## DECKERS, SEPARATIST LEADER IS ARRESTED AT BELGIAN FRONTIER

### COOK RESPONSIBLE FOR ALL CIRCULARS SENT FROM OFFICE

### JUDGE TELLS ATTORNEYS HE WILL SO CHARGE THE JURY

### STATEMENT COMES AT END OF LONG WRANGLE

Case Probably Will Not Go to the Jury Until Some Time Saturday

PORT WORTH, Nov. 14.—Judge J. M. Killip in federal court today issued his ruling that he will instruct the jury that he holds Cook responsible for the circulation of the literature.

Dr. Cook and 13 others are being tried before Judge Killip, charged with having perpetrated a fraud in oil promotion and Cook has testified that practically all of the literature which was being distributed was sent out without his knowledge or approval.

Soon after Judge Killip made his statement, Cook's attorney, James H. Cook, declared that the defense likely would rest at that point. However, Killip stated that the other defendants wanted to introduce more testimony.

Judge Killip's statement came at the end of a long discussion as to the admissibility of an inventory of the General Oil Company, offered by Counsel Henry Kahn in behalf of E. E. Cook, one of the defendants.

The court finally ruled that the inventory was inadmissible. The General Oil was a Cox venture which went into the hands of a receiver.

FORMER SENATE MINISTER TO UNITED STATES DIES

NEW YORK, Nov. 14.—Lamont A. Cromwell, former minister to the United States and later minister of finance under Premier Vieux, died at the Hotel Seville last night. He was about 70 years old and had been in ill health for some time.

## HEART TESTIMONY ALLEGED BRIBERY IN WALTON TRIAL

### PROSECUTION ADMITS IT HAD ONLY CIRCUMSTANTIAL EVIDENCE

### LITTLE HOPE FOR SPEEDY TERMINATION OF TRIAL

Vote to Hear Evidence on All Twenty-Two Articles Involved

OKLAHOMA CITY, Okla., Nov. 14.—The prosecution in the impeachment trial of Governor J. C. Walton today began testimony in support of the charge that the executive received a bribe from citizens of Tonkawa, Okla., for the approval of an appropriation for the Tonkawa preparatory academy.

In an opening statement the prosecution admitted it would be unable to show only by circumstantial evidence that Governor Walton received any of the alleged bribes, although it would attempt to prove directly that 14,000 raised by Tonkawa citizens had passed successively through the hands of Val Gardner, a resident of Oklahoma City, and A. R. Snodgrass, assistant state highway commissioner, and a close friend and confidant of the executive.

Hope for a speedy termination of the trial seemingly vanished today when the senate court voted 12 to 21 to require the prosecution to present testimony on all 22 articles of the impeachment bill before resting.

KLAN ISSUE AGAIN BEFORE COURT OF IMPEDIMENT

OKLAHOMA CITY, Okla., Nov. 14.—The Ku Klux Klan issue in the impeachment proceedings against Governor J. C. Walton moved to the fore again today—for the present as a "side issue"—in the executive's testimony on charges of official misconduct.

Taking occasion last night to deny the purported testimony of a former Klan official that he had subscribed to the oath and paid the initiation fee in the organization, the governor let it be known in a public statement that he probably would form an important part in his defense in the trial.

The announcement came after the executive has charged that the Ku Klux Klan to remove him from office.

"I have the facts and circumstances in my possession to meet this issue when it is presented in the hearing," Governor Walton declared in asserting that while "strenuous efforts" were made by Klansmen to have him join the organization, he did not subscribe to the oath nor did he pay the membership fee.

The Klan angle re-entered the situation yesterday when a house investigating committee made public the testimony of Dr. W. T. Tilly, former cyclops of the Muskogee Klan. Dr. Tilly was quoted as having said he administered the oath to the governor last February and collected the regular entrance fee of \$10 from him at the same time. Dr. A. D. Danforth, state health commissioner and a member of the Klan, who was said by the former cyclops to have been present during the formalities, also was questioned by the committee and his testimony is expected to be made public soon.

A move to expedite the governor's trial was seen by observers in the announcement by the house board of investigation at yesterday's session that it would rest its case after evidence on 12 of the 22 counts in the impeachment bill had been presented. It was said that the remaining ten articles probably would be taken up later.

Emerick, New York City; Miss Annie Webb Blanton, Austin; Texas press representatives.

What was declared to be the best, most concrete and most constructive report ever offered by a state president, was submitted by Mrs. Lee Cook, president of the Texas Federation of Women's Clubs, Wednesday morning.

Stating that the definite purpose of the present administration at its beginning, was to assist in the creation of a more efficient system of education in Texas, Mrs. Cook outlined the progress and results of the administration in this connection, stating as the four greatest "educational needs, which have been provided for by the Federation of Women's Clubs, are: 1. The remarkable expansion in club work and membership in the state during the past two years was demonstrated by the report of the president, including the report of the addition of 120 new clubs to the previous number of 470 and the present total membership of 4233.

The untiring and unselfish efforts of the president in bringing about the adoption of the constitution of the Federation of Women's Clubs in five states and all parts of Texas, which has been compelled to decline hundreds of other invitations. The report further stated that 100,000 miles traveled on federation business as 20,000 letters, cards and envelopes were mailed, and telephone and telegraphic communications, 500.

The adoption of the president's report was enthusiastically welcomed by representatives from all parts of Texas, in appreciation of the remarkable and important accomplishments of the Federation of Women's Clubs under the guidance of Mrs. Joseph Davidson, declaring the past two years to be the most outstanding in Texas Federation history.

Visitors Welcomed. Delegates to the twenty-sixth annual convention of the Texas Federation of Women's Clubs, who were called to order Wednesday morning, November 14, at the Hotel Kemp, by Rev. C. M. Simpson, pastor of the First Methodist Church.

Preceded by the singing of the "Star Spangled Banner" led by Mrs. W. S. Robertson, Walter D. Claps, president of the Wichita Falls chapter, presided over the convention, welcoming the visitors, referring to the progress in modern complex civilization since organization and congratulating the president for her things to say more complimentary things to the Federation of Women's Clubs, expressing his belief that the stepping stone between man and God is a good woman and referring to the value of every woman in making worth while the life and achievements of some man.

Mrs. Ota O. Hamilton brought greetings and welcome from the club women and the entire woman citizenship of Wichita Falls, declaring the convention a source of inspiration to local women and a means of impressing the value of service.

Mrs. James Walder of Victoria responded to the address of welcome (Continued on Page 11, Column 2)

### Gen. Ludendorff Accuses Von Kahr With Double Dealing and Treachery In Connection With Munich Revolt

O. D. TOLISCHUS  
Universal Service Staff Correspondent. Copyright, 1923.  
Special Cable Dispatch.

MUNICH, Nov. 12.—General Erich Ludendorff Monday charged Dictator von Kahr with double dealing and treachery when he turned against Hitler and Ludendorff in the eighteenth hour revolution of Thursday and Friday.

The motive attributed to the Bavarian dictator for his sudden switch in that von Kahr did not desire the success of the German national movement, but wanted to turn it in favor of a Scotch German monarchy.

General Ludendorff Monday for the first time gave his side of his episode which cost nineteen persons their lives, with wounds for many others, when he authorized an interview which was given to me by his confidants, Dr. Rudolf Buttman and Captain Wilhelm Weiss, two leaders in the nationalist movement.

Ludendorff on Saturday sent a long telegram to Karl H. Von Wiegand, well known American correspondent. In answer to the latter's request for a statement of Ludendorff's participation in the putsch, that dispatch was never delivered, but was presumably suppressed by the Munich government.

Very Much Alive.

General Ludendorff was not wounded, did not commit suicide, and was not killed on orders from von Kahr, though all of these rumors were circulated. He is very much alive, and not even broken down or "utterly crushed," as various reports I saw and talked to him Monday. He looks hale and hearty and shows little effect of the role he played in the revolution of a few hours. So many rumors were in circulation about him that I decided to go and see him personally, establish the facts.

Ignoring the well meant advice that Ludendorff was "completely broken down and could see no one," I went out to his villa on Prince Ludwig Heights, some distance out of Munich. A police dog, more

friendly than fierce, greeted me at the gate.

My name written across a visiting card bearing the name of Von Wiegand, chief Hearst correspondent, was my identification. I was ushered into the drawing room.

General Ludendorff, his face the picture of energy and forcefulness, received me with the words:

**Will Keep Pledge.**

"I am out of the national movement in Germany. I gave only my word not to have anything to do with the present undertaking, but that pledge will be kept. I have no plans for the present."

After talking for some time of the events of the past few days, General Ludendorff turned to Buttman and Weiss, to whom he had introduced me and authorized them to give for the first time his side of the dramatic but short lived revolution. He said that they were familiar with all the details. Accordingly, these men, talking for General Ludendorff and his name, gave me the following statement:

"General Ludendorff as well as von Kahr, was taken by surprise. Hitler started the revolution on his own responsibility. Kahr, Hitler and Ludendorff had all along been agreed on the aims, the plans and the goal which was to eradicate the bolshevism creeping on Germany.

"The only matter at issue among them was the time to start the coup. Kahr insisted in the last conversations the three had that he alone should determine the moment. Hitler and Ludendorff would not and never did agree to that.

**Deny Statement.**

"The statement given out by Kahr that his two co-workers for the revolution had given the dictator their word not to start anything untrue."

"When on Thursday night, the whole government, including Von Kahr, Premier Von Knilling, and everybody high in authority, were assembled in the beer hall, Hitler decided that the moment had come. His immediate purpose was to put them before the fait accompli, since all were agreed on the eventual aim.

"Then followed what was characterized as 'wild west events.' General Ludendorff was brought from his villa half an hour away, in a special automobile, after the dramatic events had taken place. He was not present and had no knowledge of Hitler's intentions.

"General Ludendorff was taken into the conference which was then going on between Hitler, General Von Lossow, and Von Kahr. Ludendorff took no part in that conference.

"General Von Lossow turned to Ludendorff when the latter entered saying: 'Are you with us?'"

"Ludendorff answered, 'Of course I am!'"

"Then I am too," said General Von Lossow.

### Matron Attacked By 25 In Chicago Detention Home

CHICAGO, Nov. 14.—Led by Anna Barauski, 18, arrested last week as a member of a holiday band, 25 girls attacked a matron at the juvenile detention home last night in an unsuccessful effort to escape. The girls attempted to leap through a window after overpowering the matron, who was prevented by the police.

When arrested the Barauski girl told officers her father chained her to a bed in her room at home to keep her in at night.

### RAILROADS PLAN TO PUT STOP TO THEFTING GANGS

CHICAGO, Nov. 14.—Plans for thieves who last year stole more than \$10,000,000 worth of merchandise in this state alone have been made by special agents and chiefs of the police service of more than a score of railroads entering Chicago.

Efforts are also to be made to apprehend thieves who operate on de luxe trains and purloin articles from the Pullman sections.

