ELECTRA C. OF C. MANAGER GOING TO SECRETARY SCHOOL

WILL TAKE COURSE OF INSTRUCTION AT EVANSTON, ILLINOIS.

BANKS CHANGE HOURS OPEN HEREAFTER AT 9

Italian Resident Going to Visit Native Land; Woman Hurt in Auto Accident.

ELECTRA TEXAS, July 28.—Manager Byron T. Johnson of the local chamber of commerce and agriculture will attend the national school for commercial secretaries at Northwestern University, Evanston, Ill. It will be conducted from August 1 to September 1, and is conducted by the national organization of commercial secretaries in cooperation with the United States Chamber of Commerce.

Concerts by the local band at Douglas Park every Friday night are proving very popular. It is estimated that 2,000 people heard the concert last night. The municipal auditorium is filled to capacity every day. Beginning next week Tuesday will be reserved at the post for women.

Change Banking Hours Beginning Monday, the three local banks will observe hours from 9 to 4 o'clock. They now open for business at 10 o'clock and close at 4. However, it has been found inexpedient to have everything closed under the present conditions. At the recent call the Electra banks had on deposit more than two million dollars, an increase of \$50,000 over the April figures.

Have Rumors Left This Week to Visit his old home in Italy. Nineteen years ago he left his native country, and he has not been back since that time, although his father still lives there. Rumors have been very prevalent in business circles here, and a considerable property. He expects to be gone three months.

Injured in Accident. Mrs. L. A. Knack, who lives on the 15th street, was painfully injured this week when the automobile in which she was riding collided with a car. The woman was returned to Electra for emergency treatment and later transferred to the hospital.

Radium is Restoring Health to Thousands

The wonderful curative power of radium has been known for years. However, the benefits of this precious health-giving substance have been known only within the past few years. Radium is used in the treatment of cancer, and it is also used in the treatment of other diseases. It is a powerful agent, and it is used in the treatment of many different conditions. It is a powerful agent, and it is used in the treatment of many different conditions. It is a powerful agent, and it is used in the treatment of many different conditions.

WICHITA YOUTH IS SUCCESSFUL AS PHOTOPLAY AUTHOR

Photo by Nossett.

Callie D. Conant, a production of the Famous Paramount Players, was screened at the Olympic theater a little over a month ago, few people in Wichita Falls were aware of the fact that the author of the play was a Wichita Falls resident.

Callie D. Conant, who has lived in this city for the past three years, wrote and sold this play to the Olympic theater in California. He has put his spare time to good advantage by taking a Palmer course in scenario writing, and "Nobody's Money," which sold for \$100, was his first play to sell.

He has recently refused \$1,000 for another picture, which is in the hands of a Hollywood agency. He plans to get a better price for it. As soon as this play is disposed of, Conant expects to return to California, where he plans to spend some time in the Hollywood studios, studying scenario writing from the producers.

This young man, though modest, is deeply and seriously interested in the work he is undertaking and has very well defined plans for the future in this regard.

Methods of Admission to Junior College and Courses of Study Are Announced By the Superintendent

According to a report from the office of Dr. J. W. Cantwell, superintendent of schools in this city, the Wichita Falls Junior College will fill all the requirements of a standard junior college, under the state department of education and the association of Texas colleges.

Several things must be done by the college to fill these requirements. There must be five departments, with two years work each. These consist of English, history, mathematics, education, with a selection of either one foreign language or two years in science.

There must be a professor in charge of each department, who has a Master's degree or who is making a Master's degree or who is making an active progress toward obtaining the degree. Other minor details such as the requirements for the library, the laboratories, the requirements to take care of the ever-widening condition of classes, and to keep one teacher from having to teach too many classes, are also included in the rules set down by the federated colleges.

Admission to the college must be by graduation, in which the student must have at least fifteen accredited subjects, three in English, two in history and civics, two in algebra, one in plane geometry and two in foreign languages; or by an examination on these subjects. The junior college is a unit of the public school of Wichita Falls, and being under the department of education, a student may enter any college or university and receive full credit for work done in the local college.

WICHITA CO. TO HAVE "FORD FOR PRESIDENT" CLUB

A Wichita County Ford-for-President Club will be formed in this county within the next week or ten days, according to an announcement made Saturday by W. B. Langford, who returned from Temple, where he attended a meeting for the purpose of organizing a state club designed to capture the state's delegates to the democratic convention next year in behalf of Henry Ford.

Langford returned Saturday morning and has consulted several local men who are prominent in politics in connection with the formation of the club. Since the announcement that he was connected with the purpose of organizing a state club, a number of inquiries from over the county have been sent to his office expressing an interest in the move and a desire to be included in the organization, he stated.

A manifesto, addressed to the people of the state, setting forth reasons for supporting Mr. Ford, drawn up at the Temple meeting, follows: "The United States of the United States and the Lone Star state of Texas.

Recognizing that the nation at large is facing a serious and industrial crisis that may lead to serious results affecting the stability of government and our democratic institutions; "Realizing that the time has come when the best talent and ability of those who have heretofore served in the ranks must be drafted for the service of the government to bring about a safe and sane administration of public affairs; "Believing that no good citizen, however large may be his private business, will withhold his time or service for the public good when his country calls;

FOUR NEW WATER RESERVOIRS ASKED IN ARCHER COUNTY

Hearings will be held at Austin Monday by the state board of water engineers on applications for the creation of four new water reservoirs in Archer county, involving a total of 1475-acre feet. Three of the proposed reservoirs would impound water draining into the Little Wichita, and the fourth is planned on Bluff creek, a tributary of the Little Wichita.

The applications include the following: Oil Investment Company to erect a 7-foot concrete dam, 40 feet long, impounding 1,000-acre feet, on Little Wichita, four miles northeast of Archer City.

Gulf Production Company to erect a 7-foot concrete dam, 87 feet long, across a branch of the Little Wichita 3.5 miles northwest of Archer City.

C. P. Burton to erect 10-foot earth and stone dam, 500 feet long, across Bluff creek ten miles northwest of Archer City. State law require the obtaining of a permit before any structure that impounds public waters can be erected. All four of the reservoirs involved in these applications are for local use.

'ISLAND CITY OF THE NORTH' IS DESCRIBED BY CARPENTER

Stockholm Is Capital of Europe's Oldest Country and Has Much of The Sumptuous and Magnificent

New City Hall Roofed by People at Six Dollars Per; Hydroelectric Developments Expected to Have Great Influence on Industrial Progress of Country.

(Copyright, 1923, Carpenter's World Travels)
STOCKHOLM, SWEDEN.—More than a thousand miles north of Boston, about four thousand miles east of New York, and one hundred and fifty miles nearer the North Pole than Sitka, Alaska, lies a city of islands. It is founded on granite, ground smooth by the glaciers when all northern Europe was covered with ice, and the rocks upon which it is built are divided by mighty rivers. It has sixty miles of islands between it and one of the greatest salt seas of the world, and behind it is a fresh water lake whose islands by actual count number sixteen hundred and thirty. The islands in front extend on to the Baltic, and the rest run north and south and eastward to Finland, the peninsula which forms the newest and most northerly republic of Europe. In addition, the city has peninsulas bathed by salt water and fresh, making a mass of picturesque scenery created by God and improved by man that has its counterpart nowhere else in the world.

This island city has been given the ever-worked title, "The Venice of the North." The same name has been bestowed upon Amsterdam, Bangkok, Hanoi and Soochow in China, and upon every other municipality that has a down or more dinky waterway in it. The name is applicable to no river less wide than the Grand Canal at Venice and the streams which roll around it and through it are so broad and so deep that steamers plow their course in its midst. The name of this city is Stockholm, the capital of Sweden, and is founded on Everlasting Rock.

Venice stands on a marsh, Amsterdam rests upon piles which sink and forward as though they were drunk, Bangkok, made up of the windings of the Ayeyarwady, has a house which floats on the water, and also of Petrograd, which, owing to the lack of care of the bolshevik government, is fast sinking into the sea. The name of Stockholm is true also of Petrograd, which, owing to the lack of care of the bolshevik government, is fast sinking into the sea. The name of Stockholm is true also of Petrograd, which, owing to the lack of care of the bolshevik government, is fast sinking into the sea.

Every Man Gave a Shingle.
On another island, a parliament which cost several million dollars, passed a law after island we find one on which is a great hall of gold, which hangs like a full moon in the sky. Above this golden hall, on a golden staff, stands the three golden crowns that form the coat of arms of the nation. The city hall is built on a rock and when completed it will have cost over ten million dollars. It is a massive structure of red brick with a roof of bright copper, here and there turned green by the weather. The copper is laid on in plates, each of which represents the patriotic spirit of the citizen. During the war, when taxes rose and the price of copper went to the skies, the city council decided that the red metal roof must be abandoned as an account of the cost. Thereupon the Stockholm-ers began to subscribe. Individual after individual put his name in his pocket and brought out six dollars to buy one of these copper shingles, as we might call the plates which cover the building. Nobody was allowed to give more than one plate, but thousands subscribed and thus the building was roofed. As a testimonial of appreciation the name of each donor is engraved on the plate paid for by him.

Swedish Stockholders by Motor Boat.
It was in the motor-launch of the United States minister, with the American flag flying at the stern, that I plowed my way through the city of islands. Suppose you sit down beside me and we shall make part of the journey over again. The launch is what is called an Outside Archipelago boat. This means that it is big enough and strong enough to travel the sea, and that one could, if he would, venture across the Baltic to Finland. The launch is about forty feet long, ten or more feet in width with a gasoline engine not far from the center. It uses its sixty-cent gasoline without a carburetor, and it is run by a Swedish sailor.

We start at the Grand Hotel Royal, an immense building facing the quay, and go up stream past the houses of the city. The launch is from the Baltic, and under the arches of granite of the bridge to the island of Stadén just behind the boat of a fisherman who by means of a windlass is casting a net ten feet in diameter into the water. Scores of men like him may be seen fishing here at any hour of the day. On the right we can see the Royal Opera House where last night we heard Hattula, the successor of Caruso, in his other large structures, while in the rear along narrow streets is the business section of the city with its many stores filled with fine goods.

and the second is of 250 members, chosen in general elections every four years. Women have the right to vote and there are some in the Riksdag.
Sweden is one of the big countries of Europe. It is not quite equal to France or Germany, and is small in comparison with Russia, and it is about three hundred miles wide and almost as long as from Cleveland to New Orleans. It is about half as large again as Great Britain and Ireland and if you could cut it into patches and lay it on the United States it would cover Pennsylvania, Ohio, Virginia and New York. It has about as many people as Belgium and more than twice as many as Switzerland. The latitude of Sweden corresponds largely with that of Alaska. Our "iceboxes" which North goes farther south but Sweden reaches also into the lands of the Midnight Sun and there is one town, Lulea, from where the railroad starts on its way to Narvik in Norway, which has a summer day twenty-three hours in length.

The People of Sweden.
And still Sweden supports just about six million people who live better than most of the inhabitants of Europe. They have comfortable homes. The houses of the cities are much like those of the United States, and those of the country are frame cottages which compare favorably with the homes on our farms. The people are famous for their health and longevity. They have more births than deaths and the population is increasing almost as fast as that of any country of Europe. According to statistics, the Scandinavians live longer on the average, than any other people of the world. They are a big people, has life members who are elected by certain town and country councils for terms of eight years, county councils for terms of eight years.

A Money Making Nation.
The Swedes are a good business people. They know how to make money and save it, although, like us Americans, they are always trying to get something for nothing and oftentimes fall into traps. They are good farmers and they have been manufacturers and traders since long before the days of the Hanseatic League. About half of the population are farmers, and the other half are engaged in manufacturing and in buying and selling. They have very extensive home industries and

there are farm villages whose people make tens of thousands of kroner a year by manufacturing baskets, lacers and carvings of one kind or another in their houses. Just now, there is a revival of rural industrial art and all kinds of handicrafts is taught in the schools. They have one system of education which gives sixty-eight exercises in carpentry for boys from ten to fourteen, and they teach weaving, working in iron, and all kinds of embroidery and needle work. There are more workmen in the industries of the country districts than there are in those of the cities and towns.

Some Big Industries.
As to the big industries, the country has a number of manufacturing centers such as Gothenburg and Eskilstuna, where they have been carrying on manufactures for generations. Eskilstuna is the Sheffield of Sweden. It is famous for its knives, razors, and locks and has been making them for a hundred and fifty years.

Sweden has glass factories and porcelain factories famous all over the world. There is a match factory at Jonkoping which started making matches about the time we were fighting the Mexican war and is still working. It has now one machine that produces forty thousand boxes of matches an hour. That town is at the head of the match-making industry of the world.

The country makes Diesel engines and ballbearings, and it is rapidly going into electro-chemicals, increasing its output of the latter product by millions of kroner a year. It makes powder, dynamite, and munitions and all sorts of woodwork as well as wood pulp and paper. It is one of the great timber countries of the world and ships logs and boards to all parts of north Europe.

Swedish Iron.
A page on this newspaper might be devoted to the work Sweden has done in her manufacture of fine iron and steel. She has some of the purest ore of the world and the ore still available is said to be more than eleven hundred million tons which should yield about three-quarters of a billion tons of metallic iron. Some of her ore grades more than eighty per cent and she has great beds of new deposits in the North which are far above the ore values of the best of our iron about Lake Superior. The Swedes have been making iron since the days of the Crusaders and in the eighteenth century they were supplying four-fifths of all that metal used by mankind. At that time the ore came from central Sweden and ran fifty or sixty per cent pure. The veins were from fifteen to thirty-six feet in thickness and as a rule about seven hundred feet long. They are mined iron in the same region today and it will be long before the ore is exhausted. The smelting was done with charcoal. Today Sweden makes ninety-two per cent of all the high-grade iron of Europe.

Iron Mines Under the Pole.
The most important Swedish ore of the future, however, will come from the new mines under the North Pole. Away up above the Arctic Circle in Lapland, they have found beds of iron like those we have about Lake Superior, where the ore is dug out with giant steam shovels. There is one place where it lies on the top of a mountain. The ore block is more than a hundred yards wide and three miles in length and it runs down under a lake. The percentage of iron in this ore is even higher than that of central Sweden, much of it running seventy per cent pure. About two years ago they had already taken more than thirty million tons out of some of these mines, and the total deposits are said to equal more than a billion tons.

done in her manufacture of fine iron and steel. She has some of the purest ore of the world and the ore still available is said to be more than eleven hundred million tons which should yield about three-quarters of a billion tons of metallic iron. light to most of the people. The development is now being extended throughout central Sweden, and later it will go on to the settlements throughout the north.

There are few countries so blessed in water power as Sweden. The country consists of a plane sloping from the Norwegian plateau down to the Baltic, with streams running across it like the ribs of a leaf. These rivers roll over rocks and can be made to yield water power every few miles. There are tens of thousands of lakes and ponds which serve as basins and the streams can be easily dammed. In south Sweden the biggest power plant is the Trohatten, which uses the falls of the Gota Alvs river which forms the outlet of Lake Wenner. There are three falls in which the river drops 108 feet and the power production is constant. The Motala river, the outlet of Lake Western also furnishes a great deal of power and there are hundreds of other water powers throughout the country.

The White Coal of Sweden.
Sweden has practically no black coal worth while but its white coal in energy producing value is equal to \$100,000 tons of steam, estimating that it takes ten tons of fuel to produce one horsepower running all the year round. This white coal is equal to over one-tenth the annual product of our coal mines. Sweden has available water powers which approximate seven million horsepower, of which more than one million horsepower belongs to the state. The country is undergoing an extensive hydro-electric development and plans have been made for its gradual electrification. The southern part, which includes most of the farms is covered with transmission lines which give power and

Frank G. Carpenter

The most terrible force in nature—lightning—destroys 13 million dollars worth of property a year, according to the National Board of Fire Underwriters. This, however, is less than a fifth as much as the yearly fire loss in dwellings, not to mention destruction by fire outside our homes.

McCONNELL BROTHERS

Proper Home Furnishings Essential To The Best Enjoyment of Summer Weather

The proper selection of home furnishings for the home means much to the best enjoyment of the hot summer weather. This store has a large selection of seasonable furniture for your approval.

