DUCK CREEK SCHOOL RECORD

Though a little late, we must tell you about our school year at Duck Creek. We patrons feel proud indeed of the record of our children with Mr. and Mrs. Moore as teachers.

At the beginning of our term, Mr. Moore offered a free trip to Carlsbad Caverns, New Mexico to the children making the most progress, and highest average. How the children did work, Duck Creek making the second highest grades of any rural school in the county. There were ten children who received the free trip to Carlsbad. They were as follows: Ruth Matlock, Zora Mae Swearingen, Marvin Hughes, Pauline Hagins, Adele Baker, and Harold Simmons, all of the seventh grade.

Marguerite Bural was the winner in the sixth grade and Jean Bural, Lucy Laverne Bural, tie for first place, and Paul Dale Hagins second of the fourth grade. Ruth Matlock was valedictorian, and Zora Mae Swearingen, salutatorian. As a graduation gift, every member of the seventh grade was allowed to go to Carlsbad.

Mrs. Moore also gave prizes every month and a party at the close of school to those making the best grades. They were: first grade, Edward Reed; second grade, Melva Joe Swearingen; third grade, Raymond Ellerbe. Those making the honor roll each month were: Virginia Gay, Louise Clower, Doris Clower, Margerine Hagins, Paul Wade Nally, Vernon Ellerbe.

Early Monday morning, on May 28, the happy children, with Mr. and Mrs. Moore left for Carlsbad and had many an exciting story to tell of the wonders of Carlsbad, and will ever remain in their memory, as one of the most wonderful incidents of their childhood.

Mr. Moore is a grand man of exceptional ability, having worked his way through college receiving his degree at the age of twenty two, while Mrs. Moore is a young lady of talent and refinement.

Mr. and Mrs. Moore are now at Abilene where Mrs. Moore is attending A. C. C. —Reporter.

DUCK CREEK NEWS

The children's day program was enjoyed by a large crowd Sunday. The children did their best and we were delighted with their singing and giving praise to our blessed Savior, and we want to thank the ladies of Duck Creek for their untiring efforts in training the children.

Mrs. Gay is in Oklahoma where she attended the funeral of her father. Mrs. Gay has our sympathy in this great bereavement.

Walter Driggers, who was operated on at Lubbock in the spring is now able to be at work again.

We are glad to welcome our new neighbors, Mr. and Mrs. Laird and children, to our community.

Mrs. M. McKay of Spur, was a guest of Mrs. P. E. Hagins Sunday and was present at our program.

Mrs. W. B. Bennett and Mr. and Mrs. Ab Bingham of Spur, attended our program also.

Brother Kelley made a nice talk on child training, and filled his appointment Sunday night.

Mr. and Mrs. Brink Carlisle of Steel Hill visited Mr. and Mrs. A. T. Bural Sunday afternoon.

A number of people from Duck Creek attended the singing school at Red Hill last week. —Reporter.

IT WAS A LONG PIE

It was her first attempt at cooking, and when her husband came home he saw a very long pie on the table.

"Whatever is that?" he asked. "I couldn't get any shorter rheubarb," she replied.

We are asking that you attend the remainder of the free cooking school and Miss Manchester will tell you how to secure shorter rheubarb, and to do many other things which will make your housework and cooking more pleasant. The school is just across the street from the post office in the Ritz Theatre building.

Miss Beth Blackwell, a Texas Tech student, spent the week-end with her parents, Dr. and Mrs. T. H. Blackwell.

Miss Leona Denson, who is attending Texas Tech this summer, spent the week end with her mother, Mrs. Callie Denson.

Miss Christine Davies, of Bovina, is visiting her aunt and uncle, Mr. and Mrs. Bill Kyle.

THE IMPORTANCE OF FREQUENT DELIVERY OF CREAM

By

BYRON A. BASSEL

State Department of Agriculture

J. E. McDonald, Commissioner

It is very necessary that cream be delivered as often as possible for two important reasons: (1) cream under 4 days old possesses a natural aromatic flavor that is very desirable and which disappears with age; (2) holding the cream too long results in the development of many off flavors which tend to lower the quality of the product. These two points should be discussed separately.

