

Clean-Up Edict Issued As Plans Fight Against Polio

Appearance of infantile paralysis last week, Mayor L. F. Taylor issued a clean-up edict to the city.

Burlington Lines Seek to Discontinue Wichita Valley Passenger Train Service

Action of the Wichita Valley Railway in asking permission from the Texas Railroad Commission to discontinue passenger service on its line from Wichita Falls to Abilene, is expected to meet little opposition from Haskell unless the proposed curtailment is shown to be detrimental to Haskell or neighboring towns served by the Wichita Valley.

First Polio Case Is Diagnosed Here This Week

Haskell's first case of polio was diagnosed Tuesday, when Norma Jean, 9-year-old daughter of Mr. and Mrs. J. B. Glosson was pronounced suffering with the malady by physicians in Hendrick Memorial Hospital, Abilene. The little girl, a third grade student in Haskell schools, was taken to Abilene Tuesday morning on advice of the family physician, after she had developed symptoms of the disease. Her right leg was affected, and her physician estimated she had been suffering polio several days.

Grand Jury Is Recalled To Meet Friday

Members of the 39th District Court Grand Jury, in recess for the past several weeks, have been recalled to meet Friday morning at 10 o'clock, District Attorney John A. Banks said today.

Florence Insurance Agency Moves To New Location

Office of the L. T. Florence Insurance Agency was moved this week from the second floor of the Oates Bldg., to new quarters in the Tonkawa Hotel Bldg., at 104 South Ave. E., where additional space is provided for expanding facilities of the agency. Leonard T. Florence, owner and manager of the concern announced.

Rites Held Friday In Rule For Mrs. Harmon Swinney

Funeral rites for Mrs. Harmon Swinney, 36, Rule resident, who died Thursday, July 21, were held at 10 o'clock Friday morning in the First Methodist Church of Rule.

Revival At Jud Baptist Church Begins Aug. 5

The Missionary Baptist Church at Jud has announced a Summer Revival Meeting which will begin Friday night, August 5th and continue through Sunday, August 14th.

Returns To Home Accompanied By Sister

Mrs. Roy Weaver of Orosi, California, who has been visiting relatives here for the past three weeks returned to her home last Saturday. She was accompanied home by her sister, Mrs. W. E. Welsh, for a visit. Mrs. Weaver has daughters, Mrs. Olen Dotson and Mrs. Stanley Furrh, took them to Sweetwater, where they left on the trip by train.

They were: Noble Grand, Bertie Waggoner; Vice Grand, Delia Ashley; Chaplain, Jewel Perdue; Musician, Emma Watson; Warden, Sybil Grace; Conductor, Mary Kingston; R. S. Noble Grand, Callie Robison; L. S. Noble Grand, Fay Self; R. S. Vice Grand, Trudy Wheeler; Inside Guardian, Essie Blain.

Burton-Dotson Make Improvements on Used Car Lot

Burton-Dotson Chevrolet Company have completed a substantial improvement project on their used car lot, adjoining their building on North 1st Street one block west of the square.

HASKELL COUNTY HISTORY

Brief Items Taken from Old Copies of The Free Press

20 Years Ago—July 25, 1929

Trav Everett and family, who have been living in Stamford for the past several months, have moved back to Haskell and Mr. Everett has accepted a position in the West Side Barber Shop.

Work was started this week by Mart Clifton, contractor, on a new water well for the city. It is located just south of the square, on the same lot with the well completed three years ago.

Mr. and Mrs. W. A. Holt and little daughter, Martha Jane, of Weibert were in the city Monday.

Floyd King is putting in a case in the new Guinn building at Sargent and expects to open for business Saturday of this week.

Tom Britte, farmer living east of town, reports that bolls are opening on quite a bit of his early planted cotton, and believes enough will be open within the next week for him to gather a bale.

Miss Lela Welsh is in Houston, where she is visiting in the home of her brother, Dr. and Mrs. Hugh C. Welsh.

Miss Elizabeth Gilbert is spending the week in Seymour, visiting her brother, Morris Gilbert and family.

Mr. and Mrs. Dennis Ratliff had as guests in their home during the week end, a brother of Mrs. Ratliff, and his family, Mr. and Mrs. Otis Golden of Fort Worth, Marvin Cobb and R. A. Gilles-

pie of the Cobb community were in this city Monday on business. They report an inch and a half of rain in that section last week.

Mr. and Mrs. R. D. C. Stephens, and Mrs. Carl Maples and daughter, Madeline, have returned from a trip to the Ozark Mountains. They visited in Fort Smith and Fayetteville, Ark., and in Dallas and Denison while away.

40 Years Ago—July 24, 1909

Dispatches in daily newspapers tell of a 65-mile hurricane which has been raging in the Gulf. Water was reported pouring a foot over the Galveston seawall in at least two low places, causing a tremendous property damage which may run as high as \$1,000,000, but no lives have been lost.

Mr. and Mrs. S. A. Yarbrough left Thursday for Hamlin, where they will make their future home. H. Weibert and J. E. Robertson of the thriving little city of Weibert were business visitors here Thursday.

The City Board of Aldermen met Monday, and among other business transacted awarded the contract as superintendent of the city water and sewage system to Haynes Hambleton.

Mark Whitman has returned from Mineral Wells, where he has been at the bedside of his father.

Postmaster John B. Baker made a business trip to Ovalo the first of the week.

T. B. Russell of the firm of Casson, Cox & Co., left Monday for Aransas Pass, where he joined Mrs. Russell, who has been visiting her parents at that place.

N. McNeill of McNeill & Smith Hardware Company has returned from the Gulf Coast, where he spent several days with a party of friends fishing.

Fred Hicks, brother of W. S. Hicks of this city, came in from California on a visit Monday.

J. U. Fields, accompanied by Misses May and Annie Fields, left Saturday to visit the Seattle Exposition. They will also visit Salt Lake City, San Francisco, and Los Angeles, Calif.

Judge S. W. Scott made a professional trip to Anson Wednesday.

John Therwanger of the Weibert section was in town Thursday. He reports that after all the storm, hail and other calamities he got 900 bushels of wheat from 100 acres of land. He also has a large acreage of oats to thresh that will turn out equally as well.

50 Years Ago—July 29, 1899

Miss Ethel Alexander returned Tuesday from her visit in Graham.

Grigsby Mathis, while riding out last week saw a large rattlesnake going into a dog hole, and alighting from his horse seized it by the tail with the intention of popping its head off by a quick twirl, a feat he had often accomplished. But for once the snake was too quick for him and bit him on the right hand. It was an hour or longer before he went to a physician, but in the meantime he corded his wrist and cut open the wound and got some of the poison out. His hand and

No. 1349 IN THE COUNTY COURT OF HASKELL COUNTY, TEXAS

In the matter of the Guardianship of Elton Crow, et al, minors. To all Persons interested in the estate of Florene and Lorene Crow, minors:

Notice is hereby given that on the 26th day of July, 1949, I, acting as guardian of the persons and estate of Florene and Lorene Crow, both minors, filed with the County Clerk of Haskell County, Texas, a sworn application for authority to make an oil, gas and mineral lease on an undivided two-fifths (2/5) interest in the following described land situated in Dawson County, Texas, to-wit: The West 60 acres of the NW 1/4th of Section 10, Block 35, T. 3-N, R. 2-P E. Co. Survey, Dawson County, Texas.

Such application is owned by said minors subject to a life estate in one-sixth thereof owned by me.

Such application will be heard by the County Judge of Haskell County, Texas, in the County Courtroom in the Courthouse of said county, in the city of Haskell, Texas, on the 8th day of August, 1949, at 10:00 o'clock a. m.; same being the time and place which has been designated by said Judge as the time and place when and where such application will be heard.

WITNESS MY HAND this 26th day of July, 1949.

MRS. H. L. CROW, Guardian of the Persons and Estate of Florene and Lorene Crow, minors.

30-1tc.

arm have been badly swollen, but he is recovering from the bite.

From the size of the crowd that attended the Mollie Bailey show here Tuesday night we are warranted in saying that Haskell was show hungry. It was a pretty good 25 cent show, but almost a duplication of their performance here a year ago.