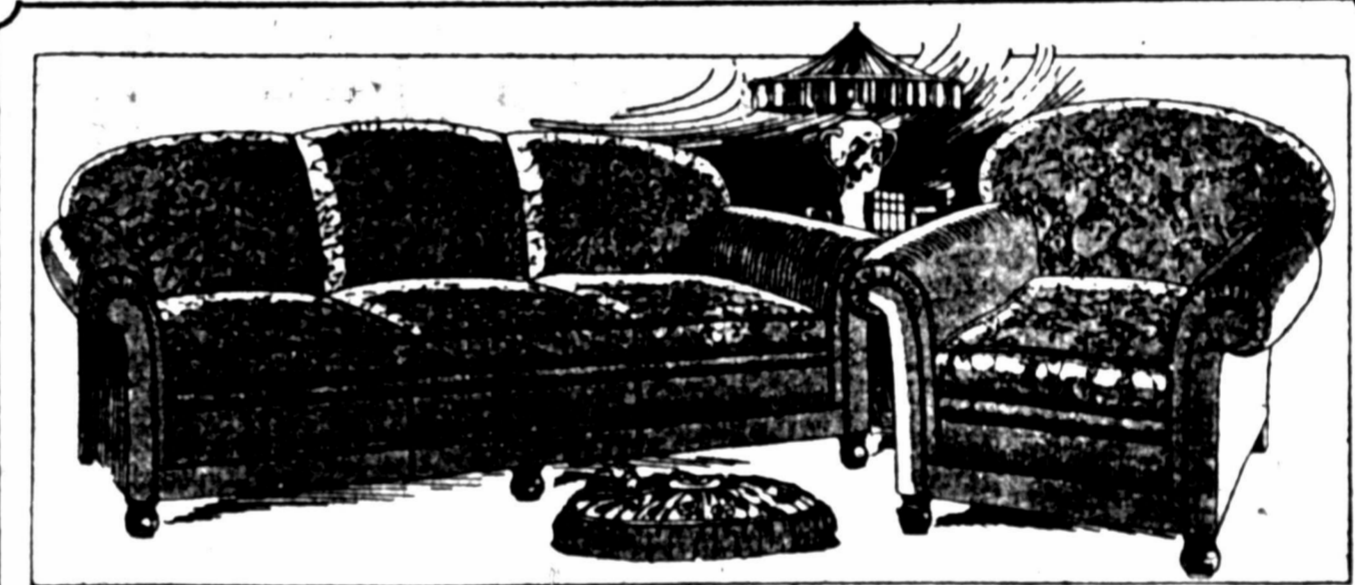

New Iceberg Refrigerators

SEES TURK DIPLOMATIC VICTORY AS SEVERE BLOW TO ALLIES

If Leontine Could Govern as Well as Angle Would Have Real Power Declares Lloyd George

Outcome of Lausanne Conference Declared to Be "Compound of Short-sightedness, Disloyalty and Pusillanimity Among Nations and Their Statesmen"; Long List of Surrenders and Concessions Recorded.

By THE RIGHT HONORABLE DAVID LLOYD GEORGE, O. M., M. P. (Former British Premier.)

Copyright, 1923, by United Feature Syndicate. Copyright in Great Britain by London Chronicle. Copyright in Australia by Australian Press Association. Exclusive World Rights Held by United Feature Syndicate. Reproduction in whole or in part prohibited. All rights reserved.

LONDON, July 28.—The Turk may be a bad ruler but he is the prince of anglers. The cunning and patience with which he lands the most refractory fish, once he has hooked it, is beyond compare. What inimitable play we have witnessed for six months on the shores of Lake Lemna. Once the fish seemed to have broken the tackle—that was when the first conference came to an abrupt end. It simply meant, however, that the wily oriental was giving out plenty of line. He knew the moment would come when they would return with the hook well in their gullets and the play begin once more—the reeling in and the reeling out; the line sometimes taut and strained, but never snapping. Time and patience rewarded him. At last the huge tarpon are lying beached on the banks—Britain, France, Italy and the United States high and dry—landed and helpless, without a swish left in their tails, glistening and gasping in the summer sun.

It is little wonder indeed had a smile on his face when all was over. Reports from Angora state that peace is hailed there as a great Turkish triumph. And so it is. If the Turk could govern as well as he angles, he would be the most formidable empire in the world. Unfortunately he is in the worst of rulers, hence the trouble—his own and that of those who unhappily have drawn him as governor in the lottery of life.

The able correspondent of the London Daily Telegraph at the Lausanne conference supplied us from time to time with vivid pictures of the four greatest powers of the world with an aggregate population equal to that of a couple of English counties that I could name. This is what he wrote a few days ago:

"The records of the conference present an even more marvelous series of concessions and surrenders. What was frayed before is threadbare now. The Allies have

clearly that the Turk could be no longer satisfied with the property honor or lives of any Christian race within his dominions. So a series of agreements were entered into in the early months of 1918 between France, Russia and ourselves by which the greater part of Turkey, with its congenitally population, was to be partitioned at the end of the war. Cilicia and Syria were allocated to France, Mesopotamia to Britain and Armenia and Constantinople to Russia. Palestine was to be placed under the joint control of Britain and France. Arabia was to be declared independent and territory carved largely out of a desert—but including some famous cities of the East, Damascus, Hama and Aleppo—was to be constituted into a new Arab state partly under the protection of France and partly of Britain. Smyrna and its precincts were to be allotted to Greece if she joined her forces with those of the allies in the war. The Straits were to be demilitarized andarrisoned. When Italy came into the war late on it was stipulated that in event of the partition of Turkey being carried out in the pursuance of these agreements, territories in Southern Anatolia should be assigned to Italy for development. In the main the distributed regions were before the war being cultivated and developed by a population which was western and not Turanian in its origin and outlook. This population represented the original inhabitants of the soil.

I have set out shortly what the war policy of the Allies was in reference to Turkey. The Treaty of Sevres considerably modified that policy in many vital aspects. By that treaty Constantinople, Cilicia and Southern Anatolia were left to the Turk. Armenia was created into an independent state. There were many objections which could be raised to the original proposals of 1918 as it might be argued they contemplated handing over in Cilicia and Southern Anatolia populations which in the main were Turkish and Moslem to Christian rule. But in substance the modified plan of Sevres was sound, and, if carried out, would have conducted to the well-being of millions to be liberated by its terms forever from Turkish rule. The world at large also would have benefited by the opportunity afforded to the industrious and intelligent Armenian and Greek populations of Turkey to renew the fertility of this land once so fruitful in its gifts, and thus enriching man's store of good things. The barbarian invasion

which withered that fertility was pushed back into the interior by the Treaty of Sevres. The Treaty of Lausanne has extended and perpetuated its way from the Black Sea to the Mediterranean. I have explained the why and the wherefore of Sevres. But why Lausanne? It is a long story. A compound of shortsightedness, disloyalty, selfishness and pusillanimity amongst nations and their statesmen. And more than all, fate happened to be in its grimmest mood when dealing with this problem. The Russian revolution eliminated that great country from a solution of the problem on lines of protection for the oppressed races of Turkey, and cast its might on the side of the oppressor.

President Wilson was inclined to recommend that the United States should undertake a mandate for the Armenians. Had he succeeded, what a different story many years to come would also tell. His health broke down, and America would have none of his humanitarian schemes. Then came the departure of Sonnino from the Quirinal. With him went for a momentous while the old dream of Italian colonization, which in the past had done so much to spread civilization in three continents. His successors were homebody men. I have still my doubts whether they served Italy best by the less adventurous and more domesticated policy they pursued. The future may decide that issue. But whatever decision, the time for action has passed away and unless and until there is another break up in Turkey, the chance that Italy lost since 1919 will not be recovered. Will it ever come back?

Then there was the French check in Cilicia, and negotiations at Angora with Mustafa Kemal which were both single-handed and un-derhand, for the allies were not so informed of what was going on. This was a fatal step, for it broke up the unity which alone would enable the western powers to deal effectively with the Turk. This unity was never fully recreated. Greek's Fatal Change. The last fatal change was the Greek revolt against Venizelos. It is often said that he is the greatest statesman thrown up by the race since Pericles. In all he has undertaken he has never failed his people. Disaster has always come to them when they refused to follow his guidance. When King Alexander was killed by a monkey, the Greeks were called upon to decide between Constantine and Venizelos. Their choice was ruinous to their country, and no greater evil can befall a nation than to choose for its ruler

LAUSANNE TREATY PORTENDS DISASTER TO CIVILIZATION IN VIEW OF LLOYD GEORGE.

"What next? Lausanne is not a terminus. It is only a milestone. Where is the next? No one claims that this treaty is peace with honor. It is not even peace. If one were dealing with a regenerated Turkey there might be hope. But the burning of Smyrna and the cold blooded murders of 150,000 Greeks in the interior prove that the Turk is still the same."

"The Turk may be a bad ruler but he is the prince of anglers. The cunning and patience with which he lands the most refractory fish, once he has hooked it, is beyond compare. At last the huge tarpon are lying beached on the banks—Britain, France, Italy, the United States high and dry—landed and helpless, without a swish left in their tails, glistening and gasping in the summer sun."

"The barbarian invasion was pushed back into the interior by the Treaty of Sevres. The Treaty of Lausanne has extended and perpetuated its way from the Black Sea to the Mediterranean."

"From Sevres to Mundania was a retreat. From Mundania to Lausanne is a rout."

"Why Lausanne? . . . A compound of shortsightedness, disloyalty, selfishness and pusillanimity amongst nations and their statesmen. And more than all fate happened to be in its grimmest mood when dealing with this problem."

"President Wilson was inclined to recommend that the United States should undertake a mandate for the Armenians. Had he succeeded, what a different story many years to come would also tell."

"That the history of the East, and probably of the West, should have been changed by the bite of a monkey (resulting in King Alexander's death), the succession of Constantine and the Greek debacle is just another grimace of the comic spirit which bursts now and again into the pages of every great tragedy."

The Greeks fight valiantly when well led, but like the French, once they know they are not well led, confidence goes, and with confidence, courage. Before the Kemal attack reached their lines, the Greek army was beaten and in full retreat. With the attack came panic; with panic the complete destruction of what was once a fine army. With the disappearance of that army went the last hope for the salvation of Anatolia. That the history of the east, and probably of the West, should have been changed by the bite of a monkey is just another grimace of the comic spirit which bursts now and again into the pages of every great tragedy. All that could be done afterwards was to save the remnants of a great policy. Western civilization put up its last fight against the return of savagery into Europe when, in September and October of last year, British soldiers and sailors, deserted by allies and associates alike, saved Constantinople from hideous carnage. The pact of Mundania was not Sevres, but it certainly was better than Lausanne. From Sevres to Mundania was a retreat. From Mundania to Lausanne is a rout. What next? Lausanne is not a

RED-HEADED WOMAN "QUADRANGLE" IS AMICABLY SETTLED

All the domestic difficulties of the red-headed woman and the three persons directly concerned were settled Saturday morning and the matrimonial bark is apparently enjoying smooth sailing in the two families which were the source of much trouble to the police department for the past two days. After two nights in the city jail, the red-headed woman became penitent and notified her husband, who left with his young daughter Friday, that she would come home if he would send the needed \$50 for the fine. The husband is willing and arrangements are being made for her to leave the city jail for her home in Fort Worth, where she will join her husband and her small daughter.

Finishes First Letter Names in 1923 Tax Rolls

County Tax Assessor Ivan Deaton made a good start on the 1923 tax rolls during the past week and Saturday noon finished the first letter names in the county. Work on the letter "B" began Saturday afternoon.

Another large typing machine will be put into play some time early next week so that work will progress at double the speed. In view of the large number of conditions secured this year it is quite likely that the rolls will not have been completed much before October 1, the time specified by law that the rolls shall be complete.

NEW PUBLICATION FOR SAN ANTONIO GETS CHARTER

AUSTIN, July 28.—The "American Forum" is the name of a new newspaper which will be published at San Antonio under a charter granted today by the secretary of state. The company is capitalized at \$5,000. Incorporators include J. S. Bonner, Charles K. Biggs and L. D. Biggs.

CLARENDON MAN INJURED IN TANK CAR EXPLOSION

CLARENDON, TEXAS, July 28.—George Scroggs was burned seriously here Friday while pumping out a tank car. A spark from the engine ignited the gasoline and the explosion followed.

FIRST INFANTRY BRIGADE ENDS ALSTIN ENCAMPMENT

AUSTIN, July 28.—The annual encampment of the 1st Infantry brigade, Texas National Guards, was closed here today. Special trains this morning began carrying the approximately 1,000 guards back to their home stations. The camp has been in session for two weeks. The camp has been in command of Brigadier General Henry Hutchings, of Fort Worth.

North Texas Furniture Co. COMPLETE HOME FURNISHERS

IF IT ISN'T USEFUL FURNITURE IT ISN'T GOOD FURNITURE

People don't buy furniture just to fill up space in the house. They want to get pleasure and service out of it. It must be useful or it hasn't any value. Every piece of Furniture we sell is made to perform some essential service.

THIS STORE AND YOU

You perhaps don't realize what a large part you play in the running of this store. While we do sell Furniture that really isn't our business—we buy it for you. It is our aim to always get the kind of furniture you want; the kind that we know will give you satisfactory service.

EASY-TO-BUY TERMS OF PAYMENT

Our liberal credit terms enable you to furnish your home with good furniture at a small outlay of cash. The quality of our furniture sold on these liberal credit terms has given comfort and happiness to many homes. It is a practical easy-to-buy way of furnishing your home.

ALL YEAR FURNITURE

Nowadays, Wicker furniture is considered all-year round furniture. In fact it has been for a long time and many people use it in their living rooms and bedrooms as well as their sun rooms. You'll save a lot of money if you buy Wicker furniture now as we are selling it at greatly reduced prices.

THIS IS the APARTMENT that THRIFT BUILT for \$500

And Thrift didn't build this Three Room Apartment over night. It took lots of figuring and planning. But the results are worth the time and effort. You will be convinced of that when you see how good taste and economy have been combined in our 3 room apartments. Of course we realize that everyone's taste is not alike so we have plans for several 3-room outfits and can arrange them for you so you can see just how cozy and attractive they are.

Big Drapery and Rug Opportunities Come in at Opportune Time

John Apostle of Personal Religion Of Emotions Coming From Within Says Judge Kay to Methodist Class

One hundred seventy-two members of Judge J. J. Kay's Methodist class...

Now, this apostle of personal religion... He opens his gospel with the most profound truth...

John Underwood... "John understood these things and tried to write about them. Did write about them."

Now, does a man have to believe anything? Are we obliged to believe anything? Ah, to my mind, there is the fine line that marks the difference and all the rest of creation...

"You know, it is a little peculiar to me that the Savior, in speaking the twelve apostles, didn't pick a single one of them who had a trade and everybody was at work when he found them."

"Ah, pity, pity for that man or that woman who believes, as I think many of them do believe, that the only salvation is the creed of some particular church, that one particular group have worked out up here somewhere a big meeting on the creek. The church that religion runs on."

"What am I trying to do for you fellows this morning? Just what I am trying to do for myself, but I am trying to do for myself, but I am trying to keep you from being narrow, and keep myself from being narrow and ignorant."

EXPERT OPTICAL SERVICE... WOODLEY OPTICAL CO., 717 Eighth St.

Water Supply for City Will Be Available About August 18 From Diversion Dam, Say Officials

August 18 is the date set by F. N. Lawton, manager of the city water department, to begin pumping water from the diversion dam into the city water supply.

The 16,000,000-gallon booster pump which will be used at the dam was placed on the concrete foundation during the past week.

"Lake Wichita is going down rapidly; at present the water is about 12 inches above the outlet pipe and unless there is rain, the work will not be completed before the need for it is felt."

Cotton Crop Suffering Farmers Say Because of Lack of Moisture; Rain Needed Badly for Pasture and Fruit

Farmers in the Wichita Falls district were not nearly so optimistic over cotton futures at the close of the past week as they were seven days ago.

Rain is needed badly for the cotton, as well as for pastures and in the few weeks of rain within the past few days, the cotton bales of cotton to the fields, farmers state.

A Girl at 60 A famous beauty for 40 years

By Edna Wallace Hopper... I have been a stage beauty since days you can't remember. Now, at a grandmother's age, I am still a stage beauty, and I look like a girl of 19.

"Lake Wichita is going down rapidly; at present the water is about 12 inches above the outlet pipe and unless there is rain, the work will not be completed before the need for it is felt."