Squads of special agents are to be organized and armed with shot guns to combat the freight car thieves according to J. Boyle, chief inspector of the Pullman Company special police service.

### TURKEY SEASON 1923 OPENS LOWEST PRICE FOR PAST SIX YEARS

AUSTIN, Texas, Nov. 14.—The turkey season this year opens with the lowest seasonal price since 1917, 20 cents a pound, live weight, and the first cars of Texas turkeys to reach the east will be mostly 20 to 22 cent birds, according to the bulletin of the Texas markets and warehouse department, edited by J. Austin Hunter.

The bulletin said:

"The turkey season this year opens under somewhat unusual circumstances, but with a stability which would seem to forecast a successful deal. Dressing plants for the most part, opened with the second week of November, and although receipts and dressing operations will not reach their height before the middle of another week, considering the earliness of the season, the progress made to date is excellent. All indications point now to a freight delivery for Texas turkeys which has never been recorded in the history of the industry. Possibilities in this regard are much more promising than normal."

This is expected to have an important bearing on the trend of the turkey market before the fifteenth of this month as car lot operators can afford to split the difference between freight and express with the producer in order to make the earlier delivery of his dressed stock to the east.

Exerting perhaps the most controlling influence on the turkey deal this year at opening were the factors; first, the storage carryover from last year, which is unusually heavy, and second, reports of a large crop in Texas, which has reached a degree of marketability unusually early, due to an ideal season, a plentiful grain crop, and intelligent care in breeding.

Texas farmers are unusually prosperous this year, and it is believed that the movement of turkeys to market will not reach its height until the market jumps considerably from the opening level.

The Indian population of the United States is 249,517 and is increasing each year.

### JUDGMENT RENDERED IN FAVOR OF PLAINTIFF

Judge Guy Rogers of the county court at law rendered judgment Tuesday evening in favor of E. F. Ayer in his suit against C. J. Jones. The plaintiff was granted a judgment of \$231, which is offset by a credit of \$300, the purchase price of a three-horse engine to which the plaintiff was also given title and possession.

### ANNUAL JUNIOR-SENIOR HIGH SCHOOL BANQUET SET FOR NOVEMBER 23

According to announcement by Sam Haabara, president of the high school junior class, the annual Junior-Senior banquet will be given on November 23 at the Kemp Hotel.

It has been the custom for a number of years at the local high school for the juniors to entertain the seniors with a banquet. This is always one of the greatest social events of the school year.

A junior class meeting will be held at the high school Thursday afternoon, when further plans will be made. It was announced Wednesday morning.

### MAMMOTH RADISHES PRODUCED NEAR CITY OF WICHITA FALLS

Unusually large radishes are being raised by R. T. Holman at his place on the Henrietta road. A sample was brought into The Times office Tuesday afternoon, said to be only average, which measured three and one-half inches in diameter.

### How Old Will You Appear at 40?

This question will be answered, pretty largely, by the appearance—or absence—of your hair. If you are bald at 40 or any other age, don't bother with Newbro's Herculicide, but between the ages of 20 and 30 you NEED Herculicide if you want hair at 40 or thereafter.

Recently the Directors of a business house ordered their manufacturing pharmacist to increase their "line" by the addition of a nice hair preparation. Dozens of "hair" preparations originated in just such a manner. Note the difference: Newbro's Herculicide was prepared by a chemist who was investigating hair loss, and who wished to test the newly announced (this was 25 years ago) germ theory of dandruff. He was aided in his extended investigation by a number of physicians, and his preparation—Newbro's Herculicide—was the original germicide for the hair and scalp, and the first real HAIR SAVER offered to the public. Insist upon the genuine Herculicide. For a generous trial bottle send ten cents to The Herculicide Company, Dept. 75, Detroit, Michigan.

### JEWISH WOMEN DISCUSS IMMIGRATION QUESTION

ST. LOUIS, Nov. 14.—Wide-spread activities of the department of immigrant aid of the Council of Jewish Women were described before the council convention here today by Mrs. S. J. Rosenbom of New York, chairman of the department. Mrs. Rosenbom described in detail the increasing work of the organization at Ellis Island where Jewish immigrants are welcomed, guided to their destination and made as comfortable as possible during their period of waiting. The council also maintains offices at other ports of entry on both the east and west coasts, she said.

Great disappointment was expressed over the departure of the United States from its "traditional liberal immigration policy."

Members of the council were exhorted to fight against the "cruel provisions" of the percentage limit act which was declared to have caused untold suffering to thousands of innocent immigrants.

# SOCIAL AND HOUSEHOLD ITEMS OF INTEREST TO WOMEN

## Fine Arts Program Crowds Church; Federation Artists Well Received At Pre-Convention Treat Tuesday

The fine arts program which formed the pre-convention entertainment of the Texas Federation of Women's Clubs, filled the main auditorium of the First Baptist Church almost to overflowing Tuesday evening, and proved one of the most delightful and finished presentations of an artistic ensemble ever heard in the city.

The program was arranged under the direction of Mrs. B. U. Taylor of Fort Worth, chairman of the program committee of the Federated Music Clubs, with Mrs. R. T. Skiles, president of the music federation, presiding. Honor guests for the evening included Mrs. Joseph, state president of the Federated Clubs, Mrs. H. B. Fall, and Mrs. Karle Wilson Baker of Nacogdoches.

The program opened with two beautiful violin numbers by the Wichita Falls Ensemble Players, Mesdames O. K. Nichol, F. B. Greenwood, Allice Miller, and Louise Bonner, with Mrs. Harwood Stacy at the piano. The numbers were the Schumann "Sonata" and a Moszkowski number, the "Spanish Dance." The other musical numbers, all of which received the highest and most insistent applause, despite the fact that no encores were permitted, included a group of piano numbers, "Allegro" and "Lento" (Cyril Scott), and "Requiem," an Albeniz number, by Miss Clara Phillips of Kidd Key at Sherman, a single number and a group of four numbers by Mrs. Dan Brown, contralto of Fort Worth, the first a Saint-Saens selection, "Amour vien Aider," and the group, "Do Not Do My Love" and "Annual Crackers," by Isaacman, "Sheep and Lamb," by Homer, and "Take Joy Home," by Bassett, with Mrs. Taylor at the piano, two splendid tenor numbers by Ivan Hutchinson, with Mr. J. B. Pittman at the piano, the "Arioso," from Pagliacci, with a brief interpretative talk, and the "Young Love Song" by Dudley-Buck, two of the most successful numbers in their attractive repertoire by the Wichita Falls Choral Club, directed by Mrs. Louella B. Thompson. These were "The Snow," and the Beechoven-Branncombe number, "When Twilight Comes," and an exquisitely played violin solo, "Concerto," by Mrs. Josephine Bonner, with Mrs. Ben Bell at the piano.

Varying the program of music and contributing one of the most appreciated numbers of the evening, Mrs. Karle Wilson Baker, noted woman pianist, read a beautiful little group of her lyrics and was compelled to respond to the ovation of applause with a fourth number. Mrs. Baker spoke of the wonderful trees of east Texas, and paid a little tribute to them in her whole group, including the classic, "Good Company." Her encore number was the lovely little verse, "Apple and Rose," familiar to every mother who is also a lover of verse.

**DR. GULL ADDRESSES BAPTIST BIBLE STUDY**  
A special treat for the Baptist Bible Study Club Tuesday afternoon at their regular meeting was the presence of the George S. Gull of

the Moody Baptist Institute in Chicago, who led the weekly Bible study through the courtesy of the Goodwin Bible Class, of which he is a guest while in the city.

The meeting was held at the home of Mrs. J. S. Frazier, 1209 Austin, and the members answered roll call with current events and later held a business session conducted by the president, Mrs. C. D. Whiteley.

### WEDNESDAY STUDY CLUB HOLDS MEETING TUESDAY

The Wednesday Study Club held their regular meeting on Tuesday afternoon this week on account of the Federation meeting beginning today.

Mrs. Wallace directed the lesson from Othello; the first, second and third scenes from the third act of Othello, and the weeks book review was given by Mrs. Strub Moore. "A Woman Killed With Kindness," Mrs. Moore's interpretation and comment on the book was a delight to her hearers, given in her characteristic style and conveying an original insight into the general character of the work, with a subtly conceived background of the author's purpose and thought.

The club had for guests from the Federation Mrs. Bob Baker of Fort Worth, who is with Mrs. E. N. Alexander, Mrs. David Warren of Bowie, guest of Mrs. W. W. Cook and Mrs. Bent, a former resident. The members present included: Madam T. E. Alday, C. N. Alexander, Bert Bean, T. H. Boone, E. H. Carter, W. C. Cook, Harry Lewis, H. E. Fain, L. W. Grayson, J. C. Humphrey, Strub Moore, J. J. Perkins, C. W. Stevenson, C. W. Wallace, Mark Moore and Robert P. Poole.

### MORE SPACE IS NEEDED FOR SALVATION ARMY

According to E. E. Corley, a serious problem, the need of more adequate facilities, is facing the advisory board of the Wichita Falls Salvation Army post. During the last six years in this city the work has become more than five times greater than preceding, that time ample facilities are not available in the present building, which has recently become crowded to capacity. All that available space may be utilized.

## The Tangle

Letter from Leslie Prescott to Leslie Prescott, continued:  
I hope, dear little Marquise, that you are not tired of my conjectures over the baby for I want to add just one more picture that stamped itself on my mind before Sydney's cartons left for home.  
He stayed with us three days. I have never seen a man so appreciative of real home life as he. I do not think there was a thing in my drawing room or dining room, a bit of furniture in his bedroom or the library, that he did not find some appropriate remark with which to show me that he knew exactly its worth and its utilization as well as ornamental value.  
"Good Lord, Syd!" one would think you were taking an inventory of Leslie's household fittings to hear you talk. You have called my attention to things that I never saw before.  
"That's right, Jack!" I was glad to say to him. "You have taught me that I can't own a thing who always sees and appreciates one's taste and the perfection of one's home."  
"I wish household gods have to be perfect," Leslie asked Sydney.  
"It seems to me just at present as though I had been in houses where worship and adoration were given to very useless and very ugly idols."  
"Such as?" interrupted Jack.  
"Of course you wouldn't have me say yourself," smiled Sydney.  
"I wouldn't have you say it either," Sydney said, I having my hand on Jack's arm fondly. "I think he makes a very splendid head of the house as well as father of the child. He is now going to christen with the historical name of John Alden Prescott."  
Jack wriggled as though something was pricking him all over as a hair shirt might have done.  
"According to mother, Leslie, all my ancestors will be spending the few moments, in which the rector is sprinkling water and blessings on the unconscious face of little Jack, in turning over in their graves. She calls him a 'nameless brat,' you know, Syd."  
At this I snatched up my baby and started out. I could not speak. It seemed to me that this ceremony would indissolubly knit the bonds between my baby and me in a way that no one ever could break them.  
I felt that even Jack had a vague appreciation of this "or as I held the child as proxy for Alice, his arm stole about me and he whispered, "Little mother, Leslie, you know me very, very happy."  
I suspect that you are beginning to be bored, little Marquise, with all these descriptions of baby-sitting, but I feel sorry, dear little shade of yesterday, that you never had the joys that I have been describing to you.  
Sydney had to leave right after the christening. When we arrived home I found pinned just inside the baby's cloak a check for a thousand dollars and a tiny note saying, "A nest egg for my godchild. Watch the nest fill up. The goose that laid this one will surely put others beside it."  
I do not know, little Marquise, that I didn't even tell Jack I had found that money? I was so afraid that it would go just as the other five hundred had gone. That five hundred I had already replaced and de-

## Women Will Have to Overcome "Inferior Complex"—Mrs. Catt

ST. LOUIS, Nov. 14. (AP)—The "inferior complex" of men and the "inferior complex" of women are two things that will have to be overcome before women may attain positions of patronage and leadership wherein they can best realize their ideals, Mrs. Carrie Chapman Catt, founder of the International Suffrage Association asserted in an address here last night before the League of Women Voters.  
Mrs. Catt reviewed the progress of activities on behalf of women's rights in numerous countries and declared the woman movement is going forward straight and strong all over the world.  
"There never was a divine right of men to rule over women," she said, "and there never was a divine right of women to be ruled, but it is the divine right of all humans to serve the race and we must find a way to do it."

