

Indiana Bulletin.

JOHN HENRY BROWN, EDITOR.

INDIANOLA, TEXAS.

TUESDAY, JUNE 21, 1853.

TERMS OF THIS BULLETIN.

Subscription THREE DOLLARS AND FIFTY CENTS
half paid within six months, or FIVE DOLLARS
if not paid until the expiration of one year.
Advertisements, not exceeding a sum of ten dollars
per line, first insertion. One DOLLAR and
one half those charges will be made to those who
advertise by the year, with the privilege of
changing quarterly.

Postage extra, each insertion, one dollar, which will be
inserted for Tax DOLLARS per annum.

Advertisers must be bonded with the number
of insertions, otherwise they will be continu-
ed until paid, and charged accordingly.

All communications must be addressed to the Pub-
lisher, *Indiana Bulletin*.

CANDIDATES.

FOR CONGRESS.

We are authorized to announce Maj. W. R. SCOURY, as a candidate to represent the Western District of Texas in the Congress of the United States.

We are authorized to announce Governor P. HANSHOROUGH BELL, as a candidate to represent the Western District of Texas in the Congress of the United States.

We are authorized to announce G. K. LEWIS as a candidate for Congress.

FOR GOVERNOR.

We are authorized to announce Hon. E. M. PEASE, late Senator from Brazoria, as a candidate for Governor of this State.

We are authorized to announce Gen. CHAMBERS as a candidate for Governor.

FOR THE SENATE.

We are authorized to announce JAMES T. VILLE, Esq., as a candidate for the State Senate for the counties of Calhoun, Jackson, Lavaca, De Witt, Victoria and Goliad.

At the solicitation of many friends in La Vaca and other counties, Dr. N. CHAMBLISS of La Vaca, has consented to stand in nomination at a special election to be held in the next Senate for the district composed of La Vaca, De Witt, Goliad, Calhoun, Victoria and Jackson.—A democrat and an old soldier, he has done good service when service was wanted.—The candidates of the people, if elected, we will represent the people of our districts.

Newsroom Correspondent.

La Vaca county, April 10, 1853.

FOR REPRESENTATIVE.

We are authorized to announce WILLIAM M. VARNELL, Esq., as a candidate to represent Calhoun and Jackson counties in the next Legislature.

We are authorized to announce FRANCIS M. WHITE, Esq., as a candidate to represent Calhoun and Jackson counties in the next House of Representatives.

DIRECT FOREIGN TRADE.—We would call attention to the Baltimore advertisement in another column. It is a part of the late measures taken to build up Baltimore as a great southern importing and exporting port to and from foreign ports direct.

Those who are fond of soda, with ice can be gratified at the drug store of J. M. Reuss & Co.

De Bow's Review, for June, comes to us filled with a rare collection of valuable matter—among them a paper from Lieut. Maury on the importance of the Valley of the South American Amazon to the United States, urging the necessity of our government and people taking speedy measures to secure the trade of that great region, so little known. Lieut. M.'s developments of its extent, wealth and importance are truly startling. He contends that New Orleans should reap a golden harvest from it. Surveys are now being made of it by U. S. Surveyors and the President of Bolivia is anxious for the U. S. to introduce steam navigation on those waters.

ANOTHER SOUTHERN WORK.—"The MISCCELLANY AND REVIEW."—We have received the fifth number of a monthly magazine, bearing the above title and published at Memphis, Tennessee and St. Louis, Mo.—J. Ebbet & T. F. Risk, editors. The work contains about 60 pages and is very handsomely printed; and we find the number before us well filled with choice Southern literature and miscellany—in so much that we can but wish it success. Our friends from Kentucky, Tennessee, Mississippi and other bordering States, will find it exceedingly interesting. The price is \$2 per year in advance; or this work with either the Memphis Weekly Whig, Enquirer, Express or Christian Advocate will be sent at \$3; or it with the Appeal at \$4.

The company who went from Indiana to the mines about six weeks ago are now arriving at home, crowned with a failure. From Mr. D. S. Woodward, one of the party, we learn that they found a beautiful country, but no gold.

We are glad to see at home again our esteemed friend Major E. R. Babcock, Quarter master at Indiana, who has been for some time in San Antonio.

Quite a number of German emigrants arrived by the Mexico and more are expected.—They are hastening to the interior with the view of opening farms.

We regret to learn that Capt. John Tumlinson, one of our old and faithful rangers, died recently at his residence, near Yorktown, De Witt county.

FROM MORO.—The schooner Emma de Rosay, Capt. Ames, arrived from Mobile on Sunday, with 80,000 feet of lumber to H. Ringo & Co.

TROOPS FOR TEXAS.—The Secretary of War has just ordered two hundred recruits for the 5th Infantry, to embark at N. Y. or for Indiana, to march from thence to join their regiment, which is on the Northern frontier of Texas.

