom Green Co.

DENTON SUMMER  
SCHOOL GROWS FAST.

Enrollment of C. I. A. 314 Against 146 Last Year, According to Prof. L. W. Newton.

A remarkable growth was shown in the attendance at the Summer session of the College of Industrial Arts at Denton, according to Prof. L. W. Newton of Central High School, a member of the faculty. He has just completed his work at that place. The enrollment this year was 314 as compared with 146 last summer.

The College of Industrial Arts was given an appropriation of nearly \$400,000 by the last session of the legislature and Newton looks for the school to make great strides forward in the next year or two.

### Buck Shot

By D. J. M.

An Oklahoma paper says: "Our idea of nothing is a business that is too small to advertise in the home paper."—Roswell Register.

We are hardly in accord with the statement above. The gun was aimed in the right direction, however. It should read: "Nothing is what a business will come to that does not advertise in the home paper."

You may break, you may shatter,  
The styles as you will,  
But the cost of the costume  
Will cling to it still.

—Mineral Wells Index.  
Well, there is one consolation: The material that is furnishing the costumes are diminishing each year, until it will not be long until you can charge the whole bill to Nature. We should worry.

When a fellow doesn't think enough of the space in his home paper to purchase it he certainly has no roar coming when outsiders buy it.—Odessa Herald.

The lady is correct, only she did not say half enough about that kind of an animal that wants all the sunshine and makes no effort to get out in it. Odessa's little paper is several years ahead of the town, and certainly deserves the support of the home merchants, and not let the business men of the neighboring town outbid them for space in their own home paper.

Shaving was introduced among the Romans about 300 B. C. The first shave was deemed the entrance to manhood and celebrated with Timbers.

We refuse the above statistics in regard to shaves. About the year 1872, B. C., a gentleman named Abraham took a son of his to a high mountain and as he was about to draw the steel across the jugular of the child, some one staid his hand. We call that a shave and a close one to boot. That was long before we ever heard of the Romans.

Von Jagow, the German foreign secretary says that the United States has a perfect right to sell munitions of war to whomsoever it chooses. Now, will some of the recalcitrant German-American citizens be quite—Mineral Wells Index

Keep the coming Fair in mind, let everyone make an effort to do something to make it a success. All can contribute a mite. Those who live in town can help by cleaning up around the premises. Trim the trees and when strangers come and go the impression they take away will be worth a great deal in the future.

"Men who chew, are men who DO," reads an advertisement for a certain brand of chewing tobacco.

We have always, since seeing the above statement wondered just what it is they do, and observation indicates that they do lots of things. They make a cess pool of their mouths; they disregard all ordinances regulating the cleanliness of sidewalks and floors in public places; they are always on guard, fearing they will become offensive to society. These are a few of the things they do.

Picture shows are looked at askance by the clergy in general, but we cannot refrain from defending the one at this particular place. It has been under the present management since opening, nearly seven years, and in that time there has never been a disturbance of any nature, no accidents, and the officers have never been called in for any purpose whatever. The disappointments of its patrons have been few, and those unavoidable. Can you beat it? And remember, that this speaks high, not only of the management, but also of the citizenship of the town.

The world's greatest timber supply is owned by Russia.—Bowie Cross Timbers.

From the way they are taking to it at the present writing they need every bit of it.

No, we are not of the jingo breed by a long shot. But the message now being prepared for the earnest think that all is not yet lost, and that that all it not yet lost, and that grape juice as a national stim-

### KERMIT ITEMS

J. B. Walton, Jr. left Paradise a few days ago for the East after stopped in Kermit long enough to W. F. Stewart shipped two cars of horses and mules to Taylor county for sale.

Ranse Sitton of Pyote was rusticiating in Winkler County a few days ago on a special errand. He stopped in Kermit long enough to say howdy and good bye then rushed off, and with a gust shouted "Its a long way to Tipperary" then musing to himself, said: "Its a long way home!" Come again, Ranse, we are always glad to see you.

W. A. Priest was in a few days ago from his Peach Tree ranch. He says everything is lovely and the goose hangs high.

Miss Pauline Halley is visiting in Kermit this week and Percival is all smiles. He says gasoline is cheap. Nobody at home.

Seth Campbell has turned a new leaf recently and is pick-nicking and freezing most all his spare time. The boys say he is certainly making the sparks fly.

Miss Janice Moreland came in a few days ago. This is good news to Fatty, as well as to her many other friends.

Joe Lovett has moved his barber shop into the northeast corner of the Gunn Temple. Joe says its all O. K., being steam heated.

### NO MORE PAY CAR ON TEXAS & PACIFIC.

With this month the Texas & Pacific Railway Company will inaugurate anew method of paying off the employees of the road in Texas and the old time honored Pay Car will pass out of existence. The pay car is one of the oldest customs of the road and for many years past the employees looked forward each month to the coming of the "money wagon," but beginning with this pay day the employees will be paid off with checks sent to their agents along the line and a man will be sent to pay off the men in the shop at Marshall.

This is done so that the twice-a-month pay day that goes into effect on January 1st next, can be carried out on the entire line without a hitch. All the section men along the line will be paid off by agents each pay day, once a month until January when the twice-a-month pay-day takes place.—Marshall Noonday Sentinel.

### STATE TAX RATE TO BE INCREASED.

Austin, Texas, July 19.—Fifty-four and six-tenths cents per \$100 valuation will be the tax rate announced by the automatic tax board of the state when it meets to set the rate for the next fiscal year. Figures have been compiled by the comptroller's department to show that such a rate will be necessary to defray the expenses of the state during the next year.

This rate will be divided as 29.6 cents ad valorem rate for revenue purposes, 20 cents for school purposes, and 5 cents for Confederate pensions. Figures show that the total amount appropriated for the year ending August 31, 1916, is \$9,761, 913.40. Of this sum \$2,982, 679.31 will be raised from other sources than ad valorem tax, according to computation, leaving \$8,135,116.29 to be raised by taxes. An allowance of \$81,355,852.50 of this amount is made for delinquent payments, cost of assessing and the other incidental expenses.

The ad valorem rate for revenue purposes is based on a property valuation for the state of \$2,739,459,589, or an increase of more than 27,000,000 over last year. 9 counties failed to return estimates and this may make some change, but not enough to change the result in a material degree.

Ad valorem rate for revenue purposes is the highest in the history of the state. With no confederate pension tax or separate school tax the total tax rate in 1871-1880 reached the 50 cent mark. In only two instances since 1888 has the ad valorem rate for revenue purposes passed the 20 cent mark, in 1895, when 25 cents was levied and in 1913, when a 23 cent rate was levied.

Its getting cooler; maybe we can now pick up a palm-beach suit at a bargain. Who ever heard of a homely bride?

If you want to know the news, read the Pecos Times.

