### SUNBEAM BAND.

On Friday afternoon the Sunbeam Band of the Baptist church went on a "weenie" roast to a place about ten miles from town. Six cars took the little folks and grown-ups.

Games dear to the hearts of children and cliff climbing made the time pass all too quickly. About six o'clock, all gathered about the camp fire, where the lunch was spread. A song, "The Father's Will," was sung by the little folks, followed by a prayer of thanks by Bro. Marsh.

"Weenies," pickles, buns, apples, cakes and hot chocolate were served. Those enjoying the fun were:

Junior Butler, Willis Bean, Miriam and Martha Strawn, Marlin and Ruth Bounds, Verna and Sam Humphries, Mavis Myrick, Ellanora Franklin, Barbara McDonald, Katherine and Lucile Jordan, Forest Jordan, Jack, Eugene and Peggy Colquitt, Doris Ray, Dora Dowe, Norman Davis, Harold, Samuel and Hilda Marsh, Lucile, Dora and Monroe Slack, Osmon Wheeler, Bertie Louise and G. C. Benedick, U. S. Stanley, Albert and Terrell Karsendiek, Johnnie Mae Fuller, Mrs. Bawnds, Mrs. Colquitt, Mrs. Eugenia Niccols, Mrs. Slack, Mrs. Wheeler, Mrs. Ray, Mrs. Jordan, Mrs. Karsendiek, Rev. and Mrs. Marsh and Mr. and Mrs. Fuller.

### \$25 REWARD

For "Fritz's" return. Funny little long Dachshund, "2 dogs long, half a dog high" color, Rhode Island Red chicken; excitable; does not always answer to name; can identify by standing on hind legs with paws crossed. Rev. J. R. Jacobs, Marfa, Texas.

### BAPTIST CHURCH NOTES.

There will be conference Sunday morning, following the sermon. It was postponed last Sunday because our other services were longer than common.

A goodly number of the church were present for the Lord's Supper. It was a gracious hour.

The Sunbeams are still talking about their "weenie" roast, and they are thankful to the good women who took them out to the hills in their cars.

Several from the churches which had no preaching worshipped with us last Sunday. We enjoyed their presence and fellowship.

Supt. Fuller's review of the quarter's lessons made us eager to continue these wonderful studies in the life of Jesus. Come and make our Bible School grow.

### ANNOUNCEMENT PARTY.

Prominent on the week's calendar, indeed its leading social event, was a thoroughly delightful affair on Thursday afternoon, at the residence of Mrs. W. B. Mitchell, when Mrs. Mitchell, assisted by Mrs. Bob Evans and Mrs. J. M. Rosson, entertained a number of friends with a hospitality of exceptionally charming appointments, complimentary to their niece, Miss Dorothy Mitchell.

When the guests arrived they were directed by large placards to enter the living room, and found this to be a beautiful "Garden of Eden" with the famous apple tree laden with luscious golden apples, and as each guest plucked an apple they found this beautiful and clever legend, which was so graciously composed by Mr. Henry Coffield: "With sword and spears, instead of sweethearts, the knights of old played the game of hearts, but now times have changed. The weapons are candy or anything else that comes handy—so Miss Dorothy Mitchell surrendered her hand to Allen McCabe, Sir Knight. Let all people be glad and rejoice, for both have made a wonderful choice."

The decorations in the living room were wild flowers, birds in cages and several animals. The guests were invited into the reception hall and asked to register in the bride's book with some good wish for the bride-to-be, and presiding in the reception room were Mrs. Lloyd Mitchell, Mrs. Jack Rawls and Miss McDaniels. The decorations were varying shades of yellow, rose and pink, the dahlia the chosen blossom. In receiving the guests were Mesdames Bertie Mitchell, Robt. Evans, J. M. Rosson, T. C. Mitchell and the honoree, Miss Dorothy Mitchell. The house guests

### STOCK SHIPMENTS.

Since the lifting of the quarantine there has been great activity in shipments of cattle from Marfa.

were: Mesdames Thos. Snyder, J. W. Poole, Arthur Mitchell, W. M. Coughran, Thos. Bates, Crawford Mitchell, Henry Barton, Hilsman Davis, Clay Mitchell, Chas. Anderson and Miss Cora Wilkinson. The dining room was most artistically decorated with Red Hearts and American Beauty Rosas; pouring tea was Mrs. McKie Mitchell and at the opposite end of the table was Mrs. Frank Rosson; assisting were Mesdames B. Hudson, Frank Anderson and F. Barton and Misses Stansell, Elder E. Holland, Laura Mitchell, Jettie Grace Pruitt and Helen Joyce. Beautiful vocal music was furnished through the afternoon's entertainment by Mesdames C. R. Sutton, H. Hord, Jim Tyler and Miss Williams, with Miss Frances Mitchell as accompanist.

### WOODMAN CIRCLE MEETS.

The Woodman Circle held an interesting meeting Monday evening at the W. O. W. Hall. A membership attendance contest was on, which brought out a splendid attendance. Mrs. Ernest Williams and Mrs. Georgia Arnold were the captains, and it was found that each captain had the same number there, and it was decided to carry the contest on into the December meeting. The Guardian, Mrs. Annie Livingston, presided at the close of the regular routine of business and a social hour was held. The hostesses for the evening's entertainment were: Mrs. John Howell, Mrs. Georgia Arnold and Mrs. Ernest Williams, who served a tempting refreshment plate that held salad, sandwiches, peach pickles, coffee with whipped cream.

### MISSIONARY SOCIETY.

The Woman's Missionary Society of the Baptist church met Tuesday, the 7th, at the home of Mrs. Will Davis, with Mrs. Davis and Mrs. Franklin as hostesses.

A large crowd of the ladies were present and a number of visitors. We had a good business session, and among the things voted on was a Christmas bazaar to be held the first week in December.

At the close of the session a social time was enjoyed, when delicious refreshments were enjoyed.

### THE HOMEMAKERS.

The Home Makers class of the Baptist Sunday School met with Mrs. Perry Kerr at the home of Mrs. J. H. Griffith, Monday night, Oct. 6.

A business session was held, after which the game of Peanut Bunco was played. At the conclusion of the game a delicious plate lunch was served by the hostess to the following guests:

Mr. and Mrs. E. P. Langley, Mr. and Mrs. F. O. Larkin, Mr. and Mrs. Van Adams, Mr. and Mrs. Orr Kerr, Mr. and Mrs. Frank Barton, Mrs. J. O'Leary, Mrs. H. A. Arthur, Mrs. McKie Mitchell, Mrs. S. F. Marsh and Mrs. O. C. Dowe.

The class adjourned to meet with Mrs. S. F. Marsh the first Monday in November.

