Local Housing Plan Talked at Civic Club

Hico Civic Club members spent a lengthy session Wednesday in discussion of the possibility of securing a low-rent housing project for the town. Under discussion were projects similar to those which have been built in other towns under the Federal Housing Authority.

Club President Ollie Davis led the discussions, and the group voted to ask C. E. Leatherwood of Dublin to bring the program next week, centered around such a project. Dublin has had housing units for several years, and Mr. Leatherwood is familiar with procedures and steps to be taken in securing a program.

In other action, Ray Keller was named to manage the Old Settlers Reunion again this year. He has served in that capacity the past three years.

In a patriotic move, members also voted to display the American flag every day of the week except Sunday, weather permitting. Securing the flags was a Civic Club project last year, and nearly 100 percent of all downtown merchants purchased the flags.

Local Drama Students Present Play at AAUW Stephenville Meeting

"An Overpraised Season," directed by Mrs. W. B. Hill, English and Drama teacher in Hico High School, was presented as a courtesy to the Stephenville Branch of the American Association of University Women Thursday evening, February 15.

The cast of characters, all members of the Drama Club, included Misses Janis Shepherd, Barbara Baley, Louise Fail, and Steve Knudson, Brad Braune, and Steve Jones.

Mrs. Hill introduced the play and stated that it was chosen to exemplify the AAUW theme of study, "Changing Values in a Changing Society."

Mrs. Hill and the Hico students were special guests of Mrs. Lamar Johanson, AAUW member.

FFA - Challenging Youth In Agriculture -

Today the business of agriculture is one of vast complexity and many hardships. There are great problems and decisions facing the agriculturist of today. Because of these many awesome facets of the agricultural scene, there are great challenges to be met.

These challenges must be put before the new generation of agriculturists, for these are the men that must meet this challenge. They must be stimulated by this great need and take steps to solve their problems.

The challenges facing the agricultural youth of tomorrow are staggering. It will take a vast amount of training to meet these challenges. The road to success will be long and blocked with obstacles. The Future Farmers of America, the youth in agriculture and the leaders of tomorrow, have accepted the challenge.

It will take a certain type of man to lead American agriculture. It will take a man with the determination and stamina of a hickory switch. He must be able to make the right decisions at the proper time. He must be a leader, but he must also be able to accept suggestions and listen to reason. He must be a universal genius, for he must know the skills of the scientist, inventor, technician, and business manager or his operation cannot survive.

Along with the manager, there must be an efficient operation. A good manager with a poor operation has the same effect as no manager at all. The operation must utilize all labor and capital to the greatest and most efficient extent possible, for in the future it will be in the efficient operation that survives.

In tomorrow's world of agriculture, there will be many vast and nearly unbelievable changes. In general, the agriculture of tomorrow will involve a complex array of machinery and computers.

Perhaps the biggest challenge facing the Future Farmers is that of feeding the ever-increasing population. Meeting this challenge will require all of the skill, brainpower, and desire they can muster.

Future Farmers of America are celebrating FFA Week, February 17-24. Their theme—"Challenging Youth In Agriculture."

Training agriculturists is the business of vocational agriculture classes in high schools throughout the state and nation. The FFA program, a part of co-ag education, gives Future Farmers an opportunity to acquire attitudes of citizenship and cooperation.

Hico FFA students are joining others over the state in activities focusing attention on the importance of agriculture during this special week.

It's Official! Sales Tax Vote March 23

Mrs. Patterson Begins Student Teaching in Carlton Schools

Stephenville (Spl.)—Betty M. Patterson, a Tarleton State College senior, will begin student teaching at Carlton shortly. She will student teach for the first nine weeks of the Spring Semester, then return to Tarleton to complete classes.

Mrs. Patterson, wife of Don Patterson, is majoring in elementary education at Tarleton. She is a 1949 graduate of Cranfills Gap High School. Other colleges she has attended are the University of Arkansas, the University of Georgia, and Texas Tech.

Action Taken at Special Council Session Monday

City officials put their stamp of approval on the proposed Municipal Sales Tax Monday night.

