

# A WEST TEXAS PAPER FOR WEST TEXAS PEOPLE

# Dickens Co. Times

VOLUME 11

SPUR, DICKENS COUNTY, TEXAS, THURSDAY, AUGUST 8, 1935

WHOLE NUMBER 522

## Relief Office To Be Moved To Crouse Building

The relief offices for Dickens County which have been located in the K. P. Hall will be moved in a few days to the Crouse Building on the corner of Burlington and Second Street. The warehouse will also be moved this point, all the relief work being consolidated into one building. The personnel has been reduced to four people and the office will be under the director of W. E. Inmon, district TB supervisor for the Texas Relief Commission with headquarters in Lubbock.

Mr. Inmon was in Spur Tuesday afternoon for a meeting of local relief officials and announced the changes at that time. He stated that this was a part of the Commission's program of retrenchment and economy. A major portion of the relief rolls are being transferred to the WPA rolls, which also has district headquarters in Lubbock.

Other high officials who attended the meeting were Miss Thalia Parwer, who is district case supervisor, and T. P. Metcalf, who is the district commodity distribution agent.

Miss Evelyn Richter, who was case supervisor for this district, has been transferred to Plainview district as case supervisor.

## Spur High Football Camp Opens Aug. 20

Coach G. B. (Blackie) Wadzeck left Sunday to the Texas Tech Coaching School at Lubbock. Before leaving Coach Wadzeck stated that the annual football camp would be held at the Chas. A. Jones Stadium from August 20 through August 31. Coach Wadzeck will return to Spur last 18th and complete arrangements for the camp to begin two days later.

Coach Wadzeck issued the following statement regarding camp: "Every boy that has hopes of playing football this year is asked to report at Jones field on the afternoon of August 19th. Bring your beds, a knife, fork, spoon, plate, cup and towel. The camp will break up Saturday August 31st. We are asking every boy to bring what he can for eats—eggs, chickens, a side of meat, can goods, or anything that you might eat at home during that time. If you had rather pay in your part in money bring what you can. If you can't bring anything, come on anyway. YOU ARE WELCOME and we will be glad to have you with us."

In discussing prospects for 1935 Coach Wadzeck stated that the team lost eight letter men but that he has hopes of placing a representative team on the field. With a nucleus of nine letter men headed by Captain W. A. McCombs, end, Francis Bingham, end, Ivan Perkins, tackle, Lanier Gilbert, tackle, Kit Heffner, guard, W. P. Foster, guard, Buck Wilhoit, guard and center, Garlan Chapman, half back and Charles Suits, half, to start with Coach expects to fill in with last year's reserves and some highly prospective new men.

The outstanding new prospect is Iworth Hahn, a rugged fast boy with plenty behind it. If this boy comes through, as it looks like he will, it may go a long way on a winning team. It is the belief of those in close contact with the prospects that before this football season is over you will hear the name of Harralson plenty. Wait and see what we mean.

Other strong candidates are "Red" Garner, Claude Drennin, Buck Martin, Pershing Lee, Victor Arrington and Gus Meadows. There are others expected to be out for camp that have not been contacted. In addition to the ones mentioned above, prospective candidates and potential stars are:

Bill Hahn, Bob Harrell, F. O. Britton (the Spur Ice Man), Woodrow McArthur, J. L. Hutto, "Fuzz" Martin, Coy Doston, Jr. and Cravy, back field men. Prospective linemen are: Pete Wilhoit, Jim Bumpus, Faulkner, George Murphy, Bill Caraway, Bill Sandlin, Rogers Bingham, Ralph Leighton, W. Williams, Jack Ensey, Taylor, J. W. Holloway, V. Hairgrove, C. Gilmore, Spencer Lisenby, James Culbert, Sherrod Dunn, and W. S. Carlisle in addition to those already mentioned.

Then there are a number of new transfers that have not been listed, that have possibilities. Coach Wadzeck wishes to extend a special invitation to these boys to attend the training camp where fundamentals will be stressed.

## Implement Dealers Prepare For Feed Crop

Implement dealers of Spur are preparing for the large feed crop to be harvested in this territory this year. Riter Hardware Company received a carload of J. I. Case binders last week and have been demonstrating them to their customers.

Bryant-Link Company received a car of John Deere binders and a car of John Deere tractors last week, and they are now demonstrating.

The Engleman Truck and Tractor Company has received a car of binders and more tractors for their customers in this trade territory. Engleman sells International Harvester Company products.

SPUR'S QUEEN AT BLANCO

Mrs. Newton Bingham, who will represent Spur at the meeting of the West Texas Old Settlers' Association at Blanco Canyon next Thursday and Friday. Mrs. Bingham comes from one of the oldest families in Dickens County. Eight towns will have queens at the meeting.

## Another Dry Goods Store For Spur Soon

A lease has been secured for the first floor of the Wendell Building just north of the Spur Security Bank and another big dry goods store for Spur will be opened in it soon. T. J. Seale and others are fitting the shelves and fixtures at this time which will require several days. There are some boxes filled with merchandise in the building at this time and soon other shipments will be received from eastern markets until the stock has been completed.

Edward Thomas, formerly of New York City, is going to be in charge of this store. In speaking of coming to Spur Mr. Thomas said that he is delighted with the situation and it is just the town in which he wants to live. He stated that he wanted to get away from the big city jams where people have to live many stories up in the air and have no opportunity for recreation. Mr. Thomas has a family and is looking for a house either to rent or to purchase.

He has had many years of experience in the mercantile business and stated that he expects to do business on an honest basis. He plans to open the store to the public about August 14, or thereabouts. Watch for further announcements in regard to the opening date.

## Gold Star Boys And Girls Honored

Lizzie Lou Baxter, Rudolph McLaughlin, and Earl Van Meter, Dickens County's Gold Star girl and boys, were honored with the 100 Gold Star girls and 100 Gold Star boys in the state at a banquet given by the Farm and Ranch at the Short Course last Wednesday evening. The banquet was held in the Mess Hall Annex with the boys and girls and their agents as guests.

Following the banquet the boys and girls and their agents marched to the stadium where they were introduced by counties. Miss Horton, Vice-Director and State Home Demonstration Agent, explained the meaning of the significance of the Gold Star. Gold Star pins were presented to the girls and boys.

This honor comes as a result of outstanding club work in 1934. The 200 boys and girls were selected from the 29,672 boys and girls who did club work in Texas last year. Dickens County should be proud of the three she held in this group.

## Two Men Taken Into Custody

Two men recently decided they would secure money in Spur on easy terms. Hence they began to forge checks and were able to get away with a few dollars. Bryant-Link Company secured one of the checks, Riter Hardware Company took one, Bailey Food Store obtained one and the Spur Wrecking House secured one as a souvenir.

The Sheriff's department became interested in the project and soon had one of the men in jail at Dickens. The other one was apprehended at Hart, Texas, and he was thrown into the shady nooks of the county hostelry the last of the week. Both men are being held to await action of the grand jury which meets August 19.

Forging checks is one of the best and easiest ways to get into trouble. The checks are all the evidence that is needed in any court. Any one desiring to get into jail and easily do so by forging a check and they can rest assured that they have produced enough evidence at the same time to convict them.

Mrs. J. L. Rosamond, of Bryant-Link Company, left Sunday for eastern markets to buy a stock of merchandise for that store here.

Mr. and Mrs. M. C. Golding, of B. Schwarz & Son, left Sunday for Dallas, St. Louis and other markets to buy new merchandise.

## Local Demonstrators Baptist Revival To Receive Honorable Start Sunday Mention

Mrs. C. W. Van Cleve, Prairie Chapel, and Mrs. J. L. Hagins, Duck Creek, wardrobe demonstrators class I and II respectively, received honorable mention in the state contest when the winners were announced at the Short Course Friday morning. There were 88 women who entered the state contest for class I demonstrators and 53 in the class II group.

The three state winners in each group received a Maytag washing machine, Singer sewing machine and set of silver. Then six or eight were selected from each group for honorable mention because of their outstanding work.

Mrs. Hagins received honorable mention in the state in class I two years ago. It will be remembered that Mrs. R. C. Alexander, Prairie Chapel received first place in the class II group last year and received a Singer sewing machine.

## Meeting Called To Discuss Old Age Pension

A meeting has been called for Saturday, August 17, at ten thirty o'clock, at the Palace Theatre for the purpose of discussing the merits of the proposed amendment in regard to Texas providing for an old age compensation. There will be speakers provided for the occasion and it is hoped there will be a good attendance. There are many people who are greatly interested in this subject and who will be glad to hear the question discussed.

## OUR OPINION IS

That the poorest boss is he who tries to exhibit the greatest authority.

George Gabriel, Carl Proctor and Ramza Gabriel left Sunday for New York where they will buy a stock of new merchandise for the new store being installed in the Wendell Building. Mr. Thomas, an uncle of Mr. Gabriel will be manager for the new business.

## Baptist Revival To Start Sunday

A revival begins next Sunday morning at the First Baptist Church. Dr. Ewton, the pastor, will preach both Sunday morning and Sunday evening as the regular evangelist will not arrive until Monday.

The church has secured Rev. O. K. Webb, of Memphis, who will do the preaching for the revival which will continue two weeks. Rev. H. Virgil Reynolds, of Abilene, will be in charge of the song services. Services will be held each morning at ten o'clock and each evening at 8:15 o'clock.

Rev. Webb is one of the big preachers of West Texas. The people will enjoy his messages. Rev. Reynolds is one of the most accomplished musicians and song leaders in all the southwest.

Services each evening will be held in the open air on the lawn just east of the church building. Good lights and comfortable conditions are provided at that place. The morning services will be in the church auditorium, which is a very pleasant place during the morning hours. The church extends an invitation to all to attend these services.

## Public Hearing On County Budget

Notice is hereby given according to the 1925 Civil Statutes that a public hearing will be given on the County Budget for 1935 in the County Judge's office in Dickens, Friday, August 16, at ten o'clock a. m.

JIM CLOUDET, County Judge.

## REPRESENTING ACC IN SPUR

J. W. Treat, one of the instructors in Abilene Christian College has been here this week representing that institution to the people and talking with prospective students. Monday evening Mr. Treat gave a moving picture representation of the campus activities, buildings, etc. at the Church of Christ. He stated that parents who send their children to Abilene Christian College may rest assured that the best of training and Christian environment will be given them. A number of high school graduates in this section have signed up to attend ACC next term.

## CAP-ROCK SOFTBALL LEAGUE

The Cap-Rock Softball League played games Friday of last week and Monday of this week. Spur and Dickens remained undefeated after the two games. The results are as follows:

Friday—Spur 14, Jayton 6 at Jayton. Dickens 8, Roaring Springs 5 at Dickens.

Monday—Spur 7, Girard 6 at Girard. Dickens 7, Jayton 6 at Jayton.

Team	STANDING OF TEAM			Avg.
	GP	GW	GL	
Dickens	2	2	0	.000
Spur	2	2	0	1.000
Girard	1	0	1	.000
Roaring Sprgs.	1	0	1	.000
Jayton	2	0	2	.000

Games were played last evening at Spur and Girard. Spur will play at Dickens and Girard at Roaring Springs Friday evening. Roaring Springs will go to Jayton and Dickens will be at Girard next Monday.

