Abilene Couple Arrested As Forgery Suspects

A forgery racket which in the last few months had cost merchants in Haskell and a score of area towns an estimated \$2,000, was believed cleared up last Thursday, when Sheriff Bob Cousins of Haskell, Lott Ketter, Baylor county sheriff, and Texas Ranger Jim Geer of Vernon arrested an Abilene couple in a hotel lobby in Cisco as suspects in the forgery and cashing of more than 30 checks.

Sheriff Cousins identified the couple as an Abilene concert violinist and his wife. Haskell and Baylor county officers had been investigating passing of forged checks in Haskell, Seymour and Vernon in recent weeks. After arrest of the couple in Cisco, they were taken to Wichita Falls for further questioning and fingerprinting, the Haskell officer said.

Forgeries in which the man and woman are believed to have been involved include 28 cases, according to a list recently compiled by the bureau of identification and records of the state department of public safety.

Most recent forgeries include one each at Haskell, Seymour and Anson, and two at Stamford, Sheriff Cousins said.

Three persons present when various of the worthless checks were passed have tentatively identified the woman under arrest. A specimen of the man's handwriting was secured by investigating officers and sent to Austin for study before the suspects were apprehended.

Only 1,462 Texans were drafted for Army service during the first year's operations of the Selective Service Act. Nearly 500,000 men were registered. Of that number, 249,000 were classified, almost 30,000 being put in 1-A, the group available for military training and service.

Slightly more than 200 of the draftees already have been discharged by the Army. Col. Paul L. Wakefield, state selective service director, said in his report of the first year's work.

Consolidated totals from 137 local boards were completed last week. They showed that more than 3,000 registrants have volunteered during the past 12 months. Local boards currently are classifying 35,000 men per month, about 3,000 of them being put in 1A.

Wakefield expressed appreciation to local board members and to hundreds of workers who have done the work without pay. The draft law requires 18-year-olds to register but forbids their being classified until they are 19. Wakefield said 4,000 to 5,000 youths in the 18-year-old category are registering each month.

Rev. Vernon N. Henderson, pastor of First Methodist Church, and his family are in Denver, Colorado, vacationing and preaching in the pulpit of Simpson Methodist Church of that city. While the Rev. Mr. Henderson is at Simpson Methodist Church of Denver, the Rev. H. A. Hanke of that church will be in Haskell visiting relatives in this vicinity and preaching at the First Methodist Church of this city. A cordial invitation is extended to all to hear the Rev. Mr. Hanke while here at First Methodist church.

Text matter and advertising copy for the 1949 catalog of the Central West Texas Fair is being assembled this week, in preparation for early printing and distribution of the booklet, Fair Association president, Erne Lowe, has announced.

Rapid Progress Is Being Made On Highway Job

Rapid progress is being made on one of Haskell's major civic goals, widening of the base and pavement on Highway 277 north and south through the city, on which work was started Tuesday of last week. Clint Kint, special job foreman for the State Highway Department on the project, expects to have the job completed sometime in August, if no delays develop in securing materials.

Additional strip to be paved on each side of the present highway will have a caliche and gravel base, with asphalt topping, providing an all-weather surface. Concrete curb and gutter along the street lines was built jointly by the City and adjacent property owners.

Beer Troubles Pile Up For Haskell Resident

A Haskell man who only last week was fined \$250 and costs in County Court on a guilty plea for selling beer, was back in court again Wednesday morning facing another complaint for violation of the liquor laws.

The second chapter had its beginning Tuesday afternoon, when Sheriff Bob Cousins followed an automobile driven by the defendant and found more beer in the car than the law allows. When arraigned before County Judge Patterson Wednesday morning, the defendant, who lives on a farm a short distance north of town, entered a plea of innocent and his bond was set at \$750 to await Grand Jury action. The bond was perfected.

Butane Dealers Clinic Stated At Abilene

It will be 'back to school' for a group of local businessmen when they answer roll call at the opening session of a butane dealers training clinic at Abilene on August 1 and 2, for a two-day session. Classes will be held in the Hotel Windsor under the sponsorship and direction of the Texas Butane Dealers Association.

The local group expected to attend the sessions includes members and employees of the Walling Butane Appliance Co., headed by J. E. Walling, Jr., immediate past president of the state association, and the Haskell Butane & Appliance Co.

The sessions are made possible by cooperation of the University of Texas with the Texas Butane Dealers Association, two top-flight educators of the University's Division of Extension having been assigned to conduct the classes.

Haskell And Rule Teams Play Again Tuesday Night

Haskell and Rule softball teams will play the second of a 3-game series next Tuesday night at Fair Park Field, with play starting at 8:30 p.m., secretary Thos. B. Robertson of the Tri-County League has announced.

