By EARNEST E. HAYLEY

The Jayton Chronicle says, "To say the least of it there has been one speck removed from political life in the 19th congressional district."

We have long heard that the epitaphs of too many men should read, "Died at 30. Buried at 60." This, however, is not only true in the case of men, but cities and business firms are oftentimes guilty of being dead and nonprogressive long before they are closed.

Jean Suits in the Lockney Beacon says, in a word of consolation to defeated candidates, "Be it ever so humble, there is no place like home (not even the court house) and your old job."

Here is something we bet you didn't know and we didn't until we read it some place. There are six candidates in the race for the White House this year. They are: F. D. Roosevelt, Democratic; Alfred M. Landon, Republican; William Lemke, Union; Norman Thomas, Socialist; Earl Browder, Communist; D. Leigh Colvin, Prohibition. What, no brown derby?

A local lady, after visiting Carlsbad Cavern recently, says she doesn't see how it could be so cool that far down in the earth and still be in the general direction of the lower regions.

Giving Junior his Saturday nighter will not be so difficult now that Spur's new swimming pool is open.

Strange how quickly a man's sins are forgotten. Already the ill deeds of the recent candidates are being omitted from the usual street conversation. For the next two years the public will permit him to live the life of a good man. In 1938 he will again become unfit for public service.

The only difference between a school teacher and a political aspirant is—the voters talk about the candidate every two years while the tax payers talk about the teacher nine months out of each year.

Perhaps we are wrong, but it seems like it just gets hotter here in the summer time than it does in the winter.

What the Fort Worth Centennial needs to add real color to the "Las Frontier" is to engage the horse thief which operated and was captured in Dickens county last week. The 19 year old youth will likely be going to Huntsville soon and the Frontier officials may be able to talk him into stopping off there for a few days—with a good contract, and horse or two he could demonstrate with.

Parents have their troubles but not like the childless man who knows how to rear children if he just had one to illustrate with.

They tell us that Editor Chas. Guy of the Lubbock Avalanche-Journal, refuses to read any of the Hurst newspapers since he attended the Democratic National Convention. Knowing the power of the press as he does, our guess is, he doesn't trust himself.

There is just one thing wrong with the city of Lubbock—it is too far from the good city of Spur. But, on the other hand, that is what makes Spur good.

Oftentimes he who catches the fewest fish (or dollars) has just as good time, if not better, than he who catches more than he can use. The point is, enjoy life whether you acquire so many dollars or not.

Well folks, this has been the shortest three weeks we ever lived and breathed. Last week we announced that Truett Hutto would open a new cafe in three weeks, this week this paper carries notices of his opening next Tuesday. Gee, how time flies.

Hunters and sportsmen of Motley and Dickens counties were again advised this week that all the chicken territory, composed in part by Pitchfork, Bird, Matador and Echols ranches, has been converted into Texas Game Preserve areas and that positively no hunting would be allowed. Austin Aulds, state game preserve warden, informed the Times Tuesday that the territory, formerly considered chicken country, was turned into preserve territory on the 18th of last January and was done so because of the fast diminishing fowl life in this section of West Texas.

The chicken season opens September 1st, but hunters of this section will have to make other plans or else be subject to a fine of from \$50 to \$500. Warden Aulds stated that there would be no excuses accepted since publication is being given in newspapers and due display is being made signs throughout the areas under the preserve rule.

Mr. Aulds returned in June from Wichita Falls where he was transferred from here last winter. In his absence Mr. H. Bird has been serving as warden of this district. The state preserve man has headquarters at Chillicothe but says he will be located in Spur perhaps more than any other section of the district.

#### ATTENDS FUNERAL

Mr. and Mrs. Cliff Bird returned from Stephenville Saturday where they attended the funeral for Mrs. Bird's mother, Mrs. B. P. Barrett. Mrs. Barrett was 72 years old. Services were held at the First Baptist church in that city Thursday, July 30th, at 6 o'clock.

### Monday Night Fire Destroys 2 Firms

Fire of undetermined origin destroyed the equipment and contents of both the Blanton Shoe Shop and the Malone Second Hand Store here last Monday night. The blaze was discovered about 11:30.