Standings each week are for games played through Monday.

## About Old Age Pensions The Amendment

(An Editorial)

The proposed Amendment to the Constitution of Texas which gives the State Legislature authority to provide for an old age pension bill is the first at the top of the list of the ticket for the voters to decide. This Amendment provides for a pension not to exceed \$15.00 per month for all persons living within the state who are 65 years of age or more. The Amendment excludes criminals, inmates of state institutions, etc., which the state is now taking care of.

There are said to be approximately 230,000 people in Texas who are of that age. However, it will be remembered that persons who receive the pension must not have enough reasonable support to care for them, and on account of this provision there will be a great number of aged people who will not ask for a pension on the basis upon which it is to be provided.

It might be well to consider this Amendment in a favorable light. The federal government, which has been spending around \$35,000,000 annually in Texas to take care of those needing help, is withdrawing from this program and it will be only just a few weeks more at best until the various counties and cities in Texas will have to take care of the helpless under their jurisdiction. In other words, there is a class of citizens who have labored to rear a family and have not been able to acquire anything to take care of them during the evening of life, and these people will have to be sustained in some manner. Some have children who are doing all they can for their parents often to the neglect of their own families. If the amendment is passed the State can provide for these.

There is another thing which might be considered. The federal government has on the calendar a provision whereby it may soon match any state that desires to pay its aged a pension. If this provision should become a law Texas could not accept its provisions unless this amendment is passed by the people. Some authorities say that \$15.00 per month would mean an expenditure of forty million dollars annually. It is not probable that the amount will be half that much, but whatever it might be, if the federal government proposes to match it, the state should be in a position to accept. The federal government has matched great sums of money in Texas for highway work and thereby furnished means of employment for thousands of workmen. It soon will offer to match sums of money to take care of the aged, and it is going to behoove the citizenship of Texas to be ready to receive these amounts.

Much of the wealth in Texas has been created by people who are now more than sixty years of age. The landmarks of civilization have been set by these people. Why not let these people enjoy at least a mere existence in their old age after they have done so much for our state. There may be some who might not be deserving, but the amendment provides that any one receiving this pension must have been a citizen of Texas for a period of five years of the nine years preceding application for such pension.

As stated above the amendment just gives the State Legislature the power to make provision and regulation for such pension. If the amendment should pass it may be sometime before any old age pensions are provided for. But in case the necessity arises the Legislature then would have the authority should the people approve this amendment.

SPUR BUSINESS MEN ATTEND MEETING AT LUBBOCK

A number of Spur business men were in Lubbock Wednesday to attend a meeting of West Texas Chamber of Commerce Directors and business men. The meeting was called to discuss the old age pension amendment at the school textbook amendment. C. B. Jones, a director, of Spur, was to preside over the meeting. Ray Nichols of Vernon, President, was one of the speakers on the program and D. A. Bandeen, of Stamford, secretary, was present.

A. J. Ritchie, of Croton, made a business trip to Abilene Wednesday.

## What Cotton Meant To Dickens County In 1933-34

While the cotton income of Dickens County farmers was much less in 1934 than in 1933, and even less than in the disastrous year of 1932, it was almost forty-five percent higher than it would have been had there been no adjustment program, it is announced by G. J. Lane, County Agent. The statement is based on official three-year county cotton figures just received from the Agricultural Adjustment Administration.

Dickens County farmers last year received a total of \$525,775.62 for their cotton of which only \$368,123.80 came from market value. Benefit payments, which are designed to help bridge the gap between market prices and parity price in normal years, served as crop insurance to Dickens County farmers in 1934. They received in this way a total of \$157,651.82 through April 30th last.

These cotton income figures do not include the value of unsold Bankhead certificates of which about nine million dollars' worth are held by Texas farmers.

Dickens county cotton was valued on the farm at \$1,204,895.16 in 1932. It increased sharply in 1933, the plow-up year, to \$2,468,853.04, including benefit payments. These values are based upon yields and prices as furnished by the United States Department of Agriculture. The benefit payment includes all those to April 30, 1935.

Commenting on Dickens County income for the last three years as revealed in these official figures, Mr. Lane points out that crop insurance benefit payments for 1934-35 enabled farmers to survive a bad crop year. More than one hundred and fifty thousand dollars more was put into local circulation than would have been possible without a program. It is difficult to see how farmers could have maintained their farms and home and remained customers of merchants left year without the program, he concludes.

## PROPOSED AMENDMENT NO. 4 Submission Of Amendments At Special Sessions Of The Legislature

At present the Legislature can submit proposed changes in the Constitution only at regular sessions—held every 2 years.

Proposal Number four on the ballot for the August 24th election would revise the Constitution to permit the submission of amendments at special sessions. It is pointed out that in emergency cases, particularly on relief matters, that it might be necessary for Texas voters to vote on an emergency measure at a time when the regular session of the Legislature is quite far distant in the future.

The original purpose of the provision which makes submission possible only at regular sessions was to make the fundamental law hard to amend and change. Two schools of thought are at variance here. The one believing that the Constitution should be easy to change—particularly in emergency cases, and the other that every safeguard should be placed around it to make it difficult to change.

If the proposed amendment is adopted the legislature in any special session can submit proposed amendments to the voters—provided such amendments are submitted by the Governor for the Legislature's consideration. If the amendment is rejected the present system will obtain; that is, constitutional amendments can be submitted to the people only at the regular sessions of the legislature.

The 44th Legislature submitted thirteen amendments to the voters—seven in August of this year and six in November of 1936. These were all submitted during the regular session. Under the proposed change the 44th might yet submit additional amendments for the voters' consideration.

## REVIVAL AT ESPUELA STARTS TOMORROW

On Friday night, 9th of August a revival will begin at Espuela Baptist Church and will continue through Monday, August 19th. We are expecting a great revival over there and extend the public a most hearty welcome to come and be with us at that time.

Rev. Jaudon Cobb, of Seminary Hill, will do the preaching. He will bring some wonderful messages. So, if you can, be sure to attend. Thomas Cobb, pastor.

## REVIVAL TO START AT DICKENS

The people are extended an invitation to hear John O. Dowd in a series of meetings at the Church of Christ in Dickens. The services will begin Monday night, August 19th. Mr. Dowd is a forceful speaker and will bring some good messages.

Mr. and Mrs. Henry Alexander left Sunday for Dallas, St. Louis, Chicago and other markets where they will buy a supply of new merchandise for their store.

W. B. Lee, of the Spur Security Bank, returned the last of the week from Austin where he attended a bankers meeting.

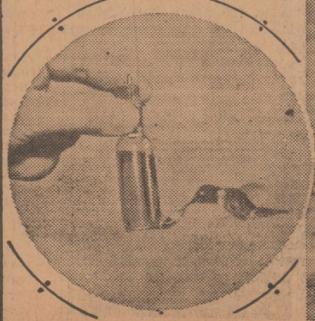

## ODDITIES in TODAY'S NEWS

MAKES GOOD ON HIS THIRD TRY—Tony Piet, formerly with the Cincinnati and Pittsburgh teams, is now making good as regular second baseman of the Chicago White Sox.

DANCING CHORUS of 19 pretty misses from the home office of The Lincoln National Life Insurance Company featured a production staged during the company's thirtieth anniversary celebration in Fort Wayne, Indiana.

WORLD'S SMALLEST BIRD—Is an inch long and flaps its wings at the rate of 6,000 revolutions per minute. It has to be fed from a bottle every five minutes. Its owner is the Hon. Anthony Chaplin of England.

DOGGY LIFESAVER—"Duke" the only Dog Lifesaver in America, on watch. He was taught to take a rope to a person calling to him for help in the water—the other end of the rope is attached to shore.

**SNAPSHOTS**

**THOUSANDS HUNT WILD GOLD**—To help those who help themselves, Joseph E. Meyer, director of the famous Botanic Gardens, Hammond, Ind., will send his Herbalist's Almanac free, telling all who write him, where and how to gather wild-growing medicinal herbs. Worth millions, they are readily marketed. Wanted specimens include: Queen of the Meadow Root used as a tea for lumbago, Wild Plum Bark for asthma, Black Cohosh for rheumatism and arthritis, Peppermint Herb for stomach trouble and many others. Photo shows typical herb-picking scene.

**SILHOUETTE OF WHITE**—Frances Drake, motion picture star, poses as a Spanish dancer. This American girl first attracted attention as a dancer in London, graduated to the English screen and thence to Hollywood.

**EDWIN "ALABAMA" PITTS**, Sing Sing's star athlete, walks from the "big house" a free man. A controversy arises over his future now that the head of the International Baseball League has vetoed the job offered him by the Albany Senators.

**EDDY DUCHIN SELECTING THE "STARS OF TOMORROW"** FOR RADIO FAME—Youthful members of the famous radio Fire Chief Orchestra and two assistants shown here selecting applicants for vocal auditions on the Texaco National Open audition contest during Duchin's coast-to-coast personal appearance tour with the Fire Chief Orchestra. Amateurs and professionals will be selected on the weekly program.

Officials of the Royal Lions Auto Club of Stockbridge, Mich., look over the Oldsmobile knee-action just before naming the Oldsmobile as the "Car of the year" and "Official Car" of the club. The club is an organization of 303 high school boys for preparing themselves for important places in the automobile industry. While General Manager Harold Mayer explains the knee-action principle, one of the boys crawls under the car to examine it for himself.

**INCOME TAX RECEIPTS GAIN 34 1-2%; A 14-YEAR RECORD**

Internal revenue collections broke all records for 14 years during the fiscal year which closed June 30, according to the latest Treasury Department report. Taxes paid amounted to \$3,299,435,574, the largest since the 1920-21 fiscal year when, due to the continuation of war-time incomes and

excess profits taxes, collections aggregated \$4,500,000,000.

The 1934-35 collections showed a gain of \$627,196,378, or 23 per cent over the year 1933-34. The largest single source of revenue in the year just closed were income tax collections. They yielded \$1,099,280,382, as compared with \$817,025,339 the year before, a gain of \$282,255,043, or 34 1-2 per cent.

More than 60% of income tax increase was due to improved collections under the corporation income tax.

These amounted to \$572,117,876, a gain of \$174,602,024 over the year before. Individual income tax payments amounted to \$572,117,876, an increase of \$107,603,018. Liquor taxes in the 1924-25 year totaled \$411,021,772, as compared with \$258,911,332, a gain of \$152,110,440. Processing taxes showed a gain of \$154,799,472 during the fiscal year and cigarettes alone in the tobacco group a gain of \$36,000,000.

Actuaries estimate the increase of 282 millions in payment of income taxes indicates increased national income during the past year of nearly six billion dollars.

L. E. Bass, of McAdoo, was attending to business matters in our city Monday. He reported conditions all right in his country.

C. R. Gunn, of Soldier Mound country, was greeting the boys and attending to business affairs in our city Monday.

Last week we forgot to report the arrival of a new girl at the home of Mr. and Mrs. Mack Gilbert on Friday, July 26. The little one has been named Kathleen and soon will be telling other members of the family just who needs attention.

