

From Wide Area Expected At Annual Convention To Be Held Here Sunday

Developed this year's annual Haskell Convention will be held here Sunday, according to T. C. Cobb, president of the association.

With the active cooperation of several groups already pledged, plans for Haskell's annual Spring Clean-Up Week indicate the project will be one of the most intensive undertaken in the community in several years.

The coming week, April 23-30, has been officially designated as Clean-Up Week in Haskell. Primary purpose of the annual campaign is to safeguard community health by ridding the town of winter's accumulation of trash and rubbish and eliminating breeding places of flies and mosquitoes during the coming warm weather.

Accumulation of trash and rubbish which should be removed, Acting Mayor Turner said. Clean-Up Week will also afford property-owners and home-lovers an opportunity to beautify their premises for the spring and summer season, it was pointed out.

The City has made arrangements for trucks to haul away all cans, trash and other rubbish which cannot be burned, and the trucks will be started early next week, the Mayor announced. During Clean-Up Week every section of town will be covered by these trucks, with no charge for the service. However, property owners must see that all rubbish to be hauled away is placed near streets or alleys accessible to the trucks.

Members of the Fire Department, meeting Monday night, pledged their help in promoting city-wide observance of the clean-up campaign. Fire Chief Frank Reynolds listed a few precautions, however, pointing out several safety measures which should be observed. He cautioned against use of gasoline, naphtha or other inflammable fluids in home cleaning, and urged that trash to be burned be placed a safe distance from homes or other structures. He added that if any trash fire threatens to spread or get out of control, that a prompt report be made to the Fire Department to avoid any possible property damage.

The Rochester Seniors will present their Senior play "Mama's Baby Boy" on April 22, 1949. This play consists of eleven characters, all of whom are members of the Senior Class. The play will begin promptly at 8:00 o'clock.

The Seniors are also getting ready for their graduation exercises. There are twenty-five seniors who are graduating this year. The baccalaureate services will be held Sunday May 15. These services will begin at 8:00 p.m. The speaker for the baccalaureate sermon will be Rev. Browder, present pastor of the Rochester Methodist Church. Commencement exercises will be held May 19, with Jack Rotten of Haskell as the speaker. You are all cordially invited to attend any and all of these services.

Postmaster of County Attend State Meet
Haskell county postmasters returned this week from a three-day meeting of the Texas chapter of the National Association of Postmasters, held in Dallas.

Principal speaker for the annual dinner was Jesse M. Donaldson, Postmaster General of the United States. Attending the meeting were Harold Spain, Haskell postmaster; Mrs. Pearl Monke of the Weirter post office; Mrs. Johnnye Guinn, Sagerton postmaster; and M. E. Trice, Rule post office clerk.

Mrs. Monke was elected to a vice presidency of the Texas Chapter.

HERE FROM OKLAHOMA
Mr. and Mrs. John Hawkins of Countyline, Okla., visited her parents, Mr. and Mrs. O. W. Vaughn and family over the week end. They were accompanied by his mother, Mrs. J. W. Hawkins of Duncan, Okla., and his sister, Mrs. Zetta Murrell of Oklahoma City.

Round-Up By North
Ward Parent-Teacher is sponsoring a Round-Up program, Friday, at one o'clock at the school.

Mr. and Mrs. John Hawkins of Countyline, Okla., visited her parents, Mr. and Mrs. O. W. Vaughn and family over the week end. They were accompanied by his mother, Mrs. J. W. Hawkins of Duncan, Okla., and his sister, Mrs. Zetta Murrell of Oklahoma City.

Soaking Rains In Area Bring Rosy Crop Prospects

Soaking Spring rains which put smiles on the faces of Haskell county farmers and ranchers, blanketed this area and practically all West Texas Monday night and Tuesday, tapering off with light showers at intervals Wednesday and Thursday morning.

The timely precipitation came at a time when grain producers were beginning to worry about prospects for wheat and other small grain, and this week's moisture will almost assure making of the 1949 crop, many farmers said. The moisture will also permit farmers to go ahead with planting of spring crops, with a good stand assured. Gardens, which have been making but little growth due to lack of surface moisture, will grow rapidly following the warm rains.

Total precipitation this week was gauged at 1.94 inches by Mrs. John B. Martin, Government weather observer. Total for April now stands at 2.09 inches, and for the year has amounted to 8.04 inches, she reported.

This week's rain, falling slowly, provided little run-off water, and stockmen and farmers declare that a hard, dashing rain is still needed to fill tanks and streams.

Moderate Activity Noted In Cotton Markets
Cotton trading in Oklahoma and Texas spot markets continued moderately active last week as prices advanced to the highest peak since mid-July, reports the Production and Marketing Administration, U. S. Department of Agriculture.

Farmers sold their equities in government loan cotton slowly at \$2 to \$3 per bale. Export demand continued good and covered a wide range of grades and staples. Domestic mill demand remained quiet and interests were for only small lots of specialty cotton.

Reported sales in the country's 10 spot markets ran slightly more than the previous week at 115,500 bales, but less than the 127,600 bales for the corresponding week last year.

Spot prices reached 33 cents per pound for Middling 15-16 inch offerings at Galveston last Thursday, an advance of \$2 per bale over the previous Thursday. Dallas and Houston closed the week for the Easter holidays around 75 cents to 1.25 per bale higher than the first of the week.

Average price in Dallas, Houston, Galveston last year at this time was 37.45 cents per pound.

Summer Round-Up Slated Friday for Pre-School Children
All parents are urged to bring their pre-school children to the Summer Round-Up at the North Ward Building Friday, April 22 at 1 p. m. Local doctors will be present to give complete check-ups on physical conditions of the child. The eyes, ears, nose, throat and teeth will also be checked. No vaccinations will be given. This is to help you have a healthy child to start to school next fall.

Extensive plans have been made and you will miss much if you fail to take advantage of this opportunity.

The Round-Up Chairman is Mrs. Bud Herren. Her assistants are Mrs. Carl Wheatley, Mrs. Bob Segro, Mrs. Austin Coburn, Mrs. Berryhill and Mrs. Robert Fitzgerald.

Haskell Man, 91, Journeys to Alabama To Celebrate 95th Birthday at Old Home
Despite his years, P. C. Patterson, 94-year-old former County Commissioner, is a man who believes in getting around, and a trip by automobile and train across four states is a common-place jaunt for him.

Probably Haskell county's oldest resident, the former county official and retired farmer left Sunday morning on a trip which will take him to his birthplace near Aniston, Ala., where he plans to celebrate his 95th birthday on May 5 visiting in the homes of two sisters and a younger brother who still live in the area near Aniston.

For the first leg of his trip Mr. Patterson went by automobile to Dallas, accompanied by his granddaughter, Mrs. A. A. Carrigan of Emporia, Kans. From Dallas he planned to go by rail to

Outline of Trade Extension Plans to Be Given Merchants

Plans for a series of trade extension programs are to be outlined to Haskell merchants in a meeting Tuesday, according to an announcement this week by Claud Harrison, chairman of the chamber of commerce trade extension committee.

The meeting is scheduled for Tuesday afternoon, April 26, at 2:30 o'clock in the Rita Theatre. In making this announcement, Harrison urged that all local merchants attend that plans made during this week might be explained. Preliminary plans call for special events to be held on the third Tuesday of each month. The plans which are to be explained are entirely different from any used in the past here, and call for city-wide cooperation by all merchants.

Merchants are to be contacted Monday to urge attendance. Serving with Harrison on the special committees are John E. Fouts, Willard Warren, Olen Dotson, Cecil Gregory, Sam A. Roberts, Gaston Hattox and Floyd Rich.

Scheduled also for discussion is a six-month advertising campaign for Haskell merchants.

Mystery Explosion Wrecks Farmhouse Near Anson
A mystery explosion about 2 o'clock Sunday morning demolished a two-story, six-room frame residence near Anson.

The house was the former residence of S. A. Scott, four and a half miles southeast of Anson on a country road a mile south of Highway 180. It was owned by Mrs. S. I. Tucker of Gordon, Tex., and had not been occupied for about three years.

The blast was so tremendous that it was felt in Anson. As far as investigators had learned Sunday, nobody was injured and no damage done to other property. Debris was scattered over surrounding cotton fields and roads. Two-by-fours were blown a hundred yards from the house.

Sheriff Bill Dunwoody and Deputy Sheriff E. G. Bratlett investigated. Dunwoody said he could not figure what caused the explosion.

Easter Services At Jud Church Well Attended
A good crowd attended the morning Easter Service at the Jud Baptist Church, which was followed by a picnic lunch in the canyon.

After lunch the children enjoyed an Easter Egg Hunt. Approximately one hundred attended and enjoyed the lunch and hunt. There were more than 500 eggs hidden. Those hiding the eggs were Susie and Audrey Lawson, Clarence H. Webb, Mary Johnson, Jennell Dean Pike, Mrs. Eugene Wheeler, Mrs. Bill Halcum, Mrs. Henry Downey, Mrs. Thomas Florence, Mrs. Fritz Lawson, Bro. Nicholson was also present for the services and the lunch. Daniel Halcum of the Card Class found the prize egg. Everyone reported a good time.

VISITS PARENTS
Scottie Helber, student in Texas Tech, Lubbock, spent the Easter holidays here with his parents, Mr. and Mrs. M. E. Helber. He accompanied his father to Amarillo Saturday where they met Mr. Helber's mother who had been visiting her daughter in Colorado, returning her to her home in Lubbock the same day.

Memphis, Tenn., where a sister, Mrs. A. H. Little of Aniston was to meet him. A brother, Ben Patterson and another sister, Mrs. Whit Whiteside live in the Aniston area.

