Trans-Pecos Institute

The Teachers' Institute was opened Monday by Superintendent J. H. Head, of Alpine and after singing, "My Country 'Tis of Thee," Rev. Leon Williams of the Christian Church delivered an impressive invocation.

Superintendent Head then made a short but practical talk on the importance of institute work in general, and outlining the duties and obligations of the teachers of the Trans-Pecos region its co-operation in this work. He deprecated the loss sustained by the action of the 40th Legislature and asked the teachers to help regain that loss thru proper amendments to the new law.

Rev. Leon Williams pastor of the Alpine Christian church, delivered a strong address stressing the teachers' opportunities for big service through personal contact with children. Rev. Williams showed such intimate knowledge of applied psychology that one is forced to believe he is a veteran school man himself. He is a forceful, convincing speaker and his address was instructive and inspiring to a marked degree.

Following this the various instructors were assigned to their separate sections and theatrical work of the week began.

The following is the program of the week as laid out:

ROTARIAN EXECUTIVE COMMITTEE MEETS NEAR ALPINE

A meeting of the 42nd district executive committee of Rotary International will be held at Alpine, at the Rancho Val de La Ciega, just south of Alpine, on Saturday and Sunday of this week.

Two of Marfa's Rotary club members are on the program, which speaks well for the talent in Marfa Rotary, as they are the only club in West Texas who have speakers on the program with the exception of the welcoming address of the president of the Alpine club. Mr. Henry Fletcher, former governor of this district, will speak on "Classification of Membership." Mr. Hunter Metcalfe, past president of the Marfa club, will speak on "World-Wide Rotary."

Something like fifty persons will enjoy the two days of entertainment at the "Dude Ranch" as the meeting place is called. Dances, barbecues and many other forms of entertainment will be supplied for those present.

ROTARY

In the absence of an assigned program, President Casner utilized the time by reading a letter from President Watson of the Alpine club with reference to the district conference to be held in Alpine September 9 and 10. The conference will be held at Pete Crawford's "Dude" ranch, on the old Haley place, which will be quite an outing and diversion for the many delegates who will attend from the fifteen clubs of the 42nd district. The program as arranged by our governor promises to be instructive, educational and socially enjoyable. Our entire club should arrange to attend all, or at least part of the conference. Two of our members, Hunter Metcalfe and Henry Fletcher, are on the program.

The following visitors were present as guests of "parson" Jones: Dr. N. L. Linebaugh, presiding elder of the Methodist church, and Rev. F. Foust of El Paso, and Rev. W. H. Strong, of Marathon.

OFF TO COLLEGE

The following people and the different institutions they expect to attend are leaving and have left Marfa for their respective schools:

Evelyn Raetzsch—to Westmoorland College, San Antonio.
Willie Jo Darracott, Candier Jones—to McMurray College, Abilene, Texas.
Marion Howard—to Shorter, Rome, Ga.
Eva Dowe—to Simmons, Abilene, Texas.
Harry Hubbard—to Wertz Preparatory School, Annapolis.
Annie and Clair McCracken—to Brenau, Gainesville, Georgia.
Hilda Marsh—to Baylor University, Waco, Texas.
Florence Wilson—to Westmoorland, San Antonio, Texas.
Trice and Truett Davis, Robert Humphris, W. C. Weatherford, Delbert Hurley—to A. & M. College Station, Texas.
Theodore Knight, Willie Harper to University of Texas, Austin, Texas.
Mary Fortner—to Sul Ross, Alpine, Texas.
Annabel Evans—to Business College, Globe, Arizona.
Nan Jones—to Athens College, Athens, Ala.
Weldon Howell—to Southern Methodist University, Dallas, Texas.

SUSTAINS BROKEN LEG

Duncan Kingston sustained a fractured leg at the Valentine Rodeo last week. It was reported here that he had roped a calf when he became entangled in the rope. In the melee his horse stepped on his leg, near one ankle. His home is near Toyahvale.

FEW MEN HAVE HAD SUCH POWER

Few men in America have ever acquired such political power as Wayne B. Wheeler did.

For a quarter of a century, he has made and unmade public officials thruout the country, has written and repealed laws, has dictated the policies of state and national administrations and has forced his program on both great parties.

