Mr. King is survived by his widow and five children, H. C. King and Mrs. Coleman, Haskell; Miss Nell King, and Frank W. King, all of Throckmorton. Seven grandchildren also survive.

Haskell Man Says Salt Makes 'Good' Anti-Freeze

Haskell motorists who are dreading cold weather with prospects for no anti-freeze for their car motors, will welcome the suggestion of M. R. Hemphill of this city, who says that an ordinary 10c box of table salt poured into the radiator of a car will provide protection against freezing.

Mr. Hemphill has been using this simple "anti-freeze" for a number of years, says that he has tested it in weather 9 degrees below freezing. He declares that the salt will not cause any damage to motors nor interfere with operation of cars or trucks. Only disadvantage he has ever noticed is that in damp, foggy weather, spark plugs may attract some moisture, but that this situation does not prevail in rainy weather.

Ministers Group Will Meet

Haskell Ministerial Alliance will meet Monday at 10 a. m. in the pastor's study of the First Methodist church for a regular meeting. All pastors of the city are urged to attend the session.

NEW YEAR BRINGS CROP OF POLITICAL RUMORS

With 1948 an important political year, with qualified electors due to name officials ranging from President to precinct posts, rumors were current this week that several prospective candidates would announce their candidacies at a nearly date for several county offices to be filled in the forthcoming primaries.

County offices to be filled this year include those of District Attorney, County Judge, County Attorney, Sheriff, District Clerk, County Clerk, Commissioners of the four Precincts, and Justice of Peace, Constable and Public Weighers in the various precincts.

Several incumbents now serving their first terms will ask reelection, with little or no opposition expected for those asking for the customary second term, political observers believe.

In addition to the County and District offices, several city posts will be filled in elections in April of this year, as well as vacancies in trustee boards in the several school districts of the county.

Poll tax payments up to Thursday morning had reached a total of 1822. Assessor Collectr R. A. Coburn reported. This is a considerable increase over the number paid to the same date in 1947, an "off" political year.

FHA Makes First Insured Loan

The first insured loan in Texas was made to Mr. and Mrs. Alfred Churchwell in San Saba County on December 9, when the check for the loan was delivered to Mr. Churchwell by Mr. Dofflemeyer, president of the San Saba National Bank. The new federally insured farm program of the Farmers Home Administration is now in effect throughout the entire country, according to Wm. E. Lawson, county supervisor in this county. 95 applications for such loans to buy farms have been received so far in this county.

Mr. Lawson explained that this new program supplements rather than substitutes for the agency's direct farm purchase loan program in operation for the past 10 years. The insured loans are advanced by private lenders.

Applications are accepted from qualified veterans and from tenants, share croppers, farm laborers and owners of inadequate or underimproved farms—provided they cannot obtain needed credit in any other way. The applicant must have farming experience and be of good character. He must know of a suitable place he can buy at a reasonable price, and be able to pay down at least 10 per cent of the price of the farm and of the cost of any needed improvements. This 10 per cent investment gives him an equity in the place. He borrows the remaining 90 per cent from a private lender such as a bank, insurance company, investment firm or individual, and the Farmers Home Administration guarantees the loan's repayment.

The farmer has 40 years to pay off the loans, if he needs that long, and he pays 2 1/2 per cent interest. In addition he pays 1 per cent mortgage charge at the beginning of each year, including the first, to the Farmers Home Administration. The farm he selects to buy must be appraised on the basis of long time average prices for farm products, to be sure it is worth what it costs.

"We lean heavily on county committees for advice and assistance in insuring loans," Mr. Lawson said, "just as we do in making direct loans. In the matter of farm purchases the committee certifies to a farm's sound value, and passes on the applicant's qualifications." Committee members for Haskell county are Walter H. Merchant, R. Payne Hattox, and Merrett E. Overton.

