JOHN HENRY BROWN, EDITOR. INDIANOLA, TEXAS.

WEDNESDAY, MARCH 22, 1884.

TERMS OF THE BULLETIN.

Subscription THREE DOLLARS PER ANNUM IN ADVANCE. THREE DOLLARS AND FIFTY CENTS IF PAID WITHIN SIX MONTHS, OR FOUR DOLLARS IF PAID UNTIL THE EXPIRATION OF THE YEAR.

We are authorized to announce Leonard H. Woods as a candidate for Clerk of the District Court of Calhoun county at the August election.

Remember the Ladies' Supper, to-morrow (Thursday) evening at 7 o'clock in the saloon over "Office No. 2."

The subject of a called session of the Legislature to meet next fall is already in agitation. The Marshall Meridian and San Antonio Texas are both in favor of the policy.

The subject is one of much importance, and deserves to be well understood before being adopted. The demand for railroads throughout the principal divisions of Texas is so great that the people seem to desire their construction at almost any cost.

The price of admission and supper is but a dollar—youths half price. The brass band will be on hand to assist Cupid in wearing his nose, and there will be divers and sundry other amusements gotten up especially by the gay ducinas to electrify the guests with those delights peculiar to such social reunions.

The decision of Judge Watrous in the case of Langue vs. Jones, involving land titles on St. Joseph's Island, has been reported as somewhat remarkable; and by some of the ablest lawyers pronounced contrary to law as universally understood.

The Supreme Court, the judgment in the case of Smith & Agry vs. Power, in which the new location was held good against the old grant, has been suspended, on account of there being several other suits involving the same points, and in which the attorneys wished to be heard.

The steambark Kate Ward left for the Colorado raft yesterday. Since the late war we learn there is ten feet water in the canal, and about four feet at low water; but it will soon wash out a wide and deep channel, and hence the navigation of the Colorado may be considered certain.

Funeral Obsequies.—We are requested to say that the funeral obsequies of the late lamented Dr. Moses Johnson will take place in Lavaca at 10 o'clock on next Sabbath according to Masonic custom, of which Order the deceased was a highly prized and prominent member.

COTTON GIN.—We have been shown two samples of ginned cotton, from Matagorda county. The one was ginned by the gin in common use—the other by the new gin manufactured at Waterbury, Connecticut, and described in our paper two or three weeks ago, both samples taken from the same article of cotton.

ACCIDENTAL DEATH.—We understand that a few days since two small boys were playing with a pistol in Matagorda, when it fired and killed one of them instantly.—This is but another melancholy warning.

The Austin State Gazette warmly opposes the proposed mail route from Indianola to that city, via Yucaas, Hallettsville, &c. Sanble. Go for the shortest, quickest and cheapest route always.

Mr. Benjamin lately presented a memorial of certain citizens of Louisiana, asking Congress to leave to Louisiana a bill against the United States to test the liability of the United States for the debt of Texas.

TERANA CORRESPONDENCE.

BY D. DENNETT.

WHAT NEXT?—The "loan bill," then, is dead, and the brilliant hopes that hung on it, are dead also. By this event the "San Antonio and Mexican Gulf Railroad" is "twice dead, and plucked up by the roots."

Now that these two questions are settled, the citizens of our bay towns are relieved of a feverish excitement, which hopes and fears have kept up late. What next is now a very natural question in relation to affairs on La Vaca and Matagorda bays.

Mr. Gleason declines a re-election as District Attorney, an office which he has filled with great satisfaction to the people for six years, having been three times elected without opposition.

A private letter from London to the New York Times, states that Kossuth delayed his visit to Constantinople for fear of being arrested by Austria, and adds: "I am positively informed that the day of his proposed embarkation, and the vessel which was to have taken him were known at Vienna before hand."

The schooner J. A. Ritz has arrived from Boston with a full cargo of ice for Cleveland's ice-house, which has all been deposited safely.

The Paris correspondent of New York Herald, writing on the 9th ult., has the following: "The Emperor of the French has held a solemn convocation, at which his Ministers, Marshals, and the chief officers of his Empire were present."