Rule took the first game of the series here, Monday night, with a top-heavy 8-1 tally, after the locals had held the visitors to a 1-1 score until the sixth frame.

Tuesday night, Haskell's team in the league race lost to Plainview, 8-7 before a large crowd of fans.

Munday Man Is Victim Of Wreck Near Ft. Worth

F. Lee Haymes, Jr., 30, invalid son of Munday postmaster Lee Haymes, was fatally injured and his father and three other persons were severely hurt in a two-car collision near Fort Worth last Friday afternoon.

An invalid most of his life, the younger Haymes died at 9 o'clock Friday night in Harris Memorial Hospital, Fort Worth. His injuries included a fractured left thigh, right collar bone and internal injuries.

Haymes' father received a possible skull fracture, back injuries and ear cuts. Miss Louise Spigelmirre, 31, Haymes' foster daughter, had a cerebral concussion. Injured in the other car involved were J. J. Maucini, 56, Wichita Falls geologist, broken left leg, several broken ribs and shock, and his wife.

Mrs. Lee Haymes, wife of the Munday postmaster, died recently of leukemia.

Body of young Haymes was returned to Munday, where funeral services were held Monday at the Methodist Church in that city. Burial was in Munday cemetery under direction of Mahan funeral home.

The accident victim is survived by his father; two brothers, Mac Haymes of Eastland and Bob Haymes of Dallas; and two sisters, Mrs. Donald Jolly of Hillsboro and Mrs. John Nobles of Big Spring.

Rochester Oil Field Worker Hurt Friday

James Adams, 26-year-old Abilene oil field worker, was severely injured last Friday when caught in pumping machinery at an oil well near Rochester.

Adams was pulled into the machinery by a fellow worker, Elton Corley of Rochester, was able to snap off the motor. Adams' clothing was believed caught in the pump while he was working beside it.

Flesh was torn off his right leg, and his right arm and hip were severely bruised. He was brought to the Haskell county hospital for X-rays and treatment, and was released Saturday.

Adams was employed at the Danziger Oil & Refining Co. No. 2 Bogard well, four miles west of Rochester.

Grandmother Of Haskell People Dies At Age 101

Death early Monday morning ended more than a century of life for Mrs. Harriett LaFon, 101-year-old resident of Wichita Falls and grandmother of A. J. LaFon and Mrs. Earl Carrol of this city.

Funeral service for the aged woman were held Tuesday at 2:30 p.m. in Jayton, where she had lived for many years before moving to Wichita Falls in 1924 to make her home.

Mrs. LaFon was born in Virginia in July 16, 1848. At the death of her husband around the turn of the century, she brought her family to Texas and settled in Kent county.

She is survived by six children and a number of grandchildren, great-grandchildren and great-great-grandchildren.

Thurman Bynum Buys Josselet Service Station

Purchase of the Texaco Service Station at South 2nd and Ave. E. by Thurman Bynum from Marion Josselet was announced this week, Mr. Bynum taking over management of the business Wednesday evening.

New owner and manager of the establishment has had many years experience in the automotive and service station business. He was manager of the Ford agency in Haskell for several years, and more recently has been associated with his brother, J. A. Bynum in the Bynum Office Supply business.

Name of the establishment will be changed to Bynum Service Station. Major lines handled by the station will include Texaco oil products and Godrich tires and batteries, Bynum announced.

Haskell Firemen Take Course At College Station

City Fire Marshal J. R. Gilstrap and Floyd Lusk, member of the Haskell Fire Department, returned Friday from the State Firemen's Training School held last week at College Station.

The Haskell men were enrolled for a four-day course of instruction in fire fighting and prevention, and received intensive training in approved methods set out by the State Fire Insurance Commission. As a result of the attendance of representatives from this city at the training school, which is held annually, Haskell will be entitled to a 2 per cent credit on the present fire insurance key rate.

Haskell Women To Attend School Lunch Room Institute

Mrs. Pearl Holmesly and Mrs. Armie Lassater of Haskell are among the 150 school lunchroom managers from over the state who have enrolled for the Institute for School Lunch Managers to be held at Southwest Texas State Teachers College, San Marcos, July 31 through August 6.

The one-week conference, sponsored jointly by the US Department of Agriculture, the State Department of Education, and the College Home Economics department will give assistance in such problems as menu planning, meal management, food preparation, selection and care of equipment, record keeping, use of surplus commodities, and improving the eating habits of children.

While attending the conference, managers will plan and prepare their own menus. Government and state officials will be on the campus during the week to act as instructors for the course.

Fire Blazes Over Large Tract Grass On Dameron Ranch

Grass fires — seasonal dread of area ranchmen and landowners — have begun to make their appearance in this section.

