A trickle of dollars has come marching in for the Haskell County polio fund as campaign leaders completed the county organization this week, according to Chas. M. Conner, chairman of the fund campaign.

Formerly known as the March-of-Dimes campaign, the new slogan of "dollars in the place of dimes this year" is more appropriate due to the increased need of the National Foundation for Infantile Paralysis, Conner said.

The campaign is being arranged so that every person in Haskell county will have the opportunity to have a part. Plans of organization call for a complete canvass of all public schools, contributions through containers which have been placed in practically all business establishments in the county, canvass of all business districts of the county, as well as the outlying time-business districts, announcements through county churches, and a direct appeal to the individual.

**Texas Lists Many Golden Gloves Champions**

Texas had produced many glittering Golden Gloves champions, but Morris Corona of Port Arthur and Tom Attra of Austin outshine 'em all.

Each boxer twice won national championships. Corona captured Texas titles five times, more than any other fighter. Attra was four-times state champion.

Slender, clever, sharp-punching Corona was Texas' first national champion. Representing Beaumont, he won the title as a welterweight in 1941.

Then in 1942, both Corona and Attra collected national crowns. Corona had trimmed down to a lightweight. Attra wore Temple colors and was a light heavy-weight. Austin did not have a tournament that year.

Attra punched his way to his second national title in 1945, while in the Army and fighting out of San Antonio.

Colorful little Dick Menchaca, who developed at Port Arthur and Beaumont, is the only other battler of the Lone Star State to snare a national championship. He went all the way as a bantamweight in 1941 while a student at Allen Academy in Bryan. He qualified through the tournament at Temple.

Menchaca, Flyweight Jose Andres of Fort Worth and Heavyweight Charles Simmons of Dallas won three state titles.

All those five stars have completed their eligibility and will be in neither the 1949 State tournament at Fort Worth Feb. 9-14 nor any of the 50 district and regional tournaments over the State in January.

**Statement of Wages Earned Required With Tax Return**

The office of the Collector of Internal Revenue cautioned taxpayers today that income tax returns filed on either of the individual income tax forms could not be accepted unless statements of wages earned, Form W-2, from employers are attached.

The Form W-2, issued by all employers to their employees, can not be used as a return this year.

Instead, all persons filing individual returns must use either Form 1040-A or Form 1040. Form 1040-A should be used by all persons having income from wages or salaries not in excess of \$5,000. It can be used as a joint return of husband and wife. All Forms W-2 received from employers, for both the husband and wife, must be attached. The Collector's office will figure the taxes or refund due on these returns.

Forms 1040-A may be secured from employers, post offices, banks, and field offices of the Collector of Internal Revenue.

Persons having income in excess of \$5,000 must use Form 1040. If any income was from wages or salaries, the Forms W-2 must be attached.

Under present law, employers must give their employees their Forms W-2 not later than Jan. 31, 1949.

Income tax returns received in the Collector's office without the necessary Forms W-2 attached will be returned to the taxpayers for correction.

**Reserve Commission Now Available to Doctors, Dentists**

Reserve commissions are now available for young doctors and dentists, subject to the draft, if they volunteer for these commissions and are placed on active duty before being inducted under the Selective Service Act. Col. O. B. Abbott, Senior Army Instructor for the Organized Reserve Corps, has announced.

Under congressional provisions, these doctors and dentists will receive \$100 per month compensation in addition to regular pay and allowances. The extra compensation will not be given to those who enter the services through the Selective Service, even though they are subsequently commissioned.

These reserve commissions are available to qualified doctors of medicine and dentistry who have completed a 4-year course, physically able and now are serving an internship. Once they are accepted and commissioned in the reserve, they may be called for a period of active duty after they have finished their current year of internship. Such commission can be used to support a request for deferment in the draft.