In regard to the first one, that is, the natural aroma and flavor possessed by cream when it is fresh, it is very important that this virtue of the cream be preserved. Butter made from cream less than 4 days old and which has been properly cared for, will possess a distinctive flavor which cannot be duplicated by any means of processing. 4 day delivery coupled with our present method of grading by taste, smell, and sediment tests, would be desirable due to the fact that we would receive the fresh cream with its natural flavor preserved without having any off flavors or odors, and without being grossly contaminated by extraneous matter.

In regard to the second reason for frequent delivery of cream I would like to discuss briefly some of the flavors which develop from holding the cream too long. The discussion of these developed flavors is taken partially from Extension Bulletin No. 109 of the Michigan State College of Agriculture.

High Acid or Rancid Cream: Such cream is very sour and often bitter in taste. It is caused by use of unclean milk pails and dirty separator, by lack of proper cooling, by mixing warm and cold cream together, or by holding at a high temperature.

Yeasty or Foamy Cream: Such cream has a characteristic yeasty pungent smell and fluffy, foamy body. This defect is brought about by uncleanness, by failure to hold the cream at a low temperature and by exposure of the utensils and cream to dust laden air.

Cheesy Cream: Cheesy cream has the taste and smell of an aged cheddar cheese. Such flavor in cream results from unclean utensils, dirty separator, low butterfat content and to holding the cream for a long period of time.

Bitter Cream: Bitter flavor may result from storing cream at low temperature for a long time or may be a flavor carried over from the milk.

Tallowy Cream: This flavor results from unclean production and holding for a long period of time at a low temperature and especially in the presence of light, particularly the direct rays of the sun.

Fishy Cream: This flavor develops in cream held for a long time at a low temperature and is very objectionable.

Many cream producers have the mistaken idea that holding cream for a long period of time tends to increase the butterfat content. It is true that the butterfat test on a batch of cream held over a period of time will be higher, but this increase in test is due to the evaporation of moisture from the cream and does not mean that the butterfat content is any greater. The butterfat content will remain the same, although there will be a variation in the weight of the cream itself due to evaporation. Delivery as often as possible, at least every 4 days, will pay the producer dividends because his cream reaching the market will be of high quality and in such condition that a true representative butterfat test can be made on the same.

Slaton Plans Big July 4th Activities

Plans for a gala fourth of July celebration at Slaton are rapidly nearing completion, as various clubs and organizations work out the details of a gigantic parade of floats and individuals, a full day of varied entertainment, and a historical pageant at night. A system of prizes has been announced whereby the best decorated float in the parade will receive a prize of \$50, the second best \$15, and the third best \$10.

The pageant, which will begin with the arrival of Miss Columbia and the dance of her attendants, and go on through the Spirit of '76, the Westward March of Civilization, Reflections of the Civil War, about six episodes of Texas, the Land of Romance, and a grand finale of Time Marches On, will also offer a chance at cash prizes. First prize of \$25 will go to the best rural episode, second prize of \$20 will go to the best Slaton episode, and a \$5 prize will be given to the best costume of the pageant.

A carnival queen will be chosen to reign over the festivities from Slaton or one of the surrounding communities. A young lady will be chosen from among several who are now being nominated by the civic and social clubs of the city, and she will compete with representatives of the rural communities for the title of Queen of the Carnival. Votes will be sold at five cents each.

The parade, which will take place in the morning will be led by Uncle Sam and the high school band, followed by the American Legion—originators of the carnival idea—then Boy Scouts, Old Pioneers, Chamber of Commerce float, which will not compete for prizes, and then all other floats. The past part will be divided into the following sections: artistic floats, comic floats, clowns, stilts, wheel barrows, ponies, bicycles, dogs and other pets, the Rhythm Band—a group of child musicians—and doll buggies.

All rural communities around Slaton have been invited to enter floats in the parade, but will not be permitted to display any advertising.