Most damaging fire of this nature in the Haskell vicinity occurred Wednesday afternoon, when a tract of between 200 and 300 acres of grassland was burned over on the Dantron Ranch south-east of town. A truck from the local fire department accompanied by several volunteers went to the ranch and helped bring the fire under control.

Amateur Hour Planned At Irby Friday, July 29

An Amateur Hour program will be presented at the Irby school house Friday night, July 29, beginning at 8:30 o'clock, sponsored by the Trinity Ladies Club.

In connection with the entertainment program, homemade ice cream and lemonade will be sold. All proceeds will go into the Trinity building fund. Everyone is invited to attend and enjoy an evening of entertainment.

Rev. W. T. Priddy, pastor of the East Side Church, will do the preaching, and George Turner will be pianist. Choir will be composed of local talent.

Organized Reserve Officers Visit Haskell Unit

Capt. Melvin M. Currier, instructor from the Wichita Falls Organized Reserve Corps Office and Sgt. First Class Charles M. Poole, Reserve Recruiting Sergeant for this area met with the 427th Replacement Training Depot here recently. The discussion concerned the recruiting of enlisted members for the unit, at present there are three enlisted men assigned to the unit. The opportunities for enlisted reservists who actively participate in the reserve program are steadily increasing; in addition to receiving one full day's pay for attending a two hour assembly the reservists are building up points towards Reserve Retirement Benefits. Promotions in the reserves are handled as in the regular Army, it is up to the commanding officer for the unit concerned.

Lt. Colonel Herman K. Henry, Executive Officer of the 427th Replacement Training Depot, stated that there are many vacancies now open in the unit that call for men in the higher enlisted grades. Not only are present members of the reserve and ex-servicemen eligible for enlistment in the unit but also men without prior service may enlist directly for the unit here in Haskell.

Reserve recruiting officers for Haskell are Major Robert C. Couch, Jr., Inf.-Res., Rt. 1, Haskell and Lt. Robert C. Cobb, Misc.-Res., Box 335, Haskell, and for Tulsa is Major Jefferson Lewis, FA-Res. All men desiring further information should contact the officers or write Instructors' Office, OR, General Delivery, Wichita Falls, Texas.

Jimmy Thompson's Take Over Cook's Station, Grocery

Announcement was made this week of change in management of Cook's Service Station and Grocery on South Avenue E. with Jimmy and Faye Thompson of this city as new proprietors of the establishment. C. R. Cook, owner and proprietor of the station since he built it 17 years ago, is retiring from the business to devote his time to the adjoining Cook's Tourist Courts and other interests.

Mr. and Mrs. Thompson are well known and popular Haskell people, and they plan to continue operation of the service station and grocery along the lines followed in the past.

Major activity in oil development in Haskell county centered this week in the Rochester section, where four tests were being drilled as prospective extensions of the Bogard field, and in the area north of Haskell, where Humble has made location for an offset to their producer on the Burson farm.

Rig is expected to be moved in an early date for Humble's No. 1 J. D. Brown, 467 feet from the south and west lines of lot 7, J. Wilson survey, abstract 413. It is a north offset to the same operators' No. 1 C. G. Burson, Jr., completed in Strawn sand recently for an official gauge of 169.61 barrels of oil per day through 5/16 choke from 4,735-60 feet. Permit for the offset is for 5,500 feet with rotary.

Three miles southeast of Haskell, Stanolind Oil & Gas company are reported to have made tentative location for a south offset to their Canyon reef pool opener, the No. 1 John M. Pace. The well will be the No. 1 Pleasant, in the T. G. Owings survey.

Stanolind's initial discovery on the Pace tract, seven miles from production developed east of town by Edw. C. Lawson of Tulsa and Thos. D. Humphreys of Dallas, touched off a flurry of leasing and royalty deals in that section, with several major companies reported assembling blocks in the vicinity. The Canyon reef pool opener, unofficially estimated as an 800,000 barrel producer, on a commission test flowed 351.77 barrels of oil and no water in a 24-hour test through 16-64 choke. Oil was 37 gravity.

In the southeast section of the county, Humble Oil & Refining Co. are reported to have plugged their No. 1 Laura F. Williams after failing to develop production in the Caddo at 4,916-26 feet. Operators are reported re-checking their block in that vicinity with seismograph.

Haskell Juniors Lose Opener In Tourney Play

Haskell Junior soft-balls lost their first game in tournament play at Stamford Monday night, when Weinert defeated the locals 7-2 in the opening game of the 5-team tourney. Haskell held a 2-0 lead over their opponents from the north until the last of the fifth, when Weinert rallied to pile up the overwhelming score. Batteries for Haskell were Billy Davis and Jimmy White.