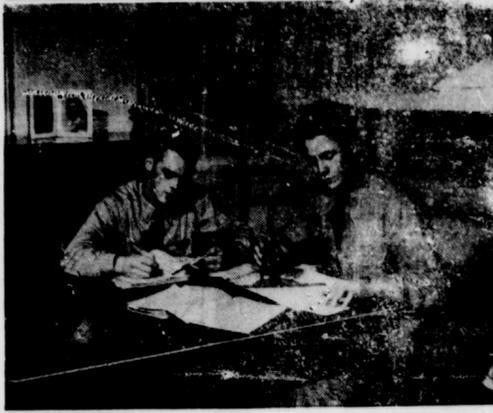

At the present time there is a dire shortage of doctors and dentists, it is stated, and young doctors and dentists, who are subject to the draft, are urged by the armed services to give serious consideration to accepting commissions. They may get detailed information from any Organized Reserve Corps Instructor's office.

**Oleomargarine Uses Record Quantity of Cottonseed Oil**

More than 322,000,000 pounds of cottonseed oil were used in margarine in 1947, representing 54.2 per cent of all oils in the product, the National Cotton Council announced today.

Margarine was cottonseed oil's biggest customer for the first time during 1947, the Cotton Council reported. Previously shortening had led in the consumption of cottonseed oil.

In 1948, the consumption of cottonseed oil in margarine increased 100,000,000 pounds. Since 1939 use of cottonseed oil for margarine production has more than tripled.

More vegetable oil was used in margarine in 1947 than in any previous year. Soybeans followed cottonseed in supplying oils for the manufacture of margarine, with 227,594,000 pounds of soybean oil used in the product.

The increasing popularity of margarine among all consumer groups an dthe fact that cottonseed oil is the choice vegetable oil for margarine production account for the huge jump in cottonseed oil consumption in this market, the Cotton Council said.

**WEEKLY SWING OF SOUTHWEST FARM MARKETS**

(From Production & Marketing Administration, USDA)

Week of the new open-unsettled conditions on southwest farm markets, showing a mixture of ups and downs, according to the Department of Agriculture's Production and Marketing Administration.

Markets ended a week of trends Monday. Changes from losses of \$1 or more equally as great, according to class, grade and location, showed the full range of

trends. Canners and cutter cows sold in a spread of \$13 to \$17.50 at Houston, San Antonio, Oklahoma City and Denver, \$11 to \$16 at Fort Worth and \$14.50 to \$16.50 at Wichita and Kansas City.

Hogs fell mostly \$1.00 to \$1.50 for the week, with much of the loss recorded on the first Monday of the new year. Declines reached \$2 or more at Denver. Top butcher hogs dropped to around \$20.50 at most markets and \$21 at Denver. Sows brought \$17 to \$1 at San Antonio and mainly \$16.50 and down at other markets.

Most southwest sheep and goats showed slight weaknesses. San Antonio moved good wether sheep Monday at \$10 and \$10.50 and medium wether Angora goats in the hair at \$8.75 to \$9. Slaugh-

Chevrolet's biggest newspaper advertising campaign will use 5,972 dailies and weeklies to announce new models January 22. Dwarling Toni Banish, here's what 5,972 newspapers look like, each representing an individual publication.

ter ewes sold up to \$9.50 at Kansas City, \$9.25 at Fort Worth and Wichita, and \$9 at Oklahoma City and Denver.

Trading in wool and mohair was about at a standstill last week. Government support of wool prices for 1949 was announced, similar to that in effect in 1948.

Increased loadings of South Texas vegetables found slow demand the last week of the year. Spinach weakened sharply, and cabbage dropped to mostly \$8 a ton to growers. White Grapefruit and early oranges brought higher prices. Fort Worth received the season's first okra and strawberries from South Texas. Light trading on light receipts netted some advances at New Orleans. Denver paid higher prices for a number of products. Colorado potatoes and onions strengthened for the week.