## HIGH LIGHTS IN PARIS MODES; COATS TO WEAR TO SCHOOL

FAR more to be desired than great riches is chic—or distinctive style—that seems to belong to some women. Usually these women are partial to simple clothes—but, no matter what they wear—it seems to exactly suit them. Present styles have their enthusiastic approval, for even afternoon and evening gowns in order to be recognized as aristocrats in fashion's realm, must bear the stamp of simplicity. Everything that goes to make

The pretty little maid pictured here might be going almost anywhere—except to the South Sea Isles, where warm coats are not needed. She is wending her way toward an exclusive school, arrayed in a newly acquired and very up-to-date coat, which will protect her from the chill of autumn and the frost of winter, for it is more or less warm, according to the way in which it is worn. This model merits some study from those who are

For Afternoon and Evening.

up their garnishment or decorative finishing must be discreetly used so there is no suggestion of fussiness—for the mode will have none of it. A wealth of beautiful and novel fabrics which came in with autumn are doing much to make the way of designers easier than it would be. They are woven in rich patterns and color combinations and have reached the limit of suppleness. Among them are glowing brocades, not to be improved by adornments except fur bandings, or perhaps, a fringe of ostrich or bandings of plain velvet.

about to outfit little girls with winter coats. The hallmark of good style in children's coats is simplicity. They are made in many sturdy fabrics and must be well tailored, sufficiently roomy, easily adjusted and durable. The coat pictured is in a woolly fabric, dark tan color and may be worn everywhere. It is convertible into a double-breasted front, which brings the muffler collar up about the throat. Rough tweeds, chinchilla and mannish woolsens supply the need for heavy coats and there are many soft woolly

Splendid Model for School Wear.

But afternoon and evening gowns of plain satin and velvet make a background for beautiful decorative features that do not interfere with their claims to simplicity. In their service the high lights of the mode stand ready to contribute most important touches. The tunic, the flared silhouette, spiral flounces, cascaded side draperies, inverted plaits, sheer floating scarfs and draperies, the shoulder garniture of flowers, single handsome ornaments, ostrich fringes, fur and embroidered bandings and beadings—you can take your choice, but use discretion, for fashion may countenance no elaboration but will not forgive too much of it.

fabrics as well. Pile fabrics, fabric furs, suede velours, kasha and novelty coatings are employed also.

Following in the wake of styles for grownups, this fall has brought in ensemble suits for little girls. A popular type combines plain and plaid materials in a straight-line dress and a coat which is of the plain fabric with plaid lining. But a plain material may be used for both coat and frock, and this is advisable when fur is to be used for the collar and cuffs or bandings on the sleeves and fronts of the coat. Some of the prettiest coats are made of plaid woolsens; these models are entirely plain, of large plaids in soft colors, and have capacious patch pockets. Some of them have a small fur collar, with squirrel beaver undyed muskrat the favored furs.

Paris sends over these two gowns for afternoon and for evening. The model at the left is made of satin in any favored color combined with black velvet and adorned with large plaques of gold lace. A long strand of pearl beads, natural or in the color of the satin, wrapped about the throat and knotted, might be worn with it. These colored pearls are new and very pretty. The velvet gown at the right adopts the spiral flounce to achieve a flare and uses gold embroidery and fur banding to finish it. It is very rich and beautiful in brown or black, but there are wonderful shades in fuchsia, orchid, burgundy, green and blue to vary the choice.

### CAT AND DOG

He was a very little dog and he was playful and friendly and cunning.

They Both Belonged to a Girl.

He would never grow to be very big but he would be larger than he now was.

They had all said that.

In the house lived a cat. The cat was a very big cat, and she was quite an old cat, too.

As soon as the little dog had been brought to the house the cat had taken a great interest in him.

It is not often that cats and dogs are friendly but of course now and again they are, particularly if they have been brought up together.

They both belonged to a little girl named Elisabeth, whom they loved dearly.

The cat loved her more than the dog did, the cat thought, as she had been with Elisabeth longer and knew her better and so loved her more.

But the dog was very devoted to Elisabeth too.

The dog's name was Soft, as he was such a little soft, cunning dog, and the cat's name was Nurse.

She had been called Mrs. Cat for a long time, but after Soft had been brought to the house her name was changed to Nurse.

That was because she looked after Soft and took charge of him and saw that he did not get into mischief.

Soft was very fond of getting into mischief. There was nothing he liked better than a pair of new bedroom slippers or the end of a rug.

Such things were delightful playthings.

But Nurse used to follow him about and give him a little slap with her paw when he began to do things she knew he shouldn't do.

Sometimes when Soft had been missing for some time Nurse knew he must be up to something as the saying was, particularly since he had been quiet.

She would go off hunting for him then.

Once in a while Nurse felt jealous when they petted Soft too much.

It was not because she didn't want Soft to be petted, but she didn't want to be forgotten.

And when Soft was being petted by everyone and no one petted her she would raise up her back and stand in front of the people who had been petting Soft and the expression of her back seemed to say, very clearly,

"Why this is very strange! I'm a pet, too. Can't I be petted also?"

"Just because I'm grown up you mustn't think I do not want affection."

And then Nurse would be petted of course, and they would say,

"Why, Nurse, we didn't mean to forget you. We love you."

Nurse would feel better then and she would purr and she would not raise her back any more.

Yes, no two animals could have been more friendly than Soft and Nurse.

Life was very pleasant for them. Elisabeth loved them and they loved her.

Her friends were so nice to them too. The food was good and the house was comfortable and the petting was something neither they nor their mistress, nor her friends, tired of giving them, which was best of all.

### WEEKLY MENU SUGGESTIONS

Housework is the recognized vocation of every woman if married, or she is responsible for the housekeeping and meal preparation which is a vital part of it.

**SUNDAY**—Breakfast: Iced cantaloupe, cream of wheat, top milk. Dinner: New beets buttered, ice cream. Supper: Sandwiches, sliced tomatoes.

**MONDAY**—Breakfast: Sliced bananas, bran with cream. Dinner: Chicken salad, hot rolls. Supper: Sliced pineapple, layer cake.

**TUESDAY**—Breakfast: Green Gage plums. Dinner: Deep cherry pie. Supper: Baked custards, cup cakes.

**WEDNESDAY**—Breakfast: Omelet with ham. Dinner: Cabbage with cheese. Supper: Green apple sauce, brown bread.

**THURSDAY**—Breakfast: Peaches, cereal with cream, waffles, coffee. Dinner: Cream potatoes, boiled ham. Supper: Raspberries, baking powder biscuits.

**FRIDAY**—Breakfast: Watermelon, oatmeal, toast, coffee. Dinner: Baked mackerel, raspberry sherbet. Supper: French fried toast, fresh berries.

**SATURDAY**—Breakfast: Cherries, rolled oats, bacon, eggs. Dinner: Meat pie, cabbage salad. Supper: Baked beans, sandwiches, lemonade.

**Deep Cherry Pie.**

Line a deep earthen dish with a good pastry and invert in the center a china tea cup. Take three pints of ripe cherries, cover with sugar, one or more cupfuls to sweeten. The fruit should rise over the top of the cup and form a mound in the dish. Cover with pastry, wetting the edges and pressing them down well. No openings are made in the crust. Bake at least an hour. At serving time cut the crust into eighths, remove the tea cup and serve a portion of the rich red juice with a segment of the crisp crust. Whipped cream may be served if desired.

**Cabbage With Cheese.**

Cook cabbage until tender, arrange a layer in a baking dish, cover with white sauce and a layer of rich cheese grated, repeat and finish the top with buttered crumbs, bake until the crumbs are brown.