A DERBY FROM WASHINGTON.—The San Antonio Ledger says that the large land-holders who subscribed to the railroad and who are to be most benefited by it, are now refusing to pay their instalments and are making efforts to throw discouragement on the whole project.

The Hon. Wm. C. Rives, late Minister to France, arrived at New York in the Arctic.

CROPS.—The Austin American says lately they have had a number of showers. The prospect of a good crop is flattering.

AUGUST ELECTION.

THE DIFFERENCE.—On Tuesday morning last the schooner Nebraska, from New York, drawing only six and a half feet, was endeavoring to pass up the narrow channel to Port Lavaca, but grounded, and there she remained, notwithstanding lighters were employed to take off portions of her cargo, for five days, and then, being lightened, reached her destination, whence the same difficulties may be encountered on her return trip. This is but one of the often occurring instances of this kind, proving clearly that narrow channels within the body of a bay, do not answer the demands of commerce, and never will unless from sheer necessity, which does not exist on this bay. Every one who knows anything of Lavaca bay knows full well that it is literally chequered with bars, shoals, middle grounds, narrow and crooked channels, with an average depth as shown by the Government Engineers in 1847 and 1852-3, of from 6 to 7½ feet, while the main bay of Matagorda, as shown by the same officers, with an average depth of eleven to twelve feet, is free from both shoals and bars and, could vessels of 11½ feet cross the outer bar, they could always ascend to the lower harbor of Indiana.

To illustrate the difference in the advantages and disadvantages of running vessels to Lavaca or any new point on that bay, and to the principal harbor of Indiana, we have but to cite another instance, to wit: That while the Nebraska, drawing but 6½ feet, lost five days, besides the heavy expense of lightering in trying to reach Port Lavaca, the steamship Mexico, Capt. John Y. Lawless, drawing nearly nine feet, on Saturday at 11 a. m., landed at the wharf of Leon, G. K. Lewis of Nueces.

FOR SENATOR.—District of Calhoun, Jack-son, La Vaca, De Witt, Goliad and Victoria; James T. Lytle and Dr. N. Chambliss.

FOR SENATOR.—District of Matagorda, Wharton, Brazoria and Fort Bend—Guy M. Bryan, without opposition.

FOR SENATOR.—District of Gonzales, Guadalupe, Comal, Hays and Caldwell; Wm. H. Jones and Dr. Teel.

FOR REPRESENTATIVES.—Calhoun and Jackson, Francis M. White and William M. Varnell.

Lavaca and De Witt—Amasa Turner & George M. Reid.

Victoria and Goliad—D. M. Stapp.

Gonzales—Stephen H. Darden and Benjamin Weeks. A third candidate is spoken of.

IN BEXAR—the number is legion—to numerous to mention—Van Dorrip, Paschal and others for the Senate—Maverick Gillock, Edwards and others for the House.

FOR SENATOR.—in the Rio Grande and Corpus Christi district, Judge Webb and J. H. Darst.

In Travis, Bastrop and Fayette, there are numerous candidates and the contest is warmly conducted—among them we are glad to see the name of that old and faithful member, Judge William Menefee, so well known as "Uncle Bill." We should be glad to see him elected, though we have no wish to intermeddle in the affairs of another district. Texas has, however, had no more faithful legislator. Judge Oldham, one of his opponents, is most highly spoken of.

"We are told that the citizens of Indiana are forced to bring their water nine miles."—*Saxa Letter.*

We do not accuse the editor of the Ledger of falsehood, for we too have had an opinion of that paper to believe it would under an intentional entrust; but we do assure him that a more base-faced falsehood was never told him. The Ledger has been grossly misled by some one. In the first place Indiana is reasonably well supplied with eastern water now, after a long drought. In the second place, we have, and always have had, thousands of stock wells in the town, in the shallow wells, of which we have at least 100, and we venture the opinion that either of the two of the proprietors of this paper would supply water to abundance for stock, cooking and washing for the entire town. We have always had inexhaustable quantities of this well water; but for drinking purposes, eastern water is greatly preferable. Now, we ask, why is it that falsehoods of the blackest hue are so often so industriously circulated through the country to injure Indiana? Why is it—Every man of sense and candor who has observed these things must admit that they all emanate from the same source—from those who are envious and jealous of the rapid growth of Indiana—those who know that she possesses greater natural advantages than any town in the Bay, and having outgrown all, is the object of their jealousy. We repeat all that honest and candid men on and near the coast knew this to be true; and as the Ledger has published an error to our injury, we hope it will correct the same.

We can only suppose that this statement, if not intentionally imposed upon the Ledger, was intended to apply to Port Lavaca. We know nothing of her present supply of water, but suppose they are well supplied with cisterns. In 1847, however, as in 1849 and 1850, they had to haul water from Friend's creek, 10 miles, and in 1847 it cost them 50 cents per barrel, since then they have built cisterns and a tank for stock water, and we suppose, have a fair supply of both.