## Why Girls

Are not prettier—why women grow old By Edna Wallace Hopper

I was a plain girl, but I made myself a famous beauty. I have reached the age of 62, but I keep my youthful looks. Countless young girls envy my hair and my complexion.  
No ordinary beauty helps ever did, or ever will, bring such results to women. I searched the world for the best helps in existence. I spent a fortune to obtain them. To them I owe all that beauty and personal youth has meant to my career.  
Now I have placed these identical helps at your call. To give the world's most multiplied beauty to women continued youth. I urge you to let them bring to you what they brought to me.  
The Great Mistake. Millions of women seeking beauty and youth use unscientific helps. Now I bring you the best helps in existence.  
Clay is a beauty essential. No girl can look her best without it. So women keep her youth. But not the crude and muddy clays so many still employ. A super-clay has been perfected by 20 years of scientific study. It is white, refined and dainty. It is ten times more effective than the ordinary clays.  
I call this my White Youth Clay. Many women, with one use, seem to stop ten years. It brings a rosy, clear complexion. It removes the signs of blackheads and blemishes, firms the skin, combats all lines and wrinkles. My White Youth Clay will amaze and delight you. I urge you to see what it does. The cost is 50 cents and 75.  
Scientific Creams. Women use creams which so soon rob them of their world conquest. I made a world-wide search to get the best creams in existence.

FORBES PUTS NEW THRILLS INTO WAR BUREAU HEARINGS

FLATLY CONTRADICTS TESTIMONY OF PREVIOUS WITNESSES

TELLS OF REQUISITION MADE ON THE BUREAU

Says General Sawyer Wanted Forty Barrels of Whiskey and Alcohol

WASHINGTON, Nov. 14. (AP)—Fleeting details of his denial of the charges against him former director Charles R. Forbes of the veterans' bureau put new thrills into the senate veterans' investigation today by flatly contradicting the testimony of several previous witnesses.

He passed the lie direct to Elias H. Mortimer, Philadelphia, who had told the investigating committee that under Forbes' administration confidential information was furnished certain contractors regarding proposed hospital sites.

"If Mortimer states that the former director, 'the states that as a lie.'"

The witness also contradicted directly the testimony of Dr. Charles E. Sawyer, personal friend and physician of President Harding, that Forbes was dismissed by the president for not obeying an order to stop surplus property sales at Ferrisville, Md.

"The former director declared today that Mr. Harding had given him authority to release load of cars at Ferrisville after the first stop order was issued."

James H. Easby-Smith, counsel for Forbes, read into the record a requisition on the service bureau for supplies for the soldiers' home at Dayton, Ohio, made by General Forbes. It called for 20 barrels of whiskey, 20 barrels of alcohol, 100,000 sheets, 100,000 towels, 50,000 blankets, 100,000 yards of gauze bandage.

"Why?" asked the committee chairman, "the quantities were excessive," Forbes responded.

Questioned about his relations with Mr. and Mrs. Mortimer, Forbes said he met Mrs. Mortimer first at the veterans' bureau and soon afterwards was introduced to Mr. Mortimer. He denied that Mr. Mortimer was at the bureau on soldier welfare work, saying she was there to visit a woman employee.

He said he became "fairly intimate" with the Mortimers and found them "agreeable companions."

Asked about the testimony of Mortimer that Forbes had stated that he was in an official capacity in Hawaii he had "fired things so nobody lost money," Forbes exclaimed: "Again Mortimer lies."

Questioned about Mortimer's claim that he had paid Forbes' bill at the Ritz Carlton hotel in Philadelphia, Forbes said the reverse was the case; that he paid \$27.50 for Mortimer.

The witness then made emphatic denial that he had ever accepted a "penny" from Mortimer.

WICHITA FALLS EXCELS IN NUMBER OF EAGLE SCOUTS

"Wichita Falls has more eagle scouts for the number of boys enrolled in scouting than any other city in the United States," Frank Creighton, local scout executive, told the League of Nations at the regular luncheon at the Kemp Hotel Wednesday.

Mr. Creighton outlined the organization of the scouts in England and told the story of its almost accidental spread to America, whence it has spread into 43 foreign countries.

Scouting takes a boy's leisure time and devotes it to something worth while. It teaches a boy how to play and encourages those things in his play that are helpful in bringing out his better qualities. Scouting has no creed, the only universal in its appeal and is taken by all races and religious faiths. Mr. Creighton explained the development of a scout from the first and second class scouts and then to eagle scout.

"There are about one million boys who are active in scouting in the United States today, there are five million who are anxious to take up the work but the scarcity of scoutmasters makes this prohibitive," the speaker said. He appealed for men to take up the work in the scoutmaster school which will begin November 20. He urged members of the club who were interested in work with boys to attend the school. If for no other purpose than to get an idea of the work that the scouts were doing in this territory.

He also extended an invitation to the membership to give the scoutmaster ring which will be held Friday night after Thanksgiving at Camp Ford, where 250 boys will be in camp there.

A motion by J. B. Hatchett to request the League board to include in its program the work in the budget for the 1924 drive for United States Scouts was passed by the club and the secretary was authorized to advise the board of the action taken by the club.

The club voted to implement the motion of Mr. Hatchett at the public night school of C. A. Alley, secretary of the club, was asked to notify the school board that the club would be responsible for the salary of one teacher each month.

Mrs. T. Buchanan and Mrs. J. J. Schaefer, with Mrs. L. L. Brooks Huff at the piano, sang "Smiling Through," they responded to the applause of the club with "Carry Me Back to Old Virginia." Mrs. Alvin Bailey entertained the club with two violin selections, she was accompanied by Mrs. Huff.

CASE SCHEDULED TO GO TO JURY LATE WEDNESDAY

The case of Hester Brothers and Company against the Hester Supply Company and others, which has been on trial before a jury and first court action, Monday, was scheduled to go to the jury late Wednesday afternoon. Practically all of the afternoon has been occupied prior to 2:30 o'clock. The plaintiff seeks a judgment of \$29,000, which he claims as damages for the alleged failure of the defendant to deliver a rotary drilling rig.

The Roman Catholic runs in the world are said by a statistician to number nearly 475,000.

DIAMOND JUBILEE LOCOMOTIVES TO BE SHOWN THURSDAY

Officials of the Fort Worth and Denver City railroad announced Wednesday afternoon that the famous Fort Worth Diamond Jubilee locomotives of the Denver, which have attracted great attention at the celebration in Fort Worth during the past three days, will be on exhibition in Wichita Falls Thursday from 1 p. m. until 10 p. m. at the Union station.

The two engines denote the progress of the railroad since its beginning. The Denver was chartered in 1872. The exhibit consists of two locomotives; one old No. 40, which was built in 1882 and has been in constant service since that time, and the other is a fast passenger engine, No. 49, which was built in 1921 by the American Locomotive Company and is of the Pacific type.

The total weight of the engine is 232,000 pounds, weight on drivers 173,000 pounds, and on tracks 69,000 pounds. The engine has a weight of 49,000 pounds, on the trailer, and the tender loaded weighs 146,000 pounds. The total weight of the engine in working order is 449,000 pounds, and it has a tractive power of 42,000 pounds. Its cylinders are 37x23 inches, diameter of driving wheels is 74 inches, length 79 feet three inches, height 18 feet; fuel oil capacity of tender with fuel 3,200 gallons, and the water capacity is 8,200 gallons.

The engines have been repainted and placed in excellent condition. Reports continue to come into the police station of a midnight prowler and peeper who has been operating here at intervals for the past three weeks and city officers were hopeful Wednesday morning that they had a clue which would lead to his arrest. Reports are made Wednesday morning to officers from two different places in the residential section which the prowler visited Tuesday night. He confined his prowling to opening a window near where women were sleeping. At one place he is said to have struck a match and the woman, whose window he attempted to enter, in positive that she can identify him.

In the past three weeks the man has been reported at about a dozen different homes; he has been fired on one time and run off with an ice pick on another occasion. His tactics have led city detectives to believe that it is the work of a feeble minded person. No attempt is made to burglarize and he has been known to return to the same place twice in the same night. An arrest is expected in the case Wednesday.

CASE IN 7TH COURT IS SETTLED BY PARTIES. The case of J. R. Sandifer against D. P. Read was settled by the parties Wednesday morning and dismissed from the docket. The case was on trial all day Tuesday in the 7th district court before Judge E. W. Napier and a jury. The plaintiff asked for judgment and an accounting of partnership funds.

### Plendid Report of Progress Made By Federation President At Opening Session of Convention

Report of Mrs. Lee Joseph, president of the Texas Federation of Women's Clubs, was the first item on the agenda of the opening session of the convention held at the University of Texas at Austin, Nov. 13.

Your president accepted the position of president of the Texas Federation of Women's Clubs, with a definite purpose in view: To assist in the creation of a more efficient system of education in Texas.

To this end during the first year of the administration the president embodied this purpose in all public addresses and lectures to clubs and in all articles for the state press. She conferred with Governor Pat M. Neff, with many leading authorities on education, the heads of the state institutions of learning and the state department of education; she instigated upon the creation of educational committees in all federated clubs, and through the persistent propaganda emanating from state federation headquarters and from definite plans projected by the state department chairman of applied education and the divisions of the department, succeeded in attracting the attention of the people of Texas, and of the Texas legislature to the educational needs of the state.

During the state convention held in Houston, November 1932, your president appointed a special committee for the purpose of formulating the Federation's program for education; the committee evolved the following:

- (1) Adequate support.
- (2) Proper control.
- (3) Reorganization of the common school system.
- (4) An expert survey.

