Lewis Laboratories, Chicago, Ill.

Gentlemen:

Believing I owe you a testimonial, I will tell you and to the world that I consider your new gland systematic-treatment the greatest remedy of modern times. I have decotored for years without any relief and when you read of my stgry you will understand why I am so grateful to you. I used to be an actor in the Minstrel Show business and did lots of rough and tumble work. Years ago from overexertion I lost my manly vigor, my legs and feet gave way and a kind of paralysis set in on my left side. For years I had to drag my left leg and always wore the toes of my shoe soles off. Was numb across the small of my back, couldn't get up or down stairs. In fact I was a wreek every way. I tried everything without any help. I tried your mand treatment as a last resort. After three weeks' treatment raise my foot six inches from the Hoot, After five weeks the paralysis disappeared. I shuld wask or run as good at any man, my vigor has returned and I feel like twonly five years younger. And everybody says I look it too. I honestly believe your gland treatment should be brought to the notice of everybody who has lost his health and pep and suffers as I did. I kutw it will help them for everything the paralysis disappeared as I did. I kutw it will help them for everything it have tried falled to help me and everybody who his lost his health and pep and suffers as I did. I kutw it will help them for everything I have tried falled to help me and everybody when I have recommended to try your gland treatment, says the same. I am a Moose here, member 12 O. O. M. number 17, Moose Legion No. 27 and my dodge brothers will sign their names to any statement I make.

Yours truly, John Robert Andress, 508 East Georgia St., Indianapolis, Ind.

A Special Treatment for Women Also

You will notice in the coupon that we ask whether the treatment is intended for male or female,

This is necessary because the two treatments are absolutely different as to formulas. The female treatment contains Lutein and is particularly recommended for the ailments to which women are most commonly subject. Any Physician will testify as to the wonderful value of Lutein for women's troubles and will also understand that this substance would be of no benefit if administered in a treatment for men. We mention this one point of difference to emphasize the fact that the Lewis Treatment for Women is especially prepared for that sex.

Here Is the Experience of One Michigan Woman Lawis Laboratories, Chicago, Ill.

Gentlemen:

Enclosed you will find money order for which please rush my next treatment, as I am nearly out of my last supply. Your treatment for the rebuilding of the glands is a most gonderful discovery, and words cannot express my gratitude to you for what the treatment has done for me.

Nine years ago I went to the hospital here to have a fibroid tumor removed, and on the operating table several other organis were also removed. Since then my life has been miserable, I suffered so much that I would have committed suicide, were it not for my two sons. I tried everything without sellet, and the agony was awful. I was advised to try your new gland treatment and I have thanked my creator ever since. The first week I notiged a remarkable change, my head seemed clearer, my whole system felt lighter and I improved so rapidly, I had a new ambition instilled in me to live.

I am recovering so rapidly that I don't want to interrupt the treatment, so please rush this to me. I have recommended your gland treatment to so many people. I again want to thank you for what your treatment has done.

What You May Expect This

Treatment to Do for You

The Lewis Method will positively Rebuild and Replace worn and wasted gland tissue. It will increase vitality both physical and mental. It will renew strength, especially as to the functioning of the glands. It will increase your endurance and render you less liable to fatigue. It will improve your general health, and in most cases cause a marked improvement in your appearance. Your appetite will increase and you will almost surely gain in weight if you are at present in a "run-down"

It is especially recommended to men for Prostatic troubles, Liver, Kidney and Bladder disorders and Rheumatism, both muscular and joint.

The instructions and suggestions that accompany the Demonstration Treatment will tell you about the Lewis Treatment in much greater detail than is possible in a general announcement.

> Too Much Heavy Work Is the Cause of Many Breakdowns

Lewis Laboratories, Chicago, Ill. Dear Stra:

Have just finished a month's treatment and must congratulate you on your wonderful discovery. It does not seem possible that you can restore young vigor and attength so quickly through so simple a treatment. Being an engineer of this building have considerable responsibility, and through overwork I was completely run down. I fell from a ladder rime months ago, and the shock so unnerved me that I lost all my vigor and pep. A member recommended your treatment and it has certainly done wonders for me. My wife said a week ago that the change in me amased her. The treatment put a youthful vigor in my blood, and I feel so much younger, it is unbelievable. My wife is now startling on your special treatment for women. Am talking of your treatment to all my friends and will be glad to write to anyone about this.