His Majesty is understood to have spoken with great firmness and with unwonted freedom. The ground of litigation from the commencement of the dispute concerning the Holy Places, the report of M. Lavalette, the appointment of M. De la Cour, was rapidly passed over.

Lord Raglan, lately appointed to the command of the English troops to cooperate with France, is a Peer of the Realm, Master General of Ordnance, the second military officer in the Kingdom, and Lieutenant General of the army.

The Washington Union announces that the paper will henceforth be under the "exclusive control" of Mr. Nicholson, who, it is understood, has bought out the interest of Mr. Harris, Gen. Armstrong's son-in-law.

PARADES.—A grand celebration came off to-day in this city, in honor of the consolidation of all the Districts, &c., into one city, which has now gone into effect.

GENERAL.—Intense excitement prevailed at Athens. Large bodies of the students and other classes of the population, had called upon King Otto, and demanded that they should be led against the Turks.

THE CALIFORNIA NEWS.

THE CALIFORNIA NEWS.

President Walker and his filibusters seem to have obtained, at little cost, undisputed possession of Lower California. The intelligence from Mexico, shows that Santa Anna, despite the unlimited supply of possession over the army, it is no condition to bludge them.

**NEW MEXICO.**  
The St. Louis Republican of the 28th inst. contains an article dated Birmingham, Ala., Texas, N. M., January 28, 1854, from which we make the following extracts:

Carson, Hatcher, Maxwell and others have recently returned from California, after making a very successful venture with sheep there. Average price from six to seven dollars per head. Carson doubts whether they will command such prices after this spring, as he has a drop of near one hundred thousand going into California, because of the Gila.

St. Yells, Hatcher and Maxwell form a party for the South early in the coming month. They expect to return by June or July with a large train of merchandise, etc. St. Yells and Hatcher have purchased a unit of wagons, about forty in number, which they will send in about the time they start.

The Pacific Railroad occupies a good deal of attention and thought here. Those who have an interest, landed or otherwise, in this valley, are strongly for the "Rail Route" route via Coahuila, while Carson, after his last return from the West to the Pacific will have his opinion as to rail-road to the Pacific will be built north of the Gila.

There is but one opinion in this part of the Territory, with regard to the murder of Gunnison, that it should be punished by a prompt and decided blow upon those United States who are guilty of the crime. Let the cost be what it may, in men, money or time. Not a mere scout of a company of dragoons, sent out for a few weeks or so, but a well organized expedition, divided into battalions sufficiently strong to accomplish what they are sent for, to move into the heart of the country, and not to quit until those Indians are thoroughly subdued. While at the same time a feeling of dissatisfaction prevails here, as learning that the Mexicans had endeavored to induce those Indians to give up Gunnison's notes, valuable, etc., by offering them presents, I see that Hatcher mentions in his journal the great massacre of Hatcher and his party executed upon them, and says that if they had a few red blankets, tobacco, etc., to have distributed among them, they would have had no trouble, etc.

This is not the way to deal with those fellows. They should be taught to offer no molestation to peaceful parties of whites passing over the country, and the inducement to molest should be the fear of punishment, severe and speedy, not red blankets.

Gen. Garland's military policy so far has been that of change. Fort Massachusetts, situated upon the Utah Creek, has had its garrison withdrawn, except two men to look after the property there. Carson, who at the solicitation of the people of this valley, has accepted the Utah and Apache agencies offered him, will recommend strongly that it be reorganized, as it exercises by its position a great control over the movements of these two tribes towards the settlements.

From Wm. W. Cook, Druggist,  
Brazosville, Michigan, Feb. 5, 1853.  
Messrs. B. A. Fabian & Co.  
Gentlemen—I have had a great sale for your Vermifuge. Besides what you sent, I bought, with Bradford and White's stock of drugs, over five dozen—nearly the whole of which is sold. It does great execution among the people. A Mr. Joseph Parker gave his son, nine years old, three bottles of your Vermifuge, and it brought away nearly thirty feet of tape worm! Daniel Odell gave two bottles to a child four years old, and it passed about one hundred worms, nearly a foot long, and many smaller ones came away, and the child is well. As soon as my next order comes, I shall order an additional supply. Respectfully yours, &c.
