927 Registrants In The County

R. C. Brown, chairman of the County Draft Board, stated Tuesday that 927 people had registered in Dickens County in compliance with the recent act of Congress.

Mr. Brown stated that there would be a few more registrants since they had received instructions to accept all persons who voluntarily presented themselves for registration before the first drawing which now seems to be about October 29. If anyone in the county has failed to register, it will be best to register at once. Farmers who have Mexicans picking cotton for them should instruct these Mexicans to register if they have not done so. Some of the Mexican population may have misunderstood, and thinking their registering at the post office for citizenship is what is required at this time. That registration has nothing to do with the draft registration. This should be explained to them.

There is a very serious penalty placed on those who fail to register. Failing to register for army training places a penalty on the person consisting of a fine of \$10,000.00, or five years imprisonment in the federal penitentiary, or both such fine and imprisonment as evidence in the case may be brought out.

It is hoped that no one knowingly will refuse to register. Other names may be announced later. List of persons registering Wednesday, October 16, will be found on page 4.

Harland Weaver, Treasurer; Homer Ray Smith, Reporter; Robert Hahn, Historian; Wilburn Ball, Parliamentarian, and Glenn Hahn, Farm Watch Dog. Cecil Ayers, local advisor, will act as advisor. Robert and Wilburn will act as conductors as well as filling their offices.

MISSIONARY TO SPEAK AT PRESBYTERIAN CHURCH

The well known missionary to Haikow, China, Dr. W. C. McLaughlin, will arrive Thursday afternoon and will speak on the war torn condition of that great country Thursday night at 7:30, at the Presbyterian Church, Spur. Dr. McLaughlin has been a marked missionary for twenty-five years under the employ of the Southern Presbyterian Church. His field has been in the direct path of the Japanese invasion and at least eight separate times his field has been held and retaken by differing—spanese and Chinese forces. Much in the path of war has been destroyed both in hospitals, and other mission properties, such as churches, schools, homes and other sections of mission compounds. The Southern Presbyterian church has had more hospitals in China than in any other of her mission fields.

Dr. McLaughlin states that never in the one hundred years history of Protestant Christian missions in China has there been such a general acceptance of Christ on the part of the native resident of China. He has some very interesting experiences to relate. He was the center of missionary attractions at the recent meeting of the Synod of Texas at Kilgore.

More Conservation Checks Received

The Department of Agriculture reports that a number of soil conservation checks have been received since the last statement. These arrived on three different dates and numbered 204 checks amounting to \$28,263.35. This brings the total number of soil conservation checks received up to 319, amounting to \$53,255.80.

Only two parity checks have been received within the past week bringing \$111.61 into the county. The total amount brought into the county by parity checks is about \$145,947.16. There will not be much more come into the county by parity checks as that part of the farm program has about been fulfilled. Just one or two parity checks each now will about be the run.

The soil conservation checks will be coming in for several days yet. In fact, they are just getting started. There are 492 soil conservation applications for 1940 been sent in and some of these applications will bring more than one check.

Enjoyed Some Good Fish

Ben Schussler, of Highway, was in town Monday and stated he enjoyed a very fine time last week. He went to Louisiana to visit with friends, and while there stated he enjoyed some very fine fish. He acknowledged that he did not catch them, but said they had Channel Cat to let. He brought back fish to several friends and still had all his family could consume for a day or two.

Mr. Schussler said he is preparing to go back to Louisiana the last of this week and expected to enjoy some more of those fine fresh water fish.

The members of the Local Draft Board, of Dickens County Local Board, has been announced and are at work. The duty of this board is to list all registrants and give each one a number and report these to the state headquarters. This list will never be sent to Washington. Then when certain numbers are drawn in Washington, it will be the duty of the County Local Board to post such numbers. It is not the duty of the Local Board to answer questions for any portion of the registration or drawing of names. That duty belongs to the County Advisory Board composed of another list of citizens.

Members of the Local Draft Board are: R. C. Brown, chairman; O. L. Kelley, secretary, and R. R. Wooten. These men donate their services to the government. As stated above they are not to answer questions, and anyone desiring information should discuss with the Advisory Board.

The Examining Physicians for Dickens County are: Dr. P. C. Nichols and Dr. L. E. Standifer, both of Spur. The Government Appeals Agent is Attorney L. D. Ratliff.

