Future workers for the blind from foreign countries fulfill a life-long dream as they meet world renowned Helen Keller, blind and deaf humanitarian (center). The four students are part of a large group of scholarship holders from many nations who attended the foreign student seminar sponsored by the American Foundation for Overseas Blind, an international agency serving the sightless. As the Foundation's Counselor on International Relations, Miss Keller has traveled throughout the world crusading for the blind. She addressed the gathering of foreign students at the Foundation's New York headquarters and praised them for their decision to become teachers and workers for the blind on their return to their native lands. Shown meeting Miss Keller are: (from left to right) Sani Hanna, Egypt; Kak Hee Cloon, Korea; Phio Lang Tri, of Vietnam; and Daniel Ademu-John of West Africa.

Modern farming is an expensive business for it requires a high outlay of monies for maintenance to say nothing of the large initial investment. C. H. Bates, extension farm management specialist, says a careful budget analysis is most helpful for discovering small losses in the business. Well-kept records are a must in fighting the cost-price squeeze.

Mrs. and Mrs. George Buchanan and baby of California, arrived here Sunday to visit with relatives.

Charles Sommer of St. Louis and Quinn Baker of Quanah, officials of the Burlington R R, were here Monday attending to business and looking over the oil situation.

With him, left to right, is Robert Walls, 61; M. Ileana Evans, 51; Mrs. Alma Power, hospital superintendent; and Asher Mintz, secretary.

Pic-Tours of Europe

GERMANY'S "GLASS TRAINS" A four-day delight for sightseers and camera fans in GERMANY are the multi-windowed electric excursion trains which carry tourists through the scenic South and the Rhineland.

Colorful folk festivals, with dancing and music, make EUROPE an exciting vacation-land at every season.

According to ancient tradition church bells in LUXEMBOURG are silent from Good Friday to Easter Sunday. Children, taking over their task, use wooden rattles to call the faithful to prayer... receive Easter eggs as their reward.

Be happy! Live Better Electrically

Every one says NOTHING Measures up to Electric COOKING

PERHAPS you're a bit skeptical about all this talk. Perhaps you are wondering if an electric range can be as CLEAN, FAST, COOL and fully AUTOMATIC as they "say" it really is. For a fact, it's true. But please satisfy yourself by seeing them "live" at your electric appliance dealer. We predict you, too, will be saying that NOTHING MEASURES UP TO ELECTRIC COOKING.

Cinda Ellis

Karen Probst

Outstanding ability to use and demonstrate dairy food products brought individual state honors in the 4-H Dairy Foods Demonstration program to Cinda Ellis, 16, of Lubbock, and Karen Probst, 17, of Iowa Park. Each girl was awarded a beautiful inscribed wrist watch by the Carnation Company.

Cinda's demonstration was called "Cheese Pie" and Karen's was entitled "A Dip to Delight in Teen-age Appetite."

"That proves it to me... the J-2 Rocket is like two engines in one!"

OLD Right! This J-2 Rocket® is really a new driving experience!

FRIND: Well, I've handled a Rocket Engine before, but nothing like this. They've always had pep, but this one's got that extra pep when you need it!

MS: Don't forget economy.

FRIND: Yes, but you can't feel economy.

MS: Feels pretty good to the pocketbook.

FRIND: Right! But it beats me how you get economy with a big car like Olds.

MS: Easy. For cruising around, you just use one dual-carburetor.

FRIND: Bet that waters down your performance some.

MS: Not a bit. I've got regular Rocket performance right through the economy range. And believe me, that's plenty. But if you need more power...

FRIND: Then what?

MS: Go to Stage Two. You just saw what that does. Give it three-quarters throttle and you've got those dual carburetors dishing up more power and torque.

FRIND: Tell you the truth, I've always liked an Olds. Thought we might get one ourselves some day.

MS: Checked the price lately? You'd be surprised how easy it is to own.

"The Girl He Left Behind," starring the romantic team of Tab Hunter and Natalie Wood opens Sunday at the Palace Theatre.
Marion Hargrove, who brought laughter to many millions with his World War II novel, "See Here, Private Hargrove" wrote the original story of "The Girl He Left Behind" from material he compiled at Fort Ord while posing as a trainee without revealing his identity to the other men in the company.
The film deals with Uncle Sam's peacetime Army and its trainees who learn their soldiering under the new "treat 'em polite" policy and the romantic problems of one draftee and the girl he left behind, but not far.