Cotton Crop Suffering Farmers Say Because of Lack of Moisture; Rain Needed Badly for Pasture and Fruit

Farmers in the Wichita Falls district were not nearly so optimistic over cotton futures at the close of the past week as they were seven days ago.

Rain is needed badly for the cotton, as well as for pastures and in the few weeks of rain within the past few days, the cotton bales of cotton to the fields, farmers state.

A Girl at 60 A famous beauty for 40 years

By Edna Wallace Hopper... I have been a stage beauty since days you can't remember. Now, at a grandmother's age, I am still a stage beauty, and I look like a girl of 19.

YOUNG MAN PAYS FINE, NOW FACES SERIOUS CHARGE

A young man, possibly 23 years of age, paid a fine in the justice court early Saturday morning, following his arrest Friday night...

When confronted with the charge in the office at the court house the young man stoutly denied that he even knew the girl who had made the statement against him.

Free. Don't Miss This To you who don't know how good Spis Water is I will fill your bottle free of charge for one week commencing July 29th.

GRANDFIELD, OKLA., July 28.—A. Bryant, formerly pastor of the Presbyterian church here, has traded three residences at Grandfield for 370 acres in the black land district two miles north of Ravia, Okla.

J. N. Gaseaway of Tishomingo, Okla., has purchased the brick building now occupied by the Burke Motor Company. This building was owned by C. S. Tant. Consideration \$10,000.

The Grandfield Golf Club in a tournament with Frederick, Okla., were winners. Glen Woodcock, Dodge Berry, Hites Hamilton and W. S. Hamilton each played 18 holes against Frank Fenik, Harry Wilcox, Harry McNeil and Folk Fry of Frederick.

J. B. Stout, superintendent of Grandfield schools, who has been taking a summer course at Weatherford Normal, returned home Saturday. Supt. and Mrs. Stout will leave for Chicago the coming week, where they will enter the Chicago University. Mr. Stout will take private courses in piano work.

City Manager George Hoester left Wednesday afternoon for Tulsa, Okla., to get parts for a new water pump.

Mr. and Mrs. C. M. Pierce of Fredonia, Kan., arrived Friday for a visit with C. W. Evans and family.

Rev. Mr. Goodwin of Shawnee, Okla., preached at the Baptist church here last evening at the Baptist church. He is a veteran of the world war and related some of his war experiences.

A body of about 100 men are in Tillman county for the purpose of making a membership drive for the cotton growers' association.

Charles Pinkerton, formerly an officer of this place, was killed by a bullet from a gun which he was using to hunt a fox.

U. W. Standley of the Standley Glass and Paint Company was called to the hospital by the death of his brother, J. O. Standley.

Mrs. J. F. Cosby of Devol, Okla., mother of Mrs. G. Norman of Norman, Okla., is in the hospital.

Mrs. J. P. Holt left Tuesday for Wichita, Kan., to visit their daughter, Mrs. J. P. Holt.

CLEVELAND, OHIO, July 28.—Chick Evans Saturday won the western amateur championship for the eighth time by defeating Hamilton Gardner of Buffalo, who played at the Mayfield Country Club. To make his eighth victory the greatest number in any golf classic won by one man. Craded through a fine field, including the national champion, Jess Sweetser, number one in the world for his par golf as did Gardner most of Saturday.

Gardner played excellent golf, exciting the admiration, openly expressed of Evans, who played four better than par on the 16 holes finished in the morning round. It was three under for the 18 holes he finished in the afternoon. The championship in the morning round was held in the afternoon. The champion, Gardner, who is 32 years old, has been a member of the club since 1912.

With the high hill of the 15th hole to climb unless the match ended in a tie, Evans, who had a lead of 18 holes, snapped into it crisp and he would have defied a sharp shooter to send a bullet straight for the cup. The ball was well out when it struck four feet from the hole and stopped within 10 inches of the hole. Gardner, who had a drop of the lethal dose to Gardner's vanishing hopes for he was in a trap and after two tries picked up a scorching 18-hole round. Gardner qualified with 73-78-151, while Evans took 77-74-148. Gardner won his first round match from Lee Chase of Buffalo, three and two, and then the easiest match of the tournament, defeating Ira Cough of Chicago, 13 and 1. But the Buffalo player met a thorny opponent in the semi-final, Joe Willie of East Liverpool, Ohio, who held him even with golf only a trifle over par for 37 holes. Then Gardner, with a four and four, scored two birdies and a par for his four and three.

Evans breezed around his first match to defeat James Ward of Kansas City, five and four, and had a 18-hole round, downing Cleveland 4 and 6. He was forced to par golf in the third round for a time and he was out of the tournament, but finally broke his youthful opponent and won 6 and 4. Then he present pronounced the expert golf contest staged in America, defeating Jess Sweetser, national champion, 18 holes, and a Yale student missed an 18 inch putt on the second extra hole for a half.

Evans, in preparing for the match, was in Memphis, in Chicago, in Tulsa, in Memphis, in preparing for the match to Evans for the eighth time the champ had received it, said that he had been told that he had to be made to the large silver vase to hold the record of Evans' achievements.

W. H. DOAK DIES SATURDAY; FUNERAL SUNDAY AFTERNOON

W. H. Doak, aged 64, died at his home, 102 Van Buren street, at 1:30 o'clock Saturday afternoon following a long illness.

Funeral services will be held at 2:30 p. m. Sunday at the home of Mrs. J. H. Doak.

Mrs. J. H. Doak, widow of W. H. Doak, died at her home, 102 Van Buren street, at 1:30 o'clock Saturday afternoon following a long illness.

Bobby Jones Fourth Amateur To Win National Open Title

America has acclaimed these amateurs. They're Bobby Jones, "Chick" Evans and Francis Ouimet.

When Bobby Jones defeated Robert Cruikshank in the play-off for the national open championship, Harry Vardon and Ed Ray. In the play-off, Ouimet finished with a 72, while the best Vardon could get was a 77 and Ray a 74.

Amateur Victor Wide Swath. Ouimet's victory made it apparent that the amateur golfer was to cut a wide swath in national competition. The following year Chick Evans proved that the coming of the amateur golfer was not a passing fancy.

In 1918 Jerome Travers again carried the banner of the amateur player to the front by winning the national open with a score of 218.

In 1916 Chick Evans not only won the amateur championship but also the national open by the Texas and Massachusetts. Never considered as

again by knocking off ground for Wichita high school. The other members of the quartet, Coach and athletic director, called on the local aspirants for grid fame this year, he will have a new collection of trophies.

When Alvaro "Bud" McCallum, high school and junior college football coach and athletic director, called on the local aspirants for grid fame this year, he will have a new collection of trophies.

True, many of last year's stars played their first football last season, and they will be well qualified in size, age and ability, to fill the places of the 1933 winners.

Possibly the biggest loss to be suffered by the Coyote tribe is William "Hunky" Walker, big guard and captain. The team is a four letter man, one of the few to graduate from the local high school, and is considered one of the best guards in the state.

Knowing this year's grid will be a hard matter to replace the big boy. As a matter of fact, an entirely new line will have to be developed this year. Not only will Walker be missed, but Sam Hildreth, the Sun-dred and sector, who played the other guard position and who finished last season's high standing will report for the first whistle of the season this year. Gerald Coffey, for two seasons the star tackle who never failed to open a hole, is also drafted from the lineup. These men, dependable in every department of the game, and who could always be trusted to stick out every battle, will all be gone, and their absence will put a big hole in the Red and Black invincible line.

Sam Kiker, a first string end of the squad, was also called away from the team to go to Wichita Falls, where he will be playing for the high school team for two years prior to coming to Wichita Falls. He is rolling towards the big center of population and that if all goes well the food crisis at least will have been removed in a few days.

There were signs this afternoon that the government was coming out of its present dazed condition. A meeting of the political democrats and district leaders of Berlin adopted a resolution demanding the parliamentary overthrow of the cabinet.

Many foreign tourists including Americans, are leaving Berlin through the city. Many of the wealthier Jews are sending their women and children into the country. Despite the jump increase of the Berliners, the city is absolutely quiet. The authorities say they have no fear of serious trouble here.

MUNY CADDIES TURN IN HANDSOME CARDS IN FIRST TOURNEY

The first of a series of caddie tournaments was held off Friday on the course of the Wichita Falls Municipal Golf Club and a number of fine scores resulted from the youngsters' play. Aubrey Howell, with a net score of 79 carried away the first prize and Ulysses Platts was second best. Austin O'Brien, J. B. Colley and Clarence Fultz were tied for the next place, all with 82 net scores.

Turning in 18 holes in the hands-on score of 82, Clarence Fultz carried away the honors for the best handicap score. Fultz played with a handicap of six strokes. Melvin Moore, also with a six handicap, was second best.

Prizes of golf clubs were donated by firms and individuals for the winners and runners-up in all events. Another program for the bag carriers is expected to be held in the near future.

The scores follow:

Name	Score	Hcp.	Net
Aubrey Howell	79	18	97

Gridiron Gossip Starts Early Coyote Chances Are Discussed Prospects Bright for Hi Team

work for three years. Formerly Waggoner played tackle, and at this position he came into the lineup last year.

of malling a runner in his tracks, and diving under interference was enough to convince the coach that Waggoner was best fitted for an end.

The other two end males of last year, Ralph Bracken and Frank Shaw, are also expected to be back with the Coyotes. Bracken, although small in size, was large in pluck and ability in every contest he had his fighting logs, and the carries was he threw his body around in a last year's action.

Shaw lived up to all expectations. While not much in size, he was instrumental in winning several games. Shaw was especially good on forward passes and defensive work for the second time as an end on the Coyote lineup.

Shaw lived up to all expectations. While not much in size, he was instrumental in winning several games. Shaw was especially good on forward passes and defensive work for the second time as an end on the Coyote lineup.

hard luck, from his injuries possibly kept him from winning the coveted "W".

VENNERS ACQUIRE SITE FOR NEW HIGH SCHOOL

TRACT OF 3.27 ACRES IN THE SOUTHWEST PART OF TOWN PURCHASED.

STORE ROBBED WHILE DANCERS ARE ABOVE

O'Brien Company Loses \$275 in Merchandise

VERNON, TEXAS, July 28.—The Vernon school board Thursday signed a contract of purchase of two blocks of land, or 3.27 acres, in southwest Vernon from S. S. Smith, as a site for the new high school building.

The high school bond election carried on by majority of the voters in this town.

Rob Store During Dance. While a dance was in progress in the O'Brien Club on the night of the 26th, robbers broke into the O'Brien Dry Goods Store here early Thursday morning.

League Institute Here. About 15 delegates expected to arrive this afternoon for the District League Institute which today begins a three-day session at the First Baptist Church.

Funeral Services. Funeral services for the late Mrs. J. W. Hawkins, who died at her home in southwest Vernon Tuesday after a long illness, were held here at 2 p. m. today.

Occupation of Well. The well located on the land of J. M. and Bess King, three-fourths of a mile north of Okemah, is being drilled.

Day Services at Revival. Day services at the revival meeting in progress at the Central Baptist Church here have been suspended.

Funeral Services. Funeral services for the late Mrs. J. W. Hawkins, who died at her home in southwest Vernon Tuesday after a long illness, were held here at 2 p. m. today.

"Call Me Magnus," Begs Western Dirt Farmer, Elected Senator

Magnus Johnson likes to care for his horses. He certainly looks happy in the upper left-hand photo. The senator won't see him the way he is in the upper right-hand picture, but his neighbors out in Minnesota do. Mrs. Johnson, who helps "Magnus" run the farm, is shown, (lower left), milking one of the cows.

Then are introduced the others of the family—"Ma" Johnson, a large, pleasant-smiling, unaffected country woman, and her husband, Magnus Johnson, a large, pleasant-smiling, unaffected country man.

They bore the burden of farm work during the campaign. On election day Mrs. Johnson herself milked seven of the family's 40 cows before going to Minneapolis to vote.

By a back door the senator leads his visitors through the dining room to the "kitchen" room. The kitchen is in the rear, but in the dining room is a sink with a pump attached to it.

Lillian goes back to clearing the dirt under the table and under the chairs. She is a small, dark woman with a white apron.

As Magnus talks he opens the door to a small roll-top desk in the sitting room. There are two sections of bookcases over the desk, but the books consist almost entirely of volumes of Minnesota's legislative proceedings.

"These fellows there ain't going to learn me anything," says Magnus. "I've been going to school in politics since I was a boy in the old country."

The drive was begun in Vernon two weeks ago and is going forward with great speed.

Mrs. Harkin Russell of Quanah, and Mr. and Mrs. R. B. Bell of Crockett are touring through New Mexico and Colorado. They will be away about two months.

Mrs. Billie Hughes and daughter, Betty Jane, spent part of the week in Wichita Falls visiting her sister, Mrs. J. R. Riggs.

Rev. J. O. Hughes, pastor of the Baptist Church, and family, leave tonight for their vacation home in the northwestern states.

The Epworth League held a big picnic at Tubert's crossing Tuesday night.

Thursday night the ladies of the Susanna Wesley Bible Class entertained at a social.

STAMFORD URGES MANY ADVANTAGES FOR TECH COLLEGE

LOCATING BOARD VISITS THE PROPOSED SITE ON SATURDAY.

COLONEL R. L. PENICK SERVES BUFFALO STEAK

Irrigation Advantages Urged by Speakers Who Present Claims of City.

Special to The Times. STAMFORD, TEXAS, July 28.—The locating committee for the proposed Texas Technological College in the Stamford area met here today for a special session.

Stamford made no concessions to the locating committee. The speaker, Colonel Penick, said the supply of water in the small basin will furnish the city of Stamford for 10 years without removal from the big reservoir, and therefore the college could utilize the maximum flow.

Stamford made no concessions to the locating committee. The speaker, Colonel Penick, said the supply of water in the small basin will furnish the city of Stamford for 10 years without removal from the big reservoir, and therefore the college could utilize the maximum flow.

QUANAH PREPARES FOR COMING VISIT OF COLLEGE BOARD

LOCATORS DUE THERE AUGUST AND WILL BE WELL ENTERTAINED.

HEAT CAUSES MANY TO SLEEP OUT OF DOORS

Rain Badly Needed: Cleanup Campaign Is to Be Staged During Week.

QUANAH, TEXAS, July 28.—The three days and nights of intensive heat which broken about seven o'clock this morning when a breeze was stirred up from the north. No rain, however, is in sight as yet and this is the thing most needed here.

A meeting was held last night of the committee representing the Board of Commerce, the Rotary and Rotary Club to further their plans for the reception of the locating committee of the Texas Tech which is here on August 1st.

Next week is officially designated cleanup week and every effort will be made to have the city in good shape for the visitors. The public streets and lots will be freed of weeds by the city while the cleanup work will be done by the citizens.

The Young Men's Business League have plans ready for a big banquet Monday night in the basement of the Chamber of Commerce at a luncheon upon arrival at the Quanah hotel. They will then be shown the various features of the city.

The two local banks have been signed up with the Cotton Growers Association in their campaign for new members pledging their cooperation with the associational members in holding their cotton for good marketing prices.

The campaign is in accord with the state campaign. F. D. Hendrix is chairman of the district campaign and has a diligent corps of workers. The district work includes Wilbarger, Hardeman, and Sherman counties.

The drive was begun in Vernon two weeks ago and is going forward with great speed.

Mrs. Harkin Russell of Quanah, and Mr. and Mrs. R. B. Bell of Crockett are touring through New Mexico and Colorado. They will be away about two months.

Personal Mention

Mrs. Newton Meier is convalescent after a several days' illness.

Mrs. W. J. Graham and children leave this week for Denver for the remainder of the summer.

Dr. Charles Hartcock leaves soon for New York City for a few weeks' special clinic work.

Miss Louella Faust has returned from a two weeks' vacation in Galveston.

Miss Mary Jewell Foster returned Saturday from a month's visit with friends in California.

Miss Margaret Cochran of Dallas is visiting in the J. T. Willis home at 1110 Monroe.

Mrs. C. C. Howard of Belle Fourche, S. D., is visiting Mrs. J. H. Parrish of Holliday, Texas.

Miss Louella Duke has returned from a three weeks' visit in Colorado Springs. Deaver, Amarillo and Clarendon.

Mr. and Mrs. A. M. Lewis and children left Sunday in their car for a three weeks' trip through Colorado.