Mr. Patterson, who has lived alone at his farm southwest of Haskell since the death of his wife a few years ago, is hale and hearty despite his years, and unaided tends to the customary chores around his home.

Born in Calhoun county, Alabama, in 1854, he lived in that section more than 50 years before coming to Haskell county in December, 1906, when this section was first being developed as an agricultural region. He was elected County Commissioner in 1916 and served six years in that capacity. He retired from active farming several years ago.

Negroes Fined \$100 And Costs On Liquor Complaints

As a result of raids made by Sheriff Bob Cousins and other officers during the latter part of last week, in which a sizeable amount of beer and whiskey was seized by officers, two Negro women were fined \$100 and costs when they entered a plea of guilty to violation of the liquor laws before County Judge O. E. Patterson. One of the women, a Haskell resident, pleaded guilty on three complaints, paying court costs in two cases and \$100 and costs in the third. The second Negro woman was from Rule.

George Perez, a Mexican residing in Northeast Haskell, was charged in two complaints with sale of liquor. He entered a plea of not guilty, and was released under \$200 bond in each case for appearing in County Court May 2, for trial of the cases.

Marlin Man Buys Western Auto Associate Store

Purchase of the Western Auto Associate Store in this city by Jim Henderson of Marlin, Texas, has been announced.

The store, owned and operated by Frank Tate for the past two years, has been closed for rearrangement of the interior and addition of new merchandise. Reopening of the store, located on the south side of the square, has been set for Saturday, April 30, the new owner announced.

Mr. Henderson has been connected with Nash-Robinson Hdw. Co. in Marlin for some time. Mr. and Mrs. Henderson plan to make their future home in Haskell.

Mr. Tate, who opened the store shortly after his discharge from Army service, has accepted a position with a construction company in Oklahoma, but he and his family plan to maintain their home here for the present.

Firemen Called To Extinguish Trash Fire Saturday

Fire department apparatus was called to the office of Exploration Service Company at the former Roy Sanders residence in the east outskirts of Haskell Saturday at noon, when a trash fire threatened to spread to a garage. The blaze was extinguished before any property damage resulted.

Enlisted Reservists Needed By Army

There is an urgent need for qualified Enlisted Reservists to accept a 90-day tour of duty at various stations throughout the State of Texas, the local Organized Reserve Instructor announced here today.

ERCs accepting this 90-day tour of duty will have their choice of station as almost all of the Organized Reserve Corps Instructor's offices throughout the State are in need of administrative enlisted men and chauffeurs. Also, the OR summer Camp Staff at Camp Hood will need men from May 9th through Sept. 7th.

The Instructor pointed out that Enlisted Reservists volunteering for 90-day tour of duty will be paid on a Regular Army status in the grade that they hold at present in the Reserve Corps. Those accepted for duty in the OR Instructor's offices will receive an additional \$105 per month for subsistence and rental allowances.

All Enlisted Reservists interested in volunteering for a 90-day tour of duty during this coming spring and summer should contact the Organized Reserve Corps Instructor's Office at 423 Federal Building, Wichita Falls, Texas.

Deep-Freeze School To Be Conducted Here Friday

Haskell housewives will have an opportunity to learn how to get the most out of a deep-freeze home freezer when they attend a demonstration Freezer School to be conducted at Bynum's office supply store on the south side of the square, Friday, April 22, beginning at 3 p. m.

J. A. Bynum, manager of the store, urges every housewife who can, to attend. The school will be under the direction of Miss Mabel Hampton, formerly trained appliance expert and home service director of Consolidated Appliances, Inc., Deepfreeze distributor in the Panhandle.

Such topics as "How to wrap and process all kinds of food for home freezing," and "How to freeze and store foods in the deepfreezer" will be thoroughly explained by Miss Hampton.

Frank H. Sims In Veterinary School At A & M

Frank H. Sims, son of Mr. and Mrs. John Sims of Route 1, Stamford, is a junior veterinarian student at Texas A&M College.

He was graduated from Paint Creek High School in 1945. He entered John Tarleton in the fall of 1945 and went two years there. He entered A&M in 1947 and was admitted to the School of Veterinary Medicine.

Frank is a junior member of the American Veterinary Medicine Association. He is also a member of the hometown KJ&K club.

Former Resident Fractures Ankle In Fall

Mrs. John Lackey, former resident of this city now living in Ft. Worth, fell at her home recently and fractured an ankle. She has been in the hospital in Ft. Worth for some time but has been removed to the J. M. Lackey home in Irvin where she will recuperate.

VISITORS IN THE J. T. ELLIS HOME

Mrs. C. H. Breazeale and little daughter, Ruth Gael, of San Angelo, visited her parents, Mr. and Mrs. J. T. Ellis, over the weekend. Mr. Breazeale joined them here Sunday, returning home the same day.

ANNOUNCE ARRIVAL OF SON

Mr. and Mrs. Joe Mathis are announcing the arrival of a son, Terry Joe, born April 16 at the Haskell Hospital. Grandparents are Lihue Mathis of Rule and Mr. and Mrs. B. N. Terry of De Leon, Texas.

April term of 39th District Court was opened here Monday morning, when the Grand Jury for the term was sworn in by District Judge Ben Charlie Chapman for the current court session.

The Grand Jury recessed Tuesday afternoon, after examining twelve witnesses and reporting seven felony indictments. In one of the bills a Haskell man was charged with a second offense of driving an automobile while intoxicated. Two other indictments were for burglary, against two Rule youths; four indictments for forgery and passing were returned against two Haskell Negro youths, one being named in three separate bills.

Members of the Grand Jury are J. M. Crawford, Haskell, foreman; V. C. Bailey of Haskell, W. L. Ballard of Rochester, Claude Bland of Sagerton, Joe Bullock of Rule, H. H. Cowan of Goree, D. S. Gothard of O'Brien, Clinton Herron of Haskell, B. Kupatt of Sagerton, J. L. Bell of Rule, Ray Lancaster and E. E. Trimmer of Haskell, T. C. Cobb and Ewell Lusk were appointed riding bailiffs, and Joe E. Pace, door bailiff.

61 Cases On Docket
A total of 61 cases are listed on the docket, including 21 criminal cases, 24 divorce suits, and 16 civil actions. Most of the court filings have been docketed in recent months, but several of the criminal cases date back several years, a check of the docket shows.

No capital cases are listed on the criminal docket, with principal offenses ranging from forgery and swindling by worthless check, to wife and child desertion and some indictment for making false affidavits.

Principal actions listed on the civil docket are six damage suits, a number of trespass to try title actions, petition suits, and several suits for debt.

Scheduled for hearing before Judge Chapman this week are non-jury civil suits, and trial of civil cases will occupy most of the coming week when several contested civil actions are set for trial.

Criminal docket for the term will be taken up during the third week, court officials indicated.

Black Indians Will Open Season With Game Against Spur

The Haskell Black Indians will open the 1949 baseball season here Sunday with a game with Spur All-Stars, to be played at Fair Park Field beginning at 3 p. m. Team Manager Albert Sharp announced. He invites the public to attend the opening game.

The Indians seem to have a stronger team than last year when they played 14 games and won 10, Sharp declared. Several promising new players have been added to the roster, and the pitching staff will be stronger, he said. New players will fill some of the infield and outfield positions, Sharp added.

All fans attending Sunday's opening game are asked to use the west gate at the field.

Tom Clifton Gets Law Degree From University of Texas

Tom Clifton of this city, who recently received his degree from the University of Texas, where he majored in Law, spent the weekend in Haskell with his parents, Mr. and Mrs. Mart Clifton. He was en route to Casper, Wyoming, where he has accepted a position with the Lion Oil Company. Mrs. Clifton will remain in Austin a short time before joining her husband in Wyoming.

VISITORS IN THE J. T. ELLIS HOME
Mrs. C. H. Breazeale and little daughter, Ruth Gael, of San Angelo, visited her parents, Mr. and Mrs. J. T. Ellis, over the weekend. Mr. Breazeale joined them here Sunday, returning home the same day.

ANNOUNCE ARRIVAL OF SON
Mr. and Mrs. Joe Mathis are announcing the arrival of a son, Terry Joe, born April 16 at the Haskell Hospital. Grandparents are Lihue Mathis of Rule and Mr. and Mrs. B. N. Terry of De Leon, Texas.

Josset H-D Club Meets With Mrs. Dunnam

Josset H. D. Club met in the home of Mrs. J. B. Dunnam on Tuesday, April 12th, at 2:30 p.m. The president presided. The sick report was given by Mrs. T. W. Jetton and also council report was given. Curtains were made at this meeting for the club house. Our next meeting for the club will be on April 26 at the club house. The women are asked to bring their favorite recipes and exchange them with other members. The club women enjoyed the

International Harvester Harvester, refreshments of sandwiches cake and cold drinks were served by the hostess to the following members: Mrs. T. W. Jetton, Mrs. Jim Perrin, Mrs. W. B. Hill, Mrs. Jimmy Anderson, Mrs. C. A. Thomas and Mrs. J. B. Dunnam. The Josset H. D. Club finished their spring cleaning on their club house this week with the making of new curtains. A new roof was put on and the walls were sheetrocked by the men. The women papered and painted the wood work and cabinet and also cleaned yard. We have made a big improvement and would like to have visitors to help us enjoy them.

Fly Control Needed To Prevent Spread Of Disease

Countless thousands of lives are lost annually throughout the nation from diseases that are transmitted by the common housefly. Dysentery, diarrheal, typhoid fever, tuberculosis and many other disabling and even fatal diseases are spread by flies, and the control of houseflies becomes of great importance when considered in the light of public health.