The Blanton shop appears to have suffered the heaviest loss. It was owned and operated by H. B. Blanton. The Malone store also suffered heavy loss.

The fire department made a record run, but were still unable to conquer the blaze which had made great headway in the dry, frame structure, located on south Burlington.

### County Receives Benefits Of AAA

Dickens County has received \$641,526.44 in rental and benefit payments in the three years since the creation of the Agricultural Adjustment Administration, it has been announced by H. P. Drought, state director of the National Emergency Council.

Rental and benefit payments in this county for the cotton program totaled \$607,274.88; corn-hog \$15,850.13; wheat, \$18,401.43.

Rental and benefit payments in Texas amounted to \$139,412,186.46 for the three-year period, Drought said. Cotton rental and benefit payments made for the entire state aggregated \$114,070,836.72; wheat, \$16,581,120.10; corn-hog, \$6,403,258.44; sugar, \$705.98; rice, \$1,957,145.03; peanuts, \$381,111.19.

### Contracts Let To Pave Motley County Roads

According to information received here contracts have been let for the paving of the gap in highway 18 between Matador and the Dickens county line. They were let July 30th.

Commissioner T. E. Long, in the Roaring Springs Reporter of last week also stated that the loop thru Roaring Springs would be hard-surfaced, Highway 28 from Matador west would be surfaced.

Mathews Gruben was reported resting well following a tonsillitic operation in a Lubbock hospital.

### BOY SCOUTS PLAN WATER CONTESTS

Boy Scouts from six cities will hold a district meeting here Tuesday of next week during which will be featured water contests at the new municipal pool, stunts at the Jones Memorial stadium and barbecue at Swenson Park. Maurice Golding is general director of the meeting.

Troops from Idalou, Lorenza, Ralls, Wake School, Crosbyton, Matador and Spur, all members of the eastern district of the South Plains Council, will meet at the local pool at 3 p. m. for the various water events, including both junior and intermediate divisions. The barbecue supper to be served at the park at 6:15 is open to the parents of the scouts.

The public is invited to attend the water contests and the "stunt events" at the stadium following the supper.

Winners To Lubbock  
Winners in the various water events, including the first three places will participate in the grand meet at Lubbock Friday, August 21, announcements from the South Plains council state. Scouts not qualifying in the meet here may enter the Lubbock meet on bases of minimum time requirements.

### CAR WRECK VICTIM SUFFERS INJURIES

E. J. Lasseter, farmer living about six miles north west of Spur, was admitted to a local hospital yesterday suffering minor bruises and cuts about the face and body resulting from a car wreck about noon Wednesday.

Mr. Lasseter was driving toward Spur when a blowout threw the car out of control and crashed into a bar ditch. The Chevrolet was demolished. He was along. His condition was not reported serious at the Spur hospital.

Clinton Barrett, son of Mr. and Mrs. L. R. Barrett of this city, is in a Lubbock hospital where he underwent an operation recently. He is reported resting well.

Mr. and Mrs. Joe Long have as their guests this week, Patricia and Jo Jennings of Beaumont. The children are those of Mrs. Long's sister.

### SEPTEMBER 28TH DESIGNATED AS OFFICIAL "SPUR DAY" AT FORT WORTH FRONTIER CENTENNIAL; CITY TO CHOOSE "MISS SPUR" WHO WILL BE INTRODUCED AT CASA MANANA

A large electric sign atop the West Texas Chamber of Commerce building and overlooking the "gargantuan, fantastic and incredible" Frontier Centennial grounds will tell approximately 8,000 show visitors Monday, September 28th, that that date is official "Spur Day" at the Fort Worth celebration, according to information supplied the Times by the Stamford office of the W. T. C. C. this week.

The All-West Texas Resource and Community Exhibit Building will be virtually ruled by delegates from this city on that date late in September, as Spur's panel exhibit placed in the building long before the opening of the show, two reels of all-color motion pictures of the outstanding features of this section of Dickens county; and souvenir literature featuring the "bad features of the Spur country" will be majored during the day and throughout the evening, according to schedule already announced.

