### Destiny.

When but a child I used to plan what I would do in future years when Ihad grown to be a man-amusing now my dream appears. I thought I'd be a pirate bold, the master of a rakish ship, with all the plunder she could hold, a gun and entlass of my hip. My dreams were shot with blood and fire, and low with noisy, ribald glee; and here I sit and paw a lyre, and I have never seen the sea. I had a friend, a soulful lad, who lived next door to my abode; and he was never quite so glad as when he framed a gentle ode His mind was filled with rhymic dope, a bard's renown be longed to make; some day he hoped to be a pope, to stand with Shelly or with Blake. I've met this friend of yestervear, and he has penned no deathseslline; kept busy as an auctioneer he sells all sorts of hogs and swine. And I had one aspiring friend, who often said, "My dreams won't fade! Just watch me to the heights ascend, a ruler in the world of trade Just watch my curves and you will see the owner of our biggest store some day my f'an' and bring me me is from ever

shore." The fats conspire to disappoint! That youth fell down the worst of all; he's running a hot dog icint, and you may hear his plaintive bawl. As man pursues his erring way he finds most everything askew: I wonder if there lives a lov who saw his boyhood dreams come true.

Alas for the soak and the bum and the drifter! The tale of their anguish no poet can tell; they'll hit, when they long for a four-fingered snifter, the old oken bucket that hangs in the well. I stand with the poet who boosted the bucket, who said that it struck him as finer than silk; we've long clung to waiskey, but now we will chuch it, and sample such liquids as water and milk. Oh, then we'll be chipper and blithe in the morning, as gay as a kitten, as sound as a bell; he wiles of the bootlegger manfully corning, we'll hit the old buckett that hangs in the well.

### Are Your Eyes Normal?

This is a question you should honestly ask yourself. Many people go about for years and do not know that their eyes are below normal in

Recently a man accidentally discovered that he was near-sighted. He had been near-sighted for years, but somehow or other did not seem to realize it. When asked why it was that he didn't know his sight was so poor he said, "I thought other people couldn't see any better than I could." He says now he would

not be without glasses. If you have any reason to believe that your eyes are not what they should be-do away with doubt once and for all-have them tested by me. Testing is free and you are under no obligations.

## Your Battery's Different

There is one part of your new car that is different from all the rest—your battery.

For storage batteries are chemical-not mechanical.

The time to begin taking care of that battery is the first day that you get your new car. If you do this, your battery will not only last longer, but it will give you better service as long as it is in use.

So when you buy your new car, the very first thing to do is to come to us for full instructions. We will register your battery, and at the same time will be glad to give you a copy of the booklet, "Willard Service and You."

### What Have YOU done about Tires?

A number of motorists in this city—many of them business men you know-have increased the pleasure of motoring by eliminating tire worry. And you can do it, too. A new principle of tire construction invented by Charles C. Gates, E. M.,

These motorists, including the biggest business houses in the country, have proved that Gates Half-Sole Tires enable them to get 5,000 to 15,000 more miles than ever before from their And Gates Half-sole Tires are 20 per cent oversize-stronger and better than the tires now on your car-guaranteed punc-