Dr. Geo. W. Cox, State Health Officer, says that in order to protect our families we should make sure our homes are fly-proof through proper screening, and then concentrate on eliminating filth, garbage, and other breeding places for flies. See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor cannot molest your family. Dr. Cox said, and make sure that your grocer observes proper sanitation standards and keeps your meat, food and vegetable supplies screened from flies.

Then direct your efforts to eliminating all fly breeding places such as open garbage pails, open privies, and other filth that offers the fly proper warmth, moisture and food. Flies thrive on filth, an inasmuch as one female housefly will lay from 60 to 1000 eggs per season, it can easily be seen that one breeding place left available in a community, can be responsible for a tremendous horde of flies.

Dr. Cox recommended organized community efforts as being effective in ridding a community of flies, and emphasized that no matter how clean one family's home and premises are, they are still not safe if another home down the street leaves exposed filth where flies can breed.

Tenewriter Ribbons, Carbon Paper, Second Sheets, etc., at the

Housewives and home-lovers of Haskell and surrounding trade territory, including members from each of the county's 14 Home Demonstration Clubs, were in attendance at the Frozen Food Demonstration showing new methods developed by International Harvester, held at the American Legion Hall and sponsored by International Harvester

Co., local I-H distributors. In the attendance contest for H. D. Clubs Liberty and Dennis Chapel Clubs tied, both having 100 per cent attendance. And you will be facing the future with security and confidence. U. S. Savings Bonds will open the door to future security and happiness.

U.S. Treasury Department

Windbreak Needed As Protection To Shrubs, Flowers

A windbreak to protect flowers and shrubs about the homesteads is needed in every county in the state.

That's the advice from F. W. Martin, County Agent, who explains that the destructive mechanical action of the wind often mars the beauty of shrubs by spoiling their shapes and destroying the blooms.

Besides this, tender plants are hindered in growth or may be killed by the wind. Unless there's a natural windbreak to protect the farm homestead, planting one is the logical first step in landscaping a home. It will pay special dividends by breaking the force of the wind and modifying the temperature.

There is a combination of trees and shrubs that are well adapted for use in windbreaks. Among those which have been successfully planted for this purpose are desert willow, tamarix or salt cedars, native pine, western willow pine, red cedar and Arizona cypress. The landscape gardening specialist points out that plants native to the locality are good ones to use for windbreaks.

In areas free of root rot, the Chinese elm is a strong favorite because of its rapid growth. All plantings should include several varieties of trees, because it's not a good idea to depend on just one variety.

Where root rot is found, black walnut, cedar elm, red cedar and Chinese pistacia are often grown for windbreaks because of their resistance to this disease.

KITCHEN MEMO BY JEAN CLARKE

The men, bless 'em, love any food with chocolate flavoring and it's the thoughtful wife who keeps chocolate cookies on hand in the cookie jar for between-meal nibbling. For Chocolate Meringue Cookies sift together 2 cups sifted confectioners' sugar, 1 tsp. flour, 1/4 tsp. salt. Beat 3 egg whites until stiff. Add sugar mixture 2 tbsps. at a time until thoroughly blended. Fold in 3 squares unsweetened chocolate (melted and cooled), 3/4 cup shredded coconut, and 1 tsp. vanilla. Drop from teaspoon on lightly greased baking sheet. Bake in moderate gas oven (375°F.) for 10 mins.

A two or three-burner gas hot plate is inexpensive to operate and a helpful addition in the laundry when starch must be cooked or handkerchiefs boiled.

If your family likes pork chops, try simmering them in pineapple juice over a low flame. Then place in a 400-degree oven for about 20 minutes.

Colored clothes that can be safely washed with white laundry can also be dried with white clothes in your automatic gas dryer. It holds approximately the same amount as the washer so that each load can be dried immediately after washing.

Save the juice from cooked dried fruits to make a flavorful chilled fruit drink.

To peel tomatoes easily and quickly, spear them on a long fork and hold over the gas flame while turning. The heat loosens the skin.

Children Gather In C. A. Thomas Home Easter Sunday

Easter Sunday was celebrated in the home of Mr. and Mrs. C. A. Thomas with most of the children and grandchildren being present. Lunch was served at the noon hour. The table was centered with a lovely pot plant, a gift by the children and grandchildren, the decorated Easter cake was presented by Mr. and Mrs. Bill Cole of Plano, home-made ice cream was served. In the afternoon an Easter egg hunt was enjoyed by all present. The prize was found by Jerry Bass and the largest number was found by Jean Bass.

Those present were Mr. and Mrs. Bill Cole and Gaylen from Plano to Mr. and Mrs. Roy Lee Mills, Ronnie and Bob from Rochester, Mr. and Mrs. Adell Thomas, Bill and Mary, Mrs. Berta Mae Bass, Jean, Sandra and Jerry, Joyce Reding and Lewis Thomas.

Sunday morning Mr. Knouse was called to the bedside of his mother in Oklahoma City where she is reported critically ill. Mr. Knouse accompanied by his brother-in-law, W. R. Terry of Hamlin, left at once to be with her. Mrs. Lynn Knouse left Tuesday to be at the bedside of her mother-in-law.
Pete Huntsman, Jr., of Floydada, spent the week-end here with homefolks.
Miss Mozelle Parsons of Abilene spent last week-end here with her parents, Mr. and Mrs. Jim Parsons.

Goree Members Host Meeting Of Delta Kappa Gamma
Beta Chi Chapter of Delta Kappa Gamma, national honorary society for women teachers, held its April meeting, April 2, in the home of Mrs. Murise Blacklock of Munday.
Hostesses for the occasion were the Goree Munday Members of Delta Kappa Gamma.
A highly informing and interesting panel discussion of teachers' roles as personality builders was given by Superintendent W. C. Cox. Mr. J. S. Bardwell and Bro. Polnac of Munday.
Students of Munday High School were heard in voice piano and accordion solos.
Mrs. Elizabeth Bowden served ably as program director.
Refreshments were served to approximately thirty-five members and guests from Knox, Haskell and Stonewall counties.

J. L. Alderdice Is Speaker At P-TA Meeting
North Ward Parent-Teacher Association met April 14, with Mr. J. Lloyd Alderdice, principal of North Ward, as speaker, and discussing "Better Homes With The Help of the Schools." The fifth grade band students, under the direction of Mr. James Hobbs, presented several numbers which were enjoyed by all.
New officers elected for next year are: Mrs. Bob Herren, president; Mrs. Austin Coburn, vice president; Mrs. George W. Fouts, secretary; and Mrs. Fred Brown, treasurer.—Reporter.

"Smartest number on the road!"

THAT'S WHAT OWNERS SAY ABOUT THIS HANDSOME NEW 1949 MERCURY!

Why is this long, low, massively beautiful new 1949 MERCURY the most-bragged-about car in America? Because it's the stand-out car on the road today! Owners say there just isn't a sweeter-looking automobile. And there isn't!

THE 1949 MERCURY SIX-PASSENGER CONVERTIBLE
White side-wall tires and rear wheel shields optional at extra cost

SURE it's mighty good looking—but there's a world of other fine features under the handsome lines of your 1949 Mercury, too! And every one of them has been road-proven by thousands of owners for millions of miles!

You get a powerful new 8-cylinder, V-type engine with surprising economy. Owners claim 17, 18, 19 miles per gallon—and up! Front coil springing! A truly restful "comfort-zone" ride! Easier steering! "Super-safety" brakes! Softer, broader seating! Increased all-round visibility, too!

Just drive it—and you'll say: "It's Mercury for me!"
*Even more with optional Overdrive

Make your next car the proven 1949 MERCURY

Mr. and Mrs. O. W. Tooley and son, Kenneth, visited the former's mother in Azle the past week-end and enjoyed a fishing trip.

VISITORS IN ABILENE TO ATTEND SQUARE DANCE

Mr. and Mrs. Kirby Kirkpatrick spent the week-end in Abilene, the guest of Mr. and Mrs. Rufus Banks and attended the Square dance festival Saturday night.

Mrs. J. U. Fields Directs Magazine Club Program

The Magazine Club met in regular session Friday, April 15 in the club house with Miss Notie McCollum as hostess and Mrs. J. U. Fields as club director. Tulips, hydrangeas and iris were displayed in decoration of the club room.

In the absence of the club president, Miss McCollum presided. After the business session she introduced Mrs. J. U. Fields as director of the program topic, "U. N. E. S. C. O.—And You." She very appropriately began her discussion by defining U. N. E. S. C. O. as United Nations Educational, Scientific Cultural Organization. She read the Preamble to the Constitution and conducted a Symposium on UNESCO. Mrs. Robert Wheatley spoke of "What, Why, Who." Mrs. Shahr Hassen discussed the "Beruit Conference, 1948." Mrs. Vernon Henderson told of "What UNESCO Has Accomplished." Mrs. Fields explained in detail "The U.S.A. and UNESCO," and gave a quiz on the subjects just discussed and found most of the answers missing. Mrs. Fields closed her interesting Symposium UNESCO, And You, with the thought, you emphasized, what you can do to help. The subject is one that all should familiarize themselves; because of what it means individually to the Nation, to the world and to future generations.

Mrs. Fields read a letter of thanks for boxes of food and clothing sent to Miss Dorothy Loton Essex, England. She, her family and friends, are most grateful for the gifts since many of the articles sent were scarce and some not obtainable in England.

MISS NANCY RATLIFF

Engagement of Nancy Flo Ratliff, Robt. R. King, Announced At Tea Saturday

Judge and Mrs. Dennis P. Ratliff are announcing the engagement and approaching marriage of their daughter, Nancy Flo, to Robert Royce Smith, son of Mr. and Mrs. Joe B. Smith of Rule.