G. M. Clayton of Wilbarger county, who bought 1076 acres of land a few miles north of town about a month ago, is here now to begin improvements on the tract.

Jim Hale of Eastland, who has been visiting relatives here for several weeks and doing some cattle trading to make time interesting, left Thursday for his home. Dr. Hahauffey has bought R. M. Dickenson's place, near Mr. McLemore's at a consideration of \$700.

Miss Minnie Jones is visiting friends in the Ample neighborhood this week.

Mrs. Walter Johnson of Marlin came last week on a visit to her parents, Mr. and Mrs. C. C. Frost. Misses Minnie Lindsey and Eula Hudson left this morning for Albany, where they will visit for a few days.

Mrs. J. S. Rike and daughter, Miss Lillie, went to Graham Monday on a visit to Mrs. Hall Morrison.

F. M. Morton and Joe L. Ferguson, who have been in partnership for a number of years, conducting a pretty extensive livestock and ranch business, have dissolved their partnership. Mr. Morton retains the ranch in this county and will continue in the stockraising business but we understand that Mr. Ferguson will seek a location elsewhere, probably in New Mexico.

Counties To Learn Share In Road Funds This Week

Haskell and other counties in this area will find out this week just how much they will get in the way of roads out of \$30,000,000 allocation of funds made by the 51st legislature for rural road construction.

The state highway commission will meet Thursday and Friday at Austin in its regular monthly meeting, and everything is set for the announcement of the full two-year rural road program authorized by the Colson-Briscoe bill.

Preliminary reports on the program indicate that the commission will scatter the first \$30,000,000 throughout the state with plans for construction in about 200 of the 254 counties. An estimated 3,600 miles of rural roads will be built in the two-year program.

The detailed program to be announced by the commission is the end result of several months of groundwork. It started with the district highway engineers conferring with county commissioners' courts to determine which roads the commissioners thought should take first priority in the new program. On the basis of these conferences, the engineers from the 25 highway department districts submitted to the commission their recommendations. In the state office, the district recommendations were revised to bring them into line with available funds, and then the whole business was submitted to the commission for its consideration.

In the final analysis, the commission must consider the necessity for the roads, the relative isolation of the communities involved, the number of people to be served, and other such factors. Included in the new program will be some existing roads which will be taken over for maintenance and added to the state's system. In other cases, unpaved county roads will be taken over and paved. In many instances, ample right of way already will be available, and construction can get under way fairly soon.

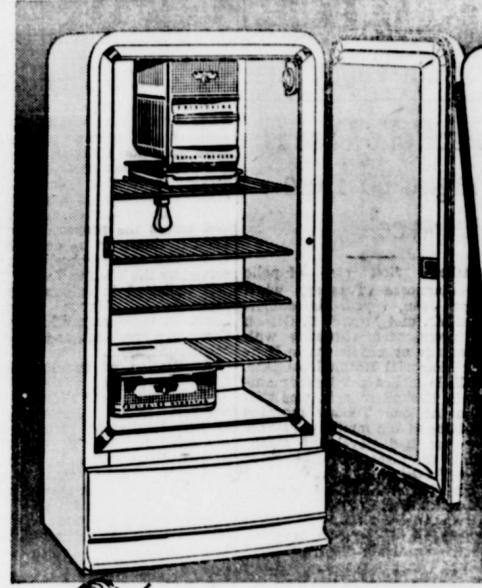

Department sources indicated today that they thought the department would be ready to start actual construction immediately after the first monthly allocation of \$1,250,000 becomes available Sept. 1. Bids can be advertised and contracts let even before that date.

Construction under the new program will be strictly a state proposition, although the counties must furnish all right of way. No federal funds are involved.

Indiana Honors

state's junior to enroll in the Vegetable Growers of Texas is to establish the past few to J. F. Rosborough, horticulturist junior growers, membership stand- dropped into position a few

days ago when Indiana took the lead. Mr. Rosborough explained that the unexpected increase in Hoosier membership more than doubled the number of Indiana growers who competed for A&P Food Stores' \$6,000 in awards and scholarships last year. The awards are offered to outstanding performers in the association's Production - Marketing contest which is designed to educate the nation's young farmers in modern and efficient methods for producing and marketing vegetables.

Rosborough, who heads the N-JVGA program in Texas, pointed out that the state can regain leadership if unenrolled junior growers will obtain membership cards

at once. Boys and girls between 14 and 21 years of age are eligible for membership and may obtain necessary application forms by writing to J. F. Rosborough, extension horticulturist, College Station, or by contacting their county 4-H Club agent.

Texas had five winners in the national Production - Marketing competition last year. They were Doris Marie Prater, Lubbock; Myrlos Waters, Rio Hondo; Margie Fogle and Josie Slaughter, both of Marshall; and Sally Jane Fitzgerald, Chireno.

Farm people lost 17 million days from regular activities because of accidents in 1948 an average of 20 days per accident.

State Ad Valorem Tax Rate Is Set At 72 Cents

The state ad valorem tax rate for 1949 will be fixed automatically at 72 cents on the \$100 valuation by the state tax board in Austin.

This represents a 30-cent increase over the property tax rate of last year. The automatic tax board performs the routine act of setting the rate, which the 51st Legislature made compulsory for the next two years.

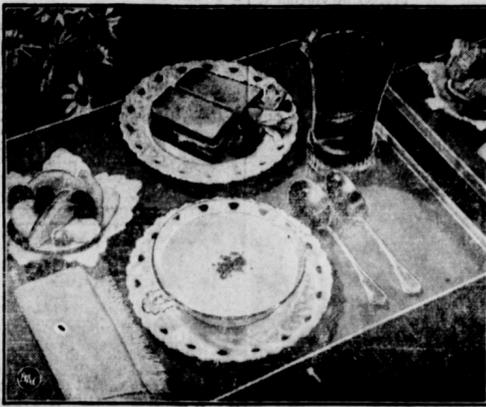

The 30-cent additional levy is for general revenue purposes. The remainder of the 72 cents is collected for specified purposes: 35 cents for the state school fund, 5 cents for the college building fund, and 2 cents for the Confederate pension fund. Thus, if you paid \$8.40 in state taxes on property assessed at \$2,000 last year, you will pay \$14.40 on the same valuation this year.

By constitutional amendment, Texans voted last November to discontinue the 30 cent general ad valorem tax after 1958. However, they authorized counties to levy that additional amount thereafter for soil conservation, flood control or road building purposes.

Prior to the legislature's making the tax levy compulsory for 1949 and 1950, the automatic tax board levied the tax only when it appeared the revenue would be needed to help cover appropriations.

Statistician Ballard Clark of

Summer's Time for Chilled Soups

TEMPTING fare for summer meals, as well as being a smart bit of meal come-on, are soups served ice cold. During the last few years these chilled soups have become popular summer first courses, and deservedly so. They are nourishing and refreshing and may be made so easily.

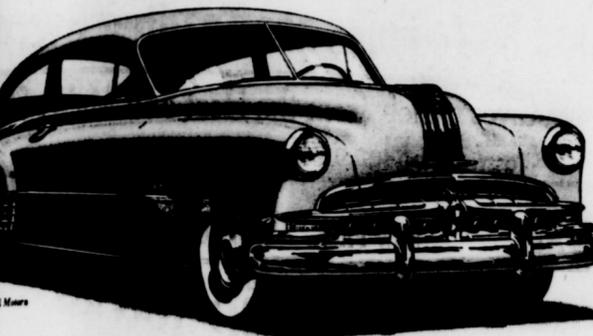

The cream soups such as celery, chicken, asparagus, green pea or spinach . . . to name only a few . . . are good for chilling. Since

canned soups are called for, the preparation steps are simple.

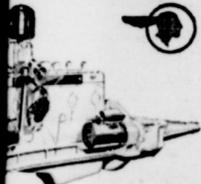

To one can of the condensed soup, gradually add one cup of iced water or milk. Mix thoroughly with a spoon or beat with a rotary beater. Let stand one hour in refrigerator to develop the flavor. Garnish with chilled chives.

A quick luncheon menu for impromptu summer entertaining includes a chilled cream soup, toasted sandwiches with cottage cheese filling, a fruit cup and iced tea.