A fifteen minutes period over WBAP and by courtesy of the Fort Worth Star-Telegram will be devoted to a yet unarranged program or speaker. Plans for this feature will be outlined with Merle Tucker, Radio Director of the Frontier Centennial, at an early date, it is understood.

Suggestions from the West Texas Chamber of Commerce officials are that Spur choose a young lady as

### New Spur Municipal Pool Attracts 300 Swimmers Since Opening Last Saturday

More than three hundred swimmers have visited the new municipal pool, located in beautiful Swenson Park, since the place opened last Saturday, officials at the pool informed the Times last night. Installation of lights this week is expected to double the average attendance before another ten days.

Rent suits and towels have arrived which is also expected to result in heavier patronage.

Free swimming lessons will be given patrons of the pool, beginning next Monday, under the direction of four expert swimmers, employed as life guards. According to announced plans, the lessons are to be given in class order on Mondays, Wednesdays and Fridays with children (11 to 16) between the hours of 9 and 10 a. m.; children under those ages will receive instructions between 10 and 11 a. m.; advance classes will be conducted from 11 to 12 o'clock.

On Tuesdays, Thursday and Saturdays free classes in the instruction of life saving and diving will be held between the hours of 10 and 11 and 11 and 12, respectively. Of course in the case of each, the free swimming, life saving and diving classes there will be usual charges of admission to the pool but the classes proper will be conducted free.

Special classes for adults will be formed, the pool officials have announced, should the demand prove large enough.

Season tickets were placed on sale this week at prices of \$2.00 for all under 17 years and \$3.75 for adults.

Besides Richard H. Dodeke of Lubbock and Morris Lane, of this city, the city officials have employed D. D. Humphreys, graduate of Texas Tech and Clifton Kimbrough of this city as life guards and instructors.

Rev. Vanboneau will conduct the preaching services, it is stated, and the public has been extended an invitation to attend.

S. R. Peek of Afton was in town Friday. He was a caller at the Times office, while here attending business.

#### Ballots Delayed

Although absentee voting legally began Tuesday, there has been no voting in the state. The reason is there are no ballots.

The ballots cannot be officially made up until the state committee meets August 8th. Although some counties are issuing ballots based on unofficial returns, Dickens is awaiting the action of the committee. So absentee voters must "hold everything."

### MAY PAVE HIGHWAY 24

The State Highway Department this week announced proposed plans to hard-surface the unpaved highway 24 between Benjamin and Dickens through the federal aid system.

There are approximately sixty miles of the unpaved strip which is perhaps the most disagreeable state route, during wet weather, of any in West Texas. It is a direct route from this section to Dallas and Fort Worth, and though passable it isn't even good during dry weather.

### CHANGES MADE AT SHERIFF'S OFFICE

Wayland Lee's resignation as clerk at the Sheriff's office became effective Saturday of last week when he became bookkeeper at the Dickens Lumber company. Mr. P. H. Miller of this city is visiting in Rising Star this week.

### CROPS WILL SOON NEED MOISTURE

The month of August opened with general trade conditions throughout Dickens county on an upward trend, according to reports of various leading business firms. While the hot weather continued little damage was reported yet done to crops.

With field work at more or less a standstill, awaiting additional moisture, farm workers were crowding the streets here this week to all but remind one of a busy Saturday. Clothing and grocery establishments are most effected.

Although sections of the western part of the county were said to have ample moisture, the McAdoo, Afton and East Afton and Spur to Dickens areas were beginning to show slight need for rain. Less hot-winds this summer, with cooler nights the past ten days, have done much to preserve what moisture crop lands have retained since the spring and early summer rains. In general crop outlooks are good even without additional moisture though rains within the next ten days would double the crop yield in this county.

### Methodist Revival Closes; 16 Additions

A week summer revival which was conducted by Dr. Brabham, president of McMurray College, closed at the local First Methodist Church Sunday night following sixteen admissions to the church, Rev. Yeats, local pastor, announced this week. All but two of the additions were made by baptism.