In the nighttime tourney opener, Plainview defeated Goree 7-6. Tonight (Thursday) Stamford and Weinert teams will play, and Friday night Haskell Juniors will be on the field against the loser of Thursday night's game. All games are being played in Stamford.

New Friendship Baptist Church Plans Revival

A one-week Revival Meeting will be held by the recently organized Friendship Baptist Church of this city, beginning with the morning service at 11 o'clock Sunday, July 24, and continuing through Sunday night, July 31.

Open air night services will be conducted during the week, beginning at 8 p.m. each evening. Comfortable outdoor seating arrangements will be provided at the temporary meeting place of the new church — the O. E. Nuckles residence on East South 5th.

Preaching during the revival will be done by the pastor, Rev. Joe Scheets, and a large choir will be arranged by local talent in the congregation. All people of the community are invited to attend the nightly services.

Atkinson Food Store Installs Cooling System

Work was completed on installation of a modern new air conditioning system in Atkinson Food Store, and patrons of the establishment can do their shopping in cool comfort, proprietors of the store said in announcing the new installation.

Units of the new cooling system have been arranged to maintain uniform low temperatures throughout the large store building during the warmest weather, according to Henry and Dick Atkinson, owners and proprietors of the modern food store.

Experienced feeders know there is economy in feeding quality feeds. It is not the cost per bag of feed but the low unit cost of production which determines amount of profit.

The high quality of a feed shows up in results. That's why more and more feeders are making the RED CHAIN feeding program their own. Keep accurate records and you, too, will be a regular RED CHAIN feeder.

About Fire Prevention

Far, the majority of these have been grass fires, but some could have become dangerous to property and human lives had they not been reported.

The importance of taking every

precaution against grass fires cannot be stressed too highly, because this is the season of the year when grass and weeds are becoming dry, and when dead they constitute a real fire hazard. To minimize the danger of clean up all weeds and rank grass fire, it is advisable that you around your home and other buildings, pile the trash in an

alley as far from any building as possible, and burn. If you think the burning grass or weeds would be too near some building, call the fire department and they will be glad to stand by while the trash is burning. This precaution could present a serious fire loss to you and the city, as you are no doubt aware that your insurance premiums are based on the fire losses for the town as a whole. You may have never had a fire loss, but still you help pay for your neighbors' loss with your insurance premiums.

Now that we have had two Clean-Up campaigns during the past two months, let's keep our town clean and thereby retain our present low key rate on fire insurance.

There are three men in Haskell who will give you good service in picking up and disposing of trash and rubbish. They are O. U. Connally, O. L. Moore and Tom Brown, and if you prefer to have rubbish hauled away from your premises instead of burning it, either of these men will do this work for you at a reasonable charge.

Now, a word to our merchants and business men: As Fire Marshall, I would appreciate it if you would make a special effort to keep your stores and adjacent alleys free from all trash, paper boxes, etc. All stores are in the fire zone limit, which extends one block in each direction from the courthouse square. The State Fire Marshal will be in Haskell within the next three weeks and we want to be able for him to make a very favorable report on the cleanliness of our business section.

Let us all make a special effort to have our town as a whole as free from fire hazards as possible, and keep it that way. City Alderman Olen Dotson is Fire Commissioner, and if you have any suggestions, please pass them on to him or Mayor Courtney Hunt. Your cooperation will mean a lot, and will be appreciated.

CARD OF THANKS

We wish to express our thanks and appreciation for the kindness and help shown us during the sickness and death of our loved one, S. W. Boone.

Fee Would Replace Poll Tax In Texas If Amendment Approved

Texans may have to pay a maximum of 50c to vote even if they themselves abolish the present poll tax.

The last major law passed before the Legislature adjourned gave counties the right to levy a registration fee up to 50c, provided a constitutional amendment abolishing the poll tax is adopted by voters on Nov. 8.

As usual with legislation passed during the closing minutes of the session only a handful of Senators and Representatives knew what the bill provided.

An hour before each house adopted a conference report, it specified a 25c registration fee.

Sen. Rogers Kelley of Edinburg, a member of the conference committee, refused to sign the report.

"I do not believe the state or the county, or any political subdivision should be authorized or have the right to assess or charge any voter in Texas, otherwise qualified, any sum whatsoever for registration or for the right to vote," Kelley declared.

Kelley is the author of the resolution submitting the proposed constitutional amendment which would abolish the present \$1.75 poll tax for voting purposes.

The voter registration measure goes into effect only if the poll tax is abolished.

The law provides that: The county commissioners courts can levy up to 50c, half of the amount prescribed to go to the state and the other half to the county. The county defrays the cost of voter registra-

tion.