The ideal life is in our blood and never will be still. Sad will be the day for any man when he becomes contented with the thoughts he is thinking and the deeds he is doing—where there is not forever beating at the doors of his soul some great desire to do something larger, which he knows he is meant to do.—Phillips Brooks.

### EVERYDAY GOOD THINGS

The plain ordinary food is more important to us, as it is the kind which is served daily in millions of homes.

Careful seasoning and nice serving makes an ordinary dish, though plain, attractive.

**Veal Savory.**—Cut meat from a veal soup bone into pieces twice the size of the finger. Place the meat in the kettle, which has been well greased. Grate an onion and one carrot, add one-half cupful of boiling water, salt and pepper to season, and pour over the meat. On top place a bay leaf, lay the bone over this, sprinkle with flour and cover tightly. Set in a slow oven for three hours. When done remove the bone, allowing the marrow to drip over the meat. Serve with rice or mashed potatoes.

**Mock Venison.**—Hang a leg of mutton in a cool place to ripen as long as possible, while it keeps sweet. Take off the skin and put the mutton into a dripping pan or kettle and pour over the following: Take three heads of garlic or three sliced onions, one-half ounce of peppercorns, one-fourth ounce of allspice crushed, six bay leaves, a dozen sprigs of thyme, the same of parsley, all brought to a boil in three cupfuls of vinegar. Rub this into the meat, rubbing and turning for thirty minutes. Allow the meat to remain in the pickle, covering the meat with thinly-sliced onions until the next day, then repeat the rubbing, turn and cover the other side with onions. Continue this for four days, then wipe the meat dry, rub for half an hour with a pint of hot molasses. Let the meat hang in a cool place until the next day, then wipe dry and roast the same as a leg of mutton. Serve with melted currant jelly. This is some work, but the results are worth it.

**Cauliflower With Cheese Sauce.**—Cook the imperfect heads until tender, break up into flowerets and serve in a rich white sauce to which a half cupful of grated cheese has been added.

**Oysters Louisiana.**—Clean and parboil one quart of oysters, reserving the liquor, adding water to make one and one-half cupfuls. Cook three tablespoonfuls of butter with two tablespoonfuls of chopped red pepper and one-half of a tablespoonful of chopped onion. Bring to the boiling point and season with salt, paprika, cayenne and a tablespoonful of orange juice. Arrange in buttered shells, pour over the sauce and sprinkle with parmesar cheese.

"Then how can he maintain an expensive automobile?"

### If You Need a Medicine You Should Have the Best— Dr. Kilmer's Swamp-Root

Have you ever stopped to reason why it is that so many products that are extensively advertised all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited to those who are in need of it.

A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by parcel post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Advertisement.

**HOMINY USED IN THE PLACE OF VEGETABLE**

A Dish of Lye Hominy Prepared for the Table.

(Prepared by the United States Department of Agriculture.)

There are several kinds of hominy on the market, but for the most part they differ more in the fineness to which they are ground than in their food value. The names by which the different kinds are known often vary with the locality, so that it is sometimes hard to tell which is referred to.

To prepare hominy by modern methods the grain is soaked enough to soften it somewhat. It is passed through a machine called a degeminator, which breaks the grain into coarse pieces and also loosens the bran and germ, which are sifted out. The coarsely broken endosperm then is dried and sold as hominy. When left in fairly large pieces it is often known as samp or pearl hominy; when ground to a very coarse meal it is called hominy grits. Any kind of hominy may be used like rice, in place of a vegetable or for a breakfast cereal. The hominy grits may also be used in puddings and cakes.

**Special Preparation.**

Lye hominy, or hulled corn, is a special preparation made by soaking the whole grain in water that contains lye, or sometimes merely a bag of wood ashes, until the hulls are loosened or softened, then washing the hulled grains in clear water and boiling. Lye hominy may be made at home or it may be bought either in bulk or canned. It has a distinctive

flavor which many enjoy and is used in the same ways as other coarse hominy. The United States Department of Agriculture will give directions for preparing.

Boiled coarse hominy or samp requires long cooking. It may be prepared in a fireless cooker or in double boiler on the back of the stove. It is wise to cook a large quantity at once, as it does not spoil easily if kept in a cool place.

**How to Cook Samp.**

Soak one cupful coarse hominy in two cupfuls water for six hours, or overnight. If a fireless cooker with a radiator is used, add six cupfuls boiling water and three teaspoonfuls salt to the soaked hominy and boil over the fire for ten minutes, put in the cooker and let it remain there for eight to twelve hours. If there is no radiator in the cooker, the hominy should be cooked over the fire for 45 minutes, and it may be necessary to reheat the hominy and put it back in the cooker the second time.

If the hominy is cooked in a double boiler more water may be needed, or a cupful of milk may be stirred in about fifteen minutes before removing from the fire. It takes five or six hours to cook the coarse hominy in a double boiler, and about two hours directly over the fire.

When used in place of a vegetable the coarse hominy may be served plain or browned in a little fat.

**STATE GOES AFTER ITS DELINQUENTS**

**More Than Two Million Due State, Comptroller Smith, Says.**

Austin, Tex.—Millions of dollars of inheritance taxes are being withheld from the state, according to Lon A. Smith, state comptroller, who started a drive Monday to bring in the delinquent payments. Rich men's estates are escaping the tax on all hands, some thought alleged violations of the law and others because the state hasn't enough collectors to do the work it is said. Heirs of wealthy Texans living in other parts of the country and some in foreign countries, it is charged, are enjoying the benefits of money which belongs to the State of Texas from the riches of whose soil, mines and oil wells the wealth originally was taken.

The first step in the attempt to round up some of this money was the appointment Monday of R. C. Lomax of the comptroller's office as a traveling auditor to visit each county to check up on the estates of persons who have recently died. Mr. Lomax has been chief accountant of the department for several years.

While the legislature in amending the inheritance tax law at the last session, expected it would bring in about \$3,000,000 a year, the records show that only \$358,000 was collected from this source for the fiscal year ending August 31.

The author of the bill, Representative John T. Smith of Austin, declared that the bill should bring in at least \$2,500,000 a year and that the state was losing that much by not collecting the money.

The federal government has 10 inheritance tax collectors in Texas; the state has only one.

Ways and means of evading the law are many, Comptroller Smith said. In South Texas one rich man is said to have attempted to defeat the law by deeding all his property just before he died, knowing that he was about to die. This is declared to be a violation of the law. A rich estate in the Panhandle, totaling perhaps \$10,000,000, has entirely escaped the inheritance tax collector, it is said. Most of the heirs of the estate reside in England and it was difficult to collect the tax. Mr. Lomax went to Galveston a few days ago and collected \$29,000 from the executor of an estate.

When asked why he hadn't paid the money before, the executor said because the state hadn't come to collect it. An investigation by the comptroller's department in Dallas has brought to light a round million in delinquent inheritance taxes. Tax collectors in many counties are withholding the tax from the state.

Representative Smith said the state should have at least five inheritance tax collectors and he announced that he expects to demand this many of the next legislature.

**FIGURES OF THE DIXIE BASEBALL SERIES GIVEN**

Memphis, Tenn.—Following is a recapitulation of the eight games of the Dixie series:

Runs, Fort Worth 53, Memphis 17. Hits, Fort Worth 74, Memphis 66. Errors, Fort Worth 17, Memphis 9. Home runs, Ft. Worth 12 Memphis 0. Attendance, 60,847. Receipts, \$100,683.33.