### Life's Greatest Joy!

By George S. Link, Sr.

Can be found by all of us and yet, often our own selfishness blinds us and we fail to see those opportunities for service that bring life's greatest joy. As we think of people we have known or read in history of we do not consider those of great wealth as being the ones who knew life's greatest joy, but we do think of those who render some unselfish service that has made the pathway of others a bit smoother.

Man has ever sought what he thought would be happiness and when he acquired that thing "it became a serpent in his hand." God intended that all men should feel life's greatest joy and made it so the requirements were not beyond our reach. If He had made wealth the key to unlock the store house where life's greatest joys were kept how few could even see these priceless gems but He made the key not of gold but of service and made it so we knew not when we were unlocking this wonderful realm; for its gates of beauty swing ajar as an unexpected signal to some unselfish service well performed.

There is a log-book that tells all men the road that leads to the store house of "Life's greatest joy." No man who has ever followed it has at the end of the journey wished he had gone another road but we can hear the voices of millions as they come to the end of the way that they chose to bring them happiness as they wail and cry, "Oh, if I had followed the direction of the Great Log-Book of Life." How many ship-wrecked lives along the seashore of time have gone that way because they made their own boat and directed it to the isle of personal gain and pleasure and said, after I have tasted the joys of sin for a season I will then get aboard the vessel that will take me to the realm of eternal joys but alas! the temptations were too great. They stayed too long on this island that they thought would be the place of happiness and it became the island of "Despond." Millions are happy, millions are miserable, who live in the same country; view the same hills, valleys and streams, see or could see the same flowers and smell their fragrance. We find happiness and misery among the poor, and rich. It is not what we have, it is our attitudes. "It is not the houses we live in that makes happy homes but the way we live in the houses." It's a good old world for those who seek the good and misery lurks ever in the pathway of those who want to ignore the teaching of He who notes the sparrows fall.

This world was made for man and sometimes it seems to me man has been God's greatest disappointment. The animals do as He directed but man alas! how often his actions would indicate he thought himself wiser than the God who created him! But there are so many of those wonderful characters who feel unworthy and think they are doing so little who are God's noble men and women, they are the salt of the earth and keep us knowing that life may be beautiful. We grow despondent sometimes when we see a list of criminals, amounting into thousands, and then we think of the millions who fear God and keep his commandments. We see young and old drinking that liquid fire that burns out body reason and soul and

### Employment Changes At Local Pharmacy

A change in the personnel at Sanders & Chastain pharmacy last week ended resulted in the employment of Pike Nichols as fountain man to fill the position left vacant by the resignation of George Tillinghas. George is going back into the insurance business, a vocation followed until he began working at the local pharmacy several months ago.

decide we are a nation of drunkards or soon will be, and then we think of the thousands who will not touch the demon rum. One of the alarming things is the gambling spirit. Yet, there are still many who will not pull the lever of the slot machine or do anything that might cause the young life to think he can get gain in an impossible way. How many gamblers did you ever see whose credit was good?

Well, the rain is coming, the cool weather, too; and this is God's country we live in.

## WOMEN'S COUNCIL HOLDS MEETING

The Women's Council of the First Christian Church met at the home of Mrs. E. L. Caraway Monday afternoon at 4 o'clock for a Missionary lesson.

The meeting was called to order by the President, Mrs. Arthur Prichard, and after an introduction of visitors and the giving of the Lord's Prayer in unison the meeting was turned over to the program leader, Mrs. W. L. Edwards, who gave the devotional on Prayer. The song "Sweet Hour of Prayer," was followed by a prayer by Mrs. Dolly Putman.

The first paper "Negroes as Explorers, Inventors and Artists" was given by Mrs. E. C. McGee. Next "Negro Spirituals" by Mrs. J. S. Clay.