**Utilize Texas Feeds On Texas Farms**

For many years Texas has been sending about a million head of range raised calves and yearlings to the corn belt every year to make a market for the corn belt farmers' feed and to put the fertility back on corn belt farms. Also a million or more lambs went to the feed lots of those states. Beginning in 1928, a concerted effort was made by the Breeder-Feeder Association to encourage the feeding of as many of the Texas raised calves, yearlings and lambs as possible on Texas raised feeds. Since that time it has been definitely proved that Texas farmers can feed Texas cattle and lambs to as good finish on Texas grown feeds as they can be finished anywhere.

For the past two years, on account of the low price of livestock and the drought very little feeding has been done. From one of the shortest feed crops ever raised in 1934, we have jumped in 1935 to probably an all-time record of feed production. Just what is to be done with this feed is quite a problem and recently a meeting was held in Dallas at which H. H. Williamson, Director of the Extension Service, A. and M. College, and representatives of a number of organizations directly interested in farm and ranch prosperity with the result that Mr. Williamson returned to College Station and immediately got out a letter to every county agent in this state, instructing them to call meetings immediately in their counties with the idea of utilizing the surplus, insofar as possible, in the fattening of cattle, sheep, hogs and poultry on our own farms where the feed is raised and conserving as much of the balance as possible against another drought or other disaster.

**JUNE LIVESTOCK SHIPMENTS INCREASE**

A moderate increase was recorded in livestock shipments from Texas points to Fort Worth stockyards and interstate points during June as compared with the similar month last year. Forwardings totaled 4,465 cars against 4,182 cars a year ago, an in-

**SUNDAY DINNER Suggestions**

By ANN PAGE

A HOT beverage, first course or dessert will do much to make a cold main course attractive or, if the main course is to be hot, a cold first course beverage or dessert is desirable while the weather is hot. The new consommés jelly when chilled but may equally well be served hot. The abundance and cheapness of fruits make fruit cups a good beginning or ending to a summer dinner. There has been little change in the cost of foods during the past week except that lamb and some poultry are lower and beef a bit higher.

Newcomers in the fruit market are currants, gooseberries and seedless grapes. Apricots, plums and pineapples are more plentiful. Here are three menus made up from reasonable foods adapted to different budget levels.

- Low Cost Dinner**
  - Cold Cuts Green Corn
  - Tomatoes
  - Bread and Butter
  - Tapioca Cream
  - Tea or Coffee Milk
- Medium Cost Dinner**
  - Jellied Consomme
  - Lamb Chops Parsley Potatoes
  - Creamed Carrots
  - Bread and Butter
  - Stewed Plums
  - Tea or Coffee Milk
- Very Special Dinner**
  - Bouillon
  - Cold Roast Lamb Vegetable Salad
  - Sliced Tomatoes Mint Jelly
  - Bread and Butter
  - Peach Shortcake
  - Coffee

**OLD-FASHIONED SIMPLICITY**

TELEPHONE SERVICE in this country is modern. It leads the world. Yet there is an old-fashioned simplicity about the Bell System. This applies to capital structure and financial methods as well as to the nationwide plan of decentralized operation under centralized control.

The American Telephone and Telegraph Company has only one class of stock and that stock is not watered.

It has 675,000 stockholders living in every corner of the land. Their average holding is twenty-eight shares. No individual or organization owns as much as one per cent of the stock. There are no secret reserves or hidden assets.

This structure is not of recent origin, but dates back many years to the early days of the telephone. It has lived on because it is right and in the best interest of the public. It has been fundamental in making the Bell System a distinctive American business.

In the Bell System, the American Telephone & Telegraph Company is the parent company, and operates the long distance lines connecting the 24 regional Bell companies. Bell Laboratories carries on the research work; Western Electric manufactures, purchases, and distributes.

Without this specialized organization back of the men and women of the Southwestern Bell, telephone service might be possible. But it could not be service as uniformly good, as quietly accurate, as far reaching, and as inexpensive as the service you know today.

**SOUTHWESTERN BELL TELEPHONE CO.**

**AUTOMOBILE ACCIDENT PROBLEM CHALLENGES THE AMERICAN POLICE**

**Enforcement, Says Lieut. Kreml, Director of Bureau of Accident Prevention of Evanston (Ill.) Police Department, Must Lead Offense on Reckless Use of Streets and Highways.**

**ATTACK CALLED WEAK**

"Automobile traffic challenges American police today," says Lieut. Frank M. Kreml, director of the bureau of accident prevention of the Evanston (Ill.) police department, in the booklet "Thou Shalt Not Kill," published by the Travelers Insurance Company. "More insidious than vice, a far greater threat to security than crime, these accidents continue to multiply, because the attack made upon them is weak and dilatory," he adds.

"That this deplorable accident record can be improved," he points out, "has been demonstrated again and again by a score of American cities and states. Moreover, the police must take a positive position of leadership in the movement for prevention is beyond contradiction."

Lieut. Kreml asserts that "enforcement, that weapon peculiar to the police, has proved to be the keenest and strongest weapon available in this fight. In those jurisdictions where enforcement is being used fairly and yet vigorously in combating this problem, the accident rate has decreased. Decreased, in fact, in almost direct but inverse ratio to the enforcement rate.

**LIEUT. FRANK M. KREML**

"Thus, the proof that 'accident' and 'Act of God' are not synonymous lies in our hands, rusting from disuse, while we cast our eyes about in search of 'solutions' in the nature of a miraculous deliverance. With enforcement we must lead the offense on high speeds, reckless and drunken driving, admittedly among the leading factors in the repeating tragedy which we term our annual traffic accident casualty toll.

"We, the police of America, must accept this challenge if we are to perform our simple duty and if we are to continue our march forward to higher professional standards. The protection of human life on the street and highway is not only our responsibility but also our opportunity."

(Lieut. Kreml has made an outstanding record in Evanston, Ill., where the rate of death from automobile accidents has been reduced far below the average of most American cities and towns and for the country as a whole.—Editor's Note.)

crease of 7 per cent. "The greatest increase occurred in shipments of sheep, 586 cars against 449 cars last year, an increase of 30 per cent; followed by cattle, 3,197 against 2,861 cars, up 12 per cent. Shipments of calves totaled 507 against 505 cars, practically no change. Hog forwardings dropped 52 per cent from 367 cars a year ago to 175 in June of the current year. Aggregate forwardings during the first half of 1935 were 29,473 cars against 28,255 cars during the corresponding period last year.

"Shipments to the Fort Worth market were characterized by a sharp drop in the number of hogs and an equally marked rise in the number of sheep. Los Angeles received about one third as many Texas cattle and hogs as in June last year, while a sharp increase occurred in shipments of cattle and no forwardings whatever of sheep were made to points in California other than Los Angeles, just the reverse of a year ago. Substantial increases occurred also in shipments of cattle—other than the large markets—to Colorado, Illinois, Kansas, Oklahoma, Iowa, Indiana and New Mexico, and of sheep to Colorado, Kansas, Missouri and Indiana.

"Districts of the State showing substantial increases in forwardings of cattle in comparison with June last year were: East Texas, Trans Pecos country, South Texas and the Coastal Prairies."

### NOBODY'S BUSINESS

By JULIAN CAPERS, JR.

Austin.—Members of the forty-fourth legislature, who were criticized bitterly for their failure to enact much of the new tax program advocated when the session convened, took comfort from the action of the state automatic tax board in fixing the state tax rate for 1936 at 62 cents, a cut of 15 cents from the present maximum constitutional rate of 77 cents. Excellent condition of the school fund permitted the reduction, this fund absorbing all the cut. The auditors showed the anticipated Sept. 1 balance of the school fund to be \$2,678,978 with an estimated income for the new year of around 22 1-2 million dollars. The board anticipates a

net deficit Sept. 1, 1935, of about 7 1-2 millions, but the estimates are ordinarily pessimistic. The actual figures closely approximate the summary published in this column last January, which were used as a basis for the statement that no large sum of revenue from new or higher state taxes were necessary.

The Works Progress Administration newest baby of the federal alphabetical agency family, is the center of interest among public officials of Texas today. Through it, the government hopes to get employable relief workers permanently off relief, and back on payrolls. In Texas, 140,000—25,000 women and the remainder men—will be eligible for the work. Political minded local officials have been quick to see in WPA projects a golden opportunity, and they are going after the liberal federal grants vigorously.

The extent to which Texas benefits permanently from the enormous spending of tax money which the WPA program involves, depends upon

how closely local officials observe—or are forced by H. P. Drought, state WPA director, to observe—one provision of the law, which says that all approved projects, whenever "practical and feasible", shall be done under the contract system.

If contracts are let on construction, road building and similar WPA projects, under which responsible contractors post bonds guaranteeing to complete the jobs at stipulated prices, using relief labor, of course, local communities will finish the program with many roads, buildings, sewage disposal plants, and other permanent improvements, paid for out of the huge federal relief appropriation, that will serve them for generations to come. If, on the other hand, local authorities are unwilling to be satisfied with the political capital they can make by obtaining liberal WPA appropriations for their communities, but are greedy and want to parcel out the jobs on a day labor basis for political purposes, the Texas landscape is almost certain to be decorated for years to come with the skeletons of half-finished projects which will do no good for anybody except the people who collect wages for a few weeks or months.

The efficacy of the contract system, as opposed to the political force-account system, was beautifully demonstrated last year by the U. S. Bureau of Public Roads, which had a \$200,000,000 road building appropriation to spend, and made an actual test in every state in the union. Thomas H. MacDonald chief of the bureau, testified before a house committee that the 48 test jobs, where a contract job and a force-account job were done side-by-side in every state, showed it cost an average of 30 per cent more to build roads by the political system than it did by the contract system. Citizens and editors who hope to see their communities profit by the WPA program should investigate the method favored by their local officials before the money is spent.

Col. E. O. Thompson, chairman of the railroad commission, is a master of gentle sarcasm. He likes to exercise this gift when he takes the opposite view to that of public utility officials, as he frequently does. At the recent hearing in Austin to fix an allowable gas production for Texas wells, following enactment of the law to halt gas waste, a gas company attorney was cross-examining "Cap" Stanley, ex-chief of the commission's oil and gas division. Stanley had filed a long and technical affidavit, containing his findings concerning gas potential in the Panhandle field. It disagreed with the claims of the gas companies, and the attorney tried futilely to get the attorney to admit the affidavit meant certain things that it didn't say. Everybody was tired and brood by the cross-examination. Finally Thompson asked Stanley:

"Is the affidavit written in the English language, Mr. Stanley?"  
"It sure is, Colonel," answered Stanley.  
"Well, then," remarked Thompson, "Let's end this cross-examination. If it is in English, as Mr. Stanley says, it is quite possible the commission can read the affidavit, and understand what it means."  
The hearing promptly broke up.

This column salutes John Boyle, of San Antonio, who has proved over and over again that he is the friend

of the press of Texas. He did it when the Texas Senate tried to penalize a reporter who printed secrets that a member of the senate revealed to him, by a brilliant speech in defense of the reporter's right to print news that he had a right to print. Boyle did it again, when he resigned from Walter Woodul's Centennial commission of control, declaring he would not remain a member of a commission that appointed an advertising advisory committee, "without a newspaperman on it." To the press gallery in Austin, John Boyle is the No. 1 hero, and he rightfully deserves to be.