Mrs. Jack Kears of Evansville, Ind., is visiting Mrs. L. B. Cummings at her home, 1433 Lucile, and Mrs. Gerald Ponder, 1506 Monroe.

Mrs. E. P. Triplet of Texline, Mexico, is here on account of the serious illness of her father, W. H. Doak, at 802 Van Buren.

Miss Marie Berry leaves this week for a month's visit with her aunt, Mrs. W. H. Alderson, on her ranch near Clovis, N. M.

Mrs. Leonard R. Davis of Amarillo who has been visiting her parents, Mr. and Mrs. T. S. Hanson of Denver, has returned home.

Miss Ora Barnes of 3004 Ninth Street has left for a two weeks' visit in Fort Worth and other points.

Miss Eugenia Staber left Saturday morning for Fort Worth, where she will join her sister, Mrs. T. B. Petty, for a trip to California for the remainder of the summer.

Mr. and Mrs. J. C. Ward leave Sunday for California to be gone until the first of October. They will go by way of Seattle, Portland and San Francisco to Los Angeles.

Mrs. L. H. Harvey and children have returned to their home at 1423 Elizabeth after a visit with Mrs. Harvey's parents, Dr. and Mrs. A. M. Henry of Aberdeen, and friends in Abilene.

Mr. and Mrs. John Lindsey and son, Ralph, and Mrs. W. R. Thompson and daughter, Faye, left Sunday for a two weeks' visit in the mountains of New Mexico.

Mrs. E. E. Funtston, 1286 Monroe street, leaves Monday for Colorado Springs, to visit her son, L. Davidson Funtston, and her granddaughters, Madeline John Robinson and G. Hopkins.

Mr. and Mrs. B. P. Hathorn and son, E. F. Jr., and little daughter, Beatrice, are having a delightful time in Colorado, according to notes to friends from Denver, where they arrived last week.

Mr. and Mrs. Louise Hart of Dallas left Saturday in their car, accompanied by Mrs. J. Sidney Pittman, for their home in Dallas. Mrs. Pittman will visit them there and relatives in Denton.

MISS NEWMAN HONOR
MISS PRICE THURSDAY

Misses Dorothy and Velma Newman entertained a few friends Thursday evening in honor of Miss Mildred Price of Dalgner, who is visiting her sister, Mrs. Jones.

Lunch was served throughout the evening, music being furnished by the amusement.

Refreshments of ice cream and cake were served to Misses Mildred Price, Jo Cooke, Maurine Scott, Francis Wilson, Lillian Brumback and Marjorie Finch; Messrs. Aubrey Sawatzky, Harold Anderson, Leslie Blackney, Richard Kenley, Frank Morgan and Dick Warren.

After the party the girls remained for a slumber party.

MAVEN PARK PICNIC FOR WHEELY FAMILIES

Around twenty-five members of the Chevy Chase club and their husbands and children, enjoyed their delightful picnic at Haven Park last week, with a swim and supper spread in the cool evening. The crowd went out in cars, returning late in the evening.

ANNOUNCE ENGAGEMENT
MISS DABBY—MR. SWIN

Mrs. and Mr. W. C. Darby announce the engagement and approaching marriage of their daughter, Kate, to Rev. W. D. Swin of Dallas. The marriage will take place Sunday afternoon, August 1.

Announcement
Miss Eugenia Staber left for California until September. Have my dressmaking and hemstitching department in charge of competent seamstress. Phone 4518—adv.

Velvet resturitions in the natural gold and brown shades make a riot of color on a large lachera hat.

TAYLOR-SMITH WEDDING
ANNOUNCEMENT URGENT

Announcement of the marriage of Lloyd Taylor and Miss Mary Smith, daughter of Mr. and Mrs. J. C. Smith, was given in the Times Friday morning from an unauthorized source. The announcement was untrue, and absolutely without foundation.

The woman's page editor is sorry that an adult woman took it upon her to publish the announcement in our paper, so as to cause a stir up and telephone to a newspaper editor a false report.

We are more than sorry that the young people concerned, as well as their families and friends, have been given occasion of annoyance from such a disgusting source.

Mrs. J. S. Pitman

MR. AND MRS. J. S. PITMAN ENTERTAIN WITH MUSICALS

Mr. and Mrs. J. Sidney Pitman were host and hostess to one of the most delightful social affairs of the past week when they entertained thirty-five or forty friends with an all French musicale Tuesday evening.

Chairs were arranged on the lawn, and during the evening the following program was given with an attractive informality: "Spanish Waltz" and "Capitol March," mandolin solos by Frank Reed; "The Sunlight of Your Smile" and "When I Look in the Heart of a Rose," by Paul Van Aliman and Mrs. Pitman; "Tying Apples on the Lilac Tree" and "Landy Lou," Miss Dorothy Burke; "Whispering Hopes" by Mrs. J. Brown Hopkins and Miss Lois Wilson, of Fort Worth; a group of songs by Misses Glenora and Josephine Fick, and by Mrs. Pitman, Camille songs by the Fick girls and Misses Eileen and Charles Pitman, with a closing number, "Ode to Pearl," by Miss Tillie Mae Schaefer.

Old fashioned games and other entertainment, with refreshments of ice cream and cakes, concluded the evening. The guests included a number of out-of-town visitors, with Mr. and Mrs. Louis Hart of Dallas specially honored. Others present Messrs. and Madames E. W. Nicholson, H. W. Roberts, J. Brown Hopkins, Charles Priggen, G. P. Adams, H. M. Evans, E. Humphries, C. L. Ferguson, and C. C. Randle; Madames Sue Kerr and Mitchell; Messes Mary Nell and Helen Morrow of Brownwood; Dorothy Egan, Irene Davidson, Florence Jackson, Tillie Mae Schaefer, Glenora and Josephine Fick, Iowa Wilson of Fort Worth, Alma Kild of Abilene, Beulah Kagan of Kansas City, Ola Stallings of Terrell, Maxine Ferguson, Eleanor and Virginia Egan, Katherine and Gladys Humphreys; C. C. Randle Jr., Fred Wilson, Frank Reid, Sidney Waggoner, Reggie Humphreys, Douglas Van Aliman, Jack and Joe Pitman.

MASTERS BILLY POWERS CELEBRATES A BIRTHDAY

Mrs. Neal Powers entertained a number of little folks Friday in honor of Billy Powers' second birthday, at her home on 1603 Travis street.

After inspection of the many gifts received by the honoree, games were enjoyed and ice cream, cake, and fruit served to Mrs. Francis and Fay Lema, Humphries, Mary Marshall and Taylor Evert, Claude Young Jr., Alton Pitt, C. L. Williams Jr., Bettie Joe Granger, Clifton Brennan, James Walter McCormack and Jack Huff.

MR. ADAMS ENTERTAINED
HONORING HER GUEST

Mrs. O. P. Adams was hostess Wednesday evening at a most attractively planned outdoor musicale and dance on the lawn of her home at 1104 Tenth street, honoring her house guest, Mrs. James V. Mitchell and her daughters, Misses Mary Nell and Helen Morrow of Brownwood.

The lawn was lighted and the guests were refreshed with lead punch during the evening. About thirty-five guests were present.

VISITING CANADIAN ROCKIES

Photo by Nossett

Miss Crystelle Wagoner, daughter of J. L. Wagoner, and T. J. Wagoner Jr., left last week for a tour of Canada and the Rockies and the western coast down to San Francisco. They have planned a most interesting itinerary and will be away several weeks.

Photo by Nossett

MISS MOSELE SMITH HAS BIRTHDAY PARTY

Miss Mosele Smith entertained a number of friends in celebration of her fifteenth birthday, last Thursday evening, at the home of her parents, Mr. and Mrs. C. R. Smith at 2129 Yale avenue.

Music and games furnished delightful entertainment for the evening and dairy refreshments of cream and cake were served.

In the cutting of the birthday cake, Lester Tucker cut the ring, Fred Crow the button, Jack Johnson the dime and Miss Minnie Cook the penny, while Miss Mae Moody received the thimble.

Mr. and Mrs. Walter Smith assisted Mr. and Mrs. Smith in the entertaining of the young people.

Those present included Misses Mabel Brown, Leola Balknap, Irene Edwards, Hazel Johnson, Minnie Cook, Mattie Gramham, Frankie Snodgrass, Josie Lee Wyatt, Bertha Johnson, Mae Moody, Clara Smith, Ruthie Johnson, Ola Johnson, Alice Prickett, Johnnie Dunfield, Bessie Waggoner, Virgie Wilson, Eva Wilson, Lenora Smith; Messrs. W. C. Smith, Oliver Edwards, Allen Anderson, Kilman Bruno, Harold Moore, George Pain, Casbee Snodgrass, Vernon Hammerly, Fred Crow, Lester Tucker, Jack Johnson, Clarence Waggoner, Ambrose Johnson, Russell Ballard, William Miller, Earnest Williams, Bill Smith, George Brown, Clarence Fritz, Manasa Brown, Carl Smith and Roy Sabie.

BARACAS AND PHILATHENS SHOWED BUSINESS AND GAMES

The Baracas and Philathen Sunday school classes of the M. E. church at Seventh and Lamar entertained a recent bride and groom, Mr. and Mrs. Guy McNeely, with a miscellaneous show of last week.

Many beautiful and useful gifts were received, among them being a large cake baked for Mr. and Mrs. McNeely by Mrs. Andrew.

Refreshments of sherbet and cake were served to Madames C. A. Anderson, Ruth Vandegriff, Lillian Ward; Messrs. Margaret Corbell, Anna Byman, Sarah Watson, Ethel Andrew, Clara Corbell, Valere Fish, Estlah Fultz, Margaret Baker, Clara Scofield, Mildred Corhill, Merrie Stewart, Billie Simmons and Mary Underwood; Messrs. Carl Hale, R. E. Wallace, Wilfred Scofield, Earnest Chapin, Earl Neal, J. W. Vandegriff, B. L. Bryana, Floyd Brooks, Charles Claude McDonald and the honoree.

OUT OF TOWN GUESTS TO DANCE AT WICHITA CLUB

Miss Ivy V. Larkin will entertain her friends in the lounge set with a dance at the Wichita Club Tuesday evening, honoring a large party of out of town young people who will be her guests until Wednesday.

The party will include the following: Misses Tena Belle Colbert and Ruth Hastings of Stamford, Linda Bellows, Frances Steele and Josephine Hobson of Fort Worth, Emily Davis of Albany, and Peggy Lewis of San Antonio, all with Ivy V. members of Miss Colbert's house party the past week in Stamford, and Miss Nita Brook Noble of Dallas, house guest at present at the W. B. Larkins; Messrs. Mack Bacon, Tom Blanton and Mat Blanton of Abilene; Mike Planigan and Bill Nall of Palestine, Dick Wortham of Paris, and Warren Hastings, Swede Swanson and Rudolph Swanson of Stamford.

PHILATHENS SURPRISE "TINKY" WITH SHOWER

Miss Birdie Simmons, the very much beloved president of the Seventh and Lamar Methodist Philathen Club, was surprised with a lovely handkerchief shower on the night of her birthday, Monday, by the members of the class.

Mrs. Lillian Ward chaperoned the group and directed the evening's entertainment, and the girls brought with them a big birthday cake baked by Mrs. A. Andrew as a compliment to the honoree, in lieu of candles, the top of the cake was laid with a large and pertinent or impertinent-question mark.

Miss Simmons found herself the recipient of about three dozen beautiful linen embroidered handkerchiefs. The girls enjoyed various games and entertainment, and served cake and cream at a late hour. Those present included Messrs. Ida Byman, Madeline Andrew, Louise Atkinson, Edith Ward, Madeline Chaffin, Mabel Mal, Ruth Vandegriff, Zena Ross, Ruby McNeely and Anna Mages; Ethel Andrew, Annie Ryan, Clara Corbell, Mildred Corhill, Estlah Fultz, Valere Fish, Reba Ireland, Nellie Ivy, Edna King, Birdie Simmons, Maurie Koozfield, Merrie Stewart, Irene Swain, Mary Underwood, Sarah Watson, Nell Watson, Gladys Wisdom, Jess, and Wilston and Gladys and Getavia Sussaba.

CHILDREN HONOR MOTHER WITH SURPRISE DINNER

Mrs. R. E. Humphreys was delightfully surprised on her third birthday anniversary Sunday when something less than a score of the immediate members of her family were in Electra, and in Seymour, arrived for a big birthday dinner in her honor at the home of Mrs. L. A. Fox, one of her daughters, on Pearl Street.

Mrs. Fox and Mrs. R. S. Hill, and other daughters, were hostesses of the dinner, and a very sumptuous feast was spread. The birthday cake was a feature, with "Mother" inscribed in icing on its top. Mrs. Humphreys was very much delighted with the gathering, and enjoyed the occasion very much. She was the recipient during the day of many beautiful gifts from her children and grandchildren, and the one or two dear friends included in the group.

Those who were present were: Messrs. and Madames E. L. Humphreys and daughters, Doris and Alene of Seymour, H. S. Wilson and daughter, Clara May, of Electra, E. Hill, and L. A. Fox; C. M. Humphreys, R. E. Hill and Miss Georgia Britton.

"BUNCH" SURPRISE MISS GARDNER ON HER BIRTHDAY

Miss Bulah Gardner was very happily surprised on her birthday recently when the "bunch" of her young friends gathered at her home Monday evening to help her celebrate the event.

After explanations and considerable fun the celebrants went to the Country Club for a swim, and returned for a watermelon feast. Bulah and Jodie took their Spanish song and dance number which delighted the Kiwanis' this week, and later on the boys and girls presented the honoree with a beautiful comb, accompanied by some appropriate original verses by Audrey Weatherall.

Those present included, Misses Mary Tancher, Fay Cameron, Anna Keenly, Virginia Walters, Bulah Gardner, Annabel Cooper, Jeanette Pignette, Mary Louise Cox and Glenora and Josephine Fick; Jerry Vinson, John Tison, Joe Kerwin

Photo by Nossett

TO PRESENT PUPILS IN RECITAL FRIDAY EVENING

Mrs. Beatrice Fleming will present her pupils in music and expression Friday evening at the Lamar Baptist church in a most attractive program.

The entertainment will begin at 7:30, and relatives and friends of the little folks and the people of the Lamar Baptist community are invited to attend. The program will be as follows:

Chorus, "Singing Birds," Maline Buchanan, Ellen Phillips, Fontilla Warren, Lorretta Nichols, Charlie Mae Eshner, Opal Walters, Mary Dee Adams.

Reading, "Naughty Jimmie Brown," Mildred Lovoy.

Piano, "Nocturne," Miss Doris Farham.

Reading, "What the Little Girl Said," Opal Walters.

Piano, "Doll's Dream," Elizabeth Barker.

Monologue, "Telephone Romance," Betty Dowdy.

Piano, "Little Fairy Polka," Lorretta Nichols.

Reading, "Comin' Thru the Eye," Charlie Mae Eshner.

Piano, "Sweet Violet," Fantilla Warren.

Diastole reading, "Angelina Johnson," Mary Dee Adams.

Piano, "Harbell," Ellen Phillips.

Reading, "Mother's and the Boy," Luella Wainwright.

Piano, "Dahlia Polka," Mosele Smith.

Reading, "Moo Cow, Moo," Mildred Lovoy.

Piano, "Martha," Bonita Humphreys, Mrs. Fleming.

Reading, "In a Dime Museum," Elizabeth Barker.

Piano, "Floral Parade," Opal Walters.

Reading, "Best Things," Maline Buchanan.

Reading, "Maiden's Dream," La Vella Williams.

Motion song, "Crap-Mouse," Mildred Lovoy.

Monologue, "Prior to Miss Bell's Appearance," Lorretta Nichols.

Monologue, "My Mother's Ma," Mary Dee Adams.

Piano, "Over Hill and Dale," Miss Carrington, Mrs. Fleming.

Monologue, "At the Photograph," Elizabeth Barker.

LITTLE PEGGY LAWS HAS BIRTHDAY PARTY

Little Miss Peggy Laws celebrated her sixth birthday with a pretty party at her home on Polk street Friday afternoon, when a picnic lunch was spread from little baskets given each child.

