Bubble disappears; cool down begins

HARRISBURG, Pa. (AP) — Company officials at the Three Mile Island nuclear power plant said today that a dangerous gas bubble has all but disappeared from the nuclear reactor and the reactor is being prepared for a final cool-down.

A spokesman for the Nuclear Regulatory Commission, Joe Fouchard, said when asked to comment on the report: "There is some encouraging sign on the bubble size." But he would not elaborate.

NRC and Metropolitan Edison utility officials were to meet this morning to discuss the cool-down operation.

"It's true. The bubble is gone from the pressure vessel," spokesman George Troffer of Metropolitan Edison told The Associated Press.

He added that radioactive gas emissions have apparently been sealed and said, "The reactor is completely stable and ready for the final cool-down."

"From all things we know, we're not facing any melt-down — if we ever did," said Troffer.

"There are no unusual maneuvers required," for final cool-down, he said. "The bubble was the concern. Now that the bubble is gone the normal cool-down methods will be used."

Troffer issued his statement even though on Sunday, John Harrington, another utility spokesman, said the company was told by the White House "that all releases would be given out by the NRC."

The size of the gas bubble started dropping "dramatically" 24 hours ago, continued all day Sunday and through the night, said

Troffer. "Now it's essentially gone," he said.

Meanwhile, officials firmed up contingency plans for a precautionary evacuation of about a million residents.

Schools remained closed and the governor extended his advisory that pre-school children and pregnant women and young children keep their distance. Civil Defense officials estimated that 50,000 persons have left the area.

State government was open as usual, but the governor said there would be generous leaves granted for "absentees."

As a cold drizzle fell this morning, the atmosphere in downtown Harrisburg was one of quiet and anticipation.

Earlier, a spokesman for the utility that runs Three Mile Island said the bubble, made up of hydrogen and oxygen from chemical

decomposition inside the reactor core, was measured at about 400 cubic feet. In the five days since the plant was disabled by a cooling system failure, the bubble has swelled as high as 1,800 cubic feet. In recent days it averaged 600 feet.

The bubble was being bled slowly by letting the gas dissolve in the constantly circulating cooling water and then allowing it to escape from the water outside the reactor.

Scientists were concerned that oxygen will mix with the hydrogen in flammable proportions, inside the reactor dome. Also, there is a danger of increasing the hydrogen concentration in the outer containment building, prompting a possible explosion and the subsequent release of radiation.

Area resident dies in one car crash near McClellan

By EUGENE LAYCOCK
Pampa News Staff

A Mobitee man was killed in a reported high speed accident early this morning when his vehicle went out of control skidding off the road and rolling over several times.

Ronald Renaldo Stamps, 38, was found about 19 miles southwest of Pampa on Highway 70 near Lake McClellan at about 6:30 a.m. by a local farmer, according to Department of Public Safety Officer Steve Esterly.

"He was going over speed limit, I'm sure," said Esterly, "because of the distance he skid."

The vehicle, a 1975 Dodge pickup, reportedly skidded sideways 130 feet on the pavement and rolled to a stop after traveling another 150 feet. Officer Esterly said that Stamps had lost control on the right side of the road and jerked the vehicle back to the road to skid to the other

(north side) into a grain field.

"He rolled three and a half times in the grain field," he said, and "we found him half way out of the driver's window."

"He was crushed as the vehicle rolled," said Esterly. The officer said that the body may not have been crushed in all three rolls.

Alcoholic beverages were scattered in the field according to Esterly.

A blood sample will be sent to Amarillo for a blood-alcohol test.

The exact time of the accident was undetermined. However Esterly said that it probably occurred between 12 and 2 a.m. because of frost on the truck.

Stamps' body was taken to Carmichael-Whitley after being pronounced dead on the scene by Judge Nat Lunsford.

Nursing home fire kills at least 26

RONALD RENALDO STAMPS, a 38-year-old Miami resident, was found dead on the scene of an accident about 19 miles southwest of Pampa on Highway 70, where his pickup skidded out of control at a high rate of speed. (Staff photo by Kenny Pearce)

FARMINGTON, Mo. (AP) — At least 26 persons were killed today in a fire at a nursing home in this southeast Missouri community, said Fire Chief Bob Oder.

Oder said 37 patients and one attendant were in the Straughan's Wayside Inn retirement home. He said 13 bodies were removed from the structure and 13 others were known to be inside.

