VOLUME 11

SPUR, DICKENS COUNTY, TEXAS, THURSDAY, OCTOBER 3, 1935

WHOLE NUMBER 530

## Dickens County Farmers Denounce Bankhead Law

An assembly of about 500 farmers here Saturday morning denounced the Bankhead Law as detrimental to their interests and gave voice that it will be repealed at the next session of Congress. The meeting was opened with prayer in which divine guidance was pleaded for in the discussion that was to follow. The meeting was held in the Palace Theatre at 10:30 o'clock and was well attended by the farmers of this section of the country.

W. E. Dortch, who stated that he would represent the little farmer since he had a small farm and had not depended so much on the growing of cotton. He said that the present plan of apportionment of cotton growing was a great detriment to him and that he would be better off to grow cotton at six cents per pound than under the present plan. He stated that he felt the President of the United States had meant well in his dealings with the farmers, but had innocently worked a hardship upon them. He stated that cotton had been raised to ten cents per pound, but this price, when the price jump is considered in other commodities, leaves the farmer in worse condition than when he sold cotton for five and six cents. He said when you consider the high prices of flour, sugar, coffee and other commodities that having to be paid at this time, that these prices placed cotton on about three cents per pound basis as compared to what prices were two or three years ago.

W. M. Hunter was asked to speak his sentiments in regard to the Bankhead law. He stated that he had some 78 acres in his place and was allotted 147 acres to cotton, of which he was allowed to plant 65 per cent, or 98 acres. His allotment per acre would give him about 26 bales for this year. He stated that his overhead expense would run about \$100.00 per month, and that by the time he paid the pick-

(Continued on Page Five)

## BULL DOGS OFF TO COLORADO CITY FOR GAME FRIDAY NITE

The Spur High Bulldogs, still without a victory to gnaw upon in two games at home and one away, leave Friday to play Colorado City that night. A number of fans are expected to accompany the team down country.

Colorado has one of the strongest class B squads in this section, being undefeated for this season. They are one of the leading teams for the district championship in their district. Coaches Wadzeck and Sollis have been putting their team through some heavy scrimmage sessions this week and announce they are about ready for the next one. Considerable improvement is being noted in the team over their game and the "greenness" that was so prominent at first, is rapidly disappearing. The line is playing first class ball under the leadership of Captain McCombs. The center of the line is light but the boys are plugging the hole with plenty of fight to make up for their lack of beef.

The backfield is still far from what a coach dreams of. Moving Bingham to the quarter position helped considerably, but a fast stepping, quick on the get-away back has not been developed to date. The Freshman backs, Hahn and Haralson Bros. are coming along and may be stepping fast enough for Coach Sollis before the season is over.

The Dogs come back home next week for another nocturnal contest and the beginning of the District Championship race. Flomont is Spur's first opposition in its home district.

## Cubs Win First!

In the first game of the world series the Chicago Cubs defeated the Detroit Tigers 3 to 0. The game was called on the Detroit diamond at 12:15 central standard time and the Cubs went into a scoring barrage in the first inning.

Reid for the Cubs hit a two-bagger into center field for the start and made third on a fumble by Rowe in an attempt to throw to first base. He crossed the home plate before the ball could be recovered. Herman then made good on a hit and was scored on Harnet's single to right field. Fox, for the Tigers, made the first hit. It looked in the fourth that the Tigers might score when they had a man on second and one out, but a double play stopped all chances and the opportunity never came again.

The sensational play came in the third inning when Herman for the Cubs hit a line drive into center field and Greenberg went up into the air and pulled it down with a one-hand catch. That catch kept the Cubs from making another score.

The Cubs were favored with a home run in the first part of the eighth and that was the third score.

Schoolboy Rowe and Mickey Cochran served as batteries for the Tigers, and Wernecke and Hartnet were for the Cubs.

Today's game will be broadcast over a national hook-up.

## PARKING INSIDE FOOTBALL FIELD

Due to the fact that many people prefer to sit in their cars at the football games during cold weather it has been arranged for cars to park on the north side of the playing field provided the passengers remain inside the cars. A parking charge of 25c per car will be collected at the gate in addition to the regular admission fee.

The earnest cooperation of the public is solicited by the school officials in enforcing all regulations at the Stadium during athletic contests. The rules are made for your benefit.

## DICKENS GETS WATER LINES NEAR FUTURE

Z. W. Fowler, mayor of the City of Dickens, was in our city Tuesday morning and told friends that they are expecting to install a complete water system in their city. He had just received a telegram from Washington showing that the funds had been approved for the project. The telegram was as follows:

Washington, D. C. September 30, 1935.

G. W. Parkhill, Dickens, Texas.

In absence of Senator Sheppard and by his authority I desire to say the P. W. A. advises the President has approved loan of \$12,500 and grant of \$10,227 to City of Dickens for constructing a water storage and distribution system. (Signed) D. R. Potter, Assistant Secretary.

The application was handled by Mr. Potter and Mr. Smith of the Lubbock Water Department. Mr. Fowler stated that these two gentlemen were of great assistance in getting the application through.

It is the plan of Dickens to secure the water supply from wells in the immediate vicinity. There seems to be an abundance of underground water in the vicinity of the town, and a number of wells is thought will furnish an adequate supply of water. A storage reservoir will be erected as soon as the water is secured and a distribution system will be put in.

Our little neighbor city is making preparation to make some growth, and the installation of an adequate water system will be a great inducement in that respect.

## GOOD CROWD WITNESSED ROSCOE GAME

Bulldogs From Roscoe Were Too Much For Locals And Win By Score Of 25-7

Near fifteen hundreds braved the cold north winds last Friday night to watch Coach "Blackie" Wadzeck's Spur Bulldogs bow before the powerful Roscoe High School Bulldogs, (who only the week before had smothered a strong Class A team from Sweetwater) to the tune of 25 to 7. It was dogs against dogs for the biggest bone.

Spur's lone touchdown came in the early minutes of the first quarter after Stewart, Roscoe end, had taken a short pass and raced 15 yards for the score, then had converted for the extra point. Capt. McCombs, Bulldog end, took what could be termed a short basket pass from Chapman and converted a nice 40-yard broken field run into six points and then plunged the line to tie the score, 7-7.

That, however, was as far as the Bulldogs from Spur high school went that cool winter-like evening. The rest of the game went to the visitors, Coach Dalton Hill, and his "going some place squad", with, perhaps a few exceptions when the Spur Bulldogs were having one of their spasmodic moments of football. If the locals had played throughout the game just as hard as they would play one of those moments they would have driven the visitors off the entire field without even a smell of the bone. After playing an average game throughout the second, third and most of the fourth quarters, Spur took on new life and started the game all over, but alas it was too late for the final whistle found them with the ball on Roscoe's five yard line and just one play too early.

Even at that, however, it was a much improved team over that which held Roby 0-0 on the evening of the new Jones Memorial Stadium dedication. The line charged some fast, backfield men were more aggressive and back cutting of the ends, Bingham and McCombs were outstanding with power. Suits and B. Willhoit were in good form as was Gilbert, Garner, Bumpus and Martin.

## 1931 Study Club Presents Play Tonight-Friday

The 1931 Study Club have in store a great treat for the people of Spur country tonight and tomorrow night (Thursday and Friday). If you enjoy the comical things of life you don't want to miss this program, and you will miss a lot of fun if you are not present either tonight or tomorrow night.

The entertainment is in the form of a three-act musical comedy which is full of humor from start to finish. It is classical in its nature and humorous in its trend. About two hours of hilarious enjoyment that you will want to see. There are a great number of local people in this program and they have been trained to bring out the best in characterization.

The play is a Wayne P. Sewell production from Atlanta, Ga., and is strictly Southern in its sentiment. The 1931 Study Club has secured the services of Miss Nellie Ben Gilley in directing the play which will mean much in its presentation, Miss Gilley is an artist in her work and goes to various places at the call of people to conduct plays. The admission charge is 15 cents for children and 25 cents for adults.

## County Vote By Precincts

An extremely light vote was cast in the Special Senatorial election held last Friday in all all precincts of Dickens County. Two boxes, Duck Creek and Espuela were unreported Wednesday morning. The vote in the other boxes were as follows:

DICKENS: Reagan 1, Mitchell 0, Evans 11, Nelson 12, Parrish 19.  
East Spur—Reagan 3, Mitchell 5, Evans 7, Nelson 18, Parrish 9.  
Duncan Flat: Reagan 1, Mitchell 0, Evans 5, Nelson 0, Parrish 2.  
Highway: Reagan 0, Mitchell 0, Evans 2, Nelson 7, Parrish 0.  
Midway: Reagan 1, Mitchell 5, Evans 0, Nelson 0, Parrish 4.  
McAdoo: Reagan 0, Mitchell 2, Evans 5, Nelson 15, Parrish 16.  
West Spur: Reagan 3, Mitchell 13, Evans 27, Nelson 49, Parrish 19.  
Prairie Chapel: Reagan 0, Mitchell 4, Evans 2, Nelson 0, Parrish 1.  
Red Mud: Reagan 0, Mitchell 1, Evans 3, Nelson 1, Parrish 1.  
Afton: Reagan 0, Mitchell 2, Evans 7, Nelson 2, Parrish 2.  
Dry Lake: Reagan 0, Mitchell 0, Evans 1, Nelson 0, Parrish 4.  
Red Hill: Reagan 0, Mitchell 2, Evans 0, Nelson 0, Parrish 4.  
Wichita: Reagan 0, Mitchell 2, Evans 2, Nelson 5, Parrish 1.  
Croton: Reagan 0, Mitchell 4, Evans 0, Nelson 13, Parrish 1.  
Dumont: Reagan 0, Mitchell 6, Evans 0, Nelson 0, Parrish 2.  
Totals—Reagan 9, Mitchell 46, Evans 72, Nelson 122, Parrish 85. Total vote 334.

