Young Homemaker Chapter Is New Organization Here

Young homemakers in the Hico area met Monday evening and voted to organize a Young Homemakers of Texas Chapter in Hico. Formed exclusively for educational purposes, the organization places particular emphasis on the area of homemaking. Overall goal of YHT is to provide creative opportunities for young women in maintaining effective personal, family and community life.

Young Homemakers of Texas functions under the direction of the Division of Homemaking Education, Texas Education Agency. Functioning in cooperation with the local school, both Homemaking teachers, Mrs. Denna Gray and Mrs. Marilyn Johanson, will serve as advisors.

Introducing Young Homemakers to the Hico group were Mrs. Marge Jordan of Hamilton. Mrs. Jordan has served as Area IV YHT President, and also held a state YHT office. Assisting Mrs. Jordan with the program presentation and discussion were Mrs. Dona Hargraves, YMT President, Mrs. Pat Watson, YHT treasurer, Mrs. Cheryl Doyle, a chapter member, all from Hamilton.

The visiting YHT members stated that active membership is open to women not enrolled in high school and who are not over 35 years of age. They also noted that women over 35 may become associate members with the same rights and privileges of active members, except that of holding office and voting.

"YHT provides creative opportunities for wives, mothers, and homemakers," stated Mrs. Jordan. The organization's objectives, emblem, and program of work were discussed. The Hamilton members discussed interesting projects and programs that had been successful in their community.

Hico, Valley Mills to Square Off in First District Contest

Hico and Valley Mills, two old foes who have not met since 1965, do battle here Friday night in the opening district game for both teams.

Outcome of the game could go a long way in determining the eventual champion of District 11A, and both teams go into the contest with an eye toward the championship.

Both Hico and Valley Mills have winning records through the first half of the season, with the Tigers sporting a 5-0 slate and the Eagles only a step behind with a 4-1 mark. The Eagles were upset by Meridian in the second game of the season for their only blemish. The Eagles hold victories over Itasca, Crawford, Whitney and Moody, while the Tigers have checked Grandview, Early High of Brown-

wood, Whitney, De Leon and Hamilton.

A check of the records shows that Hico has never defeated Valley Mills, losing that last battle in 1965 by a 42-6 count. Previous games were about the same, with the Eagles winning all by large margins.

On the home front, all the Tigers are about to get over bruises and bumps received in the Hamilton game two weeks ago, and only Bryan Jones was definitely out of the game. Danny Kennedy, starting center, still has a bad knee, but will play. Coach Dwain Gray said that he would start sophomore Charles Roberts at Jones' tackle post.

The game Friday night will start at 7:30, as will the remainder on

the schedule.

Friday is a big night for all six district members, with Glen Rose hosting China Spring, and Goldthwaite going to Dublin to test the undefeated Lions.

Hico school officials reminded fans of two league rules, and asked for cooperation of everyone in observing the rules. One states that only students may participate in victory lines, and the other reads "Only persons required to conduct games shall be allowed on sidelines, plus a photographer."

B-TEAM, ELEMENTARY GAMES

The B-team and Elementary School will play at Valley Mills this Thursday night, starting at 6 o'clock. Elementary game will be first with the B-game following.

Officers Named for Two HEC Chapters

Home Economics Cooperation Education classes elected officers this week for the newly formed HERO-FHA Chapters at Hico High School.

"HERO stands for Home Economics Related Occupations," explained Brenda Randals and Tony Mayfield, presidents of the two classes. "HERO-FHA gives us the opportunity to develop leadership

and managerial skills for our home economics related jobs and gives us a look at the combined roles of wage earner and family member," the two presidents said.

The HERO members are members of the State and National Organization of Future Homemakers of America. The HERO Chapter in Hico has two sections with officers for each class. Each HERO section will conduct their own business meetings, plan and present their own programs, and select a class project.

HERO officers for HECE I Class are Brenda Randals, president, Raymond Lambrecht, vice president, Donice Park, secretary, and Linda Walker treasurer. Officers for HECE II Class include Tony Mayfield, president, Mike Kilgo, vice president, Ruth Busby, secretary, and Jerry Lowry, treasurer.