Texas players' share, \$17,629.91. Southern players' share, \$11,353.28. Clubs' share, \$52,160.67. Leagues share, \$20,139.47.

Of the \$11,353.28 share to the Southern Association players, the Memphis players will receive only \$6,811.49. The remainder will be split between the Atlanta and New Orleans players, on the basis of 25 and 15 per cent of the total respectively. Likewise the share received by the Memphis club, under the rule of the Southern Association, will be divided equally among the eight clubs of the league.

**Giants Take First Series Game.**

Washington.—The New York Giants fought their way to victory Saturday over the Washington Senators in the opening game of the 1924 world series after one of the most thrilling, dramatic battles baseball has ever known. The Giants won by the narrow margin of 4 to 3 in twelve bitterly contested innings, and conquered Washington's heroic moundsman.

**Senators Wins Second Series Game.**

Washington.—Battling with the indomitable courage that carried them to their first American league pennant, Washington's Senators Sunday turned the tables on the New York Giants won the second game of the 1924 world series and put themselves back in the thick of one of the most stirring struggles ever staged for baseball's greatest honors.

**Veterans Choose General Foster.**

Fort Worth, Tex.—Ablene won the 1925 convention of the Texas Confederates in the voting Friday, defeating Port Arthur. General J. C. Foster of Houston was re-elected state commander.

**Lindsey Blayney Accepts Presidency.**

Houston, Tex.—Lindsey Blayney, Ph. D., professor of German at the Rice Institute, has announced that he had accepted an offer of the presidency of the College of Industrial Arts at Denton.

**Condensed Austin News**

The State collected approximately \$300,000 of 1 cent per gallon gasoline tax during the month of August, indicating that 36,000,000 gallons of gasoline had been sold in Texas during that month.

Miss Edwina Duer of Dallas has been appointed assistant to Mrs. C. R. Fields, secretary of public health education of Texas. Miss Duer is a graduate of the University of Texas school of journalism, receiving her degree in June, 1923.

An amendment to the charter of the Gulf, Colorado & Santa Fe Railway Company, giving the company power to issue bonds with or without mortgage, has been approved by the Attorney General's Department and filed with the Secretary of State.

Major Charles E. Cooke of the United States Geological Survey, who has had and will again have charge of all the joint topographic work in Texas, will reach this state in time to attend the meeting of the Texas Conservation Association which will be held in Fort Worth.

The State Treasurer states that the present deficiency in the general fund has reached \$1,509,000 and that it will continue to grow until November, when the \$1,000,000 of gross receipts taxes are collected. The first call to pay warrants was made on Oct. 2 and was for \$300,000.

A contest of the election at which Austin adopted 22 charter amendments, putting into operation the commission-manager plan of administration, has been filed in Travis County District Court by N. A. Ladd and L. East against members of the City Council.

W. W. Boyd, State Game, Fish and Oyster Commissioner, has gone to Houston with reference to the effect the hoof and mouth cattle disease will have on hunting in that section of the State, some protests having been made against hunters taking the field and transporting game from one section to another for fear of spreading the disease.

Eugene Miller of Weatherford, nominated for the State Senate from the Twenty-Second Senatorial District, has been in Austin and announced that he will offer a bill to reduce the tax on automobiles in this State. He also said he will oppose any kind of new taxation or any raise unless it can be shown that same is absolutely necessary.

The State Board of Control has summoned all asylum heads to come to Austin to discuss the appropriation budgets for the two fiscal years beginning Sept. 1, 1925, particularly the building program for these institutions. This will almost complete the hearings on the general budgets, as only a few departments will come later.

Smallpox is epidemic in the State Insane Asylum in Austin, at least thirty well developed cases having been officially reported. The city of Austin has placed a rigid quarantine against the institution, all traffic in and out of the asylum grounds has been prohibited. The disease has spread to a number of the wards and efforts are being made to check it before the entire institution is involved.

During the month of September the Big Lake Oil Company paid \$14,834 to the University of Texas as royalty on oil produced on University land in Reagan County, and this is by far the largest single month's remittance in royalties. This shows the Big Lake field is growing and that the University may get substantial amounts in royalties commencing in the near future.

Judge H. E. Bell, chief oil and gas supervisor of the Railroad Commission, will personally investigate the gas wastage in the Panhandle fields and will conduct a hearing in Amarillo soon to consider methods of drilling to be used so as to conserve the gas supply. In drilling for oil in that section gas sands are encountered and much gas has been permitted to waste as a result of this condition. Judge Bell proposes to stop it.

Wild ducks are appearing on the Texas Coast thirty days earlier than in many years, according to Judge R. H. Hamilton of the Commission of Appeals, who has just returned to Austin, from his home at Rockport. The ducks are not only arriving earlier, but they are coming in large numbers. Judge Hamilton said, indicating that there is to be an early and severe winter.

Under recommendation made to the State Board of Control and considered in hearing recently, the Adjutant General is asking for appropriations to support a ranger force of seventy-five men, the maximum allowed under law, as against the present force of fifty men. The Board of Control will later decide what action it will take. The total asked for the ranger force is \$175,056 the first year and \$174,858 the second year, compared to \$114,221 and \$115,422, respectively for the current two years.

**WOMEN OF MIDDLE AGE**

**Praise Lydia E. Pinkham's Vegetable Compound**

**"A Blessing to Suffering Women," Writes One**

Louisville, Illinois.—"I certainly thank you for the great benefit I have received from taking Lydia E. Pinkham's Vegetable Compound. I first learned about it from my step-mother who got so much help from it. Several years ago I took it for inward weakness and since then I have taken it during the Change of Life and it has been a great help to me. It certainly is a blessing to suffering women and I take pleasure in recommending it. My health has been better this summer than it has been for five years. I am now able to do all my work and have earned 340 quarts of fruit and vegetables this summer."—Mrs. KATE MCPHEAK, Louisville, Illinois.

**Forced To Remain in Bed**

Carlisle, Illinois.—"During the Change of Life I suffered with severe nervousness and with disturbances of the entire system. These continued probably two years before I began taking Lydia E. Pinkham's Vegetable Compound. I could do none of my work and was not always able to be up. For ten days at a time I was forced to remain in bed with my hips propped higher than my head and the pains were terrible. The doctor helped some but each time I was forced to go over the same suffering. I had taken the Vegetable Compound in 1910 after my twins were born and it had helped me so I decided to try it again. I became better and gained in strength. I have taken it for about three years now but not steadily. I am able to do my housework but I avoid all heavy lifting and washing and ironing as I know I am not strong enough yet. I give the Vegetable Compound to my daughters and recommend it to my friends."—Mrs. LOUISA B. BRAND, 450 Fairfax Street, Carlyle, Illinois.

**Wants Letter Used As Proof**

Frankford, Pennsylvania.—"I am sure if women who suffer through the Change of Life as I have, with hot flashes, nervousness and other weaknesses, would give Lydia E. Pinkham's Vegetable Compound a trial they would be benefited as I was. My nerves were so bad that every little noise made me jump, but now I am not bothered that way at all. My husband says he really hated to look at me I looked so miserable. I hope you will use this letter as proof of the help the Vegetable Compound is giving me."—Mrs. ABBIE HARVEY, 5701 Leonard St., Frankford, Pa.