The program was approved by the president of the Federation, by the presidents of the University of Texas at Austin, A. M. College and other authorities, and was presented to the State Teachers' Association at their state convention in Houston, November 1932, by Dr. Oscar H. Cooper.

Your president was present upon the occasion and witnessed the adoption of the Federation program on education by the State Teachers' Association.

As the official head of the Texas Federation of Women's Clubs your president prepared a letter which included the Federation program.

and sent it to every member of both houses of the Texas legislature—the strong men of the state. Governor Davidson urged him to appoint strong men on the committees of education and finance. Through individual efforts and through efforts of the joint legislative council and including many friends of education, assisted in securing under provision 1 of the Emergency Appropriation Bill for the public schools and your president approved and argued for this bill before the legislative committees on education and finance.

Under provision 4 your president, many patriotic women and the joint legislative council are responsible for the passage of a bill providing an expert state survey of education and carrying an appropriation of \$1,000,000.

Provisions 2 and 3, proper control and reorganization, will be included in the work of the expert survey.

The Federation is grateful to Gov. Pat M. Neff, to Dr. Oscar H. Cooper, to Dr. Caswell Ellis, Miss Annie Webb of the State Teachers' Association and to Doctors Vincent, Bralley and Johnson for their cooperation and counsel.

**Strengthened the Federation's Scholarship in the University of Texas.**

For many years the University of Texas has held a scholarship provided by the University of Texas Women's Clubs. The scholarship has previously carried the pitiful sum of \$125.00 per annum. Your president with the consent and advice of the executive committee and the auditor of the University changed the amount of the scholarship which resulted in doubling the amount of the interest which is \$250.00 per annum.

Through the consent of the executive committee the scholarship has been increased by the addition of \$100.00 of which has been paid, the remaining \$150.00 to be paid in January, 1934.

The scholarship is now worth to its holder the sum of \$400.00 which is paid in eight monthly installments of \$50.00 per annum.

**The Tower-Sterling Bill.**

Your president has given her active support through the distribution of literature and through numerous public addresses to the Tower-Sterling Bill, which is endorsed by the general Federation of Women's Clubs, the Texas Federation of Women's Clubs, the National Education Association and by all leading authorities on education.

During the second called session of the 37th legislature, in a personal interview, your president secured the consent of Gov. Neff to submit a bill providing for the establishment of an Illiteracy Commission for Texas—your president with the cooperation of the joint legislative council aggressively worked in the interest of the bill. It passed the senate but the president through enforced absence at the biennial council meeting in Atlanta, Ga., was unable to work with the joint legislative council and the bill failed of passage in the house for lack of a quorum and because of insufficient time.

The governor again submitted the illiteracy bill at the 2nd called session of the legislature in June 1932, at the request of your president, and numerous women of the Federation, but the crowded calendar and weather conditions which created a state of unrest and a desire to go home on the part of the legislature, gave the bill a bare fighting chance.

The president publicly commends the state chairman of the department of merican citizenship, Mrs. W. E. Spell, who, with your president worked unceasingly for the bill in the senate and under the discouraging conditions of no other assistance. Hundreds of letters were sent to the women of Texas urging them to support the bill and asking their support.

(See "Recommendations")

A joint legislative committee of a former administration was enlarged by your president to a council composed of the following five state organizations:

- The Parent-Teachers' Association.
- The W. T. U.
- The State Federation of Business and Professional Women.
- The Texas League of Women Voters.
- The T. F. W. C.

Through the financial support of these organizations the council was able to function, advantageously through the employment of a secretary of \$150.00 per month for a period of four months. The council reports the following bills and resolutions passed at the several recent sessions of the Texas legislature:

**Resolutions—**A Survey of the Penitentiary System. Birth Registration.

**Bills—**An emergency appropriation for the public schools of Texas, passed and signed by the governor. An educational survey, passed and signed by the governor. Sheppard-Towner act, passed and signed by the governor.

(Full report of joint legislative council attached and to be filed with the records of this administration.)

The South Central Council of State Federations, including the states of Louisiana, Mississippi, Oklahoma, Arkansas and Texas, has been organized during this administration.

The council held initial meetings at Houston, Nov. 1932, and perfected organization at Atlanta, Ga. May 1933.

The following officers were elected: President, Mrs. Joseph, President, New Orleans, La.; vice president, Mrs. R. P. Robbins, Houston, Texas; corresponding secretary, Mrs. D. H. Foreman, Electric City, Miss.; recording secretary, Mrs. J. R. Frazier, Wilburton, Okla.; treasurer, Mrs. A. W. Troup, Ft. Bluff, Ark. (See minutes attached)

**Week of Conference on Education and Citizenship.**

The establishment of a week of conference for two consecutive years, 1932-33 at the University of Texas through the cooperation of the League of Women Voters and the P. T. Association was initiated and fostered by your president. From her office there were sent 1,000 letters this year, advertising Conference Week. Your president presided over two sessions of the conference but was prevented from further cooperation by the imperative need of her presence at the state legislature.

**Finance.**

The president seeing the need of increasing the resources of the federation created the office of execu-

### With J. Clapp of New York With West Texas C. of C. and Denver Road Officials Due Here Thursday Noon

By long distance telephone. The Times learned Wednesday from D. D. Moore, publisher of the Fort Worth Record, that Edwin J. Clapp, financial editor of the New York Journal and special editorial writer for the Hearst papers; Homer D. Wade, assistant manager, West Texas Chamber of Commerce; Hamilton Wright, the Fort Worth Record's special correspondent for west Texas; F. E. Clarity, vice president and general manager, Fort Worth & Denver City Railway; Joe Barwise, special counsel for the Denver, W. F. Sterley, general freight and passenger agent, will leave Fort Worth in a special train at 8:00 o'clock Thursday morning and arrive here at noon.

The train will be made up of the first passenger locomotive the road ever had and one of the modern 1921 American engines, together with a business car and Mr. Clarity's private car.

The party will be met by representatives of the Rotary Club and the chamber of commerce.

Walter D. Clapp, president of the chamber of commerce and of the Rotary Club, earlier in the day sent an invitation to the members of the party to be the guests of the Rotary Club at the regular weekly luncheon at noon at the Kemp Hotel. Mr. Clapp will be shown over Wichita Falls.

He is in the process of making a survey of business and industrial conditions in the state, and has been a life long student of trade and transportation. He was successively an instructor in political economy at Yale, assistant professor of trade and transportation, New York University, afterwards professor of the same at the same institution; chief of economic section, information and educational service, United States Department of Labor. He was later general manager of the Fifty-Fifty Corporation and secretary of the Exporters Encyclopedia.

An article by Herbert Hare on the planning of the city of Longview also appears.

The "Biggest Man in Town," the editorial of the month, has received many compliments, as has the front page editorial welcoming the Texas club women to the city.

**OUR MISTAKE**

Through a typographical error, the advertisement of J. R. Cox in the classified columns of the Tuesday issue was made to read "I am not undertaking to organize an oil company under the laws of Texas." Mr. Cox states that he has some real good production clear of debt and is ready to organize and put over a company and wants to talk with those who are interested. His office is in room 11, International City National Bank building. The Times cheerfully makes this correction.

### GAZ COMPANY ISSUES WARNING AGAINST BOGUS COLLECTORS ACTIVE HERE

Unauthorized collectors are visiting residences in Wichita Falls and demanding payment of electric, gas and water bills, according to information obtained by H. T. McLaughlin, district manager of the Municipal Gas Company, and warnings are being issued by the public service companies.

According to Mr. McLaughlin, three men called at 1821 Eleventh street Tuesday and demanded payment of \$17.50 as the estimated amount due the gas, electric and water companies. The lady of the house at first started to pay the men, but later decided that she had better notify her husband and told him to call later. The husband had the accounts and the gas company was notified, according to Mr. McLaughlin.

The three concerns have issued a warning to their patrons in Wichita Falls requesting them to demand identification from all collectors.

Threats of discontinuance of service are made by the unauthorized collectors. Mr. McLaughlin has been advised.

### NOVEMBER ISSUE OF COMMUNITY BUILDER IS FULL OF INTEREST

The November issue of The Community Builder, the monthly publication of the Wichita Falls Chamber of Commerce, was issued Wednesday.

"The Waste of Litter," an article by the Chamber of Commerce, is the civic development of the United States Chamber of Commerce, appears in this issue.

An article by Herbert Hare on the planning of the city of Longview also appears.

The "Biggest Man in Town," the editorial of the month, has received many compliments, as has the front page editorial welcoming the Texas club women to the city.

### DON'T STARVE THE "KIDDIES"

Stuffing them with indigestible foods may please their appetites, but it does not build perfect, robust bodies. There is more real muscle-building, bone-making material in Shredded Wheat Biscuit than in potatoes, eggs or mushy porridges—and the crispness of the shreds of baked wheat encourages thorough chewing, which means good digestion and sound teeth. Contains just enough bran to prevent that bane of all childhood—constipation. It is an all-day food, delicious for breakfast, for lunch, for dinner.

### BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with a new field of action: it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized as the healing agency for the treatment of chronic coughs and colds and other forms of throat and lung trouble. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, to which the creosote goes on to the stomach is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung disease, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist, Creomulsion Co., Atlanta, Ga.—adv.

A THOUGHT FOR TODAY

Above all things put on charity, which is the bond of perfectness.—Col. 3:14.
He who believes in goodness has the essence of all faith. He is a man of cheerful yesterday and confident tomorrow.—J. F. Clarke.

SOME SIGNIFICANCE IN LAST WEEK'S ELECTION

The Houston Chronicle calls attention to one significant fact in connection with last Tuesday's elections, and that is the complete victory of Governor Al Smith's forces in New York. This very clearly indicates to the Chronicle that Governor Smith will control New York's delegation to the Democratic national convention.

What will he do with them?
Doubtless the New York delegation will follow an action for which there is abundant precedent and cast a complimentary ballot for Governor Smith. But Governor Smith has no chance for the nomination. The federal constitution guarantees all its citizens the right to worship God in their own way. The constitution of Texas forbids a religious test. Yet a great many citizens of Texas and other states do set up a religious test and will not vote for a Catholic. This must be acknowledged in any frank discussion of the possibilities for the Democratic nomination for president. Governor Smith is a Catholic.

So with their favorite barred New York delegates will throw their weight elsewhere. McAdoo and Underwood are the two leading aspirants for the nomination at this time. New York's vote would go a long way toward nominating either of them. Just now Smith is Tammany and Tammany is Smith. Tammany has a score to settle with McAdoo who refused to recognize that organization while in the Wilson cabinet. McAdoo is reported to have said that he doesn't want Tammany's votes in the convention. It looks like New York's votes might go to Underwood.

But there is no certainty about this and probably will not be until after the convention gets going, even if then.

Tammany and Smith will go to the convention with the votes of the New York delegation ready to deliver to the candidate whom they believe will give the most benefit to them. That is, they will do this if McAdoo or some other candidate doesn't take the New York delegation away from Tammany, an eventuality that is regarded as highly improbable.

