THE NEW ERA

Marfa is the gateway to the proposed State Park, which contains the most beautiful scenery in the whole Southwest. Spend your vacation among your own scenery.

VOLUME 38

MARFA, TEXAS, SATURDAY, SEPTEMBER 30, 1924.

NUMBER 20

CONNECTS WITH BELL SYSTEM.

A deal was consummated last week whereby the Big Bend Telephone Co. which operates the Marfa and Fort Davis exchanges, acquired the telephone wire between Marfa and Presidio of the government. Also wires and poles were purchased from the same source to construct a telephone line from Valentine to Fort Davis. This in addition to the copper wire circuit the Big Bend Telephone Co. has from Fort Davis to Balmorhea, will give Fort Davis three toll circuits. This will necessitate the employment of a night operator at this exchange so as to give a 24-hour service as required of companies connecting with the Bell telephone system.

Most important of all in this deal is the fact that in connecting up in this way with Balmorhea, where connection is made with the Bell telephone system, the people of Fort Davis, Marfa, Valentine, Shafter and Presidio will be able to talk over their phones to any point in the United States, when all construction work is finished, which will be about November 1st.

This is a great accomplishment for the enterprising management of the Big Bend Telephone Co.

Several of our leading citizens were instrumental in the consummation of the deal.—Fort Davis Post.

DUCKS ON THE RISE.

None but the rich and adventurous can enjoy the luxuries, and sometimes the adventure is all we get out of the luxury. Ducks are now selling at \$15.00 each—that is the rate paid last week by a nimrod from a nearby county. It appears that he was laboring under the impression that in the free state of Presidio the game laws were not enforced, and by the way, this idea has been for years prevalent among our own hunters. However, on examination of Judge Yates' records it is recorded that Deputy Game Warden Pete Crawford is very much alive. It is not recorded the names

LARGE CATTLE DEAL CONSUMMATED.

Mr. H. B. Holmes has just closed a deal with Mr. J. H. Bain of San Antonio, Texas, for the sale of all his live stock, consisting of more than two thousand head of high grade Hereford cattle, and for a five year lease on his splendid ranch just west of Marfa, possession to be given at once.

The deal is a cash transaction, and is one of the largest deals closed in the Marfa territory in several years.

Mr. Bain at one time lived at Floresville, Texas, whence so many of our good citizens came. There he married Miss Ada Whitsett. There are now four fine boys in the home, one of whom is now a student in Baylor University of Waco. Mr. Bain now lives in San Antonio, and is president of the First State Bank of Stockdale, Texas, and is connected with the Runge National Bank of Runge, Texas.

Mr. Gus Varney of Derby, Frio county, will have charge of the ranch and he and his estimable family will soon be with us.

Mr. Bain is to be congratulated on securing this splendid ranch and so large a herd of Highland Hereford cattle. The Marfa country is to be congratulated on having Mr. Bain as one of its ranchmen. He comes to our country most highly recommended as a successful and high class business man.

Mr. and Mrs. Holmes and their son expect to move to town within the next few days.

of the fortunate ones receiving the confiscated ducks. The laws made and provided that the game in such cases might be, or should be turned over to some charitable institution, or the poor. The New Era is ready, willing and much obliged on both counts to accept any donation under this heading.

It pays to paint. It pays to paint with good paint. It pays to paint with Sun Proof Paint. G. C. Robinson Lumber Co.

DEFENSE DAY IN MARFA.

Defense Day, Sept. 12, as seen by Marfa, was inaugurated by a splendid parade through town by the 1st cavalry. The parade was preceded by the band playing patriotic airs.

The Community House, in the morning, was headquarters for the registration, and a large number of citizens registered. At eleven o'clock there were a number of speeches on the lawn in front of the court house, where the band entertained the crowd with martial and patriotic airs. A. M. Avant, Judge W. W. Bogel and Chaplain Harkins were the principal speakers. All of the speeches were very fine and occupied the time until 12 o'clock.

At the Marfa post there was given a special program, as follows:

Morning

Parade and review—Stripped saddles and white equipment, parade through town. Regular troops to be followed by any reserve or civilian organization desiring to participate.

Baseball, Camp Marfa diamond—1st cavalry vs. Marfa town team.

Afternoon

1/8 mile flat race, entries unlimited.

Relay race, 1/2 mile. One man to have four horses at 1/8 mile distances on track. Entries: One man from each troop.

Roman race, 1/2 mile—at least four entries.

Flat race, 1/4 mile—entries unlimited.

Mule and stake race—enlisted men to ride. There will be two lines of stakes, one line at each end of the field. Contestants will start from one end of field turning stakes twice. Mules will be ridden without saddles—snaffle bits. Entries: At least three each from service troop and pack train.

Open jumping, 8 jumps not to exceed four feet in height. Military entries limited to two per organization, officers or enlisted men. Penalties deducted, front tip, 1/2 point;

ORE EXHIBITS HERE FROM SOUTHWEST FOR EXPOSITION

Ores for the mines exhibit of the International Exposition are already arriving and are being placed in the Industrial Building, and there is promise of the most comprehensive display of mineral wealth of the southwest ever assembled here, according to W. R. Scott.

Grant county ores have arrived from Silver City. Hachita also has sent in ores of various kinds. Santa Juliana mines, of Chihuahua, have sent in specimens.

Local persons directly interested in mines development from Guadalupe mountains of New Mexico and Texas to Tombstone, Ariz., have on hand specimens that will be exhibited at the exposition.

Van Horn, Texas, will send an exhibit of rich ores in Culberson and adjacent counties, as well as bricks and building stones surfaced with fragments of mica, giving the effect of granite.—El Paso Herald.

Alpine is making preparation for a mineral, horticultural and agricultural display from Brewster, at the San Angelo Fair. But so far as the Big Bend, the richest section of Texas in minerals, etc., making an exhibit at the El Paso Fair and Exposition, there was never a word said nor a thing done. What is the matter?

hind tip, 1 point; front knockdown, 1 point; hind knockdown, 2 points; refusal, 6 points; three refusals or fall of horse or rider disqualifies.

Polo game. 1st cavalry seniors vs. 1st cavalry juniors.

Evening

Moving pictures at Camp Theatre. Conrad Nagle and Aileen Pringle in "Three Weeks," admission 15c.

Dance at officers club.

PRIMARY CLASSES.

Will teach classes in primary grades beginning Sept. 8th.—Mrs. Harp, Phone 200.

LADIES AID SOCIETY.

The Ladies Aid Society of the Christian church was delightfully entertained Tuesday afternoon at the home of Mrs. G. W. Collie, when Mrs. W. A. Wells and Mrs. G. W. Collie were joint hostesses. It was the regular monthly meeting and birthday party combined, celebrating the birthdays of Mrs. W. A. Wells and Mrs. G. W. Collie, one birthday coming September 25th and the other September 26th.

An offering of \$7.77 was realized, which will go to the building fund.

The Collie home was beautifully decorated in cut flowers. The president of the society, Mrs. N. L. Casner, presided through the regular routine of business and at the close of the business session a social hour was enjoyed; at this time the hostesses serving a tempting refreshment plate that held chicken sandwiches, fruit sherbet and pecan loaf cake. Twenty-two members were present.

The society will meet in October with Mrs. George Howard.

NOTICE!

Miss Mary Lee Greenwood has reopened her class in piano and will have a studio in the public school building. Anyone wishing to arrange for lessons will please phone No. 194.

PHONE DIRECTORY.

The New Era now has the type all up and expects to start the press work on the new phone directory Monday morning.

Barring the unexpected, the new directory should be finished and ready for distribution in about two weeks. We have taken some pains to put the type up in an attractive manner, but there's no telling what might happen to spoil something in the process of printing.

FOR SALE—B P. Rock chickens. Get your pullets and cockerels now—also some to fry. Phone Mrs. J. W. Merrill, 120, 2 shorts.

BAPTIST CHURCH NOTES.

On last Sunday evening the Baptist church was host to the Methodist church. Their pastor, Rev. Henry M. Barton, preached to a good audience. Bro. Barton's sermon was carefully prepared and it led us anew to appreciate the glory of Scripture when it is applied to human experience. Finally it led to our looking again to Jesus, the Saviour of the world. A Sunday evening like that is a great blessing to all who attend.

Some say that our Wednesday night prayer meetings are the best gatherings that we have. Certainly the pastor appreciates leading the people in Bible study and the prayer life.

Next week is to be a week of prayer for all our denominational work. Many thousands of churches will observe this series of special meetings. Further announcements will be made on Sunday.

Nothing encourages a pastor quite so much as to know that every member of his church that can possibly be there is with him at the Sunday service. Will not every Baptist be that sort of encouragement next Sunday?

S. F. MARSH.

H. M. BANDY.

Bro. Bandy who was severely injured in an automobile wreck about a week ago, while on the highway between Fabens and El Paso, is now in the Masonic Hospital in El Paso.

An X-Ray examination revealed a fracture of the skull, and the physicians in charge of the case say it will probably be a month or more before the patient is able to leave the hospital.

In the communication written to L. C. Brite from El Paso, nothing is said as to the details of the wreck in which Bro. Bandy was injured.

MILLADY'S SHOPPE.

New shipments of dresses, sweaters and hats are coming in every day. Be sure and see them.

BETTER VALUES DOES IT?

SHOES

VAMP--A new fall Oxford in block ooze, cut out, 12-8 military heel, covered heel
WHIZ--Another new one in burnt brown, 12-8 military heel, two strap, cut out. Two numbers in "Walk-Overs" that should meet your approval.
"Boston Favorites"---Some new ones with low heels. The good school shoe.

SWEATERS

WHY A BRADLEY?

COMPARE a Bradley with any sweater of near the same price and

NOTE the superior details in finishings; the corded button holes---the most perfect button hole. All junctions of main seams are reinforced with a triangular patch, eliminates ripping at the "main" point of strain. Buttons fastened with special "stays." "Superior" in workmanship, in style, in service.

The sweater you will get more days of service out of.

HATS and CAPS

White Velours, Tan Velours and Cream Velours lead in the new colors for fall, in novelties.

See our new Stetsons --some good lookers to show you. In staples and novelties.

A new hat may be just what it will take to put you at the "head" of "her" class.

::: THERE IS NO "OTHER WAY" :::

To save---except Save. That's why we want you to buy your Groceries and Hardware from us. We help you to "save" on every article you need. SAVE.

GET OUR PRICES---AND GET THE QUALITY, TOO.

Don't forget that everything that's "canned" or "sacked" is not quality goods. Ask the "old folks", ask the "young uns", ask everybody where to get "good" eats, where "quality" is never left out, where a "dollar goes farthest, and they will "cry out" ---

YOUR DAUGHTER'S HEALTH

Mothers of Ailing Daughters, Attention

How Two Mothers Helped Their Daughters by Giving them Lydia E. Pinkham's Vegetable Compound

Every mother possesses information of vital importance to her young daughter, and the responsibility for the girl's future is largely in her hands.
When a school girl's thoughts become sluggish, when she suffers the consequences of wet feet, pain, headaches, fainting spells, loss of sleep and appetite and is irregular, her mother should have a care for her physical condition and give her Lydia E. Pinkham's Vegetable Compound, which has proved a reliable aid to nature for just such conditions in so many cases.

what it does. She had not taken the first bottle before it began to help her, and we will always say that Lydia E. Pinkham's Vegetable Compound is the best medicine she ever took."—Mrs. E. DERRY, 911 N. 16th Street, Richmond, Indiana.