An annual registration shall be held between Oct. 1 and Feb. 1.

Voters shall specify on the registration receipt what party they belong to, and they can not vote in the primary of any other party.

A person can indicate he is an independent, but in that case he can not vote in a primary.

The registration shall be conducted by the county tax assessor and collector or designated assistants.

The registration officer shall furnish all precinct election judges not later than three days before an election an alphabetical list of all persons registered in that precinct.

Any voter can challenge the vote of another. In case of a challenge the registrar of votes in the county shall hold a hearing and make a ruling. Should either party desire to appeal they can do so in district court.

A husband can register for his wife and vice versa.

Should any election be held between Oct. 1, 1949 and Feb. 1, 1950 present poll tax receipts or exemption certificates will be used.

The law does not require a person to vote according to his party registration in general elections.

"If the poll tax is abolished, this bill marks the beginning of a real two-party system in Texas," said Rep. Frank Oltorf of Marlin, author of the measure. "That will be a healthy thing for Texas."

Blue Shield Plan Has Enrollment Of 200,000

More than 200,000 Texans are prepaying their medical-surgical care through the Blue Shield Plan at the end of June, reports W. R. McBee, executive director. "Membership reached 208,972 with 21,000 new members in June."

Texans led the nation in providing for hospital-medical-surgical care through their own initiative. They started the idea of prepayment almost 20 years ago, with the first hospital care plan, Blue Cross, which plan now protects 469,232 Texans and over 34 million Americans. The Texas Blue Shield Plan, corporately named Group Medical and Surgical Service, is only 4 years old.

For the 1521 Texans who received medical-surgical care and the 5,337 who received hospital care, Texas hospitals and doctors received \$404,042.24 last month. Cases were reported not only from the 380 Texas member hospitals, but from faraway Egypt, Mexico.

With the June tabulation of members, Mr. McBee reports: the average Blue Cross family is 2.63 people, and there are twice as many man-and-wife members and seven times as many full-family memberships as there are single-person members.

The procession, representing the victims of accidents for a single year would proceed hour after hour, day after day through the entire duration of National Farm Safety Week and would conclude at midnight Saturday, July 30."

Mr. Noble believes such a spectacle might make America call for a new emancipation — an emancipation that would free future farm citizens from the paths of needless accidents... an emancipation that would keep the farm youth of America safe and happy on the farms, ready and willing to do their part to make America the great nation it should be and can be.

"We can stop farm accidents," Mr. Noble concluded, "only by stopping unsafe practices, as requested in President Truman's proclamation."

O. E. PATTERSON, County Judge.

Improving Quality Of Hogs Pays Off At The Market

Poor quality hogs are usually a drag on the market. They sell for less money and when market conditions are tight, poor quality hogs are graded down severely. Says E. M. Regenbrecht, extension swine husbandman of Texas A-&M College.

Regenbrecht says a hog of poor quality is cold-blooded, long-legged, high-flanked, slow in developing, small-hammed or in other words it just doesn't have what it takes to make a choice animal at six months of age. Improvements have been made but much more can be done, especially with the range hog industry in Texas. Range producers, says Regenbrecht, produce hogs at a low cost and the price of a good boar would not add much to this cost, but the increased prices received for the better pigs would certainly more than pay the difference.

First cross pigs do sell for more money and leaving their ears on also adds to the sale price, he says. A few days ago visits were made to several auction sales, where range raised feeder pigs were sold in large numbers, and the difference paid for poor quality, first cross and good quality pigs and hogs was carefully noted. Regenbrecht reports that coldblooded feeder pigs sold for \$8.00 to \$12.00 per hundred pounds; better marked and better quality feeder pigs sold for \$15 to \$16 per hundred and the extra good ones were going at \$19 to \$20, and the demand for the best was strong. This is a difference of about \$8 to \$11 per hundred pounds and the use of better boars made the difference, he says.

The county agents, vocational agriculture and G. I. agricultural teachers in Texas are interested in doing something about this problem and they can get help from the Texas Swine Breeders Association. The association will work with any individual or organization interested in improving the quality of hogs in Texas.

The fastest way to make range hogs more profitable for the producers, says Regenbrecht, is to put good boars with the range sows and thus produce a better quality feeder pig that can be readily sold on the market. A number of range hog producers are following this practice and they are finding it profitable, concludes Regenbrecht.