FAR-OFF FIJI

Ahoy, there, DX! This is the Fiji Islands, city of Suva, speaking. We just picked up one of your magazines and notice a serial story that pictures us as a country raving with man-eating cannibals. This is news to us. The wildest things we've noticed lately are the Fiji Boy Scouts. They put on quite a show at government house grounds the other night.

In our police court here—yes, we have a police court—this month's most exciting case concerns an Indian woman named Malowa. She was charged with stealing a can of talcum powder—shop-lifting—from the store of Sturt Ogilvie, Ltd.

As for the wilder parts of our country, Leketu and Drekoti report nothing more exciting than widespread stealing of coconuts, which are disposed of through Chinese storekeepers who act as "fencees." One owner of a plantation, raided in moonlight by Fijiian boys, writes indignantly to the local newspaper: "It may appear incredible, but it is nevertheless true that here in Fiji, property is not safe. The much-quoted Fijiian is completely out of hand."

The famous headquarters in the island of Luzon now has picture postcards instead of chasing visitors with a bolo. From the far north came words recently that the Baklins prefer Harry Lauder on their phonographs. Americans are building a chain of giant steel towers, for radio, in China.

Ships get their bearings by radio. "Metal Mike," a gyroscopic machine which keeps a ship in a straight line without being touched after the original adjustment, has just completed successfully a trip to Europe on the liner President Adams.

Goodby, romance! The job of making the world dull and monotonous is about completed.

Let's see now, today is Ford's day to refuse the presidency. He does it every other day.

Henry leads a hard life. Before breakfast every day he decides either to run or not to run.

The Germans are still writing notes to France. These are the only notes France can collect.

Big meeting in Brussels. Hundred orators do various things. Resolute Brussels sprouts.

CHILDREN'S BOOK WEEK

This is Children's Book Week. We believe it is a good move to direct special attention to books for children and to place emphasis upon such books.

We have wondered whether picture books had any effect upon the reading of books by children; whether seeing the stories on the screen has satisfied children or whether it has increased the desire to read the books themselves. We have seen no statistics nor heard any evidence on this point. We hope seeing pictures stimulates the desire for good reading on the part of children.

There are books that every child should read, but a good many of our children are growing up without reading them, despite the fact that they are in every public library or can be purchased in editions at nominal cost. Not only are there old favorites, the reading of which itself is a good part of education but every month brings new books. The writing of children's books has become a special art and authorship and we have some worthy masters in that art.

There can't be too much encouragement to children in the reading of worth while books.

THE BOY WHO SHOULDN'T GO TO COLLEGE

There are some things above an education. There are some things excelling grace and knowledge; Courage is written by self-abnegation. Some boys there are who should not go to college. I write this down just as a young boy said it. And for the lesson taught me give him credit.

"Not going to college?" "No," he answered sadly. "I'd hoped to go, but now the dream is ended. I'm going to work—my mother needs me badly. College, I guess, for me was not intended. I'll educate myself some way or other. But dad is gone, and I must help my mother."

"I could not read a book and be contented. I could not stay four long years my dream pursuing. And know the money for the room I rented. Might ease the heavy task which she was doing. I have no right to seek for wisdom's beauty. And reach for knowledge at the cost of duty."

"I'll go to work and smile to keep her merry. I'll stand between her and the world's privation. She shall not suffer pangs unnecessary. That some day I may boast an education. My mother needs me more than I need knowledge—I am one boy who should not go to college!"

TODAY'S TALK

By GEORGE MATTHEW ADAMS

LEADERSHIP THROUGH FAITH.

Like gravity which keeps us from falling off this little earth and regulates so many things, bringing about smoothness and accomplishment, so does Faith keep us in our course and lead us safely on.

You often hear the remark that Faith is just something blind that we follow. As a matter of fact, Faith is the one thing in this world that has eyes so true you cannot possibly lose if you follow its lead.

And the legs of Faith never get tired, nor do they stumble. They keep leading and leading. If you ensnare Faith and make it your guide, you cannot fail.

Faith sees, thinks, keeps moving about in the world and watches for the best times and places for human beings to take advantage of.

Faith is truer than the blindest steel. Faith increases vision, wakes up the weary and worn, and keeps pointing to things higher and better. It pictures the progress of a man, as though it showed it in a mirror—so that anyone who will make use of it, grows and grows.

Faith knows that it can live only through exercise and moving about. And so it keeps edging all human beings and watches its chance to climb into the human heart and start doing its work.

But no one may have Faith or its marvelous abilities unless he agrees to make use of it. Faith won't stand around and be starved. It must have warm sympathy and nourishment. It cannot follow. It must lead.

And so you with Faith must lead. You cannot lead without it.

We are all of us Faith followers, after all. No one may be great or useful or happy without it. It is as essential for a happy life as food or clothing or friends.

REVOLT.
I am so tired of Bidad Bish that sometimes in my heart I wish he'd move to far Cathay; I would that I might see him bound for some deep hollow in the ground a million miles away. For every paper I peruse has Bidad featured in the news, or in the Household Hints; and like some fuscious movie queens he's smiling in the magazines in Artogravure flints. If there's a crisis in the land old Bidad's sure to be on hand, to view with deep alarm; with all the goods, his princely grace and charm. He joins the swimmers in the pool when he's not teaching Sunday school, and all his shining deeds are chronicled from shore to shore, that they may thrill, inspire or bore the delegate who reads. One day he makes a speech in Malise, the next he's standing in the rain to lay a cornerstone; he shows a rouser how to shove, he is chief mourner at a grave, he sends the Japs a bone. No matter what this Bidad does, the glad reporters round him buzz, and write about his wreathe; photographers around him swarm, and snap his proud though childlike form, his whiskers and his teeth. I often do more vital things but no-one comes around and swings a camera at me; I often hit a striking pose, and pull a few aesthetic threads, but there is none to see.

Little Benny's Note Book

Me and Mary Watkins was working home from school together on account of my having saw her ahead of me and quick catching up with her anxiously on purpose, and I started to tell her how grate I was going to be when I grew up, saying, Do you know what I'm going to be. Im going to be a grate engineer and build the biggest bridge across the biggest river in the world. Whenever a river is too wide for anybody else to build a bridge across it why they'll feel come and ask me to do it because Im going to be a specialist, I see. O, wont that be lovely, I think yours wonderful, Mary Watkins said. Why dont you change your mind and be a grate doctor instead? she said. Maybe I will, I see. Yes, I believe I will, Ill be a grate doctor and Ill take people's stomachs out and shine them up and put them back again before they even know they were interrupted, I see, and Mary Watkins and I went on talking and I love doctors. Why dont you change your mind and be a grate lawyer she said. Well, I think of being a lawyer, I see. Yes, I believe I will, Ill be a grate lawyer and tell the judges what to say and different things that that, I see, and Mary Watkins said, O my, wont that be perfectly perfect. And she came to her house without having time to ask me again why I didnt change my mind, and if Im not Ill be a grate doctor instead or lets maybe Ill be a grate lawyer she said.

You'll be a grate big greens spot if you dont get out of my life and let me read, Gladis said.

Proving, Gladis are different.

YOU AND I

FASHIONS
Styie makers pass the word to their customers that plaids, stripes and checks are the fashion for women's wear next spring. There'll be a strong play on simplicity of silhouette. Garments will run severely to a simple line.

This sounds as if the ladies will look as if they'd been tailored by carpenters. The affect will be softened by an epidemic of chin straps, collars, cuffs, lacquer red, coral, blue, greens and delicate corals.

The only thing that doesn't go out of fashion is the pocketbook, which'll be as much in demand as ever before.

SKILL
World's speed typewriting championship goes to Albert Pangora. He wrote 112 words in an hour, making only 31 errors.

The average word has at least six letters. So Pangora hit the kaka accurately near 6666 times in an hour—or 1,000 times a minute. About 17 a second. Each letter had to be written to the eye, on the brain, then telegraphed to the fingers and allied muscles. That's the fastest thing in the universe.

STAGING
A girl invites a quarrel by wearing a red dress. Blue soothes the eye and attracts him. Men have a peculiar instinct for color. They shy away from green. A girl wearing much jewelry conveys the impression of being a spendthrift, while brown suggests she is practical.

These and other psychological hints are given in "Y. W. C. A. course on etiquette for business girls." In Chicago.

The plot of life depends on the first stage of marriage. More so after marriage than before.

A PUZZLE A DAY

A train runs a mile in 50 seconds. Its rate of speed is, therefore, 72 miles an hour. If it doubles the number of seconds, taking 100, it halves its speed, now going 36 miles an hour. How fast will it be going if it makes a mile in 150 seconds? One mile in 50 seconds is—60 miles an hour.

One mile in 100 seconds is—36 miles an hour.

One mile in 120 seconds is—30 miles an hour.

America's Favorite Songs

AMERICA THE BEAUTIFUL

"America the Beautiful" is an apt illustration of the survival of the fittest, which sometimes prevails among melodies as well as among humans.

The stirring poem of Katharine Lee Bates originally was issued with several settings. Their success, however, was limited by the public taste, which by its constant but unapproved approval of a version of the song in which the music had not been written to fit the poem. It was the hymn tune, "America," written by Samuel A. Ward.

"Sing" the poetess. The poem was inspired in Miss Bates, who is professor of English at Wellesley College, by her visit to the summit of Pike's Peak in the summer of 1893. It was the beautiful view of "spacious skies" and "purple mountains" that inspired the first stanza of the poem.

The verse attracted an unexpected amount of attention and was almost immediately set to music by one of America's pioneer composers, Miss G. Foster. Other tunes were written for the words and so many requests came to the author to permit its use in various publications that in 1894 she reserved the rights, the phraseology more simple and direct.

This patriotic hymn has gone around the world. Australia, Christian Endeavor have adopted it, changing "America" to "Australia."

O beautiful for spacious skies, For amber waves of grain, For purple mountains majestic above, America! America! God shed His grace on thee, And send thy good with broods of peace, From Him is shining sea.

O beautiful for pilgrim feet, Whod here have pondered deep A thoroughfare for freedom tread, Across the wilderness, America! America! God send this every flag, And send thy good with broods of peace, From Him is shining sea.

The Irreconcilable Boys Will Now Prepare for the Administration's Foreign Policy

THE FOOL

BY CHANNING POLLOCK

Wonderful to him, I can't explain it. She's like a different woman. And she seems happy. But Jerry's had to give up work, and there's more trouble in back River—that's what brought me.

"You don't want my advice," said Daniel quietly.

"I want you," said Goodkind—as general manager. These strikes are such after a—waste. We had a working compromise on your agreement, and everything was all right, but we began figuring we could make more money—and the men walked out and flooded his mine. I'd like you to take charge, Daniel!

Goodkind did not hesitate. "I can't," he said simply. "You're not going to turn down \$100,000 a year?"