The engagement was announced Saturday at a tea given by Mrs. Ratliff, in honor of her daughter. Miss Ratliff is a graduate of Haskell High School, and is now a student at Texas Christian University, Fort Worth. Mr. Smith, a senior agronomy student at Texas A&M College, has been elected "King Cotton" for the fifteenth annual cotton style show pageant and ball that was held at College Station, April 2th. He is secretary of the Student Senate, Commanding Officer of Battery E, chairman of the Student Senate Social Committee, a member of the Ross Volunteers, a crack drill team of junior and senior students. Recently, he was elected to "Who's Who."

The wedding will take place at the Christian Church, in Haskell, on June 12th.

South Ward P-TA To Hold Regular Meeting April 28

The South Ward P-T. A. will meet Thursday, April 28, at 3:00 p.m. for its regular monthly meeting. Mr. Alderice will be the guest speaker. His subject will be "Better Home With the Help of the School." All members try to be present for this meeting. Visitors are always welcome.

VISITS RELATIVES FROM GRAND FALLS

Mr. and Mrs. Boots Cass and children from Grand Falls, Texas, visited Mrs. Cass' mother, Mrs. Carrie McNulty and other relatives here over the Easter holidays.

E. A. Howard, Jr., of Texas Tech College, is home for the Easter holidays. He is finishing four years at Tech the 29 and 30 of May. He will receive his B.S. degree. He will leave first part of June for Arabia for 2 years work.

VISITING PARENTS

The NEW **54** COTTON PLANTING SEED NOW AVAILABLE

The NEW Paymaster "54" is now available for the 1949 planting season—ready for farmers who want more profit from Cotton. This quick-maturing, high-yielding, better-staple-producing planting seed answers the demand for a variety that is tested and proved for West Texas growers. It is the result of scientific selection and painstaking experiments to develop a seed that will produce more money per acre planted.

Here's why the NEW Paymaster "54" is a money-making Cotton...

- **EARLY MATURITY**
Of 25 varieties tested recently, "54" was first in percentage of crop harvested in a four-month period.
- **HIGH YIELD**
In this same test, "54" was third among all varieties in yield per acre.
- **BETTER STAPLE**
"54" ran 15/16" to 1 inch throughout West Texas, assuring a better price.
- **TESTED FOR DRY LAND**
"54" has been proved successful for dry land farming as well as for irrigated Plains areas.

Be among those profit-minded farmers who demand a money-making Cotton planting seed—the NEW "54"; order your supply of the improved, state-registered "54" NOW.

IT PAYS TO PLANT PAYMASTER "54"
Sold through your ginner, your seed dealer, all branches of the Western Cotton Oil Co., and at Lockview Farm, Plainview, Texas.

Menefee Bible Class Observes Annual Easter Custom

The Menefee Bible Class of the First Methodist Church held its annual Easter breakfast Sunday morning at the Texas Cafe. The tables were beautifully decorated with iris and tulips.

Guests were welcomed and messages read from those who had once been a part of the class. Officers this year are: Mrs. Earl Atchison, president; Mrs. Elbert Payne, vice president; Mrs. Walter Holt, secretary and treasurer.

The pastor, Rev. Vernon Henderson, brought Easter greetings and a message to the group. Mrs. Iva Palmer and Mrs. Eugene Tenn sang "Tis A Promise Most Dear, and Mrs. Carrol Dean Bledsoe gave The Resurrection Morn by Cynthia Pearl Moss. As has always been the custom, Bless Be the Tie That Binds was sung as the benediction.

Class members and guests present were: Messrs, and Mesdames Earl Atchison, G. K. Brittingham, E. R. Lowe, John S. Rike, J. M. Diggs, Eugene Tenn, W. A. Holt, Clay Smith, Sam Scott, S. A. Norris, S. Hassen, K. H. Thornton, Wallace H. Cox, Carrol D. Bledsoe, Rev. and Mrs. Vernon Henderson, Mesdames J. R. Cooper, Tannye H. Squyres, Claude Warren, H. Posey, W. E. Payne, H. F. Copeland, R. W. Bischoffhausen, Mamie Alley, J. L. Grace, J. W. Medley.

World Court Hears Corfu Channel Case

Arguments in the first case before the International Court of Justice are now being heard at The Hague, The Netherlands. The case involves the United Kingdom's claims for payment from Albania as the result of mine damage to British destroyers and the death of 44 seamen in the Corfu Channel off the Albanian coast. Here Sir Hartley Shawcross (left), U.K. counsel, looks at a map of the channel with Pierre Cot, Albanian counsel.

Efficient Business Methods Important In Poultry Industry

Everybody, in and near Haskell, wants the biggest share of the consumer dollar. Whether it is a business or an individual does not matter. The fellow that runs his business the best is the one who will come out on top.

All the commodities that are for sale are in competition with each other—every one trying to outdo the other fellow. It's the same thing with the poultry industry, too, says County Agent F. W. Martin. Only in this case, there is competition among the poultrymen—the egg-freyer and turkey producers.

Not many poultrymen stop to think about all the things that have to be done to get their products on the market. It's because the bigger part of them are thinking only about the production end of the situation. Most poultry raisers turn the selling end of the job over to another fellow. But in quite a few cases, with the poultry and poultry products business this is necessary.

These people that do the selling also have a finger in the financial pie. They, too, are looking for a part of the consumer dollar. In order to compete with other items for this consumer dollar, a product has to have eye appeal, high quality and uniformity of quality. The salesman has to reduce the loss of the product through selling and reduce the loss of quality in a product. Money is important in a business transaction, and there has to be an ample supply to be an economical venture.

According to records in areas of Texas where graded programs operate, many producers are not selling on grade. The most common reasons for this is low quality. The egg producer is not willing to maintain the quality of

Dairymen Advised to Be Cautious When Using DDT

Dairymen in this area who might be considering use of DDT in ridding their premises of insects should heed the warning given by F. W. Martin, County Agent.

Martin warns local dairymen not to use DDT for insect control, pointing out that small amounts of DDT in a food such as milk might prove harmful in time.

And the presence of DDT in milk goes strictly against the grain with the Food, Drug, and Cosmetic Act. So, it's best to use another chemical in the control of dairy cattle insects.

Entomologists recommend methoxychlor or pyrethrum in place of the DDT for dairy cows, and go on to say that DDT is still good for insect control on other livestock, including beef cattle. Dairy animals or livestock being finished for slaughter should not be fed forage treated with DDT or other chemicals in the same class, cautioned the Bureau of Entomology and Plant Quarantine.

It's a different matter when it comes to fly control in and around farm buildings. DDT is all right for this. So is chlordane and BHC. But methoxychlor is the one recommended for use around dairy barns where milk is being processed.

Even better than the chemical sprays, Martin suggests dairymen get to the bottom of the fly situation with proper clean-up and other sanitation measures. With a clean dairy, only a

small amount of chemicals may be needed, he concluded.

Fifty-three Texas cooperatives paid back their loans to the Houston Bank for Cooperatives in full last year. Many others made good-sized payments to reduce their debts.

EASTER HOLIDAY VISITORS FROM AUSTIN

APPROXIMATELY THE SAME PRICE

Dodge value is at its highest peak in 20 years. Study the interesting chart at left.
Dodge maintenance costs are at an all-time low . . . due to a wealth of engineering features and advancements.
In addition to features listed in the chart, consider these Dodge engineering advancements that are yours today . . . not one of which was available 20 years ago.

- Removable Connecting Rod Bearings
- Floating-type Oil Screen
- Rotor-type Oil Pump
- Water Distributing Tube
- Valve Seat Inserts
- Chrome-plated Piston Rings (top ring)
- Amola Steel Springs
- Shot-peened Amola Steel Axle Shafts
- Hypoid Rear Axles
- 7 Frame Crossmembers
- Rugged Channel-type Bumper
- Voltage Control Regulator
- 35-ampere Generator
- Pilot-House Cabs
- "Air-O-Ride" Seats
- 7-point Seat Adjustment
- Rubber-mounted Cab
- Extra-wide Seat—57 1/2"
- Exterior Gas Tank Filler

So . . . if you're using worn-out or "high-mileage" equipment, stop and think! Consider your present maintenance expense . . . the savings you can make with modern, advanced-design Dodge "Job-Rated" trucks.
Remember, Dodge "Job-Rated" trucks . . . in every weight class . . . are priced with the lowest. Take advantage of current low prices, and switch to Dodge "Job-Rated" trucks . . . now!

Come in! We'll show you a truck "Job-Rated" to fit your job . . . save you money . . . last longer!

State Divided In Annual Battle to Control Hoppers

In the annually recurrent battle of farmers against insects, there's an imaginary line splitting the state almost in half vertically. It is the line of grasshopper control.
At the north end, this line starts with Clay county on the Red River. It stops with Atascosa county on the south. Dr. H. G. Johnston, head of the Texas A&M College department of entomology and state leader in grasshopper control, explains the reason for the line. All counties east of this line have been recommended to use the sprays and dusts of toxaphene or chlordane. And all counties west of this line will have federal bait material available to them.
Here's the reason for having the line. East of it, there is quite

a bit of luxuriant growth of grasses and weeds—in the field margins, along the fence rows, ditch banks, pastures, or waste land near cultivated crops. In such areas sprays and dusts work better than poisonous baits. Out in the open country west of this vertical line poisonous baits will work to a greater advantage than the sprays and dusts.

It's important to get the right dilutions when mixing the chemicals for sprays. For chlordane, use one quart of 45 percent emulsion or two pounds of 50 per cent wettable powder to each 50 to 100 gallons of water per acre. For toxaphene, mix one quart of 45 per cent emulsion or two and a half pounds of 40 per cent wettable powder in 50 to 100 gallons of water to spray one acre.