### Plan For Employment

LUBBOCK.—The current Employment Report just issued by Draughon's Business Colleges, of which E. C. Hatton is local manager, shows a long list of young people who have been placed in excellent positions during recent months. Because the students recommended by Draughon's Colleges have been making good for more than fifty years, many firms continue to call Draughon's for help even though they may have many applications on file. A new illustrated booklet called "Planning Your Future" describes the far-reaching methods for placing graduates, training and time required, cost of tuition, etc. Young people interested in good starting positions and opportunities for advancement, should mail Coupon at once for free copy of "Planning Your Future"—showing how we can train and place you, at a saving in time and expense. Address Draughon's Business College, Lubbock, Texas, or see this paper about a Special Scholarship.

### Young Men On CCC Roll Soon

Young men throughout Texas eligible for Civilian Conservation Corps enlistment have been advised by State Enrollment Supervisor Neal E. Guy to make themselves known to their county administrators if they are interested in being among the 16,000 to be enrolled by August 31. Guy advised county administrators of their quotas and asked that they examine their relief rolls for probable enrollees, with the possibility that quotas will be increased when administrators show enough CCC candidates to warrant.

An eligible candidate is any single man between 18 and 28 whose family is on the relief rolls.

While administrators were asked to search their rolls for probable enrollees, Guy suggested that the young men themselves notify their administrator if they are eager to enroll in the CCC.

Approximately 14,000 Texans are to be enrolled by August 31, with about 16,000 expected to be sent to out-of-state camps, Guy said. Out-of-state assignments are made because Texas camps already have their quotas, while camps in some of the other states have not, he explained.

### Transferring From Relief Rolls To WPA Rolls Going Forward

There are approximately 140,000 employable Texans on the relief rolls eligible for employment on Works Progress Administration projects, it has been revealed by the Texas Relief Commission.

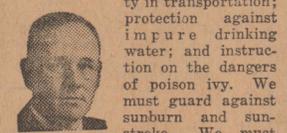

Of these, 115,000 are men and 25,000 are women. The job of transferring these from the Emergency Relief Administration rolls to the WPA rolls where they are expected soon to obtain work on projects created through the \$4,800,000,000 works fund, \$50,000,000 of which has already been allotted to Texas, is now

#### YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND  
Director, Physical and Health Education  
New Jersey State Department of Public Instruction

### Picnic Time

Spring time is picnic time. No call will bring children so quickly. In their enthusiasm is our opportunity. We must provide for safety in transportation; protection against impure drinking water; and instruction on the dangers of poison ivy. We must guard against sunburn and sunstroke. We must know the hidden threat of the swimming hole. Only by the utmost care, can we be thankful at the end of the day that nothing serious has happened. For days in advance, the children can be discussing the above topics and planning their own protection. No better educational device is known.

"Eats" is the big question when talking picnic. Here is the supreme occasion for getting across the ideal picnic luncheon. Plan it carefully as any meal. A thermos bottle of cool milk; tomato and lettuce sandwiches; cup custard; fruit; a cake dessert. Teachers should plan their lessons on foods for the month preceding picnic time. Bring out all the values in the picnic luncheon. Such opportunities furnish the motives for health education.

How to implant proper eating habits in children will be the subject of Dr. Ireland's next article.

## Culinary Jingles

by Marcia Camp

Now since with ease  
Desserts that please  
You too can freeze,  
Why not reform to-day?  
You only need  
This rule to read,  
Then quickly speed  
And get one under way!

which makes this ice cream so full of character. Of course they must be prepared by scrubbing, soaking in cold water until soft, and cooking to tenderness in the same water, which should be sufficient in quantity to furnish plenty of juice.

APRICOT MARLOW  
16 marshmallows ¼ cup orange juice  
¼ cup apricot juice ¼ pint whipping cream  
¼ cup pureed apricots

Steam the marshmallows with the apricot juice until they are melted to a smooth blend. Add the apricot puree and orange juice and cool. When cold and slightly stiffened, combine with the stiffly beaten cream. Pour into containers and freeze without stirring. The remainder of the fruit and juice, put through a sieve together and slightly sweetened if desired, makes a delicious sauce for this marlow. Chill the sauce thoroughly before serving. It is not necessary to use whipping cream for a perfect marlow. Day-old coffee cream which can be beaten stiff is equally satisfactory.

WHAT WOMAN doesn't thoroughly enjoy serving a dish at a party, whatever the occasion, which makes her friends a little jealous because they didn't discover it first? Sometimes it may be a salad, sometimes a main course; quiet often it is tricky little hors d'oeuvres; but this time it will be a dessert—one of those delectable frozen desserts called marlows because their most important ingredient is marshmallows.

An apricot marlow for choice—rich in flavor, velvety in smoothness imparted by its base marshmallow base, it will never be suspected of being anything but a product of the hostess's resourceful skill. Though a good many who eat are likely to marvel that anything so creamily perfect could be produced by a mechanical refrigerator—as of course it couldn't, without marshmallows. But they will never suspect the presence of the marshmallows unless you are charitable and explain that anybody can make a perfect marlow, and why.

The woman who uses an ice cream freezer can save the bother of agitating, by using this method. Perfect ice cream may also be made in a mold packed in an ice-salt mixture. Be sure to cover it tightly and seal with adhesive tape.

If you prefer you may use canned apricots and their juice in this recipe, but dried apricots have in greater degree that tangy, biting flavor

in full swing in the county administrators' offices throughout the state, Mrs. Val M. Keating, social service director, has announced.

Twenty district supervisors are in the field assisting county administrators in certifying the employables and coordinating the transfers.

Certification of employables to the WPA rolls is expected to be completed in about a week, giving a pool of 140,000 persons for the WPA to draw from for its projects.

A person eligible for employment on WPA projects is defined as one

capable of working who is now on the relief rolls and is registered with the United States Employment Service.

Mrs. Keating has directed the 20 supervisors to cooperate with the county administrators in certifying the employables and making prompt transfers.

J. W. Smith, of near Dickens, was attending to business affairs in our city Saturday.

Mr. and Mrs. Elmer Rogers, of Croton, were in our city Saturday doing some trading.

## Your Twine is Here!

### McCORMICK-DEERING

And what twine it is! It came from International Harvester's modern American mills, where skilled workers combined the best fiber and the latest twine science to assure you twine satisfaction. It is wound in the "Big Ball" with the patented cover for your convenience and treated against destruction by insects for your protection.

We have plenty of this good McCormick-Deering "Big Ball" Twine to go around—and there is more where this came from—but, even so, it is a good idea to come in and get yours and solve your twine problem for this season.

Nearly any binder will do better work when its needle is fed this smooth, uniform McCormick-Deering "Big Ball" Twine. A phone call will reserve your supply.

### Improved Condition of Agriculture Is Revealed by Impressive Figures

To Buy This	The Farmer Pays Today	And Paid Two Years Ago
 Gas-Powered Washer	117 Bushels of Corn	712 Bushels of Corn
 New Low-Priced Car	626 Bushels of Wheat	1455 Bushels of Wheat
 Standard Radio	15 90 lb. Hogs	21 90 lb. Hogs
 Farm Tractor	59 1200 lb. Hogs	131 1200 lb. Hogs

The improved condition and increased buying power of the farmer are strikingly revealed in figures just made public by a large agricultural publication. For example, a certain popular sedan, streamlined, costs \$26 bushels of wheat today. The same make, not nearly so good, sold two years ago for 1455 bushels, the yield from two and one-thirds as much acreage. Today the farmer pays fifty-nine 200-pound hogs for a tractor that would have cost him 131 such hogs in 1933.

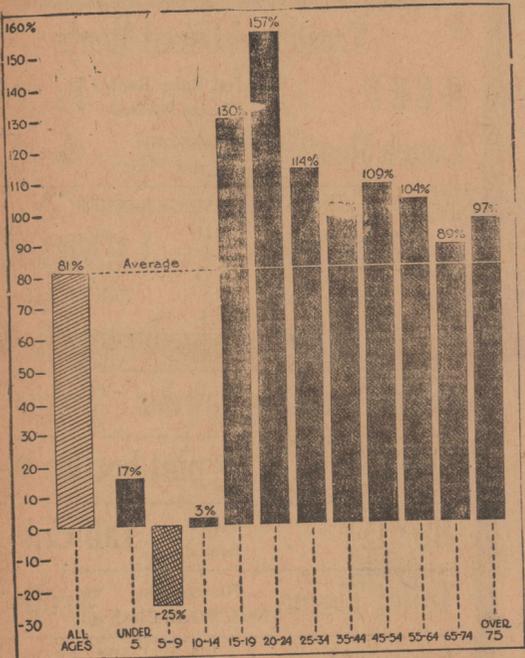

Almost startling is the comparison of prices in the case of a gasoline-powered washer. Two years ago it sold for 712 bushels of corn. Now, improved in various details, it sells for 117 bushels, about one-sixth the 1933 price. So many of us take for granted various circumstances and conditions by which we are constantly surrounded, that only when they are put up to us in some such interesting or different new way as this do we fully comprehend and appreciate what is taking place.

### Federal Land Bank Gives More Service

Farm mortgage loans by The Federal Land Bank of Houston and the Land Bank Commissioner will now be made in cash instead of bonds of the Federal Farm Mortgage Corporation and part cash, as has been the practice for nearly a year and a half. A. C. Williams, president of the Land Bank, announced Saturday. With a ready market for bonds, Mr. Williams explained, there will be no difficulty in selling these bonds and putting the land bank and Commissioner's loans on a cash basis. The Federal Land Bank makes loans to farmers and ranchmen on the security of first mortgages on farm or ranch lands and buildings. Acting as Agent for the Land Bank Commissioner the bank may also make loans to those engaged in farming operations on the security of first or second mortgages on farm property. Recent amendments to the Federal Farm Loan Act and the Emergency Farm Mortgage Act of 1933 have broadened the lending powers of the Land Bank Commissioner so as to include the refinancing of secured or unsecured indebtedness of the farmer, and for the purpose of refinancing indebtedness incurred in connection with the purchase of land for agricultural uses, provided the loans are eligible in other respects and the applicants can show the required equity in their properties and are in satisfactory financial condition.

"One of the principal reasons for using bonds in lieu of cash in making land bank and Commissioner's loans," Mr. Williams said, "was to get a wide distribution of the bonds through out the country and small towns as well as in the cities. About 425,000 loans have been made since the Corporation came into existence. These bonds have been very well received by the public in general and the farmers' creditors in particular. In fact, during much of the time in which they have been in existence they have sold at above par. The interest rate on new Federal Land Bank loans is now four per cent per annum and loans by the Land Bank Commissioner bear interest at the rate of five per cent per annum. A temporary reduction of interest on Federal Land Bank loans having installments due prior to July 1, 1935, was put into effect July 1, 1935. This was the result of new legislation, The Farm Credit Act of 1935, which was signed by President Roosevelt June 3, and reduced the interest rate to 3 1/2 per cent for interest payable in the one year period, commencing July 1, 1935, and to four per cent for all interest payable in the two years period commencing July 1, 1936. Interest payable on installment dates occurring after July 30, 1935, will be at the original contract rate of the loans. These loans are repayable over a long period of time and on convenient terms.

