"Why, Edgar! You said let's make two tires do the work of four."

"Yeh, but I'm doing all the work. There ain't no 'lectric switch on this thing. You have to pedal it!"

"Oh, well, Edgar. You don't mind giving me a free ride, do you?"

"Listen, baby. You don't get any free rides any more!"

"Oh yeah? Well, I'm getting a free ride on that sewing machine!"

"U-u-m-ph! Just because it's electric, and you don't have to pedal it, don't think it's FREE. You have to pay for the juice!"

"Sure, Edgar. But we're using two or three times as much now as we used to—for the same money. That's what I call a free ride!"

★ ★

D'ja ever win an argument with your wife, Edgar? You may persuade her to help pedal the bike. But she's right about the cost of electric service.

It's a fact that West Texas homes today are getting two or three times as much electricity for the same money as they did 10 or 15 years ago. Actually, the electric bill of two-thirds of them is a dime a day—or less!

Not a free ride . . . but FREEDOM of enterprise makes this big bargain possible under the American system wherein men are free to plan and create a business that builds and serves.

Funeral For Arol Kerley Wednesday

Funeral services for Arol Pierce Kerley were held at the Church of Christ at Girard Wednesday afternoon at three o'clock. C. V. Allen, minister at Spur, was in charge of the services and was assisted by Andrew Morris, minister of the Church of Christ at Spur. Interment followed in Girard cemetery with Campbell's Funeral Chapel in charge of arrangements.

The deceased is survived by his parents, Mr. and Mrs. P. C. Kerley of Overton, and formerly of Girard; four sisters; Mrs. W. R. Lawson of Sterling City, Mrs. W. H. Ayars of Overton, and Mrs. J. W. Langford of Girard; one brother, Lynn Kerley of Kilgore. One sister, Gertrude Kerley, is deceased. There are four nieces in the family: Bettie Langford, Alma Lawson, Helen Lawson and Julia Kerley.

Mr. Kerley was born at Coppers Cove November 2, 1905, and would have been 37 years of age next November. He came with his parents to Girard several years ago spent most of his life in that community. He never married and was not affiliated with any church. He was loved by all who knew him and had a host of friends in the Girard community.

He joined the U. S. Army last year and was stationed at Camp Wolters, near Mineral Wells. He was an expert cook and for that reason was never transferred with other troops to other points. He served his camp faithfully and was held in high esteem by all the soldier boys in his camp.

TO OUR GIRARD FRIENDS

We take this means of publicly thanking our friends for the kindness shown us and the sympathy extended at the time of the death of our son and brother. The shock was great, but your helpfulness and words of sympathy meant so much to us. We thank the ministers and the undertaker for their kindness, and feel that we have many friends in Girard community.

—Mr. and Mrs. P. C. Kerley and Children.

Judge Edwin H. Boedeker came over from the capitol Saturday and spent some time attending to business matters and greeting friends.

Roy Ward, of Dickens, was in Spur Saturday attending to business and talking with friends.

Funeral For Mrs. Chaney Thursday

Funeral services for Mrs. Ray Chaney were held at Petty at five o'clock Thursday afternoon. A Chandler Funeral Home ambulance left Spur early Thursday morning with the body to take it back to the old home place. Interment followed in a Honey Grove cemetery.

The deceased is survived by her husband, two children, Wanda Jo and Larry Ray, her mother, Mrs. J. M. Milam of Petty; three sisters: Mrs. Marvin Fox of San Angelo, Mrs. Lloyd Nicholson of Petty, and Mrs. Harle Burke of Kerrville; one brother, Joe Clark Ware of Paris.

Mrs. Chaney was born at Petty January 11, 1914. She was a daughter of Mr. and Mrs. J. W. Ware who lived later at Honey Grove. She was married to Ray Chaney at Hugo, Okla., in 1934. Mr. and Mrs. Chaney moved to Afton community the early part of this year and had been living on a farm of Mr. and Mrs. Paul Braddock.

Mrs. Chaney had been in ill health about six weeks and under went an operation about Friday, September 25. She seemed to be getting along fine and everybody thought she was on the road to recovery. A complication of the heart on the order of angina pectoris struck suddenly and she was gone before medical assistance could be summoned.

VISITED IN SAN ANTONIO

Mrs. Roy Ward, of Dickens, returned from San Antonio Friday where she spent several days visiting her daughters, Mrs. A. G. Fox and Mrs. J. J. Griffin. Mrs. Griffin returned home with her for the duration of the war as Mr. Griffin had volunteered into service and is in England with the expeditionary forces there.