POISON IVY

And POISON OAK, burns or irritations are quickly healed by using BROWN'S LOTION and BROWN'S LOTION SOAP. Itching is stopped immediately. BROWN'S LOTION is highly active as an antiseptic and germicide. For sale by City Drug Store of Spur. First bottle sold with MONEY BACK GUARANTEE.

Mrs. H. P. Pendleton and little daughter, Julia Ann, are leaving today for their home in Borger after visiting here with their mother and grandmother, Mrs. Callie Denson.

Mr. and Mrs. Ralph Sherrill left Sunday for a two weeks visit with relatives and friends in New Mexico and Kansas.

Mrs. Henry Alexander, of the Henry Alexander & Company, is in Dallas this week selecting a new line of merchandise for her company.

Miss Thelma Campbell returned the last of the week from a short visit with her brother near Borger.

Miss Burnice Hungerford, of Commerce, is working in the telegraph office while the local operator, Miss Alice Brashears, is away on her vacation.

Godfrey & Smart

Authorized Ford Dealers in Spur Since 1913

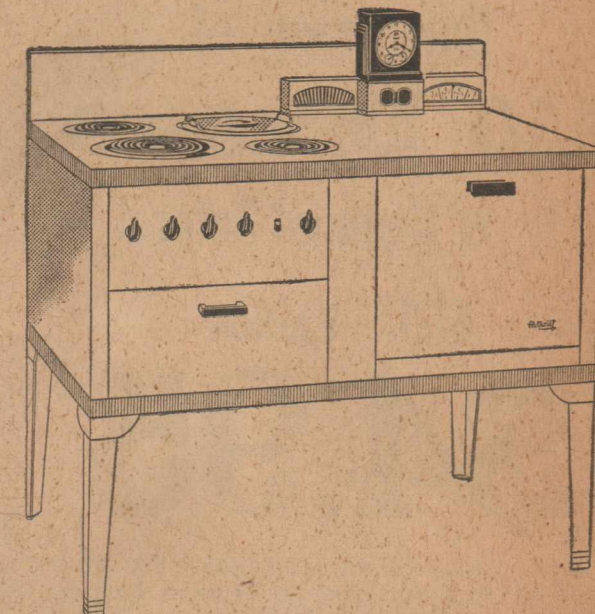

Miss Ilah Manchester, noted Hotpoint Home Economist who is conducting the Dickens County Times cooking school extends her personal thanks for the cordial reception received and the entertainment being received during the cooking school series from the ladies of Spur and vicinity.

Miss Manchester is happiest whenever she has the opportunity to appear before a group of home makers and in her charming way discourse with them concerning the ease of housework by the use of modern electrical servants. "The simplicity and ease of electric cookery is being a vital factor in revolutionizing the home from a house of toil to the modern home of health and comfort", says Miss Manchester.

Through the cooperation of the Hotpoint Range Manufacturers, this Company was enabled to bring Miss Manchester to Spur. It is our sincere wish that these demonstrations prove helpful to you in your home work. Use more electric servants to save time!

Miss Ilah Manchester

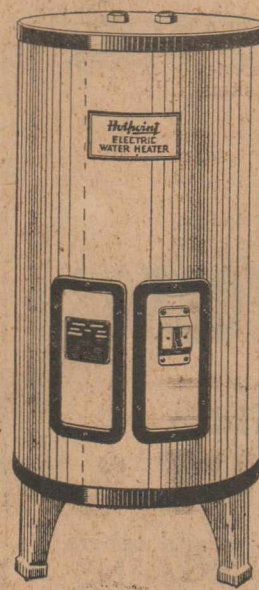

'Thanks You' For Your Presence

MODERN ELECTRIC SERVANTS SAVE TIME

The day that you begin to use the Modern Automatic Electric Range will be an eventful day in your life. Its automatic features and health protecting qualities will mean much to every home from the standpoint of modern living. There is no longer a need to stand over a hot stove all day to do cooking since the development of the electric range. Housewives have begun to realize that the controlled heat of the Hotpoint electric range protects the flavor and vitamins of foods rather than destroying them by any excessive uncontrolled heat.

Investigate the economy of the Automatic Electric Water Heater. It is silent, safe and economical. Plenty of hot water always on tap . . . day or night for every use.

