

THURSDAY, MAY 13, 1852.

INDIANOLA, TEXAS.

Our readers will not be surprised to find that the weather has been very disagreeable here for the last few days. During the night of Wednesday, an extraordinary amount of rain fell here, and the water in the streets was several feet deep. The water in the streets was several feet deep. The water in the streets was several feet deep.

The "Alphabets" continue to enjoy all the attention they deserve. There is a great deal of interest in the "Alphabets" here. The "Alphabets" continue to enjoy all the attention they deserve.

For the "Alphabets" we are glad to announce that between this and the first of August, a new house will be opened in Indianola, by an able and experienced merchant. The house will be opened in Indianola, by an able and experienced merchant.

By accident we have fallen upon the Report of Col. Johnson, of the survey of the Colorado river over two years ago, and which was published at the time, we re-publish it as a document of much interest at this time. It was followed by...

BOYS AND LIGHT-HOUSES AGAIN. We cheerfully publish from the Galveston Journal, the following letter of Dr. William B. Smith, collector at Galveston. Until now we have not aware that Dr. Smith had any special control of the matter of boys and light-houses on our coast; and we would also add, that from all we know of him as a man and an officer, we should be the last to cast any censure upon him. In anything we have said we of course had no such idea, not knowing him at all in the matter.

THE STAR STATE CHURCH opened at the Pavilion on the public square last night, and will be open this afternoon at 2, and to-night at 7. With tonight's performance the audience were exceedingly pleased. Mr. Edgar's feat on the rope did him great credit, and to one who never witnessed such feats, would seem marvellous. As a general rule, we have an aversion to the justification and puffing all exhibitions of the kind; but as this is the only circus ever in this part of the country, and as the performance are as good as promised in the hand-bills, we think the country deserves a liberal passage to-day and to-night.

MATAGORDA PASS.

During the last week the Matagorda Pass has been very low, and the water in the bay is very low. The water in the bay is very low. The water in the bay is very low.

INDIAN CAMPAIGNS OF KUYKENDALL AND BROWN IN 1827.

In the winter of 1827, Mr. Thompson opened a small farm on the Colorado about 10 miles below where Batrop now stands. He planted corn, but considered it unsafe to move his family on to the place, and continued to reside in the settlement below, intending to move his family soon as produce should dictate.

THE STAR STATE CHURCH opened at the Pavilion on the public square last night, and will be open this afternoon at 2, and to-night at 7. With tonight's performance the audience were exceedingly pleased.

A TERRIBLE STORM.

The Louisville Courier, of May 10, in speaking of the storm which recently took place in that neighborhood, says: We learn from Mr. Vanhook, who was at Leavenworth at the time of the storm last Friday, that the force of the wind was terrific, and the town presented a most appalling appearance. More than half the inhabitants were rendered homeless, and their escape from destruction was most providential.