Joe Thomson Buys Service Cleaners

Purchase of the Norris Service Cleaners establishment in this city by Joe T. Thomson has been announced. The modern establishment has been operated by S. A. Norris for a number of years. He is retiring to devote his time to his farming interests.

Mr. Thomson has been a resident of Haskell for the past ten years, and during that time he has been employed in the Haskell National Bank and the former Farmers & Merchants State Bank. He also has had experience in the dry cleaning and tailoring business, having worked for both the Gene Hunter and Norris establishments here.

Larger Entries Are Listed for Forth Worth Show

Animals from 18 states including first time entries from additional major American show herds will be housed in the big new livestock buildings at the 1948 Southwestern Exposition and Fat Stock Show, Jan. 30 through Feb. 8 in Fort Worth.

Figures announced by W. A. King, general livestock superintendent show that Hereford breeding entries totaling 631 head have greatly exceeded the last show's 477 head total. Entries in other divisions that have topped 1947 marks include Shorthorns besting the 93 entries of 1947 with 126 breeding entries, Aberdeen-Angus brought a 228 total up to 256 for 1948, and fat and breeding sheep entries totaling 763 show a 108 head increase.

Total entries in the Boys Show including fat steers, lambs, swine and dairy calves, are not yet tabulated. In this group more than 1,000 members of the FFA and 4H Clubs of Texas are expected to compete. Thousands of members of these groups will observe their special days at the show, FFA on Saturday, Jan. 31, and 4H on Monday, Feb. 2.

Among the outstanding herds showing in the Hereford division at Fort Worth for the first time this year are Likin's Flying L Ranch, Davis, Okla.; Milky Way Hereford Ranch, Phoenix, Ariz.; Albert Noe Farms, Pulaski, Tenn.; Trail's End Ranch, Hillside, Col.; and Wyoming Hereford Ranch, at Cheyenne. New Shorthorn entrants include Edelynn Farms, at Wilson, Ill.; Mather Brothers, Mason City, Ill.; and the Curtis Candy Company, Chicago.

States represented by the 1948 entries are Colorado, Mississippi, Missouri, Arizona, Oklahoma, Illinois, Tennessee, Iowa, Kansas, South Dakota, Louisiana, Nebraska, Wyoming, California, Georgia, New Mexico, Montana and Texas.

An altercation between two Negro men Christmas Day resulted in the slaying of one of the men, Willie Jackson, about 24 years old, and a murder complaint against a younger Negro, Cloyd Thomas, about 21.

The killing occurred in the colored section in the northeast part of town about 3:30 Thursday afternoon. Jackson, who had been employed as a hotel porter, was shot three times in the forehead with a .38 caliber pistol, and killed instantly, officers said.

Chief of Police Harold Hodges and City Policeman George Yancy conducted an investigation of the slaying and took the younger Negro into custody.

Examining trial was held before Justice of the Peace C. K. Jones, who set bond for Thomas at \$2,500 pending Grand Jury investigation. The bond was perfected and Thomas was released to await action of the Grand Jury.

HHS Seniors of '42 Have Homecoming

Tuesday evening, December 23rd the Haskell High School Seniors of 1942 converged in Haskell coming from all over Texas and other parts of the country to attend a class homecoming. The occasion was celebrated in the gymnasium and Mrs. Joe E. Thomson home was gay with holiday colors, featuring the class colors of red and white. Guests were greeted at the door by Mr. and Mrs. Thomson, who ushered them into the dining room for refreshments. The table was laid with a lace cloth; other table appointments were silver and crystal. The centerpiece was an arrangement of red roses, the class flower. Mrs. Merle S. Ivy ladeled punch and Mrs. M. R. Littlefield served the three tiered white cake decorated with "Class of '42" in red lettering.

Mr. Ross E. Lowe, president of the class read the class prophecy. Afterwards, the ex-classmates enjoyed table games and reminiscing about the good old days in H.H.S. The next homecoming is due to be held in December 1948.