It is estimated that the special election Saturday cost the 24 counties composing this district better than \$6,000 for a small minority of its citizens to fill this vacancy in office. The votes in some of the precincts in Dickens County cost the County Taxpayers more than a dollar a vote. These costs might be worth thinking about.

H. L. Craven, of Brown County, manager for the Brown County Life Insurance Company, was in our city the last of the week looking over business of the local office of his company.

## Allred Calls For Dickens Co. Parole Board Nominations

The Times has had a letter from James A. Clark, head of the Executive Department of the State of Texas, calling to attention the fact that service club leaders of this county and community have not as yet answered the Governor's request for appointments for the Dickens County Parole Board.

These county parole boards, as has been announced in the daily press, are to be charged with the community service responsibility of rehabilitating paroled or pardoned criminals and making periodical reports to the Governor.

In the past, convicts out of the penitentiary on parole or pardon have been "on their own" and the inclination to return to a life of crime has been ever present. It is believed by the executive staff that with responsible citizens in each community ready to aid those unfortunate men that the constructive and worthwhile purpose of making honest, law-abiding citizens of them can be accomplished.

The plan is original with Governor Allred and has never been tried out in any other state, but the Times joins with executive staff members in the belief that it is a worthwhile idea and believes that Dickens County should lose no time in lining up with Crosby, Lubbock and the other six counties in Texas whose parole boards have already been approved by the Governor.

## Girard Prepares For Community Fair, October 19th

Tuesday afternoon in the office of B. J. Kellett, the Girard Community Fair Committee met and made further plans for the fair to be held Saturday, October 19th. Everyone is invited to attend and exhibit his best of whatever he may choose to show. Ribbons will be given on all classes of livestock and agricultural products. There will be a ladies display of canned products, fancy sewing work, and quilts, ribbons will also be awarded these winners.

All exhibits must be registered in the show hall not later than 9:00 o'clock on Saturday, October 19th. Everybody is invited to come and spend the day in Girard.

The committee is hard at work and there will be many attractions such as wrestling and boxing matches, basket ball games and a straightaway, is being prepared for pony races. There will be a contest for fat man's race, terrapin races, etc.

There will also be a Trench Silo demonstration sometime during the morning conducted by the county agent of Kent County.

## Famous Fun Makers With Coming Circus

No circus is complete with out clowns. Harley Sadler-Bailey Bros. Circus has an array of them—who will make you laugh. They guarantee a laugh a minute with their funny capers and gestures. The man who is responsible, the producing clown, is no other than Buck Baker himself. Buck has been one of the feature clowns on the Ringling Bros.-Barnum and Bailey Circus for over twenty five years, and now comes to the Harley Sadler Circus, with his bunch of joy. Buck says that he will make the older folks laugh as well as the kiddies. In fact he will make kids out of all of you once again. So be sure to see Buck Baker and his clowns. Spur, one day only, Monday, October 28, auspices American Legion.

## SHIPPED BLIND CALF TO A. & M.

Supt. Dickson, of the Spur Experiment Station, stated Wednesday that he had shipped the blind calf furnished by C. L. Sedgewick to the A. & M. College for experimental purposes. He stated that through study of these animals it will be difficult to tell what the value may mean to cattlemen and farmers in Texas, and not only Texas, but the world.

Mr. Dickson stated that if any one has a calf born blind that he would like to have it for the College. Get in touch with him.

## B. SCHWARZ & SON CLOSED MONDAY

The dry goods firm of B. Schwarz & Son will be closed all day next Monday. That is the Day of Atonement for all Jewish people and the local store will observe the day true to their creed. The store will open for business at the usual hour Tuesday morning to serve customers. Two days each year this store is closed irrespective of what day of the week they come. One is the Jewish New Year which was last Saturday, and the other is the Day of Atonement which will be next Monday. They are ten days apart.

## Rule Banker Named Head Productive Credit Association

Word has been received in Spur that J. L. Hill, Jr., of Rule, has been appointed manager of the Stamford Production Credit Association, succeeding Martin McCain, who recently resigned to accept an appointment as a state bank examiner.

Mr. Hill was assistant cashier of the Farmers State Bank of Rule, and had been in the banking business for twelve years. He is familiar with lending credits, and is interested in livestock and agricultural enterprises. After spending several days in Houston familiarizing himself with the setup of Production Credit Associations, he has assumed his duties in Stamford.

Production Credit Associations have been established all over the United States for the use and benefit of farmers. They are non-profit cooperative organizations designed to assist farmers in becoming financially independent.

Mr. Hill shall be pleased to have any farmers or stockmen who might be interested in securing loans for any agricultural or livestock purpose, call to see him, according to information received by the Times.

Geo. S. Link of Spur, is President of the Stamford Production Credit Association and James B. Reed is the Agent for Dickens County.

Miss Pearl Cammack, of Matador, is here visiting her uncle and aunt, Mr. and Mrs. Starcher.

## GIRLS! GIRLS! EVERYWHERE!

About forty-seven beautiful girls in all. That is what football fans saw at the Roscoe-Spur game last week. And, our own high school pep squad girls, too.

It was a picture of Blue and White, so pleasing to the eye—Blue shirts and White Shirts with the four leaders: Winifred Bell, Billie Hisey, Evelyn Ivey and Mary Louise Lisenby, wearing white shirts and gold skirts.

It will be hard, this year, for the male fans to keep their eye on the field with such an array of beauty in the stadium.

See this array at the Flomont game next week.

## SPUR PUBLIC SCHOOLS GET SPECIAL AID

Superintendent O. C. Thomas is very happy to announce that his trip to Austin last week resulted in the Spur Public Schools getting approved by the State Superintendent for \$4,100 to assist in maintaining high school work for the southern half of Dickens County. Since the Spur School System serves 15 rural schools for high school work the State Superintendent felt Spur should receive special aid in carrying out this constructive program.

This program is in complete harmony with the State Department of Education, and it is one that lifts a large burden from rural schools that have a few students in each of the high school grades they might try to maintain.

The County Superintendent, Mrs. Madge D. Twaddell, is largely instrumental in formulating this progressive movement. She and the Deputy State Superintendent, Bryan Dixon, went to Austin with Mr. Thomas.

The Spur Public Schools now maintain eight school buses, and transport 350 children from rural schools to Spur Schools. This makes Spur Schools perform an educational service few other towns in the State attempt.

## FAIR STORE MAKING IMPROVEMENTS

The Fair Store is having the front of the building painted white which will improve the appearance very much. Also, there is a balcony being constructed in the store at the back of the building. This balcony will be the ready to wear department and will be neatly arranged.

## NELSON WINS SENATE RACE BY PLURALITY

Winner Leads Parrish By 1000 Votes; Mitchell Finishes 3rd, Reagan And Evans Last

In the special 30th Senatorial district held last Saturday, G. H. Nelson, of Tahoka, Lynn county, defeated his nearest of the four opponents by nearly one thousand votes. The election was called by Governor James V. Allred to provide a successor to the late Arthur P. Duggan, of Littlefield.

The young 33-year old Senator, 106th district attorney, made his first statement at mid-night Saturday, in which he stated, "I didn't win the race—my friends won it—and to them goes the credit."

Pink L. Parrish, Lubbock, former senator from this district, was the runner-up to Nelson, but fell short by more than a thousand votes. Jess Mitchell, Muleshoe, one of West Texas' leading newspaper publishers and editors, trailed Parrish by a thousand votes while B. Reagan, Big Spring banker, fell only a few hundred short of Mitchell. The youngest candidate in the race, Wm. H. Evans, Lubbock lawyer, was less than two thousand behind Parrish.

Nelson was the first candidate to announce, after Gov. Allred had called for the special election, and waged an aggressive campaign. Married and the father of two children—a daughter, 10, and a son, 4.—Nelson serves as superintendent of the First Baptist Church's Sunday School, at Tahoka. He did his college work at East Texas State Teachers College, Commerce, and Texas University.

The total number of ballots cast was perhaps the lowest ever tabulated in a 30th Senatorial district race. The district's normal voting strength is between 50,000 and 55,000, while the total tabulation from the 24 counties Saturday did not reach the 15,000 mark. Less than 500 votes were cast in Dickens County. Nelson received near 200 of that number, Parrish, Evans, Mitchell and Reagan followed in the order named.

## Three Local Men Appointed To Aid Distressed Farmers

Dickens county farm owners, who are delinquent with their mortgages, will no doubt be happy to learn that the Resettlement Administration Farm Debt Adjustment Division Office, of Lubbock, has this week advised the Times to announce a newly appointed Conciliation Committee for Dickens County. This committee is to serve absolutely without pay and its members, as announced by the division are: H. A. C. Brummett, Chairman; W. J. Collier and W. B. Lee. They are to have office with the Rural County Supervisor, Dale S. Campbell, at Spur.

As it is perhaps already known to most farmers, the debt adjustment work throughout the nation has been reorganized and taken over by the Resettlement Administration and greatly strengthened by recent legislative enactment providing for effective legal procedure to meet foreclosure on farms in the recent Amendment of the Bankruptcy law taking the place of the Frazier-Leke Act, ruled unconstitutional.

The purpose of the newly named committee is to aid the debt-distressed farmer by acting as arbitrators or conciliators and they are ready to serve any farmer needing advice along this line. Their service is free and all farmers are requested to feel free to call upon them at any time. If the case assumes the seriousness of foreclosure and all efforts to settle through the committee fail, then the farmer should meet this legal action by filing the case with Conciliation Commissioner, H. A. C. Brummett. The division office advises the debt troubled farmers to contact the Committee, Commissioner, Rural Supervisor, County Agent or write District Supervisor, Division Office, Lubbock, Texas.

The object, and a good one, of the whole procedure is to stop wholesale foreclosure of farm homes and to help worthy debt-distressed farmers.