Bulldogs To Tangle With Longhorns

The Spur Bulldogs will go to Lockney next Friday afternoon to tangle with the Lockney Longhorns in a very hotly contested game. The Bulldogs showed very fine in the game last Friday night against the Ralls Jackrabbits, and against odds in weight and came out winners. The Lockney game is destined to be a far more thrilling game and the Bulldogs are in fine condition for the fray.

It is hoped that 500 people from Spur will accompany the Bulldogs to Lockney and be boosters on the side lines while the boys fight to win the game. The Bulldogs still have an opportunity to stand high in the bracket of games, and let's get behind them, and help them to win all the remainder of the conference games.

The Spur school band and the Pep Squad will accompany the Bulldogs to Lockney Friday. The game will be called at three o'clock in the afternoon. With a team putting up the fight the Bulldogs are, all of us should be on the line boosting for them. Let's go to Lockney.

THE TARGET'S IN THE SKY

Working with a precision matching that of the mechanism of their weapon, these artillerymen serve an anti-aircraft gun during rapid-fire practice. With sensitive sound-detectors for ears and powerful searchlights for eyes at night, this type of high-range gun is designed to protect military and industrial areas from attack by enemy aircraft. It is operated by members of an Anti-aircraft Regiment of the Coast Artillery Corps.

Will Conduct Bakery Sale Saturday

The Woman's Auxiliary of the Presbyterian Church will conduct a bakery sale in the C. L. Love building next door to the Spur Theater next Saturday, October 26. Funeral For Mrs. Nannie Carlisle

Funeral services were conducted Tuesday afternoon at 3:30 o'clock over the remains of Mrs. Edgar Carlisle at Spur cemetery. Rev. R. C. Brown was in charge of the services. Interment followed in Spur cemetery with Campbell's funeral chapel in charge. Pallbearers were: Emmett Higgins, Walter Driggers, Oma Higgins, Fred T. Raney, J. T. Carlisle and Vernon Gregory. Flower bearers were: Minnie Mae Higgins, Carrie Boothe, Lillian Arnold, and Mrs. Frankie Johnson.

She was born at Lampasas September 25, 1886, and was the daughter of Gus and Mary Mitchell Carlisle. She was married to Edgar Carlisle in Motley county May 3, 1905. They moved to Dickens County about 1910 and have made their home in Duck Creek community since.

She was converted about 1910 and became affiliated with the Church of Christ. That has been the church of her choice since. She is survived by her husband and two brothers, Marion Mitchell of Lamesa and Mat Mitchell of Roswell, N. Mexico. A son, Augustus Carlisle, passed away before her.

"COME AS YOU ARE" BREAKFAST GIVEN 1933 STUDY CLUB

Friday morning, October 18, the 1933 Study Club was surprised with a "Come As You Are" breakfast at the home of the club president, Mrs. J. C. Ramsey.
At about seven o'clock each member was surprised by a knock on their door and requested to appear at Mrs. Ramsey's for breakfast "just as you are."
After all the members arrived, Mrs. C. H. McCully and Mrs. O. C. Arthur directed an impromptu program. If any member failed to perform as requested they were fined thirty cents. Of course, each member had to pay the fine—but the following program was enjoyed by all:
Music numbers—Mrs. M. L. Steele, Mrs. C. S. Thompson, Mrs. Geo. Gabriel and E. H. Boedeker.
"How to Kill a Club"—Mrs. J. C. Ramsey.
"The Kind of a Wife I Would Pick If I Were a Man"—Mrs. W. F. Gilbert.
"A Demonstration of the Process Mrs. J. C. Payne Goes Through in Milking Her Cows"—Mrs. Swan and Mrs. Coy McMahn.
"America"—Sung by Mesdames McCully, Lonnie Lewis, Charlie Powell, Foy Vernon, Jerry Willard, J. W. Carlisle, J. H. Miles, Thurmond Moore—Organist, Mrs. O. C. Arthur.
After much laughter and fun the club enjoyed buttered rolls, scrambled eggs, sausage, fritoes, strawberry jam and coffee.
Mrs. McCully collected the fines and explained that the breakfast was in celebration of the Golden Jubilee birthday of Federation of Womens Clubs, and the money is to be sent to Federation headquarters as a fund to be used to create "Americanism" and aid in national defense plans.