Texas has educational problems peculiar to her scattered rural population in certain sections, to her large negro population in others, and Mexicans in still others, but a determined effort is being made to meet these problems and solve them. Wa believe that real progress is being made. Certainly our peo-ple are willing and ready to do whatever they can if happiness dwelt in the scad, but things are so and are appropriating more and more money to the beauty contrary the bootlegger often is sad. His cause of education.

THE JOKER.

Where to you think of a janitor with a salary of \$10,500 a year? That's the income of James A. Hows, described by a Boston newspaper as the highest/paid janitor in that city. Howe's salary is more than is received by the mayor of Boston or the governor of Massachusetts. Here's the joker; Janitor Howe has to pay seven

assistants out of his salary. He says this leaves him only about \$45 a week. Howe isn't the only person who doesn't make as

much money as appears on the surface. Around coal mines there are men whose "big pay" shrinks when they take out what it costs for their helpers, the powder they use, and so on. We know a lawyer with an income of \$30,000 s

year. By the time he gets through paying office rent, employes and other expenses of operation, we doubt if he has \$10,000 a year left. Another case is a physician who specializes with

radium and the X-ray. He charges big fees. Before he has any "clear profit" for himself he has to figure rent, office expenses and interest on about \$25,000 worth of radium and X-ray machinery. We're all in much the same boat. Some have to

dress expensively for their line of work, compared with the overalls they would wear in a plainer job Many things we buy are really business expensesincluding often our general standard of living. Men (Calif.) cannery burned. Hope it canned salmon. in certain positions have to maintain a certain "front." Their real fucome is what's left after deducting all these,

And then, finally, to know what we're really making, we have to figure it on the basis of the dollar's depreciated buying power,

THE VALUE OF A MAN.

How much is a man worth?

Chemists figure out that his chemical constituents have a value of \$7 cents. These could be purchased at almost any corner drug store. Here's what they are, according to the Columbus, O. Dispatch:

"Barring gold teeth, silver plates in one's skull and similar ornaments, the chemist reports that the human body contains these elements: Sulphur enough to rid a small dog of fless, lime enough to whitewash a chicken coop, sufficient sugar to fill a shaker mough porassium to explicite a small case. Fix These figures, of course, are averages. The chemistry of human bodies is pretty much the same. They wouldn't vary a penny's worth in the chemist's scales. But fortunately man's worth is not measured in the chemical elements that constitute his body. Neither is his worth measured in what it has cost to bring him to maturity nor in his prospective labor value. Measured in these values some of us would have cost pretty dearly and would be almost a total loss as an investment.

BOOTLEG WEALTH. The bootlegger's harvested millions, according to

stories I hear, by selling to thirsty civilians his poisonous whiskey and beer. The bootlegger's diamonds are clanking, his face is aglow with a grin, while busily he goes a-banking the proceeds of death money will buy a new motor, an opulent, swaggering wain; alas, it won't purchase the voter whose friendship he's yearning to gain. His yacht may be skimming the waters, the niftiest thing on the sea, but portals are closed to his daughters, and money won't furnish a key. I'd rather be digging the ditches, if people respected me still than handling the ill-gotten riches you find in the hootlegger's till. I envy no bootlegging fellow, I never would covet his roll; the gold in his safe may be yellow, but so are his morals and soul. In spite of the fact that no game was played were far from suited for the gain-structure because of the rains. soaked turf at Belmont Park.

In no sport has the value of being properly shod been proven more than in football. Gridiron coaches are more particular about the footwear of the athletes than any other part of their football equipment. The larger institutions that do not have to worry about expenses, have various sets of shoes that are worse according to the weather and ground conditions. On a rain-scaked gridiron, the cleats on the shoes are just twice as long as those used on a dry field. Incidentally, they are of a different type that will provide a sure footing yet pick up the least possible amount of turf.

While not desiring to detract in any way from Zev's victory, it is cortainty that the race would have been far more interesting had Papyrus been shod with the same style shoes worn by the American horse. Uncertain footing positively made Papyrus timid and resulted in a shortened stride.

If there was one feature of the recent world series that stood out it was the infield play of both teams in which Joe Dugan and Heine Groh, rival third mackers, shone to advantage. In almost every game these two great players pulled off a thriller or two and in several in-stances these plays just about de-cided the issue.
