Local District Records 171 Holiday Mishaps

Highway Patrolmen investigated a total of 171 accidents during the first six months of 1958 in the Haskell substation area comprised of Baylor, Knox, Stonewall, Throckmorton and Young Counties, Sergeant Frank Jircik announced today.

Of the above total, 12 were fatal accidents, 54 personal injury accidents, and 105 property damage.

Sergeant Jircik reported a total property damage of \$162,243.00 with 106 persons injured and 18 killed. This is an increase of 82 accidents and 52 deaths for the same period last year.

Jircik said the Patrolmen in his area contacted 4,824 drivers during this period for the following violations: DWI, 40; Speeding, 1,951; Improper Passing, 219; Wrong Side of Road, 183; Defective Equipment, 1,429; Disregard Stop or Warning Sign, 326; and all other violations, 676.

"During the vacation months, thousands of motorists are on the highways, and too many of them are intent on cramming as much activity as they can into one brief vacation," Sergeant Jircik said. "The result is often tragedy."

He cautioned vacationers to be on their guard against speeders, drinking drivers and drivers who disregard traffic laws. Traffic accidents take no vacation, so to stay safe, step up your vigilance on the roads, and slow down and live.

Sergeant Jircik also urged all motorists to check the expiration date on their driver's license to see that it has not expired. Patrolmen in this area are going to increase their activity in regard to drivers' license checks.

HERE IS HOW THEY WERE TAKEN—Gunner Nielsen, photographer, and Alvin Rushenberger, pilot for the Zekan-Robbins Co., demonstrate how they took the aerial photos for the Texas Spur Mystery Farm series. In taking the pictures, the photo plane flew back and forth over Dickens County, covering about 300 miles selecting farms at random.

Texas Spur Offers New Mystery Farm Feature

Readers of the Texas Spur will have the chance to prove their knowledge of farms in this area with the publication of a new "Mystery Farm" feature starting this week.

Aerial photos were taken of 52 farms in the area served by this newspaper and one picture will be published each week, along with an invitation to readers to "guess whose farm." The pictures were taken by the Zekan-Robbins Company of

Harian, Iowa, specialists in this kind of low-altitude farm photography, and this newspaper arranged to have the photos snapped in different parts of the area so that every farmer has an equal chance of having his farm picture published.

Nobody knows whose farms were photographed—not even the photographers. The editor of the Texas Spur is relying upon the readers for identification, and those recognizing

the "mystery farm of the week" should notify this newspaper immediately.

In order to make the Mystery Farm Contest more fun, the Texas Spur will publish the names each week of those who correctly identify the Mystery Farm.

The operator of the mystery farm will receive a beautiful mounted enlargement of the original photo, if he will call at the newspaper office. This photo is free with the compliments of the Texas Spur, current sponsors of the contest. Farm operators who recognize their farms in the newspaper series, should come to the office no later than Tuesday noon so that they can make positive identification and get their free picture.

Recognizing aerial photos is tricky business and the photographers further complicated it by taking the shots at random, and a few from the back side of the farms so that the contest will be more interesting and require more skill. The pilot flew about 300 miles back and forth across the trade area of Spur while taking the photos with professional aerial photo equipment.

In publishing the series of farm photos, this newspaper is recognizing farming as the big business that it is today—big in investment in land, machinery, livestock and buildings. The pictures are a tribute to agriculture in this community.

Spur placed four men on the All-Tournament team. They include: Freddie Walker, third base; Joe Kenneth Watson, left field; Harold Goodwin, catcher; and Pat Green, short stop.

Lorenzo placed second in the tournament.

Fire Marshal, Firemen, To Attend School

Bill Gregory, Spur Fire Marshal, and two members of the Spur Volunteer Fire Department yet to be named will attend the "Fireman and Fire Marshal Training Course" to be held at Texas A&M College beginning Monday.

The school will last for one week. Purpose of having the firemen attend this school is to insure that Spur will continue to receive a 5 percent key rate on fire insurance. Attendance by the Fire Marshal is allowed 3 percent, and each fireman, 1 percent. This is the maximum that can be received.