SPUR SCHOOL NEWS

WILL TRY TO OPEN LUNCH ROOM BY NOVEMBER 1

The sponsoring organizations of the Spur School Lunch Room are endeavoring to secure a place to conduct the lunch room again this year. They would like to get the work in progress by November 1, if possible as a number of children are illy situated relative to securing the proper type of lunches during the school days.
Eleven different commodities are available at this time. The W.P.A. office will furnish surplus commodities and will pay the labor expenses. The local sponsoring organizations, which are composed of ladies in the school district, will have to provide place and secure the extra groceries needed. A proper room of sufficient size and accommodations is the great problem now. Several are out looking for a room, and it is hoped they will report to Superintendent Thomas at once relative to their progress.
The school lunch room was not operated last year, but its need is greatly and it is hoped to get it into operation at once.

Grade cards seem to be holding the greatest interest this week. Grade cards were given out Wednesday afternoon, and it is the hope of the school faculty that parents will examine and sign grade cards at once and see that the pupils return them to school. Promptness in this matter might save your child from having his grade lost.

In the music department the Glee Club is doing some fine work in song practice. Also, a Junior High Choral Club is forming up nicely and will be going in high soon. Miss Bacon is doing fine work in this department.

In the Speeches department the classes are having panel discussions on the subject, "Ways to Make Money for the Senior Class." LaVoris Lee is chairman. The students discuss such topics as, bakery sales, plays, carnivals and pie sales.

The students in the Homemaking department are making a study of special cuts of meat. Tuesday the classes prepared such dishes as brains and eggs, pickled tongue, liver smothered with onions, stuffed beef heart, breaded kidney and scalloped liver. Some of these were novelties to the students, but they went through with the work and the project proved the preparation of some very delicious foods.

The Homemaking students are rounding up for the general dis-

trict meeting which will be held at Dickens Saturday, October 26, which is next Saturday. The Spur pupils will have charge of the recreational period of that meeting which will be Saturday afternoon.

GRAMMAR SCHOOL NOTES

Miss Albin will have charge of the program in the chapel exercises today (Thursday). The Cub Scouts will assist her and the school is expecting a very fine entertainment. The program will be at 11:40 this morning and parents are extended an invitation to be present.

The Grammar school students are going to have a part in the annual Halloween carnival which will be held Thursday night, October 31. They will have the booth and will sell hamburgers, hot dogs, peanuts, popcorn, cold drinks, hot coffee. The booth will be located conveniently to the public. The carnival will be held on the streets in the business section.

Room 5-B won the Parent-Teacher membership drive which closed also Friday. They secured 20 paid members and held the highest percentage in the race. They will get to enjoy a free picture show through the courtesy of the Palace Theatre. Room 6-A was second with 13 members and room 7-B was a close third with 16 members. There are four other members for the Parent-Teacher Association and the Grammar school has a very fine enrollment in this work this year.

EAST WARD NEWS

The membership contest at the East Ward school closed Friday afternoon, and Mrs. Engleman's room won first honors by securing 113 per cent membership. In other words, those pupils brought in more than a member for each pupil in the room. Pupils of that room are to enjoy a free theater party through the courtesy of the Palace Theatre. Mrs. A. G. Dunwoody had a great deal to do with the success of this membership campaign. She did all the checking and kept the campaign peppy by making the announcements of the progress.

The East Ward has 115 members in the Parent-Teacher association. They had 65 last year, and before that they usually had about 35 members. They have a fine organization this year and Mrs. E. S. Lee is the president.

Last Friday the assembly program was on health. Mrs. Charlie Cravy was in charge, and there were 50 mothers present to enjoy the program. After the program

was over, Mrs. E. S. Lee called the mothers together and talked with them about subscribing for the Parent-Teacher Magazine. The object is to organize a club and get reduced rates on the magazine. Any parent interested in securing this magazine is instructed to get in touch with Mrs. E. S. Lee.

A rhythm band is in the process of organization at the East Ward. This will include pupils in the first, second and third grades. Samples of uniforms have been received and a selection made. They will start rehearsing as soon as the uniforms are secured. Mrs. Engleman and Mrs. Patton will be in charge of this work.