Short Course Plans Are Announced

Every phase of agricultural operations from house to field is included in the program for the twenty-sixth annual Farmers' Short Course to be held at A and M College from July 28 to August 2.

What's more, every subject is tied up definitely with the theme—The Changing Country Life.

The AAA, through its adjustment programs; the Federal Housing Administration, through its encouragement of building and improvement; the work in soil erosion control, are all represented.

Several programs are arranged around the subject of housing. There will probably be one showing some of the details of building and repairing, a program on house planning from the artistic standpoint, and something on storage for the whole farm home.

For making the home more attractive, plans have been made for special programs on home beautification such as control of rose diseases and insects, and soil management.

Special demonstration courses in syrup, fruit juice, cheese, and mattress making, the potting of plants, and the making of purses and moccasins have been planned in which individuals take an active part instead of listening to lectures.

A program on wild game conservation and the place of wild fowls on Texas farms and ranches has been scheduled. Poultry products come in for their share of attention with a demonstration on scoring poultry products to be given by Miss Zetha McInnis, home industries specialist.

According to the new plan being tried this year, each program has been assigned a certain day. On Monday, the day will be devoted to hogs; on Tuesday, sheep; Wednesday, beef cattle; Thursday, work stocks; and on Friday, this special meeting on wild game preservation.

Since AAA discussions have been taking place all over the country, the Short Course committee has planned discussion groups on each commodity. These discussions will be given on the same days that the production program on a particular commodity is given.

Friday morning has been set for the wardrobe contest in which the women will model the dresses they have made by foundation patterns. One whole

Introducing Today's Show-Off

Back in the days when there was less haste, A checkered suit, a diamond of paste, A gay cravat and a limber cane, Such were the marks of a male who was vain.

But now he "struts" in a car with flash He's always out for a crazy dash. His brakes may be worn and out of line But both of his horns are always fine.

He drives like a demon, even though He hasn't a single place to go. He cuts around when chances are slim— Danger to others means naught to him.

He thinks that a "Stop" sign just means "Slow," And jumps the lights before they say, "Go," He shows no quarter to those who walk And thinks that their rights are so much talk.

Many automobile accidents are simply the outcome of showing-off

by motorists, although few if any drivers, after an accident has occurred, would admit their vanity. The statistics of last year, as gathered by the Travelers Insurance Company, reveal that the major portion of all the accidents due to driving errors resulted from hasty, needless and careless action.

afternoon program will be devoted to the dyeing and cleaning of fine fabrics, and other programs will be given over to home improvement, recreation and other subjects.

A banquet has been planned honoring county winners in the bedroom improvement contest. At this banquet the State winners in bedroom improvement will be announced.

A special night program for the boys and girls has been planned when gold star pins will be awarded to the 100 most outstanding club boys and girls will be entertained Wednesday night, July 31, at a banquet in their honor.

In addition to the regular Short Course programs planned by the Short Course committee, special conferences are being planned by the Texas Home Demonstration Association; the Bee Keepers' Association; the Rural Pastors' and Laymen's Conference; the Registered Certified Seed Breeders' Association of Texas; the Texas Agricultural Writers' Conference; the Agricultural Workers' Association; and the Superintendents of Rural Schools.

26 RECRUITS AT FORT BLISS

Military authorities report that 26 recruits went into the Fort Bliss division of the army during the month of May from Arizona, New Mexico and Texas. Of this number Arizona furnished seven, New Mexico six, and West Texas 13. These mostly enlisted in the Cavalry, with a few in the medical squadron and hospital, two for the Hawaiian Islands and one to the Philippines.

Fort Bliss is headquarters for the famous Seventh Cavalry which has seen so much action and has a very interesting history. It was originally organized at Fort Riley, Kans., in 1866, and was part of an expedition

Chapman & Ratliff

Attorneys-At-Law Spur Security Bank Bldg. Spur, Texas

CIVIL PRACTICE ONLY

against Cheyenne and Sioux Indians in Kansas. Five years was spent in scouting and escort work in that section of the country. After the battle of the Little Big Horn in which General Custer and his men were slain, the Seventh Cavalry was very useful in leading various expeditions and scouting the country. It spent three years in Cuba. It spent seven years in the Philippines and has been stationed at Fort Bliss since 1917.