### High School and College Ages Dangerous

The value of street and highway safety education in the schools, especially in the lower grades, and the great need of it in the high school grades, are shown in the chart above. This chart, based upon findings of the Travelers Insurance Company, brings out the percentage of change in the rates of death by automobile accidents from 1922 to 1933 inclusive. During this period when the rate of death was increasing 81 per cent for all ages combined, there was a decrease of 25 per cent in the age group of 5 to 9 years, and in the next age group of 10 to 14, the increase was only 3 per cent. Undoubtedly the great improvement in the fatal accident experience in the ages of 5 to 9 and the very small percentage gain in the ages of 10 to 14 have been the result of safety education in the schools and the protection

that has been afforded by traffic officers in the vicinity of schools. But in the age group of 15 to 19 years, which may be regarded as the high school period, deaths from automobile accidents have increased 130 per cent, while in the age group of 20 to 24, which may be regarded as the college period, the increase has been even greater. The bad record of deaths in these two age points to the great need of educational efforts at a time when young people are beginning to drive cars. Many high schools now are providing such courses of instruction, and as these are extended to all high schools, it may be expected that in time the adverse experience in the high school and perhaps also in the college age groups will begin to show the improvement that must be made, if coming generations of automobile drivers are to become safer drivers than many present day motorists.

### EAST TEXAS TAKES CENTENNIAL PLUMB

Sixty seven West Texas counties have made application to the members of the Commission of Control for the Texas Centennial for a museum to be placed at the Texas Technological College in order to preserve a portion of West Texas history to future generations. At this time there is only \$200,000 left of the \$3,000,000 appropriated by the Texas Legislature for the Centennial, the \$2,800,000 having been already appropriated to East and South Texas cities. The amount being asked for the West Texas museum and 35 markers in West Texas is \$120,720. If the amount is granted it will be all that West Texas will receive of the \$3,000,000 appropriation, of which West Texas will have to pay back \$1,260,000. Surely the Commission of Control will honor West Texas with this small amount. If you will take a map of Texas and draw a line diagonally from Wichita Falls to Eagle Pass there will not be much difference in the territory on either side of the line. Yet, there has not been a single appropriation made by the Commission of Control for any project west of that line. Until recently, with the exception of Hon. Coke Stevenson, who lives almost on the line, there was not a member of the Control Board west of the line. West Texas has a history which will command much interest if placed before the people. It is the hope, since West Texas will pay 42 per cent of the expenses of the appropriations made, that something will be granted to this section of the state. We feel that the men on the Commission of Control are fair minded citizens and are willing to act on the basis of justice and right. The Commission of Control is composed of: Lieut. Governor Walter Woodul of Houston, Hon. Coke Stevenson, of Junction, Speaker of the House of Representatives, John K. Beretta of San Antonio, Walter Perry of El Paso (recently took the place of Robert J. Boyle of San Antonio), James A. Elkins of Houston, Karl Holtzclaw of Dallas, John A. Hulen of Fort Worth, Pat M. Neff of Waco, and J. W. Vanierberge of Victoria.

### MAKING YEARBOOK HISTORICAL

John Pope, student editor of the Cactus, University of Texas yearbook, has designated the 1936 edition of the annual as a "Centennial Cactus." Pope, who this summer accepted to the editorship, regards his research into Texas history as one of his most important duties, and uses a grade school volume of Texas history as a handbook. Pope is a law student in the University and is a graduate of the University School of Business Administration. He has served as president of the junior class in the School of Business Administration, is an active member of the Curtin Club, the Young Men's Christian Association cabinet, the Business Administration Council, the University Round-Up Committee, Interfraternity Council, and the Order of San Jacinto. Last year he was associate editor of the Cactus.

### HOGS AND ALFALFA PROVE PROFITABLE

A great saving in the feed cost for his hogs this spring is reported by John Ewen, swine demonstrator in the Estelle community in Hall county, according to James A. Jackson, county agricultural agent. Ewen made the saving by running his hogs on excellent alfalfa pasture. He reports that his concentrate requirements have been cut from one-fourth to one third. His pigs are thrifty and making rapid gains. In addition to the pasture furnished the hogs, Ewen reports an excellent hay crop cut from the alfalfa field.

### MISS ERNESTINE HALE IS HOSTESS

Miss Ernestine Hale entertained with a bridge party at the home of her parents in west Spur, Saturday afternoon, August 3. After a delightful afternoon of bridge, ice cream and cake were served to the following: Misses Isabelle Campbell, Francis Morris, Mary L. Lisenby, Billie Burke Hisoy, Nell Arthur, Helen Hale, Marjorie Burrow, Nell Austin of Stamford, Imogene Bowen of Post, Joyce McCully, Marian Hale and the hostesses.

### NO DAMAGE; JUST AN ALARM

The fire call to the City Grocery Monday evening proved to be uneventful more than just the curiosity that most of us have when the fire alarm is sounded. One of the clerks in the business stated, "Just the dish rag burned." Some one had placed a pan of water on an electric hot plate. The water boiled from the pan and the cloth which was in the pan caught fire making a great smoke.

### NOTICE

This will give notice that we will be liable for no purchases made except those authorized by formal purchase order signed by B. J. Ertz. W. S. CRAWFORD. 2t.

### DORIS WYLIE HAS PARTY

Celebrating her fourth birthday, Little Miss Doris Wylie entertained a number of her little friends on Saturday afternoon at the home of her parents, Dr and Mrs. John T. Wylie. Favors of cracker jacks and "suckers" were presented the following guests: Jonell Addy, Robert Ardis, Melba and Evelyn Lewis, Ernestine Berry, Laurie Robert Burrow, Cash Wilmon, Ann Hull, Mack and Jane Brannen, Bonnie Beth Henry, Mack Wilson, Mary Catherine and Elsie Patterson, Bettye Ray Fox, Lowell Cato, Cecilia Fox, Mary Louise and Orvie Lee Freeman.

D. A. Bandeen, manager for the West Texas Chamber of Commerce, passed through our city Tuesday afternoon enroute to Lubbock to be at the tri-district meeting of Chamber of Commerce directors Wednesday.

### MRS. A. M. WALKER HONORED ON TUESDAY

Mrs. Frank Watson and Mrs. Charlie Powell were hostesses on Tuesday afternoon at the home of Mrs. E. D. Engleman honoring Mrs. A. M. Walker, the retiring teacher of their Sunday School class. Games were played, in which each guest was given a stunt to perform. Mrs. Walker was instructed to look under the bed where she found a large box of gifts, from the class members, in appreciation of her loyal service. A dainty congealed salad plate, with tea and wafers, was served to the following: Mmes. W. R. King, Foy Vernon, Jemtha Craig, Pentecost, Conn. Ray Sanders, Dora Dillingham, Ralph Sherrill, Herbert Swan, Jim Cloud, A. G. Dunwoody, Wilburn Fox, Middleton, Charlie Powell, A. M. Walker, Frank Watson and E. D. Engleman.

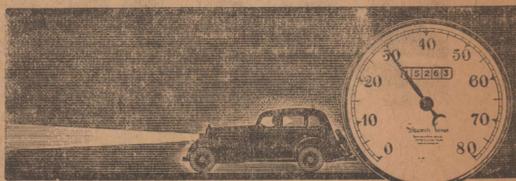

### VISITOR HONORED

Members of the 1933 Study Club honored Mrs. Tom Dickey of Houston, with a picnic and swimming party at Roaring Springs on Thursday afternoon. Mrs. Dickey was a charter member of this club before she moved away. Guests on this occasion were: Mmes. Tom Dickey, V. L. Patterson, Jack McCully, Miller, Herbert Swan, Charlie Powell, Ernest George, Jim Cloud, W. T. Andrews, Daniels, J. P. Carson, Frank Watson, Misses Selbia McCully, Miller, Joan Dickey, Charlie and Shirley Powell, Belva Swan, Jimmie Swan and Jimmie Watson.

### STATE ACT FOR DISTRESSED DEBTORS HELD UNCONSTITUTIONAL

The Court of Civil Appeals for the Eleventh Supreme Judicial District of Texas, in an opinion just rendered, has held the Texas counterpart of the Federal "Frazier-Lemke" Act void. The law, declared invalid, was passed by the Forty-Third Legislature, Third Called Session, entitled "An Act for the Reorganization of Distressed Debtors." The Court held the law impaired the obligation of contracts in contravention of the Constitution of Texas, and of the United States. The opinion is the first interpretation of the statute by an Appellate Court. In construing the Act, the Court stated that "this Statute turns the contract and security for debts over to the Court for it to make a new contract for the parties and to parcel out the assets of the debtor when and as it may deem advisable. Under this Statute, the rights of the creditor under the contract, and under the law at the time of the execution of the contract, in the event of default by the debtor, to have the personal property described in the chattel mortgage and the real estate described in the deed of trust sold and applied on the debt, and the further right, if the property did not sell for enough to satisfy the debt, to obtain a personal judgment against the debtor for the deficiency therein, are not only delayed, but are permanently taken from him. This cannot lawfully be done." Attention was called, in the opinion, to the similarity of the provisions of the State Act, and the Frazier-Lemke Act (Federal Farm Moratorium Act), which was recently declared unconstitutional by the Supreme Court of the United States. The Court also relied upon two recent decisions handed down by the Supreme Court of Texas, in which the "State Emergency Moratorium Act" and the "Anti Deficiency Judgment Act" were held unconstitutional, as legislation attempting to impair the obligation of contracts in violation of the Constitution of Texas and the United States.

### AS THE SUN GOES DOWN! CUT YOUR SPEED DOWN!

'Slow down or go down' might well become the motto of every driver after the sun goes down. Because of the relative ineffective range of visibility afforded by most headlights of cars, speed around 30 miles per hour should be about the limit during hours of darkness. Automobile accidents are far more serious when they occur during hours of darkness than when they happen in daytime, it is shown by the statistics of the Travelers Insurance Company. During last year, there was not a single one of the twelve hours of normal darkness in which the rate of death per accident was less than during daytime. Yet despite this fact, which has prevailed for a number of years, many drive their automobiles as fast during darkness as in the daytime. From 6 a. m. to 6 p. m., the normal daylight hours, there were 459,510 automobile accidents last year in which 15,050 persons were killed. From 6 p. m. to 6 a. m., the normal hours of darkness, when the volume of traffic generally is only one-fifth as great as in daytime, there were 422,490 automobile accidents in which 20,950 persons were killed. This comparison shows that the rate of death per accident was 51.4 per cent worse during the hours of darkness than during the hours of daylight, and on the basis of traffic volume, the rate of death during hours of darkness was several hundred per cent greater than during daylight. A further indication that fast driving at night is exceedingly dangerous is to be found in a comparison of the casualties in the four rush hours of the forenoon and the four rush hours of evening. Last year 2,810 persons were killed in 79,380 accidents in the four rush hours from 6 to 10 in the mornings, while 10,940 persons were killed in 252,250 accidents in the four rush hours from 5 to 9 in the evenings. The deaths in the four evening hours exceeded the record of the four morning hours by 289 per cent, while the rate of death per accident during the four evening hours was 22.5 per cent worse than for the four morning hours. From 1 to 6 a. m., when traffic is lightest, the rate of death per accident was nearly 32 per cent worse than the average for all accidents combined. There isn't any doubt that during hours of darkness the probability of an automobile accident proving serious is much greater than during daylight.