County Clerk of Haskell County, Texas.

An Echo Testifies

President Truman recently suggested that price controls might have to be used to meet the present emergency. Here is a bit of history. It is an echo from government managed economy that keeps on testifying to the ill effects of government managed economy. During the war the government kept prices of crude oil at an abnormal low. This column called attention to that fact then, indicating there would be a future shortage of oil.

Wild-cat operators and small companies find most of the new pools and sell much of the crude oil. But prices during the war kept wildcat operators from buying adequate equipment. It didn't pay. Machinery and wages kept going up, but the price of oil was held low. Instead of buying new rigs for new wells, oil men removed old rigs from low producing wells that would have been kept in production if the price of oil had been favorable.

How to Stall Industry

There was less searching for new fields, because oil prices were so out of line with cost of labor and machinery. The risk was too often a losing proposition. This unwise control continued so long that a grave shortage developed in oil field equipment, in oil well pipe lines, and even in refineries. Now we are reaping the harvest. Many will go cold this winter. Gasoline may be short in some areas, and industrial fuel scarce.

One big operator said to me during that period: "To help win a war I am operating present equipment at full capacity. But I am making only about 1/4 of 1 per cent profit on my investment. Consequently, I am not spending new money for expansion of my business. A man can't risk his capital when there is only a chance of 1/4 of 1 per cent profit even if the venture proves entirely successful, and 100 per cent less if it fails, as many of them do in the oil business."

Sad Picture Now

On November 12 Oscar L. Chapman, Under-secretary of Interior, told the American Petroleum Institute in Chicago: "We face critical times, critical for all of us, and for the competitive freedom of the petroleum industry. This winter for the first time in its peacetime history, the oil industry will be unable to meet the full needs of the American people."

The oil people may come through with another miracle as they did during the war. They may actually meet the demand, even though this well-informed government official thinks they cannot. I am awfully slow to put a limit on what free men in a free country can do. But it must be said that the present threat of fuel shortage results from the abnormally low price that government maintained on crude oil during the war and thereafter.

The Danger is There

This should underscore the danger of giving the government power to set prices. Even now, such power can be misused. It could happen that price control now might well obstruct the building of homes, hospitals, and factories — five years from now. Free markets and free prices are the only sane controls. These have given America higher wages for workers, better living conditions for farmers, and better living conditions than any other system. Let us have the courage of good citizenship to keep freedom and do what we know we should do.

Here is the smiling of a driver who thought he could drive and still drive a car, having done the highway at a dangerous speed, his car swerved off the edge of the pavement, braked on the sand shoulder, and was launched into a spin. Deviation drivers are potential murderers of every other motorist who comes near them in the road. They were involved in more than 5,000 fatal accidents last year. National Conservation Bureau safety specialists say even one or two deaths from 13 accidents, make judgment unsafe, increase chances of accident three to four times.

Veterans News

The number of World War II veterans in all types of training under federal programs administered by the Veterans Administration reached a new peak of 1,800,000 on November 30.

The current enrollment is more than four per cent higher than the previous peak of 1,744,000 established in April, 1947.

November figures represent new peaks under each of the two laws providing education and training for veterans. By the end of the month, 1,541,000 veterans were in training under the Servicemen's Readjustment Act (GI Bill) and 259,000 under the Vocational Rehabilitation Act (Public Law 16) for disabled veterans.

New high levels were reached during November in all of the major training classifications under both laws, with the exception of job training under the GI Bill. This type of training declined for the tenth consecutive month.

Most of the GI Bill trainees were studying in schools, with 1,150,000 enrolled in colleges and universities and 451,500 taking work in other schools below the collegiate level. Institutional on farm training attracted 199,000 while 545,500 were training on the job.

QUESTIONS AND ANSWERS

Q. Can my son, a disabled war veteran, who is being rehabilitated under Public Law 16, continue his training for more than four years?