If you're dusting these materials, do it when the grasshoppers are small. Use one and a half pounds of either toxaphene or chlordane per acre. As the hoppers grow, increase the dosage. When the hoppers are small, a 10 per cent dust at 15 pounds per acre is recommended. Later on, make it 18 or 20 pounds per acre, or use a 20 per cent dust at 10 pounds per acre, Dr. Johnston says.

There are a couple of precautions to remember, too. Don't feed forage treated with these insecticides to dairy cattle until at least three weeks after spraying or dusting. And it's a good idea to protect bees when possible, so try to avoid applying these chemicals to legumes in bloom. The bees are essential for pollination, and should be protected. However, the sprays are less harmful to bees than the dusts, says Dr. Johnston.

Bait material and grasshopper poisoning information may be obtained from the county agricultural agents, says Dr. Johnston, while printed instructions are available at county agent's offices or at the Texas A&M College Extension Service. Ask for "Grasshopper Control With New Insecticides."

If two stacked glasses become stuck, there's a way to get them loose without breaking them. Pour cold water in the top glass while the lower one stands in warm water. And if a stopper sticks in a bottle, try running warm water over the neck of the bottle.

Uncle Sam Says
EVERY AMERICAN'S OPPORTUNITY BUY U. S. SAVINGS BONDS

Here's an old saying: "There's nothing like being without money to make one appreciate having it." And now is your opportunity to make certain that you'll always have plenty of it by putting some into U. S. Savings Bonds every payday. The safest, surest way of providing future security is by saving the regular, automatic way through the Payroll Savings Plan where you work. Or, if self-employed, enroll for the Bond-a-Month Plan at your bank. No fuss, no bother with either plan. And in 10 years your money will come back to you with interest, \$4 for every \$3 you invest. Rainbow Sewing Club Meets With Mrs. Patterson

The Rainbow Sewing Club met in the home of Mrs. Tony Patterson April 19. The Club welcomed Mrs. W. E. Johnson home again after a visit in California. She reports an en- joyable trip. In the absence of the chairman, Mrs. Eva Chapman presided over the meeting. The Club song, Let Me Call You Sweetheart was sung, followed by a business meeting. The Needlecraft Report was given. Mrs. Edwards won honor- able mention for the most sew- ing. This thought for the day was given: "Before you put your tongue into high gear, be sure your brain is running." Mrs. J. B. Edwards gave a talk on The Redwood Tree. She told that the tallest known tree towered 364 feet above the ground. There is no record of one ever having died of old age. Delicious refreshments were served to the following members: Mesdames Flossie Rogers, Grace Stoddard, Eva Chapman, W. E. Johnson, Helen Johnson, Tony Patterson, J. B. Edwards and one visitor, Mrs. T. E. Patterson.

Business Good For Texas Farm Co-Ops During Past Year

Last Year farm business was good as far as the farm cooperatives were concerned. So good, in fact, that 53 Texas farm co- operative, paid back their loans in full to the Houston Bank for Cooperatives. Many others made pretty good- sized payments to reduce their debts to the bank, according to County Agent F. W. Martin. During 1948, the Houston Bank for Cooperatives lent more than 28 million dollars to 173 farmers cooperatives serving 114 thousand farm and ranch fam- ilies. These associations are set up to perform a variety of off- the-farm services which only a few farmers can provide for themselves. For example, says Martin, the farmers use their cooperatives to gin their cotton, handle and market grain, rice, fruit, veget- ables, livestock, poultry and dairy products, to crush and market cottonseed, manufacture feed and buy supplies needed on the modern mechanized farm. Eighty-nine new cooperatives were chartered last year. More than 95 per cent of the 1100 ac- tive cooperatives in the state serve local groups of around 200 farmers each, concludes Martin.

NOTICE TO BIDDERS

The Commissioners Court of Haskell County will accept bids on a new 1949 model automobile to be used by the Sheriff's de- partment of said Haskell County. Said car to be fully equipped, in- cluding spotlight, plastic seat covers, and heater. Bids must be submitted by 10 o'clock May 9, 1949, and the Court reserves the right to reject any and all bids. O. E. Patterson, County Judge

WICHTA FALLS VISITOR HERE FOR EASTER

Mrs. Connie Jones of Wichita Falls, spent Easter Sunday in the home of friends here.

VISIT IN CLYDE

Mr. and Mrs. Jesse Collier vis- ited in Clyde Sunday.

Reunion Held In E. G. Graham Home

A family reunion was given in the home of Mr. and Mrs. E. G. Graham Easter Sunday. There were forty-one present for din- ner. In the afternoon they had an Easter Egg hunt and made pic- tures. Those present were Mr. and Mrs. C. O. Ammons and family, Mr. and Mrs. A. E. Brewer and daughter, Mr. and Mrs. Earl Ammons, Mr. and Mrs. T. E. Am- mons and daughter, all of Pampa; Mr. and Mrs. J. L. Blackard and son of Munday; Rev. and Mrs. J. H. McClendon, Mr. and Mrs. T. L. Oliphant and son, Mr. and Mrs. G. W. Ammons and family, Mrs. Lorene Carter and children, Jack Tate, Mrs. E. C. Capers, Mrs. Elsie McGee and son, Mr. and Mrs. E. G. Graham and son.

Colored Methodist Church Revival Thru Success

A successful revival was re- cently concluded at the Pleasant Grove Colored Episcopal Church in this city, the pastor, Rev. A. Crowder reports in the following news article to The Free Press. The revival began April 4 and continued until April 8, marked by stirring services each evening, Rev. K. T. Smith began preaching the first night, when his subject was "Witness For Jesus." This was a great spiritual feast with his soul-burning message. The second night Rev. Smith came to the rostrum with another burning message on the subject "The Wages of Sin Is Death, But the Gift of God Is Eternal Life." The Holy Spirit was with him in these services and his messages were so full of fire that the con- gregation could not sit still. The services continued to get better each night until he closed the re- vival Friday night, April 8. There were no souls added to the church but the finances ran high. A prize was given to the person raising the highest amount of money above \$2.50. Deacon Willie Adams of Hopewell Bap- tist Church raised \$8.75. Many others participated in the collection, and the total amount raised was \$93.61. We are indeed glad of your splendid co-operation. The door stands open for Independent and Hopewell to come again and wor- ship with us, and to bring again their splendid choirs and singers. —Rev. A. Crowder, pastor; Van- illa McDonald, secretary; James D. Willis, steward.

SPEND EASTER HOLIDAYS IN SAN ANGELO

Dr. and Mrs. Arthur Edwards spent the Easter holidays in San Angelo with Mrs. Edwards' par- ents, Mr. and Mrs. F. M. Mott and her sister, Mrs. Frank Tabor and family. They also visited Mr. and Mrs. Jess Edwards, brother to Dr. Edwards and a former resident of Haskell.

ENROLLS IN TELEGRAPHY SCHOOL

Miss Ernestine Bird of this city left Sunday afternoon by train for Springfield, Mo., where she will enroll in a school of telegra- phy.

HERE FROM AUSTIN

Mr. and Mrs. G. K. Brittingham of Austin spent the week end in Haskell with her parents, Mr. and Mrs. D. H. Persons.

Mrs. S. E. Lewis Hosts Meeting Of H-D Club

The Willing Workers H. D. Club met in regular session on Thursday March 14 in the home of Mrs. Ernest Lewis of Jud. A one hundred per cent of ac- tive members answered roll call with "How I Store Cake for Good Keeping." Mrs. Cecil Jetton gave the H. D. County Council report. A new selection of books was issued to members to read toward gaining gold stars to add to their reading certificates. Reading certificates were pre- sented to Mrs. D. N. Powell, Mrs. Paul Bell, Mrs. S. E. Lewis, Mrs. John Powell and Mrs. Cecil Jet- ton. Certificates are based on hav- ing read three books on the T. H. D. A. approved list. Each addi- tional book merits a gold star. A timely topic "The Voice" was given by Mrs. Nathan Foster. Mrs. S. E. Lewis gave three slick trick demonstrations. A written parliamentary quiz was given by Mrs. D. N. Powell.

Tinshipka Camp Fire Group Has Meeting

The Tinshipka Camp Fire Girls McFarlin on Tuesday, April 14, at met in the home of Mrs. J. W. 4 p. m. Patsy Perdue, the president, called the meeting to order and Mrs. McFarlin led the prayer. We discussed buying season tickets for swimming. The meeting was then adjourned. Refreshments were served by Mrs. McFarlin. Members present were Dolores Herren, Patsy Turnbow, Patsy Burnet, Coleta Worrell, Betty Perdue, and Anne McFarlin, and the hostess, Mrs. McFarlin, and her daughter, Nancy Lou. Refreshments of ice cream and cake were served to Mesdames Joe Mathis, E. E. Burleson, Eu- gene Wheeler, Nat Foster, D. N. Powell, J. H. Isbell, R. E. Mathis Jr., Ira Short, S. E. Lewis, John Powell, Henry Downey, Cecil Jetton and one visitor, Mrs. H. B. Yarbrough.

Austin Review

(By Clyde Whiteside)

I have just returned from a tour of the Texas Prison System and I would like to submit this report to you.

This tour included all of our eleven prison units. Beginning inside the main walls at Huntsville, we inspected each nook and corner. We saw the good and the bad. As we viewed the psycho-ward within the main walls, Manager O. B. Ellis made a strong appeal for legislation which will place the criminally insane in special institutions.

These criminally insane are people who should never be in prison, Mr. Ellis explained. It creates too many problems. We don't have the trained personnel for that type of patient, and what's more we cannot discipline them. Right now, we have four insane patients who have served all of their time, but we cannot release them. Help us do something about this.