In a called session, Council members present voted unanimously to issue an ordinance setting the date for the election. Date decided upon was Saturday, March 23.

Mayor W. C. Howard and four members of the council were present at the special session. Council members present were G. M. Bullard, Alvin Casey, Tommie Pierce, and Jim Jameson. Wayne Rutledge, fifth member of the council, and Mayor Pro-Tem, was absent.

The action follows two weeks of speculation on when the measure would be put before the people for a vote.

In setting the election date, the Council said that it was making the move reluctantly, but added revenue was needed, and the sales tax proposition was the fairest means of securing the additional income. They cited street improvements, additional water facilities, and extension of sewer service as foremost needs of the city at this time.

The tax, if voted by city residents, will be collected by the State in the same manner as the present tax is collected. Residents will be taxed another one cent on each dollar purchase on goods which currently come under the general state law.

Eligible voters in the election are those persons residing within the corporate city limits of Hico, and who have qualified to vote in the just-completed registration period.

College Station (Spl.)—Leslie Leon New, son of Mr. and Mrs. Leslie New of Fairy, has been named to serve as area irrigation specialist with the Texas Agricultural Extension Service.

He will provide leadership for Extension's educational programs dealing with all phases of irrigation and will be especially concerned with the conservation and efficient use of critically important irrigation water in western and northwestern areas of Texas.

New is a native of Hico, and attended Brantley-Draughon Business College at Fort Worth and the University of Texas at Arlington. He received a B.S. degree in agricultural engineering from Texas A&M University in 1960.

The new specialist grew up on a livestock and garin farm, and was actively engaged in 4-H Club work. He has worked with adult 4-H Club leaders in Cameron, Willacy, Starr, and Hidalgo counties for the past seven years while serving as an industrial sales engineer with Central Power and Light Co. at San Benito. He has also served as a design engineer with a commercial engineering consulting firm in Harlingen.

Glen King Nominated As ASCS 'Comeback Farmer'

Glen and Wyona King live on a 200-acre dairy farm about 3 miles southwest of Hico, in Hamilton-Coryell Soil and Water Conservation District.

Mr. King was born in 1936 in Owensboro, Kentucky. Accordingly, this is considered one of the more rural counties of the state. He receives much formal education but did not work on the farm with his father, taking care of his pigs, hogs, beef cattle and sheep. He does not smoke.

Mr. King and her partner moved to Kentucky from Erath in 1961, where they stayed one year, then moved to the Central Texas area.

Mr. King and Wyona were married in 1964 and now have a son, Tommy, 2 years old, and a daughter, Wanda, 1 year old. The Kings have six years working on the farm with Glen's parents, and another farm on a 100-acre property in Erath.

After that, they moved to Erath, where they managed to purchase 40 acres of brush land and a dry lot feeding area. This dairy business was a dry lot feeding area but they made a living out of it on the farm. At a great deal of time and money, they located another place, but the dairy business were not successful. They were considering moving back to Kentucky to continue there, when they discovered farm near Hico covered with brush and 88 acres of cropland that had been farmed for a number of years.

They contacted George Krueger, Hamilton-Coryell Soil and Water Conservation Supervisor, and filed an application for financial assistance to purchase the farm. After a credit investigation revealed that this was an honest, hard-working young family, the farm was favorably considered by the Hamilton-Coryell Soil and Water Conservation Supervisor and the Hamilton-Coryell Soil and Water Conservation Service office.

With the information available, an application for the farm was requested. It was determined by appraisal that the purchase would be \$7,000. To obtain this \$7,000, he obtained an additional \$4,000 on a loan from Stephenville Production Association and had to pay \$3,000 from his parents,

shown here, Glen and Wyona are pictured with their children, Tommy and Pamela, in their living room of the farm home 3 miles southwest of Hico.

which they agreed to repay at \$100 per month. This \$3,000 loan was repaid in 18 months.

A Farm Ownership loan from Farmers Home Administration was processed and closed in January, 1966.

A Soil and Water Conservation Plan was prepared through the Hamilton-Coryell Soil and Water Conservation District and brush control program was started. Approximately 150 acres of Coastal Bermudagrass was planted in April, 1966, a good application of 32-40-0 fertilizer was applied and weeds were controlled with 2-4-D. He received cost-share assistance through the Hamilton County ASCS office.