### SECOND TERM CIA SHOWS ENROLLMENT INCREASE

Approximately 90 more students are in attendance at the second summer session of Texas State College for Women at Denton than were enrolled at this time last year. By the last day of registration over 629 students had been enrolled, with 107 included who were not here during the first term. Graduate school enrollment has also increased, with a total of 82 mature students.

### SPUR CREAMERY MAKING IMPROVEMENTS

The Spur Creamery has just opened a warehouse near the rear of the main plant. What was formerly the warehouse has been converted into a garage which was needed. Another improvement being made by the Spur Creamery is the installation of a new ice machine. This new machine is being installed in the bottling department and is intended to take care of additional refrigeration. O. F. Priest, business manager of the Nichols Sanitarium, Mrs. P. C. Nichols and daughter, Miss Martha, left Friday for Dallas to visit Dr. Nichols and attend to business matters. They returned Sunday and report the Doctor improving. M. K. Lawson, of Afton, was attending to business affairs in our city Monday. H. Jackson, of Roaring Springs, was transacting business in our city Monday.

### Please Lady, don't send me away!

**THE Maytag SAVES THE CLOTHES AND SAVES MONEY!**

Clothes, if they could speak, would plead to stay at home where they get the gentle care that they deserve. Clothes washed in a Maytag show their appreciation by longer life and by keeping that new look longer. And how clean and sanitary they are, when washed in the Maytag heat-retaining, cast-aluminum tub—washed by water action alone, by the gentle Maytag Gyrator action, sweetened by fresh air and sunlight—nature's own purifiers.

Your Maytag dealer is now quoting **SENSATIONALLY LOW PRICES OF \$79.50 TO \$109.50** and convenient terms.

**FEDERAL HOUSING ACT**  
—Now includes Maytag Washers on the list for government aid to buyers.

**Has To Have Bicycle—So He Swaps Steam Roller**

IT was a sample of steam roller tactics in one regard, but a good example of perseverance in another sense. Donald Johnston, 11, of Albany, Ore., wanted a bicycle. He had no money, no job. He espied a steam roller that stood idle for

Mrs. Price Brownlow, Mrs. G. W. Allen, Mrs. W. I. Moore, Mrs. Douglas Allen, Mrs. R. Y. Allen, Mrs. O. S. Harvey, Mrs. Vanderford, Mrs. Merritt Graham and Miss Hazel Moore. —Reporter.

**NOT ONLY TEACH RELIGION IN THE HOME, BUT LIVE IT, TOO**

Seven Red Top club ladies answered the roll call with their favorite verse of scripture, last Wednesday at the home of Mrs. J. C. Childress. They also studied the Drama of Jobe, and had a round table discussion on why have religion in the home. All joined in, visitors, too. The second Wednesday at eight o'clock was set to entertain our husbands with an ice cream supper and party.

Members present were: Mrs. Otis Garrison, Mrs. Duran Jones, Mrs. Jim McArthur, Miss Lilly McArthur, Miss Carrie Childress, Mrs. Matt Howell and hostess, Mrs. J. C. Childress. Visitors were: Mrs. Jones' little daughter and son, Mrs. Jim Johnson, grandmother of Miss Lilly McArthur, and an aunt of Mrs. Firm Self and Mrs. Clyde Smith. We are always glad of the visitors and every one is welcome. —Reporter.

**BAPTIST REVIVAL BEGINS SUNDAY**

The summer revival of the Baptist Church will get under way Sunday morning. Dr. Ewton will fill the pulpit at both hours Sunday. Rev. O. K. Webb of Memphis and Rev. H. Virgil Reynolds will arrive Monday to take charge and continue for two weeks. These men are the very best in their line of work to be found in the state. You will enjoy their services to the fullest.

The morning services will begin at 10 o'clock and will be conducted in the church auditorium. The evening services will begin promptly at 8:15 o'clock and will be conducted in the open air tabernacle just east of the church.

We extend a cordial invitation to other ministers of the town and their members to take part in all of our services. —Church reporter.

**FLOOD LOSSES WILL CAUSE NO REDUCTION OF PAYMENTS**

Loss through floods will cause no reduction in benefit payments to Texas signers of crop adjustment contracts, the Agricultural Adjustment Administration recently pointed out.

"In the case of cotton, contract signers will receive not only the usual rental payments and parity payments, but also their allotted quantity of Bankhead Act tax exemption certificates," A. L. Smith, chairman of the State Cotton Allotment and Review Board, stated last week.

He also said that non-signers will get their quota of tax exemption certificates. Thus the adjustment programs of the AA have crop insurance features which operate to compensate to some extent for any crop damage, whether from flood, drought, or other natural causes.

"The regulations also provide that producers may sell tax exemption certificates, in case they do not grow their full allotment of cotton covered by the certificates, through the Assistant in Cotton Adjustment or a national pool," Smith said.

Mrs. G. H. Stack is in our city a guest of Mrs. M. C. Briley.

John L. King, of Riter Hardware Company, left Friday for Chicago to attend a meeting of Hardware Association of America.

When Pharaoh's enterprising daughter found little Moses by the water, it seems the lucky child had handy what has become of our favorite candy!

**AN ANCIENT SWEET**

HAD YOU ever suspected that the ancestor of the modest modern marshmallow first saw the light of day in ancient Egypt of the Pharaohs? The mallow plant with its big pink flower grew in Egyptian marshes, just as in American marshes today, and the Egyptians gathered its roots, dried them and pulverized them to make one of their favorite confections. So, though the Egyptian "marshmallow" was probably not much like its American descendant, still the latter has distinctly oriental connections.

That is not the reason for the name of Oriental marlow, but it might be. Oriental marlow is really an orange-ginger ice cream, and a very superior one because it is also a marshmallow ice cream. Even if frozen without stirring in the refrigerator, it is creamy, smooth, and free from ice crystals. It may also be made in an ice cream freezer, without the labor of agitating. Or, simply use a mold with a tight-fitting cover sealed with adhesive tape, and freeze in an ice-salt pack.

Marshmallows have this magical power to make ice creams frozen without stirring as velvety as those which are continually agitated. The pure cane sugar, corn syrup and gelatine which go into their making combine to form a perfect "protective colloid" which defies crystallization. So when you use this recipe you may be sure that not only the flavor but the texture will be something very special.

**ORIENTAL MARLOW**

16 marshmallows ¼ cup preserved  
1 cup milk ginger  
Few grains salt ¼ cup nuts  
¼ cup orange 1 cup whipping  
marmalade cream

Melt the marshmallows in the milk over hot water. Chill until slightly thickened; then add the salt, marmalade, ginger cut in small pieces, chopped nuts, and whipped cream. Freeze without stirring in trays of the mechanical refrigerator.

**GET THE CHILD READY FOR SCHOOL**

Now is the time, according to Dr. John W. Brown, State Health Officer, that every parent should ask himself if his child is physically ready for school. A visit to the family physician and dentist will answer this question and give time for the correction of minor defects before time for school to open.

A child with defective vision cannot be expected to do the required work in school until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions as habitual winking, may be caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has been recognized by health workers for many years. Many of the ills of later life, as heart disease, arthritis, deafness, etc., are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, and for this reason children should be taken regularly to the dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible to discover defects as soon as they appear.

Postural defects appear in the life of a child much sooner than we formerly suspected. Have your family physician see of your child's shoulder blades project and if his arches are low. Simple exercises, diligently

adhered to, when the child is young, will prevent later serious developments in many cases.

**PASTURE TERRACES PROVE PROFITABLE**

The carrying capacity of a pasture on the land of Colin Walton, Castro county farmer, will be more than doubled this season because of water held by terraces from one recent rain, according to the estimate of the county agricultural agent, E. W. Thomas. Walton spent most of last winter building a system of terraces across a wide draw draining into a flat lake in his pasture. The terraces were run level from end to end and the ends built up to hold the water from running around; and terraces were placed close enough together to back the water nearly to the other terraces. Several acres of sloping land were also listed solid.

During the recent rain, an inch and a half of rain and hail fell in about 30 minutes. The terraces held the water back out of the lake to such an extent that all of the water which ran into the lake soaked up by the next morning. Without the terraces, the lake would have filled and the grass drowned out for several weeks. The water would have run across the draw without the ground soaking it up to any extent.

Mrs. Sam T. Clemmons left the last of the week for Abilene where she visited her uncle and aunt, Mr. and Mrs. C. Hogan.

**BLACKBERRY PATCH BEATS COTTON**

Thirty-five dollars profit per acre was made on seven acres of blackberries this year by Wilson Herndon of Comanche county, according to J. A. Barton, county agricultural agent. Herndon picked 300 gallons per acre and lost fully 300 gallons on the patch this year due to the extreme rainy weather during the picking season. Herndon says that his land would not make more than one-fifth of a bale of cotton to an acre, which after counting out all costs left no profit. He is now enlarging his berry patch as well as adding grapes and plums. He feels that his 27 acre place will make him an easy living through the sale of berries, fruits, truck crops, and through live-at-home program he is getting underway.

**CIA COMMENCEMENT DATE TO BE ADVANCED**

Graduating exercises for the summer session at Texas State College for Women at Denton have been set for Saturday, Aug. 24, at 9 a. m. This advanced date has been made possible by holding classes on two Mondays before that time. Examinations will be held on Wednesday and Thursday, Aug. 21-22.

Mr. and Mrs. Dick Speer left Monday on a little tour of the country for a few days. They will visit Dallas and select a nice line of merchandise before returning.

**Home Demonstration**

**CLUB NEWS**

**SHORT COURSE DELEGATES TO MAKE REPORT**

Those who wanted to go to Short Course and could not do so will have an opportunity Saturday to hear those who did go tell of their trip and what they learned. In an all-day meeting the home demonstration club women of the county will hear reports of the lectures, see demonstrations reproduced and sing songs learned at College Station. The meeting will begin at 10:00 Saturday morning and will be held in the East Ward School building in Spur. Each woman will bring lunch which will be spread picnic style at noon.

A similar meeting will be held for the club girls next week. Club women and girls attending the

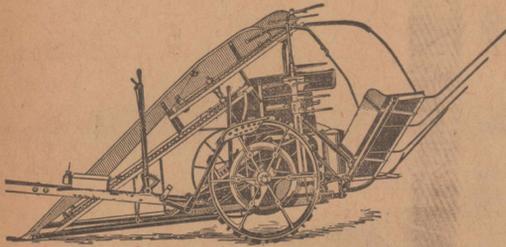

Short Course were Mrs. F. B. Crockett and Miss Lucille Harris, Espuela; Mrs. J. L. Hagins, Duck Creek; Mrs. C. W. Van Cleve and Miss Lona Mae Barrington, Prairie Chapel; Mrs. Tol Merriman and Miss Gladys McMeans, Twin Wells; Mrs. W. O. Garrison and Miss Carrie Childress, Red Top; Misses Clara Rich and Juanita Rose, McAdoo; Miss Lizzie Lou Baxter, Patton Springs; and Misses Alma Scholer, Lillian Pense and Alma Thomas, Dumont.

**CLUB HAS GOOD PROGRAM**

"We should live our religion daily that our lives might be an example to our children and friends," said Mrs. G. W. Allen, when the McAdoo home demonstration club met in the home of Mrs. Merritt Graham for the program on "Religion in the Home." Mrs. Allen led a round table discussion on practicing our religion at home. Other interesting talks were given.