## BULL PUPS TO PLAY PADUCAH 'SECOND' TEAM THURSDAY

The Spur High School Class C team will engage the Paducah High Second team in a second game this week, Thursday afternoon at the Charles A. Jones Memorial Stadium. The two teams met last week at Paducah and Spur won 6 to 0.

Coach Odis Martin's boys are showing much improvement since the opening game with McAdoo. They carried the fight to the Paducahites at Paducah last Thursday and came out a winner. They are expecting a much harder game this week and are preparing for it.

Outstanding stars of the Paducah game were Martin, Caraway, Hahn, and Sparks.

The Paducah squad slightly outweighs the Spur team and are rated to defeat the locals in their second game. Paducah has turned back some of their first stringers to this squad and a fast stepping team is expected to show in Spur.

The game will start about three o'clock and a small admission fee will be charged.

Mrs. Jack Dempsey and sister, Miss Edra Robinson, of Croton, were in our city Tuesday doing some shopping. Lynn Robinson is a registered nurse and has been doing special work at the Spur Hospital.

Mrs. A. J. Sims, of Conway, Ark., is in our city the guest of her daughter, Mrs. Jephtha Craig.

## Spur Gin Report

The gimmers of Spur reported 400 bales of the present cotton crop ginned at 4:30 o'clock Wednesday afternoon. All cotton seemed to be turning out good samples and is ginning fine.

Cotton was selling Wednesday on the local market in a price range from 10.00 to 11.04. Cotton seed was bringing \$29.00 on the local market which is about the best price in some time at this early season.

## FARMERS VISIT EXPERIMENT STATION

A big delegation of farmers from Memphis visited the Spur Experiment Station Wednesday for study of various projects and to get information on silos, silage and feeding of cattle. About the same time the Memphis people arrived another delegation arrived from Stinnett. This city is several miles northeast of Amarillo, but they are interested in the findings which have been made at the Spur Station.

## COUNTY SINGING CONVENTION MEETS SUNDAY

The Dickens County Singing Convention will hold its regular session at Dickens next Sunday. There will be an all day session with basket lunch served at noon. Everybody has been requested to be present and bring a basket filled with a good lunch. There are noted singers expected for from various sections of the West.

W. P. A. Gives People Jobs

With several thousand men engaged in swinging picks and shovels on dozens of projects in Texas, state Works Progress Administration officials have plunged well into the second phase of the program intended to eradicate relief rolls in Texas.

Workers on the Lake Trammel flood damage repair project near Sweetwater became first former relief clients to receive pay checks from Works Progress Administration. On that day also, 600 laborers began to earn their pay on four projects in the Houston WPA district.

First on the list of WPA projects to secure federal approval, flood damage repair jobs already under way in several sections of Texas. All of the \$300,000 federal allocation for that type of work has been allotted

to Texas districts, State Project Director E. A. Baugh reported.

In addition to this lump grant, Texas has received federal allotment of \$1,534,208 in local projects, many of which have already been started or will start soon throughout the state.

As first authorizations to begin work were being mailed out to the districts whose projects were given early federal approval, state officials had completed final details on the handling of labor problems.

State officials adopted the 140-hour month as standard working time on projects, H. P. Drought, State Administrator, announced early last week.

Explaining that some deviations from this policy would be necessary due to such variable factors as location of the projects or the availability of equipment, Drought declared that the 140-hour month will be maintained as closely as possible. Due to the nature of canning plant and sewing

room activities, women will generally work 138 hours per month, Mrs. W. K. Taylor, State Women's Work Consultant declared. In order to realize the full benefits of these projects, it will be necessary in some instances to work two shifts per day, Mrs. Taylor said. Women employees on other types of projects are expected to work on the regular 140-hour month.

McAdoo

Coach R. E. Everett's McAdoo High School football, in the second game in their lives, stoutly held their lead to defeat the Patton Springs High School 19 to 0 at McAdoo Friday afternoon.

McAdoo football team has a game with Crosbyton one day this week. Vanel Medford has been elected sponsor of the football team. Five school buses are being driven for McAdoo school at present. The fifth bus was added the past week. Rev. A. O. Hood has been employed to drive the new bus. Four of the buses are school property and the other one is privately owned.

Wednesday of last week two school buses were loaded with students and left for Lubbock to attend the South Plains Fair. The students reported a great time at the fair. C. P. Afill, Jr. and Harold Hardy drove the buses.

Mr. and Mrs. Henry Dozier and little granddaughter, Dorothy Jean Taylor of Waco, visited his brother, T. L. Dozier and family during the week end, Sunday afternoon they went on to Seagraves to visit another brother. Mr. and Mrs. T. L. Dozier and Louise accompanied them on the trip, returning home Monday.

Marjorie Womack has returned home from visiting relatives in Hobbs, New Mexico.

Mrs. Charlie Barker was in Floydada last week with her sister, Mrs. Harbor, who is very ill.

A. V. Womack, of Hobbs, New Mexico, was at home this week end visiting his family. Mrs. Womack has spent the past week in Hobbs visiting her husband and other relatives. Mr. Womack is employed in the poultry business at Hobbs.

Mr. and Mrs. Payte of Arkansas, have been visiting Mr. and Mrs. W. I. Moore and family.

Mr. Payte is conducting a singing school at Leatherwood this week. The public is cordially invited to attend.

Mrs. Bradford Bass is to return home from Sanatorium, Texas, where she has been for the past several months for her health. Mrs. Bass has gained several pounds in weight and her health has improved considerably, since she went to the sanatorium.

HAS GOOD CLASS IN VOCAL MUSIC

T. C. Cooner, who is teaching a class in vocal music at the Assembly of God Church under direction of government program, stated this week that he has a good attendance and much interest. Mr. Cooner has been teaching vocal music many years, and during the summer took instruction in a government class at Lubbock where he acquired all the fundamentals of modern day teaching.

Charlie Gyr, who has been working in the Big Spring oil field for some time, came in Friday to spend a few days visiting with Mrs. Gyr. He returned to work Wednesday. He stated that conditions are good in the oil field now.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC. REQUIRED BY THE ACT OF CONGRESS OF MARCH 3, 1933

Of The Dickens County Times, published Weekly at Spur, Dickens County, Texas for October 1, 1935.

State of Texas, County of Dickens.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared W. D. Starcher, who, having been duly sworn according to law, deposes and says that he is the Publisher of the Dickens County Times and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse side of this form, to wit:

1. That the names and address of the publisher, editor, managing editor, and business managers are: Publisher, W. D. Starcher, Spur, Texas.

Editor and Managing Editor, W. D. Starcher, Spur, Texas. Business Manager, Mrs. W. D. Starcher, Spur, Texas.

2. That the owner is: Mr. and Mrs. W. D. Starcher, Spur, Texas.

3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholders or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

W. D. STARCHER, Publisher. Sworn to and subscribed before me this 30th day of September, 1935. Sam Clemmons (Scrib.), San Clements, (Notary).

OF THE DICKENS COUNTY TIMES, published Weekly at Spur, Dickens County, Texas for October 1, 1935. State of Texas, County of Dickens. Before me, a Notary Public in and for the State and county aforesaid, personally appeared W. D. Starcher, who, having been duly sworn according to law, deposes and says that he is the Publisher of the Dickens County Times and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse side of this form, to wit: 1. That the names and address of the publisher, editor, managing editor, and business managers are: Publisher, W. D. Starcher, Spur, Texas. Editor and Managing Editor, W. D. Starcher, Spur, Texas. Business Manager, Mrs. W. D. Starcher, Spur, Texas. 2. That the owner is: Mr. and Mrs. W. D. Starcher, Spur, Texas. 3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None. 4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholders or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him. W. D. STARCHER, Publisher. Sworn to and subscribed before me this 30th day of September, 1935. Sam Clemmons (Scrib.), San Clements, (Notary).

YOUR CHILD AND THE SCHOOL

Bare Feet Grown ups often take on a wistful look when someone mentions "the barefoot boy." But parents, too many parents, take on a look of alarm when a son expresses a desire to be that boy. What a pity it is that rumor can destroy so much good fun! If a person doesn't worry about pickles and ice cream, or milk and orange juice taken together, he's sure to believe evil of going barefoot. Now there are two causes for worry but neither of them is flat feet. Arches may break when a child persists in jumping from high places, but it happens just as readily with shoes on. Arches also break more easily when a child is undernourished. But the simple rite of going barefoot in the summer doesn't mean a sure case of flat feet.

The two causes for worry are hookworm in certain parts of the country and the punctured wound. Where hookworm is prevalent, the readers are usually well informed as to prevention and treatment. But the punctured wound is too often neglected. We're too content with a wash and a swab of antiseptic. The great danger is tetanus or lockjaw, which is frequently a fatal disease. There is one safeguard—tetanus antitoxin. When a child steps on a nail, take him to a physician. To neglect that precaution is folly of the worst kind. How to get a tan painlessly will be Dr. Ireland's next subject.

OFFERS NEW PLAN FOR DISPOSING OF COTTON

J. T. Rasco, who lives on a farm near Dickens, was in town Saturday and talked over a new cotton disposition plan with people. He said that he had thought on a plan to help farmers, and since he is a farmer he wanted to give it out to others. He stated that if farmers would permit themselves to be assessed one dollar for each bale of cotton they gin in 1935 they could build their own cotton mills and manufacture their cotton into cotton cloth and then into cotton products. Mr. Rasco pointed out that in 1933 there were more than 5,000,000 bales of cotton ginned in Texas and at one dollar per bale would give a good capital to start farmers into the cotton manufacturing business. Then he stated that a committee from each county could be selected who in turn would become the central committee of the state. Mr. Rasco said it would give farmers an opportunity to go on an exchange basis more than under present conditions. If they owned their own factories that custom manufacturing could be carried on. A farmer could ship a bale of cotton to the Farmers' Factory and have it manufactured into cloth on the shares. He said that if in years past this plan had been in effect that farmers could have had enough custom factory work done to have furnished cloth for all those who could not buy it, and could have given the people an opportunity to have worked for the farmers for this many off the relief in times past. Another feature he brought out is, that the new factory would have furnished work for many people who did not have employment during years past. He stated that the farmers could build many of these factories in Texas and furnish labor for many people. Also, it would cut down production costs since it would save transportation as cotton could be manufactured in Texas instead of being shipped East, made up and shipped back here for consumption. He stated that it would make Texas independent of the rest of the world. The plan might work fine if proper outlet for manufactured products could be secured. That would be a problem to solve.