49 PONTIAC

red by the World's Sweetest Engine!

Perhaps the most impressive thing about driving a new Pontiac is that sure sense of having more than enough power at your command always.

You'll feel it whenever you touch the accelerator—a smooth, effortless flow of power. And it's yours whether you are driving a great Pontiac straight eight or its equally famous six-cylinder companion.

Whichever you choose, you can be sure that you are driving one of America's most modern engines and one of its most proved. For the basic design of Pontiac power plants has the approval of more than two million owners.

Its engine is just one of the reasons why you should be driving a Pontiac—come in soon, we'll show you many more.

the Comptroller's office estimated the 72-cent rate will bring 28,100,000 of which approximately \$4,250,008 will be remitted to counties for various purposes.

GEMS OF THOUGHT

No man ever did, or ever will become most truly eloquent without being a constant reader of the Bible, and an admirer of the purity and sublimity of its language. —Fisher Ames.

The hearts of men are their books; events are their tutors; great actions are their eloquence. —Macaulay.

KITCHEN MEMO

Growing children need vitamin packed food for between-meal snacks. Old-fashioned Oatmeal Cookies contain molasses rich in iron and the oatmeal is loaded with Vitamin B. Cream 1/2 cup shortening and 1 cup sugar together. Add 2 tsps. vanilla and 2 eggs, one at a time beating well after each addition. Add 1 tbsp. molasses and 2 tsps. soda which has been dissolved in 1 tsp. water. Sift 1 cup flour, 1 tsp. cinnamon, 1 tsp. salt and add to mixture. Stir in 2 cups oatmeal, 1 cup raisins, 1/2 cup chopped walnuts. Drop from a teaspoon on ungreased aluminum cookie sheet. Bake in preheated gas oven at 375° F. Yields 4 doz. cookies.

There's much more fatigue in drying than washing clothes because of the 45 lbs. of wet wash to be carried out to the line, hung to dry later taken in and sprinkled for ironing. A gas dryer automatically eliminates all this back-breaking drudgery.

Children's treat: Skewer bananas on wooden sticks, dip in melted semi-sweet or milk chocolate. Freeze in cube compartment of your gas refrigerator.

There are 5,000,000 working wives who have families to cook for. Many of them prepare oven meals ahead of time, set the clock control on their gas ranges so they'll be free to do other household tasks while the meal cooks without watching.

A pastry brush is a handy kitchen accessory. For example, when making a gelatin dish, brush the mold with salad oil so that when set, the gelatin slips out easily.

THE STATE OF TEXAS

TO: David C. Hughes, whose place of residence is unknown, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 8th day of August, A. D. 1949, at or before 10 o'clock A. M. before the Honorable District Court of Haskell County, at the Court House in Haskell, Texas.

Said plaintiff's petition was filed on the 24th day of June, 1949. The file number of said suit being No. D-1208. The names of the parties in said suit are: Allene Hughes as Plaintiff, and David C. Hughes as Defendant.

The nature of said suit being substantially as follows, to wit: That she is and has been for a period of twelve months prior to filing the petition herein an actual bona fide inhabitant of the State of Texas and has resided in said county of Haskell for at least six months next preceding the filing of this petition; that on or about the 4th day of March, 1935,

in Knox County, Texas, plaintiff was lawfully married to the defendant; that they continued to live together as man and wife until on or about the 1st day of July, 1937, since which time they have not lived together as man and wife.

Plaintiff alleges that she and defendant have lived apart without cohabitation since July 1st, 1937, the same being more than ten years.

Plaintiff says her maiden name was Allene Wheeler and it would be to her best interest to have

her maiden name restored. If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 24th day of June, A. D. 1949.

Given under my hand and seal of said Court, at office in Haskell, Texas, this the 24th day of June, A. D. 1949.

(SEAL) JESSE B. SMITH, Clerk, District Court, Haskell County, Texas.

Accidents Cause Huge Time Loss To Farmers

One resident out of every six farms in this country had an accident involving one day or more lost from regular activities during 1948.

Were you one of the injured? If you were, says F. W. Martin, county agent, you know what it costs to be out of circulation for a few days.

Farm people, last year, spent 36 million dollars for medical dental and hospital care because of injuries and this does not include the cost of accidents to those who were killed, or who

suffered permanent disabilities; or costs other than those resulting directly from the care of injuries. Insurance covered about one-fourth of the medical costs.

The big cost, says Martin, was the 17 million days lost from regular activities. Accidents always seem to happen when you are busiest and are needed most. This is the time, he adds, when you should be most careful. Don't rush a job—the mistake you save may cost much more in time lost if something goes wrong.

The most common causes of farm and home accidents are falls, machines, animals, motor vehicles, handling objects, hand tools, stepping on or striking against objects, falling and flying objects and burns or shock. It's easy, says

Martin, to find plenty of stars in your neighborhood left there by one or more of these causes.

Martin suggests that a community-wide project be started to clean up and eliminate these accident hazards. You'll be proud to live in a community that can boast of having no serious farm or home accidents or fires during the year. You and your neighbors can do just that, concludes Martin, if every citizen, young and old will make it his or her responsibility to remove causes and then be careful and thoughtful every minute. This will develop a community attitude that can make your farm and home the safest place on earth.

Better Varieties Of Wheat Available To Area Farmers

The acreage of hard red winter wheats has expanded in recent years into the North Central area of the state as better varieties have become available, says J. E. Adams, head of the Texas A&M College department of agronomy. Either hard or soft red winter varieties may be grown in the area north of Dallas - Ft. Worth but only rust resistant varieties or very early maturing ones should be grown in the Rolling Plains area.

Results of recent tests by the Texas Agricultural Experiment Stations in the northern part of the Rolling Plains show that of the early maturing varieties of hard wheats, Wichita is recommended because of its better baking qualities. Triumph is about two days earlier than Early Blackhall. The grain of Triumph is of good test weight and of approved quality for general purpose flours. The early maturing varieties are at highly susceptible to rust but usually escape serious injury because of their earliness.

In the group of later maturing hard wheats, Comanche and Westar are similar in appearance, although Comanche is often shorter and slightly earlier. Comanche is resistant to bunt and both varieties are slightly earlier. Comanche is resistant to bunt and both varieties are moderately resistant to leaf rust. Both are susceptible to stem rust and loose smut, and both produce flour of high quality for commercial baking.

The soft red winter wheat varieties Red May, Denton, Fultz, Mediterranean and Austin have not yielded as well as the better varieties of hard wheat at the Denton and Greenville stations. The research workers suggest that recommended hard wheat varieties be substituted for them. These wheat variety tests were conducted under the supervision of Superintendents J. Roy Quinby of the Chillicothe station; L. E. Brooks, of the Iowa Park station; D. I. Hooten, of the Greenville station; R. F. Dickson, of the Spur station; J. R. Johnston, of the Temple station and D. I. Dudley and agronomist and small-grain research leader I. M. Atkins, of the Denton station.

The county extension agents or the nearest Experiment Station can supply the per acre yield figures for the varieties tested. It is given in a May 1949 Texas Agricultural Experiment Station progress report. They also have information on the prevention and control of leaf rust, stem rust, stinking smut and loose smut.

FOOD FOR THOUGHT

A well-known breeder in discussing his farm operations said: "My purebred cattle are the only thing on the farm today on which I can set my own price." There is meat in that statement.—Southern Planter.

Marital Rate In Nation Off For Lack Of Victims

The war got so many Americans married that the United States marriage rate now is rapidly declining for lack of unmarried people.

This is explained in a statistical bulletin of the Metropolitan Life Insurance Company. In the big year, 1946, nearly 2,300,000 Americans got married. This year there will be only about 1,600,000, and this is a 12 per cent decline from last year.

The reason is not that folks are no longer as eager to marry. The men are trying just as hard as in the big post war year. The rate at which the still eligible men are

marrying this year is about the same as in 1946. But there are a lot less eligible men now, because so many were married in the war period.

The women, so far as statistics show, are not less eager to marry. But the eligible women are unable to make as good a showing because there are nearly two million more of them than men.