An Ohio Mother Reports

Columbus, Ohio.—"When my daughter became 14 years of age she was ailing very much. The doctor gave her medicine, but she was very weak, and he always had to write excuses for her as she could not attend the 'gym' classes, and I often had to keep her home from school. I had taken Lydia E. Pinkham's Vegetable Compound for my nerves and run-down condition, so I gave her three doses daily, and also Lydia E. Pinkham's Blood Purifier. Our friends are surprised to see how fine and tall she is getting and how well she is. I will gladly answer letters and give you a fine recommendation for other mothers."—Mrs. MARIE MIELKE, 814 Ebner Street, Columbus, Ohio.

Over 100,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"
98 per cent. of these replies answer "Yes." That means that 98 out of every 100 women who have taken this medicine have been helped by it. For sale by druggists everywhere.

First Bottle Helped Her

Richmond, Indiana.—"I am sending this letter to tell you how much good Lydia E. Pinkham's Vegetable Compound did my daughter. She was troubled with nervousness so that she was restless at night, and then she could not sleep and she was afraid of everything. She could not work as she was not strong enough, and she had to quit school at 14 because she was ill so much. The doctor said she had a nervous breakdown and her system was all run down. She had pains in her right side and through her back, and the medicine she took did her no good at all. I saw Lydia E. Pinkham's advertisement in our paper, telling all that the Vegetable Compound had done for other women, so I said, 'We will try it out and see

Proud Husband

"So you let your husband carry a latch key?"
"Oh, just to humor him. He likes to show it to his friends to let them see how independent he is, but it doesn't fit the door."—Passing Show (London).

He Had a Reason

Mr. Wombat insisted on his wife ordering ice cream every day. Some days he ate it and some days he didn't touch it. His wife had argued the question of having it every day, but he was firm. So she asked his chum to put in a word. After some hesitation the chum did so, and then Mr. Wombat explained his position.

"Ice cream," he stated, "is a dish that I like to have on the table. You eat it or you don't eat it. In either case that ends the transaction. They can't warm it over."—Minneapolis Tribune.

Food; giving natural sleep without opiates. The genuine bears signature of

WINTERSMITH'S CHILL TONIC
A Fine Tonic. Builds You Up Prevents and Relieves Malaria-Chills and Fever-Dengue

First call for registered warrants will be issued within the next few days by State Treasurer S. L. Staples, at which time it is expected there will be not less than \$250,000 available in the state treasury to the credit of general revenue. There is now about \$125,000 in cash to the credit of general revenue. The deficit in the treasury in general revenue fund is now in excess of \$650,000. All warrants reaching the treasury department are being registered and when a call is issued they will be paid in the number in which they are filed, it was stated.

Texas News

All cotton gins in Luling and vicinity are running full time. The main crop is now being gathered and is of exceptional good quality though the yield is light.

The Southwestern Bell Telephone Company is putting in another line between Huntsville and Madisonville to take care of the increased volume of business.

G. W. Dickerson of Houston, engineer and contractor, is on the job of constructing the sewer system for Sinton and a number of ditches have been dug.

Defense Day was observed throughout the state Friday.

An issue of \$100,000 City of Jacksonville street improvement bonds bearing 5 1/2 per cent and maturing serially, has been approved by the attorney general's department and registered in the comptroller's department.

To date 11,000 bales of cotton have been marketed on the streets of Lockhart. Owing to the low price being paid many are storing in the warehouse. Cotton seed for mill use dropped to \$28 per ton from \$39.50.

John Harp, 18, was whirled to death when he was jerked into a flywheel in the Munday Cotton Oil Company plant here several days ago. Harp was applying dressing to the belt when his hand slipped between the belt and wheel.

Rice threshing started in full blast in Orange County a few days ago. The rice farmers are said to be using every available laborer and scores of wagons and trunks in an effort to rush the work of threshing and getting the grain to town.

The Missouri-Kansas-Texas railroad company of Texas will run a series of special trains which will handle cotton exclusively and make for better time in the handling of the present crop. It was announced a few days ago by J. F. Hennessee, Jr., division freight agent.

After one of the most successful meetings in the history of the organization the tenth annual convention of the International Association for Identification closed its four-day meeting in Houston recently. The next meeting will be held at Windsor, Canada, in 1915.

Exhibits of Mebane cotton are being arranged by the A. D. Mebane Sales Agency and will be shipped from Lockhart to Oklahoma City. From there they will be sent to a fair at Muskogee, Okla., and from there to the state fair of Arkansas at Little Rock, thence to the Dallas fair and to the Cotton Palace at Waco.

Cotton ginned in Nueces County since last report totaled 49,199 bales, according to figures compiled by a local newspaper. Complaints of being unable to get sufficient pickers are coming from several sections of the county, some farmers being unable to gather but very little of their crop because of the labor shortage.

Operating revenues of Texas railroads totaled \$99,404,202 for the six months ending June 30, the railroad commission reported this week. In the same period the operating expenses were \$92,216,639, giving a net profit on operations of \$7,187,563, an increase of about \$7,000,000 over the corresponding period of last year.

Seven new rural mail delivery routes have been established for Texas post-offices. The new routes are: Numbers 2 and 3 out of Bastrop, tri-weekly, effective October 1; numbers 7 and 8 out of Greenville, Hunt County, tri-weekly, effective September 1; Route 4 out of O'Donnell, Lynn County, tri-weekly, effective October 16; No. 4 out of San Benito, Cameron County, tri-weekly, effective October 1 and No. 2 out of Sinton, tri-weekly, effective October 1.

Bolls of cotton containing from six to eight locks of long and short staple cotton per boll were brought to Galveston a few days ago by Miss Mary Dan George, daughter of P. Dan George, well known horticulturist of La Marque. Samples of the cotton were forwarded to Texas A. and M. College to be used in the study of cotton Genetics.

The educational survey commission will meet with Governor Neff September 23, at which time Dr. G. A. Works, director of the commission, will make his final report. The survey was made during the early part of this year and the report has been completed and is in the hands of the printer. Dr. Works will make some important recommendations in the report.

G. A. Bracher, county engineer of Washington County, has been advised that the National Surety Company of New York will not undertake completion of contracts on Washington County roads made by L. F. McMillen of Austin, road contractor. Work has been held up since Mr. McMillen left. Other arrangements will be made by the county at the earliest possible moment for completion of the work.

First call for registered warrants will be issued within the next few days by State Treasurer S. L. Staples, at which time it is expected there will be not less than \$250,000 available in the state treasury to the credit of general revenue. There is now about \$125,000 in cash to the credit of general revenue. The deficit in the treasury in general revenue fund is now in excess of \$650,000. All warrants reaching the treasury department are being registered and when a call is issued they will be paid in the number in which they are filed, it was stated.

REPORT OF MARKETS

Quotations on Fruits, Vegetables, Dairy Products, Live Stock and Cotton.

Latest report of markets, issued by U. S. Department of Agriculture, Washington, D. C.:

Dairy Products—Butter markets continued unsettled during the week. Trend of prices uncertain and subject to immediate change. Demand for immediate supply and demand. Into storage movement slower as operators were less willing to assume risk. Firm foreign markets permitting of small export business. Closing wholesale prices today on 52 score: New York 38 1/4; Chicago 37 1/2; Philadelphia 38; Boston 38 1/2. Cheese markets firm. Movement of goods active at prices representing fair margins to dealers. Anticipated demand for September made cheese together with usual tendency of prices during month appear as supporting influences. Wholesale prices at Wisconsin primary markets September 25th: Flats, 25c; twins, 19 1/2c; single daisies, 25c; big daisies, 19 1/2c; longhorns, 20 1/2c; square prints, 21 1/2c.

Live Stock and Meats—Chicago hog prices ranged from 15 to 25c lower than a week ago, closing at \$10.05 for the top and \$9.97 for the bulk; medium and good beef steers steady to 25c higher at \$4.50 to \$4.55; light and medium weight veal calves 75c to \$1 lower at \$8.25 to \$10.00; fat lambs 50c higher at \$12.25 to \$14.25; feeding lambs steady to 25c higher at \$11.25 to \$13.25; yearlings 25c higher at \$8.25 to \$11.25 and fat ewes 25c higher at \$2.25 to \$6.50. Stocker and feeder shipments from 12 important markets during the week ending September 5 were: cattle and calves 77,438; hogs 3,565; sheep 141,331. In the eastern wholesale fresh meat markets, beef is 50c to \$1 higher; veal weak to \$1 lower; lamb firm to \$1 higher; mutton down to \$3 up and pork loins \$1 lower to \$1 higher. September prices good grade meats: Beef \$15 to \$17.50; veal \$16 to \$20; lamb \$22 to \$26; mutton \$10 to \$16; light hogs \$22 to \$28; heavy hogs \$13 to \$20.

Fruits and Vegetables—Potato marketed steady to firm. New Jersey sacked Irish cobbler, \$1.25 to \$1.35 per 100 lbs. in Eastern markets; \$1.40 to \$1.50 f.o.b. Long Island bulk cobbler and green mountains \$1.50 to \$1.65 in New York. Wisconsin bulk round whites \$1.80; red sales in Chicago; Eastern and midwestern yellow onions 25c to 50c lower, closing at \$1.50 to \$2.25 sacks per 100 lbs. in consuming centers. Colorado cantaloupes, salmon tins declined 50c to \$1.50, ranging \$2.00 to \$3.00 per standard 45 in city markets; \$1.00 cash to growers at Rocky Mountain and Delaware various varieties \$1.00 to \$1.75 in Eastern cities. Peaches (irregular) Eberts ranged \$1.25 to \$1.75 per 6 basket carrier and bushel basket in leading markets. Illinois Eberts \$4.25 per bushel basket in Chicago. Colorado Eberts \$2.00 to \$2.75 in the middle west. New York Oldenburg apples tended lower at 75c to \$1 per bushel; Michigan and Illinois Oldenburgs \$1.75 to \$2 in Chicago; \$1.15 to \$1.25 f.o.b. Benton Harbor. September 1 estimates of the 1923 total commercial apple production, 2,591,000 barrels compared with 34,302,000 last year; New York 3,869,000 Virginia 2,253,000 and Washington 4,110,000. Total 1923 white potato production is estimated at 412,761,000 bushels practically the same as in 1923, New York 39,400,000; Maine 35,365,000 and Michigan 42,135,000. Total production of sweet potatoes is estimated at 74,995,000 bushels for 1923 as against 97,177,000 last year; Georgia 4,942,000; Alabama 6,272,000 and North Carolina 5,750,000.

Cotton—Average price of middling spot cotton in ten designated spot markets declined 15 points during the week ending Sept. 25. The New York October future contracts declined 175 points, closing at 22.78c.

New Orleans Rice Market. New Orleans, La.—Increased offerings of new crop—Prolifics brought about an easing off in quotations of this grade in the rice market this week. Although long grains were firmer and held at slight advances, the buying trade appeared to be anxious to get the excellent long grains in preference to the Prolifics, and for this reason they were willing to pay 1/8c to 1/4c more than a week ago. Fancy Prolifics were quoted at 6 1/4c a pound early in the week, but toward the close fancy lots were bringing only 6c. Fancy Honuras, Carolinas and Ediths were quoted at 5 1/4c to 6 5/8c; second heads at 4 1/4c to 4 5/8c, and screening at 3 3/8 to 3 1/2c.