FIRST CONFERENCE GAME FRIDAY OCT. 16

TO THE SPUR BULLDOGS

We, the business people whose names are on this page, want you to know we are with you and are for you all the time. You gave us a good game last Friday night, and you played against odds. It was a game full of thrills and several spills.

We admire your zeal and cooperation and team work. We enjoy your playing. Your first conference game is coming up with the Madors October 16. We hope you win, we are going to be yelling for you. You know Matador has been a little chesty about things the past few years. We hope you ease them down by winning over them Friday night, October 16.

You have meant much to our school and to our town and you deserve a lot of credit. You will be in charge of community affairs before long, and we hope you exercise the same determination and zeal in playing the game of life as you have used on the football field. Keep in mind a good name, and a determination.

Dr. Cox Warns Against Serious Diseases

Because of the fact that a venereal disease is no respecter of persons, people of every class and color, rich and poor, educated and ignorant are numbered among the victims, asserts Dr. Geo. W. Cox, State Health Officer.

"Venereal diseases, of which syphilis and gonorrhoea are the more common, are among the most vital health problems in the State of Texas today," Dr. Cox said. "This State has been chosen as the location for dozens of army camps, training fields, naval bases, shipbuilding yards, airplane construction plants, and other major defense industries. The resulting influx of workers and armed forces has emphasized the need for exerting every known means in the control of venereal diseases."

The State Health Officer pointed out that self-diagnosis and self-treatment are extremely dangerous and advised consulting a physician for determining definitely whether or not a venereal disease is present.

"Only a reputable physician can properly diagnose such a disease. The presence of gonorrhoea is not disclosed by a routine blood test, and the diagnosis of syphilis requires more than a blood examination," declared Dr. Cox. "Both syphilis and gonorrhoea are a most 100 percent curable if discovered and treated in their very earliest stages. Thousands of deaths annually could be prevented," Dr. Cox said, "if sufficient attention were given to the early diagnosis and the thorough treatment of syphilis. Delay reduces the chance of cure and in many cases is the direct cause of death."

DICK DENNING NEW LAMOUR JUNGLE SWAIN

After serving for a long time as the man who appears opposite the girl in those screen tests, handsome young Richard Denning is coming out from behind this year-long anonymity and taking a large slice of fame for himself.

Denning, who has gone through 67 of those tests and played only small film roles, has at last received an acting break. He plays opposite Dorothy Lamour in the sarong-girl's new picture, "Beyond the Blue Horizon." Denning heads the featured cast of the Paramount Technicolor production, which arrives Sunday at the Palace Theatre. Among his fellow-players are Jack Haley, Patricia Morison, Walter Abel and Helen Gilbert.

Hollywood regards Denning's selection as Lamour's jungle sweetheart as a distinct reversal of procedure. Usually when one of these tree-swinging, muscular young giants is needed, the custom is to pick out some athlete and make an actor of him. In Denning's case it's different—this time they've taken an actor for an athletic role.

Before getting the big break, Denning who is blonde and six-foot-two inches tall acted in more than one hundred small roles. This training was extremely valuable, and so was his experience as a "tester."

The towering Adonis has made tests with many young girls who have become famous. It was Denning, for instance, who appeared in the test with Veronica Lake that won her a leading role and subsequent fame in "I Wanted Wings." He emoted with Ellen Drew in her test for "If I Were King," the part that skyrocketed her. He paired with Mary Martin in the test that got her her first film role in "The Great Victor Herbert." Paulette Goddard received a Paramount contract after screen-testing with Denning as her leading man.

Being Doty's jungle love interest gives Denning a start toward film fame that few young actors ever get. His role is an excellent one, giving him almost as much footage as Doty herself. He plays the part of a jungle-bred boy who is brought to civilization and does a lion-wrestling act in a circus.

SPUR LADY GETS COLLEGE DEGREE

One of the 162 students to receive degrees at the annual summer commencement exercises at Texas State College for women Saturday morning at 9 o'clock was Miss Martha Francis Nichols of Spur.

Miss Nichols, daughter of Dr. and Mrs. P. C. Nichols, received a B. S. degree in interior design. During her college career, she was a member of the Art Club and the Apparel Club, a social organiza-

Spiritual Awakening

Donald Nelson goes to the United States Treasury and asks for \$250,000 to buy a bomber. Ultimately the bomber is destroyed but the \$250,000 continues in existence.