What the country seems to need is more men, or at least men who take better care of their health. More boys than girls are born in the United States every year. They outnumber the girls until the early twenties.

Then, because more girls live, the women catch up. By middle life there are more women than men in the United States, and so it remains to the end.

The statistical studies add a

special bouquet to marriage. People who have been divorced remarry at a higher rate than those who haven't had any marriage

experience. They marry at a higher rate but that may be aren't enough

On your vacation trip... stop for an afternoon at Baytown

If your vacation leads you down our way, you'll find a visit to Humble's Baytown refinery a highlight of your trip. It is one of the great oil refineries in the world, processing about 200,000 barrels of crude oil daily into such diverse products as gasoline and asphalt, motor oils and insecticides.

Tours of the refinery start at 2:00 p.m. every day. First, you find out what you're going to see; then you're taken on a comfortable bus tour of the plant with a guide to tell you what goes on. The children are welcome.

A visit to Baytown will give you a glimpse of the results of scientific research by the oil industry; for unless you see a modern refinery, you'd never suspect that it can break up crude oil molecules and reconstruct them into other molecules of wider service to you in your daily life... A visit to Baytown will show you how the petroleum industry supplies many of the necessities of modern living, and how energetically the industry works to supply them.

For throughout the United States, oil refineries like Baytown work night and day to supply you with petroleum products of continuously improved quality and continuously increased diversity.

HUMBLE OIL REFINING CO.

More than six thousand men and women work in shifts 24 hours a day at Baytown to help supply your needs for petroleum products.

If you can't visit Baytown in person, ask for a copy of this book; address your request to

More Meat, Less Wheat, Goal Of New Farm Program

A 1950 production program calling for less wheat but more meat animals and dairy products was laid before the nation's wheat farmers by the government this week.

A declining foreign market for wheat makes it advisable. Secretary of Agriculture Brannan said that farmers plant 14,000,000 fewer acres to wheat for 1950 harvest than the nearly 83,000,000 acres of this year's crop.

The acres taken out of wheat should be put to grass and pasture for grazing of beef and dairy cattle, sheep and lambs, he said, because consumers need more of the latter products.

Under the 1950 program each farmer will be given a share of national wheat planting allotment of 68,900,000 acres. His share will be based upon his past production history. While the allotment is about 17 per cent below this year's acreage, the reduction for individual farmers will vary somewhat from this national av-

Summer Fun

Katherine Bassett, Dallas, plays at White Rock Lake, one of her city's summertime diversions, as she urges her neighbors of the Southwest to come to Dallas for a week-end holiday or vacation. "Dallas Invites You" is the name of a civic hospitality program to help visitors to Dallas obtain hotel rooms, go sight-seeing and have fun. The committee, headed by Mayor Wallace Savage, has its headquarters in the Chamber of Commerce building.

Summer Thirst Quenchers Help to Forget Heat

You can't do much about the hot summer weather, but you can do many things that might make the heat a little less annoying, says Lucille Shultz, associate extension foods and nutrition specialist of Texas A&M College.

One way to beat the heat is to serve the right kind of summer drinks and of course this calls for iced drinks. Fruit and vegetable juices of all kinds are good, but the acid ones are especially good when used alone or in combination with the sweeter juices, adds Miss Shultz. Sweet foods give more heat so don't use too much sweetening. Tart juices give more flavor to the drink.

Miss Shultz says the hostess

who can serve something a little different is almost sure to enjoy a rise in popularity, and here's a tip that may help you. Keep some sugar syrup in the refrigerator at all times for sweetening drinks. It is easy to make. Mix 2 cups of water and 3 cups of sugar and boil for three minutes then you can add 1 3/8 teaspoons of cream tartar to prevent crystallization.

Don't forget the refreshing drinks that can be made from good cold milk. They are not only nutritious but are also just plain good for you. Chocolate milk is a favorite, others may prefer a milk shake or a good thick malt. Cold milk alone is hard to beat.

Your local county home demonstration agent will be glad to supply you with recipes for making summer drinks that will be enjoyed by the entire family.

Haskell Students Attend Summer School At H-SU

Among the new summer school students who have enrolled at Hardin-Simmons University for the second six weeks semester are three students from Haskell. They are Ray Robert Overton, Vivian Curtis Roberson, and James Strain, Jr.

Overton is doing graduate work at the university. He is the son of Mr. and Mrs. Ray R. Overton, Sr.

Mrs. Roberson, daughter of Mr. and Mrs. W. P. Curtis and wife of Thomas B. Roberson, is a senior.

Strain, Jr. is the son of Mr. and Mrs. J. H. Strain, Sr. He is a sophomore at the university.

Nineteen fields of study are being offered during the summer at H-SU. The courses include those in art, Bible, biology, business administration, English, chemistry, education, psychology, French, government, history, physics, journalism, mathematics, physical education, radio, Span-

ish, speech, and music. A three weeks term of instruction will begin Monday, August 22. Commencement will be Friday, August 19. The tenth annual school for band directors and band members will be held August 15 to 27. Director Marion B. McClure has announced.

State Pays \$4.00 On Per Capita Apportionment

State school superintendent L. A. Woods announced from Austin Tuesday the release of a \$4 per capita apportionment payment of the state available school fund. This payment, totaling \$6,069,450 is based on a census of 1,534,831 scholastics in Texas.

Haskell county, with 3,313 scholastics listed on school census rolls, will receive \$13,252, county superintendent, Mrs. Iva Palmer, estimated.

This is the eleventh payment on the \$5 per capita authorized for 1948-49, and makes total of \$2 per capita portioned to date. The next payment will be made in August.

erage. Areas which greatly expanded their acreages since the war will take a larger cut than others.

Compliance with an allotment is not required by law. However, only those farmers who do comply will be eligible for direct price support aid on their 1950 wheat. The price support program is expected to assure complying farmers an average of about \$1.85 a bushel.

Failure of farmers to comply, Brannan said, might well bring on a glutted wheat market, disastrous price breaks and an undue burden on the price support program.

Furthermore, he said, overplanting of the allotment might force the government to invoke rigid marketing quotas on the grain in later years. Quotas put a mandatory limit on the quantity a farmer can sell, except on payment of a penalty equal to about half the support rate.

But for a reduction in this year's wheat crop prospects during June due to unfavorable weather, quotas would have been proclaimed for the 1950 crop, the secretary said. Nevertheless, the 1949 crop is now indicated to be the third largest of record.

Brannan said farmers must not mislead themselves into thinking that they have an unlimited market for all the grain they can produce. Big postwar foreign markets, which were based upon shortages in devastated areas, are shrinking, he said.

IT'S WORTH MORE today than ever before. And that's dangerous! Dangerous because that new high value calls for MORE insurance protection. You can lose plenty, if you're underinsured!

Mrs. Howard Sloan Hostess For Meeting Of V-W Club

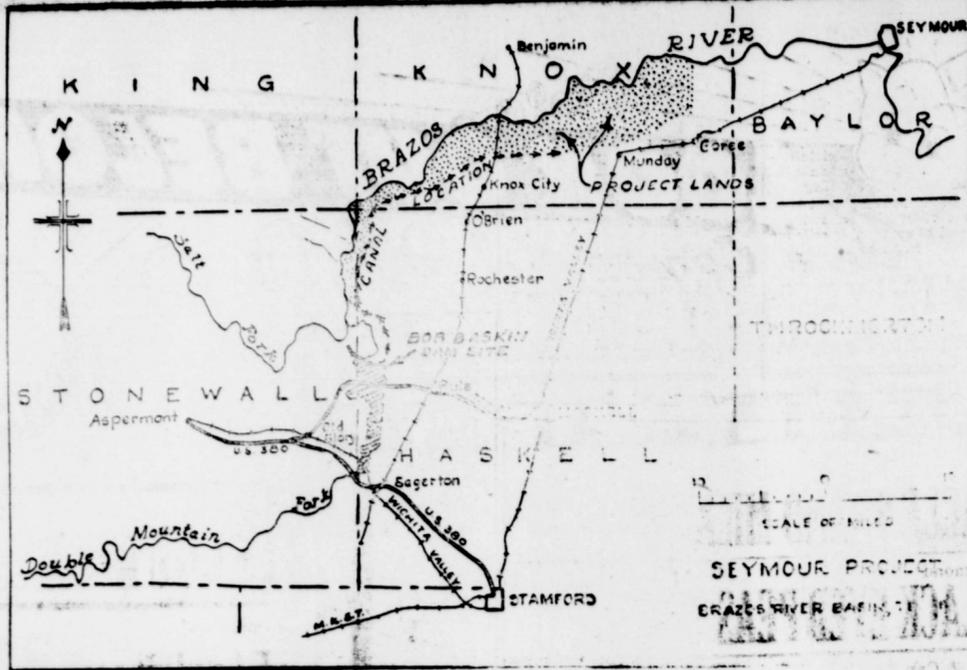

Mrs. Howard Sloan was host to members of the V-W Club when they met in her home.