King started grazing this bermuda with 65 Holstein dairy cows about July 1, and applied 200 pounds of 33-0-0 fertilizer on July 15. He grazes the grass, well fertilized, from March through November and dry lot feeds from November to March, except for a small amount of grazing from 10 acres of small grains. Some dairy farmers say Coastal is a low milk producer. King says that his high production comes from proper management that includes fertilizing and proper grazing. Total milk production on the farm for 1966 was 676,081 pounds. The next year, 1967, the production increased to 860,317 pounds from a 70-cow herd.

During the past two years, King has completed all practices in his Soil and Water Conservation Plan, such as 142 acres of land clearing, 180 acres of pasture planting, 180 acres of pasture management and 142 acres of brush control. On his 10 acres of cropland, a conservation cropping system has been carried out. It includes fertilized small grain and hybrid sudan. Crop residue has been well managed. Four farm ponds have been constructed and they are stocked with fish such as bass, red ear and channel catfish, furnished by the Fish and Wildlife Service.

The Kings have been busy since this farm was purchased. The dairy barn has been reworked and painted. Automatic feeders have been installed, an orchard has been planted.

METHODIST MEMBERS ENJOY SOCIAL AT CRANFILLS GAP

On Saturday night, members of Iredell Methodist Church met with members of Cranfills Gap Methodist Church in Fellowship Hall at Cranfills Gap to enjoy a covered dish supper. Afterwards, singing and dominoes were entertainment for the evening. Rev. Dale Yant is pastor of both churches.

Those of you who fail to be in services at the Methodist Church on Sunday nights are really missing something. Mrs. Joyce Yant has been giving a series of messages on Missions, and Sunday night, Feb. 25, will be the last. So if you are concerned, as we all should be,

about the mission of our church, be there, 6:30 Sunday night.

We are happy to report that Tom Odum, who had surgery at Harris Hospital in Fort Worth several weeks ago, is back home again.

Geary Oldham, student at Southwest State College, San Marcos, was home this weekend to enjoy a delayed birthday dinner with his parents, Mr. and Mrs. Otis Oldham. Also Mr. and Mrs. Harold Oldham and children were there to help celebrate the occasion.

Linda Reed, a student at Tarleton State College, spent the weekend with her parents, Mr. and Mrs. Oscar Reed.

Charlotte Porter and Judy Oyama, both students at Tarleton State College, spent the weekend in the home of Charlotte's parents, Mr.

and Mrs. James Porter, David and Cindy. Also visiting in the Porter home Sunday were Mr. and Mrs. J. E. Harris of Benbrook.

Mrs. Vinita Blakley, who works in Arlington, is spending several days at her home here, attending to business and visiting friends. It was so nice to have her in church both Sunday morning and night.

We still have some industrious persons in our town. One such person I am speaking of has quilted a "Stamp Quilt" and gave it to her daughter. This charming lady is Mrs. W. E. Rogers, and the lucky daughter is Mrs. Chester Goddin, and on Tuesday, Nova had an all-day "Quilting Bee" at her home and served a covered dish lunch to the following: Mrs. Vada Howard, Mrs. Eloise Burch, Mrs. Ruby Burns, Mrs. Pearl Simpson, Mrs. Verna Ruth Musick, Mrs. Oscar Reed and her mother, Mrs. Rogers. And from some of the comments I've heard this was worse on the fingers and shoulders than playing "42".

Sunday afternoon, Mr. and Mrs. W. J. Cunningham were in Stephenville visiting Mrs. Essie Newsom, who is a resident of Sunset Home there.

Dora Strong and Doris Williamson were in Dublin Sunday afternoon visiting in the home of Mr. and Mrs. J. B. Ogle.

On Saturday, David Porter and Rev. Dale Yant were in Arlington to attend the Conference at First Methodist Church for ministers and young people, who are willing to devote their time and talents to the needs of our church and communities. Lunch was served to approximately 700 ministers and young people.

