GREAT BRITAIN HAS ACCEPTED PROPOSAL FOR 12-MILE LIMIT

BATTLE WAGED FOR RHINELAND REPUBLIC OF VARIED SUCCESS

OPPOSITION BECOMES STURDIER AS SECESSIONISTS GROW BOLDER.

DESULTORY FIGHTING IN EXTENSIVE TERRITORY

LONDON, Oct. 25. (AP)—The British government has accepted in principle the proposal of the American government that vessels in American waters be searched for contraband liquor within 12 miles of the American shore.

DOES NOT COME AS A SURPRISE TO WASHINGTON

WASHINGTON, Oct. 25. (AP)—The decision of the British government to accept in principle Secretary Hughes' proposal for a 12-mile limit of search for contraband liquor is a complete surprise to Washington officials.

RESOLUTION ASKS FEDERAL BULLETIN ON WEEVIL FIGHT

WASHINGTON, Oct. 25. (AP)—The federal department of agriculture was asked in resolutions presented today to the national boll weevil menace convention in session here to issue at the earliest possible date "in a very large edition" a bulletin or series of bulletins giving in general knowledge regarding the boll weevil and methods of control.

PLAN WIDE DISTRIBUTION AS AID IN WARFARE AGAINST PEST.

WASHINGTON, Oct. 25. (AP)—The federal department of agriculture was asked in resolutions presented today to the national boll weevil menace convention in session here to issue at the earliest possible date "in a very large edition" a bulletin or series of bulletins giving in general knowledge regarding the boll weevil and methods of control.

FORMER EDITIONS OF BULLETINS EXHAUSTED

WASHINGTON, Oct. 25. (AP)—The federal department of agriculture was asked in resolutions presented today to the national boll weevil menace convention in session here to issue at the earliest possible date "in a very large edition" a bulletin or series of bulletins giving in general knowledge regarding the boll weevil and methods of control.

URGES COMMERCIAL AND BUSINESS ORGANIZATIONS OF COUNTRY TO COOPERATE.

WASHINGTON, Oct. 25. (AP)—The federal department of agriculture was asked in resolutions presented today to the national boll weevil menace convention in session here to issue at the earliest possible date "in a very large edition" a bulletin or series of bulletins giving in general knowledge regarding the boll weevil and methods of control.

KELLOGG WILL BE U. S. AMBASSADOR TO GREAT BRITAIN

WILL SUCCEED GEORGE HARVEY, WHO RECENTLY RESIGNED PLACE.

WILL ASSUME DUTIES ON NOVEMBER TENTH

Kellogg Formerly Served in United States Senate From Minnesota.

ST. PAUL, Oct. 24. (AP)—Frank B. Kellogg, former United States senator from Minnesota, whose appointment as ambassador to Great Britain was announced in Washington, has accepted the post and will leave November 10 for England. It was announced here today.

WASHINGTON, Oct. 24. (AP)—Frank B. Kellogg, former United States senator from Minnesota, has been selected for American ambassador to London.

He will succeed George Harvey, who recently resigned, and the appointment is expected to become effective in the near future.

Mr. Kellogg, who was one of the little coterie of personal friends who accompanied the late President Harding on most of his trips away from Washington and was a frequent guest at the White House during the Harding administration, is a lawyer by profession.

In the 1922 campaign he was nominated for the senate by the republicans, but failed to receive a majority of more than 50,000 over his nearest opponent.

Mr. Kellogg is 60 years of age and in 1912 was president of the American Bar Association.

Assumes Heavy Burden. Although Ambassador Harvey said the other day that he would leave the London post with a "clean" conscience, his successor now seems certain to find heavy burdens awaiting him.

Second of first importance in the negotiations in which he will have a part stands the reparations difficulty.

Another question pending between the United States and Great Britain is determining the status of Tangier under the act of Algiers.

Systematic search by a score of small possees having failed to produce results, leaders of the baby hunt, at a conference last night, determined to comb the forest today with a human rake.

HEARST HAS A FORTUNE EXCEEDING \$25,000,000

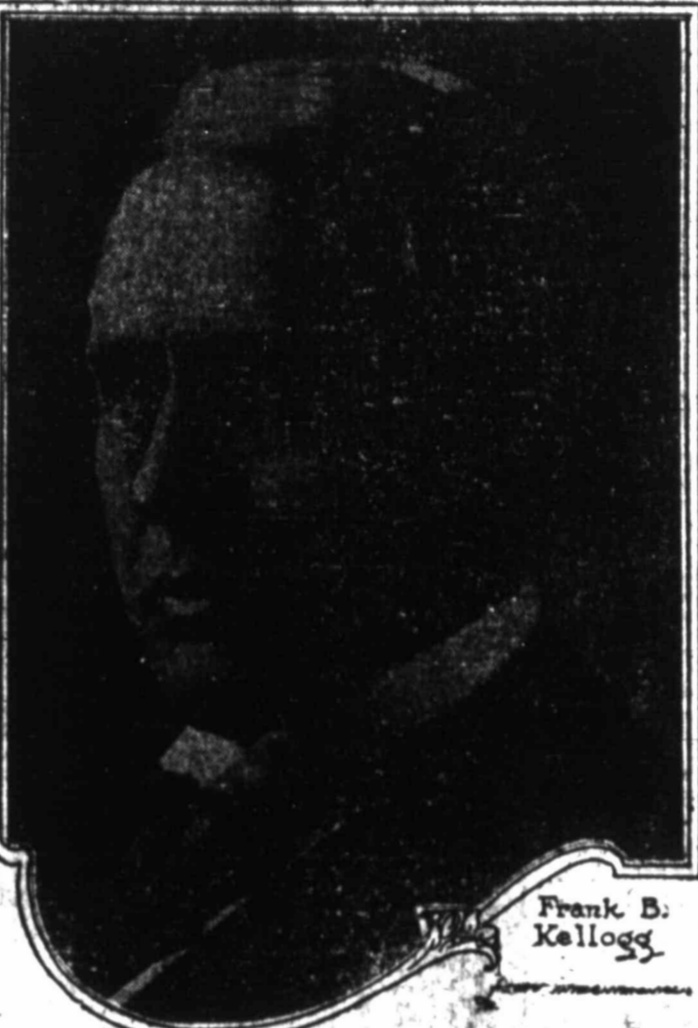

NEW YORK, Oct. 24. (AP)—William Randolph Hearst, newspaper publisher, has a personal fortune exceeding \$25,000,000. It was declared today by Tilton and Wolcott, bankers, who made the announcement in declaring that a new issue bore the unconditional guarantee and endorsement of Mr. Hearst.

PROMINENT MEMBER OF KAPLAN ORDER IS DEAD

SHERMAN, Tex., Oct. 24. (AP)—Walter McCasland, 43, grand visitor for the 17th district for the grand chapter Royal Arch Masons, died in Denison early today following an operation for appendicitis.

He is a citizen of Sherman and was prominent in Masonic and civic circles. He is survived by his widow and one child.

NEW AMBASSADOR TO LONDON

Frank B. Kellogg

Steinmetz Noted Electrical Wizard Dies Suddenly at Breakfast Table

Result Recent Physical Breakdown

DR. CHARLES PROUSS Steinmetz, electrical wizard, died at his home here today of a physical breakdown due to a trip to the Pacific coast which he recently returned.

The attending physician said breakfast when sudden his heart seemed to give way and he died immediately.

The American career of Charles P. Steinmetz, A. M. Ph. D., chief consulting engineer of the General Electric works at Schenectady, N. Y., had its beginning in New York in 1883 where, penniless and able to speak but very little English, he arrived from Zurich, Switzerland.

One of Steinmetz's face was badly swollen as the result of a trifling illness aboard ship and the immigration authorities at Ellis Island refused to allow him to enter the country.

At the time of his death Dr. Steinmetz was regarded not only as one of the foremost authorities on electrical engineering but one of the greatest mathematicians in the world.

Born in the city of Breslau, Germany, on April 3, 1865, and educated at his famous university, young Steinmetz early became interested in socialism at a time when vigorous steps were being taken against it by the government.

At the time of his death Dr. Steinmetz was regarded not only as one of the foremost authorities on electrical engineering but one of the greatest mathematicians in the world.

EUROPEAN EXCHANGES ADVANCE ON MARKET

NEW YORK, Oct. 24. (AP)—Practically all of the European exchanges moved up sharply at the opening of today's foreign exchange market in response to improved speculative sentiment on publication of the Hughes-Curson note exchanges on the subject of reparations and official denial by Premier Baldwin that the English government contemplated adoption of an inflationist policy.

Demand sterling opened at \$4.55, an advance of 1/8 cent over last night's closing quotations. France gained 1/2 cent to \$35 cents; Holland advanced 1/4 cent to 11 cents; Italy advanced 1/4 cent to 14 cents; and the mark advanced 1/8 cent to 14 cents.

WILL LETTERS SOLVE HALL-MILLS MURDER?

Sir Basil Thomson points out a new and undeveloped clue in his analysis of the greatest mystery of recent years. Heretofore professional-etiquette has kept him silent, but next Sunday he relates his real opinions with amazing frankness.

MORE CHARGES IN IMPEACHMENT BILL AGAINST WALTON

TWO ARTICLES ARE ADDED BY VOTE OF HOUSE AT MORNING SESSION.

GOVERNOR DECLARES HE WILL CONTINUE FIGHT

Supporters Plan to File Charges Against Acting Governor and Others.

OKLAHOMA CITY, Oct. 25. (AP)—When the lower house of the Oklahoma legislature recessed at 1 p. m. today for lunch, only two counts on its impeachment bill remained to be considered before the completed bill is ready for presentation to the senate.

The two articles added by the house were approved at the morning session, all by large majorities. Representatives Vernon, Democrat, Wagner, Saltman, Democrat, Melanck, and Harper, Democrat, were named by Speaker Melanck as the house members of the joint committee to investigate activities of the Ku Klux Klan in Oklahoma.

Melanck said that one of the members is a Catholic and that he had been accused the other two are not Klansmen.

OKLAHOMA CITY, Okla., Oct. 24. (AP)—With virtually no debate the lower house of the Oklahoma legislature immediately after convening today added two articles to its impeachment bill against Governor C. Walton, charging him with abuse of pardon and parole authority and with having illegally issued deficiency certificates when deficiencies in funds did not exist.

The vote on the two charges were 72 to 11 and 73 to 9.

Passing swiftly to the charge that the governor had illegally appointed "a large number of irresponsible persons" as state police the house approved it, 73 to 12.

A second article charging illegal issuance of a deficiency certificate was adopted, 81 to 6.

The house by a vote of 77 to 13 approved the charge that the governor had violated his official oath in that he had made a false report of the expenses of his primary campaign.

The charge that Governor Walton abridged the freedom of the press by placing military censors in the office of the Tulsa Tribune and the Henryetta Free Lance was approved, 83 to 7.

OFFENSIVE ATTACK IS PLANNED BY GOVERNOR

OKLAHOMA CITY, Okla., Oct. 25. (AP)—Defeated in his efforts to nullify President Wilson's veto yesterday, Governor C. Walton today is believed to be preparing a final stroke to combat the impeachment proceedings against him.

The executive declared he would "continue to fight" although declining to define his future intention in the Lincoln memorial speech, however, it was said his supporters planned to launch a counter offensive today or tomorrow.

QUANAH-VERNON GAME POSTPONED ACCOUNT OF RAIN

QUANAH, Texas, Oct. 24. (AP)—The Quanah-Vernon football game was indefinitely postponed on account of wet grounds at Vernon, local athletic authorities ascertained Friday morning.

QUANAH, Texas, Oct. 24. (AP)—Governor Parker of Louisiana, whose fight on the Ku Klux Klan has attracted nationwide attention, has rented the Athenaeum, the largest auditorium in New Orleans, for Monday night and will deliver an address to the people of New Orleans which the New Orleans Daily States says will include what he knows about the Klan in Louisiana and its relation to the present state campaign.

TWO INCH RAINFALL REPORTED AT STAMFORD

STAMFORD, Texas, Oct. 24. (AP)—Two inches of rain fell here yesterday bringing the total for October to eight and one-half inches and for this year to 21 inches.

Four children of Frank Abrejel perished when fire destroyed their home at midnight. The parents were severely burned when they vainly attempted to rescue the victims.

FOUR OHIO CHILDREN ARE BURNED TO DEATH

DILLONVALE, Ohio, Oct. 24. (AP)—Four children of Frank Abrejel perished when fire destroyed their home at midnight.