There's no better way of preserving the original goodness and flavor of fresh foods than by quick-freezing. Men of science tell us that the miracle of quick-freezing is the most modern and effective way of retaining Nature's freshness in foods of all kinds.
Experts agree that to get the best results from frozen foods, all foods must be quick-frozen first at sub-zero temperatures. This is necessary to prevent breaking down the delicate cell structures and causing loss of flavor and freshness.
Play safe with your foods... bring them to our modern plant for proper freezing, before you store them in your home freezer. We have facilities for freezing large quantities of food overnight. Stop in next time you get a chance, and we'll show you how we work with other folks who have home freezers.

Housing Laws for Legion Members Mexicans Revised To Dist. Meet

The U. S. Department of Labor today announced that the minimum acceptable standards for housing Mexican agricultural workers employed in this country under the Migrant Labor Agreement with Mexico have been amended and re-issued, effective immediately. They replace those issued on January 7.

Charles E. Johnson, Field Representative for the Labor Department's Bureau of Employment Security here, said the changes were made on the basis of (1) operating experience in the field and (2) consultations with the two committees which advise the Labor Department on farm labor policies and programs. These committees are the Special Farm Labor Committee, composed of agricultural representatives from each state, and the Labor Advisory Committee on Farm Labor made up of representatives of organized labor.

"The changes in the minimum standards include the addition of appeals procedures for employers and spell out in more detail than before the kind of housing and sanitary facilities that must be provided by employers for the Mexican workers they contract and employ under the terms of the Migrant Agreement", Mr. Johnson said.

"The amended standards cover adequacy of shelter, adequacy of space per worker, water supply, cleanliness, sanitation, ventilation, heating, and facilities for eating and laundry".

Regional Director Ed McDonald of the Bureau of Employment Security in Dallas is mailing a copy of the amended standards to all approved employers and associations of employers of Mexican National workers. Copies are available at the field office here or at the regional office in Dallas.

Exclusion from the standards is provided for bracero ranch hands while they are away from ranch headquarters. In such cases, living conditions on the range comparable to those under which domestic workers live are acceptable.

The source materials used in the development of the amended standards include the provisions of the Migrant Labor Agreement, state agricultural camp codes, and the suggested language for regulations of agricultural labor camps issued by the President's Committee on Migratory Labor.

Plainview, April 4. Legionnaires and Auxiliary members of the 19th Congressional District of The American Legion will assemble here Saturday and Sunday, April 6-7, for their annual spring Convention. Post Commander Eddie Sessions announced today.

Warren Liner

Joe L. Matthews

Sessions stated that an elaborate program has been prepared for the visitors who will begin registering at The American Legion Home, 111 Ash Street, at 12:30 Noon, Saturday. The main feature Saturday afternoon will be the Color Guard Contest at 3:00 o'clock. At 4:00 p. m. a rehabilitation meeting will be held with all service officers in the 19 District attending. At 9:00 p. m. there will be a dance at the Legion Home, with Esquire Orchestra furnishing the music.

Sunday morning activities will begin with a Commanders' and Adjutants' breakfast at 9:00 o'clock at the Alcove Restaurant on West 5th Street.

A joint session of The American Legion and Auxiliary will be held at 10:00 a. m. at the Legion Home. District Commander Warren H. Liner will preside over the

joint session and the business session of the Legion.

The address of welcome will be given by Charlie Young, Manager of the Chamber of Commerce, with response by B. B. Gilmore.

The principal speaker on the morning program will be the Hon. Waggoner Carr, Speaker of the House of Representatives, from Lubbock. Memorial Services will be delivered by Hubert Hillburn, past post commander and editor of the Plainview Post.

Department Commander Joe L. Matthews of Fort Worth will deliver the address at the Sunday afternoon session.

At the business meeting that afternoon, District Commander Liner will award Citations to Posts that have exceeded their quotas for 1957.

The election of officers for the biennium of 1958-59 will conclude the meeting.

