### Spur To Have Night Baseball Games Seeks League Berth

The organization of a baseball team for Spur was definitely completed Tuesday night at a meeting held at the REA offices.

W. H. Carlton was selected as playing manager and Al Marry as assistant manager.

The new playing field is being put into shape and will have a lighted field for night games which will prove very beneficial to business and professional men who would not be able to attend daylight games.

All players that are interested are urged to be present at all practice sessions in order to line up a good fast team for opening games.

### Frances DeMond To Sing In Lubbock

Frances DeMond, mezzo - soprano who will appear as guest artist for the final concert of the Lubbock Symphony Orchestra's 1947-48 season, is nothing short of sensational.

Miss DeMond's life could well supply the plot for a Hollywood scenario. A victim of polio, she is at the age of nine, her unflinching courage and tremendous will to express herself through music carried her into an intense study on piano in which she became thoroughly accomplished.

Frances DeMond has been endorsed by such outstanding personalities as John Charles Thomas, Marion Anderson, Rise Stevens and Lily Pons, all of whom were unstinting in their praise.

### Lubbock Professor Visits Spur High School Band For Clinical Practice

Dr. O. Willie Band Director of Texas Tech, held a band clinic in the High School gymnasium, on Tuesday, March 30th, for members of the Spur High School Band.

Somewhat nervous in the beginning, but with the friendly cooperation of Professor Willie they soon got away to a good tempo, and it was declared that the pupils did an excellent piece of work.

Actual clinical work was done on the contest music that is to be used at the contest which will be held in Canyon on the last of April or the first of May.

Professor Willie said, "In years past Spur had one of the best bands in Texas, and at this time it appears you are well on your way to that status again."

This praise coming from one so renowned in their field as Professor Willie, greatly encouraged the Spur band students. It has been said that under the direction of Professor Willie that Texas Tech has one of the best bands in the Nation. For fourteen years he was at the head of the Hardin Simmons Cowgirl Band, during this period they made a number of European trips spending some months there each time.

Students of the Spur band feel indebted to have had this contact and opportunity.

### George Hutchinson Addressed Lions Club Here Tuesday

Lion Hays introduced the speaker, George Hutchinson, of the Engineering Department of the Southwestern Bell Telephone Co., who addressed the Lions Club when they met Tuesday of this week, March 30.

His talk was informative and interesting from many standpoints. In dealing with this subject Mr. Hutchinson spoke in a comparative way of what telephones were yesterday, today, and amazed his audience with what the marrow may bring in the field of telephones.

He spoke briefly but most emphatically of what radar was capable of doing and what it had done. He stated that a great amount of research work remained to be done in the field of radar.

Mrs. C. H. McCulley was a luncheon guest at this time, and announced that the annual cancer campaign would begin in Spur on Saturday April 3.

At this time plans were made and discussed for a Club Minstrel on April 8th and 9th.

### SPUR FIRE DEPARTMENT FIGHTS ROARING SPRINGS FIRE

A cotton warehouse of the Panhandle Compress company at Roaring Springs was almost completely destroyed with loss of an estimated 600 to 700 bales of cotton, by a fire discovered by a night watchman about 4 o'clock Monday morning.

The estimate was placed by R. J. Harmon, company official, who said records were being checked Monday to determine exact amount of the loss. He would not estimate total loss pending further check of records.

Harmon said there was yet no indication as to origin of the fire, which was brought under control by mid-morning through combined efforts of firemen from three neighboring towns. Calls to Matador, Spur and Dickens resulted in equipment being sent from all three places, and the fire was confined to the one warehouse.

The Spur Fire Department was also called out about 3:00 o'clock that same afternoon to extinguish a small fire at the Spur Theatre. No serious damage was done.

### LOCAL CANCER DRIVE TO BE HELD IN SPUR GETS UNDERWAY SATURDAY

My friend if you ever have fice on publication day, please do occasion to enter a printing of so with fear and trembling, for you are rushing in "where angels may fear to tread."