Mrs. Marilyn Johanson, teacher-coordinator for the HECE classes is sponsor of the HERO-FHA Chapter.

Third Grade Wins P-TA Membership Drive Contest

The P-TA room membership contest closed last Friday, with Mrs. O. C. Cook's third grade parents making the best response. Seventy-three percent of the parents of that grade joined. The fourth grade was second with 58 percent of parents joining, the first grade won third with 52 percent, and the seventh grade, fourth with 50 percent.

Mrs. John Parks, membership chairman, stated that the teachers were very helpful in contacting parents and collecting dues, and that the membership is now 151. If ten percent more people had joined there would have been a 50 percent increase in memberships over last year. As the P-TA motto is "We Can," Mrs. Parks said that the goal can still be reached.

DPS EDUCATION OFFICER SPEAKS AT GARDEN CLUB MEETING ON 'LITTER'

The Hico Garden Club met Friday, Oct. 13 at 2 p.m. in the Community Center.

Mrs. Francis O'Reilly gave the opening prayer.

Mrs. John Golightly, president, presided and gave the welcome. She introduced Mr. Roy Ward, Safety Education Patrolman, Dept. of Public Safety, from Waco.

Mr. Ward presented a project program on the subject of "Litter," its effect on people and the state. Litter pollutes air, streams and lakes wherever it is thrown. It also reflects on the education of the people in all neighborhoods. Often people throw litter on the highways that would not consider throwing on their own yard or their neighbors' yard. This individual lack of concern by the public shows a great need of education toward litter clean-up.

Litter costs the State of Texas over four million dollars a year that comes from the taxpayers and it is costing more every year.

He emphasized the fact, too, that litter barrels along the highways are not for household trash. All this extra trash is a great hazard to health, tires and children playing at the rest areas.

Litter clean-up in cities, towns and on the highways is the individual citizen's concern as well as that of the State Highway Dept. Litter-cleaning is definitely a part of beautifying the State.

Mr. Ward also showed a Texas Highway Dept. color film, "Beautify Texas," depicting: The development of the Texas Highways from the dirt roads of the Model T Ford days with very few signs and no rest areas, to the modern highways with helpful signs and beautiful rest areas of today; the creation of the Highway Commission and Highway Dept. which employed engineers for building roads and landscape architects to beautify highways and rest areas with plants, native flowers, shrubs and trees; Beautification of highways and rest areas prevents soil erosion and is valuable in saving lives by relieving the monotony of driving that causes many accidents.

Today there are more than 1100 roadside parks, scenic turnouts, and safety rest areas on the Texas highway system.

During the business meeting, members answered roll call by naming something unsightly in our area.

SCOUTING CORNER

Hico, as a community, is fortunate in having a complete program of Scouting available for the boys of the area. Cub Scout Pack 378, sponsored by the P-TA, provides a program for the 8 to 10 year olds, designed to help boys and parents work together in cooperation at many skills.

At age 11 a boy can enter the Scout program, as the Boy Scout Troop 378 is sponsored by Hico Civic Club. At this level the boy learns to relate to the group and begins to learn more about the world in which he lives.

The Scouting program has, in 1972, been completely revamped. Scoutmaster Lou Carrington has explained that the changes will result in many more interesting avenues being open to the boys.

When a young man enters High School, or reaches age 15, he can enter the Exploring Program. The Explorer Post 378 is also sponsored by the Hico Civic Club. Here the emphasis shifts to socially oriented life, wider experiences, and new opportunities for leadership. Austin Emery, Explorer Advisor, suggests that Exploring is a program of, by and for the Scouts. Very little adult participation is needed, and a minimum of direct supervision given. The Exploring program is also open to girls, and the only limitations are that a young lady cannot serve as the unit president, and they cannot exceed in number the young men in the Post. Currently, Ronnie East is Post President. Clarice Huggins is vice-president, Kathy Huggins is secretary, and Tim Emery treasurer.

The Boy Scouts and Explorers meet each Monday at 7 p.m. as separate units. Occasionally they meet together for special programs. This year the Explorer Post, as a project, assumed responsibility from scheduling the opening flag ceremonies for the Hico P-TA meetings. Contributed.