As our tour continued through the print shop, the tag plant, shoe shop, textile mill, machine shop, etc., Mr. Ellis pointed out just where the recently allotted prison money would be spent. It is Mr. Ellis' intent to put our prison system on a self-sustaining basis. Our present system cost the taxpayers of Texas last year \$2,488,332. At each shop, members of the committee would stop and talk with the various inmates about their jobs, their homes, time served, and plans upon release.

The committee spent all day Saturday visiting the prison farm units. Here is where the system could stand a lot of improvement. The laundry facilities, for instance, on some of these farms are of the worst kind. At one of the farms, six old-time wash pots served for 250 prisoners' only laundry facilities.

I talked with many of the prisoners, and I found that the general attitude toward the new improvement program headed by Mr. Ellis was very good. These inmates have confidence in the manager, and we in the legislature believe that the Ellis Plan is the most progressive step toward correcting the "sore spots" which for many years have blackened our penitentiary system.

Springtime Brings Strawberries To Texas Tables

Whether you eat them in preserves, on ice cream, on a strawberry shortcake, or fresh, it is strawberry time in Texas.

Lucille Shultz, associate extension foods and nutrition specialist of Texas A&M College, suggests putting away several gallons in the home freezer, if you select only the red-ripe berries. This type hold their color better than the almost ripe berries.

Strawberries can be put into a container whole, or cut into halves and allowed to stand in dry sugar until it is all dissolved. The sugar—or sugar-syrup—helps keep the berries in their fresh texture (color and aroma). They develop an off-color and off-flavor very quickly after they are defrosted if the sugar is not used. So, when you are using the dry sugar method, mix the berries until each one is well coated with sugar, Miss Schultz says.

Crushed berries used for toppings for shortcake and ice cream will hold their natural flavor better and longer than the whole or sliced berries. Here are Miss Schultz's suggestions for preparing the berries for freezing. Wash, drain and cap them; weigh them and pack, using one part sugar to three or four parts of berries. If you are using the sugar-syrup, mix three cups of sugar and four cups of water. Fill the containers with berries and cover them with cold syrup, put the cover on and place them in the quick freezing compartment at 20 degrees—to freeze at once.

When freezing strawberries to be used for toppings for shortcake and ice cream, crushed, red, ripe berries will hold their natural flavor better and longer than when whole or sliced.

FIVE POLIO PRECAUTIONS ARE LISTED FOR PARENTS

Warning that the 1949 polio season is "just around the corner," the National Foundation for Infantile Paralysis today issued a list of precautionary measures to be observed by those in charge of children during the epidemic danger period which usually runs from May through October, reaching its peak during the hot, mid-summer months. The five easy-to-follow health rules for children are:

1. Avoid crowds and places where close contact with other persons is likely.
2. Avoid over-fatigue caused by too active play or exercise, or irregular hours.
3. Avoid swimming in polluted water. Use only beaches or public pools declared safe by local health authorities.
4. Avoid sudden chilling. Remove wet shoes and clothing at once and keep extra blankets and heavier clothing handy for sudden weather changes.
5. Observe the golden rule of personal cleanliness. Keep food

tightly covered and safe from flies or other insects. Garbage should be tightly covered and, if other disposal facilities are lacking, it should be buried or burned.

The National Foundation also listed the following symptoms of infantile paralysis: headache, nausea or upset stomach, muscle soreness or stiffness, and unexplained fever. Should polio strike in your family, call a doctor immediately. Early diagnosis and prompt treatment by qualified medical personnel often prevent serious crippling. The National Foundation pointed out: The organization emphasized that fear and anxiety should be held to a minimum. A calm, confident attitude is conducive to health and recovery. Parents, it said, should remember that of all those stricken, 50 per cent or more recover completely, while another 25 per cent are left with only slight after effects.

CUT OUT AND KEEP FOR REFERENCE

Chemical Treating Of Cotton Seed Good Insurance

Nobody can guarantee that your cotton will produce a good crop, but there is a good insurance in chemical seed treatment.

There's often quite a difference in a cotton crop that has been planted with chemically treated seed and a crop that wasn't. And here's the difference: With chemically treated seed, chances are good for better stands and greater yields because the chemicals kill seed-borne germs and protect the seeds against molds and fungi in the soil.

Without seed treatment, it is harder to get a good stand for producing a good crop, says F. W. Martin, County Agent. Unprotected seed rots easily in the soil before it has a chance to germinate, especially if the ground is too cold or wet for quick germination. Even after the seed germinates, many young seedlings are killed by angular leaf spot, scorch or bacterial boll rot.

One of the worst cotton diseases is angular leaf spot. It often shows up first on the young seed leaves, and during damp weather after the seedlings come up, many of them will die unless they were treated with a chemical before planting. This same disease also destroys some of the early buds, and may prevent the growth of early fruiting branches. As the cotton plant grows, the disease shows up as angular spots on the leaves, and also as bacterial boll rot, Martin says.

Brown spots or cankers at the ground level or slightly below a stem is a good sign of scorching. Many plants will recover from this disease, but they are often late in developing.

Experiments have shown that seed treatment greatly reduces these troubles and helps to promote more vigorous seedlings, which often can be chopped and cultivated earlier.

In a four-year test by the Texas Agricultural Experiment Station with chemical seed treatment results showed good increases. There was a 25 per cent increase at College Station, a 15 per cent increase at Temple, a 10 per cent increase in the Brazos bottoms near College Station, and a 4 per cent increase in the average yield at Lubbock.

In another test at the Temple Substation, treated seed gave 25 to 30 per cent better stands than untreated seed. At the same time, the plants made greater yields per acre, and had less angular

Specialists List Several Pointers On Home Freezers

In recognition of the increasing use of home freezers, specialists of the U. S. Department of Agriculture have been studying the operating characteristics of units in the household equipment laboratories of the Bureau of Human Nutrition and Home Economics.

Their reports show that the home freezer will do a better job for the family if it is given a place in the home that suits it. Mrs. Bernice Claytor, extension home management specialist of Texas A&M College, said recently: The freezer should be located in a cool, dry, well-ventilated spot. When there is not room in the kitchen, an attached garage has proved to be a good location.

Some of the conditions to be avoided in locating the freezer as listed by Dr. Earl McCracken, USDA physicist are: A hot spot—the higher the temperature, the more the motor must run. Dampness—moisture is likely to condense on the freezer's outer walls and may even drip to form pools on the floor. It may damage exposed metal surfaces as well as the motor, motor supports and springs.

A tight spot—a small niche with walls on three sides of the unit, prevents circulation of air needed to carry off the heat. Remember that a home freezer, even empty, is heavy. Strong flooring is essential. An upright freezer puts more weight per square foot on a floor than a horizontal one of the same capacity. It is always a wise precaution to ground the freezer, to prevent electrical shocks to the user, according to the specialist. And if the freezer is to be carried through a doorway or up or down stairs, you will be wise to take measurements before the freezer comes home, Mrs. Claytor concluded.

May is the month when hens usually are at their peak of production and when, because of big supplies, egg prices are lowest for the year.

A&M STUDENTS HOME FOR EASTER HOLIDAYS
Among the A&M College students who visited in Haskell during the Easter Holidays were: Wallace H. Cox, Jr., son of Mr. and Mrs. W. H. Cox; Raymond Ray Medford, son of Mrs. R. L. Medford; Roy Paul Vin Frierson, son of E. M. Frierson; James Earl Smith, who is home of Mr. and Mrs. Smith.

Miss Fern Spicer, Billy Morgan Wed In Peacock

Mr. and Mrs. E. E. Spicer, of Jayton, are announcing the marriage of their daughter, Fern, to Billy Morgan, son of Mr. and Mrs. Jesse Morgan, of Peacock.

Rev. W. T. North performed the single ring ceremony in his home at Peacock, Tuesday, April 12th.

The bride was dressed in navy with white accessories.

Ethel Kidd of Peacock and William Hall of Jayton were the couple's attendants.

Others attending the ceremony were the bride's parents and sister, Mr. and Mrs. E. E. Spicer and Sandra Sue, the groom's mother, Mrs. Jesse Morgan, an aunt and cousin of the bride, Mrs. W. W. Halliburton and son, Tom, of Abilene, and Melva North, Billy Williams and Jolene Webb of Peacock.

The groom is a graduate of Peacock High School and the bride is a student there.

The couple left after the ceremony for Oklahoma where they will spend their honeymoon.

The bride is a granddaughter of Mrs. Pearl Johnson, who formerly lived at Haskell.

VISITORS IN THE LEONARD FLORENCE HOME

Mr. and Mrs. Elwood Wildman of Tatum, New Mexico, Mr. and Mrs. Curtis Kelley, Mr. and Mrs. Leonard Florence, Jr.; and Mr. and Mrs. Max Florence, and daughter, all of Ft. Worth were recent visitors in the home of their parents, Mr. and Mrs. Leonard Florence.

Other recent visitors in the Florence home were Mr. and Mrs. Jess Lawrence of Houston, a brother of Mrs. Florence.

Do you drive a bread-and-butter car?

If your car is a vital business necessity, you need the complete protection offered by State Farm Mutual Auto Insurance. Under State Farm's policy of accepting only "refined risks"—drivers we know are careful—you can get this full coverage at lower rates. Call or come in today.

Weekly Swing of Southwest Farm Markets

Southwest farmers received steady to lower prices for most products during the past week the U. S. Department of Agriculture's Production and Marketing Administration reports.

Lamb prices dropped \$3 to \$5 from last Monday's record high prices at Fort Worth and \$2 to \$3 from last week's all-time high's at San Antonio, Oklahoma City and Denver.