After the lunch several games were played, in one of which Jinnie Green Hawkins won a prize, and in another, Margaret Baker won a prize. The children who helped Peggy celebrate included Mary Underwood, Mildred Corhill, Virginia Rodgers, Dorothy McPhail, Billy Parmenter, Helen Greene, Mabel Greene, Dorothy Belle Clifford, Les E. Boardman, Maurice Boardman, Crawford Deems, J. W. Thomas, Minnie Joe Hayes, Wilma Lewis, Edith Boardman, Margaret Wright, Mary Sue Knight, Margaret Burk, Elizabeth Burt, Dorothy Norwood, Margaret Baker, Phil Fisher, Jonnie Green Hastings, Jimmie Adams, Jeanette Leggett, and Martha Lou Laws.

Y. W. C. A. Summer Encampment at Estes Park; Three Leave Soon

Lillian Rhea Gardner, president of the Business and Professional Women's Club, and Jim Covey, newly elected members of the directorate, and Mary Coffield, member of the club, will represent the Wichita Falls club at the annual Y. W. C. A. encampment at Estes Park this year.

Miss Gardner, who is a daughter of Mr. and Mrs. M. J. Gardner, left several weeks ago in company with Mrs. Stella Mason for California, and is now on her way to Boulder, where a sister resides, and will be in the Park August first, when the two weeks' convention for the young women begins. Miss Gibson, Miss Covey and Miss Mary Coffield leave here Wednesday for Colorado.

On the return home all four girls will spend a day or two in Denver and will go from there to Manitou and the Springs for a several days' visit.

IN THE PICTURES.

In the pictures, from left to right—

Miss Rhoe Gardner, Miss Beaa Gibson, Miss Helen Vandevanter, who recently returned from the big international Christian Endeavor Convention in Des Moines, Ia., and Miss Jim Covey.

Master Jim Keith, son of Mr. and Mrs. George D. Keith, is "somebody" Jim scorns the conventional attire of the modern youngster and turns to his "logs" whenever he gets a chance. Otherwise, you are likely to find him in his blue overalls thoroughly enjoying life.

Miss Leona Maricle, of Wichita Falls, is the new editor-in-chief of the C. I. A. "Dedalian," the girls' college annual, and will bring out the '23-24 edition, with the assistance of a competent staff. Miss Maricle was in Denton recently attending to business in connection with the annual.

MARY CLASS FIRST CHURCH OF CHRIST ENJOY PICNIC

A number of little tots from the first Church of Christ enjoyed a delightful picnic at Bellevue Park, Friday morning, under the supervision of their teacher, Mrs. B. J. McHam.

After playing on the swings, slides and merry-go-round, a lunch was served to Ruby Estelle Box, Evelyn Houston, Eula and Beatrix Allen, Marjorie and Alice Lee, Mabel, Sue and Burnia McHam, Blanche Banowaky, J. B. and Thelma Sprinkle, Erdine Smith and Madeline McHam, Beaman, Smith and Box.

MRS. TITTLE IS HOSTESS HONORING HER SISTER

Mrs. Clyde Tittle was hostess Friday afternoon at a most enjoyable bridge party for her sister, Mrs. Joe Daville of Fort Worth, who is her house guest.

The living room suite was delightfully cool and pretty with its basket of daisies and phlox and other cut flowers, and the hostess served lead fruit punch to refresh the players during the games. Afterward a delicious course of homemade banana nut cream and individual cakes was served in the games. Mrs. Jimmie Collins won high score and was presented a

Photo by Nossett

MISS KATHERINE WEEKS CELEBRATES BIRTHDAY

Miss Katherine Weeks celebrated her 12th birthday Monday with a party for ten of her little friends at the Olympic and delightful refreshment at the Olympic Confectionery later.

The girls enjoyed the Kathryn MacDonald and Bryant Washburn picture, and at the confectionery were served an Olympic special at a birthday table. The guests included Misses Camille Avila, Helen Ayle, Margaret Kendall, Emily Mitchell, Madeline Hill, Rose Martin Art, Elizabeth Langford, Matilda Donnell, Genevieve Fritz, and Margaret Bond.

G. O. AND H. A. T. CLUB WITH MRS. CLIFF EVENTS

The G. O. and H. A. T. Club met with Mrs. Clifford Events at her home on Ninth street Friday afternoon, with two tables of "rags."

Mrs. Neal Powers was fortunate in playing high and was presented with an attractive jar of bath salts, while Mrs. Stanley Granger was consoled for low with a hand embroidered linen handkerchief.

Ice cream and cake were served to Madames W. H. Jackson, C. A. Adams, Stanley Granger, J. W. McCormack, Melvin Johnson, Roy Grimes and Neal Powers.

The club will meet next Wednesday with Mrs. Melvin Johnson at 1405 Polk street.

MISS PEARL RIDLEY IS HOSTESS THURSDAY NIGHT

Miss Pearl Ridley was hostess Thursday night at her home, 801 Travis, to a number of her friends as a little "good bye" before leaving for a several weeks' vacation.

Various entertainments were provided for the young people, and refreshments of ice cream and cake served during the evening. Those present included Mrs. Grace Phillips, and Misses Atchison, Grace Martin, Elizabeth Nicholson, Thelma McCalley, Copeland, Pearl Reynolds, McKee, Reba Ireland, Opal Bellow, Helen Dury, and Floy Varner; Messrs. Cecil Adkins, Vernon, E. C. Martin, Clifford Ireland, Clifford Pike, Jack Phillips, Curley Cutbirth, Ed Duncom, John Yates, E. K. Kingworth, Ira Noble, and Otis Turner.

Take Care of Your Baby This Summer—Household Helps—G

Little Crippled Children Teach More Fortunate Folks a Lesson In Real Character Development

The more you have to put up with, the more gracefully you will go through with it. This is the conviction, as expressed to the American Child Health Association, of an official of a home for crippled children in the west. Handicapped by deformities many of the children of this home, she says, show a disposition which, for its sunny and pleasantness, would put to shame many an individual of normal structure.

It seems, she said, that because of their infirmities, these children have developed a mental attitude, determined to show that they can look on the bright side of things and that they are going to make the best of it. This attitude, she said, is a condition not hard to believe after constant contact with the crippled children and after observation of many who are not crippled. It is a condition affecting the temperamental side of the character, in her opinion, and is present in the mental makeup generally.

To illustrate, she said that people who live in luxury, with no earthly want, often are the ones to complain most and to find fault with insignificant things. Whereas others who, continually struggle to avoid poverty and other hardships, learn to put up with their fate philosophically and actually grow to be cheerful about it.

FULL PROGRAM IS ANNOUNCED FOR PRESS CONVENTION

The complete program for the annual convention of the Northwest Texas Press Association, to be held in Wichita Falls Friday and Saturday, August 17 and 18, was announced Saturday by O. C. Harrison, president of the association. Business sessions will be held at the Kemp Hotel. The program follows:

MASTER PAULA VERNE HARRELL

Paul is the small son of Mr. and Mrs. Verne Harrell, and is this week's Sunshine Garden baby.

(Photos for the Sunshine Garden may be submitted to Miss Davidson, woman's page editor of The Times. No photos of children under one year can be used, and the photo must be a "sunshine picture.")

HOLIDAY REVIVAL TO CLOSE SUNDAY
The revival which has been in progress at the Holiday Methodist Church for the past four Sundays will close with the Sunday evening service. Large crowds have attended the services daily and over 200 additions have been made to the Methodist church. Services will continue through the day Sunday; dinner will be served on their ground at the noon hour. The public is invited to attend these services.

Jellied Meats and Aspics Make Cool and Satisfying Dishes for Summer Menus; Few Good Recipes

By SISTER MARY
Cold Soups
Jellied bouillon is more to be desired in hot weather than hot bouillon. There is just as much nourishment in the cold soup as in the hot.

Jellied Bouillon
Six pounds, knuckle of veal, 1 head celery, 1 onion, 2 carrots, 2 tablespoons salt, 1 teaspoon pepper, 3 quarts water.
Have bones well cracked and sawed. Cut meat in inch pieces. Cut onions in halves and carrots in inch slices. Wash celery and use good to top. Cut in inch pieces. Put all ingredients in soup kettle, using cold water. Bring slowly to the boiling point, skimming frequently. Let simmer without boiling for six hours. Strain and cool. When cold remove fat. There should be about 1 1/2 quarts of stock.
To make the soup, clear and sparkling, wash one egg. Break into a bowl, saving the shell, and beat slightly. Add egg and shell to cold stock and bring to the boiling point, stirring constantly. Boil three minutes. Simmer fifteen minutes. Strain through cheesecloth and set aside to cool. When cool put on ice to chill. This makes a clear light-colored soup that is appealing to see and delicious to eat.

Another Way.
One can canned bouillon, 2 cups water, 1 teaspoon salt, 1/4 teaspoon pepper, 1-2 teaspoon onion salt, 1-2 teaspoon celery salt, 1-4 cup cold water, 1 tablespoon granulated gelatin.
Put soup, water and seasonings into a smooth sauce pan. Bring to the boiling point. Boil gelatin with cold water. Add boiling soup and stir until gelatin is dissolved. Set aside to cool. When cold put on ice to chill and set.

Mammoth Dredging Company For Hydraulic Work After Constant Work

After being steadily and continuously on the job for approximately 14 months, or since Decoration Day, May 30, 1932, the dredge T. B. Noble cast its final mammoth gob of earth upon the embankment of the storage dam at Lake Kemp, chief unit of the Wichita Irrigation project, at 4 o'clock Friday afternoon, and proclaimed to the world at large, by means of a long blast of its klaxon, that a big job was done.

The Puget Sound Bridge and Dredging Company, which has operated the dredge under its contract to erect the embankment for the hydraulic fill storage dam, shipped the big excavator here in May of last year and gave it the signal to start upon its huge task early in June, after a form of launching May 29.

Approximately 100,000 cubic yards of earth remain to be dam in finishing the slopes of and constructing. Operations have been expected to have the diversion dam completed by the end of the season, or in August.

Social Briefs and Notices

The Woman's Auxiliary of the Central Presbyterian Church will have a social meeting in the basement of the church Monday afternoon at 2 o'clock. All members are expected to be present and bring any friends they wish to.

Madame C. H. Reid, J. W. Duval, T. W. Roberts and Fred Cooper will be hostesses at the Golf Club Tuesday.

BANK CLEARINGS LAST WEEK TOTAL OVER TWO MILLION

Bank clearings in Wichita Falls for the week ending July 28, amounted to \$2,034,801.10, a decrease of \$46,828.43 from the total for the week ending July 21, which amounted to \$2,081,629.53.

A detailed report of each day of the week ending July 28, with comparative totals for that and for the previous week, follows:

Day	1934	1933
Monday	\$358,184.13	\$358,184.13
Tuesday	446,643.89	446,643.89

Take Care of Your Baby This Summer—Household Helps—Good Cooking

Little Crippled Children Teach More Fortunate Folks a Lesson In Real Character Development

The more you have to put up with, the more gracefully you will go through with it. This is the conviction, as expressed to the American Child Health Association, of an official of a home for crippled children in the west. Handicapped by deformities many of the children of this home, she says, show a disposition which, for its sunny and pleasantness, would put to shame many an individual of normal structure.

It seems, she said, that because of their infirmities, these children have developed a mental attitude, determined to show that they can look on the bright side of things and that they are going to make the best of it. This attitude, she said, is a condition not hard to believe after constant contact with the crippled children and after observation of many who are not crippled. It is a condition affecting the temperamental side of the character, in her opinion, and is present to the mental makeup generally.

To illustrate, she said that people who live in luxury, with no earthly want, often are the ones to complain most and to find fault with insignificant things. Whereas others who struggle to avoid poverty and other hardships, learn to put up with their fate philosophically and actually grow to be cheerful about it.

FULL PROGRAM IS ANNOUNCED FOR PRESS CONVENTION

The complete program for the annual convention of the Northwest Texas Press Association, to be held in Wichita Falls Friday and Saturday, August 31 and 1, was announced Saturday by O. C. Harrison of Seymour, president of the association. Business sessions will be held at the Kemp Hotel. The program follows:

 - Adjournment.

MASTER PAUL LA VERNE HARRELL

Paul is the small son of Mr. and Mrs. Verne Harrell, and is this week's Sunshine Garden baby. (Photos for the Sunshine Garden may be submitted to Miss Davidson, woman's page editor of The Times. No photos of children under one year can be used, and the photo must be a "sunshine picture.")

Jellied Meats and Aspics Make Cool and Satisfying Dishes for Summer Menus; Few Good Recipes

By SISTER MARY
Cold Bouillon
Jellied bouillon is more to be desired in hot weather than hot bouillon. There is just as much nourishment in the cold soup as in the hot.
Serve in bouillon cups with crisp water.
There is a distinct advantage in serving bouillon as the first course rather than a fruit cocktail in that it leaves the fruit for a salad or dessert.
Cold bouillon needs to be more highly seasoned than hot.
The jelly must be delicate and tender rather than thick and tough, and should be clear and sparkling. Care must be taken that all fat is removed before serving.
Jellied Bouillon
Six pounds knuckle of veal, 1 head celery, 3 onions, 2 carrots, 2 tablespoons salt, 1 teaspoon pepper, 3 quarts water.
Have bones well cracked and sawed. Cut meat in inch pieces. Cut onions in halves and carrots in inch slices. Wash celery and use good 1/2 pc. Cut in inch pieces.
Put all ingredients in soup kettle, using cold water. Bring slowly to the boiling point, skimming frequently. Let simmer without boiling for six hours. Strain and cool. When cold remove fat. There should be about 1 1/2 quarts of stock.
To make the soup clear and sparkling, wash one egg. Break into a bowl, saving the shell, and beat slightly. Add egg and shell to cold stock and bring to the boiling point, stirring constantly. Boil three minutes. Strain through cheesecloth and set aside to cool. When cool put on ice to chill. This makes a clear light-colored soup that is appetizing to eat and delicious to see.
The woman who prefers not to spend the time making her own stock will find the canned soups combined with gelatin a very good substitute.
Another Way.
One can bouillon, 3 cups water, 1 teaspoon salt, 1-4 teaspoon pepper, 1-3 teaspoon onion salt, 1-2 teaspoon celery salt, 1-4 cup cold water, 1 tablespoon granulated gelatin.
Put soup, water and seasonings into a smooth sauce pan. Bring to the boiling point. Soften gelatin with cold water. Add boiling soup and stir until gelatin is dissolved. Set aside to cool. When cold put on ice to chill and set.

Mammoth Dredge Finishes Excavation For Hydraulic Fill Dam at Lake Kemp After Constant Work Nearly 14 Months

After being steadily and continuously on the job for approximately 14 months, or since December 29, May 30, 1933, the dredge T. E. Noble cast its final mammoth gob of earth upon the embankment of the storage dam at Lake Kemp, chief unit of the Wichita irrigation project, at 6 o'clock Friday afternoon, and pronounced the world at large, by means of a long blast of its siren, that a big job was done.
The Puget Sound Bridge and Dredging Company, which has operated the dredge under its contract to erect the embankment for the hydraulic fill storage dam, shipped the big excavator here in May of last year and gave it the signal to start upon its huge task early in June, after a form of launching May 20.
Since then it has labored constantly day and night, Sunday and holidays, with a sufficient amount of work to supply the needs of Wichita Falls for many years to come and to make a fine area of land for the Wichita River valley. At 6 o'clock Friday afternoon, however, just three days of being in operation, the work was completed.
Approximately 600,000 cubic yards of earth were excavated and dumped into the hydraulic fill dam in finishing the job. The dam is now ready for the big operation of filling the reservoir and commencing the irrigation. Operations have been completed and it is expected to be completed in June, after a form of launching May 20.

Social Briefs and Notices

The Woman's Auxiliary of the Central Presbyterian Church will have a social meeting in the basement of the church Monday afternoon at 6 o'clock. All members are expected to be present and bring any friends they wish to.

Circle One of the Floral Heights Baptist Church will meet Monday afternoon with Mrs. R. J. Hutson, 2103 Buchanan.

The South Side Civic League will give a benefit social at the Ninth Street park Friday evening of this week, with music by the Community Band.

Mrs. C. H. Reid, J. W. Duval, T. W. Roberts and Fred Cooper will be hostesses at the Golf Club Tuesday.

BANK CLEARINGS LAST WEEK TOTAL OVER TWO MILLION

Bank clearings in Wichita Falls for the week ending July 28, amounted to \$2,024,802.10, a decrease of \$46,324.42 from the total for the previous week, which amounted to \$2,071,126.52.