It is not going too far to say that he and his organization put the 18th amendment in the constitution and wrote the Volstead Act.

Wheeler was an anomalous figure in politics, a type of boss with which the country was totally unfamiliar, and which most people were slow to recognize as genuine for the reason.

Even such a shrew observer as Mark Hanna failed to appraise Wheeler for what he was until the latter compelled him to do so.

"Young man," said Hanna, when Wheeler called on him some 30 years ago, "Your kind of people are all right at a prayer meeting, but they are no good at a caucus."—El Paso Post

THE SIMPLE LIFE

Not only the reformers, so called, but the business organizations are becoming more and more imperative in their demands that the young people who expect to hold good positions take care of their health, by correct habits of living. The necessity of a sound mind in a sound body is greater today than ever before for the reason that more is demanded of men than ever before.

The railroad companies are demanding temperate living on the part of their employees, and the public looks with disfavor on the individual who disregards the laws of health. Temperance in these days does not apply to the use of alcohol alone, but to the habits in general. Just recently we were told of two applicants for degrees in the greatest school of auctioneering in the world, being turned down because the habit of smoking cigarettes had so impaired their voices that it would be impossible for them to recover enough to fill the demands of that profession. No goody-goody about that its just a matter of cold facts.

W. C. DAUGHERTY DIES IN VAN HORN CONFEDERATE SOLDIER

W. C. (Uncle Bill) Daugherty, a Daugherty Postoffice, died in Van Horn at 10 o'clock Tuesday morning.

Mr. Daugherty was one of a few Confederate Soldiers yet living in this part of the State. He was 85 years old at the time of his death and came west when the warlike Apache roamed through the mountains where prosperous towns have since sprung up. He was born at Van Buren, Ark.

Uncle Bill was Sheriff of Frio County for twelve years, a Texas Ranger for years and Postmaster at Daugherty in his later years.

He was married to Julia Ann Oden in 1866 and she died in 1886. He is survived by one son, George Daugherty, and one daughter, Mrs. R. L. Daugherty, of Van Horn.

The body was laid to rest in the Van Horn Cemetery. Sierra Blanca Mountain Eagle

MINES STUDENTS ON GEOLOGY TRIP

Four seniors of the College of Mines will leave at 11: p. m. today for Shafter, Texas, where they will take field work in geology at the Presidio mines for a month.

Prof. H. E. Quinn, head of the geology department, has charge of the students, who are taking their field geology course.

They work eight hours a day. The class will return on September 22. VanDyne Howbert, Manager of the mines, the largest in Texas, invited the geology class to do its summer work at the mines.

Men making the trip are Thos. W. Masterson, Robt. Seale, Claud Boykin and Fred Brooks.

Brooks spent the summer in the engineering department of the ship yards at Corpus Christi.

Masterson transferred from Texas University at Austin. He is specializing in Geology.

Seale and Boykin spent the summer working in mines at Tiger, Colorado.

MIRACULOUS ESCAPE IN CAR CRASH

Two Alpine men, Anja Wilson and Edgar Martin, had a miraculous escape from serious injuries early Monday morning when the car in which they were riding went over a 25-foot bluff into a rocky canyon about 17 miles this side of Sanderson.

According to Wilson they were riding along at a moderate clip of about 25 or 30 miles an hour when they came to a curve in the road. In attempting to take the curve, however, the steering apparatus failed to function with the result that the car went over the bluff before Wilson, who was driving, knew what was transpiring. That neither of the occupants of the car was killed or badly injured is nothing short of miraculous, he feels.

The two men were enroute to Del Rio when the accident occurred, having left Alpine about 4 o'clock that morning. It was just about day-light when the car crashed, according to Mr. Wilson. The car was brought almost to a complete stop before going over the bluff. Wilson stated, but turned a complete somersault in the air before striking the bottom of the rocky canyon.

BUICK for 1928

When Buick improves upon Buick—the standard for the year is set

Buick for 1928 introduces a higher standard of beauty and luxury than the world has ever known. Buick interiors are as modish as exquisite drawing-rooms—as harmoniously colored—and as comfortable. Buick's new Fisher bodies are low-slung without any loss of head-room or road-clearance.