East Ward pupils are to take a big part in the Halloween Carnival Thursday night, October 31. They will have about nine of ten booths in charge. There will be most every kind of act from ringing a duck to a fun house. Real live ducks will be a booth. Mrs. M. H. Brannen and Mrs. L. D. Ratliff are the committee. Pupils have begun to select things for prizes. This is an annual affair started by the East Ward several years ago. One interesting performance will be given by the "Tiny Tots" as side show and will consist of songs and dances.

The assembly program next Friday afternoon will be in charge of Miss Walker. Her pupils will give the program which will begin at 1:30 o'clock. Parents are extended an invitation to be present.
Report cards were given out Wednesday afternoon. Parents are asked to examine these reports, sign them and have the children return them to their respective teachers at once.

VOCATIONAL AGRICULTURE CLASS NEWS

The first year class has finished studying projects and have taken up farm shop. At the present time they are making rope, learning to tie the various farm knots, and learning the use of rope on the farm. In the near future they will take up the study of shop tools and soil erosion work.

The second year is finishing studying ratios for sheep and are preparing to take up the study of feeding dairy cattle.

The third year class has just finished its review of figuring ratios for farm animals and are starting to take up the feeding and care of various farm animals from an experiment station standpoint. After this is finished they will take up farm shop.

Mrs. Clark Lewis and daughter spent a week in Lubbock with Mr. Lewis. He is foreman of the Larrymore Gin. They arrived home Monday.

927 REGISTRANTS IN THE COUNTY

R. C. Brown, chairman of the County Draft Board, stated Tuesday that 927 people had registered in Dickens County in compliance with the recent act of Congress.
Mr. Brown stated that there would be a few more registers since they had received instructions to accept all persons who voluntarily presented themselves for registration before the first drawing which now seems to be about October 29. If anyone in the county has failed to register, it will be best to register at once. Farmers who have Mexicans picking cotton for them should instruct these Mexicans to register if they have not done so. Some of the Mexican population may have misunderstood, and thinking their registering at the post office for citizenship is what is required at this time. That registration has nothing to do with the draft registration. This should be explained to them.

There is a very serious penalty placed on those who fail to register. Failing to register for army training places a penalty on the person consisting of a fine of \$10,000.00, or five years imprisonment in the federal penitentiary, or both such fine and imprisonment as evidence in the case may be brought out.

It is hoped that no one knowingly will refuse to register. Other names may be announced later.
List of persons registering Wednesday, October 16, will be found on page 2.

J. E. Russell, of Matador, was in our city Monday greeting friends and attending to business matters.

Mrs. Ethel Canida, of Coleman, arrived here Monday and expects to spend a few days visiting her brother, Mr. Hale, and family at Calgary.

Texas Boy Champ Arrives for Final Meet

HERE'S Clark Douglas, of Cleburn, Texas, state champion automobile driver. He's shown as he arrived at the Ford Motor pavilion at the New York World's Fair, ready to compete in the finals to determine the national boy driving champion. Douglas' expenses, and those of an adult sponsor chosen by himself, were paid by the Ford Good Drivers League. At the first annual Chappions' Banquet at the Ford pavilion on Aug. 29, Edsel Ford, president of the League, was scheduled to award the prizes—48 university scholarships with an aggregate value of \$30,000. The object of the League is to promote safety on the highways by teaching every boy in America to drive expertly. It has a membership of scores of thousands of boys in all parts of the country.

Double Birthday Party

Jim and Pap enjoyed a birthday party last Thursday through the courtesy of Mrs. M. A. Lea. Jim Albin and M. A. (Pap) Lea have birthdays the same day and Mrs. Lea invited in several of their friends for an afternoon frolic. These made up the domino gang and they really had a great time. Mrs. Lea prepared a fine dinner which was served about five o'clock in the afternoon and it was difficult to tell whether the domino games were more intense or the eating.