The meeting was called to order with Mrs. J. C. Halliburton, Jr., leading several club songs. Timely topics were given by Mrs. Paul Grinstead. THDA was given by Mrs. Jean Rose. Slick tricks were given by Mrs. J. C. Halliburton, Jr. Games of recreation were played and gifts presented to winners. Club donated money for diapers for the Haskell hospital.

Each member brought items to be packed and mailed to Holland. A talk was given by Mrs. Vee J. Howle on the care of summer flowers.

Guests were Mrs. Vee J. Howle, home demonstration agent; Mrs. T. L. Stockton, Mrs. Paul Grinstead, Mrs. Grady Newsum, Mrs. Lee Bivins, Mrs. Jean Rose, Mrs. J. C. Halliburton, Mrs. W. G. Maynard Mrs. Adkins, a visitor.

Buyers and Sellers get results with Want Ads.

The map above shows the location of the proposed Bob Baskin dam site, four miles northwest of Rule on the Double Mountain Fork of the Brazos River. Purpose of the dam is to supply water at the city gates of possibly 25 towns in this area. It is also believed that 35,000 acres of land could be placed under irrigation. The project lands are shown in the upper part of Haskell County and lower Knox County. (Map courtesy of Abilene Reporter-News.)

Visitors in the home of Mr. and Mrs. Oscar Gipson Sunday, were Mr. and Mrs. Ralph Burton and children of Vienna, Georgia; Mr. and Mrs. Walter Dee Larned and family, Mr. and Mrs. J. B. Gipson and family and Mr. and Mrs. Herman Franklin and family, all of Haskell.

Mrs. Bonnie Davenport and son Benny Ray, of Fort Worth, visited in the home of Mr. and Mrs. L. H. Cooper, last Sunday.

WEEK VACATION IN MEXICO CITY
Courtney Hunt accompanied his daughter, Miss Madeline, to Abilene Wednesday morning, where she took a plane for Corpus Christi where she will meet Miss Louise Newman, former county home demonstration agent of Haskell, now living in Alice, Texas. They will go by plane to Mexico City for a two week's vacation.

VISITORS FROM
Mr. and Mrs. and two children of Haskell, are spending their vacation here. Date Anderson, mother in law of Mr. and Mrs. and son, Rick, visited with and Mrs. S. A. on vacation.

Watermelon Feast Given Members Of Sunday School Class
Nancy Collins, of Ft. Worth, was hostess at the home of her grandparents, Mr. and Mrs. J. M. Collins, to a watermelon feast, July 20, honoring the youth Bible Class of the First Christian Church. After the party, the class attended the revival meeting. Those present were: Wanda Williams, Yvonne Minnich, Paula Ratliff, Borden Worshem, Wyna Pherr Minnich, Jimmy Ratliff, Chan King, Martha Meaders, Gloria Ratliff, Nancy Collin, Mary Elizabeth Glass, and their teacher, Sue Pate and Wanda Dulancy.

Care Of Flowers Studied At H-D Club Meeting
"Some people overcrowd and over fertilize their flower beds," said our agent, Mrs. Howle, when she met with the Fannie Smith HD Club on Friday, July 23, in the home of Mrs. Jesse Smith. In her talk on Caring for Flowers in Summer, she stressed the fact that a mulch spread over beds gives protection from heat and keeps them moist. We were glad to have Mrs. Howle meet with us for the first time and enjoyed her discussion very much.
Mrs. Harris called the meeting to order and Mrs. Melvin Miller led Heavenly Sunlight as opening song. Nine members answered roll call with Demonstrations I Would Like to Have Next Year.
Club exhibits for the Fair was discussed. Mrs. Jesse Smith gave several slick tricks and served refreshments of ice cream and cake to Mesdames Tommie Ray Foster, H. Harris, E. B. Calloway, Haskell Stone, Marian Ray Stone, Rhee Alvis, J. R. Miller, J. M. Miller, Mrs. Howle and Mrs. George Large, Leakey, Texas, visitors.
Next meeting will be in the home of Mrs. J. R. Miller on Aug. 12.

Here's a different kind of dollar...

This is a telephone investor's dollar. It comes from countless individuals or business firms who invest money in telephone company stocks and bonds. This is a different kind of dollar because it is the only kind that can be used for telephone expansion. In contrast, the money received for telephone service is used to pay wages, taxes and other operating expenses. It also helps pay for the use of the investor's dollar. By operating on a sound, business like basis, we are able to attract the investors' dollars which help to give Americans the world's finest telephone service.

Southwestern Associated Telephone Co.

cation trip to Yellowstone Na-
tional Park and other points in
Wyoming.

ATTEND SILVER
ANNIVERSARY
Mr. and Mrs. Frank McCurley
attended the silver Wedding an-
niversary last Thursday in Mun-
day of Mr. and Mrs. Sidney Win-
chester.

RETURN FROM EIGHT
DAY TRIP
Mr. and Mrs. Roy Hodgins and
son, and Mr. and Mrs. T. J. Hod-
gins returned from an eight day
trip which took them to Illinois,
Indiana, Kentucky, Arkansas and
Oklahoma.

ACCOMPANY CHILDREN
HOME AFTER VISIT
Mr. and Mrs. John Atterbury,
Jr., of College Station came to
Haskell the past week end to
accompany their children, Joan
and John 3rd, home after a visit
with their grandmother, Mrs.
Elara Parish. Mr. and Mrs. Atter-
bury moved recently from Bay-
town to College Station.

Hardier Strain Blue Panic Grass Being Developed

A winter-hardy strain of blue panic grass, one of the world's most valuable forage crops which only the very warm-climate areas have been able to grow, is being developed for early use in North-

Central Texas and parts of Oklahoma. Blue panic grass has never been usable in these areas so far north before, because it couldn't stand the low temperatures. North Texas farmers and ranchers, who would like to plant this highly valuable forage grass, have had to stand by and see all this crop's benefits go to South Texas and the South Plains.

Soon, however, this monopoly is expected to be a thing of the past, due to the recent discovery of the new winter-hardy type of blue panic grass at the Woodward, Okla., nursery of the Soil Conservation Service's Fort Worth regional office. Indications are now that the blue panic, which looks like Johnson grass and is also a perennial, but which will not spread and become a pest, will be available soon to growers in far more northern areas.

Certain of the blue panic plants at Woodward were observed to survive temperatures as low as 10 degrees below zero. Aware that the Texas Research Foundation, at Renner just north of Dallas, was growing blue panic experimentally in order to develop a cold-resistant special, the Woodward authorities communicated their findings to Dr. Howard B. Sprague, head of the foundation's agricultural research division.

Cuttings and seeds of the new strain were shipped to Renner and are already in process of being propagated with all possible rapidity at the foundation's plant. Dr. Sprague and his associates are jubilant. The strains of blue panic previously grown in their experimental plots had come through the preceding winter, but not too robustly. These strains had proved worthy in every respect, other than the one uncertainty—that their survival in the often severely cold periods of North Texas winters.

The subzero survival of the Woodward strain meant that the grass could be expected to live throughout the cold and cool seasons.

"Blue panic grass, which has long been recognized as a superior forage plant in other sections of the world—notably the Hawaiian Islands—can hold its own against encroachment by almost any other plant, including Johnson grass," Dr. Sprague said.