And so, down to the smallest detail of construction, wherever refinements could be made, Buick has made them. Again Buick has improved upon Buick. Again the standard for the year is set.

Milk Gives Most Food Value At Least Cost

H. C. Hook

Milk gives more food value for less cost than any other food known to man, according to Herbert C. Hook, secretary of the Evaporated Milk Association.

"Dietitians are unanimous in advocating the use of milk by men, women and children," said Mr. Hook. "Milk and evaporated milk supply some of all the materials necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth."

"Milk helps repair the wear and tear of the body. It is a good meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as seven ounces of sirloin steak or four large eggs. Milk, particularly evaporated milk, which has twice the mineral content of market milk, is one of the best and cheapest sources of lime, which is a form of calcium. Infants and growing children need lime to build bones and teeth. It is just as necessary for adults to keep their bones in good condition. One quart of milk, or one pint of evaporated milk, furnishes as much calcium as ten large oranges, thirty-two eggs or twenty pounds of beef. Milk also is a valuable source of phosphorus and supplies a certain amount of iron."

"By some authorities milk is said to be an aid in longevity. Dr. Herman Bundesen, health commissioner for Chicago, gives his prescription for long life as follows: Drink one quart of milk a day and mix with one hour of sunshine. Repeat ad infinitum."

"Due to the efforts of health officials to get across to the public the message of milk, its general use in the United States has advanced tremendously in the last decade. This is especially true of evaporated milk—for reasons of its convenience and economy. Housewives know there is no fear of obtaining contaminated evaporated milk, because it is not only the best grade of market milk rendered double-rich by dehydrating, but it is sterilized as well."

Happy Wedlock Sure Thing If Bride Is Cook

By KATHRYN ST. JOHN

Haphazard meals yearly ruin thousands of marriages. Most marital ships would maintain an even keel if brides knew cooking.

Many of the first year's troubles between newlyweds would be avoided if the wife were capable of preparing foods with an experienced hand. Wives are to blame for the failure of many business men in the final analysis. The business man's health depends a great deal on what he eats. And it's up to his wife to see that he gets the right kind of food. A healthfully balanced diet goes a long way toward making the tired business man less fatigued.

The expert home manager sees to it that her husband never comes home to a delicatessen lunch. There is a carefully planned meal waiting for him. The real housewife knows that an unbalanced diet means trouble and avoids it. Likewise, she appreciates the fact that variation in her menus is important. In this connection the following recipes have been selected as an aid to the home manager:

Frozen Salad.

1/2 cup mayonnaise 1/2 cup candied dressing cherries
1/2 cup diced pine- 1/2 cup diced apple bananas
4 tbsp. pineapple 2 tbsp. lemon juice
Juice 1/2 cup evaporated milk
1/2 cup cream
Mix the fruit and juices. Combine milk and cream, chill and whip; then fold in the fruit and mayonnaise. Pour into a mold and pack in equal parts of salt and ice. Serve on lettuce leaves. This serves eight.

Orange Bavarian.

1 tbsp. gelatin 2-3 cup evaporated milk
1/2 cup cold water 1-3 cup whipping cream
1 cup orange juice 1-3 cup whipping cream
1/2 tsp. salt 1/2 cup sugar
Soak gelatin in cold water, add fruit juices, sugar and salt. Heat in the top of a double boiler until gelatin dissolves. Strain and set in pan of cold water. When mixture begins to set, fold in the evaporated milk and cream which have been beaten stiff.

Banana Ice Cream.

6 very ripe bananas 1 cups evaporated milk
1/2 cup lemon juice 2 cups cream
1/2 cups sugar 1/2 tsp. salt
Scrape off adhering fibrous portion on surface of peeled bananas. Mash and rub through a sieve. Add the rest of the ingredients in the order given and stir until all are well blended. Let stand for 20 minutes so that all sugar may dissolve. Freeze in a 6 salt-ice mixture. This recipe makes 1/2 gallon cream.