PART TWO
HARDEN COUNTY
SHOWING EFFECTS
DRY, HOT WEATHER

CHILLICOTHE, TEXAS, July 28.—Crops in Hardeman County are badly in need of rain. The excessive heat of the past two weeks accompanied by hot wind is causing cotton to wither and unless rain comes within the next few days late cotton will be badly damaged, however the farmers are continuing to stir the ground which is wise under present conditions.

Deadly stuff in many places over the county is burned up, the late crop is looking fine considering the dry weather. Corn is also seeding rain. The sandy land crops are in much better condition than those on the light land. Home grown canteloupes are plentiful on the market, the size and flavor comparing favorably with those of previous years.

Considering present conditions, the general crop prospect over the county is dull and very little money is being spent by the farmers in the section.

Miss Ethel Hall Died Tuesday
Death came a gloom over the entire city Wednesday morning when news reached here of the death of Miss Ethel Hall, which occurred Tuesday night at 10:30 o'clock at the Manor home in Vernon. Miss Hall had been in frail health for some time and very seriously ill for the past two months. She submitted to an operation about two years ago in a Vernon sanitarium but the illness never healed, developing a pus case which finally poisoned her entire system and a few weeks prior to her death typhoid fever developed.

Funeral services were conducted at the Baptist Church at 4 o'clock Wednesday evening by Rev. Pierce Odell, in the absence of C. E. Lancaster, the pastor.

The deceased is survived by her parents, five sisters and a host of friends who extend sympathy in this dark hour.

The body was laid to rest in the Chillicothe cemetery, between a large and beautiful floral offering.

Leon-Nervyfield
R. H. Lyon and Miss Mary Nervyfield, both of the Tolbert community were united in marriage Saturday by Rev. D. J. Murray, at the Presbyterian church.

SLUMP SHOWN IN BUILDING PERMITS FOR WEEK AND JULY

Building in this city during the month of July and the week ending July 28, as indicated by the permits issued from the office of the city clerk, showed a decided slump when compared with the same periods of last year and with previous weeks.

Only seven permits were issued during the week ending July 28; the total amount called for was \$2218. Only one permit was granted for the erection of a new building; the other six were for repairs on business and residence property.

Permits were granted for the following improvements:
Morse Furniture Co., 607 Indiana, repairs on building; \$45.
A. E. Patterson, 2019 Ninth, addition to residence; \$200.

Business Man Sings Praises
"I suffered for years with stomach trouble and gas continually. Doctors thought I had stomach ulcers or cancer. After last attack they advised going to Rochester, Minn., for an operation. A friend advised trying May's Wonderful Remedy, which I did, and I cannot sing its praises too highly, as I can now eat anything and everything. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Macy Taylor and druggists everywhere.—adv."

HARDLY SLEPT FROM TETTER In Itchy Pimples On Head. Cuticura Heals.
"I had tetter on my head so badly that I could hardly sleep at night. It broke out in little pimples and itched and burned. My hair began to fall out and was lifeless and dry. It was this way for several months. "I tried everything I had ever heard of without success. A friend recommended Cuticura Soap and Ointment so I purchased some and after a few weeks I began to show improvement. Now I am healed." (Signed) Miss Susie S. Stroble, R. R. 4, Box 153A, Pine Bluff, Ark.

AMUSEMENT CALENDAR FOR WEEK AT LOCAL THEATERS

'Snowdrift' at Empress Theater Starts Thursday

Charles Jones shifts his scene of activities from the Western plains to the dazzling snows of the Yukon in his latest William Fox production, "Snowdrift," which comes to the Empress Thursday, Friday and Saturday. This is a virtu story of the Northwest which should find a great favor with all movie fans.

In its original form this screen story was a novel by James H. Hendrix, and the leading role seems ideally suited for Charles Jones. Jones has the character of Carter Brant, also known as "Ace-to-the-hole," a mining engineer from the states, who is in love with "Snowdrift," a white child who has grown up with the Indians. A French Canadian run-runner and the captain of a whaling vessel bribe the Indians to help the miner and attempt to steal the girl and sell her into slavery in Dawson.

Empress Offers Special Feature Starting Monday

A college education may be an expensive and successful advertisement for cigarettes—no particular brand—sports, and chorus girls. Then again it may be a fulsome education.

Squire Brigham, in "The Village Blacksmith," a William Fox special, to be shown at the Empress Monday, Tuesday and Wednesday, ascertains vehemently that it's the former. The squire is one of many to say so. He joins Henry Ford, Thomas Edison, Alphonse R. Besse, and other worthies of the anti-college camp.

How many Ansons are there in the hundreds of colleges and military schools throughout the country? This particular Anson squeaked through his final senior exams in that notorious way that leads one to claim "there's a special Providence that cares for fools and children." To cap the climax of his four years of academic extravagance and mental emptiness, Anson married a flapper chorus girl and brought her home to his father, who, after one look, made the most of the situation by smashing her soundly on her artificially red cheeks.

William Duncan in "Playing It Wild"

college tuition and expenses, he had to find him a job in the end. And what a job! All of which is not an exception to the college rule, and it leads up to the question: What is the value of a \$1,500 education in the majority of cases and how can a college education be used to the best advantage and not as expensive advertising for cigarettes, sports and chorus girls?

FOUR BANDITS GET \$4500 FROM BANK OFFICIALS IN AUTO

BARTLESVILLE, OKLA., July 28.—Four bandits who held up several bank officials in Hookerville today escaped with \$4,500 in currency, according to a report received by the police here. A posse was reported in pursuit.

Duncan Shows How the Cowboy Enjoys a Joke

Cowboys are great practical jokers, and in "Playing It Wild" the new William Duncan and Edith Johnson picture which will be shown at the Gem theater on Tuesday, a typical joke of the kind the cow-punchers enjoy is played by Duncan.

Duncan plays a carefree, young cow-puncher and the son of the boss of the ranch where he is riding is dressed and ready for his wedding. Duncan jitters at the corral with the other men, but in easy sight of the house, where the young bridegroom-to-be is waiting, Duncan is showing off how well he can do a broad jump and boasting about it and the young owner goes to him and tells Duncan he can beat him. Duncan jumps; the young owner does beat him by two feet, but he splashes down into a waterhole which Duncan had cleverly screened with hay. It costs Duncan his job in the story, but it's a big laugh.

START MONDAY SELECTING JURY IN GARRATTY CASE
JAMES GARRATTY, Va., July 28.—Selection of a jury in the trial of R. O. and L. C. Garry, brothers and former town officials here, charged with the murder of Rev. E. S. Piers, will begin Monday. After announcing his decision late yesterday denying the state a change of venue in the case, agreement on the motion for which had consumed two days, Judge E. E. White adjourned court over Saturday.

Potatoes grow only to the size of walnuts in Iceland.

BOTH DIVISION OFFICERS TO MEET GENERAL GOURAUD
AUSTIN, July 28.—Call for a meeting of all officers of the 15th division, Texas national guards, to be held in Houston on August 1, was issued today by Colonel Will E. Jackson, president of the 15th division association. The officers of the great General Jules Gouraud, famous French army commander, who is scheduled to visit Houston next week.

Biggest Labor Day Celebration in History Planned for September 3 Under Auspices Unions and Legion

Plans are fast being shaped for the biggest Labor Day celebration ever held in this city on Monday, September 3. All of the labor organizations have joined hands and will participate with the American Legion in making the affair a gala event.

John R. Evans, president of the Painters Craft of Texas, is in the city and is arranging all the details for the celebration. Mr. EVANS has invited Samuel Gompers, president of the American Federation of Labor, to speak at the celebration. A reply from President Gompers says that if it is at all possible, he will fill the position. Subscriptions are being taken among the various crafts and merchants to provide refreshments and entertainment for the occasion. A huge barbecue with pickles and all the other things that go with it will be served at the noon hour. The celebration will be held on the Henderson tract across from Lake Wichita park.

While the affair is under the auspices of organized labor, the public in general is invited, whether affiliated with any craft or not. The celebration, according to tentative plans, will begin with a huge parade in the morning. The parade will be headed by the Okmulgee Boys band of 147 pieces. This band furnished music for the Rodeo at the Burnett ranch and has been secured to furnish the music for the Labor Day event. Prominent speakers, who will speak on topics of interest to the public as well as to organized labor, will appear on the morning program. A special effort will be made to have Samuel Gompers present but in the event he is unable to attend, other speakers of note will be secured. Following the noon day free barbecue, contests and special attractions will furnish the entertainment for the afternoon. The committees in charge of the celebration is in touch with an aviator who will drop from her plane in a parachute to the lake. The contract has not yet been closed but this or some equally thrilling feature attraction will be provided for the celebration. In the evening, boxing and athletic events will be staged at the Legion arena for the benefit of the Legion and the entertainment of the Labor Day celebration. The champions of the Legion's contests will challenge the boxers and wrestlers from the labor ranks. The mat events in the evening will be among the feature attractions of the day and are expected to bring out the best talent in this section. While plans are still in the rough they have progressed far enough so that it is evident Wichita Falls is in line for the largest Labor Day ever held here, when the American Legion and organized labor hold their joint celebration on September 3.

Wake up your Sluggish Blood!

"I am strong, energetic, vigorous, happy!" says Fighting Blood. "My nerves are steady, I am young! My thumbs and flesh are firm from the accumulation of waste products and impurities which cause pimples, blackheads, boils, eczema, rheumatism! I never have the tired, worn-out, run-down feeling! My health is all that is good. I am life itself!"

Blood-cells are the fighting plants of nature. E. S. S. builds them by the million! It has been doing it since 1888. E. S. S. is one of the greatest blood-cell builders, blood-cleansers and body builders known to us mortals. E. S. S. contains only vegetable medicinal ingredients.

Because E. S. S. does build blood-cells, it stops pimples, blackheads, boils, eczema, rheumatism! It builds firm flesh, fills out hollow cheeks, beautifies the complexion and builds you up when you are run-down.

E. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

World's Best Blood Medicine

ST. LOUIS PAYROLL ROBBERY STAGED IN DOWNTOWN OFFICE

ST. LOUIS, July 28.—A \$1,697 payroll was stolen from the office of Compton and Sons' Lithographic and Printing Company, in the busy downtown district today by three unmasked men who held up 18 persons in the office, including three women.

The men entered the office shortly after the money was received from a bank and a woman employe permitted them to pass a hallway as she explained she believed them to be guards in the bank.

The trio then ordered the 18 to hold up their hands and escaped after taking the money off the treasurer's desk.

MONSTER DEVIL FISH IS CAUGHT IN GULF OF MEXICO.
FARAGOUILA MEX., July 28.—A devil fish weighing approximately 1,000 pounds and measuring 14 feet across was caught in the Gulf of Mexico off the FaragoUILA coast by a party of local fishermen who returned here yesterday with their catch in tow of a launch.

The huge fish dragged the launch several miles before surrendering, after three harpoons had been sunk into its body and it had been pierced by nineteen rifle bullets.

Let the Kiddies have all the ICE CREAM

They want. It's good for them. It's both a food and a tonic, especially the kind we serve. Made of the purest ingredients under the most sanitary conditions, our Ice Cream is the best dessert you can serve your youngsters.

They are all good. Here is our menu

- VANILLA
- STRAWBERRY
- CARAMEL-NUT
- BANANA-NUT
- CHERRY-NUT
- PINEAPPLE
- ORANGE PUDDING
- CHOCOLATE
- FRESH BEACH
- ORANGE COMBINATIONS

SECRETS: PINEAPPLE

Holliday Ice Cream

Phone 2152 607 Austin

We Produce 310,000 Pounds of Pure Ice Every Day.

Just think of what a vast amount of Ice that is—310,000 pounds. We tell you this merely to let you know that we're always ready and able to take care of ALL our customers ALL the time, and that you may depend on an uninterrupted supply of ice as surely as you have your card hung out in sight.

In addition to this daily production we have two great store houses filled to the roof beams with a reserve supply to take care of any unusual demand or occurrence.

Is not this the responsible kind of an ice delivery service you would like to depend upon?

Our Service Includes Something More Than Delivery Ice

Pure ice of correct weight, promptly delivered by courteous drivers, is what you pay for, but it is not a full measure of the benefit we want our customers to get from our ICE SERVICE.

We want them to get the most out of every pound of ice they purchase, avoid wasting it, fully protect their food, operate their refrigerators so that they consume as little ice as possible.

We want to make our ice service a factor in their health and comfort, at the least expense to them.

AUTOMOBILE NEWS

Lincoln Car Sales Are Greater Now Than Ever Before

Orders on hand at the Lincoln division of the Ford Motor Company which have been increased for months, continue to be considerably in excess of the production schedule.

Quality buyers in the market in growing numbers are showing a decided preference for the Lincoln and the leadership which it has always enjoyed among the higher priced motor creations is now more pronounced than ever.

While manufacturing facilities have been greatly extended since the Lincoln came under Ford ownership and while they are being still further enlarged, production under the expanded policy of the company always will be more or less restricted because of the exacting high standards set for all details of Lincoln construction.

So insistent is the company in maintaining every feature of its individuality and distinctiveness which characterizes the Lincolns that not infrequently its production is slowed up and some new refinement may be added for assurance given the purchaser that the Lincoln at all times presents the utmost in automobile construction and design.

The Lincoln motor, accepted generally by automotive engineers as the finest of power plants, has been enhanced by a number of refinements which have resulted in improved appearance, increased acceleration, and smoother operation.

Lincoln models present the highest types of craftsmanship by America's foremost body-builders. The purchaser has eight standard models to choose from and where the desire is for even further exclusiveness six Lincoln custom-built enclosed types after the latest developments in this country and Europe.

Purchasers of the standard types have a choice of colors for body finish and in the enclosed types may specify either valour or broadcloth for upholstery. Silk curtains, floor rugs and other furnishings are provided in a harmonious color scheme. All Lincoln models are mounted on the standard light cylinder, 114 inch wheelbase Lincoln chassis and combine the utmost in luxury and exclusiveness.

I DON'T
Most motorists are blooming fools. They critic with the traffic rules. I don't.

I DON'T
No man should try to get the drop on the other fellow. Nor fall to head his sign to stop. I don't.

I DON'T
A man should never drive too fast. Or brag about the cars he's passed. I don't.

I DON'T
For safety first should be his creed. There really isn't any need To drive a car at reckless speed. I don't.

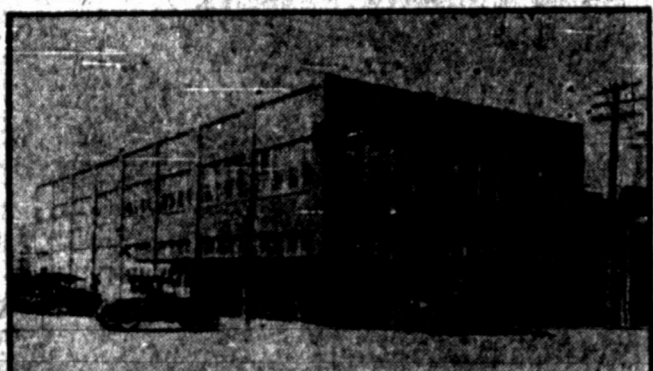

I DON'T
A man should never lose his head When playing a gas-machine. I don't.

I DON'T
On any street or open road. A man should never break the code. Nor follow farmers' locomods. I don't.

I DON'T
He should not scare equestrians. Nor chase the poor pedestrians. I don't.

I DON'T
In fact, I have no car to run. I'm only the coin to purchase one. You think I wouldn't have much fun. I don't.

Overland Motors Company Is Home White Motor Truck; Service Station

In a recent issue of the All-Trade publication connected with the White Truck Company, a page is devoted to "A few dealers' service stations safeguarding investment in White Truck transportation," and the above picture of the legal station at the Overland Motor Company's location occupies a prominent place.

In an editorial in this number the White Company is designated as a "business dedicated to service" and the writer declares that between motor trucks and men a picturesque parallel exists. Men differ in physique; some are more rugged than others. So with motor trucks. When a man is ill his productivity dwindles. When a truck is ill its earning power marks time. The indisposed human consults a physician. The motor truck visits a service station.

The availability of ready and intelligent service is as important to the truck owner as the native ruggedness of the truck. Each is a factor tending to minimize idle time—that deflator of earning power. Both are basic elements in getting efficient motor transportation.