Those who were in the games were: W. S. Leach, W. P. Nugent, W. E. Ballard, E. L. McAlpine, C. L. Martin, J. R. Laine, L. E. Bass, W. F. Cathey, W. L. Hyatt, W. A. Johnson, W. J. Elliott, J. J. Albin and M. A. Lea. Rev. J. E. Harrell called in the afternoon but could not qualify in the games for lack of experience. The first 13 persons

BRUISING AROUND FARMS; FINDS A REAL FARMER

J. Otha Winslar, Jr., County Supervisor for the Farm Security Administration, is helping farmers to successful operation of small acreages. He says that there are already 1 1/2 million farm families unemployed, due to the tendency to large farms operated with hired labor and tractors. "This is bad for the owner as well as for the farmers who are forced of the land," says Mr. Winslar. "You can't have business without people," he says. "A thousand acres run by one man is not so good as that same thousand acres run by a dozen families." Following is one of the stories of successful small farm operators has been collected by the FSA supervisor.

Out on a bare hill near Hamilton, Texas, lives Bruce Summerford, working 38 acres of land and making a living at it which is two or three times as good as the living which most Texas and Oklahoma farmers make on 100 acres.

Summerford has only one complaint. "I have too much land," he says. "I have 38 acres, and I could get along better with 20."

When Summerford bought the farm in 1927, it had been in cultivation for 40 years, and was gullied and grown up in Bermuda grass. Such corn as it raised was about 18 inches tall and "most of that was tassel."

Summerford had been making a scanty living with a delivery truck in Hamilton. When he moved to his new farm, which he had bought for \$35 an acre, his first job was to build up the land.

Ranchmen have most of the land around him, because they say it is too poor for anything else. Summerford went to them and asked for the manure from their stock pens. "They let me have it gladly, for it saved them cleaning out the pens themselves," says Summerford. "But they warned me against putting it on my land. They said the climate was too dry, that manure would burn up the crops."

Summerford planted five acres of cotton the first year, got two and a half bales. He left two rows unfertilized, as a check. "If there was a single boll on that unfertilized cotton, I couldn't find it," he says.

As time went on, Summerford improved more and more of his land and grew as much as 85 bushels of corn to the acre. His sweet potatoes have made 125 bushels, and average 100.

But his secret is not in large yields, but in many yields. He grows at least two crops a year on all his land, on some of it three. He has dropped cotton for peanuts, and this year is making fifty bushels to the acre.

Orchards and truck crops yield his principal revenue. In 1936, 2,000 berry plants gave him 2,600 gallons of berries. His peach and plum trees yield an average of \$100 an acre. All his trees are planted on terraces and of course fertilized. This year he has changed to commercial fertilizer. He prunes his trees low, to help them withstand the West Texas winds.

Summerford leaves the sides of his main hill in pasture, and it breaks his heart that he hasn't time enough to terrace it properly or to sod all of it in Bermuda. "I just have too much land," he moans.

He has built a dam across an old railroad cut at the foot of the hill which provides him plenty of stock water, fed by the run-off from fields, orchard and pasture terraces.

Summerford plants his crops in four-foot row between his orchard trees. "But that is too close," he says. "We are all too greedy."

Mrs. Summerford is one of the wheel horses in the team. She says her husband can grow the crops but that if she'd let him "he'd give them away." She cranks up her ancient automobile and drives to town every day, taking her current offerings of fruit, vegetables and eggs to Mamilton hotels and special customers, who pay her 35 cents a pound for her butter and other prices in proportion, because she has established a reputation for quality. Mist of the Summerford fruit is sold in the

BIG PROGRAM FOR K. C. LIVESTOCK SHOW

Cattlemen in high heel boots and trim drum majorettes will be one of many contrasts to greet the American Royal visitor at Kansas City, November 9 to 16. The show is calculated to outstrip all forty-one previous shows in presenting a balanced and more highly competitive exposition.

Livestock exhibitors from nearly half the nation's states will show approximately 5,000 animals in competition for over \$70,000 in cash awards. They will come from New Jersey to California and from Wisconsin to Texas. A preponderance of champions are included on the entry lists of both the livestock and horse show divisions.

Junior exhibitors who have become important factors in livestock shows throughout the coun-

try, to local customers. A herd of 15 sheep yield wool revenue and keep the grass down in Summerford's pasture. A flock of 150 laying hens supplies their table and adds to the cash income. Two cows give four gallons of milk a day, each, and "I could crowd them to five," says Summerford. Power is supplied by two horses.