Wednesday afternoon about 4:30 p. m., a car in which Mr. and Mrs. George Erath, Spur, were riding was in a collision with a tank truck driven by Charles E. Williams, Post, at the corner of Second and Carroll Streets.

Mrs. Erath suffered a head injury and Mr. Erath received a leg injury. Both were hospitalized, but the injuries were not believed to be serious. Williams was unhurt.

The truck was loaded with crude oil and was coming from Matador.

Damage to the Erath car was estimated at about \$350. The truck was damaged only slightly. No tickets have been issued.

Two persons received minor injuries in a near head-on collision last week end on Highway 70 in front of the Hill Top Station, just inside the City limits of Spur.

Investigating officers said that a car driven by Gary Dale Dyer, Girard, and one driven by Cecil Claude Booth, Stephenville, collided almost head on about 7:30 p. m. Friday.

Booth received a cut lip and head lacerations while Roger Conner, Seagraves, who was riding with Dyer, received a head injury and was hospitalized but later released.

Both drivers were issued tickets: Dyer for making a left hand turn without safety and Booth for speeding. Police Chief Wayne Beadle says this is the third wreck in this location in about a year's time.

Dyer was driving west on Hill street and was attempting to make a left hand turn into Hill Top Station when his car collided with Booth who was coming east on Hill St. Dyer's car was termed a total loss while damages to the Booth car were estimated at \$1500.

Blakley Story is Typically Texan

The typical American story is of the poor boy who made good through his own efforts. This is the story of Bill Blakley, born in a covered wagon while his parents were on their way to homestead in Oklahoma territory. He has come a long way in 59 years. Said the *Austin American-Statesman*, when William A. Blakley announced for the Senate:

"... He was a top-hand cowboy; he was a crackerjack bank clerk; he was an exceptionally good accountant and lawyer. We have an idea that he is going to be a refreshing, able political candidate. He would make a great United States Senator."

Vote for Bill Blakley on July 26 — an able man whose only ambition is to serve all of Texas.

My, How We've Changed

It's hard to realize how much our city has changed since 1940 unless you have been away and are returning now for the first time. A great change in the development of the city and even a greater change in the people would be almost unbelievable.

The ever-increasing demand for telephone service here in Spur has caused another big change. In 1940, there were 311 telephones in service here. The figure was 385 in 1945 and by 1950 it had jumped to 680. We now have 853 telephones in Spur.

All Spur telephone subscribers are also able to dial subscribers in two neighboring exchanges, Dry Lake and Girard.

We here at the telephone office shall continue our efforts to have telephone service available when it is needed.

Tip For Businessmen

Ever try answering your out-of-town mail with long distance calls instead of letters? Nothing can beat long distance when it comes to getting things done.

Just the other day, for example, I had three or four letters on my desk, all waiting to be answered. I just couldn't seem to get to them. Finally, I picked up the telephone and called the people. In 20 minutes I was through. I must have saved myself at least an hour's work.

Try doing it that way yourself. When you do, I think you'll like the quick action you get—as well as the small amount it costs.

Dress Up Your Kitchen

A lot of people who have remodeled their kitchen add a finishing touch by ordering a wall telephone in color to blend with the new color scheme.

You don't have to remodel, of course... a wall telephone in color will brighten your present kitchen—let you reach for the telephone and bake a cake at the same time.

There are seven attractive colors... light gray, cherry red, white, moss green, ivory, pastel yellow, and light beige. Table model telephones are available in all these colors, too, plus aqua blue and rose pink. Call the telephone company today to put more color in your kitchen—or any other room in your home.

Call by number. It's twice as fast.

MISS KELLEY REPORTS...

Holland Is Land Of Flowers, Rudy Complexions, Health

(Second in a series by Kathy Kelley who is on a seven weeks tour of Europe.)

We left at 6 in the morning for Amsterdam Netherlands (Holland). The Dutch lines are luxurious. They treated us like kings and queens. I just can't tell you enough about the Dutch. On the plane the men—the stewards—were like story-book people—all light complexioned and very handsome blonds—they simply took your breath away. (Even the men along thought so!) We had a day and a half in Amsterdam! A glorious day, I say! I have always heard of the cleanliness of the Dutch but never really believed it. Now I do. You can't even see paper on the streets, there is no dust anywhere—outside or in—"water, water everywhere and plenty of it to drink."