E. A. Glenn, of Duncan Flat, was transacting business in our city the last of the week.

Mr. and Mrs. H. O. Everts, Mrs. A. C. Hull and Mrs. Roy Harkey returned the last of the week from points in California and Old Mexico where they had been sojourning and visiting relatives.

Atty. Gen. Bill McCraw will sponsor a service training project under the National Youth Administration. Eight hundred and fifty young men and women 16 to 25 will be placed in public offices throuout the state, paid small wages by the government. They will not replace regular workers. They will probably acquire a fair working knowledge of practical politics, and naturally be in close touch with those who run politics in the counties. And they will be grateful to McCraw,

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything. What makes the food decay in the bowels? Well, when we eat too much, our bile juices can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 3/4 of our food decays in our 28 feet of bowels. This decay sends poison all over our body every six minutes. When our friends smell our bad breath (but we don't) and we feel like a whipped tomcat, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you ask for—25¢. ©1934, C.M.Co.

**Let's Talk About Clothes**  
 YOUNG-MODERN  
 TEXAS STATE COLLEGE WOMEN (A)

The Italian and Ethiopian relations in the Old Country are having their influence upon Paris styles, and it isn't hard to see the military idea prevalent in fall fashions. From hats to shoes, just a suggestion can be found of the raiment of the light brigade.

For instance, just look at the hats! You see cunning little three cornered affairs that dip in a point at a brimless back. They have "bills" topped with ribbon bows and other ornaments that can be cleverly cocked over the right eye.

Dresses and suits, always a "happy hunting ground" for the military-minded, are gaily trimmed with brass buttons and "colonel" braid. The broad shoulder idea is accentuated with buttons beginning at the shoulder and curving in down the front of the waist. Lapels have become more masculine in appearance and are bound with silk braid. Top coats have come into the limelight and are worn with blouses, skirts and short tailored coats. They are box-like in appearance with wide lapels and big patch pockets.

Shoes are built high up on the foot and are trimmed with large buckles and wide straps. The military heel is one of the most popular heights for general wear.

"Soldier brown," a rich chocolate color, is one of the newest shades for fall and winter. Combined with dress accessories of gold, this hue makes a smart costume for any occasion. Cannon gray is effectively combined with royal purple and deep red, but girls at Texas State College for Women say that "tops" for the military idea shows this color combined with navy.

With the advent of each new season, the question invariably comes up is "What colors and materials will be 'top notch' in the fashion parade?" Particularly true is this of the fall and winter season when fashion tries to outdo the deadness of the season in a display of brilliant wools and silks that add sparks to the general atmosphere.

The 1935 autumn selects purple as one of the most outstanding hues on the color chart. A brilliant regal tone that is smartly new in soft rabbit's hair wool makes a charming ensemble for town wear. It can be worn with either black or brown accessories. Closely akin to the royal shade of purple is that shade fashion exponents call tulle, a dull rich tone that is smart in its restrained sophistication. It, too, is shown in soft clinging wools and smooth texture silks.

Bright green is a feature color for fall and is greatly in demand by the younger groups, according to students at Texas State College for Women. Accents of black in large "frog loops," buttons and patent leather conventional flowers are used for trimming. The ever-popular dull greens are again seen on the fashion rostrum. They make chic suits and are effectively trimmed with velvet fur.

The wine shade of a season ago has given away to a more brilliant tone and comes out, fresh from the designer, in a brick color. The material is self-woven into strips making a pleasing fabric for semi-sport frocks. This brick color is popular in mingled tweeds with brown and green, and is nice when trimmed with dark brown fur.

**Chevrolet Enters Used Car Sales Campaign**

The Chevrolet Motor Company is conducting a nation-wide sale of unusual values in Guaranteed O K Used Cars.

During the month of August an all-time high in retail sales for Chevrolet was reported. This record shows in this one month Chevrolet delivered 99,018 new passenger cars and trucks at retail, an outstanding performance that beats by 4,600 units the previous best August, which was in 1929.

The fact that Chevrolet's volume increased so sharply over its total in July shows unmistakably that the country's buying power is increasing, and that there is not only the ability but a universal willingness, on the part of the public to buy.

This record breaking sale of Chevrolet during the month of August materially increased the stock of good Used Cars to such an extent that a wide variety of all makes and models are now available at your local Chevrolet Dealer and the Guaranteed Red O. K. Tag assures you of a real Used Car Value.

**HERE TALKING HEAT PROBLEMS**

Byron F. Wilson, of Abilene, arrived here the last of the week and is telling the people about his famous Lillibridge burners. He installs these burners in heaters, as furnaces and various other forms of heat service. Mr. Wilson states that he expects to be in Spur country for some two weeks yet.

**Patton Springs School Faculty**

While the Patton Springs school is just starting its second year of work, there is not a school faculty in the county of higher standing than the one the Board of Patton Springs District has selected this year. Every member has had college training and experience in the work they have been assigned to.

O. C. Southall, the superintendent, holds a B. A. Degree from Simmons University and an M. A. Degree from the Texas Technological College. He teaches Civics and Economics.

C. W. Giesecke, Jr., the High School principal, is a graduate of John Tarleton College and holds a B. S. Degree from the North Texas State Teachers' College. Mr. Giesecke coaches football and teaches History and Mathematics in high school.

E. M. Richardson, who teaches History and Mathematics in High School, holds a B. S. Degree from the East Texas State Teachers' College. He coaches basketball.

Geo. B. West, who teaches Vocational Agriculture in high school, holds a B. S. Degree from the Colorado Agricultural College. He coaches football.

F. M. McCarty, the Commercial Teacher, has had three and one-half years work in the North Texas State Teachers' College with a major in Business Administration.

Miss Grace Cade, teacher of English in high school holds a B. A. Degree from Texas Technological College and has more than half the work off for a Masters Degree.

Miss Lillie Mae Gentry, who teaches Home Economics, holds a B. S. Degree from Texas Technological College.

**THE CHILLI KING**  
 SANDWICHES  
 COFFEE  
 SHORT ORDERS  
 PLATE LUNCHES  
 We thank you for your Patronage.  
**MR. AND MRS. ALVA SMITH**

lege. Robert Howell, the Seventh Grade teacher, holds a B. S. Degree from the North Texas State Teachers' College.

Mrs. Garlin Murphy, the Sixth Grade teacher, holds a B. A. Degree from the Texas College for Women at Denton. She teaches Spanish in high school.

Miss Margaret Elliot, the Fifth Grade teacher, is a student at West Texas State Teachers' College and also of the University of Bristol, England.

Mrs. Ruth Barton, teacher of Fourth Grade, is a student at the West Texas State Teachers' College, having done more than three and one-half years of work.

Miss Louise Brock, Third Grade teacher, is a student of the North Texas State Teachers' College with three and one-half years of college work.

Miss Ethel Hulsey, Second Grade teacher, holds a B. A. Degree from Texas Technological College.

Miss Dallas Mitchell, High First Grade teacher, holds a B. A. Degree from the West Texas State Teachers' College.

Miss Sallie Rattan, teacher of Low First Grade, is a student at the North Texas State Teachers' College.

It is difficult to find a faculty in a school of 15 teachers that hold a higher rating than do those at Patton Springs. The enrollment in school this year is higher than at at the same time last year. When school had been in session but two weeks there had been enrolled 359 pupils.

Mrs. J. O. Smith left Tuesday for Austin where she will spend a few days visiting relatives and friends.

Frank Luig of Scotland in Archer county made the first trench silo in his county. John Herndon of the Back Flat section dug and filled the second one in August.

**EASTERN STAR**  
 Spur Chapter meets on Thursday night just after the full of the moon in each month. Meeting hour eight o'clock. All members requested to be present. Visiting members welcome.

 Mrs. Georgia Barrett, Secretary

**ON TEXAS FARMS**

by Minnie Fisher Cunningham Extension Service Editor

For the third year Victor Kunkel of Olney, Young county, has filled his trench silo. Three other farmers are following his example and putting in trench silos this year.

A trench silo with cemented sides has been constructed in sandy soil on a ranch in Stonewall county. The filling of it will be made the attraction for a meeting of neighbors to observe the process.

Interest in trench silos in the South Plains section of the State is so great that a demonstration on filling such a silo given in Fisher county recently was attended by farmers and ranchmen from near by counties. The big feed crop this year and the recurring rains have combined to arouse this interest.

Swapping eight acres of red top cane for 16 acres of the same sounds like a poor bargain for somebody. But it isn't if the exchange is made by the increase in feed value between the feed stacks dry and that put in trench silos. Mr. Horace Bryant of the Martin Ranch in King county accomplished the "swap" in August by filling a trench silo.

All King county is in earnest about conserving feed in trench silos. A barbecue followed the demonstration silo filling on the Martin ranch and after that a farm-to-farm canvass of the county was planned to sell the idea.

North of Weinert Chester Jones put in a trench silo and southeast of Weinert B. T. Bridges planned to begin on one in September as a result of a trench silo demonstration given on the Pace farm southwest of Haskell late in August. More than 75 farmers watched the process on the Pace farm.

Thirty farmers and stockmen gathered on the J. C. Miller farm in the Deer Creek community in August to watch a trench silo being filled with bundles of corn and grain sorghum. The "Shingling" method was used.