Again in Stock. We now have the New Car==1916 Model==at New Price

# \$750.00

This is the Greatest Bargain ever offered an Automobile and I have some Special Propositions that I have never offered before. Just Try Cars in Stock now, and they are hard to get. You had better see me Today. Don't Delay. Cor

## O. MITCHELL

### WORKED HIS WAY THROUGH UNIVERSITY OF TEXAS

Jack G. Grissom

That there is no boy in Texas so poor who, having the ambition, the health and the will, cannot obtain a University education, is demonstrated by J. G. Grissom, whose photograph in reproduction appears above. Mr. Grissom will receive this year two degrees from the University of Texas, the degree of Bachelor of Arts, and the degree of Master of Arts. He has earned himself every penny he has spent at the University. But for the munificence of the state in supporting a University it would be impossible for poor boys to secure a University education. Handicap young Grissom, for instance, with a payment of \$200 per year for tuition, and he would be unable to attend the University. The founders of the Republic pointed out this fact, that whereas the rich can send their sons and daughters anywhere, to the East, to Europe, or to the Orient, to secure an education, the children of the poor must depend upon state supported institutions of higher education. Therefore, the University of Texas has been truly called "the poor man's school," since above half of the students within its walls are either in whole or in part self-supporting, and fifty per cent of the remainder would be unable to attend a university that demanded tuition-fees.

Any comprehensive scheme for rural school improvement in Texas must include a provision for the training of teachers to teach them. Herein is a great service of the University of Texas, which institution alone furnishes above 400 well trained teachers to the common schools of the State.

A dollar saved by buying goods produced elsewhere is a dollar as good as thrown at the neighbor's birds.

### DRY YOUR EYES

LITTLE

"Listen, daughter, Don't make your mother think little lamb has been abused. I know that the strange you disrepectfully called you 'kiddo.' Well, daughter, haps the man thought was ad to the name of little lamb. He only arrived here this morn. He happened to get to the depot when he got to the depot. Yes, I know you and your mother to see if any of the girls had gotten to the city. And then you asked to be staying at the porch this afternoon. I went to the post office, of course, you could hardly be staying in his home when you went by, and Flossie, I think that way later, and I asked fault that Flossie asked enough for him to leave, if he not sick and tired of the poky old town? So when you your little walk this morning saw you and sauntered after, and at the corner drug store overtook you and raised his asked what was your hurry. You ran home in tears to tell mother that you had had a

"Well, thank God for that are dad's girl yet. But don't the man. He knows that the 'Kiddo' in every town. But them at the depot. He them passing and waiting and going to and from the office, and he always sees the Flossies. But these men or speak to the small boys and going to and from the keep off the street."

"Now, tomorrow, if your soul will burn some of these eyes—no, not the hot water and a little salt water right—smile."—Kiddo

EVER SALIVATED BY CALOMEL? CALOMEL IS QUICKLY BY DYNAMITE ON YOUR SYSTEM.

Calomel loses you a day's work; quacksilver, Calomel, is like dynamite, cramping and ening you. Calomel attacks the bones and should never be put in your system.

When you feel bilious, sluggish, constipated and all knocked out, believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. Sold by Pecos Drug Company. (Adv't.)

Reeves County should make the best showing we have ever had at our fair this year.

PERSONAL MENTION.

Marcus Snyder left Tuesday on a recuperating trip to Fort Worth and other points. He had been hard at work receiving about 1500 head of cattle and felt the need of a rest.

Julius Eisenwein was among the numerous business visitors in Pecos Monday.

Remember this is Ice Tea time, and Vickers & Collings have the best Tea. 26-tf

Marion Ezell was in Pecos the forepart of the week circulating among his many young friends here.

Mrs. Chas. C. Boyd, accompanied by Charles, Jr., left Wednesday on No. 34 for an extended visit with relatives and friends in Wichita Falls.

Singer Sewing Machines rented by week or month. Sold on easy payments or taken in on new sales. Call at Brown's Furniture Store and see T. E. Brown or L. W. Fields, Agent. 24tf

Wildie Rannels left Wednesday evening on a two weeks visit with relatives and friends in Texarkana. Mrs. Rannels and the children are already there and will return with Wildie.

Mrs. Will Glascock and daughter, Marguerite, will visit for some time with Mrs. Warford of Fort Worth, who is a sister of Mr. Will Glascock. They left Saturday evening.

Try one of those non-working Freezers at Vickers & Collings. 26tf

Mrs. Ed Vickers visited with her daughter, Mrs. Pat Wilson, near Quito, a couple of days last week.

Mr. and Mrs. J. W. Daniels and daughter of Merkle visited the families of Mr. Ed Vickers and E. L. Collings. Mrs. Daniels is a sister of Mrs. Vickers and a half-sister of Mr. Collings. They returned home Monday by auto accompanied by Ed. Vickers, Jr.

Don't forget to have an exhibit ready for the Fair.

Miss Ruby Parker, a niece of Jim Prewit, who has been visiting relatives in Pecos for the past two months, left Wednesday for her home in Temple.

Lester Farber, a brother of Ben, spent a few days in Pecos the past week. He was on his way to Arizona.

If you want to find the truth, read the Pecos Times.

Chas. Norris, who has been here visiting with his cousin, Mrs. O. M. Henderson and family, came in from El Paso and Juarez Tuesday, where he went to take in the sights and left Wednesday for his home in Brookshire. He made many friends while here who will be glad to see him return in the near future for another visit.

Mrs. Happel and daughters Misses Mary and Margaret, returned to their home last week after a few days visit here with Mrs. Happel's mother, Mrs. M. E. Massey, and sister, Mrs. Mildred Middleton. They live at Big Springs.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

Mrs. G. H. Cox and children, Addie and Joe are here from Van Horn visiting with her mother Mrs. M. E. Massey and sister, Mrs. Mildred Middleton and their relatives and friends.

Judge Jas. F. McKenzie of El Paso was down last week on business and was kept rather busy shaking hands with his numerous Pecos friends.

If you want to know where to find something good to eat, look in the Pecos Times.

Don Lackenby is again in charge of the "Trouble Department of the Tri-State Telephone Company, in the Pecos country, he having returned recently for that purpose. He liked some of the Western country but was unable to find anything or any country that suited him better. Mrs. Lackenby will return in about a month or so. It is reported that Mr. Collie, when he received word that Mr. Lackenby would return, threw up his hat, and was sorry there was no wireless outfit here so that he could get word to him to "burn the breeze" in getting back here. Their many friends are certainly glad that they will be residents of Pecos again.

# Agricultural Fairs--Benefits and Opportunities

## "Diversification and Independence in 1915"

TAIT BUTLER IN PROGRESSIVE FARMER

Are the agricultural fairs as conducted no win the South, attaining the purpose for which they are intended? Are they reaching that efficiency in instruction and entertainment which will justify their continuance? Are they leading up to such ideals as will elevate the thought and activities of the rural South?

At present, as at all times, the agricultural fair is, at least nominally, held for the upbuilding of agriculture. But is this the real purpose of our fairs, judged from what they actually are and actually do? Is the purpose of the fairs, as held in the South, really for the uplift of agriculture?