France, Belgium and Italy Have Accepted British Invitation and Conference May Be Held in Berlin

LONDON, Oct. 25. (AP)—France, Belgium and Italy have accepted the British invitation for a reparations conference with the understanding that it shall take the form of a committee of experts under the authority of the present inter-allied reparations commission.

It is understood the British members will be the same as those who served last year on the bankers' committee on which the United States was represented by J. P. Morgan.

It is thought that Berlin will be chosen as the seat of the conference, since the chief function of the committee will be to discuss the German government's financial assets.

Selection of the French, Belgian and Italian personnel is expected to be completed shortly.

WASHINGTON, Oct. 24. (AP)—Although the American government stands ready to enter an European reparations conference having a full audience of allied powers, it is not willing to agree before hand to a meeting at which there might be empty chairs.

Thus, in substance, has Secretary Hughes replied to the latest overtures from abroad for American intervention to untangle the international imbroglio over the collection of war indemnity from Germany.

LLOYD GEORGE TO PAY HOMAGE TO AMERICAN DEAD

WASHINGTON, Oct. 25. (AP)—David Lloyd George, his introduction to official Washington completed, turned his thoughts today to the paying of homage to the memory of the heroic dead who have contributed so much to the greatness of America.

Leaving by automobile early in the day he arranged to go to Arlington National Cemetery to place a wreath upon the tomb of the Unknown Soldier and to visit the last resting place there of all those who have borne the shock of battle for their country.

Then a visit to Mount Vernon and a like tribute paid at the tomb of Washington. Those other precincts of the nation's great Washington monument and the Lincoln memorial.

Having called upon President Coolidge Secretary Hughes and Secretary Vernon today, he returned to his hotel in the city.

The report of the resolutions committee was adopted as recommended, but the convention voted to have a tariff on all vegetable oils that come in competition with cotton seed oil and that in no event a change be made during the present year.

LATE NEWS FLASHES

PANAMA, Oct. 24. (AP)—Advices from Ben del Toro say that 350,000 banana trees were destroyed by the recent storm in Talamanca valley.

CHEROKEE, France, Oct. 24. (AP)—The United States liner Leviathan, with General Pershing on board, arrived in this port today. The general's stormy time at sea which delayed her considerably is in the passage from New York.

SHERMAN, Oct. 24. (AP)—Abie Grinwell, 20 years, constable of the Whitesboro precinct in Grayson county, dropped dead at his home last night. He was 60 years old and survived only by his widow and two children.

EFFINGHAM, Ill., Oct. 24. (AP)—Two deaths today held up two officials and the custodian of the State Bank of Commerce here and escaped with between \$200 and \$500.

MONTREAL, Oct. 24. (AP)—Fifteen persons were injured, four seriously, today when eight coaches of the Canadian Pacific Vancouver-Toronto Express left the track through a broken rail near Savanne, Ont. The injured were in the coal cars on the train, according to a secretary reaching the heads of the road here.

FIFTY CENT WAGE CUT AT MINES IN MONTANA

BUTTE, Mont., Oct. 24. (AP)—Notices of a 50-cent reduction in day's pay were posted at all mining properties in Butte, Anaconda and Great Falls today. The wage cut affects all working on day's pay and contract work. It is estimated that 14,000 men are affected.

TEXANS URGE THAT SPLAWN BE NAMED TO U. S. VACANCY

WASHINGTON, Oct. 25. (AP)—The appointment of Walter Splawn of Texas to a place on the Interstate Commerce Commission, the vacancy in the office of the Interstate Commerce Commission, was argued on President Coolidge yesterday by a delegation from the West Texas Chamber of Commerce which is now in Washington.

PRESIDENT PROMISES TO CONSIDER IN EVENT VACANCY OCCURS.

WASHINGTON, Oct. 25. (AP)—The appointment of Walter Splawn of Texas to a place on the Interstate Commerce Commission, the vacancy in the office of the Interstate Commerce Commission, was argued on President Coolidge yesterday by a delegation from the West Texas Chamber of Commerce which is now in Washington.

DISCUSS ORIENT ROAD WITH CHAIRMAN MYER

WASHINGTON, Oct. 25. (AP)—The appointment of Walter Splawn of Texas to a place on the Interstate Commerce Commission, the vacancy in the office of the Interstate Commerce Commission, was argued on President Coolidge yesterday by a delegation from the West Texas Chamber of Commerce which is now in Washington.

URGES CONSOLIDATION WITH ONE OF FOUR BIG SYSTEMS TO SAVE LINES.

By CHARLES HAYDEN, Washington Correspondent Wichita Daily Times.

WASHINGTON, Oct. 24. (AP)—The appointment of Walter Splawn of Texas to a place on the Interstate Commerce Commission, the vacancy in the office of the Interstate Commerce Commission, was argued on President Coolidge yesterday by a delegation from the West Texas Chamber of Commerce which is now in Washington.

This delegation conferred with Chairman Myer of the Interstate Commerce Commission yesterday and discussed with him the future plans for the Orient railroad.

Systematic search by a score of small possees having failed to produce results, leaders of the baby hunt, at a conference last night, determined to comb the forest today with a human rake.

Another question pending between the United States and Great Britain is determining the status of Tangier under the act of Algiers.

Systematic search by a score of small possees having failed to produce results, leaders of the baby hunt, at a conference last night, determined to comb the forest today with a human rake.

Forest Is Being Combed In Search For Missing Girl

WALDRON, Ark., Oct. 24. (AP)—Five hundred mountaineers, drawn up in a line nearly a mile in length and forming a mammoth "human comb" entered the dense forests of White Oak mountain at daybreak today in another determined effort to clear up the mystery which shrouds the disappearance a week ago of three-year-old Pearl Turner, who has come to be known as the modern "Little Red Riding Hood."

Systematic search by a score of small possees having failed to produce results, leaders of the baby hunt, at a conference last night, determined to comb the forest today with a human rake.

Another question pending between the United States and Great Britain is determining the status of Tangier under the act of Algiers.

QUESTIONS AUTHORITY OF GRAND JURY WHICH RETURNED INDICTMENT

AUSTIN, Oct. 24. (AP)—Authority of the Brazos county grand jury which yesterday indicted Captain B. C. Baldwin of the state guard force on a charge of illegal disposition of seized liquor, was questioned at a statement issued today by Adjutant General Thomas D. Barton.

Adjutant General Barton charged that his department had been compelled to file "quo warrant" in federal court because the department "had never been able to get into state court with a liquor case."

SAYS FRENCH AND BELGIAN BAYONNETTES AIDING MOVE

BERLIN, Oct. 24. (AP)—Chancellor Stresemann at Hagen, Westphalia, yesterday said the separatist movement in the Rhineland was against the unanimous wishes of the German inhabitants who would have put it down speedily but for the support of the French and Belgian bayonettes.

At a conference with the Ruhr and Rhineland industrial leaders the chancellor promised that the government would furnish financial assistance to the occupied regions and that a provisional stable currency would be created by the Rhineland towns.

COLD NORTHEAST RAIN REPORTED AT SEYMOUR

SEYMOUR, Texas, Oct. 24. (AP)—A cold northeast rain continued falling here during Thursday which, according to gauge, netted more than one and one-half inches. Cotton picking and cleaning, which were under full blast, will be delayed for several days.

OUTLINES PROGRAM PROGRESSIVE GROUP REPUBLICAN PARTY

WASHINGTON, Oct. 24. (AP)—Constructive legislation, particularly with reference to the railroads and taxation, is the one aim of the organized group of progressive Republicans of the house, Representative Nelson of Wisconsin said today in outlining the general policy of the organization.

Mr. Nelson, who has been giving close attention to the railroad problem, stated that in his opinion there should be four major changes in the transportation act as follows: 1. Elimination of the so-called grant-in-aid provision. 2. Valuation of the properties of the carriers on the basis of cash investment rather than the book value. 3. Abolition of the labor board. 4. Restoration to the state commission of their control over lines within their states.

With respect to taxation Chairman Nelson favors a modified form of excess profits tax and a constitutional amendment against the issuing of tax exempt securities, such as that proposed by Representative Brown of Iowa, who is in line for the championship of the ways and means committee. Mr. Nelson sees little hope now of a general reduction of taxes, including those on small incomes, explaining that huge sums must be raised to operate the government.

DRAWING FROM THE NUDE IS ABOLISHED BY SCHOOL NEW YORK, Oct. 24. (AP)—Drawing from the nude in the art class at the New Lots High School, Brooklyn, has been abolished as the result of protests by clergymen and parents.

Under L. Ach, the principal, said today that undraped models had been used in the class for years without any protest.

UNDERWOOD GOES TO SOUTH TEXAS; SPEAKS ENROUTE

DALLAS, Oct. 24. (AP)—Oscar Underwood, United States senator from Alabama, left Dallas this morning at 7:30 o'clock for a daylight trip to San Antonio in the interest of his candidacy for the Democratic nomination for president.

STEINMETZ DIES AT HOME IN N. Y. (Continued from Page One.)

which Steinmetz had several articles, was confiscated, the publication suspended and the editors arrested and imprisoned. Steinmetz fled from Germany and found refuge with a friend, a clergyman, near the Austrian border. From there he went to Zurich.

Two weeks after landing in America Steinmetz obtained employment in the manufacturing establishment of Rudolph Eickmeyer at Yonkers, N. Y., as a draftsman.

Dr. Steinmetz served for many terms as the president of national and international societies connected with the electrical industry.

Books written by him include the following: "Theory and Calculation of Alternating Current Phenomena" (1897); "Theoretical Elements of Electrical Engineering" (1901); "Theory and Calculation of Transient Electric Phenomena and Oscillations" (1908); "General Lectures on Electrical Engineering" (1908); "Radiation, Light and Illumination" (1908); "Electric Discharges, Waves and Impulses" (1911); "America and the New Epoch" (1915); "Theory and Calculation of Electric Circuits" (1917); "Theory and Calculation of Electrical Apparatus" (1917). He also wrote numerous papers on mathematical and electrical engineering subjects.

At a demonstration of the Steinmetz "lightning generator" in the laboratories of the General Electric Company in March, 1922, the familiar forked tongues flashed through the air with a deafening crash, splintering a large block of wood, hurling the fragments 25 feet and ripping a miniature tree from tip to base.

FAMOUS INVENTOR IS SHOCKED AT THE NEWS WEST ORANGE, N. J., Oct. 24. (AP)—"The world has lost one of its greatest minds," said Thomas A. Edison today when informed of the death of Charles P. Steinmetz at Schenectady, N. Y. The famous inventor was shocked at the news.

NO MAN LESS FITTED FOR PRESIDENCY THAN FORD SAYS EUGENE V. DEBS

NEW YORK, Oct. 24. (AP)—No man is less fitted for the presidency of the United States than Henry Ford, Eugene V. Debs, socialist candidate for president, told newspaper men upon his arrival last night to open his campaign for the socialist party.

To Begin Prosecution of Alleged Graft and Fraud in Connection With Operation Veterans' Bureau

By Universal Service. WASHINGTON, Oct. 24.—The department of justice will immediately begin prosecution of alleged graft and fraud in the veterans bureau as brought out before the special senate investigating committee.

FORMER DIRECTOR DENIES STORY OF ELIAS MORTIMER WASHINGTON, Oct. 24. (AP)—From his place of seclusion here Charles H. Forbes, former director of the veterans bureau, issued a statement today denying an "utterly and absolutely false" story of Elias H. Mortimer of Philadelphia before the senate investigating committee of

alleged bribery and corruption in connection with contracts for veterans bureau hospitals. "I do not feel that I ought to make any statement in advance of the full and complete testimony which I shall give under oath on the witness stand," said Mr. Forbes' statement.

### COMMUNICATE WITH VESSEL 11 DEGREES FROM NORTH POLE

**AVALON.** Santa Catalina Island, Cal., Oct. 25. (AP)—Direct radio communication with a ship only 11 degrees from the north pole was established here yesterday for a few moments, according to Major Lawrence West of the United States army signal corps, who announced that he had exchanged wireless messages with the radio operator of the Donald B. McKellan polar expedition.

The McKellan exploration vessel, he said, responded to his signals at 10:15 p. m. and sent the following message:

"Winter here with weather below zero and heavy snow. The sun was up for a few minutes today for the last time. All well. We are 11 degrees from the north pole."

### Mexico Deputies Repeatedly Draw Their Revolvers

**MEXICO CITY, Oct. 24.** (AP)—Secretary of Finance Paul appeared in the lower house of congress last night for interpellation regarding the financial condition of the republic and his recent charges of financial mismanagement during the period that Adolfo de la Huerta held the treasury portfolio.