**OBJECTIONABLE FLAVORS IN CREAM**

By E. W. RENNER  
 Texas A. & M. College Dairy Department

Objectionable flavors and odors found in cream, and subsequently appearing in butter made from this cream, may be grouped as follows: feed and weed flavors coming from such materials consumed by the cow; flavors absorbed from surroundings; flavors due to contamination with foreign materials, and those due to bacterial contamination and fermentation.

Feed and Weed Flavors—Feed flavors affect the flavor of milk to a great extent, but as a rule they are not distinctly objectionable. All are familiar with the flavor of milk after cows have been on green pasture. This is usually designated as a grassy flavor, but varies with the type of grass in the pasture. Any other highly flavored feed will give milk a more or less characteristic flavor resembling the feed. These flavors can usually be overcome or lessened to a great extent, by cutting down on the amount of feed, feeding immediately after milking and in some instances cutting down the time the cows are on pasture. Weeds are the source of the most objectionable flavors in this group and affect the market value of cream to a great extent, the most familiar being wild onions, garlic and bitterweed. In some sections of the state, flavors from mesquite beans and oak leaves cause considerable trouble. These flavors are all seasonal and in many cases can be lessened by keeping cows in the pasture for shorter periods of time. The best method is to rid the pasture of these weeds by mowing. If this practice is followed, pastures will be greatly improved as well as the quality of cream produced.

Flavors Absorbed from Surroundings—These flavors are not as common in cream, but when they do occur are very objectionable. Cream will absorb flavors from Machine oil, gasoline, coal oil, and various vegetables when kept in close contact with them. Bad odors may be absorbed by milk from dirty stables and cows, and they are, as a rule, stronger in the cream separated from such milk. These flavors may be overcome by producing

milk in a clean place and storing the cream in a place where it will not absorb odors. Flavors Due to Contamination of Cream with Foreign Substances—Such flavors are due almost entirely to carelessness in handling the cream and utensils in which it is stored. Coal oil, gasoline, and metallic flavors are the most common of this group, the first two are due to spilling these materials into the cream or using the can to hold such products. Metallic flavors may be due to rusty cream cans. To prevent these flavors, be sure your can is used for cream only and that it is free from rust.

Flavors Due to Bacterial Contamination and Fermentation—The most common flavors of this group are cheesy, stale, yeasty, metallic, bitter and high acid. They are usually the result of careless production methods, dirty utensils, cream held at too high temperature and not delivered often enough. These flavors can be overcome by producing clean milk, keeping all utensils, including the separator, clean, cooling cream properly,

When your head aches; when Neuralgia tortures you; when Muscular Pains make you miserable—take a Dr. Miles' Anti-Pain Pill. Mr. Smith is one of millions who have found this easy way to prompt relief. He says: "I keep Dr. Miles' Anti-Pain Pills in my pocket and when I get a dull heavy feeling in my head, I take a Dr. Miles' Anti-Pain Pill and the pain passes off."

### THE DALLAS MORNING NEWS GOLDEN ANNIVERSARY

The Dallas Morning News, which celebrated its fiftieth anniversary on Oct. 1, 1935, is published in Dallas by the A. H. Belo Corporation and is the oldest business institution in Texas.

This publishing firm was founded in Galveston on April 11, 1842, while Texas was a Republic. The News of Galveston during the next forty-three years won an undisputed place as the leading journal of Texas. Its history, extending over the closing years of the Republic, the entry of Texas into the Union as a State the Confederacy, War Between the States and Reconstruction, is bound inseparably with the history of Texas during this romantic and colorful period.

The rapid growth of Texas during the late '70s and early '80s, notably the rush of settlement and development in the northern half of the State, forced the News to consider how best to maintain its State-wide circulation. It was decided in 1885 to establish the News in Dallas. This was termed "a bold experiment" by the press of State and Nation, for it meant the duplication of a daily newspaper at a point 315 miles distant. The two newspapers were connected by special leased wires for this purpose. This was the first instance of "chain journalism" in America.

Although conceived as a duplicate of its progenitor at Galveston, The Dallas Morning News quickly asserted its own personality and individuality. Within a few years it became the larger unit in the joint operation, a partnership which lasted thirty-eight years, or until 1923 when the Galveston Daily News was sold to local interests in Galveston.

The Golden Jubilee Edition of The Dallas Morning News which came out Tuesday is designed to chronicle in picture and in story the growth and development of Dallas and North Texas during the fifty-year span. Emphasis was on life in Dallas from the day of the small frontier trading community which the News found on its arrival to the present proportions and pretensions of a regional metropolis.

During its ninety-three years The

### EXEMPTION SET ON LINT COTTON FOR HOME USE

An amount of lint cotton not in excess of 110 pound produced by or for any producer, may be retained by him for domestic use in his household without payment of the ginning tax which otherwise would be levied, the Agricultural Adjustment Administration announced. This 110 pounds of cotton, to be used only in the producer's household, is in addition to the producer's tax-exempt allotment of cotton under the Bankhead Act. The exemption is effective on the 1935 crop. Producers who desire to avail themselves of this exemption should hold back from the gin enough seed cotton to produce the line which they desire to use in their household and secure from the county agent of the county in which they reside, an application for exemption before taking such cotton to the gin. These forms will probably not be available before October 1. Three pounds of seed cotton usually will gin one pound of lint.

Guy Travis, of Lamesa, representative of the Brown County Life Insurance Company, is in our city this week looking over affairs of the local office.

News as a business institution has been served by a great host of men and women. Three names, however, may be singled out: Willard Richardson, the true founder of The News, who was chief proprietor from 1844 until his death in 1875, a period of thirty-one years; Alfred Horatio Belo, who joined Willard Robinson in 1865 and was the executive head from 1875 until his death in 1901, a total of thirty-six years, and G. B. Dealey, President of The News today, who began as an office boy in the old Galveston News in 1874, and who had just completed his sixty-first year with the newspaper. Mr. Dealey has been most closely associated with The Dallas Morning News from its inception, having been named business manager at the start, advancing rapidly to his present place as chief owner and publisher.

### VISITS IN CENTRAL TEXAS

Mrs. J. C. Parker of our city and Mrs. R. P. Parker of Crosbyton, returned the last of the week from a visit with friends in Central Texas. They visited Wesley Parker at San Marcos, who is a son of Mrs. R. P. Parker. They visited friends in Waxahachie and other points.

Little son of Mr. and Mrs. Wylie Stafford, of Afton, drank some kero-sene Tuesday night. Dr. Hughes of Roaring Springs was called hurriedly and treated the condition. It is thought the child's condition is not serious unless some complication should develop.

Bill Putman of the Mission Service Station, is reported in the sick list suffering from influenza.

R. E. Bell, of Cleburne, was attending to business in our city Tuesday. He is the father of Mattie Bell, coach at Southern Methodist University, and a great football fan.

Bill Kinney, of Kinney Undertaking Parlor, was in Abilene looking after business matters Wednesday.

Mr. and Mrs. W. W. Ellis, of the 24-Ranch country, were doing some trading in our city Wednesday.

Tom Cross, of 24-Ranch country, was looking after business affairs here Tuesday.

Fred Arrington, our efficient County Clerk, was transacting business in our city Wednesday.

Miss Bertha Young has accepted a position with the Smart Music Shop and can be found on the job there.

Tom McArthur, of Red Mud country, was attending to business matters in our city Wednesday.

Bill Simpson is reported on the sick list at this time with an attack of influenza.

IT WILL PAY YOU TO ADVERTISE

### BEFORE AND AFTER MATRIMONY

When a man's single his money he'll jingle; He carelessly squanders his rocks. He may look funny, but he spends lots of money On fancy white shirts and light socks.

When a man's married he's worried and harried; He wants things that will not show dirt; His wife calls him "Honey", then takes his money And buys him a mud-colored shirt.

### Bankhead Law—

Continued From Page One

ing and ginning on the cotton allotted him, and then paid the taxes on his property that he would be in debt. He then stated that he will produce some 15 or 20 bales over the allotment which he either could gin, or would have to sell at half price after paying the government tax. He stated that the law of supply and demand would take care of conditions most any time, and that on an average the farmers would do better if they were not hampered by government regulations. He said there would be lean years in which the farmers would have a struggle to get by. But, we have always had some good years at which time the farmers could straighten up and get even. But as it is the farmers can never pay his back obligations because the government will not let him sell enough cotton tax free to do so. It takes it all now to take care of the running expenses.

T. W. Collier, a farmer who has been considered progressive in his methods, stated that if the farmers did not get an opportunity to be honest folks soon that all of them would be in the poorhouse. He stated that to him the Bankhead plan had been a failure as he sees it now.

C. C. Haile, of Afton, made a practical talk on the subject and he was equally as indicative in regard to the effects of the Bankhead plan. Mr. Haile dwelt on the liberties which the farmers have sacrificed in order to cooperate with the Bankhead plan, and stated that he believed most farmers know how to run their business.

Other speakers were John D. Hufstetler of Highway, Mr. Walker of Twin Wells, and others. None of the speakers express any hope of recovery by staying with the Bankhead plan. At the close of the meeting a vote was taken on the Bankhead Law. It was practically unanimous that the Bankhead Law should be repealed, there not being a single vote in favor of it and just a few persons who did not vote either way. All indications go to show that the Bankhead Law is not meeting the approval of the farmers in this section of the state.

### MRS. VAL SMITH BUYS GROCERY

Mrs. Val Smith became owner of the Model Grocery Monday of this week and is now found behind the counter ready to serve the people with good groceries. Mr. and Mrs. Ray Sanders owned this business until Monday and have enjoyed a very nice business with it.

Mrs. Smith is not a stranger to the grocery business having embarked upon such a career before. She stated she expected to make service her motto, and that no one will appreciate the patronage of the people more than she will. She stated that with a sick husband one has to work hard, and she feels that with this grocery she can assist greatly in helping provide for the family. She and her husband moved to this community five years ago and settled on a farm north of town.