**In a recent country-wide canvass**

of Lydia E. Pinkham's Vegetable Compound, over 100,000 replies were received and 98 out of every 100 reported they had been benefited by its use. For sale by druggists everywhere.

**September's Many Names**

September falls within the zodiacal sign of Libra, the balance, or scales. September gets its name from the Latin numeral septem, because the month was the seventh of the ancient Roman calendar, which had but ten months. In the days of Charlemagne the French called the season the harvest month. Among the early Saxons it was known as barley month. The American Indians called it "Moon of Falling Leaves."

**Abysinnian Alphabet Huge**

Abysinnia is a nation of more than 10,000,000 of whom a large percentage are illiterate, and it is a coincidence that the Abysinnian alphabet contains 236 letters. If an Abysinnian typewriter should be built on the same plan as the one used in America and European countries, it would have nearly 500 keys. Without any extra characters it would ordinarily have 472 keys, providing 944 letters, numerals and necessary characters.

**USE PEANUT BUTTER FOR DROP COOKIES**

**Are of Rich Flavor and Quite Economical.**

(Prepared by the United States Department of Agriculture.)

Cookies with chopped peanuts in them or on the top have long been favorites in many families. Cookies made by the following recipe have the same rich flavor and are economical because the peanut butter replaces eggs, milk and butter in the ordinary recipes for sugar cookies and are easy

Children Are Fond of Cookies.

to make because the peanuts are already ground. Children, particularly, will enjoy these cookies if given to them with milk or with a simple dessert.

- 1 cupful peanut butter
- 1 cupful sugar
- 2 tablespoonfuls lemon juice
- 2 cupfuls flour
- 1 teaspoonful salt
- 1 teaspoonful soda
- 1 cupful water

Rub together the peanut butter, sugar and lemon juice, and add the flour, in which has been sifted the salt and soda. Gradually stir in the water. Drop the mixture by spoonfuls on a greased tin and bake for about 20 minutes in a moderate oven. If desired, 2 teaspoonfuls of baking powder may be used instead of the lemon juice and soda. The recipe is furnished by the United States Department of Agriculture.

**Eggs in Tomato Cups**

When fresh tomatoes are in season an attractive way of serving eggs is to cook them in tomato cups, suggests the United States Department of Agriculture.

Select the desired number of good-sized tomatoes, allowing one to each person. Cut off the blossom end, scoop out the seeds and stand the tomatoes in a baking pan in the oven until they are partly cooked. Put a half-teaspoonful of butter and a dusting of salt and pepper into the bottom of each and break in one egg. Place in the oven until the eggs are "set" to the desired hardness. Have ready a round of toasted bread, well buttered, and place each tomato in the center of a round of toast. Serve hot.

**CURING GREEN AND RIPE MANGO MELONS**

**Fruits Respond Quite Readily to Action of Brine.**

(Prepared by the United States Department of Agriculture.)

Mango melons are known in different parts of the country by different names, such as garden lemons, vine peach and vegetable orange. When ripe, this vegetable very much resembles a small, spherical lemon. Both green and ripe mangoes can be cured by brining, says the United States Department of Agriculture. The green mangoes are commonly used for making "stuffed mangoes," while the ripe mangoes, after freshening, can be made into sweet preserves very similar to those made from watermelon rind.

To prepare mango melons for brining, cut off about a fifth of the melon from the stem end, remove the seeds and then replace the small end and fasten with wooden toothpicks. Sometimes this is done after brining, but it is best to do it beforehand.

It has been found that these fruits respond very readily to the action of brine. A 40 per cent brine, made by dissolving one pound of salt in nine pints of water, is the most satisfactory strength to use for mango melons. As the brine must be maintained at the same strength throughout the entire process of curing, and as juices which dilute the brine are drawn out of all products, it is necessary to add salt from time to time. A salinometer, which is a simple, inexpensive piece of apparatus, is the best means of determining when the brine is of the required strength. Its use is recommended wherever possible, especially if any quantity is being handled. Lacking a salinometer, a simple household test for a 40 per cent brine is to drop a fresh egg in it. The egg should barely float, being almost submerged.

A keg or stone jar is satisfactory for brining. Kegs must be well washed with hot water, and soaked overnight with fresh water to be sure they are watertight. Round board covers coated with hot paraffin are used to keep the vegetable submerged in the brine. Clean bricks are used as weights. Another large round wood cover over the top of each keg is necessary to keep out dirt and dust.

At frequent intervals it is necessary to remove, with a large wooden spoon, the scum which forms on the surface. This contains wild yeast, molds and various organisms. Covers and weights should be washed and the strength of the brine tested whenever the scum is being cared for.

**Cabbage-Leaf Roll**

Put cabbage leaves of suitable size into boiling water and let them stand until they are wilted. Mix the remaining ingredients (with the exception of the lemon) and form into rolls, each containing about one tablespoonful of the mixture. Wrap each roll in a cabbage leaf, after removing the thicker part of the stem in order to make it roll well. Pack these rolls closely into a baking dish and cover with water or stock. Bake for one-half hour. Just before serving squeeze the juice of the lemon over the rolls, says the United States Department of Agriculture.

Politically we are in a whirl of  
uncertainty. The straw votes only  
point in one direction, whether indi-  
cative of the final outcome no one  
can say.

Sectarianism must not be con-  
founded with Christianity. Many  
there are who are devout sectari-  
ans, but are very doubtful Chris-  
tians.

Marfa is now like many other  
towns passing through hard times—  
harder than in its history of forty  
years or more. A newspaper in the  
small towns is the first to feel the  
pressure, and no one cares a conti-  
nental damn how hard the wind  
blows against the neighbor's barn.  
And the little town paper writes

weekly the history of our lives, tells  
of those given in marriage, the  
birth of little ones and those leaving  
for their last resting places. But  
who cares for the chronicler?

The reason Salvation is not appre-  
ciated and sought after more is be-  
cause it is free and without price.  
Free and without charge the New  
Era publishes all church notices, do-  
ings of the different societies, food  
sales, cards of thanks, etc., and  
therefor its services are not ap-  
preciated by a number of people who  
should stop and think.

The Rotarians of Marfa did a noble  
thing this week, one which marks  
them with the true spirit of service.  
They made arrangements to give a  
boy a chance—one now at the turn-  
ing point on life's highway.

October, the most beautiful month  
of all the year,  
"When the saffras turns to crim-  
son,

And the maple to gold",  
has come, and now: "the first pro-  
phetic frosts are here, and the leaves  
are slipping to earth aglow with  
color, like airplanes shot down in  
flames. There are red moon-rises  
and dusk draws down softly from  
the chilly north. Yet the noons and  
early afternoons are warm and  
drowsy, full of quiet, far-off sounds.  
A mist folds about the hills. These  
are days for dreaming, for young-  
sters to catch a glimpse of what is  
to be, for oldsters to remember what  
has been." Then the writer ex-  
claims: "Who'd care to have June  
back again?"