A FAREWELL PARTY FOR THE CLASS OF 1927

Mr. and Mrs. O. L. Shipman entertained Monday evening in honor of the Graduating Class of 1927 of the Marfa High school, before their departure for college. The guest having all arrived, a trip to the Opera House was the first form of entertainment. Manager Raetzsch had reserved seats for the party and a good show was on, a Paramount with Conway Tearle and Alice Joyce as the lead, and with the usually attractive music, this feature was a most enjoyable success. Upon returning to the Shipman's games and dancing was enjoyed until a late hour when dainty refreshments were served, that consisted of an ice course. The departing guests, the class of 1927 felt greatly indebted to their gracious host and hostess for the very pleasant evening.

PIONEER WOMEN VISITING IN MARFA

Mrs. R. R. Russell of San Antonio and Mrs. B. A. Borroum of Del Rio, two the State's most outstanding women leaders are visiting Marfa. Mrs. Russell, president of the Old Trail Driver's Memorial Association, is here in the interest of that organization. Mrs. Borroum is the guest of her daughter, Mrs. H. M. Fennell. Both Mrs. Russell and Mrs. Borroum are daughters and wives of pioneers builders of Texas—men who went up the trail with their herds for years, from the "Pecos to the Platte" before there were any markets or railroads in Texas, when savagry and wild animals abounded and cutthroats and desperados flourished; men who fought and conquered these conditions and blazed the way for future generations, assisted by women whose courage matched their own.

Mrs. Fennell will entertain in honor of her mother, Mrs. Borroum, and Mrs. Russell. Many other courtesies are being planned for the distinguished visitors.

GRADUATES OF CLASS OF 1927 ENTERTAINED

One of the prettiest and most enjoyable social courtesies of the young set took place Tuesday evening, when Miss Hazel Williams entertained a group of sweet girl graduates of the class of 1927 also honoring the senior class who will enter their school term Monday. The beautiful Williams home was brightly lighted and decorated for the occasion. The parlor and dining room thrown en suite were attractive with flowers carrying out the colors of purple and gold. Popular games and dancing were the pastime of the evening. Ice cream and cake was served to 22 girls, who said "we have had the school bells and society bells and now we are to hear the college bells for four long years ere the wedding bells, will even dare to ring."

CHRISTIAN CHURCH

This Slogan Will Win.

ONE HOPE:—The Christianization of the World;
ONE AIM:—Christian Unity, the Paramount Pre-requisite to Christianization;
ONE METHOD:—The Bible Its own

Interpreter;
ONE THEME:—The Self-Will, In All Things, Subordinated to the Christ-Will.

Jesus, The Christ, prayed for Unity; Jesus and the Holy Spirit gave us Unity, the apostles toiled, pleaded and sacrificed for Unity, the vain wisdom of men brought division. Why should a broken world that recognizes the evils of the lack of Unity stand idly by and seek no method of restoration of Christ's bountiful gift?

An outstanding Baptist minister has this to say on the situation: "Men still worship everywhere the creatures of their own imaginations—But the devil, defeated in his character of roaring lion by the Lamb of God, Who, on the cross spoiled Principalities and Powers, triumphing over them in it (Col 2:15), has transformed himself under the guise of "An Angel of light" and his ministers under that of "Ministers of Righteousness" (2 Cor 11: 14, 15). And thus we have an immense variety of religions in any one of which an unpardoned and unreconciled sinner, who is an enemy of God and a rejecter of Christ, may both enjoy religious satisfaction to his heart's content and according to his own preferences, and may also secure the worldly advantages that accrue to those who live religiously, who are members of some religious denomination known and respected by the world."

Any one can look about him and know that this great man has spoken the truth. And the cause back of it all is division. No wonder Jesus prayed that we might all be one that the world might know that HE was sent by the Father. Christian friend, are you doing your part to help Jesus realize the answer to His prayer?

The Leadership Training is just beginning and is open to all, in the Church or out. This course will be taken each Wednesday evening unless change should be made later and will last throughout the year. It is hoped that a large number will take advantage of this very strong course and that the end of the year there will be a large graduating class. The church hopes to have a Bible graduating exercise.

There are four classes of individuals who ought to take it all young people, all Sunday School Teachers and officers and church leaders and workers, all parents who wish to give their children a through Bible training, and all who should use their every day opportunities in obedience to Christ's command to teach the World to every creature. It is the Standard Bible Course A Cardinal Investiture to all.