It is no exaggeration to state that the most of them are organized, conducted and financed for the benefit of trade in the cities where they are held. If it were not so, the merchants, manufacturers and others who enter to the trade of the farmer would not give them so large financial support as is now the case. It certainly would not be their duty to do so. In other words, our fairs being largely financed for the purpose of encouraging trade, are conceived in false ideals, are conducted along wrong lines, and fail to attain those results which alone can justify their continuance from an agricultural standpoint. So long as the main purpose of the fair is to draw trade, just so long will their main effort and aim be to furnish entertainment or amusement.

### MAKE THE FAIR EDUCATIONAL AND INSPIRING.

As institutions of amusement, they are economically unsound. An institution which simply amuses or entertains for only one week in the year cannot support the investment necessary to equip and maintain an agricultural fair. We are frank to state that we believe the Southern fairs are supported financially from the unsound idea as to the true purpose of an agricultural fair, and, so long as this is true, they will of necessity fail to attain results that will economically justify their continuance.

The agricultural fair, if it is to continue, must have as its aim and ideal the education and inspiration of the farming classes. Such entertainment as it furnishes must largely come from the pleasure of learning from the joy of victory in a contest of achievement and from the inspiration afforded through studying the best products of the most successful stockmen and farmers.

A fair conducted with such aims is truly an educational institution and as such entitled to state control and financial support as an agricultural college or any other educational institution. Until this is our conception of an agricultural fair, until we cease to look upon a fair as the furnishing of amusement and as a means of drawing trade, our fairs will not obtain the public financial support they must receive to attain their highest degree of usefulness. We want to see an agricultural fair in the South put on a higher plane and receive the support of the state which alone can continue them in such degree of usefulness as to justify their existence.

We have no criticism in the main of those who are managing our fairs. They are conducting the only kind of fairs and in the only way that fairs can be conducted until the public is educated to higher and better ideals. If they give \$500 as a premium for the horse that can trot the fastest only \$15 for the best sire; if they give \$100 for a balloon ascension and only \$10 for the best brood sow, it is simply because the public wants amusement instead of instruction, or excitement instead of inspiration.

But with the rapid improvement in our fairs, with the higher standards which the public are demanding as it becomes educated to the true purposes of an agricultural fair, our fairs, even as now conducted, are doing much good. We criticize not because they are not giving good returns to the public for what the public puts into them, because no class of institutions is doing more good for what they receive. We are simply pleading for higher ideals, and better methods in order that they may justify pub-

lic aid and permanency. We want them put on the same basis of financial support as other educational institutions.

Progressive Farmer readers owe it as a duty to themselves, not only as encouragement to those conducting and financing the fairs, to attend the local fairs of their community and, at least, their state fair or some district fair of the proportions and quality of a state fair.

### PRIZE MONEY IS NOT THE ONLY PRIZE.

A good agricultural fair has value for both exhibitors and those who attend for observation only. Those who attend for amusement or for an outing, receive returns of doubtful value, considering the time and money expended and the class of amusement offered. The exhibitor is benefited by the money he wins by the advertising his products receive, and by an opportunity to learn what enables him to win, or what are the defects in his products which cause him to fall short of winning the highest premiums.

We think Southern exhibitors set too high a value on the money to be won and too low a value on the value of the advertising and the educational benefits to be derived. This is natural, since exhibiting at fairs is expensive; but the value of the advertising is also great. As to whether an exhibitor receives benefits from winning other than the money received and the advertising obtained; or whether an exhibitor who loses or fails to win premiums receives sufficient benefit to justify the time trouble and expense of making his exhibit, will depend on his own attitude of mind. If he exhibits with the view of learning the strong points of his exhibits in order to still further improve them, or of learning the weak points of his exhibit in order to make them better next year, he is likely to be well paid for making the exhibit, whether he wins or loses the premiums.

### QUALITY COUNTS IN EXHIBITS.

The exhibitor with the spirit of the true sportsman, who when beaten strives to learn why he met a defeat, with the aim of trying again and again until he produces something that will win, will always be benefited whether he wins or loses. But the exhibitor who goes to the fairs, convinced beforehand that his is the best and when defeated lays the blame on the ignorance or dishonesty of the judge will always be a loser whether he wins a premium or not.

We hope our readers will begin at once, or if they have already begun to prepare for exhibiting at the fairs as they should have done, they should redouble their efforts. The best products are not always at the fairs, but that is not the fault of the exhibitors, rather the fault of those who do not exhibit. Don't be satisfied with saying that you have something better at your home; bring out your best and if it wins learn why and if it fails, learn why, and strive to do better, no matter whether you have won or lost.

It is useless to take livestock to fairs that are not in good condition. No premiums are won, the advertising is of no value, if indeed it is not actually harmful, and the expense is large. No product ought to be exhibited that is not of superior excellence; but on the other hand, much may be accomplished by presenting any product in the best form.

Just as good condition is essential in livestock, so is uniformity necessary in all exhibits made up of several specimens. For an instance, if corn in the ear is exhibited, have the ears as near the same length and size, the grains of the same type and all sown and true to the best type of the variety. If potatoes are exhibited, pick out the required number or quantity of the same size, form and appearance. A bushel of Irish potatoes of medium size, if uniform in form, color and quality, will often win over much larger potatoes, lacking uniformity; and this same principle holds good in all lines. In short study the best type and ideals and then select and prepare the exhibit to reach those standards. If a man

really studies the matter sufficiently to make a good exhibit he will receive enough benefit to pay for his pains, even if he fails to win a premium.

But most benefit from attending a fair is from what may be learned by a careful study of the exhibits. While exhibits can be made by only a few, any one can obtain a very broad and correct knowledge, in any line along which his interest may lead him, if he will carefully study the exhibits at any good fair.

The writer got his first insight into swine judging and his first lessons in selecting the best individual by spending two days studying the prize-winning hogs at the Iowa State Fair. A friend of mine, after returning from a state fair a few years ago, stated that he had learned more about hay presses and gasoline engines in three hours at this fair than he had been able to learn before in as many years.

### THE JOY OF LEARNING.

Ask the judge or the man that is in charge to show you the best specimen of any exhibit you are interested in and to show you why it is the best, by pointing out its qualities and excellence, and, if it is possible, by showing the absence of these qualities in other specimens of the same breed or kind.

We can experience no better or keener pleasure than that which comes from learning new, useful facts about familiar objects. Surely the opportunities of learning at any good fair, furnish a class of amusement superior to that offered by fake side-show attractions, and thrilling vaudeville "stunts."

"But," say the fair managers and they probably know their business, "the public demands this sort of amusement. We don't offer \$500 for a horse race and \$25 for a breeding stallion because we think the race of more value to agriculture; but because it is a better attraction and brings in more money at the gate, and since the state does not support the fairs, we must get the most possible from the gate receipts or we can't run many sort of a fair."

Unfortunately, we have been educated to false standards and ideals and the fair managers, while not free from all responsibility for this condition, must give the people the kind of a fair most of them want, or that will bring in the largest number at the gate.

No institutions deserve better of the farmer than the fairs, and none offers him a better means of useful instruction as to ways in which he may make use of the opportunities offered to him as an exhibitor or as a student of the exhibits to be by others.