Recognizing this, the White Company years ago set about to build a truck that would do the most work for the least money—one that would need the least service and yet have access to the most.

It is this policy that has been ascribed the phenomenal records hundreds of White trucks have achieved in running from a hundred thousand to half a million miles and a dozen years for owners who considered five years plenty long enough to expect a good truck to toll, pay for itself and return a reasonable profit.

Steadily ownership has grown and with it facilities until today White service is world-wide. With 47 direct factory branches in centers of great truck density, surrounded by a network of hundreds of dealers organized and equipped to service White trucks, there are few places which are very far away from White service.

Thousands of mechanics, trained in White standards of service, safeguard investments in White trucks exceeding \$100,000,000. Free inspection during the life of a truck at any White service station and an advisory service on transportation problems are part of a program of service the purpose of which is to help White trucks do the most work for the least money.

N. M. A. Warns Public Against Grafters Who Get Money Under Pretext Good Roads Development

WASHINGTON, D. C. July 28.—Dedicating that the United States is infested with fly-by-night schemes to which motorists hotel men and garage owners are victims of the most audacious and of the most cunning and of the most brazen and of the most shameless of all the schemes of the National Motorists Association, through its Washington headquarters, is urging the cooperation of all its affiliated clubs in putting an end to what it terms "a pernicious and a graft."

The subject of good roads, say N. M. A. officials, is so near to the heart of every motorist that he can hardly refrain from being gullible the moment the cause is mentioned. The ease with which car owners, garage people, manufacturers, and hotel men contribute to further highway development. It is pointed out, has encouraged a horde of grafters to prey on the unwary. Now, they say, it is up to the automobile clubs to warn members and the associated interests of their communities against those who would use the good roads argument for illegitimate personal gain.

Even the sharp hotel men frequently falls prey to the promoter who promises to arrange fully new State trails as to make it pass the hotel's very door. The garage-man, too, will often pay \$14 for a \$3 sign, if the promoter's scheme is sufficiently attractive.

"These concerns do not render any public service," says Mr. Caley, "nor are they organized or conducted in good faith. They merely exist to much the automobile owner who is held up as an object of legitimate prey. Worst of all, very little, if anything, is being done by either the governments of the various states or the federal government to rid the country of these leeches who are out to get some easy money in large quantities from the automobile public."

"Everyone is naturally interested in increasing and developing motor travel. But the avidity of many motorists, automobile trade people, hotel men, and business men is all out of proportion to their knowledge of the basic facts regarding its origin and trends. Show them a map with lines drawn across it to signify highways and they will give you carte blanche to the safe."

"But around the corner there may exist, neglected so far as they are concerned, an automobile club that has done more to promote motor travel to the particular town than all the trails in the world might in an eternity. "The operations of the good roads grafters are frequently deceiving because they are conducted on such elaborate scales, for the time being, of dealers organized and equipped to service White trucks, there are few places which are very far away from White service. Thousands of mechanics, trained in White standards of service, safeguard investments in White trucks exceeding \$100,000,000. Free inspection during the life of a truck at any White service station and an advisory service on transportation problems are part of a program of service the purpose of which is to help White trucks do the most work for the least money."

Building Program Finished by Hupp President States

Practical completion of its main building program by the Hupp Motor Car Corporation marks the final stage in a plan conceived three years ago to bring under its own control every vital process in building Huppmobiles.

The importance of this control was emphasized in a statement made by Charles D. Hastings, president and general manager of the corporation, yesterday. It reads: "Today, in our plants, our own motor, transmission, axles and all other essential parts are built to our own specifications, for the exclusive use of this corporation. "No compromise of good design-

ing or fine manufacture is ever forced upon our engineers. They are entirely free from the limitations they might meet if they were dependent for some vital parts on outside manufacturing sources. "The Huppmobile has the performance, economy, endurance and long life that it has because there is perfect working harmony among its units. There is this harmony because the proper relation of every part to all others has been worked out by us and is carried out under our own manufacturing supervision. "Our engine, for instance, is designed and manufactured to work with greatest efficiency and economy with our transmission and axles. Each of these units likewise are designed and built under our own supervision to supplement and even increase the economy and efficiency of the engine. "If the Huppmobile is an unusually good car, it is because this manufacturing policy holds that the best craftsmanship must be practiced at all times. "Though the Huppmobile sells in the medium price field, the inspections it is compelled to undergo before its final approval are among the most severe in the entire industry. "Hupp sales for 1922 will be from two to three times those of 1920, when the program was decided upon, it is said. "The corporation's large plants in Detroit, Jackson, Michigan, and Racine, Wis., now give it a total manufacturing space of 2,300,000 square feet. Hupp is one of the largest concerns in the industry, both in number of cars built and sold in sales volume in dollars.

ing or fine manufacture is ever forced upon our engineers. They are entirely free from the limitations they might meet if they were dependent for some vital parts on outside manufacturing sources. "The Huppmobile has the performance, economy, endurance and long life that it has because there is perfect working harmony among its units. There is this harmony because the proper relation of every part to all others has been worked out by us and is carried out under our own manufacturing supervision. "Our engine, for instance, is designed and manufactured to work with greatest efficiency and economy with our transmission and axles. Each of these units likewise are designed and built under our own supervision to supplement and even increase the economy and efficiency of the engine. "If the Huppmobile is an unusually good car, it is because this manufacturing policy holds that the best craftsmanship must be practiced at all times. "Though the Huppmobile sells in the medium price field, the inspections it is compelled to undergo before its final approval are among the most severe in the entire industry. "Hupp sales for 1922 will be from two to three times those of 1920, when the program was decided upon, it is said. "The corporation's large plants in Detroit, Jackson, Michigan, and Racine, Wis., now give it a total manufacturing space of 2,300,000 square feet. Hupp is one of the largest concerns in the industry, both in number of cars built and sold in sales volume in dollars.

New 1924 Model Studebaker Cars Just Announced

The 1924 model Studebaker cars, described as the finest cars ever offered, are announced by F. D. Kellen, local Studebaker dealer.

They are offered in three standard chassis models—the Big-Six, the Special-Six and the Light-Six, which are body cars. There are no radical changes but every improvement, the safety and practicability of which have been verified by Studebaker engineering tests, is embodied in these new cars.

The Big-Six line comprises four models, mounted on the standard 119-inch chassis with 64 horsepower Studebaker motor. They are: Seven-passenger touring car, five-passenger roadster, five-passenger coupe and seven-passenger sedan.

Refinements and a few minor mechanical changes have been made in the Big-Six, which has established an enviable record for five years. Everything for which one can wish in motoring comfort, convenience and utility has been provided.

The 1924 Series Big-Six carry disc wheels and front and rear bumpers as standard equipment. An extra wheel, complete with spare tire, tube and tire carrier is provided on each Big-Six model (two on roadster and sedan).

Other striking features of the touring car include the one-piece, rainproof windshield with glare-proof vision, rear-view mirror and automatic windshield cleaner; walnut all-wood steering wheel with new type spark and throttle control; automatic gasoline signal mounted on the instrument board; aluminum-bound running boards with corrugated rubber mats and step pads and aluminum kick plates; quick-action cowl ventilator, clock, courtesy light, glow lights, tonneau lamp with long extension cord and combination stop-and-tail light; grip handles on body rails, tool kit in left front door, snubbers and others.

The sedan, coupe and roadster are equipped with a large, roomy trunk, while the closed cars have, among many other desirable features, heater, flower vase, interior reading lights, and, in addition, the sedan is furnished with silver finished vanity case and smoking set.

The Special-Six line comprises four models, mounted on the standard 113-inch chassis with 48-horsepower, 64-hp motor. They are: Two-passenger roadster, five-passenger touring car, five-passenger coupe and five-passenger sedan.

Radiator, hood, cowl and body changes have been made in the Special-Six, with minor mechanical changes and refinements in the chassis. The Special-Six has for five successive years added luster to the name Studebaker. It is one of the most satisfactory and finest cars on the market. It is as good in every respect as the Big-Six, except that it is smaller, and costs less to produce, and therefore sells for less.

All Special-Six models are equipped with a one-piece, rain-proof windshield with glare-proof vision, automatic windshield cleaner and rear-view mirror; running board step pads and aluminum kick plates; American patent all-wood steering wheel with new type spark and throttle control, cowl lights, combination stop-and-tail light, quick action cowl ventilator of vast aluminum and an eight-day clock.

An inspection lamp is mounted on the instrument board in the open cars and in the touring car a complete tool kit is carried in the left front door (left door in roadster). Grip handles on the body rails are a feature of the touring car.

The closed cars are furnished with a high grade heater and silver finished flower vase and, in addition, the sedan is fitted with handsome vanity case and smoking set carried in the back of the front seat.

The Light-Six line comprises four models, mounted on the standard 113-inch chassis with 48-horsepower, 64-hp motor. They are: Three-passenger roadster, five-passenger

Although Demand Holding Up Well Aggressive Salesmanship Most Vital Factor in Future of Auto Industry

BY ROY C. HAYES, Universal Service Special Correspondent.

DETROIT, Mich., July 28.—With three or four of the larger manufacturers preparing to launch new models in the next ten days, the industry is operating on healthy summer schedules and at the same time keeping a sensitive ear to the ground. Local automobile factories, generally, are busy, although running about 10 per cent slower than during June. A few factories, however, are pushed to capacity.

Caution in the outstanding notes as competition looms keener. Because of the unprecedented demand during the first half of the year there was more than enough business for all. Even the very small companies whose sales campaigns were negligible, found the period most profitable.

Although the demand is holding up well, the industry is alive to the fact that aggressive salesmanship is going to be much more vital in the future than it was in the past.

One factor the smaller companies will have to bear in mind is that as a result of the increased production facilities in the larger plants made necessary during the "last" six months, three (large) companies are now in positions to take care of nearly all the demands which will be made on them during the coming season. As a result, over the business which went to the smaller companies because of the inability of the larger ones to fill their orders will be negligible during the half of the year. This, for the reason that the bigger companies are now well equipped to handle all probable requirements.

Public Favors Best Known Cars. Strains in the wind of demand indicate that the buying public is favoring the better known cars; the manufacturers of these cars are now in shape to cope with the demand. This means that the weaker and smaller companies will have to do some high class hustling during the remainder of the year, especially in the light of forthcoming announcements to be made by a few larger companies.

It means, too, that enlightened sales campaigns will have to be heralded and backed up with judicious and widespread advertising campaigns. It will be a question of selling rather than delivering. It means moving the light out from under the bushel. It means again that the manufacturer not only inform the public of the value of his car but demonstrate it as well.

It should be borne in mind that the foregoing statements are not predicated on any probable diminution in the demand for automobiles.

Rickenbacker Makes Fourth Trip Around U. S., 1923

DETROIT, Mich., July 28.—Captain E. V. Rickenbacker arrived in Los Angeles, Cal., Thursday, on his fourth big swing around the United States since last December when he returned from Europe.

Captain Rickenbacker is one of the fastest and most industrious travelers in the automobile industry. He makes it a point to visit every Rickenbacker distributor on his own ground, not once, but several times in a year.

"I believe that is the only way a sales director can keep informed as to conditions, which in this industry change rapidly," says Captain Rickenbacker.

In a wire to President R. F. Everett, the captain states that the labor which he has created a tremendous impression everywhere he had been and dealers in many places are now taking orders for as far as 60 days in advance.

"Business is unprecedented for any season of the year, and certainly most amazing for two hot vacation months, which are ordinarily the slackest," says Captain Rickenbacker.

E. L. Roy, manager of advertising and sales promotion, is in California, where, as a guest of Capt. Rickenbacker, he will spend a couple of weeks in the factory, the Bohemian Club and the Redwood Forest.

This grove is really a natural amphitheater, where once each year members of the Bohemian Club spend two weeks, at which time they engage in every form of amusement—such as burying, golf, high jumps, low jumps and as a grand finale, a play written and produced by members of the club.

Many of the most famous men in America—writers, artists and captains of industry, are members of this club and it is considered quite an honor to get an invitation since each member is entitled to invite only one, and that person must live in the Rocky mountains.

Mr. Fallotier, who has been busy for the past few weeks putting over the big four-wheel drive campaign, is enjoying a much needed rest. He will return about August 15.

Still Sleeping Awake. BERLIN, July 27.—General recent arrests have revealed German spies still are active at Saarbrücken, according to government agents.

Law Nudge' Pears 'Em. ATHENS, July 28.—A band of "zealots," led by a Piræus grocer, are administering coats of tar to women they find wearing low neck dresses in public.

The average length of human life in the sixteenth century was only eighteen to twenty years.

Auto Industry In Texas Has Boom In New Buildings

Thousands of dollars are being spent by auto dealers throughout Texas in new buildings; and motor car sales, during the next year will probably be 50 per cent greater in the opinion of L. O. Brown, local Oldsmobile dealer.

"For the first time in several years," Mr. Brown says, "indications are that a real business boom is portending south of the Mason-Dixon line. The most remarkable thing about the new development of the south is the fact that cotton is playing a less and less important part in the financial scheme of things."

"The average business man in Texas," Mr. Brown says, "also shares his view that a business boom is heading in this direction and many automobile dealers are preparing to spend large sums of money in expansion programs to take care of the increased business."

"The building operations among the dealers in Texas are not confined to any one locality or to any one class of dealers handling any one car. Rather," he says, "it is general in scope and can be said to be a miniature building boom in itself."

SHORTER. Americans, as a race, are becoming shorter in stature. So claims Dr. R. P. Millard, spinal expert. He blames it partly on school seats that cramp the growing child. Dr. Millard is crusading for cushioned seats for school children.

A new idea, and worthy the serious consideration of school boards. Pupils might have less "rigid" and generally better nerves and concentration if they didn't have to sit on plank benches.

It is impossible to spend too much for comfortable chairs and beds.

Well, War's Over. BERLIN, July 28.—British postage stamps are replacing the mark in many business transactions. Workmen, especially, are purchasing them, a survey discloses.

A CAR WORTHY OF ITS NAME

This Summer— A Different Vacation!

Surely it is about time. You have worked like a Trojan during the last year—possibly for much longer. So knock off. Taste life a bit from a more refreshing standpoint.

Get out in the open—in an open Rickenbacker. Step on her! Clear your head. Stimulate your mentality. Get off the main road.

Find the highways and byways and enjoy yourself, to the full, with the zest of a child.

George Ade says, "The planet you are now visiting may be the only one you will ever see. Even though you get a transfer, there may not be any Grand Canyons or Niagara Falls."

If you live out West—go East. If you live East—go West. If you have never seen an ocean—see one.

If you are tired of oceans, get up above the timber line and see if you are still in good enough physical shape to stand the altitude.

Get yourself a brand new Rickenbacker Touring Phaeton for a trip like this. For if you are going to take a real trip you want to have a real car—for you must have real comfort.

The Rickenbacker is the ideal car for touring. No nerve racking periods of vibration. You are guaranteed smooth, sweet, steady traveling under all conditions.

And four wheel brakes give the car a quicker cushioned stopping method. Also prevents skidding, and in innumerable ways lengthens the life of the car and the pleasure of motoring.

Let us drive you for a few blocks and show you what a difference there is in driving different cars.

But whether you go in a Rickenbacker or not, be sure and take a real vacation.

The Fall is a delightful time to go.

See America first—then you have seen the choicest.

Before you buy any car, see the STUDEBAKER 1924 MODELS

Studebaker presents its complete line of 1924 models, announced a week ago, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally well known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and

resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of \$1,890 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

Power to satisfy the most exacting owner

THIS IS A STUDEBAKER YEAR

Daredevils of Race Track Know That It is Neither Smart Nor Brave to Go Fast In Crowded Traffic or Roads

By STEVE HANNAGAN (In Collier's)

The streets of our cities will be safer for our boys and girls—who haven't any business to play there but do it because they have to better place—when all motorists are as careful as the daredevil racers. Racing drivers know that it is neither smart nor brave to go fast through crowded traffic.

Jules Goux is the best-known foreign pilot who invades America's speed courses each year. Like most of the foreign drivers, he always lives at a farmhouse near the Indiana Speedway.

Delighted Timid Guest

He uses a touring car on his trips to nearby Indianapolis. On one of the inebriated tours he invited an elderly man, who was slowly trudging along, to accompany him. The man got into the car with some misgiving, not knowing who Goux was, and he confessed to being "very much afraid of speedy, reckless drivers."