STUDEBAKER

The Commander \$1495
One owner says: "If The Commander had claws it could climb trees"

The Commander offers a new type of performance. It cannot be described in 1500 words, but 15 minutes on the road will convince you that The Commander is the "greatest post-war achievement of automotive engineering."

The Commander is the only enclosed car that ever traveled 5000 miles in less than 5000 minutes. It is the same powerful motor that established an average of 17 1/4 miles to the gallon in 61 nation-wide gasoline tests.

Equalled in rated horsepower by only 7 American cars which cost from \$4000 to \$10,000, The Commander is unequalled in value at its new One-Profit price of \$1495.

More than \$100 in extra equipment, including front and rear bumpers, shock absorbers, etc.

Take the wheel of a Commander—let the car itself convince you as it has thousands of others.

AFTERNOON TEA OF CHARMING APPOINTMENTS

Of all the beautiful hospitalities that have lent brilliance to Marfa's society in recent seasons' none have surpassed the exquisite appointments and beauty of environment the tea given Tuesday afternoon from 4 to 6 when Mrs. Herschel Hord threw open her lovely residence entertaining in honor of her sister Miss Francis Mitchell and Cousin Miss Laura Mitchell of Marfa and Mrs. G. B. Hudson of Fort Meyers, Va., gracing the calendar as the outstanding event of the year as an affair of wide social interest, the guest list included over a hundred. Out of town visitors were: Mrs. R. B. Russell and Miss Ophelia Strickland of San Antonio; Mrs. E. B. Spiller, Fort Worth Miss; Mach emehl, Beeville; Mrs. C. H. Burnett, Mrs. C. H. Frazier and Miss Frances Frazier of Dallas.

The beautiful home afforded a very lovely setting for the occasion, embowered in a wealth of blossoms in all the varied and glowing hues of early Fall, presenting a floral symphony of grace and beauty that blended artistically with the tones prevailing in the decorations through the charming reception suit. Mrs. Hord was assisted in receiving the guests by Miss Francis Mitchell, Miss Laura Mitchell, and Mrs. H. B. Hudson, the honorees. Assisting in entertaining and dispensing hospitality were Misses Lolla Bunton, Eleanor Shapleigh, Nan Jones, Elizabeth Fennell, Helen Joyce and Mrs. Pete Starnes. Presiding at the tea table were: Mesdames, H. B. Davis, Clay Mitchell, Frank Barton, and F. L. Anderson. Assisting in the dining room were: Mesdames, Henry Coffield, Floyd Mitchell, Orr Kerr, A. J. Mrs. Hans Briam of Marfa, accompanied by Mrs. Fred J. Nagel and daughter, Miss Lillian, of San Antonio, motored over Sunday from Marfa for a visit with Mrs. Mmes. Briam and Nagel's sister, Mrs. H. L. Winfield. Mrs. Briam returned to Marfa Sunday evening, but Mrs. Nagel and daughter Miss Lorene Nagel, who had been spending several weeks with Mrs. Winfield, left last Saturday for her home in San Antonio.

MARFA GOLFERS SCORES

J. E. Yates, local manager of Watson-Anderson Grocery Company has placed himself in THE HOLE-IN-One Club, by his feat on the local Golf Links Friday afternoon by driving to hole Number One in one stroke a distance of 212 yards and sinking his ball into the cup.

Since the opening of the local links no player has qualified for this exclusive organization. Yates is a left handed player and explains his drive by the use of his "strong left arm." The drive was made during his participation in a foursome entered by Mannie Howard, Henry Coffield, John McDonald and Yates. The Score was properly certified and is on file with the Secretary of the Local Club. The excitement was near too much for Yates and several moments were required for him to recover his composure and continued the remaining holes of the course.

STATE HAS BIG CASH BALANCE

Fiscal Year Ends With Texas Having Largest Amount of Cash on Hand in Decade

AUSTIN, Aug. 31.—The State finished the fiscal year at 5 o'clock Wednesday afternoon with a cash balance of \$3,592,087.28 in the general revenue fund and a total of \$13,790,723.49 on deposit in banks of the State, the largest amount of cash the State has had on hand in a decade.