Fort Worth Stock Market. Fort Worth, Tex.—Live stock rates in Fort Worth Friday were steady to higher, cattle and calf receipts being moderate, while hog and sheep supplies fell below trade requirements. Steers and, in fact, most classes of cattle, sold on a steady basis, but canner cows gained 10c to 15c and calf displayed a little strength. Steers sold with less dispatch than other classes in the cattle division and at its best the trade was only in line with the low point of the week. A few cars went over the scales late at a general spread of 5c to 5 1/2c.

State Gets \$100,000,000. Austin, Tex.—Over \$100,000,000 in ad valorem taxes will be collected from the property involved in the recent Texas-Oklahoma boundary suit. These taxes have been tied up for the last four years during the receivership and before final settlement of the litigation, Comptroller Lon A. Smith said Saturday. This does not include \$120,000 in gross receipts taxes due the state from 242 oil wells in the Red River district, which had been involved in the litigation.

Princess Falls to Death. Kineo, Me.—Princess Helen Radzwill, formerly Miss Helen Simpson of Chicago, and widow of Prince Ladislav Radzwill of Poland, was killed here Saturday when she fell from a cliff on the north slope of Mount Kineo, it was made known Sunday. Caught in trees in the face of the cliff, her body had to be lowered several hundred feet to Moose Head lake before it could be brought back to the village.

Contract to Shell Road. Freepert, Tex.—The contract will be let for the shelling of that part of the state highway between Freepert and Angleton laying between Oyster Creek and Bastrop Bayou in a few days. Bonds have already been voted for the shelling of the remaining unsurfaced portion between Oyster Creek and Velasco.

Cruiser to Honduras. Panama.—The United States light cruiser Galveston has sailed for Honduras under rush orders.

TEST MRS. FERGUSON'S RIGHT TO HOLD OFFICE

Austin, Tex.—Suit to test Mrs. Miriam A. Ferguson's eligibility to be governor of Texas was filed in fifty-third district court Wednesday by Judge I. W. Stephens of Fort Worth as attorney for Charles M. Dickson of San Antonio. The petition asks that every county judge, county clerk and sheriff in the state be enjoined from placing Mrs. Ferguson's name on the November ballot.

Mr. Dickson's petition alleges that James E. Ferguson, who is debarred from holding office, is the real candidate in the name of his wife and that if her name is not kept off the ballot, Ferguson will be elected governor in the name of his wife, thereby circumventing the judgment of impeachment and disqualification against Ferguson.

Another proposition presented by the petition is that at common law, which was adopted in Texas in 1840, a woman, especially a married woman, was ineligible to hold any executive or judicial office and that no such right has been conferred by statute or the constitution. The constitution, by use of the masculine gender, it is contended, and by making the governor commander in chief of the military forces, excludes a woman from holding the office of governor, as the governor is a member of the militia, which is declared to be composed of "abled-bodied male citizens" above a certain age.

Hearing in the injunction suit to prevent the name of Mrs. Miriam Ferguson, democratic nominee for governor, from being placed on the ticket in the November election, was set for September 22 by Judge George Calhoun of the fifty-third district court here Friday.

LEOPOLD AND LOEB GIVEN LIFE SENTENCES

Chicago, Ill.—Youth alone saved Nathan Leopold, Jr., 19, and Richard Loeb, 18 years old, from death on the gallows for the kidnaping and murder last May of 14-year-old Robert Franks. Instead, Judge John R. Caverly, retiring chief justice of the criminal court of Cook County, Wednesday sentenced the two young intellectuals to life imprisonment on the murder charge and to terms of ninety-nine years' imprisonment for the kidnaping. Under the latter it was said they can not be released on parole until they have served more than thirty-seven years in the Joliet Penitentiary. The life term alone would have permitted such release after about twenty years.

But the court urged that this privilege be never extended to the self-confessed doers of what he called "an abhorrent crime."

Defeated Candidate Shot. Lufkin, Tex.—Ben F. Smith, defeated candidate for sheriff of Angelina County in the run off primary, is probably fatally wounded, and Grover C. Dunn, special State ranger, is in custody under a charge of assault to murder as the result of a shooting affray in front of a downtown cafe Sunday. Smith was shot five times through the body with a .45 caliber automatic. Smith was armed, but did not fire.

World Flyers to Visit Texas. Washington.—A new route for the flight of the army world fliers from Washington to Seattle was announced Wednesday by the war department: The itinerary takes in Dayton, Ohio; Chicago, Ill.; Omaha, Neb.; St. Joseph, Mo.; Muskogee, Okla.; Dallas, Tex.; Tucson, Ariz.; San Diego, Los Angeles and San Francisco, Cal.; Eugene, Ore., and Seattle, Wash.

America's Tax Burden Grows. New York.—America's tax burden was \$755,000,000 heavier in 1923 than in 1922 and in ten years taxation has grown more than \$5,500,000,000, the national industrial board conference reported in a report made public Monday. Total taxes raised in 1923 were placed at \$7,716,000,000, against \$6,961,000,000 in 1922.

Danish Explorer's Sledge Journey. Copenhagen.—The longest sledge journey on record has just been accomplished by Dr. Laue Koch, famous Danish explorer. He has been surveying the last remaining unmapped portion of the Greenland coast, and his journey over glaciers and the dreaded icecap occupied 200 days, during which he traversed 3600 miles entirely by sledge.

Texas Roads Denied Continuance. Washington.—The interstate commerce commission has denied several applications of the Missouri-Kansas-Texas Railway Company and other roads for authority to continue existing freight rates on lumber to various points without observing the long and short haul provision of the interstate commerce act.

Earth Tremors Felt. Honolulu.—Two of the most severe earthquakes felt on Hilo in years rocked Honakaa district Thursday night and sent residents scurrying from their homes and buildings.

San Augustine Highway Work. San Augustine, Tex.—At a meeting of the commissioners court \$5000 was appropriated for building three miles of road connecting with the Kings Highway at Bronson. The district engineer has promised sufficient state aid to complete the link.

Heat Wave in Sicily. Messina, Sicily.—A heat wave is sweeping through Southern Italy and Sicily. In some places the temperature has soared to 110 degrees in the shade.

WRIGLEYS

MINT LEAF FLAVOR

Eat Sweets, Lose Weight
Stout persons, anxious to "reduce" usually make a special point of avoiding sweets. This is a mistake, for sweets offer a valuable weapon to those who would lose weight. Too much food is the usual cause of corpulence, and a slim diet offers the obvious remedy. A scant meal, though, does not seem so scant if brought to an end with dessert, and the practice of following lean meals with sweets is recommended as an aid to perseverance with a "reducing" diet.—Popular Science Monthly.

Don't Take Calomel for Inactive Liver; Bond's Pills Are Better
They are a prescription intended solely for the Liver and Bowels and remove the bile and poisonous waste in a mild, yet effective manner. One pill is the dose. 25c All Druggists. Refuse substitutes.—Advertisement.

The Obstacle
The film magnate was one of the astutest men in the moving picture business, but his best friends could not maintain that he was educated. *One morning things had gone wrong at the studio, and he was inveighing in no measured terms against his staff.
"Such a lot of duds I never saw!" he vociferated. "I'd send the whole lot their notice this minute—if I could write!"

Matinee girls worship the hero because they imagine his love-making stunts are the real thing.

insertion; 5c per line each subse-
quent insertion.

THE EDITOR'S LAMENT.

Some of our citizens have been heard to remark that the paper is not as good as it ought to be. We grant that. But we must say also that lack of co-operation on the part of the majority of the merchants and business organizations in Ozona is one of the reasons why the paper is no better than it is. Out of the forty or more firms, business institutions and partnerships in Ozona who should advertise with us, we have not more than twelve. How can we improve the paper when we cannot get the co-operation of the Ozona business men and others?

We don't want you to understand that we want your business as a matter of charity. If we can't convince you that advertising pays, we don't want you to do business with us. We say this, for we know we can show you how to make money by advertising. But we would at least like to have a chance to show you that you can make money by advertising, as well as ourselves. If that isn't a fair proposition, then we don't know one.

Some of our readers say we do not have as much local news as the pa-

per should have. That may be true. But the mere fact that we have only a few persons in town co-operating with us in the matter of gathering local news, and very few people who will take the trouble to ring us up and tell us about some happening or send in a write-up of some social affair, has prevented us from having as much local news as we would like to have. If you have visitors, do you call us up and let us know of it? If so, then we are not lecturing you. If you do not, how can we get the item? Confined to the office as we are, because of the amount of work necessary to do, we find it impossible to ask every person we see whether they have any news for the paper. Even then, we should not be forced to ask all manner of questions. It would be a fine thing for the paper, and no more than the moral duty of the citizens, to help us in the matter of gathering local news. You like to have a newsy paper as well as anyone else. Then you ought to help make it newsy. Others help. Why not you? We can't hear all the news, even though we are an editor. You know things of interest, which we probably won't find out until too late to use in the paper. Help us to make the paper better. It is your civic duty, if you wish the town to have a paper you will be proud of.

In this connection we would like to mention the fact that a town is invariably judged by the paper it supports. This isn't merely a statement to prove our argument! But is an absolute fact, as you yourself can testify. Without your help, we can't give the town the kind of paper it should have. And the town is consequently misjudged by people who do not live here and have no knowledge of the excellence of the place as a town in which to live. Let us have the local news of the town.

Going back to advertising, we want to say that that part of our business is the most important, considering the financial phase. Without advertising, no paper can exist, no more than could a garage without automobiles.

While we have had a hard time during the past to convince Ozona merchants that advertising pays, we have shown a few that such is the case. There are others, however, who ought to advertise with us, not for our good, but for theirs. We want to make a special appeal to

them to give us a trial. Let us show you that advertising will make money for you, as well as for us. If we can't show you that, we are willing to keep quiet about it.

If you think the paper isn't as good as it ought to be and want it to be improved, give us a chance. It takes money to run any business. Our money—what profit we show—comes almost solely from advertising, if we are to improve our paper. If we can't persuade Ozona merchants to advertise who have not advertised in the past with us, or are not advertising now, we can't give you any better paper than at present, and cannot improve the character of our service.

Let us have some results from this appeal.

If you haven't advertised with us, do it now. It will mean more money for you, and more for us. Let's get together. We mean everyone—groceries, dry goods, garages and every other line of business in Ozona.—The Ozona Stockman.

This applies in full measure to the New Era. But we have not been whining. We knew that the New Era was not reflecting much credit to the town, but it has not been our fault entirely. We have gone right ahead making the paper as good as we could with the slender advertising patronage that has been accorded us, and so long as it doesn't reflect much credit on the town it's the fault of those who haven't given us the advertising from which to derive sufficient revenue with which to make the paper a real credit to the town.

When business concerns in a town as large as Marfa, and which possesses the strategic business position possessed by Marfa, discontinue advertising in their home paper, quoting "hard times" as an excuse, they are not only knocking their town—they are knocking themselves and their own business, and people in other localities will know it.

With so many non-advertising business concerns in the town and the town occupying the strategic business location that it does, the editor might justly say that the paper is a disgrace to the town—but that could not be wondered at, since there's so little advertising revenue coming in with which to make the paper a real credit to the town—which is more than a one-man proposition.

ABOUT PROSPERITY.

Bonus bills, farm aid bills, tariff bills and laws destined to benefit this or that class—what do they usually come to? Despite the example of unhappy Russia, the old delusion that laws can make people prosperous still exists. We have men who still believe that the government can re-distribute wealth, can take it away from the rich and give it to the poor without lessening the total amount. They forget that although a government may destroy wealth, it cannot create it. Nothing but labor can create wealth.