Multiply this situation a million-fold and you see that money is increasing much more rapidly than useful goods. Only a determined willingness on the part of the people to adjust their buying to this dangerous situation can prevent an ultimate loss of confidence in the American dollar and a stampede to buy merchandise, real estate and certain good stocks. This means that we should think less of unions, overtime and profit; think less of 110 per cent parity, wheat hoarding and subsidies; think less of getting fictitious prices for silver, livestock and other products; think less of beating the ration boards and give more thought to beating the Japs and Jerrys.

Japan Refuses To Let Neutral Ships Sail

Japanese refusal to let any neutral vessel to cross the western Pacific has caused the American Red Cross to cancel the charter of the S. S. Kanangoora, Swedish ship originally scheduled to carry supplies for American prisoners and civilian internees held in Japan, occupied China and the Philippines. The vessel has been released to the owners and the supplies unloaded and held in San Francisco until other arrangements can be made. Mail and packages for identified prisoners in Japan have been transferred to the neutral exchange ship, The Gripsholm.

The Gripsholm is expected to sail soon from an East African port with Japanese to be exchanged for American non-combatants. It will carry supplies as follows: 60,000 standard 11-pound food parcels, ten million cigarettes, \$33,000 in drugs and medicine supplies, \$95,000 in blankets, toilet articles, and large quantities of clothing.

Supplies sent on the Gripsholm in June by the Red Cross have been received by the International Committee. It includes \$50,000 in drugs and medicine supplies, one million cigarettes, 20,000 food parcels and 10,000 tins of smoking tobacco. The International Red Cross Committee makes distributions.

Road To Alaska

Thanks to Army energy and efficiency, the new military highway to Alaska probably will be completed well ahead of schedule. Preliminary estimates were that three years would be required for this job. When the Army began work on this project last March 12, the date for completion was set at next March 1. But today the road is expected to be put in use about Dec. 1 of this year unless unexpected delays arise. There will be improvements later, but the present gravel road-bed will allow year-round use.

Thirty thousand men have been at work on this highway, which traverses some of the deepest mountain and forest wilderness of the continent. Materials have been moved over frozen rivers and across dangerous swamps, and mosquitoes have been a constant menace to the builders. But the work has gone forward and soon trucks carrying strategic supplies to our Alaskan bases will be rolling northward.

This highway is important not only in making Alaska a stronger outpost for continental defense but also in making it a more effective springboard for an air attack on Japan. The road is twenty-four feet wide and has sturdy bridges that will handle heavy loads. It will bring Alaska nearer to the states not only in defense but also in commercial and cultural relations. One compensation of the war is the prompt construction of this motor route that otherwise might have been long delayed.

"The cheapest insurance to guarantee continuous war production is in vigilant fire prevention practice," is the opinion of Marvin Hall, State Fire Insurance Commissioner.

Thirty five bachelor of arts degrees, 87 bachelor of science, 13 bachelor of science in library science, and 27 master's degrees were conferred by Dr. L. H. Hubbard, president of the college, at recommendation of Dean E. V. White, and Dr. Willis H. Clark, director of the graduate division. Dr. Hubbard delivered the commencement address.

ARE WE DELAYING THE JOB

Many farmers in certain sections of West Texas have made complaint that they will lose quiet a lot of cotton this year as a result of destruction by boll weevil. The weevil pest has been avoided in West Texas until the last year or two. There are several ways by which the weevil can be brought into our country.

Cotton seed brought in for planting purposes from the weevil infested section could have some weevils in them, and all of such seed could have the weevil eggs, or the larvae which soon develops into the real weevil.

Again it is possible that cotton pickers coming to our section of the state from the weevil infested section, could bring a few—and just a few would be too many—in the bedding, and other household articles they move here. It will pay the farmers well to see that such bedding and other household articles are properly disinfected upon arrival of the pickers for by so doing the chance of getting weevils here will be kept down. It really will be to the pickers' advantage for they make more money in better cotton, and weevils certainly damage the cotton.

It might be well for the Chamber of Commerce, or some other organization to lend assistance to this work, as a good cotton crop means much to everybody.

Miss Nevada Baker, of Lubbock, was in Spur Sunday visiting friends. Miss Baker is a former teacher in Spur schools and gets a big thrill of coming back to visit her many friends here.