He said most of the elderly persons were killed by smoke inhalation.

Bodies were found in the hallways and at the doors of the red granite, single-story structure.

Chief Deputy Sheriff Gene Archer said the roof of the building collapsed after the early-morning fire broke out, trapping the patients inside.

Oder said the fire apparently erupted in the kitchen area at the rear of the home and the building was engulfed in flames by the time firefighters arrived.

Ten fire districts were forced to run hoses almost one mile into downtown Farmington.

"It's a total loss," a firefighter at the Farmington Fire Department said of the Wayside Inn home, where the fire broke out about 5 a.m.

St. Francois County Coroner C.Z. Boyer was dispatched to the scene.

His assistant, Phyllis Boyer, said the nursing home has about 30 patients but it was not known

how many persons were in the home at the time.

Firefighter crews from six companies brought the fire under control after about two hours.

Farmington is a community of 6,590 persons, about 50 miles south of St. Louis.

In Connellsville, Pa., nine of the 12 residents of a boarding home were killed and two were seriously hurt when a fire swept through the rear of the three-story frame house, officials said.

Officials said all the dead were elderly except for a 30-year-old male resident, James McCormick.

Assistant Fire Chief Leland Williams said the fire started Sunday night in the basement where five elderly residents slept, killing all five.

He said the flames spread rapidly, blocking the two exits from the basement — a door to the outside and a staircase to the first floor.

"The fire started by the one door and moved across the ceiling to the stairway," he said. "They really didn't have a chance to get out."

Four other residents, pronounced dead at Connellsville State Hospital, were found on the first and second floors, firefighters said.

The owner of the home, Helen Marietta, 54, was hospitalized for shock. Her 76-year-old mother, Leona Porterfield, was among those killed.

What's inside

Weather

The forecast for today calls for clear to partly cloudy skies and cooler temperatures. The high today is expected in the low 50s, with the low in the low 30s. Winds will be out of the northeast at 15 to 20 mph this afternoon, decreasing tonight to 10 to 15 mph. The high Sunday was 58 and the overnight low was 29.

County officials accept bids for improvements

The Gray County Commissioners Court today accepted preliminary bids for improvements at Perry Lefors Airfield, although current bids will probably be resubmitted in accordance with funds available from a federal grant and county matching funds.

Low bidder for the improvements, which include the rebuilding a part of one airfield runway, was Lewis Construction Co. of Dumas with a \$97,420 estimate.

E.D. Baker Corporation of Boger (\$102,700), G.W. James Materials Co. of Pampa (\$99,961.44), and Gilvin-Terrill of Amarillo (\$100,940) also entered bids for the construction.

The County has budgeted \$80,000 for the project, which includes a \$60,000 grant from the Federal Aviation Administration for improvements at Perry Lefors.

County Engineer Gene Barber said the bids "would have to be readjusted to fit

within the budget requirements."

Barber said he would confer with FAA officials and members of the Texas Aeronautics Commission to "adjust the amount of work that needs to be done."

The main item in the improvement project is the repair of a runway transition joint where an older section of the strip connects to a newer one, creating a sudden rise in the runway. The project calls for the replacement of the runway 600 to 800 feet around the joint.

The Court postponed action on the bids until its next session in mid April.

In other business, the Court approved \$5,545.68 in supplementary funding of a federal grant to the District Attorney's Office. The \$45,335 grant is administered through the state Criminal Justice Division and requires participating counties to assume 20 percent funding during the second year.

The grant currently funds all of the operating expenses of the District attorney's office in addition to the salaries of the office secretary and private investigator.

The grant calls for 31st District counties to assume an additional 20 percent of the funding each year. Gray County assumes 60 percent of the supplementary funding, with the remaining 40 percent divided among Roberts, Hemphill, Wheeler, and Lipscomb counties.

The Court also approved a resolution approving an increase in county Blue Cross-Blue Shield insurance premiums to comply with new federal regulations regarding age and maternity benefits. Judge Carl Kennedy noted that under the new law, an employee becomes eligible for pregnancy health care immediately after hiring.

Teamsters face lockout
WASHINGTON (AP) - Trucking executives are ordering an industrywide lockout in an escalating dispute with the Teamsters union over a contract that involves President Carter's anti-inflation guidelines.

The White House, which has been watching the negotiations closely, declined comment. "We're not having any comment today (Sunday) on the Teamsters," spokeswoman Linda Peek said.