People naturally want to be prosperous, and if they think that laws can make them so, they will insist that such laws be passed. But most members of congress know better; they have seen all the old tricks to fool the public exposed. But they argue that they represent the people, and if the people insist on more laws they are there to make them.

The only law that does more to make us prosperous more than any other is not a man-made law. It is the law of supply and demand. If there is a wheat or corn shortage, and the demand for bread is greater than the supply of grain, then wheat and corn will mount in price, and, as it mounts, wages and most everything else is bound to be affected. So, after all, it is best to remember that the laws the politician promises you—if he is elected—and which they argue will make you prosperous, are largely bunk and used as stepping stones to a fat salaried public job. Labor will create capital, hard work will do more than

anything else to bring prosperity. For you never saw a nation of loafers that was a prosperous nation.—East Texas Register.

THE REPUBLICANS PRESENT A COMPETENT CANDIDATE.

From Dallas Times-Herald.)

Dr. George C. Butte, dean of law at the University of Texas, wins the Republican nomination for governor. The republicans offer him to the voters of Texas as a means of defeating "Fergusonism."

The dean of the law school comes before the public with a record of achievements that may be largely ignored by the voters in November, but that must impress the thoughtful. As a matter of cold fact, he is the better qualified of the two candidates for governor. He is both a student of, and a participant in public affairs. If elections were decided on merit, who knows how the November test would result.

Certainly there is the party pledge to restrain perhaps many democrats not precisely in love with the present situation—anti klan as well as klan democrats. Though no penalty attaches to refusal to follow that pledge it may be that the moral obligation to follow may be strong enough to persuade these unwilling ones to cast that final vote which will make Mrs. Ferguson the executive head of our government for two years, will probably result in quashing the impeachment of James E. Ferguson and will make the former governor a candidate for the United States Senate from the proud State of Texas.

The chances are against the election of Dean Butte, but if he is defeated the republicans will have the satisfaction of knowing that they gave the voters of Texas an opportunity to cast their ballots for a competent candidate.

This indicates that a rock-ribbed democrat is looking for a loophole through which to escape casting his vote for the choice of the democrats of Texas.

WHITE COLLARS VS. CORNS.

The other day a fellow propounded to us this question: "If you had some more boys to raise, what would you educate them for?" We replied that we think it best for the parents to leave the selection of an occupation to the inclination and disposition of the boy, of course giving the boy such counsel and suggestions as will keep him from making a mistake. We added this: "If we had another boy to get started out in the world of business, we'd suggest that he become either a linotype operator or a brick mason."

"Why, you wouldn't want a boy of yours to become a brick mason would you?" queried our friend. Our reply was, "Why not? A brick mason that really knows his trade can make more money in a day than the average starched-collar, swivel-chair artist can make in four days."

The trouble with most of us in the South is that we just can't get away from the idea that all the fine jobs are held and to be held by the soft-handed, shade-loving, spong-minded, weak-muscled intellectuals. It's a wrong notion. The world needs men today more for brick laying than it does men to decipher the inscriptions made upon the bricks of Babylon five thousand years ago. It needs and offers higher rewards to the young man who can take ten times more than it needs them to tear acres of East Texas land and build a home and make a good living on calico and hop counters. Get an education, boys, get a good education with lots of book-learning in it. But don't get the idea that the so-called learned professions constitute the only place where decency, honesty and respectability attach to the man who is on the job. *Troump Banner.*

The NEW ERA

How Some Popular Falacies Are Now Explained and Corrected.

Cancer is not hereditary; brimstone and treacle are not good for children in the spring or at any time; and the good old linseed poultice beloved of grandmother's day is no good so far as the linseed is concerned (a sponge would do as well), the only virtue in it being the hot water with which it is mixed. A mild winter is healthier than a cold one, and therefore a green winter does not necessarily fill the graveyard. It is a popular belief that it is bad to bath in cold water when you are hot, but this, it would appear, is not so. "On the contrary, it is better to bath in cold water when the body is warm, provided no time is lost in getting into the water."

These are a few of the interesting facts mentioned by Mr. A. S. E. Ackerman in "Popular Falacies Explained and Corrected." Another cherished illusion which the author shatters is that the bracing effect of the seaside air comes from the ozone. The researches of scientists have proved this to be a mistake, since ozone is never present except in air more than 8000 feet above sea level. The smell attributed to ozone really arises from decaying seaweed. It is also a fallacy to believe that gravel soil is healthier to live on than a clay soil. As a matter of fact, when gravel has been rendered foul by infiltration with organic matter it becomes "a very hotbed of disease."

A mistake which many housewives make is that an inverted egg cup placed in a pie collects the juice of

gravy and prevents it boiling over. The reason for pacing an egg-cup in a pie is to hold up the crust.

Rooms, warmed by gas stoves are not unhealthful. Neither do they dry the atmosphere unduly, but care should be taken that the stove is not too powerful for the size of the room.

Turning (the animal kingdom, it appears that owls do not avoid daylight, that cats see no better at night than other animals, that croises placed in gardens in the belief that they will eat up slugs and other garden pests do nothing of the kind, but feast themselves on the good garden stuff.

Adder, again, are generally supposed to be deaf. "As deaf as an adder," is a well-known simile. The sight and hearing of snakes as a class are poor, but adder are no more deaf than any other snake.

Ostriches do not bury their heads in the sand when pursued. A black roof to a dog's mouth does not denote purity of breed, and a beaver does not use his broad, flat tail as a trowel. Moles are not blind, altho' their sight is not brilliant, and monkeys rarely, if ever, have fleas.

If ever anyone tells you some story of an exciting fight he had with an alligator, take his remarks with a grain of salt. For alligators do not attack man. They are, too found only in the rivers of China and North America. Crocodiles are man-eating, and it is confusion between the species which leads to the mistake.—Exchange.

WILL SMOKING MAKE YOU A BETTER MAN?

Dan Cromwell, Olympic team sprinting coach, who developed Charlie Paddock, Kelly Thompson and many other runners, says he never wastes time on an athlete who uses tobacco in any form.

"Smoking cigarettes, cigars or pipe will quickly ruin any college athlete or anyone else who needs a strong heart and steady nerves," says Cromwell. "A boy who smokes has no chance to become a champion in any kind of competition. Tobacco smoke carries poison that destroys the heart. If Charlie Paddock smoked he'd never run under ten second again, but as he doesn't smoke, I do not see any reason why he can't break more sprinting records. I think he is able to run 100 yards in 9.2-5 under favorable weather conditions, and possibly go even faster."

"I tell you, my boys, that good health is even more important than winning and breaking records." Then Cromwell added: "I am not sure that you believe it, but you will ten years from now."—Exchange.

A QUITTER NEVER WINS AND A WINNER NEVER QUILTS.

Here is something for the youth or man of years who has met many obstacles to think about:

Abraham Lincoln ran for the Legislature of Illinois and was badly beaten when a young man. Then he entered business and failed. Then he spent 17 years of his life paying up the debts of a worthless partner.

He loved a beautiful woman and became engaged to her and she died.

Re-entering politics he ran for Congress and was badly beaten. He tried to get an appointment to the United States Land Office and failed. He became a candidate for the United States Senate and was defeated.

In 1856 he became a candidate for the vice presidency and lost. In 1858 he was defeated again, this time by Douglas.

But even all of these continuous defeats and failures did not conquer Lincoln's will or his spirit. The world knows the rest. He became president and one of the country's and one of the world's greatest leaders.

uree.

A quitter never wins and a winner never quits.—Selected.

CITY HONORS NEGRO PREACHER.

The passing of "Uncle Jagers," 93-year-old negro preacher held in high esteem at Columbia, N. C., was mourned by the city in an official way. By proclamation of Mayor Coleman business was suspended and all activities throughout the city ceased for 30 minutes during the funeral. "Uncle Jagers" was the Rev. Chas. Jagers of the African M. E. Church. For 75 years he had preached from the fence corners, as he put it, to citizens of high and low degree. He never wavered from his one text, "Let this mind be in you which was also in Jesus Christ"—Philippians 2:5. He refused to accept a salary of more than one cent a year, explaining that his services belonged to God. It is planned to erect a monument to his memory.—Exchange.

F. E. Gillett of Alpine was in the city Wednesday. He looks as young as he did a quarter of a century ago.

Judge H. Barnett of Fort Davis was in the city Tuesday.

A light gray hat is a thing of beauty, but not a joy forever. In a sooty city a new one is needed every six weeks.

TURN ME OVER

KINDS AND VARIETIES OF FRUIT FOR THE HOME ORCHARD.

Every home should have some fruit, whether there is much or little space available. Most of the lots in towns and cities have sufficient space for a few trees, and such space could not be made use of in a more profitable way than to set fruit trees on it, provided one will give them the proper attention. And there is no reasonable excuse for anyone in the country not having a home orchard of some size.

Fruit trees can be set in the south any time during the fall, winter or very early spring. Of course they will have to be set before the buds begin to swell in order to give them a fair chance of living.

When setting fruit trees for home use the selection of varieties is of utmost importance because what one wants is fruit ripening over as long a period of time as possible. The commercial fruit grower usually confines his efforts to a comparatively few varieties. The varieties that are best for commercial growing are not the best for home use, and as said above, it is of the utmost importance that the proper varieties be selected, whether one is growing fruit for home use or for commercial purposes.

Fruit Trees Will Not Stand Wet Feet.

The peach tree succeeds in practically all sections of the south, but there is one thing that a peach tree will not stand, and that is wet feet. Few, if any fruit trees will do this. Therefore one of the very first things to do is to see that the land where the trees are to be set is properly drained. A low, wet place is always to be avoided, unless, of course, it can be properly drained.

It is also important to select as far as possible for fruit trees, ground that is properly air drained as well as water drained. It is a well known fact that cold air is heavier than warm air and settles to the bottom. Therefore wherever it can be done, select a high piece of ground for the fruit trees so as to insure as far as possible, proper air drainage. This will go a long way toward preventing damage by late frost and freezing, because it is always in the low places that are improperly drained that the greatest damage from late frosts takes place. Of course where one has only a limited amount of ground available, it may not be possible to select a high place to set the trees, but this is the ideal that should be approached as nearly as possible.

Kinds of Fruit to be Planted.

Now a little more as to the kind and variety. In practically all sections of the south, one should have in the home orchard, some peaches, apples, plums, pears, cherries, Japanese persimmons, grapes and figs. In the lower part of the south, cherries and apples do not succeed to any great extent. This is especially true of the cherry. When one is in a section where these do not succeed, eliminate them and plant more largely to the fruits that do succeed well in the lower part of the south, such as figs, grapes, Japanese persimmons and peaches.

The following varieties of peaches will give ripe fruit the entire summer season: Mayflower or Early Rose, Carman, Hiley, Belle of Georgia, Elberta, Heath Cling and Salway or Krummel's October. By planting some of all of these varieties, ripe peaches may be had from late May or early June until late September or early October. The very early and the very late varieties are not very good as to quality but coming early or late, they are usually very greatly appreciated. Therefore for the home orchard, be sure to plant at least a few of the Mayflower or Early Rose, Heath Cling, Salway or Krummel's October. The Carman, Hiley, Belle of Georgia and Elberta are well known, standard varieties that possess very high quality.

Plant Early, Medium and Late Varieties.

By planting some of all the following varieties of apples, one will have ripe fruit during the whole season from June on into the fall and winter: Early Harvest, Early Transparent, Red June, Horse Apple, Grimes' Golden, Jonathan, Delicious, Winesap and Yates. These are not all of the good varieties but are generally recognized as being among the leaders for use in home orchards in the south. Early Harvest, Yellow Transparent and Red June are all early summer apples. The Horse Apple comes along in midsummer and Grimes' Golden and Jonathan are late summer and early fall varieties. These are followed by Delicious and then the Winesap and Yates in the late fall or early winter.