Losses of 1 to 3 cents on wheat, oats, and white corn offset slight advances on other grains. No. 1 hard wheat closed Monday at \$2.42-3/4 to \$2.47-3/4 cents a bushel at Texas common points. No. 2 white corn sold from \$1.72-3/4 to \$1.75-3/4, and yellow corn around \$1.65. Milo brought \$2.72 to \$2.77 a hundred pounds.

Rice held firm in light trade during the year-end week. Wheat millfeeds and oilseed meals brought higher prices at southwest mills. Hay changed little in dull trade. Little peanut business took place, as the harvest was about completed and demand for shelled goods lagged.

Mostly good trading prevailed on southwest egg and poultry markets after New Years. Prices sagged mostly 1 to 3 cents a dozen on eggs and about as much per pound on poultry below a week earlier. Fresh eggs brought mainly 45 to 50 cents at Fort Worth, Dallas, and New Orleans, and 42 to 45 at Denver.

Cotton prices eased downward \$1 to \$2.50 a bale for the week. Spot middling 15-16 inch closed Monday at 32.10 cents a pound at Dallas, 32 at New Orleans, 31.95 at Little Rock, and 31.90 at Houston.

**Fashions for Home Offer Wide Range Of Cotton Fabrics**

Homemakers will have a wide range of choice in selecting new slip cover and upholstery fabrics for their spring redecorating spree, the National Cotton Council said.

Fashions for the home this season will reflect the trend toward rich, deep backgrounds with sparkling colors combined in distinctive patterns.

A showing of new prints by Mallinson, well-known drapery and upholstery fabric house, includes modern, contemporary, and English prints, along with woven fabrics. Among the newest shades in the line are lovely corals and fresh deep coffee browns. Cotton drapery and upholstery fabrics are styled in a variety of colors and patterns adapted to use in every type of home decoration scheme.

Among the outstanding new designs in the Mallinson collection are: lattice, a modern classic with a lattice-work design and textured effect; Inmor, a gaily figured provincial pattern which takes its name from the initials in the design; Auburn, a documentary adapted from an old silk kerchief; and pomeroy, an English pattern with an all over fruit design in cool, pleasant shades.

Cotton damasks and cotton textured weaves are expected to be among the most popular of the new spring fabrics. The fabrics are designed with coordinated decor in mind so that patterns such as stripes and prints can be combined effectively in a unified, attractive room scheme.

**Veterans News**

Veteran students who acquire dependents or additional dependents while in training under the GI Bill should notify VA as soon as possible, so that VA can determine whether they are eligible for increased subsistence payments.

Notice of change in dependency status should be sent to the VA regional office in which the veteran's records are kept. The notice should be accompanied by legal evidence of dependents, such as a certified copy of public record of birth, baptism or marriage.

Subsistence payments will be increased as of the date legal evidence is received by VA, and will not be made retroactive to the date the veteran actually acquired the dependent.

Monthly subsistence allowances for veterans studying full time in school are \$75 for those without dependents, \$105 for those with one dependent, and \$120 for those with more than one dependent.

Subsistence allowances paid by VA to veterans in educational or on the job training are not considered as income for income-tax purposes, VA reports.

Any income that the veterans may earn on part-time jobs while attending educational institutions full time, or earn while on the job training, is subject to taxation under existing tax laws.

Any veteran whose eligibility for GI Bill education runs out after he completes at least half of a school semester which is normal in cost may complete the remainder of the semester at government expense, VA says.

**Questions and Answers**  
Q.—VA has decided that vocational training under Public Law 16 to be "medically not feasible" for me. Will such training be provided at a later date if feasibility for training should then be established?

A.—Yes, if all other requirements of the law can be met. In such a case, vocational training may be provided as soon as medical feasibility is established. In the meantime, your application for vocational rehabilitation is referred to a rehabilitation board in the regional office. This board follows up your application and at regular intervals arranges for any service which

might helpful in accomplishing vocational rehabilitation.