Prices also recorded losses of around \$2 to \$3 on lambs. Best spring lambs ranged from \$26 to \$28 Monday this week. Ewes lost 50 cents. Goats changed little.

There was little or no trading in wool or mohair last week.

Dressed lamb prices fell \$8 to \$10 a hundred for the week at New York. Beef and mutton sold steady, veal \$1 to \$4 lower, and pork \$1 lower to \$1 higher. Sheep numbers rose sharply at all markets last week but failed to equal a year ago. Monday this week found sheep receipts down to about half those of a week earlier. Last week's receipts of cattle, calves and hogs held somewhat in line with the week before or a year ago at southwest and mid-west markets.

Hog prices continued downward by 50 cents to \$1 for the week. Top hogs fell to \$18 at Fort Worth Monday, the lowest since October, 1946. Best butchers moved at \$18.50 at San Antonio and Oklahoma City, and \$19.75 at Denver.

Cattle prices showed little change for the week. Good yearlings sold up to \$27 at Houston Monday and \$26.50 at San Antonio. Fort Worth took good and choice steers and yearlings at \$24 to \$28. Oklahoma City paid \$20.25 for choice mixed yearlings.

Increasing supplies of spring vegetables brought generally lower prices last week. Demand slowed for south Texas products. Small sizes made up a large share of new potatoes, and prices fell. Onions, beans and squash became more plentiful. At other markets, lettuce, cabbage, green onions and strawberries weakened.

Sorghums gained 3 cents a hundred, as most other grains lost 1-2 to 3 cents a bushel. No. 1 wheat closed Monday at \$2.38 to \$2.45 at Texas common points. No. 2 white corn sold at \$1.71 to \$1.74, yellow \$1.63 to \$1.66, and milo \$2.70 to \$2.75.

Scattered lots of rough rice went to market last week, with short grains bringing slightly higher prices. Wheat milled prices continued to rise, although most other feeds sold unchanged to lower. Limited offerings of hay sold about steady under slow demand. Peanuts showed little change, as rains delayed planting.

Egg and poultry prices held about steady for the Easter season. Current egg receipts brought mostly 40 to 41 cents a dozen at Dallas and Fort Worth, 39 at Denver, and 40 to 44 at New Orleans. Heavy hens sold from 32 to 34 cents a pound in north Texas, 39 to 41 at New Orleans, and 35 to 36 for heavy types at Denver.

Cotton advanced 25 cents to \$1 a bale. Spot middling 15-16 inch closed Monday at 32.75 cents a pound at Houston, 32.80 at Dallas, and 32.95 at New Orleans.

Fidelis Class Holds Annual Easter Breakfast

Mrs. Stanley Furrh, Mrs. Lola Lemmon, Mrs. L. R. Burkett of Wichita Falls, and Mrs. Olen Dotson were hostesses in the latter's home to the traditional Easter Breakfast for the Fidelis Class of the First Baptist Church on Sunday morning. This breakfast has long been an annual custom of this class and each year former members come from a wide area to attend.

A musical prelude was played by Mrs. Mary Martin at the piano, and Hattie Davis, a former class member, on the violin.

A profusion of yellow and pink snapdragons, pink hydrangeas, sweet peas, purple iris, bridal wreath and Easter lilies were used throughout the entertainment rooms. Groupings of grass nests, plastic eggs, and miniature chickens covered with pastel net umbrellas, decorated the mantels, coffee tables, buffet and piano, as well as the serving tables, each flanked by floral arrangements. The plate favors were replicas of the centerpieces.

Mrs. C. V. Payne gave an Easter greeting, explaining the significance of the occasion, followed by group singing, led by Mrs. E. C. Hunter. A devotional by Mrs. W. P. Trice preceded a prayer by Mrs. D. Scott. Carolyn Turner sang "The Twenty-Third Psalm," and "Were You There When They Crucified My Lord," after which Mrs. Buford Cox told the story of the "White Lily." Mrs. H. R. Jones of Wichita Falls gave the benediction following the closing hymn by the class.

The guest included: R. C. Couch, Sr., a former class teacher, and Mrs. R. J. Reynolds, class teacher. Mesdames Scott Greene Jr., W. P. Trice, F. W. Martin, C. V. Payne, Claude Harrison, Estelle Lee, R. L. Burton, J. P. Payne, Tommy Ballard, Roy Brock, George Henshaw, E. M. Frierson, W. A. Lyles, Oscar Oates, Norman Nanny, Juanita King, Sylvia Force, Roberta Phillips, E. C. Hunter, Buford Cox, Elmore Smith, R. A. Lane, Hallie Chapman, J. F. Cadenhead, Sr., Viars Felker, R. L. Foote, A. C. Pierson, Ralph Duncan, Elbert Fagan, Marvin Waggoner, Wiley M. Reid, W. P. Ruff, Leon Pearsey, Clyde Bland, J. Parrish and Misses Vera Hunt, Nettie McCollum, Mary Couch, and Carolyn Turner.

Mesdames H. R. Jones, Wichita Falls; D. Scott, Cleburne; Hattie L. Searcy, Huntsville; Alice Wray, Kermit; Miss Mary Lou Robertson, Abilene; Mrs. Roy Killingsworth, Misses Hattie Davis, Mary Grindstaff, Eleanor Burns, and Marjorie Whitaker, all of Dallas.

VISIT IN QUANNAH

Mr. and Mrs. Jack Roden and sons were Easter Holiday visitors in the home of relatives in Quan-nah.

VISIT RELATIVES IN MIDLOTHIAN

Mr. and Mrs. J. L. Alderice, and children were Easter Holiday visitors in the home of relatives in Midlothian.

Your first thrill is seeing it...
Your greatest thrill is driving it!

The most Beautiful BUY of all
now made even more attractive by new lower prices!

Talk about thrills! You'll get the biggest "triple-thrill" in motoring out of seeing, driving and saving money with this new Chevrolet for '49—the most beautiful buy of all—now made even more attractive by new lower prices!

And, while you'll naturally be happy to know it's the beauty-leader, we believe you'll get your greatest thrill out of driving it. You'll experience amazing new handling ease and riding ease, thrilling acceleration, and outstanding hill-climbing ability, all delivered with typically tight-fisted Chevrolet savings on gas and oil. For here's the only low-price car with a world's champion Valve-in-Head engine—of the type now being used on—and more higher-priced automobiles—the most beautiful buy for performance with economy, just as it's the most beautiful buy for style.

Give yourself and your family the "triple-thrill" in motoring... see, drive and save with Chevrolet for '49... the most beautiful buy of all!

and more people have convenience of telephoning every effort to bring the goods quickly as possible.

LEGAL NOTICE

GUARDIANSHIP OF JOE WAYNE HASTEY, A MINOR.
NO. 1536 IN THE COUNTY COURT OF HASKELL COUNTY, TEXAS.

TO ALL PERSONS INTERESTED IN THE ESTATE OF JOE WAYNE HASTEY, A MINOR.

Notice is hereby given that on the 13th day of April, 1949, I, Easter Haste, acting as guardian of the estate of Joe Wayne Haste, a minor, filed with the County Clerk of Haskell County, Texas, a sworn application for authority to make an oil, gas and mineral lease on and covering the following described land situated in Haskell County Texas, and belonging to the estate of said Joe Wayne Haste, a minor, to-wit:

An undivided one-eighth (1/8th) interest in an to 90 acres of land more or less, out of the SW part of Survey No. 1, G. C. & S. F. R. Co. lands, Pat. No. 99, Vol. 100, Abstract No. 693, and described by metes and bounds as follows: BEGINNING at a point in the West boundary line of said Survey No. 1 and 605.75 vrs. North from its SW corner; THENCE North along said West boundary line 683.37 vrs. to a stake, the NW corner of this tract; THENCE East 743.5 vrs. to a stake in the East boundary line of the NW 1/4 of said Survey No. 1, the NE corner of this tract; THENCE South along the East boundary line of the NW 1/4 and SW 1/4 of said Survey No. one, 683.37 vrs. to a stake, the SE corner of this tract; THENCE West 743.5 vrs. to the place of beginning.

Such application will be heard by the County Judge of Haskell County, Texas, in the County Courtroom in the Courthouse at Haskell, Haskell County, Texas, on the 2nd day of May, 1949, at 10:00 o'clock A.M., same being the time and place which has been designated by the Judge of the County Court of Haskell County, Texas, as the time and place when and where such application will be heard. WITNESS my hand this 13th day of April, 1949.

(Signed) Easter Haste, Guardian of the Estate of Joe Wayne Haste, a minor.

HASKELL COUNTY HISTORY

Brief Items Taken from Old Copies of The Free Press

20 Years Ago—April 18, 1929

Dan Couch of Lubbock was here the first of the week visiting his brothers George, R. C. and John Couch.

Haskell county's third producing oil well was brought in Monday by Superior Oil Co., on the Reynolds Ranch in the southeast corner of the county.

A group of almost 100 Haskell county farmers and businessmen spent Tuesday in the Wichita Falls area, inspecting dairying and poultry plants in that section.

Mrs. Jordan Ownby has returned to her home in Dallas after a visit here with her parents, Mr. and Mrs. John W. Pace.

Mr. and Mrs. N. I. McCollum and daughter, Miss Nettie, visited relatives in Cisco during the week-end.

Haskell people in attendance at the Baptist State Sunday School Convention in Sherman this week included: Mesdames T. J. Arbuckle, Ora Pippen, Jim Gilstrap, H. R. Whatley, B. M. Whitaker, C. M. Conner, Miss Eudora Bradley and Messrs. T. J. Arbuckle and A. C. Pierson.

