ATTENTION COTTON FARMERS...

We were approached and asked to a meeting a few days ago to raise ginning to 45 cents. But most all farmers have had enough expense this year, and too, they will have a very short crop, so we have decided to gin for our old price-TWENTY CENTS.

Also we have gone over the gin plant from bottom to top, and installed new Hardwick-Etter drying system and Hardwick-Etter cleaners which will make a sample equal to the best, and this will be a pretty good item on 36-Cent cotton.

Come by and see us, we will pick it all off the seed and out of the burr. YOU MUST BE SATISFIED.

And we will have plenty of Cow Feed for our customers such as Meal, Hulls, and cake. Other items that you need — ask us about them.

Building Brain and Brawn

Sports enthusiasts of Haskell are getting their first year. glimpses of what to expect in the coming season as 41 hopefuls for the current high school football team go people of that section with a Sunthrough their paces on the local gridiron. It will be a new day School class party last Saturdeal for Haskell High School, as coaches are seeing most day night. prospects for the first time and several boys are donning Point and Shelby Johnson of football togs for the first time.

Coaches J. E. Berryhill and J. L. Alderdice have where they will install two Gilcaught the fancy of Haskell boys and grown-ups alike. more farm light plants. These men going to ship from Sauran were years ago. Other features of the Theirs is the task of building a team with material at hand that will merit the support of local people. And theirs is The Brazos River bridge apthe task to teach fair play and sportsmanship that will go proach west of Rule, which was for sale. with the boys the rest of their lives.

Ninety percent of all boys who play football praise the sport the remainder of their lives for teaching them to urday. This is quite an inconvenrespect the rights and actions of others. Many a boy who lence for farmers and ranchers in is selfish and thoughtless learns on the football field that greatest happiness and usefulness is by cooperation and of the Sagerton bridge to reach fair play. They learn discipline in a group, and they also Rule or other towns in the county learn to discipline themselves individually. They learn to respect their bodies and to care for them with moderate eating, clean living, fewer indulgences, and regular

A few of those who oppose football because it is too fence constructed around the rough need to study statistics. Records show that fewer courthouse square. It will be set boys are injured on football fields than on other school thus widening the street around playgrounds. Injuries seldom are permanent and thous- the public square. Four public ands of boys build permanently stronger bodies by play- watering troughs, one at each coring football a few seasons in high school and college. A "real boy" likes his football and it is one of the best means available for making a "real man" of him. Haskell will do well to get behind the football coaches and boys and support them with the best equipment and spirit the town has seen.

Dangers For The Dangerous

It is commendable to see that public officials have taken concerted action to curb recklessness by automobile drivers on the streets of Haskell. For several months the practice of racing through Haskell's business and residen- Haskell. tial districts has increased until the last few weeks late | W. D. Garren, a farmer of some night and early morning hours were filled with screaming twelve or fifteen years experience tires, freak horns and whistles, backfire explosions and in the southwestern portion of the accompanying sounds. Not Eugene Meadors left Monday only will the officers lessen dangers to others of the city, for his home at Fayetteville, Ark. but occupants of offending automobiles will be safeguard- after spending several weeks with ed against fatal accidents.

Plans For The Fall Fair

More than a thousand premium list catalogs have been mailed and delivered this week in connection with pusiness. Mr. Moore will be in the Central West Texas Fair to be staged here October 10-11-12. Plans for the event are rapidly taking shape and this section is promised one of the best fairs to be staged in Texas this year.

War years made it inadvisable to stage the Central West Texas Fair-this being the first one since 1941. Directors and others interested ir hesitated at staging the show this year because of he drouth and material shortages. It took courage and vision of those in charge to announce that the fair wou go co. Since that decision was reached the area has received crop-saving rainseven after a number of other proposed fairs in West Texas

Rains came too late to guarantee perfect showings of all products. Garden and field varieties won't be quite up to par, livestock may not be in as good condition as if rains had come earlier, but this country is noted for staging a comeback when prospects are lowest. The fair in Haskell will add to that reputation and will be of inestimable value at getting folks back on pre-war levels of mixing personalities and products, and centering their energies on projects that make for a happier and more neighborly West Texas.

Let us serve instead of rule, knock instead of push at the door of human hearts, and allow to each and every one the same rights and privileges that we claim for ourselves .- Mary Baker Eddy.

To cultivate kindness is a valuable part of the business of life .- Samuel Johnson.