Among other desirable qualities of the grass, which is known to science also as Panicum Antidote, are the following:

It has tremendous growth capacity, so much so that under favorable moisture and temperature conditions it will produce a crop every four to six weeks. It does not spread by strong creeping roots, as does Johnson grass.

It thrives with abundant moisture, but is surprisingly resistant to drought and heat.

It has seldom-excelled versatility for hay and pasture.

It has enormous capacity to respond to fertility.

The grass may have its greatest usefulness in rotations where sod land is alternated with cultivated crops.

Its value in the Southern and Southwest states has been gradually becoming more widely known following experiments and field trials during the past ten years; and the seed is already being sold commercially by a few southern firms.

CROP Milk Reaches Children Overseas

Thousands of refugee children, such as this one being fed by Sister Klara, Lutheran nurse in the Lobe Haus Children's home in Munich, have been supplied with milk through the contributions of American farmers to the Christian Rural Overseas Program (CROP), according to John D. Metzler, national chairman.

In the year ending June 1, CROP handled 75,668,581 pounds of farm commodities, valued at \$8,576,000. Included in this amount were 4,470,000 pounds of milk. Shipments were made to 22 foreign countries.

"Since milk is desperately needed, we shall strive to obtain a large quantity of it in the 1949 CROP campaign," Metzler said. "In many areas children over nine months still get no milk at all. Young ones get one-fourth pint a day."

CROP is sponsored nationally by Catholic Rural Life, Church World Service, and Lutheran World Service.

Texas Cattle Dollars

Texas cattle mean bread as well as meat for hundreds of thousands of Texans, for Texas cattle dollars help bring prosperity to every county of the state. Southwestern Life Insurance Company, operating in Texas exclusively, has played a part in the development of the cattle business. This strong company, during forty-six years of service, has loaned \$123,365,140 on real estate and a substantial portion of these loans has been on Texas farms and ranches. To policy owners of Southwestern Life insurance, sound loans such as these bring added assurance of sound protection for themselves and their families.

Cattle raising became a Texas industry in the shadow of the missions of San Antonio, where emissaries of Spain corralled wild cattle and turned them to economic use.

New Plymouth Two-Door Sedan

PRODUCTION has started on the beautiful new Plymouth DeLuxe Two-door Sedan, which adds a new low priced five passenger sedan to the other eight models announced in the new Plymouth line. R. C. Somerville, general sales manager of Plymouth Motor Corporation, said first shipments of the cars to dealers are scheduled for this month. The Two-door Sedan has the same 97 horsepower engine with a 7 to 1 compression ratio as all other Plymouth models. Somerville described the vehicle as a "smart, dependable family car designed for general all-around use."

views experiments proving that hogging-off grains is an economical practice, and makes gains fully as rapidly as feeding pigs in the dry lot.

Water, shade, minerals and a protein supplement are all that are needed when pigs are turned in fields for harvesting crops. Virginia Agricultural Experiment Station recently demonstrated that hogs need a protein supplement just as much when harvesting grains as when fed in the dry lot. In this test, 25 pounds of protein supplement was fed at the rate of one-half pound daily per pig.

An efficient protein supplement mixture consists of 40 pounds of cottonseed meal, 40 pounds of tankage and 20 pounds of alfalfa meal. One-half to one pound of the mixture, per pig daily, may be hand-fed dry, or mixed with water at feeding time. If grain is very abundant in the field, the protein supplement may be self-fed; but if grain is scarce, pigs will neglect the grain if the protein supplement is self-fed.

A mineral mixture of equal parts of bone meal, calcium supplement and salt should always be available, along with plenty of fresh water. Pigs should weigh 75 to 125 pounds when turned into fields. They may be finished to a weight of 180 to 200 pounds if grain is plentiful. When grain becomes scarce, pigs should go into the dry lot for finishing.

Marketing hogs when they weigh 180 to 200 pounds is strongly recommended by livestock authorities this season. Prices favor light-weight hogs, not carrying much fat; and lighter hogs make more economical gains.

Breeding animals should not be used to hog-off grain fields when grain is plentiful, but will profitably clean up fields after fattening hogs are removed. The amount of grain available determines the number of pigs to use in a field. With a protein supplement fed, about one bushel of corn daily will be eaten by ten pigs weighing 75 to 100 pounds, or by five shoats weighing 150 to 200 pounds.

Peanuts and soybeans may be hogged-off profitably, but will make undesirable "soft pork" unless pigs are finished on feeds, such as cottonseed meal, which make a firm carcass. Pigs may run on peanuts until they weigh 90 pounds, or on soybeans until weighing 100 pounds. They should then be finished on grain and a protein supplement mixture. An economical mixture is: 60 pounds of cottonseed meal, 20 pounds of tankage and 20 pounds of alfalfa leaf meal.

When picking up broken glass, dampen a piece of cotton and tap it over the surface where the small pieces of glass are lying. The cotton will pick up the tiny particles, and there will be less danger of cutting yourself.

CLUB MEETS, NEW HD AGENT PRESENT

New security was felt by the blue bonnet club members when the new Home Demonstration agent met with them for the first time in the new home of Mrs. Arthur Williams south of Rule.

Club members were very much elated over the \$25.00 check they received from the Stamford Cowboy reunion association as they won second place in the parade on their float.

Plans were made for the encampment at Leuders which is to be held August 5th and 6th. Mrs. A. C. Denison, president, presided over the meeting. Refreshments were served to the following: Mesdames C. Fox Clark, Raymond Astin, A. C. Denison, John Wendeborn, Fred Knipping, R. V. Hagle, Less Lewis, Joe Holcomb, G. E. Davis, Rex Murry, Edd Conner, Corbet Lytle, Miss Murel DeBard, H. D. Agent Mrs. Vee Howie, little Misses Sue Williams, Myrtle and Edith Murry and the hostess. The club will meet Thursday, August 4th, with Mrs. Joe Holcomb.

PLENTY

The Army no longer demands half the canned salmon output and there should be plenty of canned salmon — which may or may not be good news to some ex-veterans.—Christian Science Monitor.

THE STATE OF TEXAS

TO: CHARLEY L. GLOVER defendant. Greeting: You are hereby commanded to appear before the Honorable District Court of Haskell County at the Court House thereof, in Haskell, Texas, at or before 10 o'clock a. m. of the first Monday next after expiration of forty-two days from the date of the issuance of this citation, same being the 12th day of September, A. D., 1949, then and there to answer Plaintiff's Petition filed in said court, on the 1st day of June, A. D., 1949, in this cause, numbered D-1207 on the docket of said court and styled Minnie Glover Plaintiff, vs. Charley L. Glover, Defendant.

A brief statement of the nature of this suit is as follows, to wit: Suit for divorce, the plaintiff alleging marriage to defendant on June 10, 1931, and final separation in January, 1942, and that defendant abandoned plaintiff more than 3 years prior to the filing of her suit with the intention of abandonment; that plaintiff and defendant have no community property; that plaintiff and defendant have five minor children whose care and custody should be awarded to the plaintiff. Plaintiff prays judgment for divorce and for care and custody of all minor children, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Haskell, Texas, this 25th day of July, A. D., 1949. (SEAL)

Attest: JESSE B. SMITH, Clerk District Court, Haskell County, Texas.

Southwestern Life Reports Business Good This Year

Paid-for business amounting to \$55,624,604, a new record in the history of the Company, was written by agents of Southwestern Life Insurance Company during the first six months of 1949, it was reported by Wix B. Currie, local representative of the company.

"The agency force set a new record for production during a six-month period, and exceeded by 14.8 per cent the \$48,442,735 of paid-for business written during the first six months of 1948," Mr. Currie said. A second record was established as the Company's insurance in force advanced from \$697,208,140 to \$732,319,408 during the same time. "This increase of \$35,111,268 also is the largest in the history of the Company for any six-

month period," Mr. Currie reported. Southwestern Life's Board of Directors meeting in Dallas Tuesday, July 12, elected W. K. Gordon, Jr., of Fort Worth to the board to fill the vacancy caused by the death of his father, W. K. Gordon, Sr., on March 13, 1949. GEMS OF THOUGHT Time past and time present, both, may pain us, but time improved is eloquent in God's praise. —Mary Baker Eddy.