The session was very stormy. The Callista and Huertista factions in the chamber "ostentatiously participated in the debate, while the public was in constant fear that any moment gun play might end the argument, inasmuch as the deputies repeatedly pulled out their revolvers.

Deputies interpellated Secretary Paul, finally concluding that the Mexican government cannot be considered in a state of bankruptcy and that the present middle in its finances dates back many years.

### MORE CHARGES IN IMPEACHMENT BILL

(Continued from Page One.)

presenting impeachment resolutions in the lower house of the state legislature against Acting Governor E. W. Trapp, some members of the senate court of impeachment which will try the executive and other state officials.

This attack in behalf of the governor, it was predicted, will come from an unexpected quarter and will be directed in addition to Acting Governor Trapp, against Attorney General George Short, John A. Whitehurst, president of the state board of agriculture; Frank Carter, chairman of the state corporation commission, and W. C. McAllister, secretary, whose names have already been mentioned.

Received in Illinois.

The suggestion was received in legislative circles in Illinois. Close followers of the situation, on the other hand, recalled the announcement of the house that all state departments would be included in its impeachment investigation and were inclined to the belief that the governor or his supporters would not be responsible for possible proceedings against other officials. It is known that several of the officials named already have been interpellated by the house committee on investigation and impeachment.

Governor Walton has been urged to retain the excessive chair-late yesterday when the state supreme court, signed a permanent writ of habeas corpus, which has been interpreted by the house committee as a resolution ordering his suspension from office until he can be tried on the charges. The writ restrained the governor as a private individual from interfering with the duties of Lieutenant Governor Tom Chambers, who previously had granted the governor's application for an injunction preventing Trapp from acting as governor under the senate resolution.

### U. S. WOULD JOIN NEW CONFERENCE

(Continued from Page One.)

set to elaborate on the secretary's announcement or to predict what effect it may have on the British effort to at least obtain some semblance of a world wide effort to solve the ills of the European continent.

There were indications today, however, that the subject proposed important developments might follow. What would be their direction no one cared to predict.

With Great Britain apparently friendly to the conference in principle, attention now turns to France, whose objections heretofore have made a full participation by all the allies in such a consultation impossible. What measure of confidence in French cooperation may have actuated Lord Curzon to dispatch his message of inquiry to Washington is not known here and officials seemed inclined to await some official expression from Paris before they venture an opinion as to whether the British foreign secretary's venture has succeeded or failed.

If France adheres to the position she has held, it is admitted here that a contributing factor to such a decision may be the insistence of Mr. Hughes that the international debt question is separate and distinct from that of reparations. From the outset there has been no indication that the Washington government had any intention of cancelling debts owed it as a result of the war by France or any other belligerent. Mr. Hughes replied in the debate to Lord Curzon's question of the possibility of American representation on the reparations commission is held by officials to be a natural and inescapable result of the policy followed by the United States ever since it refused to ratify the treaty of Versailles. American membership on this commission as set up under the treaty was an issue in the treaty ratification fight and even the temporary assignment of an American "observer" to serve unofficially with the commission was assailed in congress as an unwarranted interference in the affairs of Europe. An effort at the last session to pass a senate resolution authorizing full representation failed almost in its inception.

Despite their reticence, officials manifestly are pleased that official notice has been taken of Secretary Hughes' New Haven suggestion and that British officials at least have seen in it the possibility of a final solution.

The position of the state department is that Mr. Hughes' reply to the British foreign minister, made public last night, should be left to speak for itself as a reiteration of the American policy. It is pointed out that the communication covered the whole field of current discussion on the subject by renewing the pledge of the United States to help in any way practical, emphasizing the secretary's declaration at New Haven last December in favor of an "advisory" solution by impartial experts and by setting forth against the "armament's strong conviction that all the allied nations must participate if the reparations conference proposal is to be crowned with success.

### Kills Brother As Part of Plan To Marry Wife

**DOUGLAS, Ga., Oct. 24.** (AP)—Pleading for divine help John Alton Rogers, confessed slayer of his brother, related to Sheriff Tanner, according to that official, that he killed his brother, Love, as he slept because he was madly in love with Love's wife and the two had planned to elope. His brother's wife, he told the sheriff, aided in burying the body in a cotton field in the county.

With this new confession in hand county authorities today were making plans to bring Rogers and Mrs. Love Rogers to trial immediately, it was said.

After going into detail about a love pact between Mrs. Love Rogers and himself, John was quoted as saying he and the woman dug a grave and then went to his brother's house where they found him asleep.

"I fired three shots into his body. We undressed him, wrapped the body in a quilt and took it to the arched grave and dropped it in," John's confession reads. "His wife helped me pile the dirt over him. Then we eloped and were married."

Crown Prince Hirohito of Japan mixes freely with the people and defies the traditions which would hold him sacred.

DR. BELL'S Pine-Tar Honey

### CONFERENCE OF EXPERTS ACCEPTABLE TO FRANCE

**PARIS, Oct. 24.** (AP)—The French government is willing that an international conference of experts named by the reparations commission be called to consider the question of reparations in conformity with the treaty of Versailles.

The French government, it was said in official circles this morning, would be most happy if the government of the United States would name an expert to participate in such a conference.

It was announced that Premier Poincare in the name of the French government already had informed Secretary of States Hughes that he would accept an international commission of experts to determine Germany's capacity to pay, but that they must be named by the reparations commission. The British government, it was added, has not yet accepted this condition.

### NEW AND INTERESTING ANGLE TO NEGOTIATIONS

**WASHINGTON, Oct. 24.** (AP)—Continued French acceptance of the proposal that a commission of economic experts be created to determine Germany's capacity to pay reparations, reported in Paris dispatches today, injects a new and interesting angle into the international negotiations disclosed in the publication last night of correspondence between Secretary Hughes and Lord Curzon, the British foreign minister.

Officials said today that Premier Poincare's notification of the willingness of France to accept the commission plan subject to the stipulation that the commissioners be named by the reparations commission had not yet reached the state department. Pending its arrival, it was added, the United States government can merely watch developments and await the results of negotiations which may be in progress between London and Paris and other European capitals.

The Curzon communication manifestly has been viewed here as a preliminary to negotiations among the "European powers, possibly culminating in a formal invitation to the United States to join in an economic conference or in the setting up of an economic commission. Until there is more definite knowledge as to the nature and progress of the negotiations American officials have declined to predict whether the British move is destined to meet any degree of success.

The statement in Paris dispatches

### CONFERENCE OF EXPERTS ACCEPTABLE TO FRANCE

**LONDON, Oct. 24.** (AP)—Official British opinion concerning the response of Secretary of State Hughes to Lord Curzon's reparations conference invitation is cautious and reserved. Broadly, however, there is a feeling in the government departments that America's clear-cut declaration brings an international conference on reparations appreciably nearer.

While the general attitude of the United States on a reparations conference was already well known, British government appears to be much gratified to have the Coolidge administration restate it so specifically and clearly on paper.

There is a distinct feeling of satisfaction over the helpful, friendly tone of the renewed offer of cooperation.

### CONFERENCE OF EXPERTS ACCEPTABLE TO FRANCE

**PARIS, Oct. 24.** (AP)—The French government is willing that an international conference of experts named by the reparations commission be called to consider the question of reparations in conformity with the treaty of Versailles.

The French government, it was said in official circles this morning, would be most happy if the government of the United States would name an expert to participate in such a conference.

It was announced that Premier Poincare in the name of the French government already had informed Secretary of States Hughes that he would accept an international commission of experts to determine Germany's capacity to pay, but that they must be named by the reparations commission. The British government, it was added, has not yet accepted this condition.

IRVING DAVIDSON Phone 4381.

In this space will be printed each Sunday or oftener if necessary, and without charge, notes from those who are in need of something that it is possible some other person has, and would be glad to give, and notes from those who have things they know they could use, and would be glad to do so. It is a good idea to have a list of names and addresses of those who need these notes, and to have a list of those who have things to give. The notes will be furnished to the editor only in each case, when there is a response to the request. The editor will not give names, but they will be in the hands of those who need them, and they will be glad to be made known to any other person whose names are on the list.

"We have had sickness and my husband has been out of work. I would truly appreciate it greatly if some neighbor who has anything they will not use would send it to me. I have two boys in school, ten and twelve years old, who need everything, trousers, and caps. Any shoes, I would appreciate anything in these lines, and thank you for your kind help. Sincerely—Mrs. A. H."

"I would be mighty glad to have a coat suit, if you speak of—Mrs. J."

The coat suit, as the reply to the neighbor giving it stated, has been sent to someone else. However, we had a call this morning from a neighbor, Mrs. H. S. who has a coat suit, and will give you her address."

"I have a good coat for a girl 10, and I think a little dress that would fit the same child."—Mrs. G. L. W.

## The Tangle

Leslie Prescott to Leslie Prescott.

I thought my breath sharply when the man said he would give me three thousand dollars apiece. I wondered if I had a right to sell them. I wondered if Alice knew their value. Surely she could not have known it, nor the person who sold them to her. Where in the world would this mystery end?

I decided to call Alice immediately. I would wait for a letter. In the meantime if I sold three of the jewels with one that was lost, I would have taken twelve thousand dollars from someone who really owned them. Until I knew something about it, I was doing something dishonest to sell them to the broker and asked him to arrange the deal again on the dejected sitting.

"I would give you a check, my dear young lady," he asked looking at me rather peculiarly.

"I would rather have the money," I answered.

"The man sent a boy out to a nearby bank and soon I had nine thousand dollars in my hand. I put the pearls and the money in my bag and was leaving hurriedly when the broker commented, 'If you will allow me to advise you, I would not carry those stones in that careless way. Why don't you put them around your neck? You can let them drop down under your blouse.' I took his advice and started for the station, and then realized that I was very hungry. I had nothing to eat all day. I went into a modest restaurant where to my surprise, I found in one corner of the room very much engaged in each other, Ruth Millington and Walter Burke.

Ruth's conversation was quite as great as mine and yet I felt that in some odd way she was relieved, for she came to my table quickly.

"I'm so glad to see you, Leslie dear," she said. "Are you going back home tonight? If so, may I go with you?"

"Mr. Burke said nothing, but I knew he was very much annoyed when I answered, 'I'm going just as soon as I can get a little something done.'"

"Have you a statement?" he asked abruptly. "He seemed to make the question arise, something which Ruth had spoken to him before I came in."

"No, I was not sure I'd get my

## Varicose Veins Are Speedily Reduced and Terrible Eczema Goes Quickly

There is one simple and inexpensive way to reduce dangerous, swollen veins and hemorrhoids, and get them down to normal, and that is to apply Moore's Emerald-Oil night and morning. People who have painful, enlarged veins should not neglect them for they sometimes burst and cause much misery and loss of time. Moore's Emerald-Oil besides being so marvelously antiseptic that it at once destroys germs and poisons caused by germs in such a remarkable healing agent that common hemorrhoids, salt rheum and other inflammatory skin eruptions go in a few days. Files are quickly removed and even serious, weaned and enlarged glands are dissolved.

For years it has been used in hospitals for boils, carbuncles, ulcers, abscesses and open sores, and with the most perfect success. With each original bottle which any pharmacist can supply you, is a folder that gives instructions for use in all of the above distressing complaints. Your druggist will be glad to supply you—ADV.

## Resinol

for that skin eruption

You don't have to wait to know that Resinol Ointment is going to overcome your skin trouble. It gives quick relief from the itching and burning and so generally succeeds in clearing away the eruption that, with Resinol Soap, it is the standard skin treatment in thousands of homes.

Resinol ointment sold by all druggists.

### STY MEETING STOCKHOLDERS ALLIED OIL CO.

### CONFUSION IN NEW TRIBUNE REPORTER TESTIFIES.

### EVE IS HEARD AT L OF DOCTOR COOK

### Judge and Former Senator Engage in Another Heated Clash.

WORTH, Oct. 26. (AP)—How a stockholder of the Allied Oil Company called in New York, W. F. Welty, one of the defendants in the federal court case, Dr. Frederick A. Cook on Oct. 21 using the United States in default in connection with the operations of Dr. Cook's company introduced resolutions that the right to vote be turned over to him; was by Dr. Cook on Oct. 21, 1922, in New York, N. Y., a reporter for the New York Tribune. Dr. Cook testified that he was not present at the meeting. He stated that Welty told him that he had no connection with the operations of Dr. Cook's company. He testified that the Allied Oil Company had no production wells and that Welty was not a stockholder. He testified that the operations of Dr. Cook's company were being run by Welty, signed by him as trustee for the company.

when he had no connection with the organization. Postal Inspector Testifies. John S. Swenson, postal inspector, testified that after Welty was indicted he told him he should not be held responsible for his operations as he was "merely an agent for Dr. Cook."