Of plums, the Red June, Abundance, Wild Goose and Damson make up a choice selection for home use. The Damson is especially good for preserving, and the other varieties

EARL WARREN HOLT.

Mrs. W. A. Wells received this week the clipping reproduced below, from a paper published at Duncan, Okla., telling of the death of her nephew, Earl Holt, youngest son of Mrs. Susan Holt of Sherman, Texas. Mrs. Holt, sister of Mrs. Wells, has often visited at Marfa.

"One of the largest corteges in the history of Duncan formed the sad march to the cemetery yesterday afternoon as a mark of respect to the late Earl W. Holt, who died Monday evening following a short siege of typhoid fever. The service was conducted by Rev. Walter Douglass at the Methodist church at four o'clock and was very impressive. Great banks of flowers evidenced the sorrow that filled the many hearts as a result of his untimely death, as well as an expression of sympathy to the bereaved ones.

Earl Warren Holt was popular among all classes and stood high in the community. He was a "hale fellow well met." Always there was a smile to greet friends and a hearty handshake to cheer one on the way. He was never ruffled, never out of humor—optimism was his chief asset. Large of frame, he was likewise large of heart, large of intellect and large of those qualities which go to make up a real man. As a friend he was true blue, kindly, accommodating and loyal to a marked degree. As a husband and father he was loving, affectionate and provident; he was devoted to home, loved his home-life and endeavored to make it ideal. As a citizen he was broad-gauged and liberal and contributed of his means toward the support of every worthy enterprise.

The community has suffered a distinct loss in his passing friends have been deprived of a true friend and the family fireside left bleak and lonely.

Earl W. Holt was the youngest of fourteen children. Ten have preceded him to the great beyond. The mother sat beside the casket and watched through the eleven-hour service which deprived her of a loving child. Seventy-nine years of age, she has gone through this epoch of sorrow with her faith unshaken and hopefully awaits the time when she can again gather her flock in her arms."

named to be eaten as fresh fruit. Where room can be given for only two varieties, Red June and Abundance will probably be the best, unless one especially wants some for preserving purposes. In this case the Red June for eating purposes and the Damson variety for preserving.

The Best Pears to Plant.

Pears blight to such an extent that only a few varieties should be planted. In the south, except in the upper portions. In the lower part of the south the Sand Pear or Pineapple pear should be planted, as it is blight proof and is excellent for canning and preserving. The Keiffer, while not blight proof, is not so susceptible to disease as the other varieties, and where one does not wish to grow the Sand or Pineapple pear, the Keiffer is probably the next best choice. Other good varieties are Garber, Seckel and the Bartlett.

Except in the lower part of the south, every home orchard should have in it a few cherry trees. Only the sour varieties will succeed in the south. The Montmorency and Early Richmond are two of the best of the sour varieties.

One or two trees of the Japanese persimmon should be found in every home orchard in the south. It will succeed wherever the native or wild persimmon grows. The fruit is especially large, being as large as a good sized peach, and is delicious. Taste Nashi variety is the leader.

By All Means Plant Grapes. Grapes will grow practically anywhere in the south. The leading varieties are Concord, Niagara, Delaware, Moore's Early, Diamond and Lurie. If one has room for only two or three varieties, our choice would be Moore's Early, Diamond and Concord.

In the middle and lower part of the south, figs grow well. By giving slight protection during the winter, they can usually be grown to advantage in the upper portions of the south. The two leading varieties for most sections of the south are the Brown Turkey and the Celestial. The Celestial is a small sweet variety and is the hardiest of all. Therefore in the upper part of the south, only this variety should be planted.

By planting the above varieties in the home orchard, one will have started in a way to secure ripe fruit from early until late, and that is what is desired. A superabundance of fruit during a short season of the year, with none at all during the early and late part of the season, is undesirable from every standpoint.

(Continued on page 8)

The right way to skin beauty

EVERY skin will respond to correct treatment, but don't overlook that word correct—it means the difference between success and failure.

In addition to being unsurpassed for general toilet use; Resinol Soap, aided by Resinol Ointment improves poor complexion. Blotches, roughness, clogged pores, redness, and even the more serious itching, smarting skin disorders gradually disappear when the Resinol treatment is used.

Ask your druggist today for Resinol Soap and Ointment and use them as directed. Within a week you will begin to notice a difference in your skin.

RESINOL

Birds Trained to Sing

Like Their Associates

A German bird fancier has trained canaries to sing like nightingales. As soon as they are hatched he makes them listen to nightingale songs recorded on the phonograph, and when they no longer need the care of parents they are put in cages with the night singers. As a result they sing nightingale songs, and nothing else.

There is nothing new about the plan, though it seems to be worked on a more commercial scale than ever before. It serves to remind the world that bird songs, like human speech, are learned, not inherited. A finch raised among canaries, or a canary raised among finches, takes the song of its associates, not of its ancestors. The mocking bird's fondness for copying every sound that it hears is noted.

Clay models of animals that existed 25,000 years ago were recently discovered in underground caves in southern France.

Back Given Out?

It's hard to do one's work when every day brings morning lameness, throbbing backache and a dull, tired feeling. If you suffer thus, why not find out the cause? Likely it's your kidneys. Headaches, dizziness and bladder irregularities may give further proof that your kidneys need help. Don't risk neglect! Use Doan's Pills, a stimulant diuretic to the kidneys. Thousands have been helped by Doan's. They should help you. Ask your neighbor!

A Texas Case

W. C. Clark, 208 W. N. Third St., Sweetwater, Tex., says: "My kidneys were weak and acted too freely at night and I had to get up to pass the secretions. Sharp, cutting pains took me across my kidneys and when I stooped, my back was so stiff and sore I could hardly straighten. Doan's Pills cured me of the attack."

DOAN'S PILLS
60c
STIMULANT DIURETIC TO THE KIDNEYS
Foster-Milburn Co., Mfg. Chem., Buffalo, N. Y.

My Picture on Every Package P. D. Q.

P. D. Q., a chemical (not an insect powder) that will actually rid a house of Bed Bugs, Roaches, Fleas and Ants with its proper use—impossible for them to exist as it kills their eggs as well and thereby stops future generations. A 5c package makes a quart. Free—a patent spot in every package, to get them in the hard-to-get-at places. Special Hospital size, \$2.50, makes 5 gallons. Your druggist has it or can get it for you. Mailed prepaid upon receipt of price by the Owl Chemical Works, Terre Haute, Ind.

INTESTINAL PARASITES

Thousands of sufferers are being treated unsuccessfully for some other disease, when their real trouble is that horrible monster, the tapeworm. Sure signs are the passing of the particles and suggestive are loss of appetite, greenness, coated tongue, heartburn, pain in stomach, back and limbs, obstruction in the throat, frequent spitting, bad taste, bloating, opening sensation in stomach, bowels and throat. Indigestion, dizziness, headache, faint with empty stomach, emaciated, dark rings under eyes, anemia, white stools, loss of weight, no ambition, no desire to live or work, epileptic fits. Imagine feeding an over-hungry parasite which may consume its host. You cannot pay too much to get rid of this monster. Laxtan for tapeworm costs only \$1.50, but it does the work. It is harmless. Sold only by the L. S. & L. CO., Pittsburgh, Pa., Box 989-F.

Piles

CURED In 6 to 14 Days
All Druggists are authorized to refund money if PAZO OINTMENT fails to cure any case of ITCHING, BLIND, BLEEDING or PROTRUDING PILES. Cures ordinary cases in 6 days, the worst cases in 14 days.
PAZO OINTMENT instantly Relieves ITCHING PILES and you can get restful sleep after the first application. 50c.

WEEKLY MENU SUGGESTIONS

We are advised to use as many of our vegetables uncooked, as cooking destroys the vitamins (substances which keep the body in good health and promote growth).

SUNDAY—Breakfast: Bacon, toast, coffee cake. Dinner: Roast turkey, chicken, ice cream. Supper: Milk toast, chocolate cake.

MONDAY—Breakfast: Grapefruit, cream, buttered toast. Dinner: Pork chops, glazed onions. Supper: Prune cake.

TUESDAY—Breakfast: Griddle cakes, maple syrup. Dinner: Raisin pie. Supper: Parker house rolls.

WEDNESDAY—Breakfast: Oatmeal, top milk, coffee. Dinner: Cabbage with white sauce and cheese. Supper: Spice cake.

THURSDAY—Breakfast: Cornmeal gems, ham, coffee. Dinner: Broiled steak, green onions. Supper: Escaloped potatoes, lettuce salad.

FRIDAY—Breakfast: Eggs on toast, coffee. Dinner: Baked trout, cabbage salad. Supper: Hot potato salad, sponge cake.

SATURDAY—Breakfast: Cantaloupe, cracked wheat, top milk. Dinner: Baked beans, apple pie. Supper: Iced tea, cookies.

Glazed Onions.

Cook small white onions until soft, but firm enough to hold their shape. Make a syrup of one cupful of sugar and one-half cupful of stock and cook to the soft ball stage; add the onions and continue cooking for two or three minutes. Lift out the onions when the syrup begins to discolor and arrange on a platter with the steak.

Prune Cake.

Cream one-third of a cupful of butter and one and one-eighth of a cupful of sugar. Add two egg yolks and one whole egg, all beaten together, five tablespoonfuls of sour cream, one and one-eighth cupfuls of stewed prunes, stoned, and one-fourth of a teaspoonful of lemon extract. Sift together one and one-half cupfuls of flour, three-quarters of a teaspoonful of baking powder, one teaspoonful of soda, one-quarter teaspoonful of salt, one teaspoonful each of nutmeg and cloves, and add gradually one-half cupful of chopped nut meats. Bake in layers.

Now is the time, ah friend,
No longer wait,
To scatter loving smiles and words
of cheer
To those around whose lives are
now so dear:
They may not meet you in the
coming year—
Now is the time.
FOOD FOR THE FAMILY

Most people enjoy peanuts when freshly roasted and crisp. Some find them hard to digest because they like them so well that just one more is followed by another until too many are eaten. Peanuts are full of nutriment, take the place of meat in many dishes, and are good combined with various foods. For stuffing peppers for baking, use the peanut butter or finely minced peanuts in place of meat, with the bread crumbs and other seasonings.

Peanut Butter Biscuit.—Sift two cupfuls of flour, add four teaspoonfuls of baking powder and rub in one-fourth cupful of peanut butter, one-half of a teaspoonful of salt and just enough cold water to moisten. Roll and cut into rounds and bake as usual. For variety, and a biscuit which may be used for dessert with a sauce, add a few sliced prunes to the biscuit mixture.

Peanut-Prune Shortcake.—Prepare a crust as for the peanut biscuit, make in layers, one baked on top of the other, and for the filling cut one-half pound of prunes which have been soaked overnight in cold water after being well washed, then simmered in the same water until tender, add half a cupful of sugar and cook until thick. Cool, add lemon juice and grated rind if desired, or orange juice and rind. Serve over the shortcake as one does any fruit.

The children all know the peanut butter sandwich and peanut butter fudge, using peanut butter in place of the milk and butter in ordinary fudge.

Peanut Butter Potatoes.—Cook potatoes in salted water until tender, drain and into a vegetable dish in which a tablespoonful of finely minced onion and four tablespoonfuls of peanut butter are added place potatoes, having the dish hot; season the potatoes with salt and chop them, mixing well with the butter and onion. Use a pint of potatoes to this amount of seasoning.