John Maddox, Foreman at the Paddle Ranch, was in Spur Tuesday talking with friends and transacting business. Mr. Maddox is one of the foremost cattle men in West Texas.

Bomb 'em with JUNK

JUNK NEEDED FOR WAR
Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—When you get a pound or more, strain into a large tin can and sell to your meat dealer.

NEEDED ONLY IN CERTAIN LOCALITIES—Waste paper and tin cans—wanted only in certain areas, as announced locally. NOT NEEDED (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

It Can't Happen Here
**WHOSE BOY WILL
DIE BECAUSE YOU FAILED?**

September 28th. we're starting the biggest drive you have ever seen, to get in this precious Materials. And you're going to pitch in, too, because this situation is serious.

Start looking around your place for scrap today. If you've got a son in the service, do it for him. Do it for the neighbor's boy — for those fine young chaps you just passed, out on the street.

Above all do it for your country. . . . and do it now!

PLEASE TAKE TIME TO COLLECT ALL OF YOUR SCRAP NO MATTER IF IT IS JUST A FEW POUNDS IT MIGHT SAVE YOUR BOYS LIFE

HOW TO TURN IN YOUR JUNK

Sell it to a Junk dealer. Give it to Charity Take it yourself to nearest collection point or consult Speck Lunsford at the Palace Theatre.

If you live on a farm and have no method of disposing of scrap, phone or write Speck Lunsford at the Palace Theatre.

We are facing a crisis in our production program. Unless we immediately salvage at least 6 million tons of scrap iron and steel, and great additional quantities of rubber and other materials, we are not going to meet our production quotas, and our boys and our Allies are not going to get the materials they need—intime. . . . The situation is serious . . . YOUR HELP IS NEEDED NOW.

If any one has scrap metal that they want to donate, if they will leave it on the vacant lot across the street from Godfrey and Smart, the Boy Scouts will look after it there.

If you have metal you want to sell, then take it direct to the Junk Yard and you will be paid for it.

By all means get your metal by the allotment time. The Factories need it to make this War Equipment. Let's not have some boy to loose his life because we failed to do our part.

GOVERNMENT NEEDS TYPISTS

A new examination for all stenographer and typist positions in federal service in Louisiana and Texas, as well as Washington, D. C., was announced by G. W. Grimes, secretary, local board of U. S. Civil Service examiners.

The positions to be filled are junior stenographer, \$1440 a year; senior stenographer, \$1620; junior typist, \$1260; and senior typist (Washington only), \$1440.

Applicants for the Washington, D. C., positions must be at least 17 1-2 years old. Dictation must be taken at the rate of 80 words per minute to qualify for the junior stenographer position, and typists must be able to type at least 35 to 40 correct words per minute.

The field examination for Louisiana and Texas is open to both men and women, with 16 years as the minimum.

Applications are not desired from any person engaged in war work, unless the position for which they are applying will employ higher skills than their former position.

Full information and application forms for the examination may be obtained from Post Office at Spur, Texas.

Mrs. M. H. Hearne and baby, of Dallas, were here recently visiting in the home of Mr. and Mrs. G. W. Grimes and in the home of Mrs. C. Fite and daughters.

JUNK needed for War

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help? First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS

Illustrations showing how scrap items are used in weapons: One old disc will provide scrap steel needed for 210 semi-automatic light carbines. One old plow will help make one hundred 75-mm. armor-piercing projectiles. One useless old tire provides as much rubber as is used in 12 gas masks. One old shovel will help make 4 hand grenades.

- MATERIALS NEEDED Scrap iron and steel. Other metals of all kinds. Old rubber. Rags, Manila rope, burlap bags. Waste Cooking Fats—When you get a pound or more, strain into a large tin can and sell to your meat dealer. NEEDED ONLY IN CERTAIN LOCALITIES: Waste paper and tin cans—wanted only in certain areas, as announced locally. NOT NEEDED (at this time): Razor blades—glass.

CROWDED WITH THE CALLS OF WAR

It's true we usually can put through quickly your long distance telephone calls to towns near-by. But when you send your voice to far cities, it may travel on lines jammed to the limit with calls that help move troops, make planes, build tanks.

We can't put up more lines, because most of the metal has gone to war. So please help us in a vital job. Make as few calls as possible to war centers or cities far away, and please plan to keep such calls short. It will help clear the way for the calls of war.