Recently Mrs. R. O. Burns had the pleasure of having one of her grandchildren spend the week with her, Young Brett Burns of San Antonio stayed with her and Mr. Burns while his parents, Mr. and

longing for the day when we can
 pack up and depart for home. We
 will never forget Mr. and Mrs.
 Wilson, who operate the motel, as
 they have been so nice to us to
 deliver phone calls.
 Our sister and husband, Mr. and
 Mrs. E. M. Hoover visited with
 our sister and at our apartment
 Tuesday. We had hoped to get to
 spend this weekend at home, but
 the weather was misty and our
 nephew, Dorsey Enger of Corpus
 said they would not try to come
 since the weather was bad. Lester
 Smith came about 9 a.m. Saturday.
 His wife had spent Friday night
 at the hospital and had to sleep
 today, and looked like we just
 couldn't get off to go home.
 A Mrs. Bob Hicks from Stephen-
 ville was moved in from intensive

care today as roommate with our
 sister. Their room is 336. We called
 our daughter, Mrs. D. E. Allison
 of Stephenville at noon and
 she told us the sun was trying to
 shine there. Had received word from
 Mrs. Hoover that everything had
 been covered in ice, and Mr. Smith
 also reported the same in Brady.
 We hope this will check the budding
 fruit trees.

We've met a Mr. Braune of Hamil-
 ton, whose wife has had surgery
 and has also been moved to this
 floor. Earlier in the week we met
 Mrs. Viola Wolf Arnold of Evant,
 whose husband was here for sur-
 gery or a checkup. Mrs. Hoover
 met Mrs. Dozier of Stephenville
 while here Tuesday. Then Mrs.
 Hoover and I met a Mrs. Baker
 from Grandview who was the for-
 mer Mrs. Curl. She told us she
 had one son, and she had kept sev-
 eral of the McCoy boys in her
 home while they attended college.
 A few minutes later we noticed a
 man standing near the elevators
 and told our sister we knew his
 face but couldn't place him, so
 walked over and asked if we knew
 him as his face was familiar. He
 said he didn't know, and we asked
 if he wasn't a minister. He said
 he was, told us his name, and that
 he was pastor of a church in De-
 Leon. We had met him at singings
 at Indian Gap.

Mr. and Mrs. C. H. May, our
 cousin of Moody, visited last Sun-
 day week, and drove Mrs. Smith
 and I out to Belton Lake. Another
 cousin, Mr. and Mrs. Walter Phil-
 lips visited us Friday. They live
 in Temple, near the hospital, but
 we've been on the run so we
 haven't got to visit them. This is
 a wonderful hospital and patients
 are here from all parts of Texas
 and out of state.

Sunday visitors with our sister
 were Mr. and Mrs. C. H. May of
 Moody, Mr. and Mrs. V. H. Hey-
 roth of Clifton, Mrs. Sue Faust
 and granddaughter, Miss Lynn Eng-
 er of Georgetown. Lynn is a grand-
 daughter of our sister. Also Rich-

ard Smith of Brady spent Saturday
 and Sunday with his wife. We spent
 Saturday night with our cousin, Mr.
 and Mrs. Walter Phillips. While
 there Mr. and Mrs. Foye Phillips
 of Wichita Falls called. Foye is
 head manager for Penny's there.
 He was about the age of our de-
 ceased son, James Dudley Richard-
 son, and they used to enjoy our
 family gatherings as teenagers.

We received about an inch of
 rain Sunday night. It also rained
 all night at Temple Sunday. We
 spent Monday afternoon and night
 at home and hope to get to come
 home his weekend. Our sister is
 still very poorly as she has been
 bordering on pneumonia. We hope
 to find her better Tuesday.

Mrs. D. E. Allison and Mrs. Carl
 Ray Sellers visited in Temple Mon-
 day with their aunt, Mrs. Myrtle
 Eneer.

Mr. and Mrs. O. J. Clark Sr.
 spent Sunday in Fort Worth with
 their son, Mr. and Mrs. Milton
 Clark. They were met there by
 Mr. and Mrs. O. J. Clark Jr., also
 of Fort Worth.