Some who like tomato mince meat will enjoy this recipe:

Green Tomato Mince.—Take one peck of green tomatoes, chop, drain through a cheesecloth, add two cupfuls each of water and vinegar and cook slowly two hours. Drain again, add two tablespoonfuls of salt, spices to taste, two pounds of chopped raisins, one pound of citron, two quarts of apples, one cupful of suet, all chopped; add four pounds of brown sugar, one cupful of currants and two lemons, juice and rind. Boil all together. Pack in sterilized jars.

Nellie Maxwell

LACE-TRIMMED LINGERIE; SHOW SPANISH INFLUENCE

BESIDES its prettiness, silk lingerie has the best of common sense reasons for growing more and more popular. In wearing qualities it equals any that is made of other goods, it is particularly easy to launder (although requiring some care in this respect) and for beauty it holds first place. Silk is a wonderful medium for color and color is a great factor in the success of up-to-date lingerie—but all

Starting in Spain and coming by way of Paris, brilliant and dashing strangers have arrived in America's millinery world. They lingered in the French capital long enough to change their aspect somewhat, picked up royal company from East India, were reinforced by French directoire and second empire styles and altogether invaded America. Already the feminine world is reconciled to the passing of

Charming Step-in and Chemise.

the sheer and dainty cottons used for undergarments are dyed in the same light and pretty tones as silk.

Besides color, new style points in details of decoration, make the lingerie of each new season interesting. Just now, in both silk and cotton lines, lace leads the procession of alluring features in the makeup of underthings, and is nearly always in the company of ribbon. In the latter, narrow widths, worked up into little bows and rosettes, are often made so that they may be pinned on and transferred from one garment to another. Two or three varieties of lace are used on one piece, as shown in the step-in and chemise pictured. Alencon, filet and val are used, or val with either of the others—val making the edging and filet the emplacements when these two are chosen. In styles blouse modes

the little cloche. We are allured by this Spanish serenade, this East Indian poetry and this French romance translated into hats.

All these style inspirations are revealed in the group of beautiful hats shown here. Sometimes only a vestige of the original is to be traced in these descendants of bygone styles, but the new arrivals are immensely becoming—therefore adorable. All of them have brims of a premeditated waywardness and allowed to go as they please in any direction that will add to their capacity for flattery. Crowns are tall and varied, square, round, helmet-shaped or eccentric. Felt, velvet, plushes and heavy silks make the background for rich trimmings, of which ostrich is the foremost, followed by many other fancy feathers, by ribbons, laces, ornaments, embroideries,

Originated in Spain.

are copied; gowns have the same neck openings and chemise the vestee effects.

For silk underwear corn flower blue has been added to the popular shades. They include pink, Nile green, turquoise, pale orchid, peach, flesh and light blue. White is always among those present.

Following in the wake of dresses, new undergarments have taken up with the fad for placing an ornament high on the shoulder. Many of these ornaments are made of silk gauze ribbon threaded with gold. On night-gowns, cut in blouse style, necks are provided with ribbon ties.

No designers are more clever in adapting and modifying modes to suit themselves than those of America and no women are keener in the perception of style or more insistent on becomingness than our own.

JULIA BOTTOMLEY.

ELEPHANT'S 40 BANANAS

"I eat them every day," said the Pygmy Elephant. "Yes, every day I eat forty bananas."

"Every Day I Eat Forty Bananas."

"That is a good appetite for a little two-and-a-half-year-old Pygmy Elephant to have."

"Of course you might not say I was so very tiny, but for an elephant I am small."

"I am thirty-nine inches high at present and I weigh four hundred pounds."

"I grow rather slowly, which is nice, for then creatures don't come up to me each time they see me saying:

"Dear me, Pygmy Elephant, how you've grown. Why, you were a little thing last time I saw you. I hardly recognized you at first. What a fine big elephant you're becoming."

"No, they can't say that to me because I grow so slowly. When I am seven or eight years old I am of age—that is, I am full-grown. By that time I am about six feet tall."

"I've seen children at the zoo and they've thought they were eating a great deal if they ate three bananas. Even two they thought a good deal."

"But I eat forty a day. That's an appetite worth having. At least it is worth it to me, for I get the bananas. It would not be worth having if I didn't get the bananas."

"I eat apples and oranges and figs and dates and prunes, too."

"Every day I also drink five cans of a special kind of condensed milk."

"I don't do things in any little small way. Nothing small about my power to drink milk."

"I have oatmeal for breakfast every once in awhile and I eat rice pudding sometimes."

"So you see I'm quite an eater. But look at me and see how strong I look. "Doesn't my gray skin look in the best condition? And my gray ears lie so flat against my body though they wave a little and flap a little as I run and play."

"I belong to the Pygmy Elephant family and we never grow as the usual elephants do. I came from West Africa, in the Congo, but here I find it very nice."

"There's Alice—she is a regular, usual, full-grown elephant. She likes me. She has taken a fancy to me, and the big elephants are all nice with me."

"But Alice would like to pretend that she was my mamma and that I was her child."

"I will have none of that. The one I love best of all is my keeper—better than any of the big elephants though I am mannerly and polite to them but not exactly affectionate."

"I will follow my keeper anywhere. He calls me Tiny. It is his pet name for me."

"I am really a quite unusual elephant—African elephants are never seen so much as the Indian ones, and then I'm an unusual African elephant."

"But I cannot talk to you much more. I cannot tell anything more about myself."

"I really won't be able to do any tricks for you or to play and show you how I do that, nor anything else just now."

"You see, I must begin my dinner. I have to take a good deal of time over it."

"You can understand that. If you ate all I did, all the milk and the forty bananas I am sure you would find that your eating took up quite a little time, anyway."

The Pygmy Elephant looked at the people and put his trunk in his mouth—not all the way, of course, but just a little, as a person will put a finger in their mouth—not for any reason in particular.

Then he saw They Thought They Were Eating a Great Deal.

Forty bananas a day were more important to him than forty visitors. Forty visitors came and went away. Forty bananas came, or were brought to him, and stayed until he had eaten them all.

That was the difference between bananas and visitors—or at least it was one of the differences!

Eggs Were Boiled Cold
Little Dorothy (at breakfast)—My egg is quite cold; is yours, too?
Little Hazel—Yes; I wonder what makes them that way?
Little Dorothy—I guess cook made a mistake and boiled them in cold water.

SUFFERED MANY YEARS WITH FEMALE TROUBLE

PE-RU-NA LIKE A GIFT FROM HEAVEN

Mrs. Katie Scheffel, R. F. D. No. 5, Lowell, Ohio

"I have been suffering for years with female trouble. Was operated on five years ago. It relieved me some but I did not regain my strength. Two years later was taken sick and bedfast several months. I treated a long while without much relief. I was discouraged, my mind affected, so nervous I could neither eat or sleep and unable to do anything."

We tried several doctors but one after another gave up my case as hopeless. Finally a good friend advised me to try Pe-ru-na. I did. It relieved me almost immediately. Your medical department said I was suffering from chronic catarrh of the system. I began taking your medicine in March, 1914, and continued until August. I took ten bottles of Pe-ru-na and three bottles of Man-a-lin and felt like a new person. Your medicine seemed like a gift from Heaven. It was like coming from darkness into light.

We have used your medicine since for coughs, colds and grip with good results. We will always keep it on hand. I weigh twenty-five pounds more than I ever did, eat and sleep well and can do a good day's work. Everybody says I look fine. Even the doctors are surprised. I cannot thank you enough and will always recommend Pe-ru-na to sufferers from catarrh."

MRS. KATIE SCHEFFEL, R. F. D. No. 5, Lowell, O.

Mrs. Scheffel is only one of many thousand women in the world, who owe their present health to Pe-ru-na. The record of this medicine is a proud one as Pe-ru-na has held the confidence of both sexes for fifty years or more.

If your trouble is due to a catarrhal inflammation in any organ or part of the body, do like Mrs. Scheffel. Try Pe-ru-na. Insist upon having the original and reliable remedy for catarrhal conditions. You won't be sorry.

Ask Your Dealer About This Old-Time Tried Remedy

Following Instructions

A customer who had just finished his dinner at a restaurant that the Baltimore American knows of deferentially approached the pretty cashier and inquired:

"Are the waiters here attentive to you?"

"Sir-r-r!" exclaimed the young woman in an offended tone.

"Oh, no offense, I assure you," replied the man. "I was only carrying out the instructions printed on the bill of fare, which say: 'Please report any inattention of waiters to cashier.' And I thought if they were inattentive to you I would report them, that's all."—Youth's Companion.

Brought up on a Farm

As a young man Dr. Pierce practiced medicine in a rural district and was known far and wide for his great success in alleviating disease.

He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood, which is an extract of native roots. This "Discovery" of Dr. Pierce's clears away pimples and annoying eruptions, tends to keep the complexion fresh and clear. It corrects the disordered conditions in a sick stomach, aids digestion, acts as a tonic and enriches the blood. Vim is sure to follow its use. All dealers. Tablets or liquid.

FOR OVER 200 YEARS

haarlem oil has been a world-wide remedy for kidney, liver and bladder disorders, rheumatism, lumbago and uric acid conditions.

GOLD MEDAL HAARLEM OIL CAPSULES

correct internal troubles, stimulate vital organs. Three sizes. All druggists. Insist on the original genuine GOLD MEDAL.

ITCH!

Money back without question if HUNT'S SALVE fails in the treatment of ITCH, ROZEMEA, RINGWORM, TERTLE or other itching skin diseases. Price 75c at druggists, or direct from A. & S. Hunt, Buffalo, N. Y.

Condensed Austin News

The Austin Internal Revenue District collected \$20,208.155 for the fiscal year just closed.

Gov. Neff has accepted the resignation of George D. Armistead of San Antonio as a member of the State Highway Commission, Mr. Armistead retiring to give his entire time to his work in journalism.

Permit to do business in Texas was granted by the State Department to the Kroehler Manufacturing Company of Chicago, Ill., capital stock of \$3,500,000. Texas headquarters, Dallas; Harris Davis, State agent.

George B. Terrell, Texas Commissioner of agriculture has announced that his report showed 16,000,000 acres planted to cotton in Texas this year; that its present condition is 63 per cent and that the estimated yield is 4,125,000 bales.

The Railroad Commission has set for hearing on Sept. 24 the application of the Mon-Tex Operating Corporation for permit to burn carbon black from waste residue gas from casinghead gasoline plants in Eastland and Comanche Counties.

The monthly report of the State Highway Department for August, which is the last month of the fiscal year, shows total disbursements of \$1,543,311. This is the largest amount paid out during any single month in the history of the department.

Mrs. J. E. King of San Antonio, chairman of the advisory committee of the State prison system, has been in Austin in conference with Gov. Neff. Mrs. King has just returned from Salt Lake City, Utah, where she attended the American prison congress.

Under the highway law, if elected Governor, Miriam A. Ferguson will appoint three highway commissioners, effective Feb. 1, 1925, and designate who shall have two, four and six-year terms. They, in turn, select a State highway engineer, the highest salaried State official.

Announcement is expected shortly of the appointment by the Governor of Mrs. Espa Stanford to be a member of the State Industrial Accident Board to succeed J. E. Proctor, whose term expired on Aug. 31, 1923, and who has been serving a year without reappointment.

During the two fiscal years ending Aug. 31, 1924, the Attorney General approved municipal bonds aggregating \$95,190,500. In addition to examining the records in the numerous issues approved examination was also made in a number which failed to get approval.