"What can I buy with it that I haven't got?" Goodkind smiled faintly.

"Had a doctor look her over?" he asked of Goodkind.

"Three of them," he replied. "Any opinion?"

"Three opinions," he answered smiling. "They say she didn't do it," spoke up Mary Margaret. "You seen him?"

"The plot of life depends on the first stage of marriage. More so after marriage than before."

"They all said she suffered from hysterical paralysis. One says she was cured by shock—you know, the kind that makes you believe in something—believing which is another way of saying faith, isn't it? The important thing is that she's cured."

"God and Mr. Goodkind!" He called her again, then bent her on her way with an armload of packages. The two men passed, each waiting for the other to speak. It was Goodkind who broke the silence.

"How are things with you?" Goodkind asked at length.

"Not bad," came the answer, with more than a note of ambiguity of enthusiasm.

"Happy?" asked Goodkind, as though asking the way.

"Yes." The reply bore assurance. "And you?"

"Everything's all right," he answered. "My boys very ill. Clara's fussed."

CHAPTER XXII Success and Peace Goodkind, master of millions, was taken back by the blind query. Outside there waited for him a motor car with more upholstery than the whole room contained. He had just driven from one of New York's residential show places. He owned mine that went deep into the ground and skyscrapers that towered into the air. With one flourish he could write a check in seven figures. And this man had asked him what wealth had bought for him!

"I've any of the finest houses in New York," he said at last. "Is it any more comfortable than this?" Daniel challenged. "I've got half a dozen cars," went on Goodkind.

"I've two legs, and I walk, and keep well," returned Daniel. "I'm his servant—"

"Don't tell me you enjoy that!" "And what's most important of all," said Goodkind emphatically, "is success."

Daniel fixed penetrating eyes upon him.

Goodkind's answer was a scornful mutter.

"Are you?" Daniel queried again. "I'm successful. Money? Yes, that is what our civilization tells us. Money! But there has that brought us? Only the elevation of the unit—the merely shrewd and predatory. All around us we see men of wealth who have nothing else—wealth, health, nor happiness, nor love, nor respect. Men who can get no joy out of books, or pictures, or music, or even themselves. Tired, worried men who are afraid to quit because they have no resources except to make money—money with which to buy vulgar excitement for their own debased souls."

He paused for a moment.

"Why, Mr. Goodkind, I have an income that you wouldn't suggest to your bookkeeper. But I have peace, and health, and friends, and time to read, and think, and dream,

father. "What's been keeping you?"

"Mr. Goodkind," explained the older Goodkind, "Jerry said a nurse took his son through the door. He looked at the figure that came toward him."

"Who are you, Jerry?" responded Goodkind cheerily.

"Not so damned well," said the other, cringing. "But I'll be all right in the spring. Clara's looking after me. Clara's a good sport. What I need now's a run down to Palm Beach." He looked around the room patronizingly. "So you're reduced to this, are you?"

"Yes," said Daniel, smiling. "Going to take my job?"

"No," said Goodkind. "Why not?"

"Your father understands," said Goodkind.

"Yes—so do I," Jerry answered. "Didn't I always say you were a nut? That's it, a nut. And his depressive laughter turned into a paroxysm of coughing that almost toppled him."

"Come, Jerry," said his father, starting for the door. It opened before he reached it and Mary Margaret came in. Jerry scrutinized her closely with a leer.

"Who's the girl?" he asked of Goodkind.

"Your father's waiting," said Daniel, evading the question.

"A right," said Jerry, good-naturedly enough. He hobbled toward the door, but without turning for a final fling. "Some failure you've made out of life," he said contemptuously. He lifted an uneasy hand, described a circle or two about his head. "Wheels—by God, wheels!"

"Goodkind looked sadly at Goodkind.

"I wonder whether you're the failure, after all," he said softly. He took Daniel's hand. Then he followed his son through the door. Goodkind took his pipe from his pocket, filled it, and the flash of a match lit his clear-cut face in the darkening shadows. From far away in a church spire pointing heavenward there came the sound of chimes. Daniel looked to the window and threw it open. He looked up at the sky. Mary Margaret watched him wonderingly. She huddled and drew her neck fur tightly about her, as though taking refuge in them.

Goodkind's gaze fell to the great-leaved skylight unobscured before him. Chimes poured no murky smoke into the world now. All was quiet, all was calm, all was peace. Was the day coming when man's souls would be as quiet, as calm, as peaceful as this dusk—the eve of September, a madder, a child?

The girl came toward him slowly. She found his arm akimbo, and she nestled her head beneath it and looked above the skyline to a gleam of sheer light in the blue.

"Mr. Goodkind," said she softly. "Is that the Star of Bethlehem?" He looked up at it.

"I wonder," he said. "But he didn't know."

THE END.

10¢ S.S.S. CATHARTIC TABLETS

WORK WHILE YOU SLEEP

Feel fine! No griping or inconvenience. Just a pleasant, easy and slow approach with "Cacaret" Sick headaches, Biliousness, gases, indigestion, constipation, all gone by morning. For men, women and children—10 boxes, \$1.00 and 50c size, any drug store.

Why suffer from Rheumatism?

THERE is a certain inexplicable feeling that goes with hale and hearty old age—it is a feeling of happiness, of care unknown, of robust youth.

But rheumatism—that deadly enemy which has caused so many to surrender to the woes of pain and suffering—caused so many to forego the pleasures of life caused so many to be dependent. Why suffer from it?

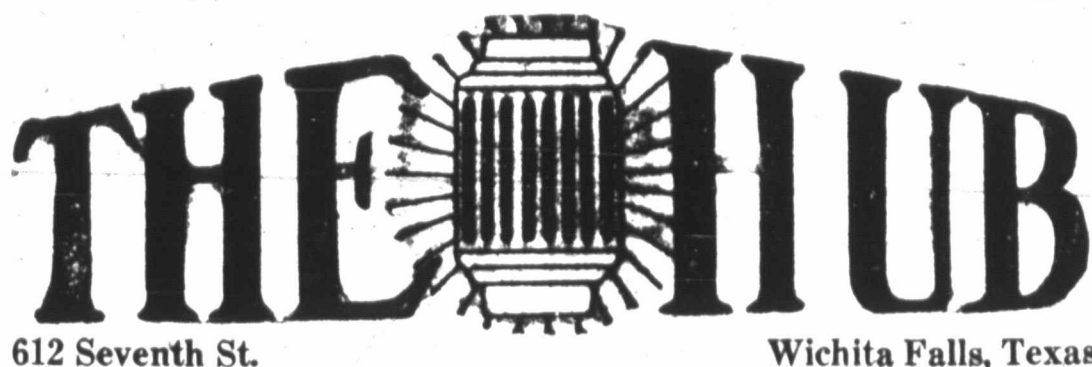

To be helped about—crutches, canes and walking sticks always needed to assist you here and help you there. Rheumatism will vanish the skin as skin disorders—the same as that run-down condition when S. S. S. is used. S. S. S. builds red blood cells by the power. Your nerve power is strengthened.

### HARVEST CONDITIONS UNFAVORABLE IN THE MONTH OF OCTOBER

HOUSTON, Texas, Nov. 14.—Generally, harvest conditions have been unfavorable during most of the month and losses from excessive and continued rains have been considerable, it is reported by H. H. Schull, statistician, U. S. bureau of agricultural economics. Cotton picking has been greatly delayed by the rains, wet fields and roads and the grade of lint has been reduced much below that gathered earlier in the season. The number of bales ginned prior to November 1 total 2,496,479, which is approximately 81 per cent of the 3,090,000 equivalent bales forecast. Only a small proportion of the small grain acreage had been sown owing to the wet condition of the fields, but that which was sown early is growing well and is supplied with soil moisture sufficient to carry it at least until spring. Cattle, sheep and goats are in good flesh and range conditions are such that little winter feeding will in all probability be necessary.

The average yield of corn has been very unsatisfactory this year. The average of 18.5 bushels this season is the lowest since the poor crops of 1917 and 1918 and finds very few of the counties with a surplus. The quality, 75 per cent, is also low. Due to the poor yields last year, the amount of old corn remaining on farms on November 1 was one per cent, or 1,146,000 bushels, where in ordinary years it ranges from two to five per cent. The holdover in other portions of the United States is also small, lower than in any year since 1917. The total production in Texas is estimated at 99,995,000 bushels; for the United States 2,923,122,000 bushels.

Grain sorghums made a good growth after the rains began late in August, but in many localities not enough time remained to properly mature the grain. This is particularly unfortunate this year for the reason that the deficient corn supplies in good years Texas produces upwards of 60,000,000 bushels of sorghum, milo, feterita, etc., but this season's estimate is only 41,956,000 bushels. The rains of the month made the harvest slow and difficult and much of the crop was lost in the fields.

Wet weather held back the harvesting of sweet potatoes and the shipments have totaled only 116 car loads against 339 shipped to the date a year ago. The drought cut the yield to an average of 80 bushels per acre which is eight bushels below the 10 year average. In favored localities yields of 200 to 400 bushels were raised, but the general average ranged from 50 to 100 bushels per acre. The rains since August induced second growth and cracking as well as a tendency toward decay which has reduced the quality to 75 per cent. A number of curing plants will not operate this season. It is estimated that the Texas production will be 6,350,000 bushels, that for the United States 21,425,000 bushels. In 1922 there were 8,715,000 and 109,224,000 bushels, respectively.

Harvesting peanuts was greatly delayed by the rains and little progress had been made outside of the early crop in south Texas. A few carloads are reaching the market. While the dry period hurt the crop to considerable degree many fields produced heavy crops of nuts and considerable hay. Last year it re-

### SEARCH WARRANTS NOT NECESSARY IN UNCOVERING CRIME

AUSTIN, Nov. 14.—A pair of blue pants figured in the case of Bostick Burks of Smith county, whose sentence of 15 years for murder was affirmed today by the court of criminal appeals.

A masked man wearing gloves and a pair of blue pants came into the little grocery store of H. Heffler in Smith county one night in October, 1922, and killed Heffler when the latter was in the act of opening a desk drawer. Heffler's wife, who was in the store, was attracted by the man's light blue pants as he fled.

Officers later found a pair of blue pants answering the description given by Mrs. Heffler in Burks' room. When the trousers were presented in evidence defendant's counsel objected on the ground that they were taken without search warrant and that should be returned to Burks. The trial court refused the defendant's motion and this was cited as error to the appellate court. The high court held that the ruling of the lower court was proper, laying down the law that where crime is suspected evidence gathered by officers may be used in a trial against the defendant though the officers did not have a search warrant.

### FIREMEN ANSWER ALARM WHEN STREET CAR BLAZES

Firemen from Central station answered a call on Indiana avenue between Ninth and Tenth streets Tuesday afternoon when a street car on the Southland line caught fire. The blaze was thought to have been caused by a defect in the wiring. The flames were soon under control, with little or no damage to the car, and without injury to the passengers.