A great number of the best friends  
of education in the state of Texas  
are wondering if feats of physical  
strength and skill will always con-  
tinue to draw larger crowds and ex-  
cite greater enthusiasm than effort  
of brain and intellect. Thoughtful  
people throughout the state are  
wondering if the athletic stadium,

## IMPORTANCE OF HOME TRAINING.

Another lesson is that of the ne-  
cessity for proper home training.  
says the Sierra Educational News in  
discussing the recent notorious mur-  
der trial in Chicago.

These boys, if testimony can be  
relied upon, came from homes where  
they have been spoiled and pamper-  
ed. They have had everything that  
money can buy. Every whim or  
desire has been gratified. They have  
had no home duties to perform, no  
desire has been gratified. They have  
never had to work or give value  
received for anything. And worse  
than all, so testimony indicates,  
there has been lack of compani-  
ship of parents with the boys, and  
of friendly counsel and judgment  
and advice on the part of older fam-  
ily members, and it is all too fre-  
quently found to be the case in fam-  
ilies of great wealth. It is sometimes  
better for a boy to be forced to  
make his way in the world through  
privation and hardship, than to in-  
herit wealth that others have earned.

A recent study by the Committee  
of Fifteen of the California High  
School Teachers' Association, points  
out that an alarmingly high per-  
centage of the time of high school  
students is spent away from the  
school and the home. Great re-  
sponsibility rests upon the school;  
but that institution cannot be held  
to answer for the acts and activi-  
ties of boys and girls when they are  
away from school. The home can  
not pass over these responsibilities  
into other hands. "It fares the child  
when the school leaves to the home  
what to home leaves to the school."

## QUALIFYING FOR OFFICE.

We know a very prominent citi-  
zen in a nearby county who desires  
to serve Texas as governor. He is  
capable, eminently capable. But he  
considers himself not qualified, and  
that he will remain unqualified until  
after the 1926 democratic primary,  
altho he is a democrat. He states  
that he will have to bolt the demo-  
cratic party two or three times be-  
fore he can be qualified as a demo-  
cratic nominee for the governorship.  
He will bolt it this year—and then,  
in 1926, he will bolt again, at which  
time his courage will be "screwed  
up" to the point where he can also  
say, "To Hell with the democratic  
party." This line of conduct on his  
part, he argues, will entitle him to  
enter the race in 1928—and win. As  
the late Mr. Pat Henry said, "We  
know of no way of judging the fu-  
ture by the past."

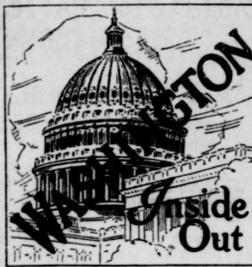

By that rule it appears certain  
that our friend of the neighboring  
county can become a formidable—  
and a winning—candidate for the  
governorship by 1928.—Exchange.

## A WEEKLY PANORAMA OF EVENTS IN THE NATION- AL CAPITAL.

(By Peter Keegan.)

Washington is baseball mad and  
will continue in that excited state  
until the world series is over. The  
welcome which was accorded the  
Griffmen when they returned to the  
Capital with the American league  
pennant was one of the most enthu-  
siastic that the capital has ever  
witnessed. President Coolidge, slow  
to become aroused over anything,  
was in the crowd that greeted the  
champions and is watching their  
progress through the series.

Senator LaFollette has embarked  
on the speaking tour that is expect-  
ed to take him all the way to the  
Pacific coast—if his health holds out,  
leaving Mr. Coolidge the lone can-  
didate in Washington. John Davis  
dropped in for a series of confer-  
ences with the leaders the other  
day en route to New York to open  
his campaign to capture the Empire  
State.

Most unprejudiced observers are  
still unwilling to make any flat fore-  
casts on the presidential election,  
still insisting that there is still time  
for anything to happen. Although  
both the Republican and Democratic  
chiefs remain supremely confident  
of success, there is a distinct under-  
current of feeling that an election  
right now would result in "no  
choice" and that congress would  
have to unscramble the situation  
developing in the LaFollette can-  
didacy.

The gubernatorial campaign in  
New York between Al Smith and  
Theodore Roosevelt II has appar-  
ently developed into a wet and dry  
fight, with the former assistant sec-  
retary of the navy urging more dras-  
tic prohibition laws than those now  
in force. National political leaders  
are watching the New York cam-  
paign closely and the outcome there  
will undoubtedly have considerable  
influence on the Davis-Coolidge fight  
there. The naval oil scandal is also  
being dragged into the limelight in  
New York as T. R. was Denby's  
right hand man during the Sinclair  
Tea Pot Dome negotiations.

Senator Brookheart's demand that  
Chairman Butler remove General  
Dawes from the Republican ticket  
is interpreted here merely as the  
first step in Brookheart's bolt from  
the Republican party to the LaFol-  
lette independents. The Iowa sen-  
ator was allied with the insurgent  
forces in the last congress and was  
generally expected to support La-  
Follette in the presidential cam-  
paign, although the announcement  
of his intentions have been some-  
what delayed. It is well known, of  
course, that a national chairman has  
no authority to change a presiden-  
tial ticket and would not if he  
could. Brookheart's assault on  
Dawes is looked upon as one of the  
strategic moves of the progressives  
and as having no significance out-  
side of that.

Charges that some sort of under-  
standing exists between LaFollette  
and Governor Bryan has aroused no  
end of speculation here. Failure of  
Bryan to venture far from his own  
home state thus far in the campaign  
is pointed to by Republicans and  
Democrats as indicating that he  
would not be displeased to see the  
election thrown into the House of  
Representatives, where he would  
have a clear chance to land in the  
White House. If such a situation  
exists, it indicates that the presi-  
dential campaign has developed into  
a regular free-for-all fight where

### "TEXAS RANGERS."

Austin, Texas, Oct. 4.—Living as a commissioned state ranger on the frontiers of Texas, Prof. W. P. Webb, adjunct professor of history at the University of Texas, has gathered data for the first complete history of the Texas ranger force. He has returned to the University to put the finishing touches on his work, a contract for which has been signed by an eastern publishing house.

On the Mexican border is to be found the true Texas ranger in all his original character and atmosphere, said Professor Webb.

"The Rio Grande is just as much the frontier today as were other sections of the state in Indian days," he explained. "The life of the rangers there along the border is as interesting as it was in the old days and almost as wild in a way. It is on the southern border that the ranger retains his original nature, now known to most persons only in fiction. He still is a frontiersman of the border."

"The Texas ranger force, organized in 1836, is the oldest state police force in the United States, ranking in length of service with the Canadian mounted police. I first became interested in writing the history of Texas rangers several years ago when an investigation of the ranger force was started. I found that no complete history of this romantic and courageous force of men had ever been written. As a final touch to the mass of material already collected, I went down to the border to live for a brief space the life of the ranger."

### Lives With Rangers.

The adjutant general's department arranged for Mr. Webb to live with the rangers on the trip, thus enabling him to gather at first hand new data.

Capt. R. W. Aldrich of the quartermaster's department, oldest ranger captain in point of continuous service, was detailed to make the trip with Mr. Webb. The journey was made in an automobile, the historian and the ranger captain leaving the capital city on August 5th. A distance of 2,500 miles was covered on the entire trip.