The industry said it ordered the lockout "in defense against the strike," which it blamed on union demands for a contract exceeding the administration's 7 percent wage hike standard.

TMI said its final contract offer "was the absolute maximum permitted" under the standard, which already had been relaxed somewhat to accommodate certain Teamster bargaining demands.

Nearly two-thirds of the nation's 4,153 general freight haulers - companies that carry a variety of goods for a variety of destinations in one truck - are affected by the contract talks.

VOE student gets honor

Area winners of the Vocational Office Education (VOE) competition matched skills with high school students across the state at Houston last weekend.

Four Pampa students represented Area VI in the state contest, where Kathy Kite was the only placer with a fifth in Extemporaneous Verbal Communication.

The Chapter of the Year entry from this locality was represented by Nysa Copeland. The Pampa chapter submitted a written presentation of the year's activities in this event.

Diane Browne entered Data Processing Keypunch Emphasis, which is only offered in competition at the state level, while Princess Kilcrease served as a voting delegate in the election of state officers.

VOE classes attempt to teach students office skills, which can be used at actual jobs. The Pampa students are employed by various offices in town and obtain actual experience there to reinforce the academic training at school.

Pat Marcum and Jane McBride teach the office education students at Pampa High School.

Weather Texas weather

By The Associated Press
A slow-moving cold front moved through Texas today, triggering thunderstorms that dumped as much as 2 inches of rain an hour.

As the cool, dry air collided with warm, moist air, thunderstorms erupted all along a line from south of Lufkin to near Houston and southwestward to near Eagle Pass.

In contrast, the large portion of Texas north and west of the front was generally clear. Northerly winds 10 to 15 mph prevailed in the cooler air, while southeasterly to easterly winds of 10 mph occurred along the coast.

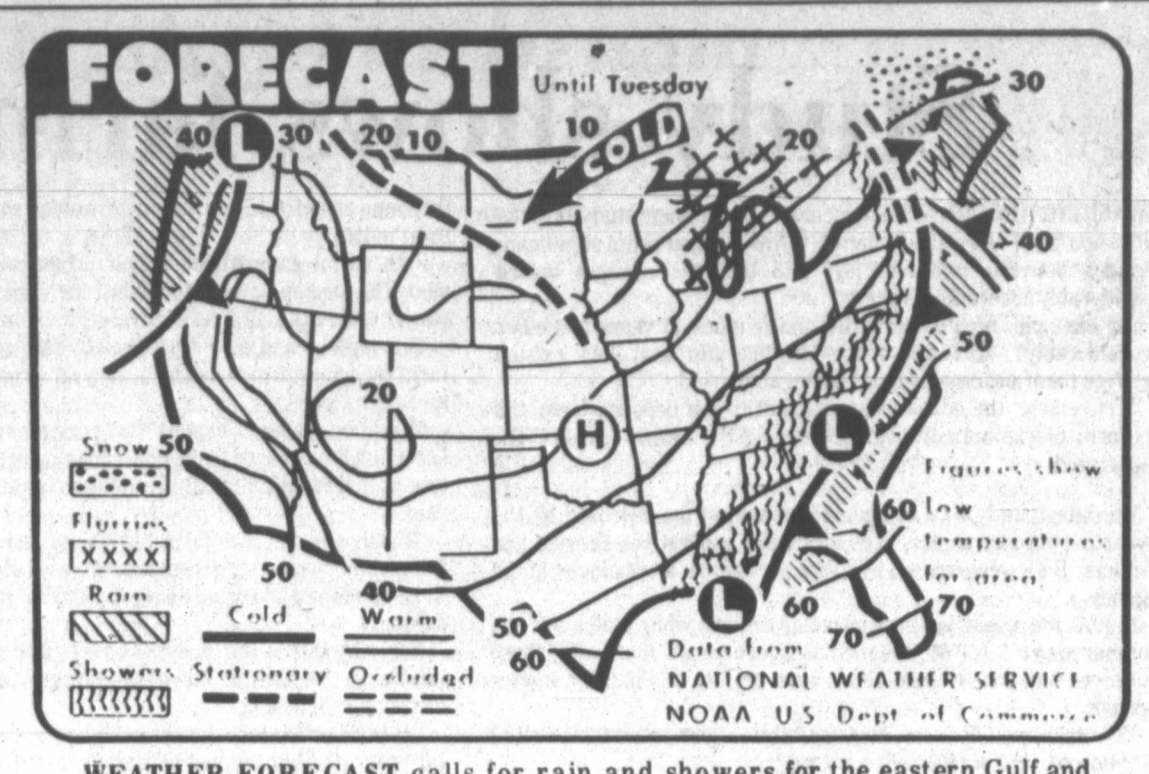

Among the heaviest rain was near Uvalde and Eagle Pass, where from 1 to 2 inches of rain an hour was falling. Another line of heavy storm activity was along a line from El Campo to Galveston, with the heaviest activity in the Rosenberg area.