**Officers Warned
 Against Jury
 Ban Of Negroes**
 Texas Sheriffs, meeting in an-
 nual convention in Dallas Mon-
 day, were warned that several
 recent Supreme Court decisions
 have wrought radical changes in
 long-established laws for dealing
 with criminal cases.
 "The Supreme Court docket
 now is jammed with hundreds of
 cases in which Negroes seek to
 appeal convictions on the ground
 that there were no Negroes on the
 jury panel which convicted them,"
 Atty. Gen. Price Daniel said.
 Speaking before the 71st an-
 nual convention of the Sheriff's
 Association of Texas, Daniel
 warned the sheriffs to make abso-
 lutely certain that there is no
 systematic exclusion of Negroes
 from jury panels.
 "Negroes must be included in

 viction may be reversed under the
 current Supreme Court holdings,"
 he said.
 A June decision of the court
 concerning confessions taken from
 suspects by police officers also
 will prove revolutionary, Daniel
 said.
 "The Supreme Court reversed
 three murder convictions on the
 basis that the officers used un-
 due persuasion in obtaining con-
 fessions. In no case was the sus-
 pect beaten or mistreated. It was
 held that the periods of ques-
 tioning were too long and that the
 officers voiced implied threats,"
 he said.
 The sheriffs were urged to ex-
 ercise a renewed caution in being
 absolutely certain that the sus-
 pect under questioning did not
 feel that he was intimidated in
 any manner.
 The attorney general also said
 there are entirely too many beer
 cans by the side of Texas high-
 ways.
 That meant, he said, there were
 too many persons driving while
 drinking beer.
 "In recent months" he said, "I
 have passed many cars on the
 highway, in which not only the
 passengers, but the driver also,
 was drinking beer while he was
 driving."
 Daniel said he counted 205 beer
 cans and bottles along the right-of-
 way on a 70-mile stretch from
 Waco to McGregor on a recent
 trip.
 "And the condition, I believe,
 exists all over Texas," he said.

Improving Quality Of Hogs Pays Off At The Market

Poor quality hogs are usually a drag on the market. They sell for less money and when market conditions are tight, poor quality hogs are graded down severely, says E. M. Regenbrecht, extension swine husbandman of Texas A-&M College.

Regenbrecht says a hog of poor quality is cold-blooded, long-legged, high-flanked, slow in developing, small-hammed or in other words it just doesn't have what it takes to make a choice animal at six months of age. Improvements have been made but much more can be done, especially with the range hog industry in Texas. Range producers, says Regenbrecht, produce hogs at a low cost and the price of a good boar would not add much to this cost, but the increased prices received for the better pigs would certainly more than pay the difference.

First cross pigs do sell for more money and leaving their ears on also adds to the sale price, he says. A few days ago visits were made to several auction sales, where range raised feeder pigs were sold in large numbers, and the difference paid for poor quality, first cross and good quality pigs and hogs was carefully noted. Regenbrecht reports that coldblooded feeder pigs sold for \$8.00 to \$12.00 per hundred pounds; better marked and better quality feeder pigs sold for \$15 to \$16 per hundred and the extra good ones were going at \$19 to \$20, and the demand for the best was strong. This is a difference of about \$8 to \$11 per hundred pounds and the use of better boars made the difference, he says.

The county agents, vocational agriculture and G. I. agricultural teachers in Texas are interested in doing something about this problem and they can get help from the Texas Swine Breeders Association. The association will work with any individual or organization interested in improving the quality of hogs in Texas.

The fastest way to make range hogs more profitable for the producers, says Regenbrecht, is to put good boars with the range sows and thus produce a better quality feeder pig that can be readily sold on the market.

A number of range hog producers are following this practice and they are finding it profitable, concludes Regenbrecht.

Officers Warned Against Jury Ban Of Negroes

Texas Sheriffs, meeting in annual convention in Dallas Monday, were warned that several recent Supreme Court decisions have wrought radical changes in long-established laws for dealing with criminal cases.

"The Supreme Court docket now is jammed with hundreds of cases in which Negroes seek to appeal convictions on the ground that there were no Negroes on the jury panel which convicted them," Atty. Gen. Price Daniel said.

Speaking before 200 law enforcement officers at the 71st annual convention of the Sheriff's Association of Texas, Daniel warned the sheriffs to make absolutely certain that there is no systematic exclusion of Negroes from jury panels.

"Negroes must be included in the jury wheels and called for service without discrimination, or an open and shut murder con-

viction may be reversed under the current Supreme Court holdings," he said.

A June decision of the court concerning confessions taken from suspects by police officers also will prove revolutionary, Daniel said.

"The Supreme Court reversed three murder convictions on the basis that the officers used undue persuasion in obtaining confessions. In no case was the suspect beaten or mistreated. It was held that the periods of questioning were too long and that the officers voiced implied threats," he said.

The sheriffs were urged to exercise a renewed caution in being absolutely certain that the suspect under questioning did not feel that he was intimidated in any manner.

The attorney general also said there are entirely too many beer cans by the side of Texas highways.