We can only have the highest happiness by having wide thoughts and much feeling for the rest of the world. -George Eliot.

Our grand business in life is not to see what lies dimly at a distance, but to do what lies clearly at hand-Car-

Membership in the Haskell JUDGE AND MRS. GRISSOM County Farm Bureau is increasing, according to J. D. Brown of Rochester, county president, foldo not know what Farm Bureau the week-end. Brown said.

Farm Bureau is an organization of, for and by farm families, united for the purpose of analyzing their problems and formulating programs to effect for farmers through a strong, militant, well informed membership, economic equality, educational opportunity. and social advancement, and thereby promote the national se-

The Farm Bureau is national in scope, non-partisan, non-sectarian, and non-secreta in character It is representative of the entire farm population, is self financed. and acts as a clearing house for agriculture and as a spokesman for a free, independent, unfettered organization of farmers.'

In the United States, Brown continued, there are over a million members in Farm Bureau. Haskell County farmers are proud to be members when they know of definite results of Farm Bu-

reau. For instance in Texas: 1. Farm Bureau influence de feated four bills last year intended to tax tractor gasoline 4c per

2. Helped secure increase in truck load limit from 38,000 to 48,000 pounds. 3. Defeated bills intended to

cripple REA. 4. Prevented non-cotton zone in the pink boll worm infested

Helped secure certificate 6. Helped prevent a ceiling of 24.09 per pound being levied on raw cotton.

On the national scope the Washington, D. C., office staff analyzes all legislation to determine its effect on agriculture. In line with the policies of the organization Farm Bureau supports the legislation beneficial to agriculture

oset type Automatic Furnace

Builders of new homes and those remodeling now realize that automatic gas central heat, when planned as part of house, costs so little more each month that it is one luxury they can afford.

A closet type furnace is the ideal unit to supply this luxury heat in the cottage or medium size home. So completely automatic it is like magic. It heats, cleans and balances air with right amount of moisture. It maintains an even temperature throughout house. It costs little to operate because Lone Star Gas Service is cheap in price.

For magic in home comfort, plan house heating as part of house and vent heater to a flue.

Closet Type

Automatic Gas Central Furnace

For the cottage where space is limited this closet-type furnace is ideal for installation in small space. It provides clean, warm air throughout the house. It is completely autotic . It is quiet, efficient and costs little to operate. It is vented to a flue.

Three easy steps will degrade self-governing people to the level of dictatorship; (1) to planned economy (2) to government management (3) to government control. America has already taken the first step. War pushed central planning upon us, and people who like it are trying to make it permanent. If it can be made to stick, the nation will be ready for the second step-government management.

Disregarding all fancy and impractical theories, history proves that private enterprise made America the world's most powerful nation and gave us all the most comfortable lives that common people ever lived. Our only wise course is to turn back to free enterprise but first we must get shed of planned economy. It is going to demand a series of strenuous treatments, for it is well advanced.

It Is No Dream

Egg Grading Brings He says at a representatives of Additional Profits To Poultry Raisers

College Station.—Texas has a ly important to great deal to gain by adopting a and brand names voluntary egg grading program, grades. Beanble since it has large numbers of producers and large numbers of hens and produces much of its own voluntary egg grad feed, in the opinion of F. Z. Bean Beanblossom po ialist of the Texas A. and M. College Extension Service.

modities are so large that a fair ter care of eggs, price will not cover them. Indus- the extra trouble trial relations are so needled with grading," he says politics that declining volume al. phasizes the need ready is endangering jobs and consumer education wages.

People who are saving money are obliged often to let it lie idle in banks because there is no reasonably secure place to put it to work. Some invest in government bonds but the earnings of bonds come from taxes and serve not at all to put men to work and increase the national wealth. When private investors are afraid to trust enterprise, government management i at the door.

The Need of Today

Getting the United States out of its present entanglements with state socialism is one thing, keeping it out is another. For the long-range good of this nation, and of the world that looks to us for leadership, a ceaseless campaign of education is needed. The present need is to cut restraints on production and set American business on its feet again; by three measures:

(1) Change the tax structure to permit profits to operators and dividends to investors. (2) Balance the federal budget now, in prosperous times when, if ever, high taxes can be paid. (3) Improve in dustrial relations. In the long run workers get paid in proportion to what they produce; and high wages fairly earned, comprise the founda tion of American prosperity.