Those enjoying the program were Mrs. J. T. Parker, Mrs. T. L. Dozier,

**Cut Your Feed With This Cost-Reducing John Deere Binder**

With a modern John Deere Corn Binder, you are equipped to do a fast, clean job. You'll get through in a jiffy... save a lot of hard work... get your crops into the shock or silo when their feeding value is highest—ahead of bad weather.

In a John Deere Corn Binder, you get all of the better, time proved features; light draft, easy handling of crop, accurate tying, power bundle carrier, strength and durability in every part.

ON TEXAS FARMS by Minnie Fisher Cunningham Extension Service Editor

Trench silos are getting filled this month in Texas. Corn, red top cane, seeded ribbon cane, hegari, kafir, milo, and a few more such crops are going into them.

E. R. Eudaly, Extension dairyman, says these crops had better be ripe because if they are cut too green the silage will contain a surplus of acid and as a result scour the cattle if fed liberally.

He says that the leaves on the upper half of the stalk should be green—but the riper the crop the greater the feed value of the silage.

A trench silo six feet wide at the top, four feet wide at the bottom, five feet deep and 100 feet long will hold 30 tons of silage. That makes three tons per sow for a ten cow herd. Eudaly says three tons is just about what a dairy cow needs.

But that isn't all. Each cow should be supplied with one ton of hay and one of feed per year. He says calmly, "Remember, the more roughage the cow will consume, the less of grain mixture will be required. Hay and silage are cheaper than corn and cottonseed meal."

On a recent trip to the Gulf coast territory spreading the gospel of trench silos or "canning the cow's winter feed supply." Eudaly found that Refugio county had only one trench silo. Since he spoke there two months ago, 100 silos have been dug and filled.

A ventilated pantry in which the cans are never moist but are always cool is a valuable feature of the new kitchen belonging to Mrs. Tommie Hughes, a cooper in the Lone Star Home Demonstration Club at Edcouch in Hidalgo County, according to Miss Mattie Wilroy, home demonstration agent of Hidalgo County.

In the ceiling and in the floor of the pantry there are holes 22 by 9 inches over which is tacked a 16 mesh screen to prevent insects from coming in but to allow the air to pass through at all times. Shelves in the pantry are made from 3 1/2 inch planks and there is 3/4 inch space between them that allows the air to pass between them at all times. The

MUSSEL-SHELL PINCHERS

pantry will store approximately 650 containers, and at present Mrs. Hughes has 450 in the pantry.

From 30 cents she received from the sale of a dozen eggs in January, Irma Johnston, Montgomery county 4-H club girl, bought two varieties of tomato seed from which she sold \$5 worth of plants to neighbors and set out 1500 plants in her garden, according to Miss Lele Mae Portenberry, home demonstration agent.

The seeds were planted in paste board boxes to insure early plants. These plants were then staked and pruned to give a better variety of fruit. Irma has reached her goal as garden demonstrator by filling the 50 containers required.

A clothes closet, four and one-half feet long and two feet wide, containing four shelves in one end and a willow pole peeled and rubbed down for hangers in the other end, has been built by Odell Neal, clothing demonstrator for the Axtell 4-H club in McLennan county, at a cost of 65 cents, according to Miss Martha Buttrill, home demonstration agent. The 65 cents was spent for paint and nails. The inside of the closet was painted white to give light.

Odell also made a tie and belt rack, two shoe racks, and three hat racks for the closet, which will provide storage space for her and for her two sisters.

One hundred per cent cooperation on any soil conservation program for Runnels county was pledged at a recent meeting of 100 farmers, landowners and business men held in Ballinger, according to Elmo V. Cook, county agricultural agent. Five hundred and fifty acres were signed for terracing immediately and many pledged to cooperate in the program as soon as they have land available for terracing.

"I planted 39 acres of a good variety of corn this year and 10 acres to a cheap variety, and any two acres of my good corn will make as much as the entire 10 acres of cheaper corn." Julius Mann, Frio county farmer, told N. H. Hunt, county agricultural agent. Mann added that he was sorry he had planted the cheap corn, and that hereafter it will be good seed for him, not only for corn, but also for all other crops.

Thirty-one hides have been tanned into leather during the past year by Heinz Ulrich of Blanco county, according to C. E. Tisdale, county agricultural agent. Ulrich has 18 more hides on hand to tan just as soon as he has time. He received his training at a leather tanning course given at the A and M Short Course in 1934 and plans to take an advanced course this summer in the manufacture of articles from leather tanned at home.

Two cut ant towns in the Nickle community in Gonzales county were completely exterminated in a community-wide demonstration conducted by J. M. Saunders, county agricultural agent, with the assistance of R. R. Reppert, Extension entomologist. The

estimated value of this work was between eight and ten thousand dollars, according to community leaders, who assisted in working up the drive which covered approximately 50000 acres. This estimate was based on damage previously done by the ants.

POULTRY AND EGG SHIPMENTS IN TEXAS GOOD

Interstate shipments of poultry and eggs in Texas during June totaled 70 carloads, composed of 38 cars of poultry and 32 cars of eggs, against 87

CIVIL PRACTICE ONLY

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas blasts up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. ©1931 C. M. Co.

### Police Increase Use of Motorcycles

By L. JAY STEVENS

The depression and the growth of motorized racketeering, combined, have caused an unexpected but extremely desirable expansion in the police use of motorcycles.

Since the first of the year 48 state and city police departments have purchased fleets of fast, powerful motorcycles from one manufacturer alone. About a third of these were already users of the swift two-wheeled bandit chasing vehicles and are increasing their equipment to cope with the growing menace of highway and street outlawry. The rest are adopting motorcycles for the first time, after a study of the results of their increasingly successful use by the police of other localities. The sales have ranged from coast to coast and from Canada to the City of Mexico.

Another reason for the sudden growth in the police employment of motorcycles lies in the present vital necessity for state and municipal economy. In all parts of the country there is a vibrant demand for increased police activity against the rapidly swelling army of violent law-breakers. Such increased activity calls

for the serious consideration of officials of the expenses involved. Whenever this situation is arising the motorcycle is winning hands down over other forms of police transportation on account of its low cost, its great efficiency, its economy of operation, long life and resistance to abuse and the fact that one officer can handle the machine and at the same time shoot it out with fleeing marauders or attend to other details in connection with them. Criminals in automobiles have no chance against motorcycle police.

The Massachusetts State Police are a perfect example of efficiency and economy in the use of motorcycles. They use a magnificent fleet of 230 Indian mechanical guardians of safety covering 1,566,341 miles, at a total cost of \$24,412, or at the unbelievably low rate of \$.016 per mile.

The motorcycle is one important answer to the growing problems of motorized banditry and the necessary reduction of public expenditures.

ing, rebuilding streets, waterworks and sewage disposal, extension of lighting systems, community sanitation projects, recreational projects, stream pollution control, and sanitary surveys. The Resettlement Administration will also have a program for rural areas to aid farm families.

Mr. Hopkins pointed out that attempts were being made to provide employment for as many types of skills as possible.

"We have found that to meet the employment needs of the rural relief population," Mr. Hopkins said, "the Works Program must provide for a wide range of occupational skills. That is, we must as nearly as possible put people to doing the work they have been used to. This is important to keep human talent and abilities from deteriorating.

The great majority of the 1,500,000 non farmer heads of rural and town households on relief are unskilled laborers. One-third of them are un-

skilled industrial laborers, while more than 350,000 are farm laborers. Another 350,000 are skilled and semi-skilled industrial workers. "White collar" workers, including professional, proprietary, and clerical workers, include 100,000 heads. There are 60,000 servants in the group.

The above figures were based on proportions revealed in 138 sample counties selected as representative of the nine major agricultural areas. These counties contained eight percent of all rural and town families in the general population of the areas represented. The areas, in turn, contained 54 percent of all such families in the United States as a whole.

L. C. Murphy, of Dickens, was attending to business matters in our city Saturday. Stated he does not get to come to town often as he has to be in the field most of the time

A. Lollar, east of town, was in Saturday looking after business affairs.

Tandy Legg, one of the progressive teachers of the Plains, was in our city Saturday greeting friends. He is teaching in a consolidated school near Canyon City.

Buster Robinson, of Dry Lake, was looking after business interests here Saturday.

### Hopkins Says Rural Sections Not Neglected

The drive to employ the country's able workers on government jobs and to direct them into available private employment will not miss the country areas and small towns, Harry L. Hopkins, Works Progress Administrator, said today.

That there is urgent necessity to care for the Nation's rural and small town unemployed is shown by the fact that approximately 40 percent of the 5,000,000 families on relief are to be found in the open country and towns under 5,000 in population, Mr. Hopkins said.

"The city used to be a giant magnet drawing unemployed labor from the country," Mr. Hopkins pointed out. "This is no longer true. For a while, after the beginning of the depression, the flow was reversed, going from city to country. Now even this movement has slowed down. Unemployed needy people are in both city and country."

"Work is largely the answer for both areas," he said.

This is borne out by the fact that, contrary to the general belief, a majority of the families on relief in the open country are those whose economic heads, whether men or women, are not farm operators. They comprise a group of workers who maintained themselves in the past by working at a great variety of trades and jobs.

"It is plain that the country and the small town problem is not predominantly a farm-operator problem but essentially one of finding work for non-agricultural workers, just as it is in the city," Mr. Hopkins declared.

"Plans are being made under the \$4,000,000,000 Works Program to take care of the rural unemployed who were on relief rolls as of May, 1935," he continued. "One of the main features of this program will be an extensive secondary road building program. A substantial sum will be spent by the Works Progress Administration for this purpose."

About two-third of the roads in the United States are not State highways subject to Federal funds. It is these roads which will come under the Works Progress Administration.

In addition to the secondary road program, other measures designed to alleviate the unemployment problem in the rural areas include the following:

Construction projects of various kinds, such as small dams, levee build-

**GIVE ME THREE WEEKS TO SHOW YOU WHAT I'LL DO ON GULF**

**A Sporting Offer:** If your motor hasn't teamed up with Gulf lately you've no idea what a pair they can make! Give them 3 weeks together—a real workout. It's the only fair way to judge gasoline! And here's what to expect...

**750 "Takers":** 750 motorists accepted our offer—matched Gulf against their regular brands on mileage, starting, pick-up, power, all-around performance.

**The Winner—Gulf!** Over 7 out of 10 reported Gulf better on one or more of the 5 points—many on all five. For Gulf is really 5 good gasolines in one. Controlled refining gives it not merely 2 or 3, but all five important gasoline qualities!

McADOO

The ladies of the McAdoo Home Demonstration Club will have an auction sale of useful and valuable articles at their next club meeting Tuesday afternoon, August 13, at the home of Mrs. G. W. Allen.

Mr. and Mrs. Earl Van Meter and family and Mr. and Mrs. Harold Hardy are spending a vacation in New Mexico.

Marshall (Potts) Formby, Jr. came home last week for a visit with his parents, Mr. and Mrs. Marshall Formby and family.

Mrs. Iva Black and Wanda Fay are in Wichita Falls visiting relatives and friends.

Mr. and Mrs. W. O. Cherry and family have returned home. Mr. Cherry has attended the summer term at Texas Tech the past six weeks.