Mr. and Mrs. Sanders have not said what they expect to do in the future. Mr. Sanders said he might move to Hubbard, his old home, and engage in business there. They have been in our city many years and have a great number of friends here.

### JAMIE NELL SIMMONS HAS BIRTHDAY

Last Friday Jammie Nell Simmons celebrated her fourth birthday anniversary with a party. After a number of games were played, refreshments of cocoa, cookies and all-day suckers were served to:

Autrey Nell and Billy Wayne Dyess, Nancy and Buddie Middleton, Patsy and Clarksyne Lewis, JuDon and JuRon Rickles, Doris Briley, Bonnie Beth Henry, Arbra Lee and Mary Louise Freeman, Marie and Bobby Barrett, Gene and Mildred Jay McCombs, Jammie Nell, G. W. Kenneth, Paul and Calvin Simmons, Veneta Briley, Mrs. John Mims and Mrs. Simmons. —Contributed.

DICKENS COUNTY TIMES

### Cotton Farmer Which Way?

Redfern 401

Here is a coat for the business woman and the traveler.—Trim—smart—practical, it serves smartly and well. Tailored of fashionable pin stripe Fleece, with collar of Canadian Wolf. Notice how the unusual pockets accent the downward effect of the pin stripes and the easy-to-wear, comfortable raglan sleeves. Worn open or closed, it is as smart a tailored fashion as you'll see.

Price \$39.75

**Bryant-Link**  
Spur, Texas

At a meeting of over three hundred farmers at Spur Saturday the 28th of September. I was asked by the chairman to express my opinion as to the recent condition of the cotton farmer. I shall also try to give the evils of the present Bankhead Law and a possible remedy.

We, as farmers, cannot fail to overlook the advantages we have had during the past two or three years under the present Administration as compared with our plight in the years before. We cannot fail to realize that the gigantic amount of money expended through out the cotton growing section as a result of the provisions of the Bankhead Law, has been to great benefit to the agricultural sections of the nation. However, as we look at the benefits of this program we should not lose sight of what such a setup might mean to us in the future.

Before we get into the merits or the demerits of the Bankhead Law we should go backward to the cause of the enactment of this agricultural regulation. We all remember the fear that was gripping the South and was reaching a stage of panic in the North, at about the time the present Administration came into power. We all remember the plow up program, with many farmers not co-operating with the Administration. The result of this experience was the Bankhead Law, that would force all cotton farmers to cooperate in the reduction that was necessary if the South was ever to regain its feet.

While we were in the midst of drought, and other elements that tended to the reduction of crops, we were very grateful for the payments that came in from the Government that kept us going and the business man's door open. We must keep in mind that with the money we received in payment for cotton that we did not grow was not sufficient to make all the payments that were necessary to maintain our land.

In this section we make a good crop every four or five years. We have depended on this good crop to pay the debts created during the years when we made little. The basis of the operation of the Bankhead Law is taken from the years when we have made little or no cotton. When and if we do make a crop that would tend to get us out of debt the Bankhead Law will not permit us to harvest and market it. Under the present setup the very agency that is attempting to help us will be the cause of our losing our farms in a very short time since the majority of our farms are in the Federal Farm loan. We cannot pay the ever increasing taxes, that are being imposed upon us by our local governments, and then the state and the Federal government. The running expenses of the farm has been on the increase during the past two or three years also. What are we as small farmers going to do? When we are not permitted to raise

enough cotton to pay the loan, the taxes and the upkeep? What about the old debts? Mr. Business Man, what are you going to do about the old debt we owe you? Cannot the entire agricultural section of this nation put up a solid front to the Administration in an effort to get a setup that will at least permit us to keep our home?

Before we sign the contract that is offered us this fall, we must stop and study. We should talk with our neighbor and attend all the farmers meetings in an effort to see if a program cannot be worked out that will be of more benefit to us in the years to come than the present set up. The temporary setup under the Bankhead Bill has attained its goal. It has given us the temporary relief that was so necessary. Now we are ready for a more permanent program that will enable us to at least make a living. We want an opportunity to pay our honest debts by our own efforts, free from molestation, but with proper supervision in order that the surplus of cotton will be kept down. It appears on the surface that the Government might expend some energy on the re-creation of our foreign markets.

Some one asks, "What can you offer to take the place of the Bankhead Law?" I believe the present setup is unfair to the farmers of Texas. What is desired for the benefit of all is reduction of production. The little farmer had and will suffer the most. Why would it not be possible for us to secure a setup whereby the production could be had from acreage percent age basis? The big cotton farmer is still a big farmer while the tenant farmer is still a little farmer. Let us all GET TOGETHER.

Yours truly,  
C. C. HAILE,  
Afton, Texas, Oct. 1, 1935.

### 77TH FIELD ARTILLERY TO START NOV. 1

How would you like to hurl a hundred pounds of steel a distance of approximately seven miles? "Impossible" or "Some Feat" you'll say—but 460 young men of the southwest, principally from the states of Texas, Oklahoma, New Mexico and Arizona, will soon be afforded the rare opportunity to be instrumental in performing such a feat regularly and be well paid for doing so.

The reconstitution of the 77th Field Artillery, equipped with 155-millimeter howitzers, at Fort D. A. Russell, Marfa, Texas, about November 1, 1935, will provide the opportunity. Commencing on October 20, 1935, the first 460 qualified young men applying for enlistment at stations authorized to enlist for this newly reconstituted organization will be listed and sent by rail at Government expense to Fort D. A. Russell where they will commence training under a schedule especially adopted for the 77th Field Artillery. Applicants, to be accepted, must be fully qualified as to physical condition, age requirements, marital status and educational qualifications, and must come well recommended by well-known citizens of their community. Full details as to requirements for enlistment may be obtained in person or by mail from any Army Recruiting Station without obligation on the part of the applicant.

Enlistments are authorized only for a short period subsequent to October 20th after which time vacancies will cease to exist and the opportunity to become a member of the Southwest's own heavy artillery will be limited to the few men needed to fill vacancies that will occur in the regiment from time to time. Applicants should, therefore, act promptly.

The 77th Field Artillery, a World War Unit of the 4th Field Artillery Brigade, 4th Division, was originally organized at Fort Ethan Allen, Vermont, June 13, 1917, as the 19th Cavalry which was redesignated 77th Field Artillery on November 1, 1917. It served overseas with the 4th Division from May 19, 1918 to July 29, 1919 and participated in action at Aisne-Marne, Meuse Argonne, Vesle (Champagne) and Rupt (Lorraine.) The 77th Field Artillery was made inactive on September 12, 1921 in which status it has remained until its current reconstitution.

### MRS. HUNTER IN CAR ACCIDENT

Mrs. W. M. Hunter was in a very dangerous car accident on Highway No. 1 between Mineral Wells and Weatherford Tuesday afternoon. Mrs. Hunter had left her home east of Spur to go to Aspermont where she was accompanied by a brother who was going to Fort Worth to consult a physician. It seems her car collided with another car. The brother suffered a broken limb and many other injuries. Mrs. Hunter seems to have escaped any serious injuries but suffered a great shock and many bruises.

Mr. Hunter received a phone call from Weatherford about the accident and left Tuesday morning by bus for that point. Mrs. Hunter and her brother are both in a hospital at Weatherford.

Laugh at "Oh, Professor."

### SERVICE

MUCH has been said and written of the "service" phrase of funeral direction . . . but we hold to the simple fact that Service is our ability to be ready at any time and our willingness to comply with your most detailed wishes.

BILL K'NNEY  
Funeral Director

### Hospital News

Mrs. Basil Cairnes of Clairemont, was in hospital over Thursday night for minor surgery.

Mrs. L. S. Wilson, city, who had an operation ten days ago, returned home Thursday.

Mrs. Elvin Thomas, city, was operated for appendicitis Wednesday and is doing well.

Mack Wilson, Jr., city, who underwent an operation last week, is doing very nicely.

Miss Onita Hahn of Highway, returned home Saturday.

W. W. Humphrey, city, was in for X-Ray and clinical examination last week.

Claudelle, little daughter of J. I. Carter, Spur, underwent a very serious operation Monday afternoon. She is doing well at this time.

Bill, son of W. D. Lang, of Jayton, was in for minor surgery Sunday.

Mrs. J. H. Smith of Girard, underwent surgery Monday and is doing nicely.

Mrs. R. E. Johnson of Espuela, who had major surgery two weeks ago returned home Monday.

Infant son of Prof. West of Afton, was in for minor surgery Tuesday.

Colan, son of Charlie Black, city, was in for minor surgery Tuesday.

J. H. Gage, of Afton, had tonsillectomy Wednesday.

Mrs. J. S. Smith of Glenn, is doing nicely.

### PALACE THEATRE HAS BIG ATTENDANCE TUESDAY

The Palace Theatre had a record attendance last Tuesday evening and the big auditorium was unable to accommodate the people. The Ritz Theatre was opened and the films after being run at the Palace were transferred to the Ritz where people saw them. In addition to this

there were hundreds of people who could not get in for the first shows and bought tickets and waited for the second program.

It was bank night at the Palace and Mrs. L. L. Mitchell, of Dry Lake community, was the favored one Tuesday night. Her interest for attending the show that evening was \$150.00, and she stated that she could use it in a profitable manner.

### DOCTORS MOVE INTO NEW SUITE OF OFFICES

Dr. B. F. Hale, Dr. Bob Alexander and Dr. M. H. Brannen are moving into a new suite of offices over the Spur Security Bank this week. Dr. Hale and Dr. Brannen will use the rooms formerly occupied by the Spur Mutual and Dr. Alexander will use the rooms which were occupied by L. D. Ratliff, lawyer. The hall has been extended until all offices have individual entrances. A nice reception room has been arranged at the front

convenient for patients who might have to wait a few minutes.

All the rooms are being finished in white and the walls will be ivory color. All rooms will have new floor coverings, and all parts will be refinished throughout.