Q.—While in training under the GI Bill, I was dropped from subsistence rolls because my monthly progress reports failed to reach VA in time. What should I do to be restored to the rolls?

A.—You should check with your employer and urge that he send in reports. You will be restored to the rolls as soon as your progress report is received. The progress report must be received by VA within 60 days of the first delinquency or you will lose the subsistence for the delinquent period.

Q.—Is it possible for a veteran to complete his last two grades in elementary school under the GI Bill?

A.—Yes.

Q.—Will VA pay the traveling costs for my son who is in a VA

hospital and who intends to visit home over a holiday?

A.—No. All travel while on leave from a VA hospital is at the expense of the veteran.

*We try*

*to keep 5 years ahead of the babies!*

**T**HEY'RE being born in record numbers these days; 4 million babies last year—12 million since the war!

They make one very important reason for the gigantic expansion program of the business-managed electric companies. Another reason is that everybody's appetite for electric service is getting bigger—in towns and on farms, in homes and in industry.

Ordinarily, we work and plan about 5 years ahead to meet the anticipated demand for electric service. (It takes a long time to plan, build and equip power plants.)

Today, in addition, we're working hard to catch up with much needed construction we could not do during the war years!

The West Texas Utilities Company is now rushing the work on an \$18,000,000 construction program. This \$18,000,000 construction program is part of the company policy of anticipating future needs... of keeping ahead of the babies.

How is this \$18,000,000 being spent? It is paying for new generating facilities... for improving and enlarging existing equipment... for hundreds of miles of wire, cable and pole lines. It means new jobs... agricultural and industrial development... a more prosperous West Texas for all of us!

**Hall County Wins  
 Merit Plaque For  
 4-H Better Methods**

For the second consecutive  
 year, Hall county has been se-  
 lected by the State Extension of-  
 fice as reporting the most out-  
 standing 4-H Better Methods  
 Electric program of 1948 in Tex-  
 as. In recognition of this achieve-  
 ment, the County Extension of-  
 fice receives a Westinghouse Ed-  
 ucational Foundation plaque of  
 merit, appropriately inscribed.  
 Purpose of the awards program,  
 it was announced, is to encourage  
 4-H youth to simplify farm and  
 home tasks.

Typical jobs analyzed, accord-  
 ing to W. B. Hooser, County Ag-  
 ricultural Agent, were livestock  
 watering and spraying, feed  
 grinding, milking, brooding of  
 chicks, and drying and elevating  
 threshed grain. Grinding feed  
 for livestock brought best results  
 he reported. It was found that  
 waste time with old methods  
 could be turned into extra prof-  
 its, which would pay for wiring  
 and installing electric power for  
 farm operation.

A county-wide Rural Electrifi-  
 cation program was carried on  
 in 16 4-H Clubs of Hall County  
 with 483 members participating.  
 Hooser reported. An unelectrified  
 farm survey revealed that  
 1,282 houses were energized as  
 compared to 1,065 a year ago. Ex-  
 plaining the Better Methods Elec-  
 tric contest at regular meetings  
 of 4-H Clubs, augmented by fol-  
 low-up displays proved most ef-  
 fective in developing the pro-  
 gram, stated Hooser.

Jimmie Bownds of Memphis  
 was county medal winner in the  
 1948 National 4-H Better Meth-  
 ods Electric program, while  
 Wayne White of Coahoma won  
 state and Howard county honors.  
 Thirty-two other county winners  
 were named throughout the  
 state.

Gayle West of Memphis won  
 county and state honors in 1947.

**Hundreds of Texans  
 Die Annually With  
 Diabetes**

Despite the fact that modern  
 medicine makes it possible for  
 the diabetic to live out a normal  
 life span in comparative comfort,  
 Dr. Geo. W. Cox, State Health  
 Officer, says that diabetes con-  
 tinues to take the lives of hun-  
 dreds of Texans every year.