Mrs. Arthur Prichard and Miss Lenora Lisenby reviewed a playlet, "Some Personalities of Slavery Days," two small negro girls, Doyle and Elvora McDonald sang at intervals during the playlet, "Swing Low Sweet Chariot," "The Old Rugged Cross," "Standing in the Need of Prayer," and "Lord I Want to be a Christian." At the conclusion of the last song the meeting was turned back to the president who conducted a short business session after which the hostess served lemon ice, pound cake, Ritz and iced tea to the following guests: Mesdames E. C. McGee, O. L. Hale, Steve Crockett, W. F. McGlathery, Ed Lisenby, Nell Davis, J. M. Woods, J. S. Clay, L. R. Burrow, I. G. Van Leer, Cecil Addie, Arthur Prichard, Cash Wilemon, W. L. Edwards, S. Ellis, Dolly Putman, Walter Jimison, Ralph Garrett, and Misses Marjorie Burrow, Lenora Lisenby, and the following children, JoNell Addie, Leona Glenn Gillett, Bob Clay, Junior Edwards, Cash Wilemon, Jr., and the negro girls, Doyle and Elvora McDonald.

## REPORTS GIVEN IN COUNTY COUNCIL

"Everyone can have a beautiful Centennial quilt of memories if we learn to see and hear beautiful things," said Mrs. Floyd Barnett in reporting on Miss Bess Edwards' talk to the women at the Short Course, in her report of the Short Course in Council Saturday afternoon.

Miss Hazel Moore, McAdoo, gave a demonstration facial similar to one Miss Josephine Hodge of Hodge Beauty School, Houston, gave in Short Course on "Looking Your Best." She gave a recipe for a home made lotion for greasy skin and large pores. To make it slightly beat one egg white with one teaspoon salt. Apply to skin and wipe off almost immediately. After a few days' use the lotion may be allowed to stay on the face for a few minutes.

"The crazy patch quilt is the oldest known quilt pattern, the Lg Cabin came next and then Star patterns," said Mrs. John Bachman in reporting on the quilt lecture and exhibit. "Bind the quilt with the color of the lining cut a true bias and round the corners slightly."

Mrs. Ollie Hindman gave excerpts from Miss Grace Neely's lecture on the 4-H pantry in Everyday Living. Miss Neely is Food Preservation Specialist. She emphasized the value of vitamins and canning to save food value.

"The food a child eats the first six years of his life determine his health after thirty-five years of age," she said.

"Miss Neely has changed the arrangement of the canned food on the pantry shelves to place the pickles, jam, jellies on the top shelf, then fruits and tomatoes, then leafy, green and yellow vegetables, other vegetables and then meats on the bottom shelf since that is the cooler shelf," said Mrs. Hindman.

Council voted to have the fall food exhibit October 31.

Members present were: Mrs. Floyd Barnett, Council chairman; Mrs. R. C. Alexander, vice chairman; Mrs. John Bachman, secretary; Mrs. Ollie Hindman and Mrs. I. E. Abernathy, Soldier Mound; Mrs. J. R. McArthur and Mrs. Matt Howell, Red Top; Mrs. Roy Johnson, Espeula.

Nelson For Attorney-General

THE ATHENS DAILY REVIEW, after being attracted to Senator G. H. Nelson, of the 30th district, through a speech he made there in behalf of Gov. James V. Allred's campaign, has all but announced the West Texas man as a possible candidate for the office of attorney-general two years hence.

The East Texas publication was not only impressed by the Tahoka man's ability to speak, but found in him a logical thinker and one that has "a grasp of state affairs that few men possess." He was pronounced "aggressive, a fluent speaker and another one of the outstanding men who has made his own way."

Last Sunday the Lubbock Avalanche-Journal came out in editorial comment to say, "... and we see no reason why he should not be amenable to the idea six years from now, if not two years from the present time." It did go further, however, to state that most West Texans did not stand a chance in a race for a state office and illustrated Clint Small's gubernatorial efforts.

Senator Nelson is a fine man and well capable of handling the duties of the office of Attorney-General—if the rest of Texas ever sees fit to help West Texas put him in Austin.

Another Great War Feared!

THE EUROPEAN SITUATION is said to be even worse today than it was in 1914. News releases say, "The 22-year-old memory of the first battles of the World War is pinioned today on the bayonets of European rearmament."