Goux's slow and cautious driving reassured the Hoosier, who, as he alighted in the city, said: "Young man, you are the most careful driver I have ever seen on this road. I wish I could always ride with you."

He doesn't know to this day that he rode with one of the most reckless sons of speed who races under the triangle of France. So it is with all famous speed stars. The daredevils of the track are the most cautious in traffic and on the open road.

Forget Speed on Road

With a personal acquaintance with every major-league automobile racing driver, for years he has been a source of wonderment to the writer how these daredevils can throw the speed-records of sensational speeding as they leave the race course and slip into the double wrap of extreme caution for driving on the highways.

People exclaim: "What an awful chance they take!" as they gasp at some driver skidding his car on a turn on a perfectly constructed racing course.

But the drivers usually remark: "What chance they are!" as they watch two drivers race their passenger cars along an unfamiliar highway. Drivers of all sorts, from short-toussered youths to daddies' grandpas, tell you what a short time it took them to get from So-and-so to So-and-so, and what a mistake better than Whataboutam, the recognized speeder of the community, has ever done it.

People Rank Where Speeders Crawl

On the track the speed kings travel as fast as their mounts will carry them. They know that traffic is posted on the road, that the slower they will travel to the inside of the track. If anything happens, they stand at a scientifically constructed retaining wall, which will give them a fighting chance of escape. On the "basement" of their fleetness, they sit as it bounces back on to the track, with the probability of only slight injury.

They don't ever think of driving rapidly in touring cars. They are a crowd of cowards, crawling with the average careless driver.

I have ridden mile after mile, on the open road, with the diminutive Joe Beyer, recognized as one of the most reckless and daring of pilots on the track. Yet when a car comes up behind him on the road, tooting a boisterous warning to make way, he invariably pulls over to his side of the road and signals the car to come ahead, usually remarking: "He's in a bigger hurry than I am, and I was an hour late when I started."

Eddie Hearne, veteran of the track and winner of countless races, took me for a ride in his sedan in Los Angeles the other day, and we moved along so cautiously, stopping at every boulevard and every important traffic artery, that I was a nervous wreck before we had done two miles.

He simply will not drive rapidly off the track, yet he has created numerous world's records in his speed cars.

When Milton Covered His Head

Tommy Milton, who drives an eighteen-cylinder, who has won over the sands of Daytona Beach at the awe-inspiring speed of 154.4 miles per hour, is a brave man, you will grant. One day he climbed back in the late Romeo Baries' big yellow colored touring car for a ride back to Los Angeles following a round of golf at a Pasadena club.

Just as the beloved Baries threw the car into gear and started to roll away, Milton, recognized as a terror on the track, tossed a big coat over his head.

Baries halted and asked: "What's the matter, Tommy—got a chill?"

"No," came from under the mass of cover. "I'm not afraid of you,

but I don't want to watch the fool drivers on this boulevard."

A Pet Shot At An Ace

Louis Chevrolet drove for years in road races on circular dirt tracks, and then on the specially constructed speedways, without sustaining a serious injury. Then he stopped racing. A few months ago, while riding in a taxicab in Chicago, another taxi crashed into his car and Chevrolet was laid up for several days as a result of the smash-up. "Pete makes some queer twists," the active Frenchman remarked to me when I visited him at his hotel. Captain Eddie Rickenbacker, who was a famous speedway star before he went to war and became American ace of aces, was driving along in congested Detroit at his usual easy pace. Unconsciously he observed a taxicab in a badger model of a very popular car, who was moving recklessly in and out of a thick traffic line. The taxicab's horns and jeered at him. A few blocks farther along they shot past Rickenbacker and shouted: "Why don't you learn to drive before you get in traffic!"

Murphy Too Cautious

Jimmy Murphy, the postwar young international champion, winner of the 1912 Indianapolis race in record-breaking time and the only Yankee pilot ever to win a French Grand Prix event, is an exceptionally careful pilot on the streets. Like Eddie Hearne, he gives me a severe case of nerves with his extreme caution when I ride along the boulevard with him. "And personally I am pretty much a 'tricky cat' myself in these speedy days."

But Murphy goes entirely too slow. If I'm in a great hurry, I'd much rather get in a taxi and close my eyes. Murphy will get you there—but slowly.

Harry Hestia, who flashed into stardom this year on the race course, loves to drive an automobile. He has been up at the top of the list in all the races in which he has been entered in his year of success, but you'll find him far in the rear of the traffic line, moving along slowly and cautiously.

It is amusing to watch people drive away from a race course at the conclusion of a thrilling event. Nearly every one of the drivers attempts to emulate the victor in his homeward dash.

Then the herd of the race will come out on the road in his car and will be passed by almost every one who can dodge out of the traffic line.

MOTOR DUST

Of Personal Interest to the Motorist, Public and Dealer.

Frank Quesser, Overland sales manager, was in Dallas last week.

Ben Lockhart of the Lockhart Chevrolet Company has returned from a business trip of several days to the east.

J. M. Finch of the Chevrolet Automobile Company was in Dallas a few days last week on business for the company.

The Arthur Huff motor drove a bunch of Oklahomans over Dallas last week.

Arthur Huff made a business trip to Ranger and Hugo the latter part of the week.

Cecil Putty, service manager of the Dixie Tire Service Company is in Colorado Springs on a two-week vacation, having driven through in the car.

John Morris of the Keim Motor Company, who is taking a vacation through Colorado writes back that his second-hand Buick is "still going on six" and "making time."

Oldsmobile One of Oldest Cars Made Has Birthday Soon

The twenty-sixth birthday, in August, of one of the oldest automobile factories, the Olds Motor Works of Lansing, Mich., is approaching. Hundreds of thousands of cars have been made by the "Granddaddy" of the industry, dating to 1897, when the Oldsmobile saw the light of day.

Back in 1897 R. E. Olds, then a youngster, had a dream. Despite the protests of his father, who was a gas engine builder, he built the

West Texas People Who Are Making A Great Success as Hupmobile Dealers

1—E. H. Overstreet, Hupmobile distributor for east and west Texas. 2—Clark Jennings, Dallas and Fort Worth. 3—Foster P. Jennings, Hupp dealer, Fort Worth and Dallas. 4—Wm. E. Fink, Hupp dealer, Denton, Texas. 5—Chas. C. Culp, Hupp dealer, San Angelo, Texas. 6—Henry C. Redmond, Hupp dealer, Wichita Falls.

While a number of Hupmobile agencies are located in various cities in west Texas, none are doing better than the Redmond Motor Company of this city. This concern is composed of Miss Effie Redmond and her brother, Henry C., and they

bring to the people of Wichita Falls a first class automobile agency, and in offering the public the Hupmobile they know that they have a real piece of merchandise.

That the Hupp is a very popular

car is proven by a recent statement of J. R. Overstreet, who said, after a trip to the factory, "that he was expecting to see his organization sell 150 Hupmobiles per month from now until the first of next year."

are now more than 4,000 employees and this company enjoys the reputation of having the longest automobile factory in the world; its main building being 1,328 feet in length. In addition to this unit there are 24 other large buildings which go to comprise the plant, including a new sale plant, paint shop, enameling ovens, store houses, experimental and service buildings as well as the general offices. Its motor factory is said to

be one of the best equipped and most modern factories in the country.

As a contrast with the great factories of today it is pointed out that when Olds finished his first car he came to Detroit and secured additional finances. In addition to the plant which was then built at Lansing another factory was erected in Detroit but was destroyed by fire in 1894. Olds then confined

AMMONIUM SULPHATE

Ammonium Sulphate is the latest addition to the Ford Family and is now displayed in the show rooms of all the Ford and Fordson dealers in the United States.

Ammonium Sulphate is a by-product of the River Rouge coke ovens. It is Mr. Ford's intention to place it in the hands of the farmers needing a high-grade nitrogen fertilizer, selling it through his dealers at a price representing cost of production. Farmers cognizant of the value of Cotton Seed and Cotton Seed Meal to their lands will appreciate the fact that it takes 290 pounds of Cotton Seed Meal, 1,650 pounds of ordinary fertilizer or 4000 pounds of good stable manure to equal 100 pounds of ammonium sulphate in nitrogen content.

Mr. Ford is constantly bending his energies toward bettering the farmers' economic condition.

If you are interested in increasing the fertilization of your farm, garden, yard or golf links—come in and ask your Ford Dealer about AMMONIUM SULPHATE.

LANGFORD MOTOR SUPPLY CO.
Authorized Dealer, Lincoln, Ford and Fordson
600 Indiana Wichita Falls, Texas

his manufacturing activities to Lansing.

In 1900 this company produced 1,400 cars and in 1901 they made 2,500, a large production, even for today. These cars were sold to motorists all over the world, including Sir Thomas Lipton, the British yachtsman and the queen of Italy and England, also bought them.

In 1902 this company produced the first two-cylinder car ever offered the public and it created a sensation. In 1903 this performance was duplicated with the first medium priced four being brought out. A six-cylinder car followed several years later.

Today this company makes four and eight-cylinder models as well as a one-ton truck.

This company is a unit of the General Motors Corporation, under the active direction of A. R. C. Hardy, president and general manager. He is also a vice president and director of General Motors.

The car has been extensively used as food in China, contains little starch and from a nutritive standpoint is not a wheat substitute, but a substitute for meat or milk.

CONTINUED DRY WEATHER IS PLAGUE TO COTTON

MERKLAND, TEXAS, July 28.—On account of the dry weather, cotton in Childress county has deteriorated considerably within the last few days and unless rain falls soon the yield will be cut very short. Old cotton especially is suffering. Most of the food crops are badly damaged. All adjoining counties also need rain.

AMERICAN OFFICIAL AS TOKYO EMBASSY SUSPECT

TOKYO, July 28.—Walter C. Hagood, language officer of the American embassy here, committed suicide today by shooting himself with a revolver.

Nearly 1,000 diamonds, some of which are said to equal the Timon stones ever discovered in the world, have been found in diamond mines in Arkansas.

Automobile "Vigilantes" Offered As Practical Solution Traffic Problem Of Ignorant and Reckless Drivers

In connection with the constantly growing problem of traffic regulation in cities, C. H. Matt, vice-president of General Motors, believes that definite co-operation by drivers with the traffic departments will help reduce the risks of driving and the number of accidents and deaths.

"There are two classes of drivers responsible for avoidable accidents," says Mr. Matt. "The ignorant driver, who has not familiarized himself with the traffic regulations, and the indifferent or even the culpable driver, who knows the law but breaks it through indifference or plain viciousness. Fortunately the deliberate law-breaker is rare and the driver who is irresponsible through the use of alcohol or drugs can be dealt with like any other criminal—for that is what he is."

"Unfortunately for life and limb, accidents do not take intent into account. The driver who maims or kills another, through ignorance and without meaning to, hurts him just as badly and kills him as dead as if he had done it with all the malice in the world. For his own sake and for the sake of those whom his ignorance menaces the ignorant man must be taught."

"The indifferent driver and the reckless driver are menaces, too, and the result of their mental attitude are just as bad; and murder, if you will, is committed by the criminal. They must be brought face to face with the law, and penalties for their infractions of it."

"An outstanding difficulty in the way of teaching the ignorant and bringing the indifferent and the reckless to book is the comparatively small number of traffic officers available in the city. The number of drivers is so tremendous, in com-

MORGAN GOING ABROAD BUT NOT TO ATTEND CONFERENCE
NEW YORK, July 25.—J. P. Morgan, who is a passenger for Europe on the Homeric sailing today, declared that he did not expect to participate in any official conference abroad, going solely for rest and recreation as is his annual custom. He declared it was unlikely that any further meetings would be called of the international meeting of bankers, appointed last year to study the question of floating a German loan as part of the general reparations scheme. It is considered likely Mr. Morgan will confer in London with Secretary of the Treasury Mellon and possibly with Prime Minister Baldwin.

OPERATION FOR BROKEN NECK FAILS TO SAVE MAN'S LIFE
NEW YORK, July 24.—Rudolph Koehler, of Bayonne, N. J., died today at a hospital here from a broken neck received while giving into shallow water. In a delicate operation yesterday the broken vertebrae were set. Glue and varnish are made from certain sea weeds.

The Reliable Specialist

has returned from his extended Western trip and can be consulted FREE in the NON-SURGICAL office treatment, as heretofore, in all chronic, NERVOUS and SPECIAL Diseases of both sex, and his office is located at 605 1-4 8th St., over Kruger's Jewelry Store, established in Wichita Falls for over 120 years.

Improved methods cure obstinate diseases—My offices are sanitary and thoroughly equipped, and in all cases that are complicated and difficult of diagnosis, I never fail to avail myself of the latest and most complete laboratory facilities.

Among the Diseases in which I specialize may be mentioned all Acute or Chronic, simple or complicated cases, whether originating in the nervous, circulatory or glandular system, weak nerves, insomnia, results of exposure, overwork, neurasthenia, or nervous exhaustion, glandular diseases, functional diseases of the stomach and intestines, bladder and kidney, skin eruptions, eczema, and many other diseases of mankind for which space forbids mention. The thousands whom I have cured during the last 22 years have given me such a wide experience that you can rest assured I will understand your disorder thoroughly, and will make no mistake in its care. If your disease is incurable, I can cure it, and you may be sure that my charge will be satisfactory and within your reach.

Special attention given in the combination of Curative Powers—with the Scientific Administration of Selected Specific Medicines, I endeavor to do everything to promote the welfare of my patients.

CONSULT DR. SCHULTZ, the Reliable Specialist, who is well equipped by long experience that enables him to offer his services on a basis that no other can; his charges are lower for cures than the so-called catch-penny amateurs generally charge for failures.

Those who have wasted time and money and failed to get rid of their ailments are specially invited to consult. I am giving the benefit of over 22 years honorable experience; some of my cures are truly wonderful, yet I do not make the old youngster, nor the blind to see; I simply apply the knowledge my years of honorable experience have given me, and I do this honestly and intelligently.

Special Attention Given to All Diseases of Women

Free treatment to the poor and needy from 9 a. m. to 10 a. m., the only charge to defray the actual expenses of medicine.

Consultation and Examination FREE—Charges so low as to be within the reach of even the poorest. Hours 9 a. m. to 6 p. m. Sundays by special appointment.

either by spring or by heat treatment—will they are not perfectly seasoned. It takes time to age them to a point where they will stand up under such temperature as encountered in the over-day service of the engine.

And we it stands to reason that if we take out a brand new car and "step on it" for the best that's in it, we are making taxing the cylinder castings beyond their capacity to recover—for high speeds mean full power—more heat—more heat—greater likelihood of warping.

Sometimes it's the cylinder barrels that distort—the engine becomes a chronic "oil pumper"—we wonder

COURT HOUSE WILL BE VERY QUIET DURING AUGUST

There will be little activity around the county court house building throughout the month of August, unless special occasions arise to change this atmosphere.

Two of the district courts are in vacation. The third will be open and ready for business, but very few cases are set for trial. No juries have been ordered for the first three weeks of the month. Judge Gay Rogers of the county court at law will also be on hand for at least several weeks during the month, but very few cases are set in his court.

A large number of local attorneys are out of the city on vacation trips, which accounts partially for the inactivity, while a number of officials and employees will also take their vacation periods during August.

Controlling Your Own Money

When you start up in business you always reserve the right to sell your goods when, where and to whom you please. You may even shut up shop when you please. You have the right to the control of your own goods or money—and you wouldn't submit for a minute to anybody else directing you to whom or how you should sell goods or pay money.

Now contrast that position with the situation of the three or four million people who have put their money into public utilities, supplying a service that is absolutely essential to everybody.

BUSINESS CONTROLLED

First they must sell to everybody. Second, they must sell at every place in their territory. Third, they must sell at a price and on terms regulated by an outside power. In fact, their entire business is controlled by public officials, and investors in public utilities do not have the liberty that the ordinary business man has.

Because these utilities are necessary to your well being, because every infringement on their rights directly affects your welfare, you should consider their welfare as your own, and you should, solely in your own interest, demand and insist that they be treated with justice and their regulation be done on the broad lines of sound business, so that they can perform the service you want.

Investors in utilities invest in the good faith of the public. Should that confidence be shaken, investors will not furstandly demanded to service.