WEBELOS ENJOY OUTING AT LAKE WHITNEY

The Webelos of Cub Scout Pack 378 enjoyed an overnight campout at Lake Whitney Oct. 14.

These boys are working on their Outdoorsman Badge which requires that they learn to put up a tent, make a comfortable bed on the ground, build a safe cooking fire, help cook lunch or supper, and to clean up afterwards. The boys helped prepare all the meals and did an excellent job. There were a few cases of dish-pan hands but nothing more serious happened.

Those attending were Danny Parks, Michael Smith, Timmy Pierce, Morty Bell, Jimmy Bell, Wayne Lindsey, Tracy Kash, Webe-lo Leader Dan Bell, Cub Scoutmaster Sam Kash, James Lindsey and Tommie Pierce.

The next committee meeting will be Thursday night, Oct. 19, and the next regular Pack meeting October 26.

A Look at the Past

38 YEARS AGO

The C. L. Lynch Hardware store is being remodeled and re-arranged. J. H. Goad is doing the carpenter work.

Interesting Display Viewed at Monday 4-H Club Meeting

Hico 4-H Club members were greeted by an interesting display table when they met for the October meeting at the Youth Center Monday evening.

Sherri Barnett had arranged on the table an antique milk pail, an antique creamer, an antique glass milk bottle and butter dish and dozens of interesting leaflets, recipes, and pamphlets that she collected at the 1972 State Fair. She told members that of all the things she saw and did at the Fair, she most enjoyed visiting the Foods Building. She described the antique articles on display and showed club members a chart comparing figures on the Texas Dairy Industry during the "dazzling 30's" and the 1970's. Her figures were based on 1931 and 1971 totals.

Sherri said that annual production in 1931 was 1.3 billion, and in 1971 it was 3.26 billion. The farmers price in 1931 was \$3.00 and in 1971 it was \$6.95. The value of a cow in 1931 was \$52.50, and in 1971 the value of a cow was \$485.00.

Kenneth Black, club president, conducted the business meeting, and Monti McCormick lead the relay game, "Balloon Boom."

County Home Demonstration Agent Bernadette Kolar and County Agricultural Agent Joe Allen reminded members to be preparing animal, sewing, and arts and crafts projects to be ready for the Hamilton County Show on Jan. 12-13.

A little son, Lynn Wade, was born to Mr. and Mrs. Jack Malone Oct. 4 in Hico Hospital.

W. C. Watkins, whose arm, elbow and wrist were badly injured in a car accident recently near Iredell, was in Fort Worth Thursday for a checkup and is reported doing satisfactory.

Elder J. P. Williams is the new Church of Christ minister, having moved here from Bangs.

10 YEARS AGO

DOLPH BRISCOE for governor

biography

Dolph Briscoe, 48, is truly a distinguished Texan. Since 1939, when he was named Valedictorian of his class at Uvalde, he has piled one unselfish achievement upon another. In 1943 he was graduated at the University of Texas, then served in World War II before returning to serve in the Texas Legislature from 1949 to 1957. He has been recognized often for his contributions to conservation and ranching. He has held top posts in state and regional Chambers of Commerce, and was named "Mr. South Texas" in Laredo in 1967. The 1966 recipient of Texas Agricultural Extension Service's Knapp-Porter Award for distinguished service to agriculture, he remains president of Briscoe Ranch, Inc., and chairman of the board, First State Bank of Uvalde and Security State Bank at Pearsall, and is a director of Alamo National Bank, San Antonio. His devotion to fellow

Texans is evidenced by his untiring and effective service on numerous boards and committees in the areas of agriculture, education and development of Texas business. Dolph Briscoe is married to the former Betty Jane Slaughter of Austin. They have three children, Janey, 21, Dolph III (Chip), 18 and Cele, 15.

It has been a real pleasure visiting with people all over the State of Texas. I'm proud to be a native Texan, and feel a commitment to serve the people of our great state. I pledge to the voters of Texas that I'll be free to act in the interest of the people, with no ties to political machines or financial interests that will keep me from putting the public's interest first.

In addition, I'll work to accomplish the following and many other needs in our state government.

Education: It is the responsibility of our state to provide every youngster a quality education. We must reorient our educational process to allow those who do not desire to go to college the opportunity for vocational education.