AFTON

Mr. and Mrs. G. A. Benham and family have been visiting in Seymour the past week end.

Wilson Day and family of Huntington Beach, California, and Mrs. Marshall Day and children of Hamlin, are visiting relatives in Afton and Spur.

Miss Gay Nell Cornett of East Afton, is in the hospital at Matador. She was operated on for appendicitis. A number of young people enjoyed a party Saturday night at the home of Dudd Walker.

Mr. and Mrs. Doyle Flud and Mr. and Mrs. Austin Proctor went to the fish hole near Roaring Springs and spent Sunday.

There will be preaching at the Baptist Church here Sunday.

Mrs. Rachel Putman is visiting her parents, Rev. and Mrs. A. P. Stokes.

Miss Lilly Franklin spent last week with her sister at Roaring

Springs. Ruby Brown of Spur, has been visiting Lois Alexander here. Miss Reba Kirby has been visiting in Spur.

FEVER—NOT SPRING FEVER—IN SEASON NOW

This is the season when an increase in undulant fever cases may be expected, according to Dr. John W. Brown, State Health Officer. An undulant fever patient complains of warmth and has fever. There may also be chilly sensations or severe shaking chills and sweats.

Symptoms often continue for a number of weeks before recovery occurs. Fortunately undulant fever has a low death rate. Body temperatures may reach a higher mark each day before, and then gradually return to normal over a period of several days. Fever may be absent for some days and come back again to act the same way as before, registering higher each day and then gradually going lower.

Undulant fever is one of the infectious diseases known to be transmitted from animals to human beings. In cows and hogs, the germ causes a disease of great economic importance known as contagious abortion.

field expedition this summer from July 19 to August 27.

Twenty-three rooms and a D-shaped kiva, the only one of its kind yet unearthed, have already been excavated there by a Tech expedition two years ago. Arrowhead Ruin, which is situated at Arrowhead Tourist camp, two miles east of Glorieta Pass and 22 miles east of Santa Fe, has an elevation of 7,500 feet and is on top of a pine covered hill.

The course consists of lectures, reading, excavation, and restoration. Each Wednesday afternoon will be passed at the laboratory of anthropology in Santa Fe, where Dr. Kenneth Chapman, authority on Indian design, Dr. H. P. Mera, pot shard expert, and

other members of the staff will lecture to the class.

The last week of the term will be passed making tours of existing pueblos and prehistoric ruins, Pueblo Bonita, and Chetro Keti, at Chaco canyon, 40 miles from the Arizona border. The class probably will go to Mesa Verde, Colorado, also.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

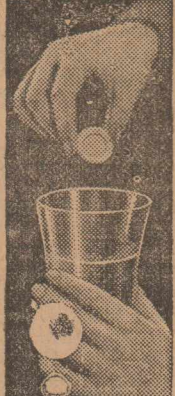

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything.

What makes the food decay in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 1/4 of our food decays in our 23 feet of bowels. This decay sends poison all over our body every six minutes.

When our friends smell our bad breath (but we don't) and we feel like a whipped tomato, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you ask for—25¢. ©1934, C.M.Co.

ON GOALS REACHED
The 12 members of the Dumont

high school girls' home demonstration club are 100% in reaching the three goals in clothing work for the year. They are to make a collar, a slip and a school dress. Ten of the girls exhibited their dresses in the county clothing contest Saturday. Each member has turned in a history of her community or county; that is another goal in this year's work. The first and fourth places in the cooperators' contest Saturday went to

members of this club, Lillian Pense, and Dorothy Scott. Alma Schooler, clothing demonstrator placed third in that division of the county contest.

Much credit for the good standing of this club goes to their sponsor, Mrs. Chan Smith. This is the first club in the county to reach all the goals in any one demonstration 100%.