Joe F. Anderson of Chicago told the jury that he had invested in the Allied Oil Company and that he later transferred the stock to the Petroleum Producers' Association. He testified that he bought the stock on the strength of a letter saying that a 100 per cent dividend was to be declared. Later, he stated, he purchased additional stock in the Petroleum Producers' Association when he received a telegram that a 10,000-barrel gusher had been brought in at the Seneca over, Ark. field. Anderson stated that the only dividends he received were two \$2 payments from Dr. Cook's association.

Judge John M. Hillitt, hearing the case, and former Senator J. W. Bailey, leading counsel for the defense, engaged in another heated clash this morning when Judge Hillitt asked the witness to face him and not the jury when he made remarks that should be addressed to the court. Mr. Bailey took exception to Judge Hillitt's remarks, saying "I was facing the court, looking directly at him."

### Young Men Are Arrested When They Make Sale

Carl Ferguson and C. D. Bomar were arrested Thursday evening at 8 o'clock by members of the sheriff's department when it is charged, they had made a sale of an automobile casing and three inner tubes. Thursday night it was learned that the casing and tubes in question were those which disappeared from the Meridian Garage, which had been broken into some time Wednesday night. The men were placed in jail and charges of burglary were filed against them Friday. Their bonds were made returnable on November 12, the date when the grand jury of the 18th district court reconvenes following a two-week recess.

### FURTHER VIOLATIONS SHIP LIQUOR RULING REPORTED IN N. Y.

### WASHINGTON, Oct. 26. (AP)—

Renewed violations in New York of the supreme court's ship liquor ruling have been reported to the department of justice and are being investigated with a view to possible seizure of the vessels involved. Officials here decline to disclose the registry of these ships which are said to have been promptly opening up their bars and selling liquor as soon as they cross the three-mile limit on their eastward voyage. This is done without stopping and without time to secure liquor from rum runners hovering off New York and is regarded by officials here as prima facie evidence that liquor was retained aboard illegally while the ships were in American waters. The present investigation of the department of justice, officials said today, is designed to secure concrete evidence of secret retention by ships of their bar supplies upon entering New York. If the evidence secured responsible officials declared that seizure proceedings would be instituted.

### REQUESTS INFORMATION ON PAROLEES IN TEXAS

AUSTIN, Oct. 26. (AP)—Information on the number of prisoners pardoned and paroled in Texas in the last year was requested in a communication from a special counsel for Governor Jack Walton of Oklahoma received today by Secretary of State S. L. Staples. The request, signed by W. E. Riddle, Walton's counsel, asks that the information be given of the pardons, paroles and commutations of sentence be listed for each year. It is believed by state officials here the information is desired for Governor Walton's defense in the impeachment charges pending against him in Oklahoma. One of the counts charged him with releasing a great number of prisoners while governor.

### SAYS PILES HEAL UP AND DISAPPEAR FOREVER

Wichita Falls to Give Absolute Relief from All Piles and Suffering. Guaranteed by All Good Druggists.

Many sufferers from piles or hemorrhoids have become despondent because they have been led to believe there was nothing in the world to help them. To these people we say, "Go to your druggist and get an original box of Moava Suppositories." One of these inserted into the rectum according to directions will be found to give immediate relief. They reach the source of the trouble and by their soothing, healing, antiseptic action first allay the pain and soreness and then by direct contact with the store and piles cause them to heal up and disappear forever.

### SAYS HIS PRESCRIPTION HAS POWERFUL INFLUENCE OVER RHEUMATISM

Mrs. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities commonly called uric acid deposits were dissolved in the joints and muscles and expelled from the body. With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system. He freely gave his discovery, which he called Alenrahu, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Alenrahu with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. False Drug Store and Central Drug Store will supply you. Mail orders accepted.

### WHOLE CAUGHT OFF GREENLAND

A whale caught off Greenland had in its body the head of a harpoon, which experts estimate had been there at least 50 years.

Mexico for restocking purposes will be exempt from taxes for five years.

Electric washing machines, with folding wringers, are made to occupy the space of a chair so they can be used in kitchens.

Over \$25,000,000 gallons of kerosene were exported by this country last year, nearly half of it going to the Orient or Australasia.

LIVESTOCK EXCHANGE IN MEXICO. EAGLE PASS, TEXAS, Oct. 26. (AP)—Steps looking to the restocking of the range of the state of Coahuila, Mexico, and for protection of stock raisers was taken last night in organization at Piedras Negras, opposite Eagle Pass, of the Coahuila livestock exchange. Dr. B. Montemayor of Eagle Pass was made secretary of the exchange whose by-laws follow closely those of the Texas and Southwestern Cattle Raisers' Association.

### FINGERS MAY SEARCH PRIVATE HOMES WITHOUT WARRANTS BY TURNING THE EVIDENCE OVER TO FEDERAL OFFICERS

ANTONIO, Oct. 23.—State officers search private homes for a search warrant and turning the evidence over to the federal officers, can do without a search warrant, according to a decision handed down by the state supreme court today.

The state supreme court today held that a search of a private home without a search warrant is not unconstitutional if the evidence is turned over to federal officers.

The court's decision was based on a case involving a search of a private home for evidence of a crime. The state officers had searched the home and found evidence. They then turned the evidence over to federal officers, who searched the home without a warrant.

The court held that this was not unconstitutional because the federal officers were acting in their own right and were not acting as agents of the state.

The court also held that the state officers' search of the home was constitutional because they had a search warrant.

The court's decision is a significant one because it allows federal officers to search private homes without a warrant if the evidence is turned over to them by state officers.

### MARANTZ OPENS NEW SELF-SERVING GROCERY

Mr. Marantz, who has successfully operated the Busy Bee fruit store on the corner of Seventh and Indiana, will open a self-serving grocery store at 116 S. Indiana avenue, Saturday morning.

This is the location formerly occupied by the O. W. Smith grocery store and has been completely remodeled and entirely redecorated in white with a blue border and blue accents.

Groceries, fruits, vegetables and bakery products will be handled, and Mr. Marantz declared that the customer will get the benefit of the money saved on overhead, by use of the self-service method.

Only the best of all products will be carried, including nationally known and advertised brands of groceries and the same high grade line of fruits and vegetables for which Mr. Marantz' fruit store has won an enviable reputation.

Spotless sanitation and the greatest care in handling all products will be maintained, it was stated.

Mr. R. R. Corker, who has had years of experience with the Piggy-Wiggly stores, has been obtained to manage the store. Mr. Marantz stated.

A price of 1169 is being offered for the best and most appropriate name for the store to be suggested by local merchants, the winner to be announced at a later date.

Czechoslovakia has 832 moving picture establishments, with a total seating capacity of 23,000, but only a few give performances daily.

Few women in Guadalajara, Mexico, wear hats, but those that do may indulge in styles not elaborate enough, so they buy from France.

### Ford Will Build 30,000 Homes On 5000 Acre Tract

DETROIT, Oct. 24. (AP)—Erection of 30,000 homes on a 5,000-acre tract of land, south of the Dearborn plant of the Ford Motor Company is planned by the Ford company, according to an announcement by Henry Ford. The houses are to be constructed of cement according to a plan perfected by Thomas A. Edison.

The tract will be sold to any person who desires to buy them and at a price which is close to cost, according to Mr. Ford. Purchasers will be given advantage of the difference in land values now and when the tract was purchased eight years ago.

**GREAT FIELD FOR BUILDING AND LOAN ASSOCIATIONS**

DALLAS, Oct. 23. (AP)—There is a great field in Texas for building and loan associations, B. Werkschlagin of Austin, deputy state insurance commissioner, said in an address here today before the opening session of the annual convention of the Texas League of Building and Loan Associations. The state is attracting a large number of new citizens and enterprises and for this reason some system should be found whereby a salaried man can own his home here, he said.

The state's building and loan laws are fully adequate to bring about a safe and dependable operation of this form of business, Mr. Werkschlagin declared, but "like most laws, are subject to the contortions of a designing beneficiary" aided and abetted by unscrupulous lawyers.

It depends ultimately, he said, upon the character of the men who operate the business as to whether it is to be conducted in the mutual interest of all concerned or only to the interest of officers, directors and trustees.

**NEW NAVY RECRUITING OFFICER TAKES CHARGE**

E. I. Parria, recruiting officer for the United States navy, arrived here Thursday and took charge of the local recruiting office. Mr. Parria came here from the recruiting station in San Angelo and succeeded P. C. Holler, Jr. Holler left Wednesday for Dallas; from Dallas he will be transferred to the U. S. E. Concord in Philadelphia. Mr. Parria's office is located in the naval recruiting office at the city hall in the office of the city engineer.

**SHERIFF'S SALE**

The state of Texas, county of Wichita, Notice is hereby given that by virtue of a certain order of sale issued out of the honorable 35th district court of Wichita county, said county, on October 19, 1932, by A. F. Kerr, clerk of said court, for the sum of one hundred and twenty-two dollars and cents of certain judgment, in favor of State Trust Company, in a certain cause in said court, No. 15,640-C and entitled State Trust Company vs. Heaver-Electra Refining & Tank Line Company, and glosed by Sheriff J. W. Murphy as sheriff of Wichita county, Texas, did, on the 11th day of October, 1932, levy on certain real estate, situated in Wichita county, Texas, described as follows, to-wit: Three certain lots, each one-half acre of land lying, located and being situated in the county of Wichita, state of Texas, more particularly described as follows: Being out of section No. 11, certificate No. 341 H. T. & B. Ry. Co. survey, abstract No. 134, patent No. 585, volume No. 12, lying south of the Fort Worth & Denver City Railway Company right of way and being in two tracts as follows:

First: tract beginning at a point on the E. W. corner of section No. 11; thence north 63 degrees 22 minutes, east 492 feet, along the south property line of the P. W. & D. C. Ry. Co. to the intersection of said property line with the south line of said section No. 11; thence west on the south line of said section No. 11, 858 feet to the place of beginning, containing 41.95 acres of land, more or less, and being out of the property of Heaver-Electra Refining and Tank Line Company and that on the first Tuesday in November, 1922, the same being the 6th day of said month, at the court house door, of Wichita county, in the city of Wichita, Falls, Texas, between the hours of 10:00 a. m. and 4:00 p. m., by virtue of said levy and said order of sale, I will sell said above described real estate at public vendue, for cash, to the highest bidder, as the law directs, in compliance with law, I give this notice by publication in the English language once a week for three consecutive weeks immediately preceding said day of sale, in the Wichita Daily Times, a newspaper published in Wichita county, Kansas, my hand, this 11th day of October, 1932. # THE MARKETS

COTTON—GRAIN—FINANCIAL—LIVESTOCK—PRODUCE

### COTTON MARKET

**Local Cotton Market.**—Receipts, morning, including 125 bales. Opening, steady, advancing 1/2¢. New York Cotton. NEW YORK, Oct. 25.—The cotton market showed renewed activity and strength early today owing to continued bad weather reports from the south, relatively firm Liverpool cables and a further broadening of speculative buying demands. The opening was steady at an advance of 1/2 to 3/4 points and the active positions were advanced but gained at 10 to 20 points, making new high records for the session. December contracts sold at 23 3/4 and March at 23 1/4. Liverpool cables reported an improvement in trade with continued buying freely, but the market was deemed to be chiefly influenced by better weathering weather conditions and the tendency to hold down prices. Total estimated crop at 12,500,000 bales. There is a possibility of 10 to 12 points, but offerings seemed comparatively light and prices firmed up again late in the forenoon. The western belt forecast for continued rains seemed to check the selling and the market was held steady around 10 to 15 points, with a slight advance in prices for futures. December sold at 23 3/4 and March at 23 1/4. There was more reactionary sentiment during the latter afternoon with prices making off to 20 to 25 points for December and 15 to 20 for March, or about 25 points from the best under existing. Prices were within 1 or 2 points of their highest around 20 to 25 points with the market rather nervous and unsettled.

**Cotton.**—Futures, all closed fairly steady.

Month	High	Low	Close
December	23 3/4	23 1/4	23 3/4
January	23 3/4	23 1/4	23 1/4
February	23 3/4	23 1/4	23 1/4
March	23 3/4	23 1/4	23 1/4
April	23 3/4	23 1/4	23 1/4
May	23 3/4	23 1/4	23 1/4
June	23 3/4	23 1/4	23 1/4
July	23 3/4	23 1/4	23 1/4
August	23 3/4	23 1/4	23 1/4
September	23 3/4	23 1/4	23 1/4
October	23 3/4	23 1/4	23 1/4

**New Orleans Spot Cotton.**—NEW ORLEANS, Oct. 25.—Spot cotton, middling, 40 to 45; fair, 35 to 40; good, 30 to 35; low, 25 to 30; very low, 20 to 25; extra, 15 to 20; receipts, 17,000; stock, 137,710.