A. Training in excess of four years may be approved for your son if his disability is such that no course of training which does not exceed four years will restore him to employability, or if circumstances beyond his control necessitate the extension beyond the prescribed four year period. No course in excess of four years may be authorized except with the approval of the Administration.

Q. If I decide to give up the course of training I am taking under the GI Bill, do I have to notify Veterans Administration of my action?

A. You should not quit your course of education or training without notifying or obtaining approval of the VA regional office handling your claim. This is necessary so that if you have not exhausted your entitlement, you may qualify for further training.

Q. May a veteran receive full subsistence payments from Veterans Administration if he works while attending school under the GI Bill?

A. He may work part-time of full-time and still draw his full subsistence allowance, provided that the wages he earns for such employment, plus his subsistence allowance while attending school, does not total more than \$175 a month if he has no dependent, or dependents or \$200 a month if he has dependents.

TPA Adds New Staff Member in Central Office

MISS NANCY MAHOOD

Dallas, Jan. 1—Paul Fulks, president of the Texas Press Association and publisher of the Wolfe City Sun, announced today the addition of Miss Nancy Mahood to the Association's central office staff.
Miss Mahood will serve as secretary to Vernon T. Sanford, association manager, who opened the central office for Texas newspapers on December first. Headquarters of the Association are located in the Baker Hotel, in Dallas.
"We are proud to add Miss Mahood to our central office personnel," said Sanford. "She will be of valuable assistance to us in building the Texas Press Association in the finest organization of its kind in the nation."
Miss Mahood joined the staff of the Nebraska Press Association nine years ago and has been secretary-manager for the past five years. She is a graduate of the University of Nebraska with a BA degree and certificate in journalism. Two years of her college education were obtained at Morningside College in Sioux City.

The driver of this car disregarded a plainly marked warning sign and crossed the tracks directly into the path of a passenger train. His machine was swept up like a leaf and raked over the tracks. The driver and two occupants were killed. Signs, lights and bells are placed at crossings for the protection of motorists. Yet 2,000 were killed last year, and 70,000 injured, because they did not trouble to stop, look both ways, and listen for the warning whistle.

New Models of Dodge Trucks Introduced

A completely new line of Dodge Job Rater trucks comprising 248 basic chassis models ranging from 4250 to 23,000 pounds gross vehicle weight and up to 40,000 pounds gross train weight has been developed by the Dodge Division of the Chrysler Corporation.
Some models of the new trucks will be displayed starting January 7 by Pitman Motor Company in Haskell.

A combination of massive strength and smoothly flowing lines is the keynote of styling for the new trucks. They were designed to combine appearance and comfort, performance, economy and ease of handling.

Front axles have been moved back and engines have been moved forward to place more of the gross vehicle weight on the front axle and provide better weight distribution. The wheelbase for conventional models through the 2 ton has been reduced eight inches, while the 2 1/2 and 3 ton models have been reduced six inches. The new trucks have been engineered so that despite the shorter wheelbases, the cab to axle dimensions remain practically unchanged, making it possible to use the same length bodies as before.

New ease of handling and driving has been provided by the shorter wheelbases and the wider tread front axle, together with cross steering, which is a new feature on all conventional cab models. The cross steering permits a 37 degree turning angle both right and left. Drivers now can park or back into alleys or up to loading platforms with much greater ease. Road shock through the steering wheel is greatly reduced by the cross steering, which has the drag link running parallel with the front axle.

Yes Johnny, '47 is gone—but REDDY is STILL here!

Yes, Johnny, '47 is gone. But Reddy Kilowatt, your electric servant, will be on the job with service to you and other youngsters (as well as grown folks) during the new year.

All around the clock, low-cost, dependable, friendly Reddy Kilowatt will serve you. He'll help get the breakfast...show you safety on the way to school...provide proper lighting at school...assist mother to cook a wonderful dinner...make your homework easier with good light...and then to bed with the radio to lull you to sleep.