The general revenue balance will leave an estimated net of \$2,000,000 in the treasury after outstanding warrants of about \$1,500,000 are paid. This balance is \$1,500,000 more than the State Automatic Tax Board figured on when it set the year's Tax rate State and valorem tax rate at 25 cents on the \$100.00.

The total amount of State funds on deposit is nearly \$3,000,000 more than was left to the credit of all funds at the end of the last fiscal year ending August 31, 1926. The nearest approach to this year's final total cash figures was in 1920, when the total ran slightly more than \$13,377,000.

Mr. O. L. Nicolls of Marathon, returned from El Paso Saturday, where he took his little grandson, Dick Swain, for medical attention.

OWN YOUR OWN HOME

Old World Charm Meets New World Conveniences

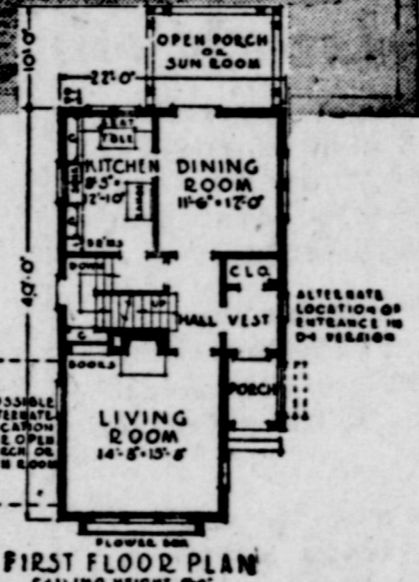

PLACING your house according to your lot is the privilege of the person who builds this practical dwelling of the English farm house type. The entrance is so arranged that the house may either be placed lengthwise for a thirty-foot city lot or crosswise for a 60 or 75 foot lot.

SECOND FLOOR PLAN

This small home so light and spacious, yet compact and adapted to doing without a servant, is a typical 1926 product. The poky, dark houses of fifteen or even ten years ago with their fussy little hallways and poor planning would be scorned by the modern housewife who has learned to expect comfort built right into her home and to have everything planned for her convenience in working. Cold, draughty houses are also out of date. All well built houses, are insulated as this one is, with celotex sheathing on the exterior walls under the stucco. This effects a great saving in fuel in the winter and resists the intense heat of the sun in summer.

© Celotex Insulate, Chicago, 1926.

FIRST FLOOR PLAN

The pleasing features of the living room include its windows on three sides, open fireplace and built-in book shelves. The open porch or sunroom may open off from either the living or dining room. The kitchen has all the details that delight the housewife—cupboards, broom closet, breakfast nook and double windows over the sink.

The three bedrooms all have double exposures and are well provided with clothes and linen closets. The bathroom is so placed as to be equally accessible from each bedroom. The attic is ventilated and makes a serviceable storage or playroom by sheathing the rafters and sides with celotex, which serves both as a wall-board and insulating material.

Just Tottering, So Weak

"I was in a bad state of health and was going through a critical time of my life," says Mrs. Ella Scarborough, R. F. D. 5, Dothan, Ala. "Several different things were recommended to me, but I did not get any real relief until I began to take Cardui.

"I was just as weak as could be. My legs were shaky, and often I would just totter around the house. I finally got so bad that I was in bed several weeks.

"It was then that I began to take Cardui. I kept it up for quite a while, and at last I regained my health. Cardui was certainly a friend to me in time of need.

"My health is splendid now, and I seldom have to use medicine, but I gladly say a word about Cardui whenever I find a friend going through the same suffering which I endured."

MAKES NEW OCEAN TO OCEAN ROAD RECORD

San Francisco, Cal., Sept. 8.—(SP)—A Studebaker Commander Sedan, driven by Ab Jenkins, has established a new ocean-to-ocean road record by traveling from coast to coast in 77 hours and 40 minutes, total elapsed time. In making his record, Jenkins cut two hours and 15 minutes from the best previous time from tide water to tide water, made by an open car driven by L. B. Miller.

After a few hours rest, Jenkins recounted a number of interesting sidelights on his record trip. The run, he said, was made as a matter of pride. Although not a racing driver (Jenkins is a Salt Lake City building contractor) he was the first to beat the fastest transcontinental trains from New York to San Francisco by driving his Studebaker Sheriff across the continent in 86 hours and 20 minutes last June. Since that time, other drivers have lowered his time to 83 hours and 12 minutes and then to 79 hours and 55 minutes.