### NOTICE

Are You Behind With Your Subscription to The Times?

It is our intention to revise our subscription list during the present month, and we are going to drop all who are in arrears for a year. We are very thankful to our subscribers for the patronage extended and it will be with genuine regret that we drop anyone from the list. The date of expiration is marked after your name on the paper. If you are behind please call and settle. If in your estimation the date is wrong, call and apprise us of the fact and we will gladly make the correction.

We will extend the time to the 31st day of July in order to give all ample notice.

B. J. STRICKLAND, Publisher.

### WANTED NOW.

Right now, when hay fever is attacking its victims and when asthma is causing so much distress, there is a demand for Foley's Honey and Tar Compound—the remedy that brought relief to thousands in previous years. Don't continue to suffer. It will help you. Contains no opiates. For sale by Pecos Drug Co.—Adv.

AFTER "THE GRIP," or in convalescence from pneumonia, fever, or other debilitating diseases, your quickest way to get flesh and strength is with Doctor Pierce's Golden Medical Discovery. That gives purity to your blood, plumpness to your body, and puts every function into perfect working order. It makes thoroughly effective every natural means of repairing and nourishing your system. For pale, puny, scrofulous children, nothing approaches it. It builds up completely their flesh, their strength, and their health. In the most stubborn Scrofulous, Skin or Scalp Diseases, Eczema, Salt-rheum, and every kindred ailment, it effects wonderful cures. Contains no alcohol or harmful drugs. In tablet or liquid form. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take.

# STATE UNIVERSITY ITEMS

## NEW STATE OFFICERS COURSE IS ANNOUNCED.

Encouraged by the success of the three weeks Health Officers' school which has just closed at the University of Texas, the authorities of the institution authorize the following announcement:

"In accordance with a long cherished plan the Medical Department of the University of Texas will give next year at Galveston, a six weeks post-graduate course for health officers and those wishing to fit themselves for public health work. In addition as qualified applicants present themselves, a graduate course of one year leading to the Certificate in Public Health, C. P. H., will be given."

Dr. B. L. Arms, professor of preventive medicine, and head of the newly created Division of Human Conservation Extension department expressed great satisfaction with the work of the three weeks school at the Main University.

"The demonstrations at the pure food and drug Commission showing proper methods of meat inspection and analysis, food sanitation and inspection, the lectures delivered and round tables conducted by Dr. L. H. Bahrenburg, explaining the public health activities of the Federal Government were especially helpful," declared Dr. Arms. "Other members of the program which the health officers in attendance pronounced extremely interesting and instructive were presented by Dr. W. B. Collins, State Health Officer; Judge A. S. Walker, Dr. Watkins, Professor Jesse P. Rich and Mary E. Gearing, Dr. J. T. Wilhite, of the State Pasteur Institute, Dr. Mary C. Harner, Dr. F. J. Slatener, Dr. L. P. Robertson and Hon. E. H. McQuiston, Mayor of PParis.

The complete registration of the term is as follows:

Dr. W. B. Collins, Austin; W. A. Davis, Austin; E. W. Thomas, of Georgetown; P. C. Wray, Jayton; Wm. H. Smith, Hondo; R. McCormick, Waco; W. E. Spivry, Belton; J. M. Loving, Austin; R. L. Graham, Cotulla; J. C. Winn, Gilmer; Preston Worley, Rockport; Lewis Meniwrather, Crockett; Charles Towns, Eagle Pass; W. W. Latham, Crockett; E. M. Watts, Texarkana; Alonzo Garwood, New Braunfels; E. N. Loomis, Dallas; Chas. Saville, Dallas; Mrs. E. L. Darwin, Austin; Dr. J. S. Bromond, Dallas; Mrs. L. R. Minifree, Dallas; Miss K. H. Ott, Dallas; Mrs. N. B. Scott, Austin; Dr. A. H. Norton, New Braunfels.

The students of the Summer Normal at the University of Texas are fortunate this summer in having the privilege of doing work in nature study. This, according to educational authorities, is highly important and is a much neglected field in the training of rural teachers. "There is no training that adds so much to the enjoyment of the everyday things," says Prof. W. I. Taylor, of the University School of Agricultural Education. "Of things with which we come in daily contact; that gives the individual a greater appreciation of the beautiful in the world of Nature; and that enriches life so much as a knowledge of the things that Nature has placed around us. Those who live closest to nature are those who live in the country, and they are the ones who need a greater knowledge of Nature and Nature's laws. The best means of getting this information to the people who need it is through the rural teacher."

Professor Taylor is giving the students in the agricultural section of the Summer Normal some most vital etoi ni etoin etoan vital work in studies of Nature, every Saturday afternoon at 2:30 the students in the agricultural class and others who care to attend assemble in a large room for a Nature hour. Sometimes the work is in the form of a lecture by Prof. Taylor, sometimes it is a question and answer hour, or again it may be given to general discussions. This hour has proven intensely interesting. A great many people who are not students come out to the university to enjoy it. Men and women who have long since passed the prime of life come out to enjoy the Nature stories and to hear the discussions. But perhaps the most interesting and most helpful phase of the

pleased the old bachelor salesman. "The young man of 22?" said the young man of 22. "Something in haberdashery?" said the young man of 22. "The young man of 22?" said the young man of 22.

## NOTICE OF TRUSTEE'S SALE

WHEREAS, on the 2nd day of May, 1908, Emily J. Webb, of Cook County State of Illinois, made, executed and delivered her four (4) certain promissory vendor lien purchase money notes each for the sum of One Hundred and Sixty Dollars (\$160.00), due May 2nd 1907, 1908, 1909 and 1910, respectively, payable to Frederick J. Olcott, or bearer, and bearing interest at the rate of six per cent (6%) per annum from date, payable annually, and providing for an additional ten per cent (10%) as attorney's fees if placed in the hands of an attorney for collection, to secure the payment of which a vendor's lien was retained against the hereinafter described property, and to further secure the payment of said notes the said Emily J. Webb on May 2, 1908, executed and delivered to T. D. Cobbs, trustee, her certain deed of trust of record in Vol. 1 pages 56 to 60, Deed of Trust Records Loving County, Texas, conveying the following property in Loving and Ward Counties, Texas, The North-East Half Sec. 2, T. 22 N., R. 12 E., S. 12, of the South-West Half (S. W. 1-2) of Survey No. Seventy-five (75) in Block No. Thirty-three (33) on the waters of the Pecos River, about 12 miles S. & 8 deg. W. from the center of the County, originally granted to the Houston & Texas Central Railway Company, by the State of Texas, by virtue of Certificate No. 49-4853, more particularly described as follows:

BEGINNING at a point in the S. E. line of this section and N. W. line of section No. 74, 1908 trs. S. 12 deg. W. from a stone mound West point of a small hill the East corner of this section;

THENCE S. 40 deg. W. 350 varas to the South corner of this tract;

THENCE N. 50 deg. W. 250 varas to the West corner of this tract;

THENCE N. 40 deg. E. 250 varas to the North corner of this tract;

THENCE S. 50 deg. E. 250 varas to the place of beginning, containing 160 acres of land; and.