You will be sure to see the poor editor with his hair disarranged, no one has time to think of anything as trivial as hair, a snudge of printers ink across his cheek, a desperate gleam in his glisty eyes, rushing about from one harassed reporter to another, then on to the linotype man who has lost an elusive heading for a late article, then on to the press room, where some thing has jammed up the darn thing and it presses the paper you have looked forward to in a lopsided triangle. The telephone ringing incessantly, some coyly sweet feminine voice with a last minute ad concerning her pet cat, the poor girl taking the ad matters through clenched teeth, a cat, how can any one think of cat in a crisis like this.

All during this frantic period people both old and young, lame and halt, blithe and gay, open the door and nonchalantly inquire, "paper on?"

If you should ever sit on a jury where some member of a newspaper staff has committed murder at the mention of this innocent phrase, please let them go free they were fully justified, because mortal man can only bear so much.

But at long last each I have been dotted. I have been crossed and the Paper Is Out Again, and the editor has found time to brush that lock of unruly hair into place, the wild gleam has faded from his eyes, his smile is in evidence again. The staff flop in a big way. . . they laugh in hysterical relief and as each went their weary home, they say with one accord, "tis a great life."

The smell of the printers ink has done its work well.

at Duncan Flat.

The morning service will begin at 10:30. Floyd Watley is superintendent of the Sunday School. The evening services will begin 7:30. W. R. (Tab) Williams is director of the Training Union which will begin at that hour.

### Proctor's Store On North Burlington To Be Remodeled

Plans are being made for the remodeling of Proctor's Ready To Wear Store on North Burlington. The entire front being modernized with set back windows of open back glass from floor to ceiling, thus affording a better and more attractive display of merchandise.

The new "egg crate" ceiling will feature an indirect lighting arrangement throughout the store.

An extension of fifty feet will be added to the rear of the building. This added space will take care of a new and up-to-date line of California Ladies Ready to Wear now available.

Proctor's line of "Ladies Ready To Wear" is one of the most exclusive in Spur and surrounding areas. The Proctor brothers' aim has been a more select quality rather than quantity.

Besides the additional space being added, they hope to carry a much larger selection than heretofore.

WELCOME to the courtroom, parents. Welcome, boys and girls. Every week the old judge is going to pick up his gavel and call the court to order on one of those mighty important home problems.

The docket will be packed with cases just like your own - cases you'll find real interesting and helpful, too. For the old judge is going to talk about such things as:

Should Betty go to the Sparksdale dance?

Should Dad help Mom with the dishes?

Should Joe tell Dad where he goes at night?

Should Jeon ride Bobby's bike?

Now the old judge knows a heap about this business of home life and he also knows that those little spats and squabbles that come up around the house have two sides.

And that's just what this courtroom is going to do - present both sides of these important family issues in fair and open fashion.

Then you Moms and Dads and Bettys and Jeons everywhere can be sure that your side gets a fair and honest hearing. Yes, folks, the old judge is going to pay particular attention to that.

So don't fuss and ruin your appetite when your next problem comes up. Just wait and learn about both sides of it from old Judge Early.

All right, folks, next week we're really GOING TO COURT. And on the docket will be . . .

BETTY VERSUS MOM . . .

The Ford in which the Post men were riding rammed into a concrete bridge about six miles east of San Angelo, and a Hudson driven by Lt. Skinner, plowed through the wreckage. The accident occurred about 1:30 a.m. Sunday, the highway patrol said.

Young Holly, a gin employe at Post, died at the San Angelo hospital early Sunday.

Ammons, who had regained consciousness, was believed to have been hurt the least. He suffered possible internal injuries, a fractured leg and ribs. He was the only one of the four who was able to talk Sunday.

The death victim is survived by his wife; the parents, Mr. and Mrs. Roy Holly; five brothers and four sisters, all of Post.

### Funeral Services Are Held Here Tuesday For Mrs. Shugart

Bringing grief and deep regret to the people of Spur and surrounding area, was the passing of Mrs. Penn Shugart, Sunday night, March 28, in the Nichols General Hospital after a years illness.

Funeral services were held in the First Baptist church of Spur, Tuesday afternoon at 3:00 p.m., March 30th.