At San Antonio, on the way to the border, Ranger Arch Miller was picked up by the party.

"Arch," said Mr. Webb, "is truly a 47-inch cowboy of romping ways," as O. Henry has expressed it. He is a product of the Big Bend country, that section of Western Texas where the Rio Grande makes the big circle-like bend, and one of the wildest parts of the civilized world today. Arch Miller has been with the ranger force for five years. He knows every trail along the Rio Grande Big Bend section for 500 miles. He can point out the spot of every battle fought in this section for years back and his knowledge of the little incidents that make the history of the country complete like this and its people interesting, is complete.

### Goes to Laredo.

The party went to Laredo from San Antonio. From Laredo the ranger-historian journeyed to a point south of Miranda City where Capt. W. L. Wright's company of Texas rangers was met. Capt. Wright's company was camped on a ranch watching for bootleggers from Mexico, who cross the Rio Grande at this point going north, Mr. Webb said.

"Every ranger is mounted," said the historian. "They travel horseback all the time, carrying their provisions by packhorse. The bootleggers are usually mounted also, so that it is necessary for the rangers to be on horse in arresting them. Capt. Wright's company covers that section of the border from Brownsville to Laredo."

Journeying north from Laredo, the historian's party went next to Del Rio where Capt. J. B. Blackwell with five or six rangers patrol this section of the border for smugglers from Mexico. From Del Rio the party journeyed to Eagle Pass, thence to Marfa and on in to the Big Bend country, the real "wild and woolly west" for which Texas has become so famous. The rangers in this section were camped 90 miles from the nearest railroad, Mr. Webb said, and gasoline in the Big Bend country cost him 40 cents a gallon when he could get it at all.

"The Big Bend country," said Mr. Webb, "is too wild and desolate for the bootlegger, and the chief business for the rangers here is watching for cattle thieves."

This, Prof. Webb said, is the wildest section of Texas, as well as the most western—the section where the cow still reigns supreme despite the advance of civilization in the rest of the Lone Star State. The ranger camp in the Big Bend section was located at Glen Springs.

Capt. Jerry Gray's camp at Presidio was next visited.

"Capt. Gray," said Mr. Webb, "is

### PUBLIC SALE IN 1849.

W. L. Dowd, Dierks, Ark., sends The Farm News a copy of a printed notice of a public sale of personal property that took place seventy-six years ago. Old-timers will call to mind the days of their childhood when negroes were chattels and whisky and brandy were articles of common use in almost every household. Here is the notice:

### Public Sale.

Having sold my farm and am leaving for "Oregon Territory" by ox team, will offer on March 1st, 1849, all of my personal property, to-wit: All ox teams except two teams, Buck and Ben and Tom and Jerry; two milch cows, one gray mare and colt, one pair of oxen and yoke, one baby yoke, two ox carts, one iron plow with wood mole board, 800 feet of poplar weather boards, 1,500 ten-foot fence rails, one sixty-gallon soap kettle, eighty-five sugar troughs made of white ash timber, ten gallons of maple syrup, two spinning wheels, thirty pounds of mutton tallow, one large loom made by Jerry Wilson, 300 hoop poles, 100 split hoops, 100 empty barrels, one thirty-two-gallon barrel of Johnson-Miller whisky 7 years old, twenty gallons of apple grandy, one forty-gallon copper still, oak tap leather, one dozen reel hooks, two handle hooks, three scythes and cradles, one dozen wooden pitchforks, one-half interest in tan yard, one powder horn, rifle made by Ben Miller, fifty gallons of soft soap, hams, bacon and lard, forty gallons of sorghum molasses, six head of fox hounds, all soft-mouthed except one.

At the same time I will sell my six negro slaves—two men 35 and 50 years old, two boys, mulatto wench 40 and 30 years old. Will sell all together to same party as will not separate them.

Terms of sale, cash in hand, or note to draw 4 per cent interest with Bob McConnell as security.

My home is two miles south of Versailles, Ky., on McConn's ferry pike. Sale will begin at 8 a. m. Plenty to eat and drink.

J. L. MOSS.

known out in that section as the law under the rim rock. His was the last ranger camp to be visited before going to El Paso and back to Austin. Jerry Gray is captain over a company patrolling the whole district from Laredo northward. Presidio is right on the banks of the Rio Grande. At one time during the revolutions going on in Mexico in 1917 an army of 5000 men was driven across the border from the Mexican town opposite Presidio into this Texas border point."

The striking contrast between the Texas and Mexican sides of the Rio Grande was one of the most unusual things observed on the trip, Mr. Webb said. At Nueva Laredo, Mexico, the historian attempted to get some camera snapshots of Mexican scenes, but was prevented by the town authorities. It is said by the Mexicans that tourists only take views of the worst parts of their towns, hence they refuse to let them take any pictures at all when they are able to do so.

### RANCH WANTED.

\$75,000 worth of San Antonio income property, clear of debt, and some cash to exchange for a stocked cattle and sheep ranch in the Marfa section, preferably east of the railroad. Regu & Hildebrand, Brady Building, San Antonio, Texas.

### HAIL STORM.

Last Sunday night a severe hail storm visited Fort Davis, but fortunately most of the apple crop had been gathered, otherwise it would have proven very destructive to the orchards.

### NOTICE!

The Commissioners of Marfa, Texas, an incorporated town, will receive sealed proposals for the erection of a street bridge, until 4:00 p. m. of October 16, 1924, in the office of the City Clerk in the City Hall of Marfa, Texas, said bridge to be constructed of reinforced concrete in accordance with plans and specifications on file with the Clerk of Marfa in the City Hall.

A. M. AVANT,

City Clerk, Marfa, Texas.

### AUTO THIEF SAFELY JAILED.

Mr. Chavez of the Department of Justice, with a soilder who was charged with selling government property unlawfully, and John Buquor of the automobile recovery department of El Paso with Policarpio Rodriguez, alleged chief of the automobile theft ring of Ciudad Juarez, and Guadalupe Reyes, another alleged member of this ring, passed through Sierra Blanca Thursday. The phisoners were being brought from Marfa to El Paso. Sheriff Harry Moore, Immigration Officer Jack Thomas and Customs Officer Geo. G. Sloan met the officers and men at Marfa by request of Chief of Department of Justice Bennett. Breakfast was had in the Marfa jail, after which they were accompanied across Hudspeth county. At Harris Spur Messrs Chavez and Buquor went on to El Paso with their prisoners, in a big Stutz touring car, which had been stolen and was being returned. There were reports that an attempt would be made by friends of the prisoners to take them from the officers, but nothing came of the threatened rescue.—Mountain Eagle.

### FOOTBALL.

This afternoon at 3:30, the Marfa Hi football team will play the Fort Stockton Hi team at the ball park. Go out and root for the home team.

### RED CROSS ROLL CALL.

The Southwestern Division of the American Red Cross opened its series of regional conferences on Sept. 23, at Albuquerque, N. M., following this immediately with one in Canon City, Colo., on Sept. 29. These regional conferences are serving a two-fold purpose. They bring together the Red Cross Chapter Officials and delegates, whose work is related territorially, and questions of policy and Red Cross work in the various services are discussed. Second, it enables the chapters represented in the conference to unify their plans for roll call.