Mr. and Mrs. Truett Turner and
 their daughter-in-law, Mrs. Dickie
 Wayne Turner of Fort Worth, and
 Mr. and Mrs. Weldon Parks and
 Becky of Grand Prairie spent the
 weekend in the home of their par-
 ents, Mr. and Mrs. T. R. Parks.
 Mrs. Dickie Wayne Turner was to
 leave by plane on Wednesday for
 Panama to be with her husband
 the rest of his stay there, which
 will be about six months.

Mrs. H. A. Rucker of Hamilton
 is visiting in the home of her daugh-
 ter, Mr. and Mrs. Winfred Gardner

and Randy. She will spend about
 two weeks.

Mrs. Ruth Cunningham visited
 Sunday in the home of Mrs. Jewel
 Tooley and Joe of Hico. Other vi-
 sitors in the home were Mrs.
 Gladys Newsom and daughter, Mrs.
 Colleta Allison and Mrs. Mike
 Gravette of Wichita Falls.

Mr. and Mrs. Walter Prinz and
 Carol visited Sunday with her mo-
 ther, Mrs. Ruth Cunningham.

Miss Cioreta Holley spent the
 weekend with her parents, Mr. and
 Mrs. Claude Holley and family. Her
 roommate, Miss Karen Prinz of
 Fort Worth spent the weekend with
 her. They are students at Tarleton
 State College.

Mr. and Mrs. Ray Turner, Keith
 and Kimberly of Killeen spent the
 weekend with their parents, Mr.
 and Mrs. Willie Turner and Mr.
 and Mrs. Carl Ray Sellers and
 Janice.

Other children visiting with Mr.
 and Mrs. Turner were Mr. and
 Mrs. Billy Turner, Kurtis and Rhon-
 da, Mr. and Mrs. Ray Botkin, Tam-
 my and Patsy, and Miss Bernice
 Turner, all of Killeen.

To those whom we correspond
 with and who are wondering why
 we haven't answered your letters,
 after reading our news this week
 you will understand. Our daughter,
 Mrs. Sellers, brought down our mail
 Monday, first we had received in
 over a week. So please excuse the
 delay until we can be home again.

Our sincere thanks to Mrs. Vera
 Campbell of Alhambra, Calif. for
 \$5 for care of her parent's lot at
 the Fairy Cemetery.

We understand that Mr. and Mrs.
 Limmie Trantham have moved to
 the former Herman Sills home which
 they purchased recently. We wel-
 come them to our community.

We will appreciate it very much
 if you Fairy folks who have phones

will call in your news and week-
 end visitors next Monday or Tues-
 day by noon. We hope to be home
 again by this time, but all depends
 on the improvement our sister
 makes. We will appreciate it so
 much if you can do this, and we'll
 be writing again from Temple, if
 there.

Mr. and Mrs. Ted Arrant spent
 Sunday with their son and family.
 Mr. and Mrs. Glenn Arrant of Fort
 Worth. They were met there by
 their other son, Mr. and Mrs. Gar-
 land Arrant and family of Dallas.
 All enjoyed a smoked turkey din-
 ner with all the trimmings in hon-
 or of Garland's birthday.

A beautiful tribute...

Four Hamilton County 4-H mem-
 bers will exhibit livestock in the
 Houston Show Feb. 26-March 3. Da-
 mon Chumney, West Point, will be
 taking his Angus Scramble heifer
 to the show, James Ivey, Pottsville
 will be exhibiting his heavyweight
 Hereford steer and will also be in
 the Beef Scramble Feb. 24.
 The other exhibitors are Mike
 Harris, who will exhibit a light-
 weight Hereford steer, and Michael
 Schrank, who will exhibit a Charo-
 alis steer in the junior show.

Time for planting grain sorghum
 is just around the corner. Optimum
 planting dates in our area are
 March 10 to April 10. Generally
 speaking, the earlier you can get
 your crop in the better. Late grain
 sorghum is usually severely dam-
 aged by midge and dry weather.

Last year the drought prevented
 early planting and it may be hard
 to get in the fields this year due
 to an unusually wet winter.