Rev. C. N. Gilbert pastor of the First Church officiated. Beloved and respected by all who knew her, the passing of Mrs. Shugart will be felt in all circles in Spur. She was converted at the age of 18 and united with the Baptist church in 1923. Until her illness of the past months she had been active in both church and club affairs.

For a number of years she was General Superintendent of the Baptist Sunday School and also held the office of Church Clerk. For the past few years she was Superintendent of the Junior Department of the Sunday School and was interested in every phase of church work.

It has been said of her she was always so ready to render service and give aid. She contributed liberally in both a material and physical way to all calls made on her time and resources. One of our poets has said that, "a good woman was the most noble work of God," and the life of Mrs. Shugart bears this out, a true and devoted wife, mother, a wise and good and a beloved daughter.

She was born January 31, 1900, at Marquay, Texas, the daughter of Mr. and Mrs. Will Watson, moved to Dickens County with her parents in 1915. In 1923 she they have made their home ever since.

Surviving are her husband W. P. Shugart, one daughter, Susan, and Kenneth Watson of Spur, who has made his home with the Shugarts for a number of years, her mother and father, Mr. and Mrs. Will Watson of Spur, and four brothers, Arner.

Take it from me . . . there's nothing like Ford Hydraulic Touch Control

Maybe I'm lazy or maybe I'm smart. Anyhow, when I'm on a tractor, I don't want any tugging at stiff levers to raise heavy plows, cultivators and whatnot. I'll take Ford Hydraulic Touch Control every time. I can sit on this new Ford Tractor and lift or lower and set an implement by moving the Touch Control lever.

Say! Maybe you are like me . . . lazy or smart, take your choice. Anyhow, if you want easier, faster farming tell me to bring out a new Ford Tractor for a free demonstration that you'll enjoy . . . without obligation.

By the way . . . my good service on all Ford Tractors and equipment for them has a lot of folks talking.

Geo. W. Cox, State Health Officer, said today, in urging all communities and cities in the state to cooperate in Texas Clean-Up Week April 4-11.

A general clean-up program of state-wide proportions with the objective of bettering health conditions for our citizenship should include surface cleaning, drainage, the graving of streets and alleys, the cleaning of all parks and playgrounds and the clearing

off of weeds and rubbish from vacant lots.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises will be, said Dr. Cox, "of inestimable value in helping to keep down summer health hazards such as dysentery, typhoid and poliomyelitis. Good community housekeeping and ordinary sanitary mea-

sures require the prompt removal of all waste matter in and around yards and homes in order to abate the danger of such diseases, and insure good health protection throughout the State."

Dr. Cox stressed the fact that many dangerous diseases are filthborne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

**ALL THEY ASKED WAS AN EVEN BREAK**

**B**UILDING a new country was no easy job. But there were men and women willing to turn their backs on the comfortable way of life and their faces toward new frontiers. All they asked was an even break.

Free enterprise is another way of saying, "an even break." Free enterprise is the basic American principle of vision and personal initiative. Just give an American an even break—a chance to get ahead—and he'll go on from there.

In West Texas—where the "frontier" is a little more than one generation removed—the West Texas Utilities Company is recognized as a real pioneer. It opened up an "electric frontier" when in 1915 it constructed the first power transmission line in West Texas. This first transmission line, which helped pave the way for the economic growth of the area, was built by a farseeing group of business men who believed that a tax-paying, self-supporting company could best supply the enormous amounts of electric power that the development of this western empire depends on... at the lowest possible cost.

Today, that original transmission line has been expanded into a power system of 2,833 miles of high power transmission lines... more than any other company in the Southwest... serving 322,000 persons with dependable, low-cost electric service in a 45,000 square mile area.

The West Texas Utilities Company, in 1947, contributed more than \$1,800,000 to local, state and federal governments... paid more than \$2,800,000 in wages to employee citizens of West Texas.

There are still new frontiers in electric living to be opened... and businessmen can do the job better than bureaucrats. Believing in the soundness of the "free enterprise system," the Company will spend \$18,000,000 during the next four years enlarging plants and existing facilities, and building transmission lines in an all-out effort to "open" those new frontiers.