**Texas Spot Cotton.**—DALLAS, Oct. 25.—Cotton, steady; receipts, 10,000; stock, 11,000.

**Chicago Cotton.**—CHICAGO, Oct. 25.—Cotton, steady; receipts, 10,000; stock, 11,000.

**London Cotton.**—LONDON, Oct. 25.—Cotton, steady; receipts, 10,000; stock, 11,000.

**GRAIN AND PRODUCE**

**Local Grain Market.**—Wheat, Basis No. 1, \$1.41; No. 2, \$1.37; No. 3, \$1.33. Receipts nominal. Receipts, nominal.

**Chicago Grain.**—CHICAGO, Oct. 25.—Although the wheat market took a pronounced advance early today, it closed today a decline on net in initial gains were ascribed to news from Washington about plans proposed for government financing of wheat and flour exports to Germany. The big discount prevailing for future deliveries as compared with the cash market tended to restrict selling. Closing quotations: Wheat, No. 1, \$1.41; No. 2, \$1.37; No. 3, \$1.33. Corn, No. 1, 74; No. 2, 71; No. 3, 68. Oats, No. 1, 42; No. 2, 40; No. 3, 38. Lard, No. 1, 12.50; No. 2, 12.00; No. 3, 11.50. Hams, No. 1, 11.00; No. 2, 10.50; No. 3, 10.00.

**NEW YORK.**—Wheat, No. 1, \$1.41; No. 2, \$1.37; No. 3, \$1.33. Corn, No. 1, 74; No. 2, 71; No. 3, 68. Oats, No. 1, 42; No. 2, 40; No. 3, 38. Lard, No. 1, 12.50; No. 2, 12.00; No. 3, 11.50. Hams, No. 1, 11.00; No. 2, 10.50; No. 3, 10.00.

**LIVESTOCK**

**Chicago.**—CHICAGO, Oct. 25.—Cattle, 10,000; calves, 2,000; hogs, 15,000; sheep, 5,000; pigs, 3,000. Market, steady.

**St. Louis.**—ST. LOUIS, Oct. 25.—Cattle, 10,000; calves, 2,000; hogs, 15,000; sheep, 5,000; pigs, 3,000. Market, steady.

**Kansas City.**—KANSAS CITY, Oct. 25.—Cattle, 10,000; calves, 2,000; hogs, 15,000; sheep, 5,000; pigs, 3,000. Market, steady.

**Minneapolis.**—MINNEAPOLIS, Oct. 25.—Cattle, 10,000; calves, 2,000; hogs, 15,000; sheep, 5,000; pigs, 3,000. Market, steady.

**STOCK MARKET**

**NEW YORK.**—NEW YORK, Oct. 25.—Price changes in the opening of today's stock market were again irregular. Standard Oil advanced 1/2 point, a new low on reports of new financing. National dropped 1/2 point and some of the reports made partial recovery from recent heavy losses.

**Chicago.**—CHICAGO, Oct. 25.—Foreign exchange, firm; quotations in cents: Great Britain, 148 1/2; France, 125; Germany, 12 1/2; Belgium, 12 1/2; Italy, 110; Spain, 165; Portugal, 200; Netherlands, 200; Sweden, 200; Denmark, 200; Norway, 200; Finland, 200; Greece, 200; Turkey, 200; Egypt, 200; Persia, 200; India, 200; China, 200; Japan, 200; Philippines, 200; South America, 200; Africa, 200; Oceania, 200.

## Business Council Names Committee To Investigate Feasibility of Reducing Water Rates In City

Steps, which if possible, will lead to a cheaper water rate in Wichita Falls, were taken at the luncheon of the business council of the chamber of commerce at the Kemp hotel Friday, when Chairman T. F. Duncan called for a discussion on water rates and the possibility of a reduction.

F. N. Lawton, manager of the city water department, said he was entirely in sympathy with the move and was anxious to see the people of Wichita Falls allowed as much water as was necessary to grow their crops at the lowest possible rate.

Mr. Lawton described in detail the process of pumping water from Lake Wichita, treating it with lime and alum, the filtration process through sand and gravel, then the aeration and treatment with chlorine before it was pumped into the mains as suitable for drinking purposes.

"The irrigation project and the amount of water that is brought from there will not materially affect the rates in Wichita Falls," Mr. Lawton said. "The irrigation project is entirely separate from the water department; our great expense is in operation and treatment of the water and the laying of extensions."

"The water department is now on a paying basis; we have been able to take care of some extensions and keep our debt; I am in favor of a cheaper rate if it can be had without damage to the department, which is now on a self-supporting basis," Mr. Lawton concluded.

It might be possible to increase the supply and maintain the present minimum of five cfs per acre, and required about the increase in overhead expense for supplying one-third more water to each customer per month.

Luther Hoffman made a motion to appoint a committee to go into the matter with Mr. Lawton and the city officials, with a view to working out a plan which would make a check on the rate possible. The motion to appoint such a committee passed unanimously. Judge A. H. Britain, R. A. Thompson, and Luther Hoffman were appointed to serve on the committee.

Charles Bean, a former citizen and one of the pioneers of this section was the guest of his brother, Bert Bean, at the meeting and spoke of early days in Wichita Falls and the growth which this city has enjoyed. Mr. Bean was one of the organizers and charter members of the first chamber of commerce in Wichita Falls. He spoke of the irrigation project as having a value "many times its cost" and said that it was his belief that this section was destined to become a great cotton and dairy product country.

Mr. Bean said, "I believe in the irrigation project and we were promised at the time that there would be a material reduction in rates when the irrigation project was completed."

"I believe in the irrigation project and we were promised at the time that there would be a material reduction in rates when the irrigation project was completed," Mr. Bean said. "I believe in the irrigation project and we were promised at the time that there would be a material reduction in rates when the irrigation project was completed."

that the cost of all-night service would be prohibitive. An effort will be made to have the highest traffic on the river between two and three o'clock in the morning when trains are arriving. The council voted to continue the committee.

### WORKMAN BYERS BRIDGE ALMOST DROWNED WHEN SMALL SKIFF OVERTURNS

BYERS, Texas, Oct. 23.—H. E. Rutherford, a workman on the Byers Red river bridge near here was almost drowned Friday morning when a small skiff in which he was with three other men was attempting to cross Red river from the Oklahoma side, was overturned by the strong current.

The Carlton, a man named Brooks, and another workman whose name was not learned, all a played on the Byers bridge, were crossing the river with Rutherford in a small skiff. It is said when in midstream the boat was overturned and Rutherford was washed downstream. He caught a willow that was growing hanging the water on the Texas side and was rescued in an almost drowning condition. The three other men clinging to the overturned boat and made their way safely to shore.

Rutherford is expected to live, according to reports from the hospital here where he is confined. Fur-bearing animals received the legal protection of State in 1864 in Ohio in 1847, Nebraska in 1873, and Montana in 1858. In Peru are maintained from revenue largely derived from lotteries.

## Juvenile Judge Lindsey Declares Under No Condition Will He Give Names of Denver Girls Involved

Universal Service.  
DENVER, Colo., Oct. 25.—"I will go to hell before I reveal the confidences of my court and disclose the names of Denver girls involved in criminal operations."

In his characteristic, vehement style, Juvenile Judge Ben B. Lindsey uttered this conviction before he stepped into the grand jury room where he was to be grilled concerning his assertion that he has confidentially talked to more than 1,000 girls of high school age in the past two years regarding illegal operations in which they were involved.

High school girls do not entirely

constitute the subjects of such operations, Judge Lindsey declared.

"I have also talked with hundreds of married women upon the same subject," he said.

Judge Lindsey carried with him into the grand jury room a number of surgical instruments, medicines and compounds which he said was given to him just last week. With these exhibits he will seek to convince the jury his assertions are true. But to divulge the names of girls who regard him as a confidante—never!

Books and records of his court which Judge Lindsey was ordered

in his subpoena to produce, were left secure in his office.

"I cite the fact that I have talked to 1,000 girls of high school age in Denver in the past two years," Judge Lindsey said, "and I have talked to hundreds of married women on the same subject—that of illegal operations. All of these operations are not done by physicians, as the instruments and compounds I took from a young girl last week prove."

"My recommendation to the grand jury will be that either they go after the offenders tooth and nail, or that they recommend the repeal of existing statutes forbidding birth control teachings."

"I will also recommend that society assume a different attitude toward the 'fallen girl' and that the mothers compensation law be made operative. I have documents containing records of illegal operations and illicit relations dealing with men high in Denver churches, clubs, business men and society, and also revelations concerning daughters of some of the men involved."

But not a name is contained in these records.

"If the grand jury will act according to my suggestions, start will be made this week that will lift Denver out of the class of cities filled annually with murders of the unborn that not only deplete our population, but undermine the minds and morals and health of our young women. I look forward to this grand jury meeting as the supreme moment of my life and the most important hour of the life of this city."

## Wife of Forbes Granted Divorce On October 11th

SEATTLE, Wash., Oct. 24.—After being carefully concealed for more than two weeks it was discovered here last night in a search of court files that Mrs. Kate Forbes, wife of Colonel Charles R. Forbes, former director of the United States veterans bureau, and who has been mentioned prominently at a hearing being conducted by the senate committee at Washington, D. C., investigating alleged graft in connection with the warding of contracts for government hospitals, of divorce by Judge Mitchell Gill was granted an interlocutory decree last night in the Kings county superior court on October 11.

"As I recall Mrs. Forbes' testif-

mony," Deputy Prosecutor Meekham asserted last night, "she accused Forbes of preferring the company and society of others to that of herself and their 10-year old daughter, Marcia."

Judge Gilliam's order directed Forbes to pay \$75 a month for the next two years for the support of Mrs. Forbes and an additional \$75 monthly to maintain their daughter, who was placed in her mother's custody until she is 18 years old.

NEGRO IS CONVICTED IN OTIS BALLARD CASE  
MOUNT PLEASANT, TEXAS, Oct. 25, 27.—Burl Kemp, negro, today was found guilty of a charge of complicity to the murder of Otis Ballard by a jury here today and sentenced to thirty years in the penitentiary.

Motion for a new trial for Clem Gray, white, who was given the death penalty, will be submitted next Friday, it was announced to-

day. The cases of Paul Keith George McKinley, on charge in connection with Ballard's murder have been passed to the term of district court.

E. C. De Montel, formerly connected with Kay, Akim & Co. announces that he has opened an office at 404 City National building, where he will engage in the general practice of law.

# Better Biscuits-Cakes & Pastries? Sure!

—WHY tell you that Aunt Jemima Flour is made from highest quality selected Missouri soft wheat? Or that every grain of that wheat is washed individually before it is ground? Or that every particle of flour is sifted through silk fabric of the finest weave? Or why tell you of the many other details of extreme care essential to the manufacture of this perfect flour? The fact that Aunt Jemima sponsors it and that it is milled by the same folks who make Aunt Jemima Pancake Flour is sufficient proof that if a better flour could be made it would bear Aunt Jemima's name.

"I'm in town, honey!" to help you bake better biscuits, pies and cake.

## ELECTRA TO HAVE SALVATION ARMY BRANCH STATION

Negotiations have been completed for the installing of a Salvation Army headquarters in Electra to take over the entire charity program of that community along with the army's religious program, according to an announcement made Friday by Ensign L. Corliss of the Salvation Army. The election organization will be under the Wichita Falls headquarters and Ensign Corliss declared that a man and his wife would be sent to Electra to take over the work there.

A building has been obtained and the work will open December 1. The board of directors has been named and an appropriation of \$2,400 has already been raised and is on hand at the beginning of the work. This money will serve as a campaign fund.

Plans have been completely worked out by Ensign Corliss and board members at Electra, and the work will begin December 1.

## YOUTH HELD FOR ATTEMPT TO CASH TWO BOGUS CHECKS

A boy who told officers he was fifteen years old, was arrested by detectives Thursday afternoon at the city jail in connection with an attempt to cash two bogus checks, amounting to \$100. The checks were presented at a local bank and the latter asked for an identification; the checks were made on an out of town bank, the boy left the bank and returned shortly with an endorsement which he claimed was given in a merchant.

The boy was notified and the officer admitted to official checks were forthwith being held in the city, parents in Crawford.

"On a man notified. Officers bill threaten that he is suffering mental aberration."