Two things you should be consid-
 ering or already have considered
 are fertilization and variety. To be
 the most effective, fertilizer should
 be applied in bands from two to
 four inches to the side and two
 to four inches below the point where
 the seed will be placed. A soil test
 is the best method of determining
 fertilizer needs, but in the absence
 of this consider 40-30-0 on upland
 farms and 60-40-0 on bottomland
 soils.

As far as variety is concerned,
 the medium maturing hybrids are
 favored over a period of years,
 and there are a number of good
 ones available.

WASHINGTON

"As it looks from here"

OMAR BURLESON

Congressman 17th District

Washington, D.C.—The second session of any Congress is usually opened with less fanfare than the beginning of the first session. This is due to the fact that the tempo is usually set in the first session and simply continues at about the same stride.

There is, however, in the second session of the 90th Congress a volatile potential resembling a sleeping volcano. It is bound to erupt, but no one is sure just when and where.

Fiscal affairs will hold the center of the stage. Normally, it would not be a dramatic performance, but we are not in normal times.

At least, there is some encouragement to be taken from the appearance of deep concern on the part of many Members of Congress for our economic well-being. The feeling is too late in coming but the very act that many recognize that we must put our financial house in order is an improvement in attitude. As to how it is to be done and the measures used to accomplish it is something else. At the center is the President's call for a partial restoration of the tax decrease voted in 1964.

Present estimates call for a \$20 billion deficit in this fiscal year, ending June 30. Another \$20 billion deficit is expected at the same time in 1969 unless an increase in the surtax is voted to produce approximately \$12 billion. This assumes that spending costs of Vietnam will hold at about the present level.

Educational Program Planned By Health Group on Measles

Within the next five months measles may be a thing of the past in Texas.

Authorities of two key health agencies have gone on state-wide television and radio to urge parents to have their children vaccinated against the dangerous disease which can cripple and even kill.

Dr. J. E. Peavy, State Commissioner of Health, and Dr. Sam Nixon Jr., chairman of the Texas Medical Association's Committee on Public Health, are telling Texans via TV spots that an effective vaccine is available to all children who have reached their first birthday.

June had been set earlier by Gov. John Connally as the target date for measles eradication in the state.

In one of the two statements made by the Health Commissioner—which will be viewed and aired on Texas stations from now through June—Dr. Peavy points out that the goal can be achieved only if parents cooperate with their private physician, local health department and the State Health Department. He says further that local medical societies, health departments and civic groups must continue to get involved "if this measles eradication effort is to succeed."

Thus far, 17 of the state's 354 counties have held measles immunization campaigns.

Local Health Officer Dr. B. C. Dayton said that the vaccine was available in Hico, and urged all parents to have their children immunized.

Program on Japanese Presented at WSCS Meeting

The Review Club met in the home of Mrs. B. C. Dayton Feb. 15. A short business meeting was conducted by the president, Mrs. Dayton. After announcing that all reports had been mailed, she complimented members for their promptness in a job well done.

Mrs. Sherrard used a large map of the world to point out the location of New Zealand. She made comments about the small country, and its people.

Members enjoyed viewing a film on Australia. Even though many of the occupations in this country are similar to those of the United States, Australia is considered to be one of the last "frontiers" and has many opportunities for those wishing to avail themselves of them.

At the close of the film, Mrs. Braune presented a large map of Australia with the main cities located and centers where the principle industries and mining of ores are found.

Mrs. Odis Petsick gave comments on the political situation as it exists in Australia today.

Mrs. O. C. Cook, chairman of the Yearbook Committee, asked members for suggestions for the theme of next year's program.

YOUR HOMETOWN NEWSPAPER IS A REAL CONVENIENCE!

A wonderful way for a busy young mother to save countless hours is by shopping the ads in her hometown newspaper. By knowing, before she goes to town, which products she wants and where to buy them, she can do an efficient job of marketing. While the housewife spends her time becoming an expert nurse, laundress, cook, playmate, and bookkeeper, the local newspaper is bringing her the shopping news. It tells her about the latest products and services that will help her accomplish her work most efficiently. It tells her where to find the best prices offered on items she needs. It saves her many long hours of "shopping around"

Determine the Need of your Soils and Crops with a Soil Test

Doctors never prescribe medicine without making a diagnosis first. The same principle can be applied in treating your soil. Making a soil test will tell you what plant food elements are low — what Smith-Douglass fertilizer is needed to bring the supply of plant food into proper balance for high crop yields.

