# **Drivers License Change Goes** Into Effect January 1st

Austin (Spl.)-Col. Homer Garri- long, or about the same size as son Jr., director of the Texas Department of Public Safety reminded Texans this week that a color photograph becomes a standard part of all drivers' license issued after January 1, 1968.

"The change makes it necessary for all drivers to renew licenses in person at one of our Department offices." Garrison said, "and we have been working toward setting up a procedure that will not cause excessively delay when a person comes to us to renew a license."

Garrison explained that the change in license was incorporated into law by the last legislature.

"Renewal notices will be mailed to each driver, just as always," Garrison said. "However, under the new procedure, each driver must take the renewal notice to the nearest DPS office. There he will be given a standard vision the past. test, sign the renewal notice and step in front of our camera. The picture will be snapped and a receipt will be issued to enable the person to drive until he receives his new license in the mail."

Garrison explained that about 250 full-time license officials would be in operation over the state to service license renewals. Issuance of new licenses will also be conducted M. Western entertainer Rex Allen will be the guest star of the 1968 Fort Worth Stock Show Rodeo, January 26 through February 4. With an extensive background in Western movies, television, recording and countless stage and arena performances Rex Allen has earned his title of "Mister Cowboy". Appearing with Allen at Fort Worth will be the "Men of the West", an outstanding group of Western musicians. Other attractions of the '68 Fort Worth Rodeo include "Big Loop" Roping, Championship trick and fancy riding, former "Miss Texas" Linda Loftis, and a most unusual dressage exhibition. Tickets for the Fort Worth Rodeo are available by mail from the Southwestern Exposition and Fat Stock Show, P. O. Box 150, Fort Worth, Texas 76101.

"How Gullible Are We?"

You know it's a funny thing, just how easily we, the American pubevery day of our lives. Anyone ther it be a product, a theory, a philosophy, or just a plain cantankerous notion, can make a loud noise, and always there are many who are ready and willing to accept, or follow whatever is being advocated. The more noise one can to be led like sheep to the slaughter, into the grip of whatever is

Let's look at a few of the many

ways in which we are deceived into the way of thinking someone wants us to. Suppose we are planning to buy a new automobile: The noise makers who sell cars try to buy an automobile that has wheels. burns gas, runs much too fast for beauty, and will do the transporothers. It (the car) has to be either a wild untamed horse, a raging jungle critter, or a man-eating fish. We are not sure whether we need a strong barred cage, a stout hitching post, or a reinforced aquarbuy an automobile because someone said it is wild, untamed, and for his kind consideration. even dangerous to approach.

There are numerous other such | 37-1tp. corny deceptions of which we are gulled into. What do you buy for those headaches? Do you buy the strongest pain reliever known, the fastest acting, or the remedy that cures those numbered headaches? Breakfast cereals do everything from filling you up (not out), to all the vitamins you can possibly need, whether you eat anything else or not, and certain cereals crunch so loudly it awakens the whole neighborhood. In a cereal, do we want something that does what no other food source can do (even meat, vegetables, or other time honored foods?) We may eat | air puffed grain, think we are well fed, and be satisfied with the loud crunch, but what about all those foods man has survived on, and enjoyed, since Adam? We are told we cannot eat far too many foods, or we can't escape the evils of so many diseases there would not be enough space to print them here. What we need is air puffed cereals and pills, instead of food. We wonder how the human race has continued to exist since the beginning of time, to this new generation of educated (duped) believers.

What about creeds, politics, initiative, or self-reliant enterprise? We belong to the party; we vote the party ticket (if we bother to vote); we follow the creed of the elected politicians, and we become associated with the movements that are poked down our gullets. What has become of our individuality? Why do we let someone else do all our thinking? Why will we follow any movement that someone makes a lot of noise about? Black power, white power, anti-violence demonstrators (who think nothing of creating violence to further their cause). Haight and Ashbury Streets rebellion against society, and the betterment of human privileges, draft card burning, ministerial blood pouring, credibility gaps that are never attempted to be closed, and no reasonable concern for the coming generations. Live todayfor tomorrow we die! Do unto the other fellow, before he can do unto you! What a state of deception! We the people stand idly by, and do nothing but talk about it. How long will it be before we wake up? How long will the gullibility of the population continue to permit such gross, inept absurbity dupe the people of this great nation? What are we doing to our youth? How utterly gulfible can we get? Think About It-

You may be sure, if you see a man open the door of his car for his wife, she is either a new wife,