LATE NEWS!
 9:15 a. m., Thursday, April 4 — IT'S RAINING IN SPUR!

S. S. Officer Due Here April 11

Clergymen who want social security protection, but who have not filed waivers of their social security tax exemption, should file the waivers by April 15, 1957, it was announced today by District Director of the Internal Revenue Service and by John G. Hutton, manager of the Social Security Administration's district office. After April 15 some of the clergymen who have not filed waivers will be unable to come under social security.

By filing waivers last year many ministers, members of religious orders, and Christian Science practitioners elected to have their earnings in 1955 and subsequent years count toward old-age, survivors, and disability insurance. Those waivers remain in effect and need not be renewed.

Other clergymen who have not yet elected to be covered should file waivers by April 15 if they wish to have their earnings in 1956 and subsequent years count to-

ward social security. The election is made by filing Form 2031 with the District Director or from any Social Security Administration office.

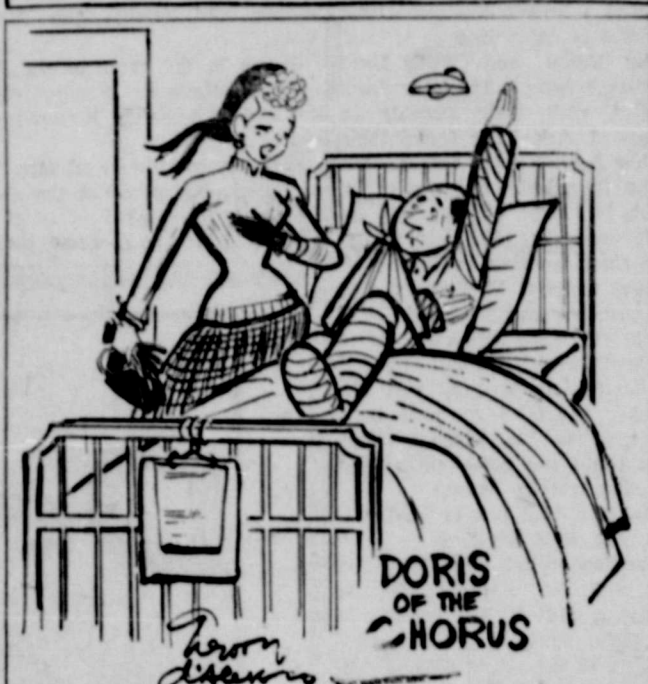

After April 15, 1957, a clergyman who has not filed a waiver is barred by law from electing social security coverage if in each of the years 1955 and 1956 he received \$400 or more net earnings from self-employment, including any salary, fees or honoraria as a minister, member of a religious order, or Christian Science practitioner.

A clergyman who elects social security coverage pays his tax as a self-employed person. His church is not liable for the tax. A representative from the Lubbock Social Security office will be in Spur on April 11 at 9:00 a. m. at the Post Office.

Who rates what for performance and smoother riding in the low-priced three? Chevrolet has laid the answer and the proof on the line!