So Jenkins, who had traded his Sheriff for a Commander Sedan, started for New York City with more than 32,000 miles on his speedometer to try and lower, in an enclosed car, transcontinental records which had previously been set by open cars. At 8 o'clock, Eastern Standard Time, August 30, he was checked out of New York City at the Tottenville Ferry by P. S. O'Neill, district commercial agent of the Western Union Telegraph Company; A. H. Means, American Automobile Association and Col. James Justice, commanding officer of Miller Field, Staten Island.

Shortly after entering New Jersey the first of many time-robbing delays was encountered. A heavy fog hung over the road, making speed possible for only short intervals. This fog continued to cut down Jenkins' time as far west as the Ohio State boundary, where it dissolved with day light. Blocked railroad crossings and long detours stole more precious minutes and when the Commander and its intrepid driver arrived at Logansport, Ind., they were two hrs., behind their self-imposed schedule.

From Logansport, more time was lost through tire trouble and by the time The Commander pulled up in

Cheyenne, Wyoming, it was more than three hours behind its schedule. From Cheyenne west, however, Jenkins managed to regain some of his lost time, until at Reno, Nev., he had a fighting chance of achieving his goal—a new record with an enclosed car.

The time called for between Reno and San Francisco Bay on Jenkins' schedule was 8 hours. By maintaining a high average speed—reaching 85 miles an hour in some of the open stretches—Jenkins lowered that time, however, and was checked by Western Union officials at the Carquinez bridge on San Francisco Bay at 10:40 p. m. Pacific Time, Friday.

Jenkins' appearance upon completing his run was suggestive more of the business man dressed for the office than a transcontinental record breaker. Except for a profuse growth of whiskers, he might have been easily mistaken for any one of the crowd that watched the details of attesting his achievement. His sole "driving equipment" of a pair of amber tinted glasses.

Jenkins diet on his flying trip consisted of chicken sandwiches, munched while his faithful mount was being refueled and scalding black coffee taken at intervals to drive the drowsiness inevitable after long hours without rest.

His companions on the trip were guides taken on at various points across the country to point out detours and aid him in skirting the larger cities.

According to his guides Jenkins drive through every city enroute with full deference to local traffic rules. Even at night, it was stated, The Commander was held down to low speeds thru suburban sections and came to a full stop at every traffic light and "stop street."

Last year, when Jenkins broke the existing transcontinental record and lowered the time of the fastest transcontinental trains, his chief obstacle was rain. This year, just before leaving New York, one of his well-wishers handed him a horseshoe "guaranteed rain proof." And, curiously enough, the rain held off, all the way across the country. But the mystic powers of this talisman did not have much effect on fog, punctured tires and blocked roadways, apparently, for the

CAVALRY MANEUVERS NOW ARE CERTAIN

That the Maneuvers of the First Cavalry Division will take place near Marfa in September is an assured fact now, according to dispatches in the Sunday San Antonio Express.

The paper carried a Marfa dispatch to the effect that Cavalry officer had been sent from Fort Bliss, Division headquarters and that he had reported there was enough water now available, following recent rains, to enable the holding of the Maneuvers near Marfa.

A second article, from San Antonio, reported that sixty men of the Field Artillery will arrive in Fort Clark before September 1st, and they will act as proerty guards at this station during the absence of the Fifth Cavalry.

According to schedule, the Fort Clark troops, consisting of First Cavalry Brigade Headquarters troop under command of General LeRoy Ellinge, the Fifth Cavalry under Col. Seales, and the First Machine Gun Squadron under Maj. Williams will leave here Sunday, September 4th, and return October 14th, being away from here for a period of six weeks.

Besides the detachment of 60 field artillerymen who will be here guarding the property there will be several cavalrymen left behind in charge of quarters, in addition to regular station men, such as Q. M. etc., in all being about a hundred men here.

FIVE RING CIRCUS POSITIVELY COMING

Ringling Bros. and Barnum & Bailey To Bring Sacred White Elephant. And Other Big Features

Yep, Youngsters, it's really true!