WHEREAS, the principal of said notes and the interest thereon from May 2, 1908, are past due and still unpaid; and.

WHEREAS, T. D. Cobbs, the trustee named in the deed of trust aforesaid has by an instrument in writing dated July 23, 1912, resigned said trust and still refuses to execute the same; and.

WHEREAS, Dudley Olcott 2nd and James N. Wallace, who were at that time and are now the legal holders and owners of said notes did on the 14th day of April, 1915, by an appointment and designation in writing, name, constitute and appoint E. C. Canon of Reeves County, Texas, as the successor in said trust, and as the trustee for the said T. D. Cobbs and substitute for the said T. D. Cobbs and James N. Wallace have exhibited said notes to me, the said E. C. Canon, and have requested me to proceed to sell the real estate above described, or so much thereof as may be necessary to pay the amount specified in said notes, with interest, and the cost of executing this trust;

NOW, THEREFORE, I, E. C. Canon, the substitute trustee, hereby give public notice that at the Court house door in the City of Pecos, County of Reeves, to which Loving County is attached for judicial purposes), State of Texas, between the hours of ten o'clock A. M. and four o'clock P. M. on the first Tuesday in August 1915, being the 3rd day of said month, I will sell at public auction to the highest bidder for cash the hereinbefore described property, or so much thereof as may be necessary to pay the amount of said notes, with interest and the cost of executing this trust; and on the same day, August 3, 1915, between the hours of ten o'clock a. m. and four o'clock p. m. I will also sell at public auction the same property at the courthouse door in the city of Barstow, County of Ward, State of Texas, (this land being situated partly in Ward and partly in Loving Counties and I being uncertain as to where sale should be made), said sale to be made to the highest bidder for cash for said property or so much thereof as may be necessary to pay the amount of said notes with interest and the cost of executing this trust; and I will declare said property sold to the person who shall make the highest and best bid, whether the same be bid at the sale in Reeves County or at the sale in Ward County, and I will deliver to the purchaser the purchaser's certificate thereof, in my name, and substitute trustee, a deed or deeds conveying the property sold, and binding the said Emily J. Webb to warrant specially the title to said land; and the proceeds arising from said sale I will apply (1) to all proper expense of advertising, selling and conveying said premises, including a commission to the trustee for making the sale; (2) to the payment of said notes and all interest due thereon; and (3) to the parties entitled to receive the balance, if any balance remains.

WITNESS MY HAND this 7th day of July, A. D. 1915.

E. C. CANON, Substitute Trustee.

WOMEN ACTIVE THE WORLD OVER

Oregon has 15 women architects. New York City has a woman butcher.

Women are said to be healthier than men.

Philadelphia has over 12,000 saleswomen and clerical workers.

Margherita, Italy's Queen Mother, is an accomplished violinist.

In Persia it is unknown for women to work in stores or offices.

Over 52 per cent of all the store workers in Philadelphia are women.

Miss Maud Younger of Chicago is known as the millionaire waitress.

Arizona has two women legislators and seven women school superintendents.

The British Board of Agriculture maintains a school where women are taught farm labor.

In Massachusetts, a female Governor will be a legal possibility.

Women inspect as high as 31,000 cartridges in a day in the United States arsenal in Philadelphia.

Dr. Armada T. Norris has been practicing medicine in Baltimore for the last 35 years.

Over 25 percent of the employees in the British Postal Department are women.

In New York City public school teachers must undergo examinations and tuberculosis tests.

Mrs. Minna Mollmon of St. Louis has the distinction of being the mother of two mayors.

Mrs. Annie Winship, who is past 84 years of age, is the oldest college student in the United States.

The National Conference of Charities and Correction is presided over by a woman as president.

Fifty-three per cent of the girls graduated of Barnard College are engaged in paid occupations.

Dr. Maria Montessori, the famous Italian educator, will conduct a training school for teachers in California.

Later Mrs. Pankhuri noted English suffrage leader has announced that she will mother fifty war babies.

Sixty five per cent of the women employed in Philadelphia department stores are over 21 years of age.

German mothers believe that if they lose the heel of one of their baby's shoes it will die before the year is out.

An "order" of honor solely for women will be one of the new diplomatic decorations soon to be established by the Sultanate of Egypt.

Twenty-four girls of Walnut Grove, Kansas, have formed a cadet corps with the idea of later securing the permission of the United States War Department, making it an official part of the State militia.

Some of the largest taxpayers in Gettysburg, Pa. are women, but they have no voice in the affairs of the city's government.

Miss Lora Scott, Principal in a Philadelphia public school, spends her vacation each year by taking travel trips to foreign lands.

At the present time over 80 per cent of the women in Great Britain are engaged either in voluntary work or in professional or industrial work.

Miss Annie B. Tinker, society housewife, suffragist and popular member of the younger social set in New York, has sailed for Paris where she will take up Red Cross work.

Madeline Hunyadi of Hungary is the god-mother of 37 children of men who have died in battle and the Countess will pay for the bringing up of all these babies which she now regards as part of her own family.

Several hundred graduates of the Woman's Medical College of Philadelphia from all parts of the universe will assemble in that city on June 15 to attend the alumna conference with the fifty-six annual commencement of the institution.

To Drive Out Malaria And Build Up The System Take The Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is

Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

HOUSEHOLD HINTS,

Nothing can take the place of vegetables and salads in our daily food or do the work for which they are fitted. For those who find that green cooked vegetables induce flatulence it is well to remember that uncooked vegetables never have this effect.

To bleach clothes that have turned yellow from long use or from wearing in the dust, put them in a tub for about five days in butter-milk using a stone jar or a wooden bucket for the purpose. At the end of that time rinse thoroughly and boil in light soap suds.

Start rose bushes from cuttings in the following way: Cut off the blossom and make a clean cut on the other end, leaving two joints. Fill a jar two-thirds full of sand and thrust the end of the stem into it. Keep the sand well moistened and place in a sunny window.

In packing children's lunches for school, always wrap the sandwiches in oiled paper. Meats for filling are best chopped. Cream cheese, combined with nuts make a good filling for a change.

Eucalyptus oil will remove grease spots of any kind from any kind of material without injuring it. Apply a little of the oil with a clean piece of flannel and rub the material gently until the stains disappear.

A fire may be lighted without any wood at all. Roll up sheets of newspaper very tightly, tie them in knots, and place on top of the usual loose piece of paper some small pieces of coal on top of these.

To clean a raincoat, it should be dipped in cold soft water, spread on a table, and scrubbed all over with a large nail brush and soap. Then put it on a coat hanger, and, if possible, dry in the open air.

No matter how small the remains of vegetables from dinner, they should be carefully put away on plates in the larder. Cold potatoes can be used for a multitude of different dishes, and other vegetables are not far behind in this respect.