The death rate from communi-  
 cable diseases such as typhoid,  
 malaria, diphtheria and smallpox  
 are decreasing throughout the  
 country, Dr. Cox said, but dia-  
 betes continues to bring about a  
 tragic number of deaths each  
 year, especially in the middle-  
 aged group.

The State Health Officer said  
 that until recent years diabetes  
 was not noted as a major health  
 problem, but it became acknow-  
 ledged as such when the develop-  
 ment of medical laboratory pro-  
 cedures made the disease more  
 easily diagnosed.

Diabetes is generally recognized  
 as a class disease, since it seems  
 to attack the "white collar" class  
 of indoor men and women much  
 more frequently than it does the  
 outdoor person whose work is  
 more vigorous and calls for ex-  
 ercise. Vocational and economical  
 conditions apparently are pre-  
 disposing factors in the incidence  
 of the disease, since it is a fact  
 that those persons whose occu-  
 pations call for manual labor and  
 simple living are not frequently  
 affected.

Dr. Cox recommended simple,  
 wholesome diets, sufficient sleep  
 and exercise and other general  
 protections as being beneficial in  
 preventing diabetes, and stressed  
 the importance of annual phys-  
 ical examinations so that if the  
 disease is present, competent  
 treatment can be instituted at the  
 earliest possible moment.

**GEMS OF THOUGHT**

**Light**  
 And God said, Let there be  
 light: and there was light.—Gen.  
 1:3.

The light of nature, the light of  
 science, and the light of reason,  
 are but as darkness, com-  
 pared with the divine light which  
 shines only from the word of  
 God.—John R. Lord.

Lamps make oil-spots, and  
 candles need snuffing; it is only  
 the light of heaven that shines  
 pure and leave no stain.—  
 Goethe.

In darkness there is no choice.  
 It is light that enables us to see  
 the differences between things;  
 and it is Christ that gives us  
 that light.—J. C. and A. W. Hare.

Walk in the light, and thou  
 shalt see Thy path, though  
 thorny, bright; for God by grace  
 shall dwell with thee and God  
 Himself is Light.—Bernard Bar-  
 ton.

Grove Hill, Ala.—Investigating  
 a big commotion in her backyard  
 Mrs. John Gunter saw a big  
 hawk swoop down after a prize  
 chicken. She charged the bird  
 and barely caught hold of a wing.  
 The hawk twisted around and  
 grabbed Mrs. Gunter's wrist with  
 its beak. She slammed the hawk  
 to the ground and the hawk  
 seized her with its talons. Mrs.  
 Gunter ended the struggle by  
 smashing the bird's head with a  
 flatiron. The hawk measured 42  
 inches from wing tip to wing  
 tip.

## WEEKLY COTTON MARKET REVIEW

(From Production & Marketing Administration, USDA)

The usual year-end dullness settled over Oklahoma and Texas cotton markets last week according to USDA's Production and Marketing Administration.

Actively among local merchants and shippers centered on export business. Domestic interests were quiet.

Although sales at Galveston, Houston and Dallas were less than the previous week, they were a third larger than during the corresponding week of 1947.

Cotton prices advanced slightly during the week. The basis remained firm. Middling 15-16 inch cotton closed the year at 32.25 cents per pound at Dallas, about \$16.80 less than 1947's close.

Highest price for cotton recorded in 1948 at Dallas was in April when Middling 15-16 inch offerings rose from 36 to 38 cents per pound. Lowest price came August 23 when quotations sagged to 30.30 cents.

Some equities have been sold but farmers are reluctant to sell at prevailing offers of \$4 to \$6 per bale.

Nearly all cotton has been picked in Oklahoma and Texas except some scrapping in the plains area.

### 4-MILE WALK ON 103rd BIRTHDAY

Scranton, Pa.—Mrs. John Slazyk, of near-by Avoca, celebrated her 103rd birthday by walking four miles through the woods in search of mushrooms—one of her favorite dishes. She brought back a half-basket of mushrooms and gathered four buckets of coal from a near-by mining operation to put them aside for the winter. To complete the day, she worked in her garden and fed her flock of 50 chickens.