Loyalist and rebels are engaged in a bloody civil war in Spain, while France, Great Britain and Italy clash over who is to have rights of filling orders for war supplies.

In general, an armament race, mutual suspicions and hatreds and failure of efforts of collective security and peace have brought about a situation which most statesmen declare is worse than that which plunged Europe into war in August, 1914. Many believe that the wheel of destiny has turned an almost complete cycle from peace to war within 22 years.

Has the Treaty of Versailles failed? Adolf Hitler has re-armed with an army six times larger than was prescribed by the treaty. Mussolini, in Italy, has made plans for war. France wants to avoid war, while Great Britain is said to be unprepared.

Uncle Sam may not be expecting war, but at any rate both the navy and the marines have been conducting the most consistent enlistment drives, for the past few months, this country has seen since the World War days.

America doesn't want war. But, from the outlook of conditions in Europe today, the sweetest consolation we have is to be found in the Bible quotation, "There shall be wars and rumors of wars." Uncle Sam and his people are trusting that reports from European centers will prove to be "rumors."

The Insect and the Elephant!

WHAT CHANCE does the small insect have to influence the actions of the elephant? How much attention does the larger animal pay to the bite or sting of the winged insect? It has just about as much influence as the average country newspaper or the farmer-producer citizenship may have over the so-called "members of the trade" who control the price in the cotton market.

The average cotton market last week was 30 points lower than a week earlier and the Cotton Market News Service says, "Press reports attributed the decline largely to private estimates of a larger 1936 crop than members of the trade had expected earlier in July."

Of course this sting will hurt those members no more than the insect hurts the elephant, but it is as unjust action for them to rob the farmer on the market boards as it would be to use a gun. In reality they deserve a jail term just as quickly, also.

Their first estimation was that the farmer would not produce much cotton, so they would pay him a good price—then the reports began to come in that the yield would be larger than they expected, so they don't pay so much. The way it now stands the farmer makes no more from a four bale yield than he does from two. His crop average is about the same, regardless.

This power of control doesn't come from the government. It is the moneyed man on Wall Street, the robbers of the producers. The mob has been active for many years, and the only way the producer will ever be able to sting with any more success than the insect on the elephant will be to organize with such strength as to overpower the "members" behind the board. The first step of such an organization might be acquired through a nation wide tie-in of various co-operative societies.

Those concerned are about as angry as the insect and sting with about as much determination—with about as much results.

The Pride of a Nation

AMERICA'S vast network of steel rails, maintained by leading railroad companies, is the pride of a nation. That pride, however, was about to become lost before an avalanche of motor freight lines, cross-country busses and air lines. America's railroad associations did not go to sleep, they only took a short nap. During that time they suffered—not a swift slide—a slow irresistible descent.

Today the railroads are coming back. Service was never so good as it is today, freight and passenger trains never ran between points in such short time, facilities were never so adequate. A cut of more than four dollars has been made on the cost of moving a ton of freight a thousand miles, passenger fares have been sliced and similar progress has been made in every phase of operation. The railroads are returning to their own not only because of vast improvements but because they are advertising. You will find one of their advertisements in this issue of the Times.

Safeway Stores Add Sales Stimulation, Boost Consumption

Creation of wider markets for Texas agricultural products by stimulating increased consumption has been the object of five intensive farmer-consumer campaigns waged by Safeway Stores, Inc., during the past six months, it was announced here today.

The campaigns which have been praised by farm leaders throughout the country were conducted in behalf of various industries representing beef, lamb, citrus fruits, dairy products and canned peaches.

This plan to help agriculture was originated by Safeway nearly five years ago when sheep men were faced with financial ruin because of enormous surpluses.

Through extensive newspaper advertising Safeway marketed in excess of 15,000 lambs in two days.

This cooperative movement resulted in immediate financial salvation for the sheep industry and led to the inauguration of the farmer-consumer campaigns.

Summarizing the effect of the campaigns, it is said, Safeway is striving continually to reduce living costs to consumers and at the same time provide the farmer with an easy and profitable distributing system without paying unnecessary "in between" expenses.