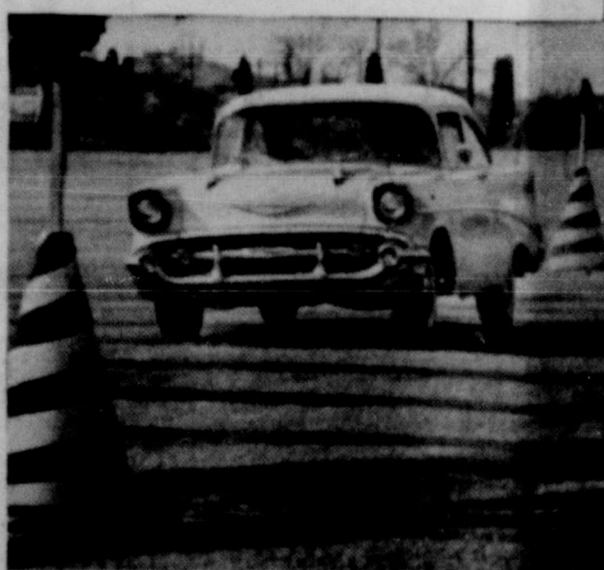

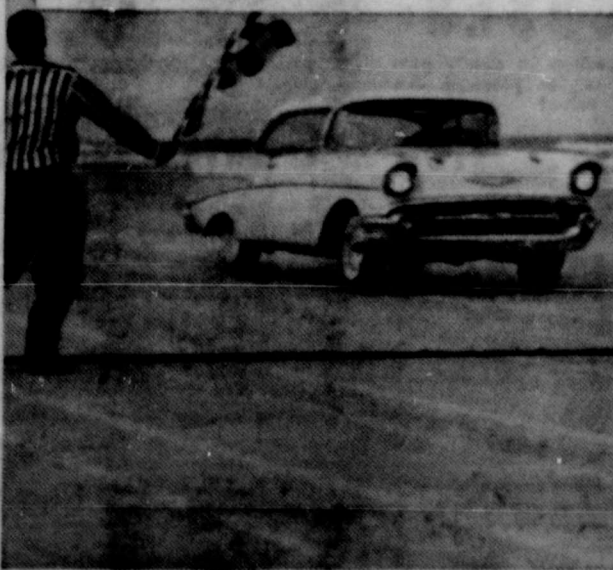

First, Chevrolet won the Auto Decathlon over every car in its field, and over the higher priced cars that were tested, too. This rugged ten-way test (right, below) showed Chevrolet was the champ in handling ease, braking, acceleration, passing ability, smoothness of ride and other driving qualities you want in a car.

Then, Chevy won the Pure Oil Performance Trophy at Daytona (left, below) as "best performing U. S. automobile."

It's quite a feeling to know that you are driving a car that performs so well, responds so beautifully and is so finely built. You feel proud, of course. But you also enjoy a surer, smoother, steadier way of going, a keen

DOUBLE SCOTTIE STAMPS ON TUESDAY

Miss Womack Is Wed To Bobby Williams Sunday

The wedding of Miss Jerele Womack and Bobby Williams...

The bride was given in marriage by her father, and she wore an original model of white embroidered Swiss gandy over taffeta designed with a portait neckline bordered with escaled embrodery.

Her circular veil was embroidered with seed pearls and she carried a white callia orchid atop a white Bible with satin streamers.

Miss Patsy Womack of Spur attended her sister as maid of honor. She wore a waltz-length dress of pink crystalene styled along princess lines and carried a white corsage.

George Williams of Abilene served as his brother's best man. Assisting in hospitalities at a reception which followed were Mmes. J. W. Armes, J. W. Erwin and Anna Mae Byrne and Misses Clella Powell, Glenna Roberts, Shirley Hairgrove, Jewell Armes, Irene Armes and Jewell Hodges.

For a wedding trip to points in New Mexico, the bride selected a toast brown dress and jacket with black accessories and an orchid corsage. The couple will be at home at 1605-A 29th St. after April 10.

Fabulous Flan Makes Square Dessert

Pies with square corners are as old-fashioned as can be. When families were large, grandmother found that it saved time to put the makings of 2 pies in a big square dish.

Shower Honors Recent Bride

The home of Mrs. H. P. Gibson was the setting Saturday, March 23 for a bridal shower for Miss Jamie Nell Simmons, bride-elect of Mr. Clayton Baum of Andrews, Texas.

The table, covered with a white crocheted cloth, was centered with an arrangement of white carnations and miniature yellow mums in a crystal bowl. Punch, cookies, and salted nuts were served to the guests.

Approximately 175 guests called or sent gifts.

"Pictures" Is Topic Of Girard Club

The Girard H D Club met Wednesday, March 20 with Mrs. Orvin Stephens. The meeting was called to order by the president, Mrs. C. C. Kimmell.

After a short business meeting, a program on Picture Selection and Framing was given by Mrs. H. A. Hollingshead. Slides on Sewing Machines and Equipment was shown along with pictures of the stock show.

The next meeting will be April 3 with Mrs. Jake Swarenzen and the program will be Accessories for Bedrooms, by the county agent.

Refreshments of cookies and hot spiced punch were enjoyed by all.

Alexander-King Ceremony Read In Pastor's Home

In a double ring ceremony read at 8 o'clock Friday night, March 29, Miss Janie Janelle Alexander became the bride of Ronald Dean King.