That meant, he said, there were too many persons driving while drinking beer.

"In recent months," he said, "I have passed many cars on the highway, in which not only the passengers, but the driver also, was drinking beer while he was driving."

Daniel said he counted 205 beer cans and bottles along the right-of-way on a 29-mile stretch from Waco to McGregor on a recent trip.

"And the condition, I believe, exists all over Texas," he said.

Antelope Hunting Season Closed This Year

There'll be no antelope hunting for Texas hunters this fall. The Game, Fish and Oyster Commission today ordered the season closed indefinitely because dry weather had taken a heavy toll of West Texas antelope herds.

In recent years, there has been a limited season on antelopes, with a bag limit of one for Texans who came up with lucky numbers in a draw.

A resolution setting the effective date of the Lake Texoma reciprocal fishing license law at Jan. 1, 1950 was adopted. Present licenses will run until that time. Meanwhile, Game Warden Commissions of Texas and Oklahoma will work out financial and other arrangements.

Carrying out other legislation enacted by the 51st Legislature, the Game Commission set the quota on commercial fishing boats in Texas waters at 1550.

The commission also made recommendations to the U. S. Fish and Wildlife Service for changes in Texas hunting seasons. Changes, if made, will be ordered by the Federal agency.

The Commission recommended that north zone season on mourning doves run from Sept. 1 thru Oct. 15 and that the south zone season run from Oct. 1 through Nov. 15. This would move up the south zone hunting period 15 days.

The season on white wings will remain the same as last year, September 16, 18, and 20. Hunting time will be from 4 p.m. to 6 p.m. daily on hunting days.

The Commission also recommended a split season on ducks and geese. The first part will be from Nov. 4 through Nov. 20, and the second from Dec. 23 through

Cerebral Palsy Clinic Date Set August 15th

The Cerebral Palsy Treatment Center will hold a clinic for the examination of cerebral palsied children on Monday, August 15. Dr. Charles B. Sadler, Amarillo and Dr. E. T. Driscoll, Plainview will examine patients.

The Treatment Center, which was opened August 23, 1948, is sponsored by the Lubbock Crippled Children's Society and the Lubbock Rotary Club. To date 188 cases have registered at the Center for care. Children and parents report to the Center once or twice each week for care where the child and parents are taught an exercise program to carry out at home.

At present the Center is housed in a building at 1317 Tenth St. and plans are underway for the construction of a new Center. Over \$45,000 in money and \$5,000 in equipment have been donated. An additional \$5,000 is needed to assure the full cost of the building. The new building, construction of which will be started within a few weeks, will provide facilities for a speech therapist, an occupational therapist, a physical therapist, two treatment rooms, a waiting room, a functional training room, storage space, etc.

Cerebral palsy is a condition which may be present from birth or may be caused by childhood diseases as whooping cough or measles, or by head injuries. Under treatment many of these children improve to the extent that they can care for themselves, attend school and become employable. There is no known cure for cerebral palsy at this time and the aim of treatment is to obtain the maximum improvement possible and to teach the child to live with his handicap. Treatment begun at an early age is most effective.

Parents interested in bringing children to the clinic on August 15 are requested to register the child at the Center at some time before the clinic date. Further information may be obtained by

Engineers Give Answer to Problem of Texas Weather

Faced with the ups and downs of Texas weather, engineers have produced a new motor oil that stays thin for easy flowing in cold weather, yet stays full-bodied and tough on hot days. The new product, Humble Esso Extra Motor Oil, has the highest resistance to temperature changes of any motor oil in Texas, or any-

where else, according to Humble Company technicians. The technical name for this quality is high viscosity index; Humble scientists add that high viscosity index is a good guide to high motor oil quality. Humble station salesmen are urging customers to drain dirty, diluted oil and refill with new Esso Extra Motor Oil for extra protection. Adv.

Josset HD Club Has Meeting With New Agent

Josset HD Club met at Club house on July 12th at 2:30 o'clock with 11 members, two visitors and the agent present. Mrs. C. C. Carrol was hostess and Mrs. Jim Perrin, presiding.