The dwelling on the Summerford place has been gradually improved in the 13 years they have owned it and is now a comfortable six-room cottage, furnished in a comfort and style rarely seen in farm homes. However, it still keeps its principal pace as a cog in the work machine. Mrs. Summerford has one large closet filled completely with glass jars of preserved fruit, including her own grape-juice from their own grapes. Another large closet is completely filled with cans of vegetables.

The Summerford's annual cash income is in the neighborhood of \$1,500. Besides that they supply their own food so that their grocery bill is next to nothing.

Bruce Summerford has never missed a payment on his land, and he owes no other debts besides his land note. His thoughts are all centered around making that land more productive. He has one great pride. "I am a farmer," he says.

country in recent years are expected to enter record breaking numbers of calves, swine and lambs. Adult exhibitors will show individual breeding cattle and fat steers, carlot fat and feeder cattle, breeding hogs and fat barrows, carlot hogs, breeding sheep and fat lambs, horses, mules and poultry.

Nearly one hundred school bands will be seen in street and arena parades. The opening day parade,

lead by Leo Carrillo, motion picture actor, and his famous parade horse, will be the most elaborate and largest in Kansas City's history.

HOOVER'S MISTAKE

Reprinted from the Wallace (Id) Miner

An inspired piece from one of the new deal propagandists says that "Hoover was a complete failure." So he was. He failed in a lot of things. He failed to draw out his salary of \$75,000 a year while president, turning it back into the treasury. He failed to have his sons organize insurance companies to write insurance on government enterprises. He built a Rapidan resort for fishing and recreation at his own expense and gave it to the government. None of his sons went racing through the divorce courts to the disillusionment of the public. He never bundled up a lot of government documents to sell a book to the faithful at a huge price to himself, and he never sold himself into political slavery to a labor organization for a \$500,000 campaign fund. He gathered a marvelous collection of war stuff and built a museum for it, but he failed to ask Congress to pay the bill—he paid for it himself.

He did not preach and promote class hatred, and he did not try to pack the Supreme Court. He did not plow up every third row of cotton and he did not promise the American people one thing while at the very same time he doing everything to accomplish

the directly opposite result.

He did not ask Congress to assess the taxpayers the sum of a \$1,000,000,000 every time someone shot off a firecracker in Europe, and he did not go on fishing trips on the government warships accompanied by a fleet of destroyers. Neither did he kill off all the farmers little pigs or encourage the importation of Argentine beef. In fact, there were a lot of foolish things that Hoover did not do that some other people have done. There were a lot of constructive things he could have done if he had not had the opposition of a Democratic Congress, but anyway he did not leave the American people \$45,000,000,000 in debt.

Mrs. Hoover never made speeches or raced hither and yon on unimportant matters. She never wrote silly drivel on everyday life and sold it to the newspapers and she never sold soap on the radio. Her only public appearance was as honorary member of the Girl Scouts of America. She never invited Communist youth to the White House as her guests. The Hoover family seems to have made a failure of about everything that goes nowadays. (Contributed by a Democrat, but not in favor of 3rd term.)

HOW TO BE YOUR OWN DECORATOR

By Helen Koues
Director, Good Housekeeping Studio

Planning a One-Room Apartment

Just because it's one room don't say to yourself, "I can't do much with one room!" Rather say, "I'll just one room so I can make it a gem." It's sometimes called the one-room apartment and sometimes the room and a half apartment. To the left is the plan found in many city apartment houses. The actual dimensions and arrangements may vary a little. Sometimes it is where the bath is, in this plan, and the bath and closet are at the other end of the main room. In any case, think of it first from the color standpoint. North or darkish rooms should have light warm backgrounds such as yellow, pale pink, pinky mauve. Southern or light rooms may be tints of blue, green, gray, and, of course, the gay color if you wish. As a rule in one room it's well to keep the walls plain, as a figured paper becomes tiresome. Or, if you want to be modern, use a deeper tone of color for one of the three walls, or a different harmonizing color, such as blue with mauve, yellow with pinkish yellow. Let the foyer be a different tone, or use a gay wallpaper and go the limit with the small bathroom—paper above tile, or dashing color, deep blue or red perhaps with bath rug to match on a black floor.

With plain walls the curtains and upholstery may be in a gay pattern or striped.