The bride is the daughter of Mrs. Madge Carlisle and Dr. Bob Alexander. Parents of the bridegroom are Mr. and Mrs. Monroe King, Shamrock.

Mrs. George Gabriel sang "My Wonderful One" and "Because."

Gowned in white chiffon and lace accented by an inset of lace and rhinestones, the bride was given in marriage by her brother-in-law, James Kidd of Lubbock.

Her street-length sheath was complemented by an overskirt and a white satin bolero styled with a stand-up collar and pointed sleeves. Her veil of imported tulle was attached to a pearl tiara borrowed from Mrs. James Withrow.

Lubbock Attendants Mrs. James Kidd of Lubbock attended her sister as matron of honor and Miss Lois Dunwoody of Lubbock was bridesmaid.

Ernestine, her husband, E. H. and little daughter, Sharon Manette, will visit her parents, Mr. and Mrs. J. E. Berry, 314 East Harris Street, and her grandmother, Mrs. S. W. Williamson, Glenn, before returning to her home at Austin.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

Contingencies
In this unpredictable life of ours, it is the law's business to take a long look into the future and says what would "happen if."

For in your contracts, leases, wills, insurance policies, escrows, and the like, you had better say what would "happen if" some of your best laid plans go awry. Such events the law calls "contingencies."

Who gets the "earnest money" you put down, if you cannot go through with buying that house? What if you want to pay up that

loan and see interest? What happens if a partnership goes sour, or a partner gets sick or dies? What happens if the people you name in your will should die before you do, or, if you all perish in a common catastrophe like a car smashup?

The law is wise but it cannot do your thinking for you. It settles such questions—but not always to your liking. If you don't make a will, the law says you will get your property. If you leave certain things out of a contract, the law assumes that you meant to put some certain things in. But how much better it would be in the first place to put them in the way you want them, by asking "what if?"

Take your will now: Your first desire, of course, is to take care of your wife and children—those nearest to you. But it won't hurt anything to put "contingent beneficiaries" in your will in case something happens to thwart your first intentions.

Review your will every year or so to see if it meets the new things that have come up, or arrange with your lawyer to write in "contingent beneficiaries"—those who will receive your property if your first beneficiaries should die before you do.

You may long ago have had your son provided for in your will, but what about those lovely grandchildren he and his wife have presented to you since you wrote the will? What would happen to them if things go wrong

and your son should die before you?

Or take your widowed sister and her children now. Suppose you and your immediate family should be wiped out: Would you want your property to go equally to her and to your well-heeled bachelor brother? Or would you prefer to leave your brother some token of your affection, and then really take care of your sister?

You may be impatient with the law's long memory. Such things never happen, you think, but the court records are full of plans which failed. And so the law has ways in which you can provide for "what happens—if." One way is the device of contingent beneficiaries in your will and insurance policies.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Extension dairy husbandmen say it isn't too early to start a fly control program. Good drainage around the dairy barns and hauling manure to the fields on a regular basis are two practices which will eliminate fly breeding habits. If control measures are needed, the specialists suggest that a copy of L.256, be obtained from the local county agent.

Medical Milestones

Rx For Rheumatic Pain

American Indians rubbed wintergreen on their muscles and joints to ease the pain and stiffness caused by a disease of which they knew very little — rheumatism. Like the Indians, we of today know little of its cause, but we know much about rheumatism and, fortunately, we have more than wintergreen to ease the discomfort.

We know that rheumatism begins as an inflammation of the joints and associated structures, setting up a chain reaction which, unless checked, leads to degeneration of the bones and cartilages, withering away of certain muscles and permanent disability.

What triggers this cycle of events is unknown. Some scientists believe an infection is involved. Others have suggested the answer may lie in the activity of the adrenal glands. Many feel that a certain type of person — one who is thin, lacking in body vigor and easily fatigued — may be "constitutionally predisposed" to rheumatism, but not all patients fit this description.

We have come a long way from the use of wintergreen for its relief. Cortisone, a hormone derived from the adrenal glands, ACTH, derived from the pituitary gland; and gold salts, as well as rest, heat, X-ray and physical therapy, have all been used to relieve patients with rheumatism.