Unchanged To Lower Prices Reflected In Southwest Farm Markets

Despite advances on some products during the past week, most southwest farm markets paid unchanged to lower prices, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Many fruits and vegetables found weaker markets. Arkansas peaches sold \$1.25 per bushel lower. Supplies of peppers, squash cucumbers and watermelons were burdensome at New Orleans.

West Texas potatoes held steady at Fort Worth, but tomatoes, cantaloupes and watermelons lost. Despite lighter receipts of all kinds of livestock, most prices turned downward last week. As consumer demand shifted to hot weather specials, dressed meat found generally slow outlets, and many cuts sold lower than a week earlier.

Cattle markets continued to show widespread weakness, with cows, calves and stockers down the most at Texas terminals. Odd lots of good stocker calves changed hands at \$21 and \$22 at San Antonio Monday, and medium Brahmans \$17.50 to \$18.50. Medium and good stocker steer calves turned at \$17 to \$23 at Fort Worth.

Hog prices broke sharply about the middle of last week after several days' steady climb.

FOR ATHLETES FOOT. RESULTS AMAZING. SAYS REIDS DRUG STORE. By using TE-OL, a STRONG penetrating fungicide, you REACH imbedded germs to KILL ON CONTACT. You FEEL this quick-drying liquid take hold INSTANTLY. NOW, you must be pleased IN ONE HOUR, or your 35c back from any druggist. 27-4tc.

Net changes from a week ago varied by class and market, but most were lower for the week. Top butchers closed Monday at \$21 at San Antonio, \$21.25 at Fort Worth, \$21.75 at Oklahoma City, and \$22.75 at Denver.

Lambs and yearlings showed further declines this week at most markets, while ewes were uneven. Medium and good spring lambs brought 20 at San Antonio, and \$19 to \$21 at Fort Worth. Good and choice spring lambs cashed at \$22 at Oklahoma City. Denver paid \$25 for choice 83 to 97 pound San Luis Valley spring lambs.

Little trading took place in wool or mohair this week.

Barley prices advanced 10 to 11 cents a bushel during the past week, and wheat and oats around 4 cents. White corn declined almost 5 cents, but oats and sorghums showed little change. No. 1 ordinary wheat closed Monday at \$2.20 1/2 at Texas common points. No. 2 yellow milo brought \$2.15 to \$2.25 a hundred pounds.

Rice showed little change in price from last week although the market was fairly active for this time of year. Feed prices were strong to higher this week, with oilseed meals, meat scraps and tankage in the lead. Hay markets took on a firmer tone. Peanuts met with light demand, but prices remained firm.

Very good demand for spring chickens pushed prices up a cent or two higher than a week ago. Arkansas fryers delivered to Dallas at 30 cents a pound Monday, and Fort Worth paid mostly 27 to 28. Hens held barely steady to weak. Cuddled eggs moved in good demand. North Texas markets paid 45 for mixed and 50 for whites.

Losses on cotton for the week ranged from 1 to mostly \$3.50 a bale. Middling closed Monday at 30.55 a pound at Dallas and 31.05 at New Orleans.

MAN MAKES LOVE TO MOP!
Red Skelton had what he termed one of his toughest film assignments in MGM's new Technicolor musical, "Neptune's Daughter." He had to make love to a mop.

In a comedy sequence of the film, Skelton demonstrates how he would make love and uses the mop as the object of his affections. "But that wasn't the toughest part of it," says Skelton, "Both Esther Williams and Betty Garrett were in the scene." "Neptune's Daughter" comes to the Texas Theater Sunday and Monday.

VISITORS FROM TENNESSEE

Continued Lag In Retail Sales Shown In June

June dollar sales of Texas retailers lagged behind a year earlier for the fourth consecutive month, the University of Texas Bureau of Business Research reported.

Retail sales in Texas slid 7 per cent from May to an estimated \$395 million in June, dipping 1 per cent under June 1948.

Durable goods stores presented a 3 per cent gain over last year's sales in contrast to a 5 per cent decline in nondurable goods store sales. From the previous month, June sales slipped 2 per cent in durable goods stores and dropped 11 per cent in nondurable goods stores.

Motor vehicle dealers recorded the biggest June-to-June rise among both durable and nondurable goods stores with a sales increase of 21 per cent. Smaller gains over June 1948 were turned in by general merchandise stores, 4 per cent; florists, 3 per cent; and filling stations, 2 per cent.

Jewelry stores turned in the heaviest reduction of sales in comparison with June a year ago, their sales falling 20 per cent. June sales of lumber and building material dealers fell 16 per cent during the 12-month period; farm implement dealers, 14 per cent; office supply stores, 11 per cent; grocery stores without meats, 9 per cent; and shoe stores, 7 per cent.

With the exception of a 4 per cent increase in hardware stores, June sales of all durable goods stores declined from 1 to 10 per cent from the previous month.

In the nondurable goods group, food stores and filling stations increased their June sales 1 and 10 per cent, respectively, over the preceding month. Other stores registered decreases ranging from 1 per cent in eating and drinking places to 25 per cent in women's specialty shops.

CPL. THERWHANGER VISITING PARENTS
Cpl. Billy Therwhanger of Fort Lewis, Wash., is home on his first furlough to see his parents, Mr. and Mrs. Dick Therwhanger of Weinert. Cpl. Therwhanger has been in San Francisco, where he finished training in a special school in radio and in September he will go to Hawaii for a few weeks maneuvers. Therwhanger joined the Army last August.

GEMS OF THOUGHT
Honesty is one part of eloquence. We persuade others by being in earnest ourselves.—Hazlitt.

Fatal home accidents can result from the failure to identify a bottle before taking medicine or placing poisonous materials out of reach of children.

O'NEAL'S RECIPE OF THE WEEK
By Mary Lee Taylor

Barbecued Hamburgers

1 lb. ground beef
1/2 cup uncooked rolled oats
1/2 cup Pet Milk
2 teaspoons grated onion

1 teaspoon salt
few grains pepper
2 tablespoons hot shortening
1/2 cup bottled barbecue sauce

Mix thoroughly the beef, oats, onion, salt and pepper. With wet fingers, shape into 8 patties. Brown very slowly on both sides in hot shortening. Spread with barbecue sauce. Cook 5 minutes longer. Serve plain or in toasted buns. Makes 8 burgers.

You Will Need:

PET MILK
2 CANS ----- 10^c

GROUND BEEF ----- 39^c

ROLLED OATS ----- 16^c

How to keep cool — and carefree

This time of year there's one place a lot cozier and cooler than your favorite spot around the house.

That's in your Buick—finding a breeze along dusk-cooled highways, or following those little roads that lead to inviting "loafing grounds."

Either way, whichever pleasure trail you follow, you'll find more fun on the way if your Buick is in top-flight shape to take the miles in its steady stride.

How about letting us put it in that shape for you?

Get one of our conscientious motor tune-ups, and one of our thoroughgoing Lubricate treatments. We'll put the bounce back in your motor—while we're taking the bounce out of your ride.

We do this well because we're Buick men. We know your Buick, we've studied correct factory methods for each operation, we know the factory specifications your car was built to. We use genuine Buick parts—even special Buick tools!

Yet you don't pay a penny more for all these extras. Stop in this week, won't you?

HOW HIGH IS A TUNE-UP?
Our Buick tune-ups go far beyond adjusting your spark and carburetor. We cover a long list of things—your valve tappets, voltage regulator, fuel pump filter, coil, hose connections, and so on. We even tighten the cylinder head and clean off your battery terminals—and do all this at a low, low rate price that will surprise you!

4-H Youths Save 2 Million Gallons Of Tractor Fuel

Two million gallons of tractor fuel will be saved this year by 30,000 rural boys and girls as a direct result of putting into daily use practices recommended in the National 4-H Tractor Maintenance program, according to a recent analysis. Potential value of the program was estimated by an oil company official when he stated that if some three million American farm tractor operators had a chance to learn the 4-H way of tractor care, 200 million gallons of tractor fuel could be saved annually.

