Eggs a Fine Food But It Is Best Not To Eat Too Many

BY DR. HUGH S. C"MING. Surgeon General, United States Publie Health Service.

Those of you who have had expetience with sickness probably know that chicken forms one of the early items in the menu of the convales-

There is a reason for this. great portion of the chicken is ac tually digested and taken up as food by the cells of the body. Further more, chicken is easily digested.

For those who have a delicate digestion or an appetite that needs encouraging, a young pigeon or a squab may be prescribed as a delicacy.

Middishade

Squab is, of course, expensive, but poached, boiled for a long time, soft is certainly easy to eat and is as boiled, or scrambled, they are, it would appear, completely digested.

easily assimilated. You should know that adult pigin milkshakes and liquid diets, ar ons which have been well fattened, and have not been allowed to fly, ere almost as palatable as squab and usually can be purchased for much ess than squab.

Eggs are probably the most generally used food of animal origin. It is estimated that eggs furnish nearly 6 per cent of man's protein, and the are least 3 per cent of his daily ra-

Eggs are less liable to convey disease or contain harmful properties than any other animal food. Furthermore, there is no infection known at the present time that can be transmitted from the hen to man

through the egg. Of course, this does not mean that bacteria may not be transferred to an sg. A dirty eggshell may contamirate an egg, and stale eggs may cause serious trouble, from poisonus products like ptomaine. Says Eggs Are

oncentrated Food. You should know that eggs are concentrated food; that the average egg contains about 32 calories of proein and 68 calories of fuel and other

This Theatre is always kept at a comfortable temperature.

S UCCESS in public service depends upon public opinion.
Public Service — heat, power and light, etc. — is a part of the prosperity of a community. Public Service vitally con-

personal co-operation and consideration for those who serve us. Maintain an unfriendly attitude toward public service, and you injure every individual in your community, you hamper development, you

doing the right thing than are its critics.

The successful manager of an electric light and power company knows positively that the public's best interest is paramount. One of the greatest contemporary writers in the United States says: "I do not know a class of business men who are trying harder and who are succeeding more in their efforts to build up towns and cities, local interests and industries, than those of the public service companies. They are co-operating with the cities all over the country to create more industry. They are helping in every way possible to build better and bigger business in the towns where they are located."

West Texas Electric Co.

Public Service and Public Opinion

cerns every person and every industry in the city, or in the town, where it is located. Public Service is, in fact, personal service. We all know that the quality of personal service which we receive depends largely upon the degree of our

Unfriendliness toward public service is in reality unfriendliness toward the public itself. Constant criticism — without understanding; knocking - without investigation - all tends to react against

Public Service is not defending itself. It needs no defense. It is patent that public service, by its very nature, is more interested in

Public Service and Public Opinion are interdependent.

Your Electric Servant.