## CONVENTION OF WEST STUDENT UNION SESSION AT ABILENE

ABILENE, Texas, Oct. 24 (P)—Specially every major educational institution in Texas was represented today at the annual convention of the Baptist Student Union, including a delegation of 75 from Howard Payne College of Brownwood, 40 from Baylor College of Denton and a strong delegation from the colleges at Denton. Between 400 and 500 delegates are here for sessions which will end Sunday.

Speakers on the morning program held at Simmons College included Wallace Bassett, pastor of Cliff Temple, Dallas; Mrs. J. W. Dawson, and Mayor Charles E. Simons of Abilene. Robert H. Linnam, noted lecturer and writer of the Holy Land, was the afternoon speaker. Tonight at First Baptist Church Dr. George W. Truett, pastor of the First Baptist Church of Dallas, will address the delegates. The delegates are being cared for at the home of Abilene on the Howard plan.

## ORIENTAL RUG STOLEN FROM YARD WEDNESDAY

Theft of an oriental rug from a residence at 1804 Eleventh street reported to city officers Thursday afternoon. The rug had been taken into the yard in the rear of the house to be cleaned; it was left there Wednesday night and was missing Thursday morning. Officers were at work on a case Friday morning which they hoped would lead to its recovery.

## COURT DECLINES TO RESCIND ITS FORMER ORDERS

Judge P. A. Martin Friday morning declined to rescind his order made in May of this year, when he awarded the custody of Modern Petalilla Ellis to her maternal grandfather, Robert Stuckey of Grayson county.

The father, D. I. Ellis, had brought an action alleging that the grandfather was an improper person to have control of the child and asked that the court award the child to him.

Judge Martin in rendering judgment Friday modified the order slightly, stating that the father should have the privilege of having the child with him for a week at a time. Counsel in the case agreed to work out a schedule of visits.

"And people," the judge said in rendering judgment, "for Heaven's sake do not let this little girl know anything about the difficulties that have existed and do exist between her father and mother. Neither one of you should prejudice her mind against the other. Be friends."

## SALVATION ARMY NOT SOLICITING FUNDS ON STREETS, SAYS CORLISS

Many complaints have been received by Ensign L. Corliss that

Salvation Army workers were soliciting with a tamborine at local hotels, business houses and in neighboring towns and communities. Ensign Corliss, local commander of the Salvation Army, stated Friday morning after his return from Dallas, that no Salvation Army workers were soliciting funds in either Wichita Falls or neighboring towns and that the people reported belonged to another un-

Calumet Baking Powder is called "Best by Test" because actual baking tests are made right in the big Calumet factories—the largest of their kind on earth. Master bakers and a renowned domestic science expert make these tests which protect the quality and uniformity of Calumet.

Calumet is called "the World's Greatest Baking Powder" because it is used by more housewives—more chefs—more railroads—more restaurants—more hotels than any other brand.

Calumet is called the "Economy Baking Powder" because no other brand on the market will produce bakings at such a low cost. Its dependable and unfailing action means no loss of time, money or materials.

Calumet is called for in thousands of stores daily because a better leavener cannot—and is not made—because a large can contains full 16 ounces and some brands come in 12 ounce cans—once tried it is always used.

**DEPARTMENT ISSUES  
WEEKLY SUMMARY  
OF STATE MARKETS**

AUSTIN, Oct. 26.—Good supplies of fruits, vegetables, poultry and eggs are now moving to market, according to the weekly summary of the state department of markets and warehouses issued here today.

The summary said in part: "Fruits: Apples—Quality is reported good. The smaller varieties generally maintained the even tenor of their ways with the exception of peaches and okra which during the week suffered considerable price cutting. Texas Kieffer pears took a 15 cent advance under a good demand. The following are representative prices being paid as this week opens, in sales to retailers of Texas: Beets, home grown, mostly 10-15 cents per dozen bunches; carrots, 10-15 cents per dozen bunches; green onions, 10-15 cents per dozen bunches; beans, 8-10 cents per pound; cucumbers, 2-10 cents; eggplants, 4-5 cents; Kieffer pears, \$1.50-\$2.50 per box; black eyed peas, 8-6 cents; radishes, 40-50 cents per dozen bunches, and sweet potatoes, Porto Ricans, 12-15 per hundred.

Pecans: The new crop has started to move forward more liberally and are in good demand at 12-15 cents per pound, according to size, with old nuts bringing 10 cents.

Peanuts: Nuts of his season's crop have also started to market. Farmers' offerings of Spanish No. 1 are at present bringing 13 cents per pound and No. 2's 8 cents.

Poultry and eggs: A steady market has prevailed in poultry and egg circles and little price fluctuation is noted. Hens are bringing from 14 to 18 cents with some markets quoted up to 20 cents. Fryers are wanted at from 20 to 22 cents per pound and roosters 5 to 7 cents. Thirty dozen cases of eggs ruled from \$9 to \$12.50 for fresh candled offerings.

Hay: Southwest Texas markets quote choice alfalfa at \$12 a ton to \$14 a ton in car load lots delivered. The trend of the market is upward due to shortage caused by rains.

**Sheriff Reports  
Battle An Epic  
In Gun Fights**

TRAGUE, TEXAS, Oct. 25. (AP)—Details of one of the grimmest pistol duels Texas ever saw were revealed here by Sheriff David Terry of Navarro county.

The dead: Norwood Hunkaby, son of a family prominent in Freestone county for more than a half century; Charles A. Williams, until recently a resident of Navarro county.

The battle was an epic in gun

fight, according to the sheriff's story. It occurred in a little room in the barn of T. F. Young, at Young, in Freestone county, shortly after dusk Wednesday night.

Left hands locked together, their right hands clutching smoking revolvers which spat bullets until neither man could summon strength to pull the trigger. Hunkaby and Williams died within a few minutes of each other, toe-to-toe and with their boots on.

Four bullets took effect in Hunkaby's body, three lodging in the chest and one in the side. Williams was wounded in the forehead, right breast and side.

Two pistols, one a .35 calibre and the other a .33 calibre, were found clutched in the men's hands. Every chamber had been discharged.

Hunkaby was a widower with

four children and lived at the Young home.

Returning to the home shortly after dusk Wednesday evening, Hunkaby went on to the barn with his horses. A few minutes later Williams, accompanied by a son and another young man, drove up and proceeded to the barn.

A volley of crackling pistol shots was the first intimation to those at the house that anything was amiss between the two men.

Motive for the spectacular shooting scrape was believed to be a former brush between the men. In this trouble, which occurred almost a year ago, Hunkaby received a bullet in the leg.

**'Love Slayer' Is  
Ready to Serve  
Life In Prison**

ATLANTA, Ga., Oct. 25. (AP)—Mrs. Ollie Combs Justice, known as the "love slayer," was reported today ready to serve the remainder of her life in prison after having been found guilty by a jury late yesterday of killing DeWitt Turner.

The jury which had knelt in prayer for divine guidance as it began its deliberations returned a verdict of first degree murder within 20 minutes. Mercy of the court was asked. A smile of apparent satisfaction played about the con-

vinced woman's mouth as she heard her fate.

Turner was shot and killed by Mrs. Justice on the night of September 23 as he sat at the steering wheel of his automobile with the woman by his side. She told the police that "I killed him because I loved him."

Mrs. Justice claimed during the trial that she shot Turner after he had admitted to her that it was his intention to take her younger sister with him on a trip to New York. She said she shot to save her sister's honor.

# TIMES' GROCERY-MARKET DEPARTMENT

## Gasoline and Its Conservation Is Subject of Recent Bulletin Issued By Interior Department

WASHINGTON, Oct. 26.—The use of cooling systems in vapor-tight tanks should serve as a means of checking evaporation losses of gasoline which amount annually to three to four per cent of the stocks accumulated during the winter season and whose value runs into millions of dollars, states the department in the bulletin as the result of experiments made by the bureau of mines.

The consumption of gasoline in the United States varies materially with the seasons; during some of the summer months it exceeds the rate of production and in other seasons the production of gasoline exceeds the consumption. The usual practice of the larger refiners is to store surplus stocks during the winter season in order to meet the heavy demands during the summer months. Thus on April 1, 1928, 2,298,417,871 gallons of gasoline had accumulated over the winter months and was subject to losses by evaporation.

Gasoline is usually refined to meet certain specifications. The specifications limit the amount of the constituents under which the gasoline is sold, but certain specifications are designated by practical all refiners of refined gasoline. The American Petroleum Institute, the highest A. P. I. gravity and the lowest boiling point, and end point in degrees Fahrenheit. Specifications defining the percentages of gasoline that must distill over below certain temperatures are also coming into general use.

**Lighter Liquid Hydrocarbons.**  
Gasoline may be considered as a mixture of the lighter liquid hydrocarbons found in petroleum. The vapor fractions of these hydrocarbons are volatile; therefore they have the highest A. P. I. gravity and the lowest boiling point of any fraction of the gasoline. The evaporation of these light fractions from gasoline in storage results in a large fractional loss to oil refiners, not only because of the reduction in volume, but mainly because the characteristics of the gasoline are changed. The loss by evaporation of small percentages of a tank of gasoline will usually require a relatively large addition of light hydrocarbons to bring the gasoline up to the original specifications. This is usually done at the time of shipment, and this may entail an additional loss to the refiner as he must often make or buy on the market, low-boiling products at a time when prices are the highest. The aggregate losses to the refiner resulting from evaporation of gasoline in storage, therefore, may be considerable and it is to the refiner's best interests to reduce evaporation losses to a minimum.

**Vapor Tight Tankage.**  
A prime requisite for the reduction of evaporation losses under present storage conditions is vapor-tight tankage. Vapor-tight tanks will practically eliminate the removal of light hydrocarbons by liquid in the tank, except as it may be caused by temperature changes and by emptying and filling of tank. Even though the tanks and equipment, however, "breathing" losses are considerable, during the hot summer months the loss is especially large. Gasoline stored in tanks often contains over 80 per cent gasoline vapors; also during the summer months the maximum temperature variation of the vapor in the tank is more than 100° F. In 24 hours, from a 55,000-gal. tank filled to 22 feet, the breathing loss caused by temperature change of 70° F. is 370 cubic feet of saturated air or vapor. If this air carried 86 per cent gasoline vapors, the loss in gasoline, assuming 20 cubic feet of vapor per gallon of saturated air or vapor. This does not include the losses from breathing caused by minor temperature changes, barometric changes, wind pressure and other atmospheric changes which at times would double the loss due to one large change in temperature.

**Cooling Systems.**  
In addition to vapor-tight tanks, some refiners have installed cooling systems on their gasoline storage tanks for reducing breathing losses. Others have tried various forms of insulation on tanks or a combination of insulation and cooling, such as a water spray under the insulation on a tank.

The effect of any cooling system on evaporation is two-fold: first, it keeps the vapor temperature in the tank near uniform, thus reducing the actual breathing of the tank, and second, it reduces the vapor temperature and the temperature of the surface of the liquid in the tank and thereby reduces the percentage of the gasoline vapor in the air space above the liquid.

In order to compare the efficiency of the two water-cooling systems loss in use in preventing evaporation losses, a test was made by the bureau of mines in which observations were taken on three 300-barrel vapor-tight tanks filled with gasoline of 59.5° gravity (A. P. I.) One tank was equipped with a cooling spray and one with a water-cooling system of any kind.

**Result in Comparison.**  
In these tests, the actual value of the volume of gasoline lost was considerable, but was relatively small compared to the cost of retreating the product to make it meet its original specifications. The results of these tests indicated that a water-spray system is somewhat better than a water-seal roof for reducing evaporation.

This question of water cooling, the results of these tests, is primarily a question of cost. Thus the availability and cost of water in a given locality may determine the desirability of using a water-spray cooling system. While the losses of air space above the liquid.

## DECLARES HOLLAND IS UNDER OBLIGATION TO DEFEND HER NEUTRALITY

THE HAGUE, Oct. 26.—Foreign Minister Van Kattenburg speaking in the chamber of deputies in behalf of the bill for construction of a fleet for the Dutch East Indies, said that Holland was under international obligation to defend her neutrality. The measure, he asserted, neither conflicted with the covenant of the League of Nations nor was it opposed to the spirit of the Washington conference.

"The cause of tension in America and Japan," he continued, "were not removed by the Washington treaty. Even the compulsory jurisdiction of the permanent court of arbitration is only accepted by a small number of states. We therefore shall continue to prepare suitably for the maintenance of peace. The safety of the state depends that we take into account certain facts for which Holland is not responsible."