The Imperial Sugar Company of Sugarland, Fort Bend County, has filed its charter with a capital stock of \$5,000,000, its purpose being to grow and sell sugar. The incorporators are: I. H. Kempner, D. W. Kempner, Galveston; W. T. Eldridge Jr. and G. D. Ulrich, Sugarland.

In a speech to a luncheon club Governor Neff said recently he would keep Austin bone dry until next January; that the recent convention was sober, clean dry affair. The Governor would not discuss the recent State convention beyond its sobriety. He did not comment on its work.

It is authoritatively stated at the State Treasury that the State will not be far behind in paying warrants at any time during the deficiency now existing in the general fund, that it is more than probable that the deficiency will be wiped out in January or February at the very latest.

On recommendation of the State Highway Commission the State Board of Control placed orders for \$515,000 of road maintenance machinery. These orders followed the submission of competitive bids. The machinery purchased consists of various classes of tractors, graders, maintainers, rollers, plows, Fresno, slips and tires for trucks and cars.

Unless the State Treasurer finds legal authority for disposing of some of the \$4,500,000 of Liberty bonds held by him for the various special funds, the State stands to suffer a loss. It has already failed to make \$45,000 by holding the bonds. The market has declined to that extent and may go down still farther, especially if the United States participates in a huge loan to Germany following the consummation of the Dawes plan.

Increase in the salaries of the presidents of the State teacher colleges from \$4,500 to \$5,000 per annum and a continuation of the lump sum appropriation system inaugurated by the last Legislature have been advocated to the State Board of Control in the presentation of the budget needs for the various teacher colleges for the biennium beginning Sept. 1, 1925. Increase in teachers salaries was also supported, probably on an average of between 10 and 15 per cent.

WOOLMEN URGING TARIFF REDUCTION

They Feel That Their Interests Are Being Served by This Activity.

San Angelo, Tex.—T. Albert Kincaid of Ozona, president of the Sheep and Goat Raisers' Association of Texas, and M. L. Mertz, president of the San Angelo National Bank and West Tex as chairman of the Southern Tariff Association, issued a statement a few days ago urging wool and mohair growers, merchants, bankers and other producers and business men of West Texas to "lend full co-operation to the movement fostered by the Southern Tariff Association to retain the present tariff on raw materials."

The association is organizing tariff clubs throughout the South, with memberships pledged to vote for candidates for congress who favor a tariff on the product of the South and the nation, says the statement, adding that remarkable progress has been made along this line.

Within the last thirty days four more democratic congressmen from the South have yielded to sentiment created through the organization of these tariff clubs, asserts the statement, and have publicly declared in favor of a tariff on raw materials and have agreed to stay out of all party tariff caucuses.

The statement closes by saying that those issuing it "have jointly gone over the work and future program of the Southern Tariff Association and we feel that our interests are being well served through this activity."

AUGUST EXPORTS GAIN; IMPORT MOVEMENT OFF

Washington.—Imports into the United States for August were valued at \$270,000,000 against \$275,437,993 for August, 1923, while exports totaled \$231,000,000 against \$310,965,891 for the corresponding month last year, the department of commerce announced today. The favorable trade balance for the month was \$61,000,000 against \$35,527,598 in August, 1923.

Imports of gold for August totaled \$18,149,581 against \$22,856,097 for August, 1923. Gold exports were \$2,397,457 against \$2,200,961 for the corresponding month last year.

Silver imports for August were \$7,041,630 against \$6,465,949 for August, 1923. Silver exports totaled \$8,032,067 against \$7,032,221.

STATE TO PAY OFF TEXAS NEWSPAPERS

Austin, Tex.—Over 300 Texas newspapers will get paid for state advertising of Confederate pension increase amendment to the state constitution as a result of an agreement reached Friday between Sam P. Harben, secretary of the Texas Press Association, and the attorney general's department. The warrants has been held up under the claim that the state publication law, passed nearly two years ago, was too indefinite.

The newspapers will be paid under a space rate for the printing last July of the proposed amendment. A new law to correct the one passed at the requests of the newspaper publishers of Texas will be secured at the session next January, Mr. Harben announced.

SCHOOL FUND ENRICHED BY \$460,602 IN LAND SALES

Austin, Tex.—The state school fund will be enriched by almost a half million dollars as a result of Capitol Syndicate lands, J. T. Robinson, land commissioner, announced Monday. All but fifty of the 176 tracts into which the 57,000 acres recovered from the syndicate were divided have been sold netting a profit to date of \$460,602. The land is in Hartley and Dallam Counties.

The highest price paid was \$27.15 and the lowest \$3 an acre. The tracts are of 300 acres each. This land was in excess of the 3,000,000 acres given by the state nearly forty years ago for building the state capitol.

AGRICULTURE SCHOOLS ASK APPROPRIATION OF \$5,058,269

Austin, Tex.—Appropriations totaling \$5,058,269 for A. and M. College and its subsidiaries, the North Texas Agriculture College at Arlington and the John Tarleton College at Stephenville, were discussed at a conference which officials of those colleges held with the board of control Saturday. Of this sum A. and M. requests \$3,757,846 for the biennium, North Texas Agricultural \$525,198 and John Tarleton \$775,225.

The board gave careful consideration to the budgets and expects to announce its decision within ten days.

Nero's Bath House Dug Up.

Milan, Italy.—Nero's pompous bathing house, the largest of the Roman period yet discovered, has been excavated at Agnano, near Naples. The structure is six stories high and 1,125 feet long. The three topmost galleries were reserved for individual steam baths.

Returned From Inspection.

Mexia, Tex.—E. L. Smith, president, and Blake Smith, vice president of the E. L. Smith Oil Company have recently returned from an inspection of the Big Lake area in Reagan County. This company has acquired 2350 acres of land which is in line with the trend and northeast of the Santa Rita 11 gusher.

Chilean Cabinet Resigns.

Santiago, Chile.—The civilian members of the Chilean cabinet resigned Friday.

TEXAS FARM NEWS

(By S. C. Hoyle, Editor Extension Service Publications A. and M. College of Texas.)

Feeding Poultry for Egg Production.

A hen must have material to make the parts of an egg, such as shell, yolk and white. She may have the material to make two parts but if she does not likewise have the material to make the third part, she still cannot produce eggs; therefore it is necessary for the hen to have a balanced ration, that is a ration which will manufacture the white, yolk and shell above body maintenance for an equal number of eggs. The following formula is suggested for both scrap feed and dry mash.

Scratch Feed—100 lbs. corn, 100 lbs. wheat.

Dry Mash—20 lbs. ground oats, 20 lbs. wheat bran or middlings, 20 lbs. corn meal, 20 lbs. dried beef scraps and 1 lb. of salt. 10 lbs. dried beef scraps and 10 lbs. of cotton seed meal may be used instead of the 20 lbs. of beef scraps.

Keep the dry mash before the flock in a self feeder hopper at all times; also furnish an abundant supply of oyster shell, charcoal, grit, fresh green feed and fresh water at all times.

In case the grains are not produced in your county, ask your county farm agent or county home demonstration agent to help you work out a formula for dry mash in order to use as much home grown products as possible therefore materially reducing the cost feed.

Culling the Poultry Flocks.

No matter how highly a flock of standard bred birds have been bred for egg production there are generally a few culs which should be eliminated each year where little or no culling has been done. Frequently a third of the flock may be culled without decreasing a production. September-October is a good time to weed out the loafer and the following are the main factors in culling.

Birds selected should have medium length backs that are not only broad through the shoulders but broad to the end; full breasts; full body and fluff; legs set well apart; clear, bright, prominent eyes; broad head with medium length neck and short stubby beak. The above mentioned are general characteristics. The following characteristics indicate good egg production and should be observed in culling this season of the year (September and October). They are named in the order of their importance. The shanks and beaks should be pale in color; moults late; the pelvic or lay bones thin and pliable; skin over the abdomen thin, soft and pliable; comb large, warm, moist and waxy; Broad width above applies to hens and not to pullets.

Feeding Dairy Cow Before Calving.

Experience has proved that for maximum annual production a cow should be dry from 6 to 8 weeks before calving, during which time she should be liberally fed on good roughage, in pasture if possible, and grain feeds that are not heat-producing, such as bran and oats. Corn may be used very sparingly as a fat producer that she may be in good flesh at time of calving. A cow should be in good flesh at this time that she may have a reserve supply of material in her body from which to make milk during the few first days after calving, at which time she is in a feverish and more or less weakened condition and should receive little except a cooling and laxative feed such as bran. As soon as the feverish condition has passed the regular grain ration should be used, 4 to 5 lbs. per day at first and gradually increased until 1 lb. of the grain mixture is fed for every 2½ lbs. to 3 lbs. of milk produced. While the cow is gaining in milk flow, the grain ration should be increased in proportion. When the maximum milk flow is reached, it should be kept as near constant for as long a time as possible but as the period of lactation advances, there will be a decrease in production and there should be a corresponding decrease in the grain ration fed.

Cultivation of Fall Gardens.

During dry seasons, it will be necessary to practice irrigation in the fall garden. After the plants are up, this can be done best by letting the water run down the furrows and it will then reach the plants by capillary attraction. This irrigation can easily be done, where there is running water on the place, but even where there is no running water, it pays to irrigate, during dry weather, by pouring water, by means of tubs or buckets, in the furrows. A small garden can easily be irrigated in this manner. Enough water should be given at each irrigation to soak the ground thoroughly and not merely dampen the surface soil, which is too often done. As soon as possible after each irrigation or rain, the soil should be cultivated to break the crust and conserve moisture.

During fall and winter, there is usually no serious trouble from insects, except from lant lice, which can be controlled by spraying with Black Leaf Forty, according to directions on the can. This insecticide can usually be obtained from local drug stores.

Philadelphia Girl Wins.

Atlanta City, N. J.—"Miss Philadelphia", the other night, was chosen queen of the Atlantic City bathing beauty pageant and crowned "Miss America," succeeding Miss Mary Katherine Campbell, of Columbus, Ohio.

Runs for Governor.

Emporia, Kan.—William Allen White, brilliant and noted Kansas editor, who for years has been more than an interested spectator along the side lines of politics, has decided to take an active part in the game.

MOTHER!

Clean Child's Bowels

"California Fig Syrup" is Dependable Laxative for Sick Children

Hurry, Mother! Even a fretful, feverish, bilious or constipated child loves the pleasant taste of "California Fig Syrup" and it never fails to sweeten the stomach and open the bowels. A teaspoonful today may prevent a sick child tomorrow. It doesn't cramp or overact. Contains no narcotics or soothing drugs. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on the bottle. Mother! You must say "California" or you may get an imitation fig syrup.

World Mourns Loss of Historic Spot

The famous Lister ward in Glasgow, Scotland, in which Lord Lister made his great discovery of antiseptic surgery, now no longer exists. It has been destroyed, stone by stone, to make room for new buildings. And so "a rose has fallen from the chapel of Glasgow."

The new hospital could have been built around the room with perfect ease. Not only was any extra money readily forthcoming that might be needed for that, but a Glasgow man offered to pay for the whole of the rebuilding "as a memorial." A similar offer was diffidently made by the surgeons of America, and from all over Europe, from North and South America, and from far Japan, came entreaties that the room should be preserved.

Every possible objection was met, but the managers had their way, and not only Glasgow but the whole country loses one of its most historic possessions—a room in which was made a discovery that has led to the saving of millions of lives.

Head Over Heels

Voice (from above)—June, is that fellow gone?
Jane—Hopelessly, papa.