Any remains of cauliflower may be placed in a nic dish with the sauce, if any, and dused over with grated cheese then put in the oven to brown. If there are only scraps mix with other vegetables and bake in scallop shells.

Time and labor are saved, if before preparing a vegetable dinner, you first spread a piece of brown paper on the table. The refuse and dirt can be rolled up in the paper and burned leaving the table as clean as it was before.

Suede shoes will clean nicely if the following method is followed: Put the shoes on a shoe tree or stuff them tightly with paper. Then rub well with a rag moistened with turpentine and place shoes in the air to dry.

Instead of prying fruit jars open with a knife, just hold the top in warm water for a minute and you will be surprised to see how easily the lid will come off, it also avoids all danger of cutting your hands as so often happens.

If the alarm clock rings too loud for the peace of the household slip an elastic band around the bell to diminish the noise; the wider the band the stronger the submission, and a few experiments will demonstrate just what width is most desirable.

A large, clean marble boiled in milk porridge, custards, sauces or steams will automatically do the stirring while the liquid cooks. Any chance of burning is prevented, the weariness of constant stirring is avoided and time is saved.

ARE YOU FEELING FIT?

Do you envy the man or woman of untiring energy, strong body and happy disposition? All these depend upon good health, and good health is impossible when the kidneys are diseased. Foley's Kidney Pills help the kidneys cast out the poison that causes backache, rheumatism and other symptoms of dangerous kidney and bladder troubles. For sale by Pecos Drug Co.—Adv.

More than 62,000 Women in the United States cultivate fruit among them being several of California's most successful fruit growers.

STARCHY FOODS NEED PROLONGED COOKING.

Combination of Sugar, Fat and Starch is Most Conducive to Thorough Digestion.

Scientists declare that one of the most prevalent mistakes in the matter of selection of food for human beings is that too much meat is included. Red meats, through the extractives, may stimulate the body and leave it feeling alive, but without the vigorous inclination to do work, or the ability to carry on sustained activity or either physical or mental action. Bodies thus fed tire quickly and too frequently feel the need of food. This constant need may keep the body so busily occupied in the work of digestion that it can do little else, for the digestive apparatus is under too constant and unceasing of a strain.

Even the foods that form tissues that are without extractives, such as grains, white meats, eggs and milk, will require, if overeaten, a great deal of work on the part of the body to eliminate them. And the result may be that the body is troubled, exhausted or even poisoned to a degree, rather than that they are nourished by the foods that are used. Even the well formed and strong body cannot work long if its food brings no additional supply of energy. It would be compelled to use itself in living. Hence the need of heat and energy producing foods must be constantly supplied if health and vigor are to result.

The largest proportion of food daily consumed is of the energy producing variety; this portion, of course, does not enter largely into the body, but is consumed for the production of bodily heat and activity and this later is expended in daily labor, whether of the physical or mental variety. Carbohydrates and fats particularly produce activity of the body. Among the former are vegetables, potatoes, rice, and grain, sugars and their compounds, cakes, fruits and candies. The principal fats are found in meats, butter, cream, cotton seed, olive and edible oils.

Starch is more slowly digested than either sugar or fats, and it also requires more prolonged cooking to make it digestible. This slow digestion of starch causes it to provide energy longer after eating than either sugar or fats. It gives endurance in activity. However, were it alone used as a food the energy derived from it would be too slow in becoming available and the digestive tract would be overworked in securing from it the needed energy. Starchy foods also contain more vegetable fibre to be eliminated and in that manner also impose additional labor on the digestive apparatus.

Sugar and fats are therefore needed, but if used alone they would require too continuous eating. They are not usually as digestible when constantly eaten as is the starch in bread or potatoes. Sugar and starch may store fat in the body, but fat as food probably does not. This is the basis of many prescriptions for reduction of fat, or obesity given by medical men.

BRITAIN PLACES BAN ON LIQUOR "TREATING."

Hours of Sale Limited and Giving of Credit for Drinks is Prohibited.

Besides limiting the hours during which liquor may be sold in towns where the Government has taken over control of the sale of liquors, the board of control appointed to deal with the munitions areas has ordered that there shall be no "treating" and has prohibited the giving of credit for liquor. The sale of liquor in licensed houses is permitted only between the hours of noon and 2:30 p. m., and between 6 and 8 o'clock in the evening. No orders may be given or accepted for spirits to be consumed off the premises on Saturdays and only between noon and 2:30 p. m. on other days.

The penalty for contravention of the regulations is fixed at six months' imprisonment and a fine of \$500.

State of Ohio, city of Toledo, I, Jas. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Sworn to before me and subscribed in my presence, this 24 day of December, A. D. 1915. A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for FREE COPY of book "How to Cure Catarrh." F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for Constipation.

SHERIFF'S SALE

The State of Texas, County of Reeves. By virtue of certain Order of Sale issued out of the Honorable District Court of Reeves County, on the 6th day of July, 1915, by the District Clerk of said County, against W. B. Ninety-three and 21-102, (\$293.21 Dollars and costs of suit, in cause No. 1421 in said court, styled W. H. Neel versus W. B. Hipp, and placed in my hands for service, I, Tom Harrison, as Sheriff of Reeves County, Texas, did, on the 6th day of July, 1915, levy certain Real Estate, situated in Reeves County, described as follows, to-wit:

Lots Thirteen (13) and Fourteen (14), in block Sixteen (16), in the town of Pecos, in Reeves County, Texas, shown by the plat of said town, recorded in Book 2, Page 259, of the deed records of Reeves County, Texas. And levied upon as the property of said W. B. Hipp, and on Tuesday, the 3rd day of August, 1915, at the court house in Pecos, Texas, in the town of Pecos, between the hours of ten a. m. and four p. m. I will sell said property, at public vendue, for cash, to the highest bidder, as the property of said W. B. Hipp, by virtue of said levy and said order of sale.

In compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Pecos Times, a newspaper published in Reeves County.

Witness my hand, this 6th day of July, 1915. TOM HARRISON, Sheriff, Reeves County, Texas 9-7-23-3.

NOTICE OF TRUSTEE'S SALE

State of Texas, County of Ward. WHEREAS, on the 6th day of March, 1906, Amelia Cleys, of Cook County State of Illinois, made, executed and delivered her four (4) certain promissory vendor lien purchase money notes each for the sum of One Hundred and Sixty Dollars (\$160.00), due March 6, 1907, 1908, 1909 and 1910, respectively, payable to Frederick P. Olcott, or bearer, and bearing interest at the rate of six per cent (6pct.) per annum from date, payable annually, and providing for an additional ten per cent (10 pct.) as attorney's fees if placed in the hands of an attorney for collection, to secure the payment of which a vendor's lien was retained against the hereinafter described property, and to further secure the payment of said notes the said Amelia Cleys on March 6, 1906, executed and delivered to T. D. Cobbs, trustee, her certain deed of trust of record in Vol. 1 pages 31 to 35 Deed of Trust Records Loving County, Texas, conveying the following property formerly in Loving County but now in Ward County, Texas:

The South-West Half (S. W. 1-2) of the South-West Half (S. W. 1-2) of Survey No. seventy-three (73) in Block thirty-three (33), on the waters of Pecos River, about thirteen miles S. 5 deg. W. from the center of said county, originally granted to the Houston & Texas Central Railway Company by the State of Texas, by virtue of Certificate No. 40-4852, more particularly described as follows:

BEGINNING at a stone mound on the North bank of Pecos River the south corner of this section and West corner of Section No. 72 from which mesquite 5" bears S. 13 deg. W. 920 varas to the North corner of this tract; THENCE S. 40 deg. W. 1161 varas to a stake on North bank of Pecos River the West corner of this section from which mesquite 6" bears N. 85 deg. W. 49 varas Do. 7" bears N. 86 deg. W. 59 varas; THENCE down said river with its meanders N. 82 3-4 deg. E. 146 varas S. 58 deg. E. 98 varas, S. 82 deg. E. 155 varas, S. 70 1-2 deg. E. 209 varas, S. 57 deg. E. 42 varas, S. 24 1-4 deg. E. 123 varas, S. 11 1-2 deg. E. 125 varas, S. 8 7/8 deg. E. 188 varas to the place of beginning, containing 160 acres of land. And,

WHEREAS, the principal of said notes and the interest thereon from March 6, 1908, are past due and still unpaid; and,

WHEREAS, T. D. Cobbs, the trustee named in the deed of trust aforesaid has, by an instrument in writing dated July 23, 1912, resigned said trust, and still refuses to execute the same; and,

WHEREAS, Dudley Olcott 2nd and James N. Wallace, who were at that time and are now the legal holders and owners of said notes did on the 14th day of April, 1915, by an appointment and designation in writing, name, constitute and appoint E. C. Canon of Reeves County, Texas, as the successor in said trust, of, and as the substitute for the said T. D. Cobbs; and

WHEREAS, the said Dudley Olcott 2nd and James N. Wallace have exhibited said notes to me, the said E. C. Canon, and have requested me to proceed to sell the real estate above described, or so much thereof as may be necessary to pay the amount specified in said notes, with interest and the cost of executing this trust;

NOW, THEREFORE, I, E. C. Canon, the substitute trustee, hereby give public notice that at the Court house door in the City of Barstow, County of Ward, State of Texas, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on the first Tuesday in August, 1915, being the 3rd day of said month, I will sell at public auction to the highest bidder for cash the hereinafter described property, or so much thereof as may be necessary to pay the amount of said notes, with interest and the cost of executing this trust, and I will deliver to the purchaser or purchasers thereof, in my name as substitute trustee, a deed or deeds conveying the property sold and binding the said Amelia Cleys to warrant specially the title to said land; and the proceeds arising from said sale I will apply (1) to all proper expense of advertising, selling and conveying said premises, including a commission to the trustee for making the sale; (2) to the payment of said notes and all interest due thereon, and (3) to the parties entitled to receive the balance, if any balance remains.

WITNESS MY HAND this 2nd day of July, A. D. 1915. E. C. CANON, Substitute Trustee. 9-7-23-3.

NOTICE OF TRUSTEE'S SALE

State of Texas, County of Ward. WHEREAS, on the 6th day of March, 1906, Amelia Cleys, of Cook County State of Illinois, made, executed and delivered her four (4) certain promissory vendor lien purchase money notes each for the sum of One Hundred and Sixty Dollars (\$160.00), due March 6, 1907, 1908, 1909 and 1910, respectively, payable to Frederick P. Olcott, or bearer, and bearing interest at the rate of six per cent (6pct.) per annum from date, payable annually, and providing for an addi-

tional ten per cent (10pct.) as attorney's fees if placed in the hands of an attorney for collection, to secure the payment of which a vendor's lien was retained against the hereinafter described property, and to further secure the payment of said notes the said Amelia Cleys on March 6, 1906, executed and delivered to T. D. Cobbs, trustee, her certain deed of trust of record in Vol. 1 pages 36 to 46, Deed of Trust Records Loving County, Texas, conveying the following property formerly in Loving County, but now in Ward County, Texas:

The North-East Half (N. E. 1-2) of the South-West Half (S. W. 1-2) of Survey No. Seventy-three (73) in Block No. Thirty-three (33), on the waters of Pecos River about thirteen miles S. 5 deg. W. from the center of the County, originally granted to the Houston & Texas Central Railway Company by the State of Texas, by virtue of Certificate No. 40-4852, more particularly described as follows:

BEGINNING at a point in the S. E. corner of this section 1900 varas S. 40 deg. W. from the East corner; THENCE N. 50 deg. W. 950 varas the South corner of this tract; THENCE N. 50 deg. W. 950 varas to the West corner of this tract; THENCE N. 40 deg. 950 varas to the North corner of this tract; THENCE S. 50 deg. E. 950 varas to the place of beginning, containing 160 acres of land, and

WHEREAS, the principal of said notes and the interest thereon from March 6, 1908, are past due and still unpaid; and,

WHEREAS, T. D. Cobbs, the trustee named in the deed of trust aforesaid has, by an instrument in writing dated July 23, 1912, resigned said trust and still refuses to execute the same; and,

WHEREAS, Dudley Olcott 2nd and James N. Wallace, who were at that time and are now the legal holders and owners of said notes did on the 14th day of April, 1915, by an appointment and designation in writing, name, constitute and appoint E. C. Canon of Reeves County, Texas, as the successor in said trust, of, and as the substitute for the said T. D. Cobbs; and

WHEREAS, the said Dudley Olcott 2nd and James N. Wallace have exhibited said notes to me, the said E. C. Canon, and have requested me to proceed to sell the real estate above described, or so much thereof as may be necessary to pay the amount specified in said notes, with interest and the cost of executing this trust;

NOW, THEREFORE, I, E. C. Canon, the substitute trustee, hereby give public notice that at the Court house door in the City of Barstow, County of Ward, State of Texas, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on the first Tuesday in August, 1915, being the 3rd day of said month, I will sell at public auction to the highest bidder for cash the hereinafter described property, or so much thereof as may be necessary to pay the amount of said notes, with interest and the cost of executing this trust, and I will deliver to the purchaser or purchasers thereof, in my name as substitute trustee, a deed or deeds conveying the property sold and binding the said Amelia Cleys to warrant specially the title to said land; and the proceeds arising from said sale I will apply (1) to all proper expense of advertising, selling and conveying said premises, including a commission to the trustee for making the sale; (2) to the payment of said notes and all interest due thereon, and (3) to the parties entitled to receive the balance, if any balance remains.

WITNESS MY HAND this 2nd day of July, A. D. 1915. E. C. CANON, Substitute Trustee. 9-7-23-3.