The crisis we now face in our school system could have been avoided, but the leadership in Texas failed to act. I strongly support the concept of local government and local people deciding the kind of services they want. The state leadership, however, must develop a quality standard to assure all students the same level educational opportunities, with the general operations under direct control of the local community. Nothing should be spared to assure each child, wherever he lives, the best education the state can provide. If we weaken a child anywhere in Texas, we weaken the entire state.

Vocational Technical Education: We must expand our vocational technical training by emphasizing these skills and trades needed by local business and industry. By placing adequate vocational and technical education in reach of all our people, we can better develop our economic potential.

Busing: I oppose the concept of forced busing to achieve racial balance, because busing is a hardship to

Equal Opportunity: We must provide our people, regardless of race, creed or color, equal opportunities to enjoy a quality life. All people must have an opportunity and be encouraged to become involved in government at every level.

Order: Government must be of laws, and I favor strict compliance and equal protection under the law. Peaceful dissent is a constitutional right, but the hindrance of the operation of business, institutions and destruction of property cannot be tolerated.

Campaign Costs: Texas needs to set a limit on campaign spending. The exorbitant costs of campaigning at the state wide level presents a clear and convincing danger of the special interest groups influencing weak leadership and controlling state government.

Tax Reform: The economic growth of the state will provide additional revenues in the coming year. This, plus the savings that can be effected by efficiency will go a long way toward solving the state's financial problems. If the savings effected and the increased revenues from economic growth cannot provide the resources that are essential, I would not hesitate to present the alternatives to the people.

Pollution: Our laws must be enforced to insure protection and maintenance of the abundant natural resources and beauty that abound in our state. New industrial growth will provide new and better jobs, but not at the expense of clean air and clean water. Our valuable natural resources must be preserved for future generations.

Tourism: Texas has a unique potential for the development of tourism. It is one of the greatest economic assets for the future growth of our state. We have a clean, healthy environment, a wonderful climate, unmatched natural beauty in our lakes, rivers and streams, a magnificent coast and great historical sights that make outstanding places to enjoy. We must expand and promote these assets. Few services are required to produce these highly beneficial tourist dollars.

Economic Development: Texas future economic

our little children. Busing also would be a heavy financial burden to our educational system and would not help achieve our primary goal of providing quality education for all children.

Legislative Reform: We must break up the power base to allow our legislature to be more responsive to the people. There is a concentration of power in the hands of a few people who can pass or kill a bill regardless of its value without a public hearing. I've been in the legislature when it was responsive, and I believe it can be again.

Insurance System: Our present insurance system is discriminatory toward the young and old people. Increased rates for anyone should be allowed only when the driving record indicates the individual is not a safe driver. Example: A young person can be the safest driver in the state and still pay a higher insurance rate.

development depends upon the success of our efforts in a number of other areas. Better transportation, education, vocational technical training, sound tax base, and effective law enforcement. It depends upon our ability to protect our environment and to provide responsive, cooperative government at local and state levels. Good management of our resources also requires sound and aggressive promotion. I will work to persuade the nation's business that we have the best place for their business operation, and they will offer our people better job opportunities.

Drug Abuse: It is, unfortunately, a growing problem in our state, and we must not degenerate into a drug society. Therefore, there will be no coddling of drug pushers and addicts. We must work with the first offenders to help them understand the problem of drugs, provide a program of rehabilitation, but the hardened criminal must be prosecuted to the fullest extent of the law.

Communications: I will establish a hot line communication system between the state executive branch and local governments. The state government will provide an effective communication triangle between the state, federal and local leadership to assure each city they are getting their share of their tax dollars.

Our Youth: I will encourage our youth to participate and involve themselves in government. I have great confidence in our youth. The vast majority is smarter, they're honest, they talk straight, but they really care. The challenge we face is... what kind of example are we providing?

Mobile Field Office: I will set up a Mobile Field Office to travel the state to keep abreast with the needs the people. The office will be equipped with facilities to stay in touch with the local community, press, etc.

Mass Transportation: Public transportation is a serious problem for the cities of Texas. It is a greater burden for the low income because of the disproportionate share of their income required for necessary transportation.