WHOLE FAMILY ENDORSE TANLAC AS BEST TONIC

"Tanlac has been our constant friend for years, and my wife and myself and eight children are all enjoying wonderful health, largely due to this medicine," is the remarkable statement of Harry H. Pistole, 310 Archer St., Waco, Texas. "In my own case Tanlac has done what seemed to be impossible. When I began taking it my stomach was in such a bad fix that I had to live on a milk and egg diet and I was almost a skeleton. I had been flat on my back in bed and under treatment for 18 months and felt that my time was about up. "After my case had been given up as hopeless and I thought I was beyond redemption a relative put me on Tanlac, and the result is, I gained 20 pounds, and enjoy as good health as anybody could wish. "My wife was all broken down in health. But now she weighs 155 pounds, and is strong and well and I am giving Tanlac credit for it. We give Tanlac to the children to tone them up and make them grow, and nobody ever had a healthier set of children than we have. "Tanlac is certainly the greatest medicine on earth for anyone whose life is wrecked by bad health. We sure do have a great deal to praise Tanlac for at my house. "Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold. Tanlac Vegetable Pills for constipation; made and recommended by the manufacturers of Tanlac.

To Make It Realistic

At a garden party the other day several women turned up in fashionable ostrich-feather cloaks and caps. One in particular had a garment so voluminous as to suggest that it had absorbed the whole annual produce of a good-sized ostrich farm. The wearer was neither so young nor so fair as she had been. "What do you think of that?" asked one woman of another. "Lovely," was the reply. "But—why doesn't she bury her head?"

From New York

A car bearing a New York license was being driven down Washington street the other day. The driver paid no heed to the traffic man's signal to "stop." The traffic man yelled loudly at him two or three times to stop his car, when the driver finally stopped and said, "You don't know who I am, I guess. I'm from New York."—Indianapolis News.

He is happiest, be he king or peasant, who finds peace in his own home.

Don't chuckle if you put over a substitute when an advertised product is called for. Maybe your customer will never come back. Ben Mulford, Jr.

Yes, Why? "What does your wife say when you get home so late?" "I'm not married!" "Then why do you go home so late?"

Power

WHAT makes an automobile go? The combustion or burning of gasoline which produces power. What makes the human body go? The combustion of food by the digestive processes, which produces energy.

Of all known foods, sugar is one of the first in energy units, one of the cheapest in relative cost, one of the most quickly convertible into muscular power. From the soldier on a forced march to the arctic explorer who wants a condensed food ration, men who need strength and endurance use sugar freely as a food. This is one reason why

DIAMOND STAR Pure Cane Sugar

ought to be on every table and in every jar of preserves. Watch this paper for helpful hints regarding its use, and ask your grocer for it.

Mix a cupful of Diamond Star Sugar with a teaspoonful of flour and add a well beaten egg with a heaping cupful of cut or chopped rhubarb. Line a pie plate with pastry and turn in the rhubarb mixture. Cover with a thin top crust. Bake for forty minutes.

Save this and watch for the next

Locals and Personals

The 16th of September was celebrated in style at Presidio.

W. G. Moore on Thursday shipped to San Antonio six cars of cattle.

Captain and Mrs. J. B. Gillett are at the Hot Springs in New Mexico.

Miss Elaine Briam is visiting relatives and friends at Fort Stockton this week.

FOR RENT—Rooms for light housekeeping or rooms for lodging. Apply Mrs. W. A. Wells.

Mr. and Mrs. W. R. Ake returned the first of the week from Hot Springs, N. M.

Several prospectors came in this week, with the view of looking over the country for minerals.

Mrs. Eugenia Chanley of Browster county will teach the school at Redford (Polvo) this year.

W. G. Moore returned the first of the week from San Antonio, where he shipped four carloads of cattle.

See Dr. Hodges if in need of dental services. Jordan Hotel, room 7, up stairs.

Miss Thalie Humphris came in on Wednesday for a visit to her nephews' family, that of Mr. and Mrs. John Humphris.

Miss Ferna Shelton is teaching this year at Candelaria. She is the daughter of Prof. Shelton, who teaches at Valentine.

Miss Tommie Simpson, formerly one of Marfa's popular young ladies, and a Marfa high school graduate, has entered the State University as a student.

FOR RENT—Green cottage, north of northeast corner of the court house yard. Apply to owner, Mrs. McCamant, phone 139.

Mrs. Raymond Fitzgerald returned Tuesday morning from a short stay in El Paso, where she visited with her husband before he leaves for his ranch in Old Mexico. Mr. Fitzgerald is moving his cattle to Old Mexico, where he can get better grass and more water.

Mr. C. D. Hubbard came in on Wednesday from San Antonio, where several weeks ago he underwent an operation. Mr. Hubbard is now looking well.

APPLES for everybody, at SHADY NOOK ORCHARD. Price 50c to \$2.00 a box. In quantity, \$1.50 a box. Write or come. E. H. Carlton, Fort Davis, Texas.

Mrs. E. C. Rice left Sunday to join her sister, Mrs. Walter Ellison and daughter, Miss Mildred Ellison, at San Antonio, where they will spend the winter months.

Jordan Hotel under new management, renovated and improved throughout. We respectfully solicit your patronage.

J. W. Espy, president of the Fort Davis State Bank, and Mr. F. A. Mitchell, a prominent cattleman of that section, were business visitors here Thursday.—Mountain Eagle.

Mr. Donald Church came over from Alpine this week and is now connected with the Quality Stores, as assistant salesman. His first overland trip was to Presidio Tuesday.

Cool, comfortable rooms, reasonable rates—for permanent roomers—hot and cold water in each room. Hotel Jordan.

S. F. Molina and family left this week for Brenham, Texas. Before leaving Marfa, Mr. Molina visited California, but was not pleased with the business prospects in the Golden State.

The Sunday School class of Mrs. R. H. Evans met at her home on Tuesday afternoon, for class work. After the work had been finished, delicious refreshments were served to those present.

Judge K. C. Miller accompanied by his wife and little son, Henry Cherry, left Thursday morning, by auto, for a few days visit in El Paso, where Judge Miller will attend the County Judge and Commissioners' convention, which convenes there Friday and Saturday.

Save a repair bill on your fence by using cedar posts. We have a carload just in. G. C. Robinson Lumber Co.

A telegram was received here on Tuesday afternoon, in which it was stated that Bro. H. M. Bandy was in an automobile accident and was in a hospital in El Paso, but it was hoped that he was not seriously injured.

An assistant manager for the electric light and ice plant made his appearance in Marfa Sunday. His first line of work will be to manage the Myrie home. Myrie is stepping around quite lively, mother and little son doing nicely. He weighed 8 pounds.

Rooms for rent. Apartment of 2 large rooms, sleeping porch. Use of bath and lavatory. For terms see Mrs. J. J. Franklin. 19-20-21

Mr. and Mrs. L. C. Brite left on Thursday morning for El Paso, where Mr. Brite goes on business. From there they will go to Kansas City, to visit the mother of Mrs. Brite. Mrs. Mary Anderson, after which Mrs. Brite will leave for a visit with her daughter and husband, Capt. and Mrs. Donald Dunkle, of Connecticut.

Cora Wilkinson will open a class in Piano, Theory and Harmony on Sept. 1st, with studio at High School. All pupils interested, please register with Mrs. Tom Mitchell.

(Continued from page 4)
point. By planting the varieties mentioned above, one will overcome this trouble and have a supply of fruit over the entire season. Certainly no home, where there is even a small amount of space available, should be without a few fruit trees. They are inexpensive, comparatively easy to handle, if one will only give the matter a little study, and will prove not only a pleasure but a profit to those who will give them the right attention in the way of pruning, spraying, cultivating and fertilizing.

A. M. Avant, member of the Democratic executive committee, expects to leave for Houston Monday, to be present at an important meeting of the committee, when a candidate will be selected to fill the place on the Democratic ticket made vacant by the election of Railroad Commissioner Walter Splawn to the presidency of the University of Texas. There are nearly a dozen applicants for the place on the ticket.

KEEPING WELL

SUNLIGHT

DR. FREDERICK R. GREEN
Editor of "HEALTH"

WE ARE just beginning to appreciate the value of sunlight as a health-producer.

The ancient people worshiped the sun, which they recognized as the source of all energy and life. Modern science is proving what the ancient civilizations believed.

King Tut has had more front-page publicity in the last two years than any living man. His name is known today to ten times as many people as ever heard of him while he was alive. King Tut was a sun-worshiper, as were many of the people of his day.

The Greeks took sun baths regularly. The Romans knew that sunlight is of benefit in healing sores and infections and in maintaining health. Pliny, the Roman historian, writes that his aged friend Spurinna kept himself youthful by taking an hour's sunbath every day. When civilization moved from southern to central and northern Europe, people wore heavy clothing and lived in houses and forgot the value of sunlight.

Dr. Rollier of Switzerland reports remarkable cures of tuberculosis in children by the use of sunlight. Dr. Lo Grosso, medical director of J. N. Adams Memorial hospital at Perrysburg, N. Y., gets wonderful results in bone and skin tuberculosis by undressing the children and keeping them in the sunshine and fresh air. Even in winter the children wear nothing but overshoes to keep their feet dry and caps to protect their heads and ears.

Dr. Lo Grosso says, "With the exception of one or two isolated hospitals we are neglecting the greatest of all healers, the sun. Our eyes are cast down, whereas healing is from the skies."

Sunlight kills disease germs in a short time. The more sunlight we have in our houses the healthier we are. The more we get out in the sunlight the healthier our bodies will be.

Exposure of the skin to sunlight lowers blood pressure, increases the depth of respiration, dilates the blood vessels and brings the blood to the surface. The number of blood corpuscles is increased, as well as the power of resisting disease.

This remedy must be used with common sense. A sunburn is just as painful and as bad as any other kind of burn. Don't go out the first day the bathing beaches are open and lie all day in the sunlight. Don't try to get the tan in a few days of summer vacation that should have accumulated all through the year. Get the good effects of the sun without the bad effects. Get outdoors every day all the year round, especially in the summer, and get the benefit of the healing and stimulating effect of sunlight—the source of all heat, light and life in the universe.

CITATION IN PROBATE.

THE STATE OF TEXAS.

To the Sheriff or Any Constable of Presidio County—GREETING:

YOU ARE HEREBY COMMANDED to cause the following citation to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the citation in the County of Presidio, State of Texas, and you shall cause said citation to be published at least once each week for the period of ten days, exclusive of the first day of publication before the return day hereof:

CITATION IN PROBATE.

THE STATE OF TEXAS.

To all persons interested in the welfare of Virginia Cole, a minor:

On the 17th day of September A. D. 1924, the Honorable County Judge of Presidio County, Texas, made an order appointing Mrs. May Mead temporary guardian of the person and estate of the above named minor, which said order is now recorded in the Probate minutes of said Court, said minor having an estate of the probable value of \$15,000.00, consisting of real and personal property.

All persons interested in the welfare of Virginia Cole, a minor, are hereby cited to appear before the County Court of Presidio County, Texas, at the Court House in the town of Marfa, Texas, on the 1st day of December, A. D. 1924, the same being at a regular term of said Court, then and there to contest said appointment if they so desire, and that if such appointment is not contested at such term, then the same shall become permanent.

HEREIN FAIL NOT. But have you before the said Court on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

WITNESS my hand and official seal, at Marfa, Texas, this 17th day of September, 1924.

J. H. FORTNER,

Clerk County Court, Presidio County, Texas.