### BUREAU REPORTS CONDITION 1923 CROP OF COTTON

WASHINGTON, Nov. 14.—The condition of cotton was reported in the department of agriculture's weekly weather and crop report as follows in part:

Much better weather prevailed for gathering cotton than was experienced last week in the western portions of the belt. It was generally fair in Oklahoma, except for light to moderate rains near the close of the week and fairly good progress was made in picking, with more than 80 per cent of the crop gathered, there is very little top crop in that state. The week was cool and dry in Texas until near the close, when there was light rains in the western and southwestern portions of the state; conditions were generally favorable for picking. Conditions were favorable for gathering the remnant of the crop in Louisiana, while the fair, sunny weather favored field work throughout the central and eastern portions of the belt.

### TWO BIG ACREAGE DEALS MADE IN ARCHER COUNTY

Despite the apparent slump in the petroleum industry at the present time, a number of sales have been consummated during the past week, for both production and acreage, the best sale reported being that of Charles Verschoyle to the Empire Gas and Fuel Company of a tract of 50 acres, with one well drilled to the 1550 foot pay which made several flows, for a consideration of \$155,000.

The tract is located to the north of the Wilmet discovery well, comprising lot 13 and 14, block 23, Luke Wilson land. It is the intention of the new owner, one of the largest operating companies in the district, when conditions improve somewhat, to thoroughly develop their newly acquired property.

Another important sale of Archer county property was made Tuesday when C. H. Clark and associates of this city purchased from J. V. Henley for a consideration of \$150,000 the 50 acre tract, consisting of 52 acres in the Luke Wilson tract, same distance to the east of the McCarty Oil Company producers in the Peterson pool.

### 75th Birthday Of Fort Worth Is Celebrated

NEW YORK, Nov. 14.—The Texas Club of New York gathered today at the monument of General William Jenkins Worth at 223rd street and Broadway to commemorate the 75th anniversary of the founding of Fort Worth, Texas. Present were Mayor Edward R. Cockrell of Fort Worth and his daughter, Miss Dora Louise Cockrell, who placed a wreath on the monument. An address eulogizing General Worth was made by Acting Mayor Hubert.

### MARKING BOUNDARY DELAYED BY FLOODS

AUSTIN, Nov. 14.—Marking of the boundary between Texas and Oklahoma by the commission appointed by the United States supreme court has been delayed by floods in the Red river, according to Major A. A. Stiles, state reclamation director, a member of the commission. The work will be delayed several weeks and possibly months, unless the floods recede rapidly. Major Stiles stated.

## Coach McCallum of Coyotes at Work Attempting to Meet Demand So That Championship Tilt Can Be Staged

### Football Facts BY BILLY EVANS

**THE QUESTION:** Player of team "A" tosses a forward pass, which is received by an eligible player. Said eligible player catches the pass while running at full speed but fails to get a good hold on the ball. After taking several steps, the ball eludes the player's grasp, and because of the player's momentum it is hurled a considerable distance into the air ahead of him. The ball, while in the air, strikes the back of an opposing player. The ball bounces from the back of this player into the hands of the original receiver of the pass, who had not yet checked his speed after fumbling the ball. Catching the ball for the second time, he continued on his way, crossing the opposition's goal line. Is such a play legal?

**THE ANSWER:** Such a play is positively legal. A similar play came up several years ago in a game between Ohio State and Illinois, resulting in a touchdown for Illinois and beat Ohio State out of a "Big Ten" title. The original player who received the pass, then fumbled, was difficult to grab in the air, but he touched the ground.

### JUNIOR HIGH MEETS FAIRVIEW ON HOME LOT

Junior high school meet the Fairview high school football team at the ball park at 3 o'clock Wednesday afternoon, according to an announcement made by the Coyotes. The Junior Coyotes, after their 13-0 victory over Olney Saturday, are in good shape and expect to give a good fight. Junior high met Fairview early in the season at Fairview, returning home with a tie score. The game Wednesday afternoon will be a playoff.

## Change of Pace Is Rockne's System And Notre Dame Backfield Varies Its Game Constantly With Results

In baseball it's the manager who shifts his style of play that gets results. No longer is the old army game, a baseball term used in reference to a team that uses the sacrifice constantly with a run even first in an effort to put over a man. One run doesn't mean much in these days of the lively ball, but in an eight-pitching duel, the proper play is to try for a run, but pitchers' battles are the exception. The dangerous team is the club that mixes them up.

The same principle holds good for a winning pitcher. Once upon a time a fast ball alone was enough to be a big winner, but those days are past. The pitcher must mix it up, have a change of pace.

**Works Both Ways**

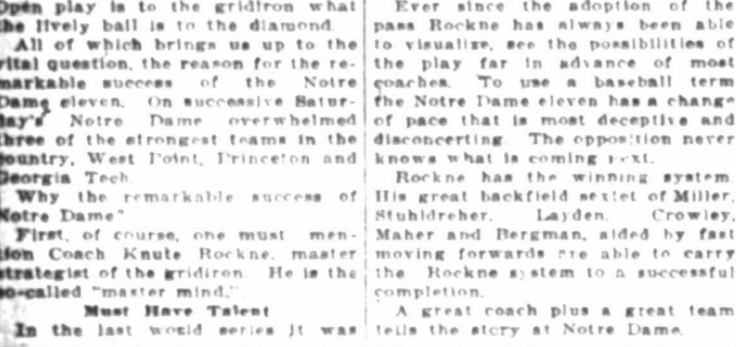

What holds good for baseball is equally true in modern football. Open play is to the gridiron what the lively ball is to the diamond. All of which brings us up to the vital question, the reason for the remarkable success of the Notre Dame eleven. On successive Saturdays Notre Dame overwhelmed the three of the strongest teams in the country, West Point, Princeton and Georgia Tech.

Why the remarkable success of Notre Dame?

First, of course, one must mention Coach Knute Rockne, master strategist of the gridiron. He is the so-called "master mind."

**Must Have Talent**

In the last world series it was

## Favorite Plays OF FAMOUS COACHES

The long side guard comes out of the line on the snap of the ball with plenty of speed, running low and turning straight down the field, still running head and low, as soon as he turns outside the tackle.

The other linemen on the long side of center should check the defensive line in toward their center in a very determined manner, in order to keep those defensive linemen from passing over into the back field over which the No. 4 back runs.

The center and the short side guard and end check momentarily, and then go through to pick up the man with the ball, in case he should get free after passing the line of scrimmage. The center should be sure to pass the ball in such a way as to lead the back, and so that the back can get a good start.

In order to get the perfection of the execution in this play, there should be plenty of drill in the defensive line in the back boxing and tackling. No. 1 and 2 backs going out after the end, the guard coming out of the line straight and low, the No. 4 back taking his three steps out rather slowly and not breaking straight and fast down the field behind the guard.

Following this, a lot of attention should be paid to the checking of the defensive linemen on the part of the long side offensive linemen, and the picking up of the runner by the short side of the line.

## KID RICH GIVEN 'JUDGES' DECISION IN SIMMONS' BO

By leading consistently and taking all that the Clay county lad could offer, Kid Rich of Drumright, Oklahoma, cleanly outpointed Carl Simmons of Henrietta in a ten-round main bout at the American Legion boxing carnival Tuesday night, and was given the decision by the judges. It was one of the best exhibitions of boxing seen in the local arena.

Although outweighed by almost fifteen pounds, Rich led most of the fighting, and swamped blows with Simmons, taking all that the latter could give. Rich had a fast left that came straight from the shoulder, almost as fast as his right. He used his right hand in the third round when, with a series of hard rights and lefts to the head, he sent Simmons reeling. He saved only by clever footwork and a good defense.

Contrary to all previous battles, Simmons was rushing tactics instead of waiting for the lead, as has been his characteristic. Charging from the corner of the sound of the gong, Simmons would drive his right and left hooks to the head, usually taking Rich off his guard. In the fourth round Rich met Simmons cleanly by simply holding out his left and letting his opponent run into it. By following up this advantage Rich was able to get in some damaging blows. In the final minutes, Mamey will meet the final attempt to finish up the battle by the count by resorting to body punches that he has used with so much effect against many of his opponents. But the body blows seemed to have little effect on the Sooner state boxer and he was on the offense when the final gong sounded.

Rich is one of the cleanest fighters who has ever appeared in this city. Although but 18 years of age the Oklahoma boy proved himself to be a scrapper from start to finish, never weakening during the entire bout. Although he took many terrific blows, he never flinched, and always went to his corner with a sure step.

The semi-final of the evening, an eight-round bout, was between Wildcat of Amarillo, 124 pounds, and Kid Cole of Drumright, Oklahoma, 121 pounds. The contest was a slow fight that appeared rather to be a sparring match. While Cole was a much older and more experienced boxer, the Wildcat kept pace with him, using a long haymaker with his right hand to some advantage.

Anderson Martin of Wichita Falls won the decision over Chief Karen on points in a six-round bout that proved to be rather straight. The Chief led most of the rounds with Martin returning usually with straight lefts. But the blow apparently had little power and there was no damage done.

In the third round of his scheduled four-round affair, Nonakid Kelley laid down before the terrible onslaught of Hattenback Kid, and took the count on his knees. Kelley was given the decision in a three-round bout with Curley Robinson.

One of the features of the entertainment was a buck and wing dancing contest between Kid Kankley and Sonner Boy, under the management of George Hodgins and Charlie Greenburg. Murphy, who was introduced as a long way from home and wanting to fight, challenged the winner of the Rich-Simmons fracas. Murphy, who has the Lamson show and has fought from coast to coast and is willing to fight any one at 135 pounds.

## SARAZEN DECLARED WONDER HORSE OF YEAR; UNBEATEN BY 2-YEAR OLDS

Sarazen With Saddle Up.

Sarazen is unquestionably entitled to be classed as the best two-year-old of the season. An easy victory over the unbeaten Happy Thoughts removed the only contender for the two-year-old title.

Sarazen in ten starts boasts a clean record. As a matter of fact he has never been hard pressed to win. There is no telling how fast he could step if forced to do his best.

Sarazen is owned by Mrs. W. K. Vanderbilt II, a new-comer in the racing game, and her colors are seen on Sarazen for the first time. It is rather remarkable that so great a horse should be her first colt-bearer.

Mrs. Vanderbilt purchased Sarazen at Saratoga Springs on Aug. 30 for a price said to be in excess of \$100,000. At that time Sarazen had won three races, since then he has added seven more victories to his credit.

The gelding is by High Time, a son of Elmox, out of Rush Box, which was sold at one time for only \$75.

**Bit of Romance**

There is a bit of romance in the breeding of Sarazen. Rush Box was a farmer's mare for 12 years and

## Yale's Showing Against Maryland Last Saturday Causes Cloud of Doubt to Filter Into Bulldog Hope

By ARTHUR ROBINSON, Universal Service Correspondent. NEW HAVEN, Conn., Nov. 14.—A cloud of doubt has filtered into the University hope on Chapel street. It is not a thick cloud, but it is nevertheless a cloud. One's head goes into the football clouds; one walks into the shop and one does not know they are clouds that presage fair weather or a storm.