## FEASIBILITY REFUELING IN AIR DEMONSTRATED

SAN DIEGO, Calif., Oct. 26.—(AP)—Captain Lowell H. Smith and Lieutenant John P. Richter, army aviators, demonstrated yesterday the feasibility of refueling planes in mid-air on cross country flights. They flew from the Canadian to the Mexican border, 1200 miles, in 13 hours and 12 minutes, refueling three times enroute, and today were planning a transcontinental non-stop refueling flight, to be attempted within the next few months.

While yesterday's flight broke a world's record for speed or distance or duration, it was the first time in the history of aviation that such a continuous cross country trip was accomplished by taking on gasoline. Captain Smith and Lieutenant Richter were met by one refueling plane as they coasted over Eugene, Oregon, 75 gallons of gasoline were transferred in two contacts within a few minutes. The fliers received 20 gallons more as they passed over Sacramento, Calif. They replenished their plane maintained easily its flight into Mexico and back to Rockwell Field where they landed.

## RAILROAD MAN DIES

TEXARKANA, Texas, Oct. 26. (AP)—William Buchanan, 74, president of the Louisiana & Arkansas railroad and one of the wealthiest men of this section, died at his home here early today following an illness of several months.

Recently Mr. Buchanan created the Buchanan foundation of \$1,000,000, the entire fund to be used for "charity and the alleviation of suffering and distress" among the poor of Bowie and vicinity counties. The fund will be handled by a board

## NEW LAMP BURNS 94% AIR

Best Electric or Gas  
A new oil lamp that gives an unusually brilliant, soft, white light, better than gas or electricity, has been tested by the U. S. Government and is leading in efficiency and found to be superior to 10 ordinary oil lamps. It burns without smoke, soot or poisonous fumes. It is simple, clean, safe. Burns 94% air and 5% kerosene (coal oil).

The inventor, E. T. Johnson, 426 S. W. 25th St., Chicago, Ill., is offering to send a lamp on 15 days' trial, or even to give one free to the first person who sends him his name and address. Write him today for full particulars. Also ask him to explain how you can get the money back on the lamp.

### Ford for Coolidge for President If Latter Will Enforce Provisions Of the Federal Prohibition Law

By WM. L. RIDGER  
Universal Service Special Correspondent.

DETROIT, Oct. 24. — "I'm for President Coolidge if he will enforce the prohibition laws," said Henry Ford to me when I went to ask him what he thought of the third party that was organized in Detroit.

I take it that this was as much as saying that Mr. Ford feels that enforcement of the constitutional law against booze is one of the big questions before the American people today.

"You can also say," continued Mr. Ford, "that I think the president is going about the matter of enforcement in the right way."

"It is undoubtedly a federal matter but he has given the governor and the states of the country the first chance. They, too, have sworn to uphold the constitution. He said for them to enforce the law."

"If they do not do it, he evidently will use federal means of enforcing the law. It is finally up to President Coolidge. It is a federal matter. It is an important matter. It is so important that as I have said before, I think that the army and navy ought to be used if necessary to enforce it."

Mr. Ford made this same suggestion six months ago and Universal Service published his statement the first time.

The federal government apparently considered this method of enforcing the prohibition laws but several labored opinions were handed down against it.

"What do you think of the stand that your friend, Senator Cousins

is taking on the prohibition law?" he is in favor going back to five per cent beer and light wines.

Says Cousens Knows Better  
"He knows he is wrong about it," said Mr. Ford. "Mr. Cousins knows better. He knows that in the Ford motor plant booze never did anybody any good, and he is taking a backward step when he stands for five per cent beer and light wines."

Jim Cousins knows better than that. Maybe he feels he is striking a popular chord. He has not correctly read the signs of the times.

"The American people are not intending to get in reverse and go backward on this important question. We are in high gear, going forward on these big questions, and nothing can stop us."

Then Mr. Ford went back to his favorite remedy for prohibition law enforcement and he said:

"If President Coolidge would say he will use the army and navy he would never have to use it."

"What do you mean by that?" I asked Mr. Ford.

"I mean that the mere statement and announcement that the government would use the army and navy in enforcing the law would have the psychological effect that it would throw terror into the run runners," said the automobile king.

Then I told Mr. Ford of a combined effort of 16 noon day lunch clubs in Detroit, which was addressed by Senator Cousins. I told him of how that crowd of mixed business men of every relation and no religion; a great volatile crowd, which cheered everything that Senator Cousins said, but which re-

ained in absolute silence, without a hand being raised, he told them he believed that the country would go back to five per cent beer.

Embarrassed by Silence  
Senator Cousins was flabbergasted. He was embarrassed by that silence. Not a hand was lifted in applause. That was an opinion more ominous than votes—that silence.

"Of course they didn't applaud," said Mr. Ford.

"Why not?" I asked him.

"Because if they did their wives would fix them when they got home. The women of America are not going to let this nation go back to any kind of liquor of any percentage whatsoever," said the great Dearborn manufacturer with deep conviction.

Then he added: "Five per cent booze paves the way to drunkenness."

"What about Muscle Shoals, Mr. Ford? Are you through down there?"

"Thought Does it look like it? I wouldn't give three cents for Muscle Shoals for myself but I want to prove that it can be used to develop cheaper power and cheaper fertilizer for farmers and to show the country the way these Wall street bankers are exploiting the people of America."

Then Mr. Ford added his opinion of the crowd that is trying to exploit this power plant in these gentle words:

"That's a fine bunch to have in control of our nitrates during the war. These international financiers who own and control the Alabama Power Company are absentee landlords."

### SALVATION ARMY TO HOLD ITS ANNUAL HARVEST CELEBRATION SATURDAY

The annual harvest celebration will be held at the Salvation Army hall at 8 o'clock Saturday night, according to an announcement by Ensign L. Corliss of the Salvation Army, Friday. At the harvest celebration, which is practically a church bazaar, all kinds of beautiful needle work, and many kinds of products will be placed on sale to the crowds who attend.

Many donations have been made to the Salvation Army for the sale, which is expected to be a huge success. Preparations are rapidly being completed and everything will be in readiness at the time of the opening. Ensign Corliss declared.

Teacher Was Night.  
Father—Did you tell your teacher I helped you with your French exercises, Tommy?  
Tommy—Yes.  
Father—And what did she say?  
Tommy—She said it wouldn't keep me in today because it didn't seem fair I should suffer for your ignorance.—Exchange.

"That's a fine bunch to have in control of our nitrates during the war. These international financiers who own and control the Alabama Power Company are absentee landlords."

Embarrassed by Silence  
Senator Cousins was flabbergasted. He was embarrassed by that silence. Not a hand was lifted in applause. That was an opinion more ominous than votes—that silence.

"Of course they didn't applaud," said Mr. Ford.

"Why not?" I asked him.

"Because if they did their wives would fix them when they got home. The women of America are not going to let this nation go back to any kind of liquor of any percentage whatsoever," said the great Dearborn manufacturer with deep conviction.

Then he added: "Five per cent booze paves the way to drunkenness."

"What about Muscle Shoals, Mr. Ford? Are you through down there?"

"Thought Does it look like it? I wouldn't give three cents for Muscle Shoals for myself but I want to prove that it can be used to develop cheaper power and cheaper fertilizer for farmers and to show the country the way these Wall street bankers are exploiting the people of America."

Then Mr. Ford added his opinion of the crowd that is trying to exploit this power plant in these gentle words:

"That's a fine bunch to have in control of our nitrates during the war. These international financiers who own and control the Alabama Power Company are absentee landlords."

## COFFEE -the universal drink

### The Executive Says:

"Coffee is the greatest drink in the world for business men. I drink it in the morning, of course, and again at four o'clock. Great idea! I do more work now from four to five than I used to do all afternoon."

### Six Rules For Making Better Coffee

- 1—Keep your coffee fresh
- 2—Measure carefully
- 3—Use grounds only, once
- 4—Boil the water
- 5—Serve at once
- 6—Scour the coffee-pot

The planters of São Paulo, Brazil, who produce more than half of all the coffee used in the United States, are conducting this educational work in co-operation with the leading coffee merchants of the United States.

TIMES' DAILY RECORD OF EVENTS IN THE WORLD OF SPORTS

Fans Witness Plenty of Action With Slugging Galore at Legion's Weekly Boxing Carnival Thursday Evening

Jimmy Carroll and Speedy Binyon, 18 rounds, draw.

Harry Ryan wins decision from Duke Trammell, 15 rounds.

Although the above results of the events at the American Legion boxing exhibition Thursday night at the Opera House were not as exciting as they were very interesting.

The first round opened with both men coming in fast and in the first minute of boxing each one landed a half dozen blows to the body and head.

In the second Binyon came in fast and before Carroll had time to get set, Speedy jabbed a left to the jaw and followed it with a right to the face and then a left to the body.

They clinched a half dozen times in the round and each time as they were separated Binyon rushed in with a left hook and a right.

Carroll came in fast when the bell rang for the opening of the third round and he hammered Binyon around the ring.

Binyon went down for a count of six but he got up and rushed Carroll to the ropes with a left uppercut that caught the Fort Worth boy squarely under the chin.

Bounding from the ropes, Carroll came back and landed two long rights to the nose which had a telling effect on his opponent.

The fourth was a draw but in the fifth Binyon came back like a mad tiger and rushed Carroll.

He landed two hard lefts to the face and one to the body. Binyon carried the fight throughout the round and in the clinches he punished Carroll's body with punches that caused the latter to grunt.

The remainder of the rounds were even. Binyon's peculiar style of fighting caused the men to clinch often and the referee had much trouble in separating them.

In the semi-windup Harry Ryan of Dallas won the decision over Duke Trammell of Fort Worth.

Ryan led the fighting during the first three rounds and landed a number of hard blows to the head and stomach.

In the fourth Trammell landed a left and two hard rights to the nose that sent Ryan to the canvas for a count of five.

The round ended with Ryan groggy as he walked to his corner.

Ryan came back strong in the fifth and in the sixth he again led the fighting stopping Trammell with his powerful jabs to the head and body.

The sixth and eighth rounds were Ryan's.

Johnny Rivera, the Fort Worth champion, led and Ed Snyder of Burkburiet went six rounds in a draw.

In the first round there was much sparring with Snyder landing the only real blow. It followed a short left jab to the head and sent the Mexican bounding to the ropes as Snyder's right connected with the jaw.

BOB MARTIN'S PHYSICAL CONDITION SENDS HIM ON INELIGIBLE LIST IN 18 STATES

HAMMERING AWAY TO STAMP DOWN OVER-CONFIDENCE

AUSTIN, Texas, Oct. 24.—Coach "Doc" Stewart is drilling his Longhorn players as hard for the Southwestern University game that will be staged here Saturday as he did for the Vanderbilt contest in Dallas last week.

In past years it has been the tendency for Longhorn football teams to let down after a great triumph. Every effort is being made to avoid that kind of playing this year.

Lans Tynes, the star Longhorn captain, will be out of Saturday's contest. Joe Ward, who is a tower of strength to the Texas University line, was injured again this week and will be unable to play.

On the other hand the Southwestern Pirates are in their best condition. Recent additions to the eleven have materially strengthened their already excellent team.

After the war had come no finer fighting type, no better specimen of physical perfection.

It seemed certain that Bob Martin would reach the goal his buddies had set for him—a lofty position in professional fighting.

COYOTES FACE A REAL BATTLE IN SATURDAY'S GAME

When the Coyotes meet the American Legion squad of Hastings in an exhibition football game at the ball park Saturday afternoon they go up against one of the best eleven in Oklahoma.

The legion game comes as a substitute for the contest with Dallas Academy, to have been played here Saturday.

In one of the hardest fought games of the season last year the Coyotes edged the same Hastings squad out by a small margin.

The Saturday game with Hastings will not count for or against the Coyotes in the interscholastic league, as the case may be.

They Kelsier started Martin on his way to ruin. Looked on as a set-up, Kelsier, also a soldier boy, punched Martin dinky two years ago at Baltimore.

ORIOLES BATTLE HARD BUT BLUES CAPTURE PENNANT

BALTIMORE, Md., Oct. 24.—For Kansas City Blues are sitting atop the minor league baseball world today.

The total attendance at the nine games was \$4,708, and the total receipts were \$106,619.82.

The players, who share in the first five games only, will divide between \$25,000 and \$40,000.

Some of the umpires figured Frisch too great a player to be left out and thought it might be wise to use Frisch at second and play Hornsby at first.

National League Arbitrators In Fanning Bee Select An All-Star Team From Players In Circuit

NEW YORK, Oct. 24.—No one is in better position to judge the relative merits of a ball player than the umpire.

During a recent fanning bee in New York, in which a number of the National League staff took part, it was agreed that the following all-star team from the National League would be hard to beat.