Dr. Brannen, who is one of the leading dentists of West Texas, stated that had wanted these rooms for an office for eighteen years and just now is getting his wish. He has an X-Ray equipment and is prepared to do all kinds of dental work.

The Brown County Life Insurance Company, which formerly occupied these offices, has moved into another office just a little further down the hall and is ready to talk business to the people.

R. L. Tolbert has been suffering greatly from an infection in his foot. He is not able to be up at this time nor to assist with the business at the store. He is reported in a bad condition.

DO YOUR PART FIRE PREVENTION WEEK!

Fire Prevention Week is to be observed from October 6 to 12. And here is a thought worth considering in the meantime:

Friendly fire—fire undercontrol—is one of man's greatest boons. It keeps us warm, cooks our foods, motivates our industries, and serves us in countless other ways.

Unfriendly fire—fire out of control—is one of man's greatest enemies. It destroys property—causing irreparable economic loss. It menaces life. It hampers progress. It threatens community development, and industrial activity and employment.

A building for example, represents something besides money. It represents energy, achievement, labor. If it is a factory building, it represents creative, productive wealth. When fire destroys that building, insurance will give back part of the money it cost, but nothing can give back the energy that was wasted. Nothing can make up for the work lost, the jobs destroyed, the diminished purchasing power the first caused. The indirect costs of fire—costs which cannot be put into a balance sheet—are the real measure of our national fire waste. Those indirect costs are many times the direct costs.

SALES TAX WOULD SUPPLANT TAXES

The West Texas Chamber of Commerce recently addressed a letter to the West Texas members of the Legislature in which they stressed the vital revenue and taxation problems confronting the special session. In this letter they pointed out the fact, long known by Mr. Taxpayer, that new sources of revenues could not be raised by additional taxes on real estate—due to the fact that assessments now practically exceed the market values—and that ad valorem taxes must be decreased.

The letter of course was in answer to the Old Age Pension discussion. In view of the fact that pension costs would run from \$7,500,000 to \$56,000,000 per year it was understood that a new source of revenue would have to be found to feed this fund, and it was the object of the West Texas Chamber of Commerce to suggest "that at least one-half of new revenues raised be used for the purpose of supplanting and replacing present taxes on real estate and visible property." They requested the support of the West Texas members of the Legislature on that proposition.

The Chamber favored the old age pension, provided, of course, provisions were made wherein only the needy and worthy were assured its benefits. They pointed out that figures show that there are 283,000 Texans over 65 years of age and to give to all would require raising over \$56,000,000 annually, which is twice as much as is spent on Texas' public schools. To quote their letter, "We, therefore, suggest that provisions be made for extending the old age pension to the needy ONLY and that revenues no greater than \$7,500,000 annually be allotted to the pension fund."

As a means wherein revenues may be raised to handle the pensions and at the same time relieve property tax the C. of C. suggested the sales tax, rather than the gross receipt tax. The sales tax, it is believed, would compel only the consumer to pay while the gross tax is only an evasion. They urged the support of the sales tax to provide at least one-half of the revenue to supplant ad valorem taxes.

Such a tax problem, providing for old age pensions, would relieve property taxes and perhaps balance the budget, was the belief of the West Texas Chamber of Commerce.

The Times believed this letter well worth mentioning since West Texas pays taxes largely on lands, livestock and other visible property and in recent years the ad valorem tax load has been stagnating this part of the state. It is truly time that some things be done in fairness to real estate, which represents only one-third

SCHOOL DAYS

By DWIG

of the wealth of the state, since it has been bearing 75 per cent of all the taxes of the state, and its political subdivisions. The amount of delinquent taxes proves the statement "taxes consume 99 1-2% of the net earnings of property."

Another argument in favor of the sales tax is that the West half of the State with only about one third of the state's population pays 42 per cent of the state taxes. Since more than seventy per cent of the state's ad valorem tax is expended in the eastern and more populous section, it seems that West Texas is raising quite a sum of taxes to support the non-taxpaying population of the state. The sales tax would require every one in the state to pay some tax since it is a service tax.

There are today more than 150,000 persons in Texas who draw a salary of \$100.00 per month and more who do not pay any tax except a poll tax, and all of these people would be glad to do their part toward the support of the State government.

SELF-HELP SUCCEEDS FOR CO-OPERATIVE DAIRYMEN

The agricultural cooperative movement is making rapid strides among dairy farmers.

The United States National Milk Producers' Federation now has 53 affiliated cooperative dairy associations, with a total membership of more than 360,000 farmers distributed over 40 states. Their annual production is valued at \$250,000,000.

More than 35 per cent of all creamery butter produced in the United States is manufactured by cooperative associations. About a quarter of the cheese is manufactured by cooperative cheese factories. And about one-sixth of all the butter produced in this country last year was marketed by the five large cooperative sales agencies.

Progress such as this—much of it in the face of some of the hardest times American agriculture has ever experienced—is exceptionally encouraging. It indicates a willingness to work, to expand, to progress and to try new ideas on the part of farmers. It indicates that the cooperative movement has been the most beneficial influence affecting agriculture in recent years.

WHO WILL IF ANYONE, SAVE HAUPTMANN?

Edward J. Reilly, chief of the defense staff for Bruno Richard Hauptmann during his trial for the murder of the Lindbergh baby, declared that the German carpenter's friends damaged his case by bringing the German Jewish racial issue into the spotlight.

"Hauptmann's conviction and his approaching execution in the electric chair at Trenton, N. J., brings this factor to the forefront of public discussion, since many are still debating his innocence or guilt." Reilly states in an article in a recent issue of Liberty Magazine.

"Expressly against my orders" he says, "Hauptmann's friends tried to make it seem that a Jew, Attorney General Wilentz, was persecuting a Christian. They maligned Wilentz at every opportunity from the platforms of halls where they were trying to

raise funds for the defense and by issuing inflammatory printed leaflets which set forth that the whole case was a racial conflict."

This was one reason why Reilly quit the defense staff. "It was not because of non-payment of his fee, as most persons seem to think," the lawyer writes. "And it was not because I believe that Hauptmann is guilty. I cannot believe, as the State of New Jersey contended, that any one person could have kidnapped the Lindbergh baby."

"I have never been able to set up my mind at rest as to why Violet Sharpe committed suicide, nor why no one in the house on that fateful night heard a man entering the nursery window. I cannot adjust in my mind the fact that Hauptmann, a stranger, would know that the Lindberghs would be at Hopewell that one night when they never before stayed there during the week, nor can I understand the strange actions of Jafise, whose offer of \$1,000 reward brought response when there were numerous rewards of \$25,000 that went unanswered."

NOBODY'S BUSINESS

By JULIAN CAPERS, JR.

Austin.—With the period of "perfecting the record" about over—meaning the time during which members of the legislature facing re-election next year, have introduced for the sake of the record, about the full crop of "wild" measures about which they can brag during the campaign next summer—the special session was about ready to settle down this week and attempt to work out some constructive measures from the flood of good, bad and indifferent bills offered for the record.

The house expected to get onto the floor for debate at least one of three bills for liquor control. These range from the measure by Emmett Morse, wet leader, permitting sale in cafes and hotels—regarded as the "wet" bill—to that by George Moffett of Chillicothe, calling for state monopoly and sale only in unbroken packages, which may be taken as the extreme dry measure. In between, there is a proposal by C. E. Nicholson, Port

BRAZELTON LUMBER CO.

Regarding the National Housing Act

those of the big oil companies, the public utilities and others who remain constantly in Austin, numerous "specialists," including large whiskey lobby, and a sizeable representation from the hotels who seek to sell liquor, are on the job. So large is the "third house" at this special session that one airline has put on a special plane, politely referred to as the "Legislative Special," so lobbyists can sleep at home in Dallas or San Antonio and work in Austin without loss of time.

The whiskey lobby, which totally ignored Texas during the battle over the repeal amendment, is on the job in a big way now that some kind of liquor sale is certain, and they can't lose. They staged a two-day boat trip on the Gulf for all members who would go along, just prior to the session's opening. Candidates for the legislature from sections that are drier than some of their present representatives might check up on the personnel of this "party" and obtain some useful campaign thunder.

Last week, Walter Cline, \$25,000 a year managing director of the Texas Centennial Exposition, Inc., of Dallas, flew to Washington to see some federal officials. He suddenly discovered himself to be out of a job. While he was gone, the executive committee has announced his resignation from his lucrative post. Cline denied he had resigned, said he was being "forced out." What happened was that a bitter fight that has been going on for weeks behind the scenes had suddenly broken into the open—and Cline had lost. Otto Herold, recent manager of the State Fair of Dallas, was named temporary successor to Cline.

Cline never did business to suit the banking group which controls the Dallas Centennial machine. He was the last member of the original Texas Centennial commission cast to remain in the picture, and had been miscast from the outset. Cline is a big, colorful, talkative West Texan from Wichita Falls. His genius is that of a salesman and a contact man. He likes people, and they usually like him. On an executive job that required

a "hard-boiled" man capable of picking an efficient staff and seeing that it did its work, he was lost. He preferred the spectacular role, and he thought if he hired the best talent from the San Diego and Chicago fairs, they would look after the details. They didn't and couldn't. They found Texas conditions and Texas people altogether different, and they simply made no headway to organizing a great exposition, while expenditures rolled up to a point that scared the bankers and caused serious friction with the City of Dallas officials, who were putting up \$3,000,000 of bond money. Those who know Dallas will tell you that anybody who tackles the three big banks in Dallas is courageous, but lacking in discretion.