We are ready to assist you with a soil test, and make recommendations which will enable you to apply Smith-Douglass fertilizer economically, to produce more profitable crops.

Fractured 'Filosophy...

By J. Rayford Wooton

"OSCAR CAINE"

On my way into town yesterday, I met my hillbilly friend, Oscar Caine. It is always quite a problem to get by Oscar without an extended conversation, and this was no exception. Oscar is usually filled with some of the most unexpected stories and events until it can never be predicted what he may have to tell next.

We had not been conversing more

than two minutes when Oscar asked if I had met our new neighbors. As a matter of fact, I didn't know anyone new had moved into our community, so when I stated this, Oscar said, "Yep, that is some new folks that has moved hyar jest 'bout a week ago. They is a family of Irish Quakers. They is purty religis folks. I thought I'd go over and git 'quainted with 'em a couple of days back, so's I heads out across our pasture. It wuz putry early in the mawnin' and when I gits thar, the ole man wuz out a milkin' his cow. Jest as I walked up to the cow shed whar he wuz milkin' and started to say, 'Good mawnin', that ole cow hauled off and kicked the ole man clean half-way across the shed. She spilt the milk, and bent the bucket bad. Mr. O'Leary, that's his name, picks hisself up, and starts like he is a'gonna pretnear kill that ole cow, but jest afore he hits her, he stops ded in his tracks, and says, 'Bossy thou knowest I cannot strike thee, but if thou kickest me again, I'll sell thee to that Baptist deacon

down the road, and he will beat the devil out of thee.'" Course Mr. O'Leary didn't know I wuz anyhow 'bout, so's he humped up on his stool, and started to milk again. I didn't let on I had seed him threaten his ole cow, so's when I said 'Good mawnin', he looks around and thar I stood. Even if'n Mr. O'Leary has got red hair, he shore did stop being mad at that ole cow fast. I'd a'whaled her good, if'n she'd kicked me like that."

After such a story about our new neighbors, I made an effort to be on my way, but Oscar was not finished with the conversation, so he continued.

"I hadn't had a chanct to tell ye 'bout that that funny thing I seed tother day while I wuz a'huntin' over on Blackhaw Holler. I wuz jest a'walkin' long, when I sudden like turned round, 'cause I thought somethin' wuz a lookin' at me. Shore nuf, thar wuz a rattlesnake bout fo' feet long lookin' right my way. I grabs a stick and starts to mash his head, when I seed he don't look jest right, so's I jest hold up to look him over more. Wal, I never seed nuthin' like this afore in my borned days. I'll be hornswoggled if'n that thar rattler wuzn't crosseyed. Him alookin' so funny with his eyes all crossed up that a'way, I poked my stick at him, and he started to shake his tail to rattle at me, and when he did, he seed his own tail shake with thim eyes crosst up that away, so's he turns his head around to see what is a slippin' up on him. His tail shakes agin, so's this hyar ole rattler, bein' crosseyed like he wuz, thought his tail wuz 'nother snake, so's he jest decided to swaller the snake that was follerin' him. He snaps back, and grabs his tail in his mouth, and clamps down real hard, then he begins to swaller. He would swaller awhile, then he wud stop to rest, then he'd swaller some

more. I jest set and watched him. This wuz the best show I did ever see. Wal, that thar cross-eyed rattler kept a 'swallerin' hisself 'til thar warn't more'n a circle 'bout big as a average doughnut, and that wuz as far as he cud swaller. I picked him up, and took him home. Ye ain't never seed sich a sight in yore life. Him a'setin' thar, all swallered up, but jest a little bit, and thim cross eyes bugged out, and a'wonderin' what happened. I bet thar ain't nobody what has seed a rattlesnake swaller hisself a'fore, and I bet nobody ever seed a cross-eyed rattler neither."