### BABY FREED FROM TRAP

Minneapolis, Minn.—In some way, little Patrick Daun, 18-months old, got his foot wedged behind gas pipes. Efforts by his parents and his grandmother to free him were unsuccessful so the Dauns put in a call for help. Firemen freed the child in a jiffy by lifting him several feet to where the pipe made a bend.

son, came with the family to West Texas in 1900, settling at Haskell. It was his job to drive the family's cattle to this sector.

He attended Haskell High School and later was graduated from Texas Christian University where he played football for three seasons. He finished his business course in the fall of 1906.

By Christmas Day, 1906, young Grissom, 20 years old, was in business in Haskell with a half interest with his uncle on his mother's side, Courtney Hunt, in Hunt's store. For two years the store was operated by Hardy and his uncle. Then the uncle sold his interest to Hardy's father and the store operated under the name of C. D. Grissom & Son.

Haskell Woman's Bake Recipe Is Prize Winner

In a "Favorite Recipe" contest, sponsored by the Fort Worth Star-Telegram, the winning recipe was sent in by Mrs. O. W. Tooley, Haskell.

A luscious chocolate cake with rich white icing and pecans mixed in the batter won the contest first prize award of \$5.

This "delicious fudge cake," as its creator, Mrs. Tooley, calls it, won't last long around any house where chocolate cake is a favorite. She also says that this is an old-fashioned cake, made the old-fashioned way, and it also takes time to make it. But the time is worth the result.

For the many housewives who will like to try this recipe for a luscious cake, Mrs. Tooley gives the following:

Delicious Fudge Cake 1/2 cup shortening 1 cup sugar 2 egg yolks 2 1/2 squares unsweetened chocolate

1 1/2 cups cake flour 2 1/2 tsp. baking powder 1 tsp. salt 1 cup skimmed milk 1/2 cup chopped nuts 2 egg whites 1/2 cup sugar 1 tsp vanilla Melt chocolate over hot water. Sift flour before measuring. Mix all dry ingredients together, sifting. Cream shortening, add the 1 cup sugar gradually, then add unbeaten egg yolks and cream until fluffy. Blend in the melted chocolate. The mixture will have granular appearance, so do not worry. Sift flour, baking powder and salt and add to chocolate mixture alternately with the milk. Blend in nuts. Add vanilla. Make a meringue by beating the two egg whites until stiff enough to hold a peak, then gradually beat them into the 1/2 cup of sugar. Now carefully fold the meringue into the cake batter. Bake in two 8x8 or nine-inch cake pans well greased and floured for 25 minutes or until done in moderate (350) oven. When cake is cool, spread and cover with White Magic Icing

1 cup sugar 1-8 tsp. cream of tartar 1/2 cup water 1/2 cup white Karo syrup 1/2 cup water in small sauce pan, covered. Cook three minutes without stirring. While this is cooking beat whites of two eggs until stiff enough to hold a point. When syrup spins into spoon held high above pan, pour over beaten egg whites. Continue beating until stiff enough to stand in high peaks. Add vanilla and spread on the cake.

A WORD OF THANKS We, the pastor and the members of the colored Methodist Church, wish to extend our thanks and sincere appreciation to the pastor of the First Methodist Church and other white people of Haskell for their assistance in furnishing our parsonage. The white people of Haskell responded liberally and now we have the parsonage completely furnished. We thank God for the white people of Haskell and may He bless each and everyone, in our earnest prayer. Rev. and Mrs. A. Crowder, Pastor.

Stated meeting of Haskell Chapter O.E.S., No. 892, will be held January 11th, at 7:30 p. m. Opal Cilliam, Worthy Matron. Edith Wheatley, Secretary.