Yes, Reddy is helping youngsters to grow up to be sturdy men and women. Before long they'll have homes of their own, and Reddy will still be waiting to serve them day and night.

Happy New Year!

We would like to take this method of wishing each and every one of you a very Happy New Year. We have enjoyed doing business with you during the past year, and will appreciate your business during 1948. We wish you lots of joy and prosperity in 1948.

WORLD FACES SHORT DIETS

"There is no hope" that the food shortage now threatening world stability will end with the harvest of 1948, according to Sir John Boyd Orr, Director General for the United Nation's Food and Agriculture Organization.

The British expert points out that stocks are so low that a bumper cereal harvest next year will not eliminate bread rationing for 1949 and that the shortage of fats and oil and livestock products will continue for a longer period.

The Director General points out that hunger, if long continued, will result in social and political unrest and warns that further shocks to a distracted and impoverished world economy may lead to a complete breakdown of the structure of human society.

"Love one another" (I John, iii. 23), is the most simple and profound counsel of the inspired writer.—Mary Baker Eddy.

Elegance of language may not be in the power of all of us; but simplicity and straight-forwardness are. Write much as you would speak; speak as you think.—Alford.

If you have managed to live this long, amid the welter of accidents on the highways, it is time to drive carefully.

HASKELL COUNTY HISTORY

Brief Items Taken from Old Copies of The Free Press

20 Years Ago, Jan. 12, 1928

Andy Carothers, long time resident of Haskell, died Monday in a Waco sanitarium following a brief illness.

The First National Bank at Sylvester, in Fisher county, was robbed of between \$2,000 and \$3,000 Tuesday about noon by two unmasked men.

At a meeting of stockholders of the Farmers State Bank Tuesday, all officers and directors were re-elected for the ensuing year. Officers are R. C. Montgomery, president; H. S. Post vice president; J. B. Post, cashier; John S. Rike, assistant cashier.

All officers and directors of the Haskell National Bank were re-elected Tuesday at the regular meeting of stockholders. Re-elected were Mrs. M. S. Pierson, president; Hardy Grisson, vice-president; O. E. Patterson, active vice president; A. C. Pierson, cashier; Miss Nettie McCollum, assistant cashier.

After abducting J. H. Finley, night watchman and tying him to a farm wagon about two miles from town; four men Sunday morning robbed three stores and the postoffice at Knox City of about \$300 in cash, \$150 worth of jewelry and some narcotics.

30 Years Ago, Jan. 5, 1918

The doors of the Haskell County Jail were thrown open for the first time in several months Friday, and the jail is now empty. Five prisoners had been confined there since the recent term of District Court. Among the prisoners was a slacker from Bisbee, Arizona, who was taken to Camp Bowie and turned over to Military officers.

Raleigh Lemmon of Camp Travis returned to camp Tuesday after a visit here with his parents.

dated October 1, 1912, recorded in Vol. 61, Page 198 of the Deed Records of Haskell County, Texas, the residence of each and all of said hereinbefore named being unknown to plaintiff; and if deceased, (and whether living or dead is not known to the plaintiff) the heirs, devisees, legatees and legal representatives of each and all of said persons as may be dead, whose names and residences are unknown to the plaintiff; and, the unknown owners or claimants of the lands and premises hereinafter described, whose names and residences are unknown to the plaintiff. GREETING: You, and each of you, are commanded to appear and answer the Plaintiff's original Petition, at or before 10 o'clock, A. M. of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday, the 19th day of January, A. D. 1948, at or before 10 o'clock A. M. before the Honorable District Court of Haskell County, Texas, at the Court House in Haskell, Texas.

Said plaintiff's petition was filed on the 6th day of December, A. D. 1947.

The file number of said suit being No. 7473.

The names of the parties in said suit are O. S. (Oran) Covey, as plaintiff, and the defendants (without repeating here) are all those first named hereinabove in this citation, and to whom it is directed.