Our hotel was really odd. All the buildings are dutch style, very narrow and tall. The staircases are winding and the steps are so steep you can hardly keep your balance. The rooms were very comfortable and something about the atmosphere reminded me of home which seems so far away!

We saw Rembrandt's painting "Night Watch" and the most fascinating diamond factory. The things to see grew of less importance as the day progressed and we began to be totally absorbed by the life around us. So simple, yet so beautiful. Bicycles in Amsterdam are like taxis in New York. Everyone has one. The streets are full. You see children of all ages, young people, well dressed women with hats and gloves on, the most distinguished looking business men with white hair—all riding bicycles. To top it all, the Dutch whistle while they ride. I can't describe the beauty of it! You just can't find any city in America where the people look so healthy, and are on the whole so happy and live so simply.

Every Dutchman has rosy cheeks and a beautiful complexion. All of their taxis have built-in flower boxes on the front and they keep them full of flowers. The flowers are mostly roses here. People walk down the street carrying bouquets. There is a flower cart every two blocks. We saw many little children walking to school holding hands with one hand and carrying roses with the other. The children loved to have their pictures taken, so they stopped readily. We saw, in front of a side walk cafe, an organ grinder playing. The cart was decorated just as you've seen in pictures and a little man dances on the sidewalk with a cup in his hand. We took a boat ride down a canal. Amsterdam has 40 canals and 50 miles of water. It is the "Venice" of the north. We were told that the ride was more beautiful at night so 4 of us decided to go to bed at 7:30 and sleep until 9:30 p. m. and take the boat ride at 10:15. All along the canal are lights. At some places the banks are covered in roses and are lighted up with colored lights. It's a most beautiful sight. We saw the "Stinker Bridge" (I can't spell it in Dutch—"stinker" means something else in Dutch). The bridge was covered from every side with lights. It looked like diamonds and reflected perfectly in the water. After the ride we were

hungry so we went to the Lido, a famous French restaurant on the canal for some coffee and pastery. The flowers, the waitress, the gondola, the perfume of flowers, the red carpet rolled out literally—lent an atmosphere you reveled in and didn't want to leave.

Saturday morning we had free. So again 5 of us (2 boys and 3 girls) ventured out on our own to try to find some Dutch country and see a wind-mill. Don't ask me how we got around when we didn't speak Dutch, and most of them can't speak English—but we found a train station and finally found which train to get on to a little village called Zandirk. It was raining as usual, but we got there. There we found the Dutch mill and the miller spoke a little English. He took us all over the mill, which is a three story structure, living quarters, etc. He showed us how they grind wheat and corn—

"The miller may take it And into rolls make it And bring you some hot in the morn."

We went on a platform at the top where you turn the arms that make the mill go. We each got to work the mill while we wore the millers son's wooden shoes. Each of us had our pictures taken performing here. We talked and performed and took pictures until 11 a. m. We started back to Amsterdam after eating and we made it back to our bus only 1 minute before departure time. We went out on a harbor and saw dozens of ocean liners, barges, and sailors. We saw the Zuider Zee, (a gulf very shallow of reclaimed dunes with a ten and one-half million dollar dike separating it from the North Sea) and we didn't want to leave Holland! The peaceful land with happy people captured us completely.

Young Lions' Story Of Three Different Loves When Irwin Shaw's book, "The Young Lions," was published in 1948, it was greeted by critics as the finest novel to emerge from World War II. Most of them agreed that the book had all the ingredients of great drama. Now, ten years later, Twentieth Century-Fox and its Producer, the late Al Lichtman, have taken this highly-acclaimed novel and transferred it to the CinemaScope screen with the same kind of high-grade ingredients. Foremost among these is the year's most imaginative cast, which includes Marlon Brando, Montgomery Clift, Dean Martin, Hope Lange, Barbara Rush and Swedish beauty, May Britt, in leading roles. The film starts Sunday at the Palace and Hi-Ho Theaters.