Over-indulgence in food, drink, or tobacco frequently brings on an over-acid condition which may result in Gas on Stomach, Headache, Sour Stomach, Colds, Fatigue, Muscular, Rheumatic or Sciatic Pains. To get rid of the discomfort and correct the acid condition, take

# RECIPES AND MENUS

By Department of Home Economics  
Texas State College for Women  
(CIA)

The use of bran, coarse cereal and graham in breads modifies the color, makes an interesting texture, and varies the flavor. The added bulk is highly valuable in the dietary because it stimulates the process of digestion by giving the digestive tract needed exercise. The addition of dried fruits and nuts to coarse breads imparts richness and interest.

**BREAKFAST:** Sliced oranges, omelet, bran breakfast sticks, apple jelly, coffee.

**LUNCHEON:** Toasted whole wheat bread and broiled oyster sandwiches, fruit salad, tea.

**DINNER:** Bouillon, baked fish, bread stuffing, buttered peas, french fried potatoes, bread and butter, cucumber and tomato salad, lemon ice, white cake.

**BREAKFAST:** Grapefruit, falston, cream and sugar, bran doughnuts, coffee.

**DINNER:** Tomato juice cocktail, roast beef, buttered carrots, creamed spinach, lettuce salad, oatmeal potato rolls, ice cream, chocolate cake.

**SUPPER:** Corn and green lima bean chowder, prune bread, tea.

**BRAN BREAKFAST WHITES:** Mix and sift one cup whole wheat flour, 1-4 t salt, 4 t sugar and 4 t baking powder. Mix in one cup bran. Beat one egg and mix with 1-4 c milk; add 2 T melted fat. Add liquid mixture to dry ingredients and stir until the dry ingredients are just moistened. Fill greased bread-stick pans two-thirds full and bake in a hot oven at 400 degrees F. about 20 minutes. One-fourth coconut may be added with the bran.

**WHOLE WHEAT OR GRAHAM BREAD:** Dissolve one yeast cake and four T sugar in 2 c scalded milk cooled to lukewarm. Brown sugar or molasses may be used instead of granulated sugar. To the milk mixture, add 2 T melted shortening, 1 t salt, 4 c whole wheat or graham flour, and enough white flour to make a dough that can be handled. Knead thoroughly, but keep the dough soft by using little or no extra flour. Place in well-greased bowl; cover and set in warm place to rise about two hours. When double in bulk, turn on board and knead for a few minutes. Mould into two loaves and place in well-greased pan. Cover and set in warm place to rise again for about an hour or until light. Bake one hour in a slower oven than for white bread.

**BROILED OYSTER SANDWICHES:** Arrange fresh oysters on broiling rack. Salt and pepper lightly. Broil at low heat 6 to 10 minutes. Dip in sauce and serve with thin slices of dill pickle between toasted whole wheat bread lightly buttered. The sauce is made as follows: Cream 4 T butter, add 1 T lemon juice, 1 T chopped parsley, 1 t salt, 1-4 t pepper. Mix well.

## 1500 Texans Killed Annually By Autos

Comparatively few people seriously realize the automobile's deadly power, but, according to Dr. John W. Brown, State Health Officer, over 1500 Texans are killed each year by autos. Very logically considered as a major recreational and useful mechanism, its ability prematurely to maim and kill makes little impression upon most of us. In fact, the daily list of casualties in the papers indicated indifference to the situation. Nevertheless, as a menace to life and limb the automobile unfortunately represents a real hazard.

In addition to its pleasure and utility factors, the motorcar has its devastating side also. Decidedly this fact should not be overlooked. And in this connection education alone can be

Shape into loaf in bread pan. Let rise again until double in bulk. Bake one hour in a moderate oven at 350 degrees Fahrenheit.

**COCONUT BREAD:** Bread containing coconut is seldom made, but the flavor when used for sandwiches with a jam or jelly filling is most pleasing. Cream 1 T butter. Add 1-3 c sugar, add 1 egg well beaten and 1-3 c sugar. Mix and sift 4 c flour, 6 t baking powder, and 1-2 t salt. To the egg-sugar mixture, add the flour mixture alternately with 1 c milk. Stir in 1-3 c shredded coconut. Put into a well greased bread pan. Let stand 20 minutes to one-half hour. Bake in a slow oven at 250 degrees to 325 degrees F. for 40-50 minutes.

**COCOA BREAD:** Mix and sift 2 c flour, 1-2 c cocoa, 4 t baking powder, 1-2 c sugar, and 1-2 t salt. Add 2 T melted fat to 1 c milk. Add milk mixture to dry ingredients and mix. Let stand 20 minutes. Bake in a moderate oven at 350 degrees F. for 40-50 minutes. Less sugar may be used.

relied upon to bring results. There is no serum, no drug, no quarantine procedure, nor any effective mass control against the automobile's damaging power. Automobile accidents caused more deaths in Texas last year than the combined deaths from typhoid fever, smallpox, measles, diphtheria, scarlet fever, whooping cough, and infantile paralysis.

Whether human nature can be sufficiently bridled by public opinion as to result in more careful driving and more cautious walking remains to be proved. But the fact is that a major health and life problem is involved in the present circumstances.

Safe water, clean milk, disease control, slum clearance, sanatoria, and indeed modern medicine and surgery are all of small avail to the speed-maniac who kills himself and others. Medical science also is equally powerless to save pedestrians who are knocked down by the careless driver, or who carelessly connect with careful drivers.

Citizens generally could well seriously consider this ever increasing challenge to life and health. Upon them rests much of the obligation definitely to reduce the ever increasing casualties.

Will Edgar, of Dickens, was doing some trading and talking with friends here Saturday.

## New Fall Suits

We can't over-enthusias too much about these suits. By every standard they are miracle values. Worsteds, flannels and shetlands in as fine array of patterns as you'll ever see. Single, double breasted models and the popular drape-in the season's most wanted colors. Patterns, plain colors, stripes. See them!

WE FIT'EM!

### "Save That Old 'at"

Our hat cleaning and blocking service is complete. Add another season's wear to that old Fall and Winter Felt. We use the most modern methods.

## OUR HEARS SUMMARY OF BOOK

"Within This Present" a popular novel by Margaret Ayres Barnes was reviewed by Mrs. Jim Foster in the Twentieth Century Study Club meeting at the home of Mrs. T. H. Blackwell Tuesday afternoon. The book deals with a prominent family in Chicago from 1914 to the present time. Mrs. Foster gave a brief review of the book and then at the request of the club gave a summary of the story. "The author of this novel has attained fame as a writer within the past ten years following an accident while she and her husband were in France and she was an invalid for a time," said Mrs. H. C. Foote, who gave the life of the author. The club will sponsor a baked food sale Saturday. Club members present were: Mrs. E. L. Caraway, Mrs. V. J. Campbell, Mrs. E. J. Cowan, Mrs. F. B. Crockett, Mrs. H. C. Foote, Mrs. J. M. Foster, Mrs. O. C. Thomas, Mrs. L. D. Ratliff, Mrs. O. L. Kelley, Mrs. J. A. Koon, Mrs. G. J. Lane, Mrs. E. S. Lee, Mrs. Ray Sanders, Mrs. V. C. Smart, Mrs. A. M. Walker, Mrs. W. B. Lee, Miss Clara Pratt and the hostess, Mrs. T. H. Blackwell. Mrs. M. E. Manning and Mrs. Clarence Lane were visitors. —Reporter.

## 1933 STUDY CLUB

Mrs. Foy Vernon was hostess to the 1933 Study Club on Tuesday afternoon. Mrs. John Albin led the discussion on the subject, "Pioneers of Dickens County," with Mrs. Herbert Swan and Mrs. Ray Taylor assisting. Mrs. P. H. Miller, as guest speaker, gave a most interesting talk on "Anecdotes of Texas." Tea with wafers was served to eleven members. o o o

## MRS. FLOYD McARTHUR BRIDGE HOSTESS

On Thursday afternoon members of the Thursday Club and others were guests of Mrs. Floyd McArthur. Following the games table prizes went to Mrs. Jack Rector and Mrs. McGuire. Pie and coffee were served to Meses. D. H. Zachry, Sam Clemmons, Weldon Grimes, F. W. Jennings, Rector, McGuire and D. L. Granberry. o o o o

## 1931 STUDY CLUB

The 1931 Study Club met Tuesday afternoon at the home of Mrs. F. G. Collier, President. The program was postponed and the time devoted to discussion and formulation of plans for the presentation of the play, "Oh! Professor!" to be presented this week by the Club. The ticket committee, Mrs. D. H. Zachry and Mrs. Weldon Grimes, urged the club members to sell tickets, stating that this was one of the best methods of advertising. "Oh, Professor" at East Ward Thursday and Friday nights.

## buy more books.

Each business firm in town will be charged a fee for a representative in the show, and this representative will be known by the business they represent. Also, Mr. Parker has promised a certain per cent of the admission fee, and this is no little sum since the Palace will give more than half of the amount of admission that evening.

It should be a thrill to all Spur people to see our school girls in a beauty contest. There will be out of town judges to select the town beauty.

See "Oh, Professor" Thursday and Friday.

## 20TH CENTURY CLUB FOSTER FOOD SALE

The Twentieth Century Study Club will foster a food sale at the City Drug Store Saturday of this week. There will be cakes and pies, dressed chickens and other articles for the Sunday dinner. They request your cooperation.

## SCHOOL WILI SPONSOR BEAUTY CONTEST

The Spur High School students and teachers will sponsor a beauty contest at the Palace Theatre Thursday evening, October 10. The contest will be held just between the first and second shows. The purpose of this contest will be to raise funds to supply more books for the High School library. The library books in the school are inadequate to supply the supplemental reading require by the students and there are no funds to

## DRY LAKE P. T. A. MEETS FRIDAY

The Parent-Teachers' Association for Dry Lake School will hold a meeting at three o'clock Friday afternoon. The meeting will be at the school and the school children will give a short program.

Mrs. Lee, of Dry Lake, is scheduled to give a talk, and Mrs. Twaddell, our County Superintendent, also will address the meeting. Parents and all others interested in the school are requested to be present.

Thursday and Friday nights, East Ward.