Infielder Bottomley of St. Louis, first base: Hornsby of St. Louis, second; Bancroft of New York, shortstop; Traynor of Pittsburgh, third base.

Some of the umpires figured Frisch too great a player to be left out and thought it might be wise to use Frisch at second and play Hornsby at first.

Pinchot For Although. By MARK BU. Political Correspondent. Copyright, 1922, by Tribune. WASHINGTON. Facts about Gifford. MULLIVAN. The other side of the old fence at the same time. Pinchot's friends: David Reed, plus Secretary Andrew W. Lister are not willing to have the President take the delegation should be constructed and under roughly, of Pepper, on. In the delegation he is a precedent of the governor, Spruill. Pennsylvania Republic to Chicago in the Republican. To depart cedent now would. Pinchot, it would as a sign that he is prohibition and other approved by his own state. That is Pinchot and his friends cannot permit it to opponents of Pinchot, including I and Mr. Coolidge's.

Pinchot Formidable Candidate Although Without Organization Other Than In His Own State

By MARK SULLIVAN Political Correspondent of the New York Tribune and Wichita Daily Times. Copyright, 1932, by the New York Tribune. WASHINGTON, Oct. 24. — The facts about Gifford Pinchot as a potential candidate for the Republican nomination are these: First of all, as a state, Pennsylvania, Pinchot will undoubtedly have the majority of the delegates in the next Republican convention. If no fight is made against him he will have a wide margin of victory. There is no one else in the state who has a chance of being nominated. The only other side there is the old Republican machine plus Senator George W. Pepper, who was not part of the old Pennsylvania machine, but at the same time is not among Pinchot's friends; plus Senator David Reed, plus Secretary of the Treasury Andrew W. Mellon. These latter are not willing that Pinchot should have the Pennsylvania delegation. They take the ground that the delegation should go either to the delegation of Pepper, Reed and Mellon. On the other hand Pinchot's friends in Pennsylvania demand that the delegation be for Pinchot, to the extent of a complimentary vote at least. This is according to the precedent of Pennsylvania delegations ever since the direct primary was adopted. In 1920 the Pennsylvania delegation went to Chicago instructed for the then Republican governor, Sprout. In 1924, the Pennsylvania Republican delegation went to Chicago instructed for the then Republican governor, Brumbaugh. To deny the direct primary precedent now would be a slap at Pinchot. It would be interpreted as a sign that he and his co-workers on prohibition and otherwise are not approved by his own party in his own state. That is the reason why Pinchot and his friends say they cannot permit it to be done. If the opponents of Pinchot in Pennsylvania, including Senator Pepper and Mr. Coolidge's secretary of the

present writer knows, and he is familiar with the situation in most of the states, where any organized effort is yet being made to send Pinchot delegates to the national convention. There is, however, in many states a strong Pinchot element, composed largely of the same sort of people who cheered Pinchot wildly here in Washington last Sunday. They are among the best people in their respective communities, consisting chiefly of what politicians call, with a mixture of deference and fear, "the church people." In this state of facts everything depends on organization. If anything should occur to cause Pinchot's friends to organize and fight, there is no possible doubt that he would have an extremely impressive group of delegates. If the events of the next few weeks should continue to dramatize Pinchot as contrasted with Coolidge on the issue of enforcing the prohibition law, it would be difficult to

over-estimate the strength Pinchot would have. On a clearly visualized issue of Pinchot promising effective enforcement of prohibition and Coolidge falling in either the will or the capacity to enforce, there could be little doubt of the result. In a fight restrained to that single issue it is not too extreme to say that Pinchot might readily carry every one of the direct primary states, except two. On that issue thus staged Pinchot might even carry New Jersey. Was State on issue. Pinchot has already carried his own state of Pennsylvania on substantially that issue, and if Pennsylvania, why not New Jersey? In short, it would be almost fatal to President Coolidge to let this issue arise between him and Pinchot. Undoubtedly he will try to prevent it. Probably he can prevent it if he tries hard enough, but it is going to take considerable energy and initiative. It must be remembered that what Pinchot and the church con-

ference demands is not merely the assurance of Coolidge that he will enforce the law. They already have that assurance and they don't charge Coolidge with any degree of lack of good faith. But what they demand is something more. The only thing that will satisfy and disarm the church people behind Pinchot is a definite change in the degree of effective enforcement attained by the federal government. They will only be satisfied if Coolidge's administration makes during the very near future a record of enforcement conspicuously more effective than the federal government has ever yet attained. The question is, can Coolidge show results in so short a time? To make such a record in so brief a time is no easy task. For Coolidge to disarm the church people it will be necessary for him to be as drastic throughout the country as Pinchot has been recently in Pennsylvania. It should be added that all that has been said here about Pinchot's potential chances, other than in his

own state of Pennsylvania, depends upon political organization in his behalf. There is already church organization but political organization is a different matter. Up to date there is no sign in any state other than Pennsylvania of any political organization aimed at making Pinchot president. With the sentiment that exists, however, organization would be comparatively easy if Pinchot should say the word.

CITY DWELLERS INVADERS FARM TO TRADE FOR MILK AND EGGS LEIPZIG, Oct. 24. (AP)—The peasants of Germany have food on their minds, but they won't sell it to the cities because the only medium of exchange offered them has been paper marks, which they regard as worthless. Hence the farms have accumulated large stocks of butter, poultry, cheese, eggs, potatoes, honey, pigs and calves, while city people crowd the stores with bundles of paper marks in their hands, but find nothing to buy. The solution has been a return to first principles. Dealers in food, and individuals seeking to fill their own larders, now travel out to the country in carts loaded high with great bundles of sugar, candy, cocoa,

pipe tobacco, cigars, coffee, tea, candies, kitchen utensils, etc. All articles they can buy in the country with their paper marks and change them on the spot with the farmer.

Mothers know a dose of DR. CALDWELL'S SYRUP PEPSIN Will keep them fit 'First Aid' For Sick Children THE experienced mother is not alarmed when a child becomes sick. She knows that most of the ailments of childhood are trifling. If it seems serious she calls a doctor, but whether or not she calls him she gives, first of all, a good laxative medicine. The doctor would advise that anyway. It is his "first aid." Such experienced mothers as Mrs. Everett E. Hunt of Broken, Okla., who has three children and never any sickness, and Mrs. F. B. Kulenkof of Prosser, Wash., always give Dr. Caldwell's Syrup Pepsin at the first indication of sickness. Such timely doses have saved them much worry. The Meaning of "Good" All doctors agree that a thorough cleaning out of the bowels is of first importance for it removes dangerous intestinal poisons. They will also advise a "good laxative," and by "good" they mean one that is effective and yet harmless. They know that there are poisons that never should be given to children - calomel, which is mercury and loosens the teeth, phosphorated, a so-called drug that causes skin

### WINTER GRIPPING NORTHWEST TEXAS AND WICHITA FALLS

Although the rain stopped in the northwestern part of Texas and southern Oklahoma early Thursday night, the mercury continued to drop and it stood at 48 degrees Friday morning at 10 o'clock. This is a drop of 10 degrees during the last 24 hours, and according to present indications, the thermometer will probably continue to fall Friday and this section will experience cold weather for several days. George Simmons, local weather observer, stated Friday morning that one-half inch of rain fell Thursday. He predicts cold weather for several days, but believes the mercury will either rise slightly Friday or remain stationary. Heavy snows are reported in Colorado and a cool spell no doubt will be experienced by the residents of the panhandle. All local railroad dispatchers on lines operating out of Wichita Falls reported rain all along their lines Thursday and cool and threatening weather Friday. No damage was incurred by any of the railroads, although heavy rains were experienced in Oklahoma. The cold wave is expected to last several days. The weather Friday morning was cloudy, threatening rain and cold. Highways in this section were reported in fair condition over the morning and all railroads are operating on schedule time.

### Kenneth Hibbs Dies From Self-Inflicted Shot

Kenneth Hibbs, aged 30, son of Mr. and Mrs. Ralph Hibbs, 2148 Yale avenue, was found dead at his home Thursday night with a bullet wound caused by a .38 automatic in the center of his forehead, directly between the eyes. "Death by a self-inflicted gunshot wound," was the verdict returned by Justice R. V. Gwyn, who was called to hold the body over the body. Young Hibbs is, according to the story told by the family, said to have asked his father for \$10 and was told that he did not have the money with him. At the same time the father is said to have reproved him for leaving a good position with his brother in Bowie. Shortly after his request for the money, the boy is said to have gone to an adjoining room and the shot which caused his death. The family heard the shot and ran to his assistance. He was found with a wound in the forehead directly between the eyes; a .38 automatic was lying near. Justice Gwyn was summoned to hold the inquest and the body was removed to the Hines Undertaking parlors where it is being held for funeral arrangements.

### Women to attract must Radiate Health!

BEAUTY is the magnet which draws eyes—and back of beauty—Health—working silently. Red blood tingling through the veins;—the glow of youth in the cheeks;—the spring of eagerness, of vim, of vitality in the walk;—the ever graceful air, unrestrained by care or worry—All the charms of beauty. All the works of health. Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps—wondering—hoping—praying for that attractiveness that is not theirs. But why the wondering—the hoping—the praying for that craved-for attractiveness—that beauty. Good looks is the barometer of one's condition. Good health radiates beauty. S. S. S. purifies the blood—creates new red blood cells—rids the system of impurities which make beauty and attractiveness impossible. As women to attract must radiate health so must they keep their systems free from impurities and their red blood cells ever increasing. S. S. S. does both. S. S. S., since 1858, has been ridding the system of impurities—pimples, blackheads, boils, eczema and rheumatism—building red blood cells—aiding women to be attractive by radiating health. S. S. S. is made of carefully selected herbs and herbs, scientifically prepared and proportioned. All good drug stores carry S. S. S. It is more economical to purchase the large size bottle.

### City Officials Summoned to Gas Company Hearing

Citations were served on city officials Friday morning for their appearance at the hearing of the Municipal Gas Company against the city of Wichita Falls before the state railroad commission in this city, November 1. The subpoenas are signed by Clarence Gilmore, chairman of the commission. The hearing will be held at the court house and testimony will begin at 10 o'clock on the morning of November 1; all three members of the commission will be present at the hearing. C. C. Bunnberg is ill at his residence, 1128 Bluff street.

### "REGENERATION AND NEW BIRTH" TOPIC OF DR. J. B. LEAVELL

Although the rain of Thursday night cut down the attendance to a great extent, a fairly large crowd heard Dr. James B. Leavell at the First Baptist revival services Thursday night. Several new members were taken into the church. Taking his text from John 3:3—"That which is born of the flesh is flesh, and that which is born of the spirit is spirit." Dr. Leavell preached an interesting sermon on the theme, "Regeneration and New Birth." The revival services at the First Baptist Church, which have been held nightly by Dr. James B. Leavell, pastor of the First Baptist Church of Houston, will close with the sermon Friday night. Immediately following the main services in the evening, baptism of new members will be held. During the two weeks of the revival, a great number of additions to the church have been recorded, and in spite of the fact that rainy weather has prevailed, the auditorium at the First Baptist Church has been filled every evening.

**COPY OF INJUNCTION ORDER RECEIVED HERE**  
The county clerk of Wichita county has received a copy of the injunction order issued upon application of George Faddy by United States District Judge James C. Wilson, restraining county clerks from destroying the ballots of the last general election. It is reported that the ballots are still intact in the county clerk's office in this county. The copy of the order was sent out by a law firm of Dallas and is addressed to every county clerk in Texas.

**DR. MOLAY CHAPTER MEARS DALLAS MASONIC OFFICIAL**  
An interesting address by Joe Hutchinson of Dallas, Masonic official, was heard by a large number of members of Hope Chapter, Order of De Molay, at the regular stated meeting of the order at the Masonic Temple Thursday night. Mr. Hutchinson spoke on "American Citizenship," introducing a course in citizenship practice adopted by the chapter. The course is to be in the form of monthly lectures by prominent business men and lawyers in the city. Dr. Molay officers stated. A short business meeting was called to order by Edgar Smith, master counselor of the organization. Tom McKinney of the Roxana Petroleum Company has returned from a trip through Young, Stephens and Archer counties.

### Rangers Locate Booze In State Insane Asylum

By Universal Service. SAN ANTONIO, Oct. 24.—Texas rangers visited the Southwestern insane asylum and found 12 gallons of whiskey in the quarters of an asylum employe. The institution is the largest of the state's group of hospitals for the care of the insane. The seized whiskey is very powerful, the rangers say. Investigation is being made to determine if any of it ever got to the asylum inmates. C. Moseley of Fort Worth, representing the White Eagle Refining Company, is in this district for a few days.