Arrangement is very important; every inch is valuable in a small space. Usually there is at least one good wall space for a day bed, as in the plan we illustrate. Get a studio couch which pulls out easily as a single or double bed or get a day bed as in this apartment. There is no evidence that this is a sleeping room, and yet it is a comfortable bedroom as well as a living room where guests could be entertained. The chest of drawers with a good mirror above it holds clothes. Actual toilet articles can be kept in the bathroom. Mahogany furniture of the 18th century design, a desk, a bookcase, a table and a coffee table all fit in easily. In the attractive foyer another small chest also can hold linen. It is wise to fit your closet with the new space saving rods, boxes, bags, etc. The small kitchenette or pantry and the table make an occasional meal possible, the former giving space for china, glass, silver.

A color scheme frequently found in apartments—warm, cream-colored walls and woodwork with a brownish wood floor in the living room, and brown linoleum with a cream inset in the hall. Instead of looking insipid, however, it is given character by the use of a gray floral chintz with a cream background and flowers in rose, yellow, and blue with dark green leaves. This makes the curtains, valances, slipcovers, and the two cushions on the day bed. By repeating these colors a harmonious whole was created. The deep green was used for the covering of the day bed; the yellow for the upholstered chair. A touch of rose appears in the seat of the desk chair and in the small oriental rug in front of the day bed. Flowers and ivy give a home-like appearance.

Some of the new married bunch is probably feeling like N. A. Pickel expressed it. He said he didn't know what happiness was until he got married—and then it was too late. He says love is what intoxicates a feller but that marriage is the thing that sobers him up in a big way. Old Pickel says he wouldn't advise anybody to get married on Sunday because he don't think it right to gamble on the Sabbath.

These Hay-Wire Marriages

By ZEKE CARSHIE

In the marriage bizness the low-ers are now beginnin to take hold and cash in right where the preachers left off last June. A lot of newly-weds are feelin like by now that they was led to a halter last June instid of an altar. June is a rich season for the preacher but the lawyers get theirs the other 11 months.

Some of the new married bunch is probably feelin like N. A. Pickel expressed it. He said he didn't know what happiness was until he got married—and then it was too late. He says love is what intoxicates a feller but that marriage is the thing that sobers him up in a big way. Old Pickel says he wouldn't advise anybody to get married on Sunday because he don't think it right to gamble on the Sabbath.

Another one of my nabors, E. Z. Mark, says the main trouble about peepul gettin married these days is that too many of 'em marry for money, or for spite, and too few of 'em marry for keeps. He says it ain't no problem at all to get married—the big job is to be able to save enough money to hire a good lawyer to get you out of it. E. Z. Mark thinks that folks don't have to get married to be miserable, but he says it helps a lot.

I was readin in the paper where it said that in some parts of Africa a man dont know his wife until

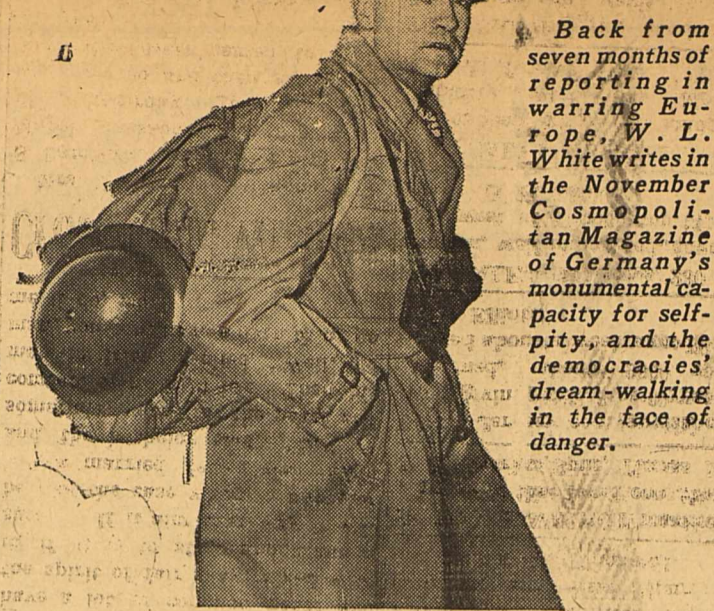

he marries her. What I couldnt understand is why they wanted to single out Africa. And worse than that is the fact that thousands of new married couples dont try or seem to even want to understand or learn each other. Each one wants their own way all the time about everything, and the natural result is that marriage happiness soon turns to marriage scappiness. When new married folks is disposed that way it dont take long for em to quit sighin and to start to yawnin. Then the trouble begins.