The nature of said suit being substantially as follows, to-wit: Plaintiff sues in trespass to try title, as well as for damages, for the title and possession of the following described lands and premises, situated in Haskell County, Texas, to-wit:

Notice is hereby given to all persons concerned that the City Council of the City of Stamford, Jones County, Texas, will grant an oil, gas and mineral lease on the following described property, situated in Haskell County, Texas to-wit:

Beginning at the NW corner of Survey 19, B. B. E. & C. R. R. Co., a set stone;

Thence N 171 vrs to a point in SB line of Chas. B. Clough Survey;

Thence E 1796 vrs with the SB line of said Chas. B. Clough Survey to SE corner thereof, in the most westerly WB line of C. W. Jones Pre-emption, Abstract 782;

Thence S 171 vrs with the said most westerly WBL of the said C. W. Jones Pre-emption to a stone mound in the NB line of said Survey 19;

Thence W 1790 vrs with the N line of said Survey 19 to place of beginning and containing 54.2 acres of land, more or less, and being the same land conveyed to the City of Stamford by J. T. and Willie Halsell by deed dated October 1, 1906, recorded Vol. 38, Page 47, Deed Records of Haskell County, Texas. Said tract being a part of the East part of Fractional Survey No. 2 of G. C. & S. F. R. R. Co. Land, Abstract No. 1012, in Haskell County, more particularly described by metes and bounds above.

This lease also covers and includes all land owned or claimed by Lessor adjacent or contiguous to the land particularly described above, whether the same be in said survey or surveys or in adjacent surveys, although not included with the boundaries of the land particularly described above.

To the highest bidder at a public auction to be held in the Council Chamber at the City Hall in the City of Stamford, Texas, at 2:30 o'clock P. M. on the 16 day of January, 1948, provided that said City Council reserves the right, if in its judgment such highest bid does not represent the fair value of such lease, to reject same and again give notice to call for additional bids. No bid of less than five dollars (\$5.00) per acre cash for such lease shall be considered. Such lease shall be for a primary term of five (5) years from its date, shall provide for a one-eighth (1/8) royalty for annual rental of one dollar (\$1.00) per acre in order to defer the commencement of drilling operations and shall be on the form attached to the minutes of the meeting of said City Council held on the 17 day of December, 1947, which form may be examined in the office of the City Secretary in the City Hall at Stamford, Texas, during ordinary business hours. When such highest bid has been received, a public hearing will be held by said City Council in the Council Chamber at said City Hall in Stamford, Texas, to determine the advisability of accepting such bid.

A. C. HUMPHREY, Mayor of the City of Stamford, Texas.

R. G. BOWDRY, Secretary of the City of Stamford, Texas.

Annual Physical Check Advised

If you have not had an audit made recently of your physical assets and liabilities, go to your doctor now and have it done, is the advice of Dr. Geo. W. Cox, State Health Officer, to all the grown ups in Texas. "It is quite as important," Dr. Cox said, "to check up on your physical resources as it is to look into the state of your financial possessions. By regular care under your physician's direction, you can conserve your physical assets and avoid the accumulation of destructive liabilities."

"Each of us starts with a certain amount of physical capital. Merely as a business proposition, it is worthwhile to conserve it to the best of our ability. In infancy and childhood our physical resources, as a rule, are safeguarded for us. As we grow older, the responsibility for doing so rests upon the individual. The critical period may come in middle life with the sudden realization that the physical capital is yielding diminishing returns in the way of physical well being. A large number of the deaths reported each year in Texas are due to the degenerative diseases of middle age."

"Nearly all of these diseases have slow beginnings, and their onset can often be recognized in the course of a thorough physical examination before they have gained serious headway. In the majority, early detection of these menacing conditions with a readjustment of physical expenditures and a better budgeting of activities, under the physician's direction, will help to shift the favorable side of the ledger."