Considering how fine this railroad transportation is nowadays, you can't travel any cheaper. Fares lowest in history—substantial savings on round trip tickets. So why not take the train? It's safer. It's more dependable.

You can't beat the improved travel comfort in coaches and sleeping cars. It's a good thing movies don't have such restful seats—most folks would sure fall asleep.

Ever hear about the new Free pick-up-and-delivery of less than carload freight? It's a great convenience to shippers and receivers alike. Western railroads pick up at the door, ship by fast freight, and deliver to door at no extra charge.

Railroad trains are running on faster schedules these days. Seems like the iron horse wants to show these new streamlined diesels that he can step out, too. Both passenger and freight schedules have been speeded up.

What's more, the railroads believe in "safety first." Last year not one passenger was killed in a train accident on western railroads.

Talk to your local railroad agent. He's full of information about traveling and shipping.

We are proud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.

Is The Great Fundamental!

Health is the great fundamental of life. An education is of little value without health. Wealth loses its savor unless there is health to enjoy its advantages.

The attainment of health is a matter of close attention to nerve lines. When the mental impulses that travel from brain to nerve cells in all organs of the body are able to go and come with freedom, there is normal action in all organs, and a state of health is realized. To free the spinal nerves of interference takes CHIROPRACTIC spinal adjustments.

It was the gauge of the personality of Fry that those who knew him best thought of him—not as a civic leader and executive head of large and important enterprises—but as a friend.

Many honors came to him in the course of his busy and useful life. He achieved unusual measure of success both in business and in public life. But the inherent modesty of his character remained unchanged. He was, and had always been, a simple Christian gentleman.

**Amazing Prediction of Future Given In H. G. Wells Film; Robinson Show Saturday**

History students and readers of the H. G. Wells historical books have in store a great pleasure next Tuesday and Wednesday when the local Palace Theatre will play "Things To Come." The film is taken from the book, "The Shape of Things to Come," which is within itself an amazing prediction of the future. If the screen production is anything like the book it will carry today's generation far into the year 2000 when everything will be controlled by the government and individuals will have only assigned duties to attend to. It is thrilling in drama, awesome in scope and uncanny in its realism.

A dramatic thunderbolt, with all the dramatic power of "Little Caesar" will show at the Palace Sunday and Monday after a midnight preview Saturday night, according to the local management in boosting the Edward G. Robinson film "Bullets or Ballots."

The film has been considered by some critics as Mr. Robinson's greatest production. It is said that he is more vital, more human than he has ever been before in this part where he is a hard-boiled detective who joins a gang to smash a racket. Lovers of the "G-Men" type picture will enjoy this production that carries not a dull moment.

Saturday matinee and night will find George O'Brien on the Palace screen in "The Border Patrolman."

**BUSINESS IS GOOD IN**

*New York*

*Paris*

*Hollywood*

AND

**SPUR**

Business is good in New York, Paris, Hollywood and Spur, according to reports sent out by the Department of Commerce in Washington, D. C. Building permits are higher, crop outlooks are bright, in spite of the threatening drought in various sections of the nation.

Building and improvement projects within Dickens county and Spur are indications that business prospects for next fall are extremely good.

A local theatre is making plans for vast improvements which will call for heavy expenditures to cover the cost of installation of new Western-Electric Wide-Range sound equipment and new projection machines besides improvements on the building proper. Improvements are being planned for another theatre while still a third movie-house is being built this month.

A local store is spending thousands of dollars on an expansion project that has already required more than a month's laboring time.

Businesses are moving to larger quarters. Many homes throughout this city and the entire county have been built or remodeled within the past few months.

A new cafe will be opened here next week.

The City of Spur is spending thousands of dollars on an expansion of the water system. New mains are being run into new territory while new and larger pipes are replacing the old.

Conditions are better and outlooks for the future brighter than they have been in any year in the past six or seven. Without an avalanche of "hard-luck" Spur and Dickens county is due a period of continued good business with prospects ever favorable for a good old-fashioned boom.