Another thing, when a feller gets married so as to have a servant on the place or to add another hand to the workin force, trouble and unhappiness is sure to follow. From the way some wives have to work day in and day out from week to week you would think they was married by the Secretary of Labor.

And there is a lot of guys lookin for a meal ticket. It slike the time when Ima Helrazor was asked by her Dad if the young man wha was going with her had give her any reason for encouragement. To this she replied, "Oh, yes, only last night he asked me if you and mamma are agreeable to live with."

Another thing that cauzes many a wreck on the marriage road is the deziire of present da yyoungsters to start life on a millionaire scale with a small pay envelope. They want to start with success

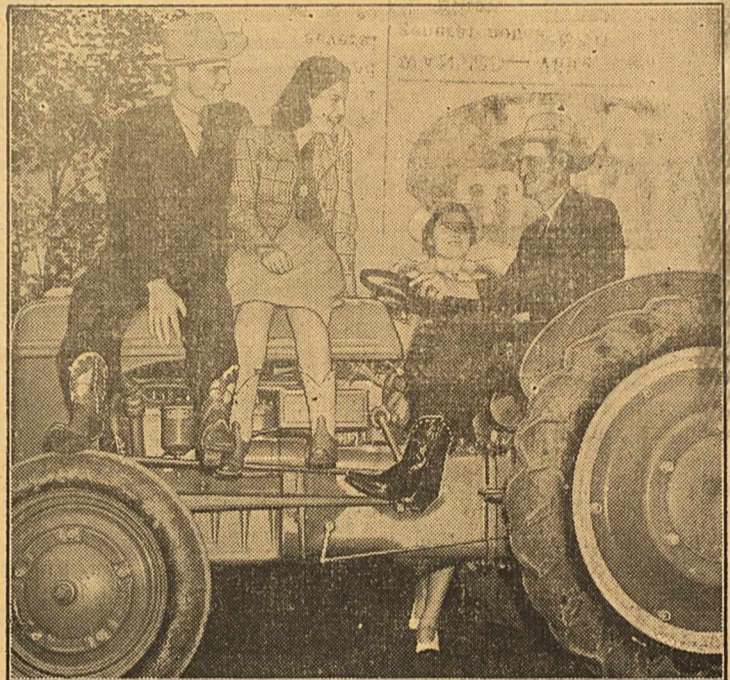

Reporter Comes Home

When W. L. White returned from reporting the European War and was asked "Aren't you glad to get back safe from shot and shell?" his honest answer was, "Not particularly, because," he writes in the November Cosmopolitan, "you find out that there are things so much worse than shot and shell, that a beifful of machine gun bullets and a couple of personal bombs come as a great relief."

Back from seven months of reporting in warring Europe, W. L. White writes in the November Cosmopolitan Magazine's monumental capacity, and the democracies' dream-walking in the face of danger.

Texan Family Wins National Honor

HERE'S the happiest family in the entire United States. They're (left to right) John Leathers, 19; Margaret Jean Leathers, 16; and Mr. and Mrs. D. E. Leathers. The Leatherses own and farm a 200-acre homestead at Clarendon, Donley County, in the famed Panhandle cattle country of Texas. Last May they won the Fort Worth Star-Telegram's newspaper contest to pick the Typical American family of West Texas and were given a week's entertainment on the New York World's Fairgrounds. The Ford Motor Company provided them a car and chauffeur for the round trip, and at the Fair. In all, 48 Typical American families were similarly selected in various parts of the country and brought to the Fair by the Ford Motor Company at the rate of two families a week. In mid-October a board of judges named by seven New York newspapers picked a Super-Typical American family, and the Leatherses were it. The Ford Motor Company then telegraphed them to fly to the Fair on October 22 as the Company's guests. And at the seven-acre Ford Motor pavilion, largest attended of any industrial exhibit both in 1939 and 1940, a splendid gift awaited them. It was a shining 1941 harbor grey Super Deluxe Fordor Ford V-8 sedan, equipped with radio and white wall tires—Ford's present of a typical American car.