It was pointed out that in these days of declining farm prices, reducing labor costs by means of efficient tractor operation could make the difference between profit and loss in the farming business. One 4-H boy summed up the object of the tractor maintenance program in a few words when he said, "A good-running tractor means more cash in the pocket."

Texas 4-H Club members not only bring benefits to the farm through skillful tractor operation. But they also have an opportunity to compete for various individual awards. At the end of each year records are submitted to the Extension office where they are scored on the basis of accomplishment. The Stanolind Oil and Gas company, sponsor of the program in Texas, provides sterling silver medals for county winners; a trip to the National 4-H Club Congress in Chicago for state champion, and \$300 scholarships for 4-Hers having the best records in the nation.

Since the project was first inaugurated on a national scale in 1945, more than 110,000 Club members have learned how to keep a tractor in top-notch working order the year 'round. To do the job, 11,500 Club leaders in 41 states were trained in special tractor clinics set up throughout the country for this program.

Herman Schneiderjan of Gainesville won Coke county and state honors in 1948. Silver medals were awarded to 19 other county winners. The Cooperative Extension Service supervises the program.

Football Camp—
(Continued from First Page)
into their regular training period.
In asking for public support in this program, sponsors point out that approximately \$600.00 will be needed to carry on this program, and co-chairmen of the city-wide committee include Payne Hattox, J. E. Walling, Jr., and John F. Ivy.
Committee members selected by the chairmen include Ed Hester, Bill Fouts, Ted Marugg, Thos. B. Robertson, Jim Byrd, Chas. E. Smith, Alton Middleton, John E. Robison, Roy Cook, Scotch Coggins, Stanley Furth, Chas. Swinson, and E. R. Lowe.
A meeting of this committee has been set for Friday morning, August 5, in the chamber of commerce at which time final plans for the program will be completed.
The program will be under the direction of the high school coaching staff headed by Jack Roden, athletic director, and assistant coaches Ray Overton, Jr., and Roy Smith.
Roden is beginning his third year here as head football coach. Overton was on the Paint Creek coaching staff last year, with Smith, a 1919 graduate of McMurry College of Abilene, serving his first year as a coach. All Haskell coaches will attend the Texas High School Coaches Clinic and School which opens in Beaumont on August 1 for one week.

Baskin Dam—
(Continued from First Page)
within a 45-mile radius of the damsite.
They include Knox City, Benjamin, Goree, Munday, Peacock, Aspermont, Rochester, Rule, Weinert, Haskell, Hamlin, Stamford, Anson, Guthrie, Truscott, Lueders, Roby, Rotan, Jayton, Seymour, Throckmorton, Fort Griffin, Albany, Girard, Clairmont, Spur, Raineland, O'Brien, Sagerlin, Avoca.
D. A. Bantsee, West Texas Chamber of Commerce manager, submitted a plan to the group to ask the Bureau of Reclamation to make an immediate survey and report on supplying municipal and industrial water at the gates of the cities and supplying additional irrigation waters from the building of a reservoir at the Bob Baskin dam site.
Spokesmen at the water party pointed out that this new avenue of approach may have been opened by the recent Hoover Commission report.
Preliminary engineering reveals the proposed dam site to be practical, with an adequate watershed for impounding at least 315,000 acre feet of storage of water satisfactory for domestic usage and irrigation purposes. This size lake would impound more than Lake Phantom Hill.
It was pointed out that such a lake would make possible irrigation for at least 35,000 acres

of land in this locality.
Repayment to the federal government would be made by (1) sale of water to the cities, and (2) sale of water for irrigation purposes.
Another benefit to be derived from such a lake would be flood control. And it would contribute to wildlife, fish and game benefits commensurate to its size, and although such benefits are unrecoverable such project would be eligible for federal grants for these federally recognized benefits.
It was estimated at Thursday's meeting that such a dam as the proposed reservoir would cost approximately \$4 million. Also it was estimated that an additional \$4,200,000 would be needed for pipelines to the gates of the adjacent cities.
The late Bob Baskin, Seymour banker, started the Salt Fork dam project more than 22 years ago.

Wichita Valley—
(Continued from First Page)
to approximately \$23,000 last year, has announced it will take the railway mail permit from the Wichita Valley by January 1 unless improved facilities are added.
Mayor Hunt, commenting on the proposed discontinuance of service, said it was his opinion that if passenger service was now being maintained at a loss to the railroad, there would be little basis for opposition.
Ample transportation facilities are provided by bus lines operating through Haskell, others questioned on the proposal.
C. C. C. president A. C. Pierson, Haskell banker, expressed the view that it would be unreasonable to expect the railroad to maintain passenger service at a loss. "As a matter of civic pride, we are naturally reluctant to see the railroad discontinue their passenger facilities," Pierson commented.
In addition to affording passenger service, "The Doodlebug" has a mail contract and carries express. Postmaster Harold Spain said that most of the mail carried by the Valley consisted of parcel post, volume of which has increased steadily during the past few years. Volume of express shipments handled by the motor coach has declined in recent years, it was reported.
The Haskell Postmaster expressed the belief that if the passenger service is eliminated, that parcel post and other mail contracts would be handled on a "mixed" train, which probably could not operate on any definite time schedule.
The passenger service in question consists of one round trip between Abilene and Wichita Falls each day. The train—which has acquired the nickname, "Doodlebug," carries one passenger coach accommodating about 40 persons.

Haskell District Scout Meeting Slated Tuesday
Members of the Haskell County District Scout Committee will meet Tuesday night, August 2, at 8 p.m. in the Haskell Chamber of Commerce office, Judge Ben C. Chapman, District Chairman, said today. The meeting will follow the District Boy Scout Swim Pool at 6 p.m. The District Committee will consider what must be done to prepare for the age requirement change to become effective September 1. At that time boys eight years old may enter Cub Scouting, boys 11 years old may enter Boy Scouting, and boys 14 years of age and over will become Explorers either in their Troop or in a special Explorer Unit. Plans will also be completed for the fall finance campaign under the chairmanship of R. L. Britton. The following Community Campaign Directors have been appointed: Wix B. Currie,

Revival Meeting Begins Sunday At Sayles Schoolhouse
Rev. W. T. Priddy, pastor of the East Side Baptist Church, will begin a revival meeting at the Sayles schoolhouse southwest of Haskell next Sunday, July 31. The meeting, sponsored by the East Side Church Brotherhood, will continue through August 7. George Turner will be pianist. Prayer service will be held each evening at 8 o'clock, and preaching service will begin at 8:30.

Weinert Instructor Completes Driver Training Course
Jerrel Julian of Weinert has completed a specialized course in driver training and driver education at North Texas State College, Denton, which makes him eligible to teach driver training and education at Weinert High School next fall.
Deigned to meet the requirements of the State Board of Education, the course gives specialized information related to the driving of a motor vehicle and offers instruction and practice in the operation of the automobile which will enable applicants to qualify for drivers' licenses.

Aunt Of Haskell Woman Dies In Seymour Sunday
Mrs. Harvey Conklin longtime resident of Seymour and aunt of Mrs. Marion Reeves of this city, died Sunday in Baylor County Hospital following an illness of several years duration. Her husband who preceded her in death in 1912, was former Highway Maintenance foreman in Baylor county.
Funeral service for Mrs. Conklin was held Monday at 4 p.m. in Seymour and burial was in that city. She is survived by several brothers and sisters in addition to her nieces and nephews.

RETURN TO SAN DIEGO
Mr. and Mrs. Carl Marion, Alvin and Raymond have returned to their home in San Diego, California. While here they visited in the home of his parents, Mr. and Mrs. C. W. Marion and Mr. and Mrs. J. L. Toliver, other relatives and friends.

LEAVE FOR ROCHESTER, MINNESOTA
Mr. and Mrs. Hallie Chapman and daughter, Mildred, left Tuesday morning for Rochester, Minn., where Mr. Chapman will enter the Mayo Clinic on August 1st for a check up.

VISITING IN HASKELL
Mr. and Mrs. C. C. Bowen and daughters, Charlene and Erma Gay of Carlsbad, N. M., have been visiting this week in the home of his brother, E. N. Bowen of Haskell, and his sister, Mrs. H. E. Downey and family of Rule.