DEMONSTRATOR GIVES REASONS FOR HER WORK

"I became a clothing demonstrator for several reasons: first, I wanted to learn how to improve my clothes and also learn how to make new clothes; second, I wanted a clothes closet and felt that being a demonstrator I would get one; third, I wanted to keep a record of the clothes I made and

bought including the price, wearing life, and self-satisfaction while wearing them. In this way I may see whether it is cheaper to make or buy clothes ready made," says Juanita Rose, clothing demonstrator for the McAdoo 4-H club and winner of first place in the county in the demonstrators' contest Saturday.

Since I have been demonstrator I have made a collar and cuff set, a slip, a smock, and four dresses. I have learned quite a bit about sewing. Daddy helped me build a big new clothes closet of which I am very proud, for I have wanted one so long. I have enjoyed keeping a record of my clothing and do not mean to stop keeping the record but shall continue it for I find it helps me in the selection of my clothes."

DEMONSTRATOR PLANS AND CARES FOR CLOTHES

"After taking an inventory of my clothing on hand the first of August, I decided to plan for a \$25.00 clothing budget for myself," says Mrs. C. W. Van Cleve, class I demonstrator for the Prairie Chapel home demonstration club in the story of her club work. "I have been very careful in buying clothes so that I would not go over my budget limit. I have learned how to select materials I needed most and the colors I could wear that would harmonize with my accessories."

"I helped to plan and build nine clothes closets, besides my own. My own is built of cardboard over a lumber frame. Having a good closet and a sleeve ironing board helps me keep my clothes neat and well cared for."

WARDROBE ACHIEVEMENT DAY

"I have learned to dress more correctly with less cost," answered Mrs. J. L. Hagins, in roll call of the Duck Creek home demonstration club last Monday when the club met with Mrs. D. G. Simmons and Mrs. Hagins, demonstrators class I and II. The program was given at the home of Mrs. Simmons where she told the story of her work and showed the clothes closets she had built and improved. Then the members went to Mrs. Hagins to see her closet and where refreshments were served.

In the achievement program seven dresses, six slips and three ironing boards were exhibited. Nine dresses and slips have been made for the county contest; five new clothes closets have been built and two others improved; twelve foundation patterns have been made; and five sleeve ironing boards and seven she racks have been made by the club members this year.

Members attending the achievement program were: Mrs. C. R. Bennett, Mrs. O. L. Driggers, Mrs. D. A. Bennett, Mrs. E. E. Hagins, Mrs. D. G. Simmons, Mrs. J. L. Hagins, Misses Cora and Nellie Sue Durham, and Miss Pratt.

CLEANING DEMONSTRATION GIVEN

"Classify your stain spots if possible before attempting to remove them," Mrs. C. W. Van Cleve, wardrobe demonstrator class I of the Prairie Chapel home demonstration club said in a call meeting of her club last Saturday when she gave a demonstration on cleaning at the home of Mrs. R. C. Alexander. "For removing grease and ink use oxalic acid; for ice cream use soap and water; chewing gum may be removed with ice by freezing it until the gum will break off."

A silk dress was washed and ironed showing how wash silk may be cleaned with warm soapy water by pumping the suds through the silk rather than rubbing. Mrs. Van Cleve showed how straw, felt and panama hats may be cleaned.

Those present were Mrs. Paul Brad-dock, Mrs. Leslie Peak, Mrs. Vaughn White, Mrs. C. W. Van Cleve, Mrs. R. C. Alexander, and Miss Lona Mae Barrington. Miss Alma Hale was a visitor. —Reporter.

CLUB HAS PICNIC
ACHIEVEMENT PROGRAM

Six girls of the Dumont Junior 4-H club, their sponsor, Miss Dale Brewster, and Miss Pratt had a picnic lunch before their achievement program Wednesday. Seven of the eleven girls in the club have made their school dresses; and all 11 have turned in collars and slips. Ten have written a history of their community or county. The dresses were modeled in the women's club in the afternoon.

Those present were Geneva and Bama Nell Smith, Captiola Bohner, Theatus Rogers, Agnes Pense, Edna Erle Thomas and Miss Dale Brewster. —Reporter.