One does, indeed, gather conflicting impressions as one walks in and out of the University snook and down Canal street and around and about the college grounds—one does.

One most assuredly does.

The university snook shop is the pulse of Yale sport. It is not altogether unlike a small town barber shop where the gay blades gather to pass the time of day and to discuss current sporting events.

Into the university snook Yale comes and goes.

Before last Saturday's game with Maryland, Yale was in the best of things. Yale has not done this since the year Tad Jones came back to Yale to resume his position of head coach.

But "Kewpie" has gone, gone, gone—gone—gone. And now Yale has its head in the football clouds.

A visiting correspondent lingering over the cigar counter hears the name of Maryland very frequently. Maryland is the responsible cloud of doubt that has filtered into the snook shop. Maryland did not end of things to Yale last Saturday and Maryland brought the point of considerable doubt in the heart of the Yale bull pup.

Yale does know the general cause, but does not know precisely the cause. Yale is doubtful and worried.

Yale is wondering if the showing against the Army was just one of those things—one of those odd twists and turns of form which have no basis in fact.

Jones and the rest of the coaches are glad Maryland did what it did. Tad was at Princeton watching the Harvard game at the time of the Maryland avalanche. The score as it looked in from New Haven over the telegraph wires in the press box distressed him somewhat fearfully, but Yale finally won, and Yale left Jones a seaman which he preached to the Yale players in a vigorous drill at Yale field yesterday.

And so Yale is in a solemn, almost religious state of mind as it contemplates the approach of the game with Princeton on Saturday and the game with Harvard a week from Saturday.

And Yale finds its greatest comfort in this state of mind as it contemplates the approach of the game with Princeton on Saturday, and the game with Harvard a week from Saturday.

## WILL ASK A. A. CLUBS FOR SHORTER SCHEDULE

CHICAGO, Nov. 14.—Club owners of the American Association at their annual meeting in December will be asked to adopt a shorter schedule for the 1924 season, President Hickey said Wednesday. He has mailed tentative schedule calling for 154 games to the club owners for their approval. Previously the league played 165 games. The proposed schedule sets April 16 as the opening day and September 21 for the final games.

### LOUISVILLE, Ky., Nov. 14.—Bob Gilmore, trainer of In Memoriam, Carl Wiedemann's three year old, recent victor over Zev in the Kentucky championship, has been satisfied so far this week in giving his charge only gallop exercise in preparation for another match with the eastern horse at Churchill Downs Saturday.

After In Memoriam had galloped a mile in 1:43.5 with a heavy stable boy on him, Gilmore said the larger Mudge colt was in the best condition of his career, and he had no fears but that he would again prove Zev's master.

"I honestly believe In Memoriam can beat Zev from one-quarter of a mile to a mile as far as horses can run," Gilmore said after the workout.

Should Zev win the match race Saturday, he will have won more than \$200,000 during his racing career, placing him at the top rung as the largest money winning horse of all time. In Memoriam, too, will have set up a nice figure provided he should return the winner, as he will have earned over \$100,000, and his trainer would be enhanced many times as a stock horse after his racing days are over.

Colonel Matt J. Winn, general manager of Churchill Downs, said that the card to be offered Saturday at Churchill Downs has not been equalled on any course in America this year. Besides the In Memoriam-Zev race, there is the \$200,000 Mudge-Tad race at a mile in which Wise Counselor and Happy Thought, two of the best two year olds of the season, will measure strides. Other great two year olds are entered, including those of the Sinclair-Kentucky derby will be foreshadowed in this race, Colonel Winn said.

### McGraw Believed To Be Rebuilding For New Season

remodeling is unknown. McGraw has been quoted as saying he is prepared to trade all his 1923 players except Frankie Frisch, Ross Young and Travis Jackson, but whether the trades offered by other clubs will prove acceptable remains a question.

McGraw's present effort in this direction is unique in that it marks the first time in baseball history that a manager has sought to break up a title winning combination of one year in an effort to build a title winning combination for the next season.

The present deal with the Braves incidentally emphasizes that peculiar fate of world series heroes. The outstanding hero of the Giants during the recent world championship game.

## M'TIGUE ORDERED TO LIVE UP TO CONTRACT

NEW YORK, Nov. 14.—Mike McTigue, world's heavyweight boxing champion, was ordered Tuesday by the New York boxing commission to live up to his three year contract under management of Joe Jacobs, who has been quarreled after his recent bout in Georgia with Young Stripling.

McTigue sought to evade what the commission ruled was a legitimate contract, charging his manager had not paid him in full for the Stripling bout to which Jacobs answered with an accounting. Jacobs complained that McTigue published a statement that he had investigated the boxer into signing a blank paper which he afterwards converted into a contract.

## Economic Recovery of World Depends Upon Moral and Spiritual Rebirth According to American Bankers

(From Manufacturers Record)

If the members of the American Bankers Association will carry out to the fullest extent possible their dedication to the high aim set forth in their declaration of principles at Atlantic City, they will accomplish more for the betterment of the world than they can ever accomplish through their financial power. The closing paragraphs of this declaration are as follows:

"In the midst of the many puzzling economic problems which the world faces today, largely resulting from the political differences and ambitions of rival nations, the conclusion is inevitably forced on the thoughtful observer that the primary need of the world is moral and spiritual regeneration as the essential basis for economic recovery. 'Until the nations of the world are willing to liquidate their hates, they can make slight progress toward liquidating their debts. 'Until the dominating forces of greed and selfishness are mitigated by a higher regard for the rights of others, until a larger degree of international good-will supplants radical animosities, until a higher regard for moral obligations and human welfare characterizes the practices of men, the many economic problems incident to the operation of these evil forces will await solution. 'While the purposes which dominate the councils of the nations are political, rather than economic, are selfish rather than fraternal, are following the forces of expediency and opportunism rather than the ends of justice and righteousness, there can be little hope for improvement in the existing order. 'Until ideals of human welfare, of a just distribution of earth's bounties and of righteous observance of the common good are more firmly implanted in the minds of men, we must expect the nations, in the name of interest and its expression in political, social and economic disorder. 'To the ends of a better understanding, not only of the purposes of business, but of life, that a better world may be established, the bankers of America dedicate themselves in united effort to attain and maintain these ideals of civilization upon which alone human society can soundly rest. 'Brave, strong, true words. They challenge the business man's attention for they are addressed to business men. 'The world does indeed need moral and spiritual regeneration. Withal, it needs a better world. The hatreds of Europe running through the veins of the world in these years cannot be wiped out in one generation. It is in our hands, unless there be a complete spiritual regeneration of Europe and of the world. 'Nations are as the individuals in the nation—strong men have expressed in mind regarding the conditions in Europe apply with equal force to this country. 'America needs a spiritual awakening. America needs a revival of the noblest and the widest needs of the world-wide, a revival of a genuine, unadulterated character

making religion, the religion of Christ. There can be no safety for business for peace, for world harmony except it be founded on a spiritual regeneration of mankind. 'The bankers gathered at Atlantic City dedicated themselves to a united effort to attain and maintain these higher ideals of moral and spiritual regeneration as the only basis on which human society can soundly rest. 'All honor to the men who wrote that report, all honor to the men who voted in favor of it and all honor to every American banker who honestly dedicates his life to a cause so supremely good. 'Bankers have a tremendous responsibility for evil or for good. They can help to establish or destroy the moral and spiritual forces of the community they live in. 'The banker who disregards character in the making of loans lowers the moral tone of his directors, his clerks and his community. 'The banker who seeks to make a personal profit by a side commission for the loans he may be able to place for his customers, or makes usurious charges, is planting the seeds of hatred of banking in the hearts of his customers. 'The banker who deals with the money of his community, its aggregated savings, in the shape of deposits, is depositing in his care as a trustee. He must use it for the good of his depositors as well as for the good of his stockholders. 'No bank ought to accept a deposit until the prospective depositor's character has been ascertained. There was once a bank in New York, we hope it still maintains that standard, which so carefully surveyed its depositor's accounts that the man who could give a check on that bank was generally accepted as being a man of integrity. 'The bank which receives deposits from known violators of the law, the prohibitive force of which is to prevent money to known law violators, the bank which regards the collateral of more value than character back of the man who gives the collateral, is a distinct force for the breaking down of the moral tone of a community. 'No banker who does not stand foursquare to every wind that blows on all of these points can truly be said to be a banker. He dedicates himself in accordance with this proclamation of the American Bankers' Association to the development of the ideal of moral and spiritual regeneration not only as the essential basis for the economic recovery of the world, but for the development of those ideals upon which alone business itself and all civilization rest with any degree of safety. 'The American Bankers' Association has lifted such above all petty questions of politics, of economics, of ordinary business problems, the one great outstanding, all-embracing issue that for the sake of business and for the safety of civilization, the world needs and must have, a world-wide moral and spiritual regeneration. That such a statement has been sent forth by the Bankers' Association will strengthen the every moral force of this and every other country. 'It is a sign of the times.

**Muscle Building.**

We are able to control the voluntary muscles, like the biceps, the large muscle of the front upper arm or that in the lower leg or calf. The muscles of the shoulders, back and neck, as well as certain ones of the face and jaw are also under our control to a great extent. 'Involuntary muscles control the action of the heart, stomach and diaphragm. Over these we have no control or direct action. We can only supply them with blood and nerve force through proper hygiene, living and the right kind of food. 'In building up muscle tissue you have to consider two principal actions. First, supplying the energy through proper food, and second, the proper exercising or use of muscles to produce a healthy stretch of tissue. Without a proper amount of use, your muscles will become flabby and almost useless. 'The carbohydrates (starch and sugar) form a substance in the body called glucose. This is used for energy. But that's not all. Fat foods are also muscle producers. In exercising and stimulating your muscles for growth and strength, you must use caution. Never severely tire or strain your muscles to the limit. When you feel the "pull" at the bulging part of a muscle you know it is growing and to speak. 'The muscle fiber, nerve fiber, and nerve-cell form a connecting link. Should a nerve be injured or crushed between the muscle and the spinal nerve-cell from which the fibers come, or if the nerve cells are destroyed by disease, the muscle will become a useless mass of connective tissue. 'There won't be a cabaret on Broadway two years from now, probably. Sanford, it seems, resigned as United States district attorney in New York City. (Sanford closed a lot of the famous night life resorts himself for selling bonds. 'Less encouraging is the probability that a bootlegger rang her bell, gave her a card and told her just to hang it in the wall when she wanted a case of beer. She weighed as much as he, but doesn't seem so heavy to handle. 'THEATRICAL. 'Israel Zangwill plays the American stage because it carries no message. Teachers are moral. In the law of averages, it is just that because our stage mirrors American life—which in many ways is a frank, nervous rust without any destination. We think we are speeded up. So does the squirrel in the revolving cage, running in circles.