"The Young Lions" is the story of three vastly different young men, the girls they loved and what the war did to each of them. But it is not a war story per se, although the conflict motivates and affords a vivid, violent background, to what they do. It is, in fact, really three stories in one: two concern Americans, the other a European, and the three do not fully mesh until the closing moments of the picture. Marlon Brando plays "Christian," a hell-licking, erect, blond Nazi officer who goes by the book despite his growing disillusionment, and doggedly follows a lost and evil cause. Montgomery Clift is "Noah Ackerman," the lonely Jewish American who fights prejudice and bigotry at home with the same desperate courage he fights Nazis abroad, and in the process helps another find his self respect. The latter is played by Dean Martin, in the prize off-beat casting of the year. Martin plays his first straight dramatic role and is already being compared to the successful switch Frank Sinatra made in "From Here to Eternity." He plays "Michael Whiteacre," a Manhattan playboy who fights his draft board without much success. But the reluctant G.I. becomes almost as reluctant a hero of sorts.

TURKEY PRODUCTION The two biggest considerations when using range for turkey production are plenty of shade and clean premises, according to Ben Wormell, extension poultry husbandman. Shade is essential to keeping feed and water consumption and gains high while cleanliness helps eliminate disease and parasite hazards, he adds.

About Your HEALTH

A weekly public service feature from THE TEXAS SPUR, Department of Health, HENRY A. HOLLE, D. D., Commissioner of Health.

It all started with Sir Walter Raleigh and a Y-shaped pipe. The pipe was a gift to Raleigh from Sir Francis Drake—a souvenir from the West Indies, where natives put the pipe prongs in their nostrils and inhaled the smoke of a smoldering substance they called "tabaco."

Raleigh apparently set the style of his day, for when he took up smoking the practice soon became fashionable. All this happened nearly 400 years ago—in 1586. Since then smoking has become the most deeply ingrained habit of humanity. Today in the United States alone, more than half the men and a fourth of the women smoke cigarettes daily, and additional millions smoke pipes and cigars. Altogether it adds up to almost 40,000,000 smokers—26,000,000 men and 14,000,000 women—out of an adult population of approximately 50,000,000.

The seriousness of the smoking habit has been made clear in a recent finished study by the National Institutes of Health. Results of the study, already widely publicized, indicate a strong and undeniable relationship between cigarette smoking and increased death rates from lung cancer and heart disease. The studies reveal a death rate among cigarette smokers 58 percent greater than the rate for non-smokers. Moreover, it shows that heavy smokers die off quicker than light smokers.

In addition to lung cancer and heart diseases, smokers run a much greater risk of dying from such diseases as bronchitis, pleurisy, ulcers, and cirrhosis of the liver.

The connection between cigarette smoking and high death rates has been so definitely proved that cigarettes would probably be banned for public sale if introduced as a new product on today's market. The British Ministry of Health for some time has been warning about the hazards of smoking. Now the US Public Health Service has begun a similar campaign. The Texas Department of Health will support a drive to the fullest. The late Dr. William Mayo used to say that cigarettes, cigars and pipes were nothing more nor less than "adult pacifiers," something for idle hands to play with. If true, breaking the smoking habit probably isn't as hard as it is supposed to be. Should you, personally, make the effort? That's your decision. But while you're making it, keep in mind that the best research talent in the world is convinced that heavy smoking shortens life.

Jana who has been visiting the Nickels, returned to Lubbock for a visit while Brent, who has been visiting in Lubbock remained with the Nickels. It seems vacations and summers are made for the grandparents and grandchildren, or perhaps

I should say for the parents.

Anyway, just who gets the vacation depends on the individuals interpretation. Not being a grandparent, I am not in a position to say.

PFC Rex Denson is now stationed at Anchorage, Alaska. He said they had quite a day when Alaska was made a state.

Sure-footed Man Serves Texas
The colorful language of the ranch and trail seems to fit Bill Blakley, who made his start in life as a working cowhand. He still rides and ropes with the hands on his ranch at roundup time.

Speaking of Blakley's service as U. S. Senator in 1957, the Dallas News said: "... If he was as unassuming as an old boot, it was nevertheless a well polished boot that never wobbled or wandered from its purposeful path. For this man Blakley is a sure-footed man who knows exactly where he stands and what he believes."

Texas will vote to return William A. Blakley to the Senate on July 26 because he truly represents the spirit, traditions and views of all Texas.