The eighth annual roll call for renewing membership and enrolling new members in the American Red Cross is scheduled to take place from Armistice Day, Nov. 11, to Thanksgiving Day, Nov. 27, and the campaign for the enrollment of members will be outlined at the conferences which will take place as follows: Houston, Texas, Oct. 16; San Antonio, Texas, Oct. 17; Okmulgee, Okla., Oct. 22; St. Louis, Mo., Oct. 24; Dallas, Texas, Oct. 28; Little Rock, Ark., Oct. 30; Aurora, Colo., Oct. 8; Joplin, Mo., Oct. 13; St. Joseph, Mo., Oct. 15; Pratt, Kans., Oct. 17; McPherson, Kans., Oct. 20, and Oklahoma City, Okla., Oct. 22.

At each conference the regional chairman will preside and will make the opening talk. Each regional chairman has taken a very active part in arranging the program. Either Wm. M. Baxter, Jr., Manager, or F. E. Burselson, Assistant Manager, of the Southwestern Division, will be present, representing the Division Office, at each of these conferences and will speak on the subject of the present status of Red Cross work and plans for the future.

At Albuquerque, where the conference was held on Sept. 23, Mrs. E. J. Strong, Regional Chairman, was the presiding officer. The speakers and their subjects were: Home Service Work in 1924, Rev. Edward S. Doan, Chapter Chairman, Las Cruces; The Need for Nursing Service in New Mexico and How This Need May be Met, Miss Matilda Harris, New Mexico State Board of Health; Financing a Chapter's Work, Harry Roseberry, Raton; The Red Cross Roll Call, Mrs. Hannah M. Goldstein, Executive Secretary, Silver City; Family Social Work, Miss Katherine Regan, Executive Secretary, Albuquerque; The Junior Red Cross, Miss Moseley Williams, Special Junior Representative in New Mexico; Life Saving, Mr. Marks, Y. M. C. A., Albuquerque. A luncheon for the delegates was held at the Franciscan Hotel and a business session followed the close of the afternoon program.

**Texas News**

An issue of \$20,000 Booker (Lipscomb County) independent school district bonds bearing 5 1/2 per cent and maturing serially has been approved by the attorney general's department.

Eureka, Smith County's newest addition to the ranks of rural consolidated schools, has opened in its newly built school house four miles west of Bullard.

Matagorda County's 25-year 6 per cent flood control bonds for \$685,000 have been sold for par and accrued interest and a premium of \$19,659.

Twenty-seven rural schools in Wood County, having the requisite 75-cent tax rate, expect to apply for state aid this term.

Ennis residents will ballot October 21 upon \$75,000 paving bond issue, according to a decision by the city commission.

According to law, old textbooks not in use are being destroyed in Brazoria County under the direction of Superintendent E. M. Glascock. More than 10,000 volumes are to be destroyed.

Extensive street improvements have been started by the city commission of Luling, more than \$15,000 having been set aside for this purpose. More than 30 blocks of street will be constructed as well as repairs made to streets already built.

By virtue of an increase in the state apportionment, by increased local taxes in the districts in the county, and by a continuance of liberal state aid, it is believed that all the rural schools in Van Zandt County will have a full-time term this year.

With a total of 9600 bales of cotton ginned by the five gins of San Benito and the cotton crop 98 per cent harvested, the full 10,000 bales that have been predicted for the city of San Benito will be reached before the final closing of the gins for the season.

The Victoria County commissioners court at a special meeting recently postponed the election called for Saturday, October 11, for the submission of a \$750,000 county road bond issue to await action of the legislature with respect to the road policy of the state.

Galveston County truck farmers shipped more than 125 carlots of truck to various parts of the United States the past fiscal year, and an additional 35,000 barrels, 15,000 crates and 25,000 packages by express, according to estimates by large wholesale produce and truck dealers around Hitchcock.

The first stucco school house in DeWitt County has been completed by the Hochheim Prairie District No. 22, without a bond issue. A school rally, with dinner and supper, two bales of cotton and various donations half paid out the new school building and a maintenance tax not to exceed 50 cents on the \$100 will provide such additional funds as are needed.

Washington County, located about 120 miles from the Gulf in the southeastern part of the state, was first organized in 1837, and is therefore one of the oldest settled counties in Texas. The county comprises an area of 392,000 acres of land, the surface of which is dominantly rolling and well drained, varying in elevation from 200 to 475 feet above sea level, is generally well watered and timbered with oak, ash, elm, pecan, etc.

The commissioners court of DeWitt County, in order to stimulate buying in various district bond issues, has entered an order in the minutes exempting local buyers who purchase them from paying taxes, and instructing the tax assessor not to assess them for taxes. Of the \$135,000 bond issue in the Cuero-Westhoff road district, 29 of the bonds, of \$1000 denomination each, have been sold to individual buyers of the county.

Brazoria County, aided by its geographical location, is rapidly becoming one of the most productive counties along the gulf coast of Texas. With Houston only thirteen miles from the county line on the north and Galveston twenty miles from the eastern border, this territory is very close to two of the best markets in the South. Besides the two ports mentioned above, Brazoria County has one deep-water port of her own at Freeport. Good hard surfaced roads are rapidly becoming a realization.

One of the most significant actions taken by Texas, since the inauguration of the state forestry work in 1915, was the purchase on Aug. 27 of the first Texas state forest, comprising 1700 acres and located four miles from Kirbyville in Newton County. With this purchase consummated, Texas at last joins a roster of twenty-four states having state forests varying in area from 588 acres for Virginia to approximately 2,000,000 acres for New York. For the past nine years the state forestry department has been obligated by law to make annual recommendations as to proper management and replacement methods.

Montgomery County is located in the third tier of counties from the gulf coast, and has excellent possibilities for agricultural and industrial pursuits. It is one of the oldest counties in the state, but in spite of this fact only about one-sixth of her area is improved for farming and stock raising, the principal industry being that of lumbering. The large saw milling interests manufacture millions of feet of lumber from the great pine forests within her borders each year. Conroe is the county seat.

### APPOINTED CHAIRMAN.

To the Editor of the Local Newspaper,

Marfa, Texas. I take pleasure in announcing that Mr. H. H. Kilpatrick has accepted the chairmanship of Presidio county in our campaign to raise \$250,000.00 in Texas for the Democratic National Committee.

You will greatly assist Mr. Kilpatrick and the Democratic cause if you will give prominent publicity to this announcement.

The Democratic party is on the eve of a great national victory if the fight can be carried into the doubtful states.

It takes money to do this! Texas is called upon to furnish her fair share. Every dollar contributed will go to the support of the National Campaign.

The value of the right sort of publicity in this campaign cannot be overestimated.

Do all you can to help us. Call on Mr. Kilpatrick frequently for publicity items, and help us to keep our cause prominently before the people of your county.

Assuring you of my appreciation of your co-operation, I remain, Very sincerely yours,

W. L. CLAYTON, Director of Finance for Texas, Democratic National Committee.

ROTARIANS GIVE FEED. The Rotarians entertained the football boys with a banquet at the Community House Tuesday evening.