One of the newest drugs used to treat rheumatic conditions, particularly fibrositis, or muscular rheumatism, is the muscle relaxant and tranquilizer drug "Miltown." Dr. Richard T. Smith and his associates at Philadelphia's Benjamin Franklin Clinic report using the drug to bring prompt relief from muscle stiffness and pain to 83% of a group of 252 patients suffering from many different types of rheumatic conditions. Patients with rheumatoid spondylitis, a rheumatic condition of the back, found, for example, that "Miltown" not only relieved aching and stiffness, but

when given along with X-ray treatment, made it possible for rehabilitation to progress rapidly, increasing the patients' ability to use their joints and muscles.

Patients with muscular rheumatism also responded "exceptionally well" to "Miltown," the doctors said. Individuals with this condition, which may exist either alone or with other rheumatic conditions, usually develop stiffness and pain as fatigue sets in at the end of the day. In the morning they generally require long periods of limbering up before they can begin the new day. Patients given "Miltown" before arising, however, found they could start their activities with little evidence of stiffness and pain, and with a considerably shortened limbering-up period.

The report on "Miltown" appeared in the authoritative Journal of the American Medical Association. "Miltown" may be obtained only on a doctor's prescription.

Centennial Cream Cake

What more fitting way to observe a birthday than with a cake? This cream cake was developed in the test kitchen of The Borden Company to mark the occasion of the Company's 100th birthday. Heavy (whipping) cream provides both shortening and liquid. The result is a delicately flavored white cake. This cake can be converted into a variety of shapes and sizes without adjusting ingredient proportions or baking temperature. Only baking time needs adjustment. Here is one version:

Centennial Cream Cake

2 cups sifted cake flour 1/2 pint (1 cup Borden's Heavy Cream)

1 cup sugar 1 teaspoon vanilla extract

3 teaspoons baking powder 1 teaspoon vanilla extract

1/2 teaspoon salt 2 eggs

Sift together flour, sugar, baking powder and salt twice. Pour cream and vanilla into deep 1-quart bowl; beat with electric mixer or rotary beater until just stiff, about 1-1/2 minutes. Add eggs; beat until blended. Add dry ingredients; beat (use low speed on mixer) until batter is well blended. Divide batter into four parts. Blend a few drops of yellow pure food coloring into first part; a few drops of green into second part; add a drop or two of red coloring to the third part. (Colors should be a delicate shade). DO NOT TINT fourth part. Place alternate spoonfuls of batter in bottom of 9-inch tube pan. Repeat. Bake in moderate oven (350° F.) 45 to 50 minutes or until top springs back when lightly touched with finger. Cool in pan on cake rack about 10 minutes; remove; continue to cool. **COCONUT CREAM CHEESE FROSTING:** Let an 8-ounce package of cream cheese stand at room temperature until softened. Beat cheese until creamy. Add (7/8-ounce) jar of marshmallow fluff and one teaspoon of almond extract; beat until smooth and well blended. Place coconut in glass pie plate and sprinkle with a few drops of pure food coloring. Lightly toss with fork until coconut is tinted desired shade. Frost cake. Sprinkle with coconut.

Cadillac

Old Friends in a New Light!

Let's assume you've known them for some time. And now—in the moment of a glance—you first behold them in the company of a Cadillac car.

There's just no question about it... something wonderful happens!

For the presence of a Cadillac car underscores—and most dramatically so—many of the things that enable you to think well of them.

It goes almost without saying that their Cadillac lends form and substance to whatever measure of achievement life may have brought them.

Certainly, it reveals their interest in the safety and well-being of their fellow passengers.

And, most assuredly, it evidences the wisdom with which they select their personal possessions.

Incidentally, you may have noticed, of late, that the Cadillac car has cast its revealing light on an ever-growing number of your own friends.

There is every reason why this should be so.

Its original cost is remarkably modest—and several models are, in fact, priced competitively with those of lesser makes.

Its operating economy is extraordinary—with a record of dependability and longevity that is without equal in the industry.

And its resale value stands at the very summit in used-car markets all across the land.

Certainly, this triumvirate of Cadillac economies deserves your personal investigation—and your dealer will be delighted to tell you the whole wonderful story at any time.

Stop in soon—for a ride and a revelation!