Meaning that a rumor heard some time ago is now confirmed by the official announcement that the Ringling Bros. & Barnum & Bailey Combined Shows will positively exhibit at El Paso, Texas, Monday Sept. 19th.

At that time the world's first and only five-ring Circus will be within easy reach of local sawdust fans. With it will come the only genuine white Elephant ever brought to America. He is "Pawah," the world-famed sacred white pachyderm from Burma, who will be the foremost feature of a menagerie composed of more than a thousand animals.

The big show is now a third larger than it was when it last visited this locality. Enormous new displays have been introduced such as ninety zebras, camels and horses performing at one time on a Mammoth pedestal. On a similar series of circular Raised Platforms thirty

two of the Show's forty-three elephants dance, run and perform in unison with the topmost of the ponderous actors forty feet above the ground.

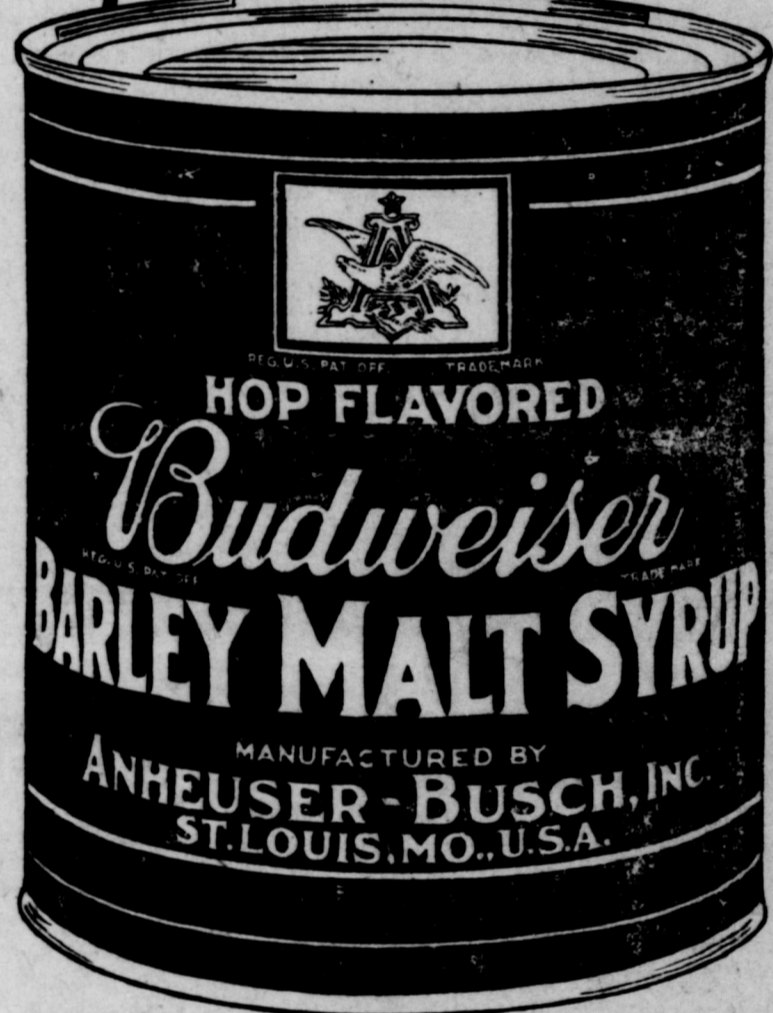

Prior to this gigantic display 5 herds of Elephants appear in the 5 separate Rings. At another time the rings are given over to five companies of liberty horses. At still another juncture of the program two hundred of the Show's 900 horses, each ridden by an expert, are seen in the brilliant maneuvers.

Of the sixteen hundred people carried on tour this season more than eight hundred are the world's foremost aerialists, bareback riders, ground and lofty gymnasts.

These are now seen in extensive high wire artists and super-athletic

And troupes each display led by its particular Champion, a new Method of Presentation that is in keeping with the Ringling Bros. & Barnum & Bailey 1927 plan of extending acts in equal number over the entire length of the Mammoth Main tent.

Little folks will be delighted to learn that the bringing of a score of European Clowns to America has increased the funmakers to more than a hundred CLOWNS.