A tornado hit north of Longview Sunday, destroying a home and uprooting numerous trees and power lines.

National weather
By The Associated Press
Widespread flooding was reported in southeastern Missouri, northeastern Arkansas and western Tennessee today after thunderstorms dumped as much as 8 inches of rain in some areas.

West Memphis, Ark., reported 3 inches, western Tennessee was soaked by 3 to 6 inches and as much as 8 inches fell in parts of Missouri.

A flood warning was in effect today in western Kentucky, and flash flood watches were in effect for the rest of Kentucky and parts of Missouri, Arkansas, Mississippi, Tennessee, Indiana and Illinois.

WEATHER FORECAST calls for rain and showers for the eastern Gulf and Atlantic coast states.

Temperatures table with columns for High and Low Pcp and rows for Abilene, Alice, Alpine, Amarillo, Austin, Beaumont, Brownsville, Childress.

Extended
By The Associated Press
NORTH TEXAS-Partly cloudy through Tuesday. Mostly fair tonight. Cooler through tonight. High temperatures today 59 to 72. Lows tonight 34 to 51.

SOUTH TEXAS-Partly cloudy through Tuesday. Lows tonight in the 40s in the Hill Country to the middle 60s on the coast. Highs Tuesday in the 60s to the 80s southwest.

Testimony to resume today in Silkwood trial

OKLAHOMA CITY (AP) - A transcript of a disputed statement will decide what both sides agree could be a crucial point in the Karen Silkwood nuclear contamination case.

U.S. District Judge Frank Teis ordered the transcript prepared after Bill Paul, Kerr-McGee Corp.'s chief counsel, denied a remark he allegedly made in his opening statement.

In a private conference with Teis, Paul disputee that he asserted that Miss Silkwood contaminated herself, possibly to dramatize her claims about working conditions at the Kerr-McGee nuclear plant near Crescent.

The transcript was prepared over the weekend by the court reporter so the judge could decide the issue today.

The Silkwood family is suing Kerr-McGee for \$11.5 million, claiming the company was responsible for her contamination with plutonium.

Silkwood lawyer Gerry Spence demanded that Paul either retract or admit the statement in court.

the remark in front of the jury or allow testimony that Spence said would prove Miss Silkwood could not have contaminated herself.

Spence said he also wanted to use the point to introduce evidence he claimed would show Kerr-McGee searched Miss Silkwood's wrecked auto and stole incriminating documents.

Witnesses have testified Miss Silkwood was carrying documentation that Kerr-McGee was falsifying nuclear reactor fuel rod quality control reports when she was killed in an automobile accident Nov. 13, 1974.

Patty Hearst weds former body guard

SAN FRANCISCO (AP) - Newlyweds Patricia Hearst and Bernard Shaw, her former bodyguard, are honeymooning today in a secret spot after a gala wedding that capped five years of national attention for the kidnapped coed turned convict.

The couple boarded a private Lockheed jet Sunday night, hours after a double-ring Episcopal ceremony in a flower-bedecked chapel on the Treasure Island naval base in San Francisco Bay.

"I've never seen Patty so happy. Don't you think it's about time?" said Janey Jimenez, a federal marshal who befriended Miss Hearst during her bank robbery trial.

Ms. Jimenez was one of more than 300 guests at the mid-afternoon wedding under cloudless skies. The ceremony came two months to the day after Miss Hearst, 25, was released from federal prison on a presidential commutation of her seven-year sentence.

The guests, many in expensive furs, crowded the simple chapel for the traditional ceremony, which began with the wedding march and ended with "I do." But no rice was thrown and guests said neither the couple nor their families shed any tears.

Shaw, 33, is a divorced San Francisco police officer who met his bride while moonlighting as her bodyguard and proposed while she was behind bars. She has decided to keep her own surname while adding his - Patricia Hearst Shaw.

minor accidents
A 1965 Mercury driven by Clyde Thompson of the Davis Hotel, No. 17, was backing in the 400 block of S. Cuyler and struck a parked, unoccupied 1976 Chevrolet.