L. E. Newton of Weinert was in the city Monday on business. He recently bought a tract of land in the Nolen Ranch near Weinert and is making considerable improvements.

40 Years Ago—April 17, 1909

The Symphony Club will meet Wednesday afternoon, April 21, with Miss Houston at the home of Mrs. Charles Irby. The program will be devoted to a study of Beethoven.

F. Baker, who has been assistant in the Haskell postoffice the past year, has resigned and returned to his home in Lockney Texas.

The Methodist Church has purchased three lots west of D. M. Winn's residence, and an architect has been employed to prepare plans and specifications for the new church.

Judge W. C. Jackson of Fort Stockton was a visitor in this city this week.

A. J. Street of Clarksville, an old friend of T. A. Allen, spent several days here this week.

J. F. Posey of Munday spent Sunday with friends in Haskell. Homer D. Wade, Judge W. T. Andrews, Tom Penick and T. J. Pannell of Stamford were in this city Monday.

In the City Election this week, E. A. Chambers and W. M. Stephens were elected Aldermen.

We notice from the Fort Stockton Pioneer that W. T. Jones' firm has made several good land sales recently. Mr. Jones is a former resident of Haskell.

There is considerable talk of holding a Street Fair in Haskell, and it appears likely that the event will be staged at the proper time.

50 Years Ago—April 18, 1899

R. E. DeBard was in town yesterday, and in talking about the crops in his neighborhood in the southwestern part of the county, said everything was looking favorable except wheat, which he believes was damaged by the recent cold spell.

F. P. Springer received a telegram Monday from Ardmore, I. T., informing him that his brother, J. J. Springer, was very ill.

M. Smith, one of the largest sheep raisers in this section, says the lamb crop this year will be about 50 per cent of the average crop. In some sections, especially in south and southwest Texas, the crop is reported as low as 10 per cent of normal years.

Mr. Higginbotham of Dublin was here this week looking for a ranch location. We understand he is negotiating for a lease on the 17,700 acre tract of Wise County School Land northwest of town and if he gets it will stock it with cattle.

We heard yesterday that the ten or twelve year old son of Mr. and Mrs. G. H. Cobb of the southeast part of the county, was bitten on the hip by a rattlesnake Tuesday, but that he was making a safe recovery from effects of the bite.

Alex Ferguson, a young man from Belton, is visiting his sister, Mrs. F. M. Morton of this county. He is a graduate of Texas A&M College and served as a volunteer in the army during the late unpleasantness with Spain.

Miss Lucy Denson was up from Abilene last week on a visit to her mother and family.

Capt. J. S. Williams is having some substantial improvements made on his residence. W. M. Towns is in charge of the work.

Jim Roberson, one of the brothers who bought the Lackey place on the Brazos in the northwest part of the county, was here the first of the week. He says they have one hundred acres of corn up and growing nicely.

S. S. Cummings made a sale a few days ago of 300 head of cows to a Mr. McIntosh of Higgins at \$27.50 per head, throwing in this spring's calves.

Percy Lindey found a shotgun a few miles from town the other day. Owner can get it by calling on him.

Can Black-Draught Help an Upset Stomach?

Black-Draught may help an upset stomach if the only reason you have an upset stomach is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, distention, physical fatigue, sleeplessness, mental haziness, bad breath—and if these symptoms are due only to constipation—then see what Black-Draught may do for you. Get a package today.

During the war, Navy personnel consumed one pound of meat per day, twice as much as they were accustomed to as civilians. In the last six months, the Navy's Air Transport Squadron Two, using the flying boats, MARS, averaged over seven hours in the air per plane per day. In their first operation in the Pacific, two Navy squadrons, carrying 1000 tons of cargo.

HARVEST ALL COMBINEABLE CROPS

Choose a JOHN DEERE No. 12-A Combine!

Get clean, undamaged grain and seed that grades higher—use a dependable John Deere No. 12-A Straight-Through Combine. It's a six-foot, full-width combine that successfully harvests all combineable crops in a wide variety of crop conditions.

Here's why! The No. 12-A is a big-capacity machine capable of harvesting the heaviest crops quickly and efficiently... without overloading any important combine units. All crops are handled in a straight line from the cutter bar on through the machine. There are no turns... no corners to cause piling or clogging. Its easily-adjusted threshing unit threshes cleanly... without cracking. Full-width separating units do a thorough job of separating the seed from the straw.

Add to this light weight for low power requirements... the lasting strength for field dependability and low operating costs. You'll understand why owners say—"With a John Deere, it's one-man harvesting at its best." See us for further details.

The Easiest Way Is Best Way To House Clean

Make the house cleaning job easy on yourself. There is no reason to do more than you have to. So cut down on your fatigue by cutting down on the unnecessary part of house cleaning.

Gladys Darden, assistant extension home management specialist of Texas A&M College says that doing year-round cleaning by a well organized plan which fits your particular needs will save time, energy, cleaning supplies, and finishes.

Plan the order of cleaning routine so that it fits in with the daily schedule, continues Miss Darden. Sort out the jobs which must be done once a week, once a month or less often so that several do not come on the same day.

The easiest way is the best way to do the jobs. Make as few motions as possible while house cleaning. Use both hands, and avoid those extra rubs and pats that take extra time and energy. At the same time, route the work to save steps.

An another thing to remember is to do the job in as comfortable a position as possible while working. Short rest pauses or changing jobs once in a while help reduce fatigue.

Don't forget breakfast and lunch. Eat heartily and wear easy action clothes, shoes and hose which are comfortable and well fitting says Miss Darden. Be sure your posture is right for the job. Extra kneeling and stooping tire a person rapidly. Longer handles on dust pans, mops, and wall brushes help maintain a better posture while house cleaning. The easiest way to do a good job is the best way, Miss Darden concludes.

Navy Aerobee rockets launched from the USS Norton Sound will measure cosmic rays 78 miles above the earth.

Highway Department Outlines Plan For Farm-to-Market Road Construction

Haskell County Commissioners Court has received notice from the Texas Highway Department concerning the procedure to be followed in the selection and construction of Secondary or Farm-to-Market Roads under the provisions of Senate Bill 287, which has recently been passed by the current session of the Texas Legislature.

County Judge O. E. Patterson was informed that the new state law derives its funds from the omnibus tax fund as provided by House Bill 8 of the Acts of the 47th Legislature. The new Act will credit the amount of \$1,250,000 per month to a fund to be known as the Farm-to-Market Road Fund of the State Highway Department. These funds will begin to accumulate on Sept. 1, 1949. It will be the purpose of the State Highway Department to form a two year program covering the two construction years beginning Sept. 1, 1949, and it is estimated by the Department that approximately \$30,000,000 will be available from this source over this two year period.

The State Highway Department advised the Commissioners Court that "The law requires that the funds be expended on roads selected by the State Highway Department after consultation with the County Commissioners' Courts of the counties of Texas, relative to the most needed rural roads in the counties involved. The Highway Department through its staff, will review carefully all presentations that have heretofore been made to the Highway Commission at its hearings, all presentations that may have been presented to both the Austin office and our field offices concerning roads in the various areas, the suggestions that shall be made by County Commissioners' Courts, Chambers of Commerce, etc. and then with all such information at hand we will proceed to make a careful study of the needs with the assistance of our planning information which we have been developing for the past thirteen years, and will then proceed to form the program of work covering the two year period. Our District Engineers and their staffs will consult with the County Commissioners' Courts throughout the State between this date and June 1, 1949."

All roads constructed under this program will be two-lane, dustless, reasonably all weather roads and will be maintained by the Texas Highway Department after construction. The counties will be required to furnish necessary right of way free of cost to the State. It will be necessary that this program be prosecuted on a monthly basis. This means that the work will be carried on monthly over the period of two years.

The Court was advised that Farm-to-Market road construction will be limited to a total construction cost not to exceed \$100,000 per calendar year in a county.

Robert Duncan returned Monday to Lubbock where he is a student in Texas Tech, after a visit here in the home of his grandparents, Mr. and Mrs. W. A. Duncan.

The Navy's Island Trading Company has entered the banking business for the convenience of the Trust Territory people. Last year the Navy gave more than 10,500 cash awards to civilian personnel for money saving suggestions.

PINKERTON BAPTIST CHURCH Jack D. Wester, Pastor

Sunday School—10:30. Preaching Hour—11:30. Training Union—7:45. Evening Message—8:30. Prayer Meeting—Wednesday 8:00.

Easter Sunday, April 17, 1949, was another Red Letter Day for Pinkerton. There were 96 present in time for the Sunday School count, and 112 Bibles were handed out as Easter gifts from the church just before the morning message. Many visitors were seen in the congregation.

A Friendly Church invites a friendly visit from you.

Sgt. Rozzie Donald Maxwell, son of Mr. and Mrs. Alfred Force was a visitor in Haskell over the Easter holidays. Sgt. Maxwell is in the U. S. Army Air Force and is stationed at Carswell Field, Ft. Worth.

Miss Jean Bird of this city visited in the home of Miss Esteline Carrol of Abilene Sunday, and also visited her brother Gerald, who is employed by Barnett-Ramel Optical Co. in Abilene.

Wardrobe Triplets to meet every occasion. The versatility of the season's fabrics shows in these McCall designs. Picture 7509—a figure-smooth wrap-around with unusual slanting seam over the hip—in fine gabardine. Next, 7540, a two-piecer elegant in heavy brocaded silk. The jacket is trimly collarless and rates beautifully worked fullness at the back, matched by fullness in the skirt. For faille or dress wool, McCall 7511, with back pleats. The collar line is cleverly repeated at the waist. Perkins-Timberlake McCall 7509 McCall 7540