Mr. and Mrs. Lee Parker and C. C. Neeley and family went to Fisher County the last of the week to attend a reunion of the Jays, relatives of Mr. Neeley and Mrs. Parker.

Mr. and Mrs. R. C. Bateman spent the week end at Duncan Flat community visiting Mr. and Mrs. Henderson Bateman, parents of Mr. Bateman, and Mr. and Mrs. Fred Christopher, a sister of Mrs. Bateman.

Miss Mildred Henderson of Childress was here during the week end visiting relatives.

Mr. and Mrs. Wilburn Isaac of Dick and spent Sunday with Mrs. Sam Isaac and family.

Rev. Isabell, pastor of the Baptist Church, will begin a revival meeting here Friday night, August 2.

Miss Ida Floyd Finney is visiting relatives, Mr. and Mrs. J. A. Finney, in Plainview.

Billie Joyce Nickles, little daughter of Mr. and Mrs. R. E. Nickles, has been in Lubbock sanitarium suffering from a fractured skull, caused from falling from a bicycle.

A baby girl was born to Mr. and Mrs. W. C. Brister, August 2nd. The little daughter has been named Barbara Nell. Mother and baby are doing nicely.

Susie Boucher and Mr. and Mrs. T. L. Marvin of Fort Worth, have been visiting their brothers, Mayo Boucher, and O. C. Boucher and wife.

Mrs. C. P. Aull, Jr., who has been a patient in Lubbock sanitarium for the past several weeks was able to return home Sunday.

Mr. and Mrs. J. C. Johnson and baby and Mr. and Mrs. Cager Wade and family of Spur, visited Mr. and Mrs. T. L. Dozier and family Sunday.

Misses Fay Ola and Katie Miller who have been training for nurses in Lubbock sanitarium, returned home Saturday.

Mr. and Mrs. G. W. Allen and daughter, Aline, Sybil and Harold Stanley have returned from a visit to relatives at Stamford.

La Dell and Don Elda Holloway of Antonio, are here visiting Miss Mary Edwards.

Juanita Rose and Clara Rich attended the Short Course at A and M College the past week.

Jean and Lorene Gollihar of Fort Worth, went to Canyon following a visit of several weeks here with their grand-parents, Mr. and Mrs. C. Gollihar.

Mr. and Mrs. Archie Hunsucker of California have been visiting Mr. and Mrs. Hunsucker.

Mrs. Blackwell is here visiting her son, J. M. Blackwell and family. Mrs. Bush Pipkin is expected to return home the first of the week from Spur where she has been taking treat-

ments from a doctor. Lucille and Katherine Rose were at home this week end. Katherine and Lucille are attending summer school at Texas Tech at Lubbock.

Fred Boasch, Jr. of Fort Worth, is visiting his grandparents, Mr. and Mrs. C. Gollihar.

Rev. A. O. Hood, Methodist pastor is conducting a revival meeting at Wake this week.

Quarterly Conference was held at Wake Sunday. Dinner was served at the church. A number from McAdoo attended the Conference.

Miss Dorothy Christopher of Duncan Flat is spending the week with Mr. and Mrs. Carroll Bateman.

Part of the McAdoo country got a good rain Friday afternoon. Very little rain fell east of McAdoo. The rain was very beneficial to the crops and gardens.

Rev. Isabell, pastor, is conducting a revival at McAdoo Baptist church this week. A large crowd was present for services Sunday and Sunday night. The public is invited to attend the services.

LOST and FOUND!

It has been a regular service of the Times to restore lost dogs, watches, wallets and whatnots to anxious owners. But today our attention is called to the fact that we have helped find something which the owners did not know they had lost.

"Thank to the Times," says Homer Boothe, local representative of the Gulf Refining Company, "a multitude of motorists have found that they have been losing gallons of good gasoline without realizing it—just as surely as if there were a leak in the gasoline tank!"

Mr. Boothe refers to the result of a series of advertisements recently placed in the Times by his company, offering all motorists the new free booklet, "15 Ways to Save Gasoline Money."

"Soon after the offer appeared in your paper, motorists began to flock to our filling stations to claim their copies of the booklet, and the original supply had to be renewed. An enthusiastic demand for them continues," Mr. Boothe states.

Among the 15 simple, money-saving hints illustrated in the attractive little Gulf booklet is a pertinent pointer on parking. It explains, to the surprise of most motorists, that a car figuratively "burns up gas" even when it is parked, depending upon where and how you park it.

Other hints in the booklet that materially increase mileage per-gallon deal with proper use of the self-starter, accelerator; gear shifting and other ordinary operations in driving, any one of which wastes quantities of gasoline, if carelessly done.

Titled "15 Ways to Save Gasoline Money," the booklet is free for the asking at all Gulf service stations and dealers.

GOOD WILL TOUR COMING THROUGH

Officers and directors and friends of the West Texas Old Settlers Association will sponsor a good will tour which will visit Spur just about noon Saturday. The motorcade will start from Lubbock and go to Post and then to Jayton, Spur, Roaring Springs, Matador and Floydada and other points.

The next meeting of the West Texas Old Settlers Association will be held at the Hank Smith Ranch in the Blanco Canyon the last of next week. The opening program will start next Thursday morning and continue two days.

C. McClain of Oregon State, is here visiting his nephews, A. E. and Charley McClain and daughter, Mrs. Will Cravy of near Post. Mr. McClain was a resident of this country in an early day moving to Oregon in 1909.

Mr. and Mrs. T. S. Lambert and Mr. and Mrs. J. P. Legg left Thursday on a vacation trip to Colorado and Arizona. Peyton Legg is in charge of the Croton store while they are away.

F. F. Henry, of Duncan Flat, was in our city Wednesday attending to business matters. He stated they had not received rain in his community yet.

YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND Director, Physical and Health Education New Jersey State Department of Public Instruction

Eating Habits

Consider these bits of common sense. First of all, what you do the child imitates. Eating habits are contagious. If you say one thing but do something else, the value of what you say is lost. The child will do as you do.

Don't expect anything else. You are the model. If you don't eat carrots, don't wonder when your child doubts your assurance that "carrots are good for you." Children aren't that glib.

Avoid forcing. I mean that vigorous, stern insistence—"you shall eat it or I'll know the reason why." Rebellion, resentment, unhappiness are the only results. Your chance is lost. Do not discuss food values at length nor in technical terms, such as calories, vitamins, minerals and the like. You may understand them but children don't, and more, they don't want to.

It is decidedly bad to make children "food conscious." You can do so much more by casual, quiet suggestion in a conversational manner, saying, "this milk makes strength" or, "this cheese builds muscle" or, "this fruit keeps you well."

Summer camps—good or bad? Dr. Ireland will discuss them next week.

DRAFTED FROM RETIREMENT

Z. E. Marvin

Texas insurance underwriters would not let Z. E. Marvin of Dallas go into retirement. The insurance leader announced a week ago, with his resignation as president of one of the largest Texas companies, that he was through with active business. But when more than 100 telegrams from state underwriters arrived, drafting him as chairman of the board of the Texas State Mutual Life Co., Mr. Marvin reconsidered. A few days ago he assumed his new office with the Texas mutual organization.

Nine ex-presidents of the United States stepped out of the highest of elective offices in the country to become executives of mutual companies. The latest of these is Herbert Hoover. Calvin Coolidge at the time of his death held a high post in a mutual company and Alfred E. Smith, former Democratic nominee for president now holds a similar position.

ABSENTEE VOTING NOW IN EFFECT

Persons who desire to cast what is known as an absentee vote for the August 24th election can do so now. The law prescribes that any person may appear in person or make application in writing to the County Clerk of the County not more than 15 days nor less than three days before election day and cast an absentee ballot. Any person who is ill and desires to vote absentee must make written application on the prescribed form and send with the application a health certificate from a physician, together with their poll tax receipt or exemption certificate and a fee of 24 cents for postage in order to obtain a ballot. When said ballot is marked by the voter it must be returned to the County Clerk with an affidavit that it is the ballot voted by the elector.

A voter may appear in person before the County Clerk and ask for a ballot and by paying 24 cents as postage, may mark his ticket in the presence of the County Clerk without permitting the said County Clerk to know how he marks his ballot and then deposit the ballot with the County Clerk.

A person who may be out of the county in which he votes, can appear before a Notary Public or other officer and by paying 24 cents postage and the return postage to and from the office of the County Clerk of his county, may have said Notary Public or other officer to send in his application for a ballot. When said ballot is received the voter shall then mark it in the presence of said Notary Public or other officer but not letting the said officer know how he votes, and shall then sign an affidavit before such Notary Public or other officer who will return his ballot to the County Clerk of the County where said voter is entitled to vote.

In the event any one votes an absentee vote and then dies before the date of such election, the law provides that such ballot shall not be counted.

No one can vote an absentee vote after August 20th as there can be no absentee votes cast nearer than three days preceding the day of election.

If any one is ill, or expects to be away August 24th, they may cast their ballot now according to the absentee voting laws of Texas.

33 RECRUITS FOR FOET BLISS IN JULY

There were 33 men enlisted in the United States Army service at Fort Bliss during the month of July. All these were from Texas and some were as far east as Waxahatchie.

Of those who enlisted 26 went into the cavalry, three into the field artillery, two in William Beaumont Hospital, one in the quartermaster department and one in the medical department.

Midland furnished the largest list with nine men from that city, El Paso was second with four men.

Mr. and Mrs. H. C. Patrick and little son Kenneth Clifton of Fort Worth, are visiting her parents, Mr. and Mrs. R. D. Sharp of Prairie Chapel.

Mrs. J. H. Hodges, of Roaring Springs, was in our city Saturday doing some shopping.

WANT ADS

MEN WANTED for Rawleigh Routes in Stonewall, Scurry Counties and Spur. Write today. Rawleigh Co., Dept. TXG-704-SB, Memphis, Tenn.

CARE OF MEAT IN HOME IMPORTANT

In summertime, much depends on the proper storing of foods so that they will keep and keep with as little deterioration as possible. Meat, either cooked or uncooked, of course, should be stored in a cold place. But what about the way it is stored? Should it be covered or uncovered?

According to Inez S. Wilson, home economist, meat, which is to be used within a few days, should be lightly covered, so that there is some circulation of air around it, but still not enough that it becomes hard and dry on the surface. Placing the meat in a loosely covered refrigerator dish, or wrapping it loosely in wax paper and placing it in the refrigerator gives the best results.

Mr. and Mrs. Tom Dickey and daughter, Miss Joan, of Houston, are guests of Mr. and Mrs. W. T. Andrews.

Mrs. Alph Glasgow has accepted a position with Henry Alexander and Company and is now on the job.

Mrs. E. B. Daniels, who has been visiting her son in Dallas, returned home a few days ago.

Mrs. Ernest Lee, of Lubbock, was a week end guest of Mrs. H. P. Gibson.

B. C. Johnson left Saturday for Dallas to return with Mrs. Johnson and children who have been visiting there for some time. They returned Sunday.

William C. Starcher left the last of the week for Tipton, Okla., where he will visit his parents and other relatives and friends.

Miss Louise Gollier, who has been on a vacation to Denver, Colo., is on the job again at B. Schwarz & Son.