A vehicle driven by James C. Bullard Jr. of 2125 Chestnut was reportedly following too closely and was in collision with a vehicle driven by Gary Baker of 2704 Navajo.

A 1979 Chevrolet driven by Phineas Franks of 224 Tignor was northbound in the 300 block of Miami and struck a parked 1965 Ford owned by Roger Barbee of 332 Miami. Franks was cited for improper lane usage.

A hit-and-run accident occurred when an unknown vehicle struck the back of a parked 1961 Volkswagen owned by Boyd W. Thurmond of 2132 N. Zimmers. The vehicle at fault left the scene.

A 1973 Ford driven by John Czesnowski of 1401 S. Hobart was southbound on Duncan and failed to negotiate a sharp curve, striking a concrete curb. Czesnowski was cited for changing direction of travel unsafely.

Astro-Graph

by bernice bede osol

April 3, 1979

This coming year several lucky breaks will give you the opportunity to complete projects you've had on the drawing board for a long time. Once completed, you'll be able to do many new things.

ARIES (March 21-April 19) It may come as a surprise to you today when someone who usually doesn't pay you too much attention is extra-nice. Find out more of what lies ahead for you from now until your next birthday by sending for your copy of Astro-Graph Letter. Mail \$1 for each to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth sign.

TAURUS (April 20-May 20) Someone older or more experienced may point out a direction for you today, and bring you new hope toward getting something you'd like to have.

GEMINI (May 21-June 20) Continue to give your responsibilities top priority today. You will receive more satisfaction in achievement than through frivolous outlets.

CANCER (June 21-July 22) You have a good chance to sell those ideas or plans you've been trying to promote. Your approach today is creative and practical.

LEO (July 23-Aug. 22) A friend is going to jump into the picture today and show you how to get something you've been wanting badly. Listen to him, though the way may not be easy.

VIRGO (Aug. 23-Sept. 22) You have a chance today to make a big hit with one who doesn't know you very well, through your willingness to be cooperative and helpful.

LIBRA (Sept. 23-Oct. 23) That little extra push you've needed to put you out in front of the pack will be forthcoming today. You'll cross the finish line first after all.

SCORPIO (Oct. 24-Nov. 22) If you allow experience to guide you today, everything should come out just the way you want it to in the romance department.

SAGITTARIUS (Nov. 23-Dec. 21) Involvements where you share a material interest should be given full attention today. Worthwhile gains will come of it.

CAPRICORN (Dec. 22-Jan. 19) The timing is good today to make a request of someone who doesn't grant favors easily. This person will be in the right frame of mind and will come through for you.

AQUARIUS (Jan. 20-Feb. 18) It's a good day to clean out those closets or to tackle the attic. You may even discover a few valuable misplaced or forgotten items!

PISCES (Feb. 20-March 20) A social gathering could bring you together with someone who has been hard for you to reach. Use this opportunity advantageously.

Tornadoes touch down in Arkansas

By The Associated Press

Monte Sheppard first heard loud wind gusts and a whirling noise coming from outside his house in Texarkana, Ark.

As he was walking to the back of the house, away from the loud noise that shook its foundation, the front porch was ripped away.

"It was a suction to the house," Sheppard said as he surveyed the damage caused by a small tornado. A small camping trailer outside the house also was damaged. Texarkana police estimated the damage at \$5,000.

The twister was one of several small tornadoes that were sighted in Arkansas on Sunday. Only a few touched down, resulting in minor damage, the National Weather Service said.

One of the tornadoes caused an estimated \$4,000 damage to a home at Knoxville in western Arkansas, the agency said.

Police in the Poinsett County community of Lepanto reported a tornado on the ground early in the afternoon and a funnel cloud was observed approaching Jonesboro, the weather service said.

State police reported sighting three tornadoes, one seven miles southeast of Little Rock, another 10 miles south of Sheridan and a third 12 miles south of Camden.

Heavy rains late Saturday and early Sunday caused flash flooding in some parts of the state.

Rainfall totals Saturday night ranged from one inch upward to four inches recorded at Blakely Dam on Lake Ouachita, the weather service said.

High water in the Craighead County community of Bono forced the evacuation of at least seven families. Authorities said more Bono residents might be evacuated if rains continued.