NOTICE OF TRUSTEE'S SALE

State of Texas, County of Reeves. WHEREAS, on the 2nd day of May, 1906, Emily J. Webb, of Cook County State of Illinois, made, executed and delivered her four (4) certain promissory vendor lien purchase money notes each for the sum of One Hundred and Sixty Dollars (\$160.00), due May 2nd, 1907, 1908, 1909 and 1910, respectively, payable to Frederick P. Olcott, or bearer, and bearing interest at the rate of six per cent (6pct.) per annum from date, payable annually, and providing for an additional ten per cent (10pct.) as attorney's fees if placed in the hands of an attorney for collection, to secure the payment of which a vendor's lien was retained against the hereinafter described property, and to further secure the payment of said notes the said Emily J. TO EXCHANGE.

FOR EXCHANGE—Finest valley land with abundant river water for irrigation. Want horses, mules and milk cows. E. L. Stratton, Porterville. 15tf

AS WE SEE IT.

Big and enduring prosperity for America is on the way. Its with us now, in spots. We call to witness the biggest wheat crop in ten years and the huge order for war supplies, motor trucks, army blankets, etc. At the outbreak of the war wheat sold for 65 cents a bushel. It has jumped to \$1.65. This rise of one dollar when applied to the crop which America has for export means three hundred millions of dollars added to the Nation's wealth. So much for the boom in war exports. It will end with the war.

But we also have a permanent prop for our edifice of prosperity, namely, the fact that Uncle Sam is now learning to make for himself and the world what he and the world formerly bought from Europe. This is no pipe-dream. We illustrate with cotton. Uncle Sam grows two-thirds of the world's cotton. Formerly, from force of habit, he shipped most of it to Europe in the raw state and then he bought it back from England, and France, and Belgium in the shape of mercerized underwear and costly laces. Now it so happens that the arena of war is set in the lace making districts of France and Belgium with the result that the whole industry has been wiped out. Uncle Sam must have laces. If he can't buy them, he must make the laces himself. That's why our whilom lace importers are now making French and Belgian laces in the factories of New York and New Jersey and why, for similar reasons nine new cotton mills of large capacity were opened throughout the South, within sixty days after the war opened. The same can be said of medicines, perfumes, gloves, toys, cork, pottery, photographic supplies, chemicals and dyes.—American Printers' Rollers Company.

BORDERLAND AUTO ROUTE

El Paso, July 20.—Messrs. Robt. H. Rinehart and Harry Locke, of the El Paso Automobile club, an auxilliary of the El Paso Chamber of Commerce, have just completed a log of the automobile route and roads leading in every direction from El Paso, which should be of great value to the automobilists of not only the territory covered by the log, but of all auto tourists from other sections traveling thru the Southwest.

The new log, which is now on the press and which will be in the hands of the auto traveling public within the next ten days or two weeks, is very complete, showing every crook and turn in the roads logged, every bit of sand in long stretches, every ranch house at which accommodations may be had by travelers who may not be fortunate enough to reach hotel towns.

Messrs Rinehart and Locke had already completed a log of the Borderland Route from Los Angeles and San Diego through Phoenix, Tucson, Bisbee, Douglas, Lordsburg, and Deming to El Paso, and to this have added logs of the roads from El Paso to Albuquerpue, via the Elephant Butte dam, to connect with the Ocean to Ocean route from El Paso to Alamogordo, Cloudcroft, Tularosa, Carrizozo, White Oaks and Roswell; from El Paso to Artesia and Roswell via the Huelco tanks and Hope; from El Paso to Midland, Texas, by way of Artesia, Carlsbad, Pecos, and Fort Stockton; and from El Paso to Alpine by way of Siera Blanca, Valentine and Marfa. The total distance it covers approximates 4,000 miles.

The new logs will be issued under the auspices of the El Paso Chamber of Commerce and the publicity department of that organization is at work upon a system of distribution which will place the log in the hands of the greatest possible number of automobilists contemplating a tour of the Southwest this fall and there after.

WILL HOLD AUTO RACE AT JUAREZ.

El Paso, Texas, July 20.—The El Paso Auto club has applied to the A. A. A. for a sanction for a 300 mile auto race to be run over the track of the Jockey Club, at Juarez, Mexico, the last week of September. The track is one of the best race tracks on the American continent and it can be had for the purpose of holding an auto race, it is said by the promoters of the proposed meet, if, after the race it is restored to proper condition for horse racing.

It is the intention of the promoter of the auto race to bank the turns so heavily so as to make them safe. The plans have been submitted to a number of men well versed in the auto racing game on circular tracks and they say record time can be made on the Juarez track if the plans are carried out. The race will be held in the afternoon, and will be run in the several races which, in addition to the proposed 300 mile race, will make up the three day program now in mind. Transcontinental travel, to and from the expositions at San Francisco and San Diego, will be at its height at the time the races will be held if the meet is sanctioned and good gates will be certain, in the opinion of those active in the promotion of the affair.

YOU CAN HAVE RICH LAND IF YOU WILL TRY.

Mr. Frank Ashe, of McConnellsville, was quoted in the Enquirer the other day as saying that if he had known 20 years ago what our clover would do as a soil restorer, and had had the wisdom to look into the future, by this time he would be independently rich, or words to that effect.

There are thousands of acres of land in York County, in many cases including whole farms that are poor and unproductive. If the owners of these lands continue to treat them in the future as they have in the past, they will be as poor and unproductive 20 years from now as they are at the present time. If the young men of today, however, are encouraged to begin the systematic planting of bur clover, crimson clover, vetch and other similar crops, turning them under, and rotating with corn, cotton, wheat, oats and the like, then after a period not of 20 years, but of only 4 of 5 years, they will begin to find themselves on the road to prosperity at a speed that cannot be so easily attained otherwise.—Yorkville Enquirer.

THE CHURCHES.

METHODIST.

There will be no preaching services at the Methodist Church next Sunday.

Sunday School 9:45 a. m. Prayer Meeting Wednesday evening, 8:30, led by A. J. Curtis. FRED LITTLE, Pastor.

STATE UNIVERSITY ITEMS

(Continued from page 6)

work is the early morning when the students are taken for Nature ramble. They assemble at 5:30 a. m. one or two mornings each week and spend an hour or a half in bird study and wild flower study. In addition to this, afternoon excursions are made to various places of interest in and around Austin. These hikes are thoroughly enjoyable. The students are especially interested in the study of birds. They identify thirty specimens of birds from 5:30 to 7 o'clock, and are able to describe the habits of many of these.

The work has aroused a great deal of interest and promises to grow more interesting as more attractive and more helpful in nature.

A large portion of the University Extension Department is busy preparing exhibits for the Farmers' Institute which will be held in Austin during the latter part of July and for the Carnival at Galveston. The exhibits of these two functions will be duplicated to some extent in cases where space is indicated it will be taken care of.

At the Cotton Council, the Division of Human Consumption will have an important exhibit and will work in cooperation with the Medical College. The exhibit will deal especially with proper methods for disposing with human waste matter, sanitary water supply both in town and country, and prevention of insect-borne diseases such as malaria transmitted by the mosquito, typhoid and dysentery, transmitted by the water and flies, and hook-worm, which obtains hold of its victims because of the lack of facilities for properly disposing of human excretions.

Both exhibits will contain charts and models and photographs dealing with child-labor, school hygiene and kindred subjects.