Council report was given by Mrs. T. W. Jetton. After the business meeting our agent, Mrs. Howle, gave a demonstration on taking care of flowers in summer time. Every one was happy to have our new agent meet with us. The club had an ice cream supper in the home of Mr. and Mrs. C. C. Carrol on Thursday night. Everyone had a wonderful time. Our next meeting will be on July 26 at club house. Refreshments of home made ice cream and cake were served to the following:

O'NEAL'S RECIPE OF THE WEEK

by Mary Lee Taylor

Coconut Icebox Pie

Broadcast: July 23, 1949

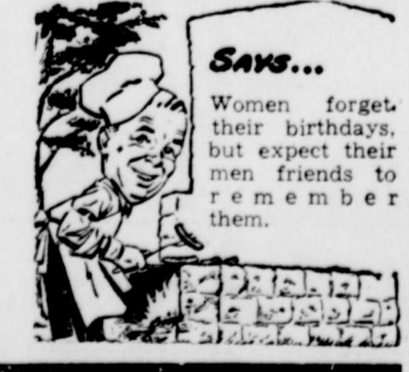

16 large graham crackers	1/4 teaspoon salt
1/4 cup soft butter	1 cup Pet Milk
or margarine	1 cup boiling water
1/4 cup sugar plus	3 eggs, separated
2 tablespoons cornstarch	1 teaspoon vanilla
	1/2 cup shredded coconut

Grease deep 9-in. pie pan. Roll crackers into crumbs. Mix butter into crumbs and 1/4 cup sugar. Press mixture firmly on bottom and sides of pan. Bake in moderately hot oven (400° F.), 10 min.; cool. Reduce oven to slow (225° F.). While crust bakes, mix 1/4 cup sugar with cornstarch and salt. Stir in measure of milk and boiling water. Cook and stir over boiling water until thick and smooth; cool 10 min.; mix into slightly beaten egg whites. Cook and stir over boiling water 5 min. longer. Cool; add vanilla. Pour into crust. Beat egg whites until stiff, but not dry. Beat in remaining 6 tablespoons sugar. Put on pie, spreading to very edge of crust. Sprinkle with shredded coconut. Bake 15 min., or until light brown. Chill.

American Legion Posts To SLI Dividend Payment

Members of the American Legion posts throughout the nation are assembling staffs and facilities to place the application blanks in the hands of veterans and also to assist them in the filling out process. Information required for applying for the dividends includes name, address, service number, and insurance policy numbers. The Legion advised veterans to keep in touch with their local Legion posts for further details on the program and the dates when forms will be available from the posts.

Caravan Planned As Goodwill Trip To Old Mexico

A "Friendship Caravan" to Mexico City, open to all residents of Texas, is being organized to take place in September, when the travelers will participate in the celebrations of Mexican Independence Day and will be formally honored by the Mexican government. Expected to be one of the largest goodwill visits ever made to Mexico, the trips' headquarters has been established in San Antonio. Point of departure will be Laredo, on September 8. The journey will be 10 days. The trip will be made in special air-conditioned Pullman trains. One of the many highlights in Mexico City will be a presidential banquet to be given in honor of the visitors by President and Mrs. Miguel Aleman at the Casino Militar on Sept. 14. Other dignitaries of the Mexican government will also be present. The Foreign Relations Committee of the San Antonio chamber of commerce has endorsed the trip as a worthy goodwill visit. The committee this week launched plans for filing two or more cars in a special train, under the direction of Leroy G. Denman, Jr., its chairman. It is expected that other chambers in the state will make similar plans. Gustavo Ortiz Hernan, former consul general of Mexico in San Antonio, is director of the "Friendship Caravan." Raoul Cortez, president general of LULAC, is chairman of the Caravan committee and Denman is co-chairman. Literature on the trip may be obtained from the "Friendship Caravan" office, 203 Insurance Building, San Antonio 5.

Fight Against Polio Intensified As Toll Hits Record Peak

With the alarming total of 922 Texans having been attacked by the dread disease poliomyelitis, 1949 bids fair to be the worst polio year the State has ever experienced, and health officials in every section of the States are exerting every effort to bring the disease under control. Dr. Geo. W. Cox, State Health Officer, has reiterated his appeal for every citizen to cooperate in a continuous clean-up program, ridding their premises of all rubbish and trash piles, and any such filth as will afford breeding places for flies and other disease-spreading insects. "This polio situation will never be controlled without the observance of stringent basic sanitation measures," the State Health Officer declared. "The filth on your premises may cause the disease to attack your neighbor; and the same condition on his premises may cause polio in your home. This problem of controlling polio is one demanding the closest possible cooperation, and until a program of continuous clean-up is instituted and stringently enforced, we shall continue to face the menace of polio in all sections of the State."

Dr. Cox emphasized to parents whose children are suffering from poliomyelitis, the comforting knowledge that about 60 per cent of all cases of recognized polio recover completely, and at least 25 to 30 per cent of recognized cases recover with only minor disabling paralysis. "Only about 8 per cent of polio victims develop the deadly bulbar type, which affects the nerves at the base, or 'bulb' of the brain," Dr. Cox said. "Most patients suffering from bulbar polio die within a very short time. But it is a comforting thought that 92 per cent of polio patients never develop bulbar polio, and make a partial, or in many cases, complete recovery and are restored to health."