(For the Indiana Bulletin.
Maurer. Eds.)

Allow me to say a good word for the restaurant of Monsieur Eugene, near the wharf of Bafford Sparks & Co. I must say that I have no where in Texas seen a better table spread. Monsieur Eugene furnishes every thing that the heart could desire, and prepares his dishes in the most approved American and French styles. On Sunday morning I breakfasted at his table with 18 others, and can truly say, I was astonished at the luxurious repast set before us. No one can patronize that house without being satisfied.

MEXICO.—The Brownsville Flag of the 1st inst. has the following from Mexico:

Col. Cruz, commanding the line of the Bravo, has been appointed Prefect of the Department of Matamoros.

Col. Cruz, commanding the 1st. Inf. Regt. They are subject to the Governor and Commanding General, Wool, in every measure which they may adopt.

AN AMERICAN YACHT, named Transi, has just come of victory, a youth of 18 years, from the Gulf of Guayaquil, under the auspices of the Prince of Wales Yacht Club. She belonged to the second class boats in the race, but beat all the fleet easily.

BOUNDARY SURVEY.—Lieut. Whipple, with seven assistants, started from Washington on the 30th ult., for Fort Smith, Arkansas, where he will organize his party, and proceed to survey the Pacific Railroad route, via Albuquerque.

THE SOUTH WESTERN AMERICAN says lately they have had a number of showers. The prospect of a good crop is flattering.

MEMPHIS CONVENTION.—The convention met on the 6th inst. The Hon. Wm. C. Dawson was elected President, and Rev. C. H. Marston, of Mississippi, Secretary. Twenty Vice Presidents were elected from the General Land office, and members of the United States Congress, Senators and Representatives to the State Legislature.

It is an important period for our State.

The grave subjects of our public debt, internal improvements, education and the temporal welfare of our river navigation, engage most of popular attention at this time.

Upon the coming legislature may devolve the high responsibility of placing the State upon progressive grounds on these measures, so vastly important, or of checking the enterprise and public spirit of the State.

We propose now to present our readers with the names of all candidates for State offices and of those for the Legislature in this portion of the State, viz:

FOR GOVERNOR.—E. M. Pease of Brazoria.

John W. Dickey of Fayette, Thos. J. Chambers of Liberty, James W. Henderson of Harris, M. T. Johnson of Shelby, Lemuel D. Evans of Harrison, and G. T. Wood—7.

FOR LIEUTENANT GOVERNOR.—Dr. Jerome P. Robertson of Washington, and Dr. D. C. Dickson of Grimes.

FOR CONGRESS.—Gen. M. P. Bass of Bexar.

R. Scoury, as a candidate to represent the Western District of Texas in the Congress of the United States.

We are authorized to announce Governor P. H. Hanshorough Bell, as a candidate to represent the Western District of Texas in the Congress of the United States.

We are authorized to announce G. K. Lewis as a candidate for Congress.

FOR GOVERNOR.

We are authorized to announce Hon. E. M. Pease, late Senator from Brazoria, as a candidate for Governor of this State.

We are authorized to announce Gen. Chambers as a candidate for Governor.

FOR THE SENATE.

We are authorized to announce James T. Ville, Esq., as a candidate for the State Senate for the counties of Calhoun, Jackson, Lavaca, De Witt, Victoria and Goliad.

At the solicitation of many friends in La Vaca and other counties, Dr. N. Chambliss of La Vaca, has consented to stand in nomination for the district composed of La Vaca, De Witt, Goliad, Calhoun, Victoria and Jackson.—A democrat and an old soldier, he has done good service when service was wanted.—The candidates of the people, if elected, we will represent the people of our districts.

The Hon. Wm. C. Rives, late Minister to France, arrived at New York in the Arctic.

CROPS.—The Austin American says lately they have had a number of showers. The prospect of a good crop is flattering.

STALE SLANDERS.—One of the stale slanders of those who prefer slandering their more successful rivals instead of relying upon their own advantages (owing of course to their having no sufficient advantages to rely upon), is that Indiana is a low place and is surrounded by a low marshy prairie. The average height of the first shelf upon which Indiana stands is five feet above average tides; but we appeal to every waggoner who comes here to say if he anywhere finds so dry, clean and pleasant ground to camp on, as on this clean shelf of shell upon which our town stands. The more the rain the cleaner and more pleasant our streets and yards. As to being surrounded by low marshy prairies, it is simply false. The general elevation of the prairie, for miles around Indiana, except the mere inlets and bayous connecting with the bay, is the average height of the first shelf upon which Indiana stands, five feet above average tides; but we appeal to every waggoner who comes here to say if he anywhere finds so dry, clean and pleasant ground to camp on, as on this clean shelf of shell upon which our town stands. The more the rain the cleaner and more pleasant our streets and yards. As to being surrounded by low marshy prairies, it is simply false.
